Mr. Hollobone: To ask the Secretary of State for Health pursuant to the answer of 23 November 2005, *Official Report*, column 2109W, on diabetes, what guidance on the use of insulins her Department has issued to inform decision making by *(a)* patients and *(b)* clinicians; and what steps she has taken to provide information on the risks and benefits of all insulin regimes. [40450]

Ms Rosie Winterton *[holding answer 9 January 2006]:* The choice of insulin prescribed to a patient is a clinical decision made as a result of a joint decision making process between the patient and their clinician taking into account all available evidence and the individuals specific clinical needs. From January 2006, the national Institute for Clinical Excellence (NICE) guidance on patient education will require all primary care trusts to implement NICE recommendations by providing all people with diabetes with high quality, structured education which should include information on insulin use.

EU Committees

Angus Robertson: To ask the Secretary of State for Health how many meetings of the EU Pharmaceutical Committee have taken place during the UK Presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38777]

Jane Kennedy: During the United Kingdom Presidency, the Pharmaceutical Committee met in Brussels on 12 September and 2 December 2005. On both occasions the meeting was chaired by a senior official from the Commission, which is the norm for this committee. The UK's role was largely unaffected by the Presidency, other than reporting on Council Presidency business. At the 12 September meeting the UK was represented by senior officials from the Medicines and Healthcare products Regulatory Agency (MHRA) and the Veterinary Medicines Directorate; at the 2 December meeting, the UK was represented by two senior officials from the MHRA. The UK members of the Pharmaceutical Committee represent UK-wide interests on the Committee and work in co-operation with the Scottish Executive and other Devolved Administrations as required.

Eye Tests

Mr. Caton: To ask the Secretary of State for Health (1) what representations she has received from ophthalmologists and opticians about the retention of the nationally negotiated sight test and fee; [35062]

(2) what representations she has received from ophthalmologists and opticians on the continuation of the right of optometrists and registered corporate bodies to hold a local general ophthalmic services contract. [35063]

Ms Rosie Winterton: We have received letters from optical representative bodies and from honourable members on behalf of opticians in their areas seeking reassurances in relation to the effect of the clauses in the Health Bill concerning General Ophthalmic Services (GOS).

I met with the three main optical bodies on 27 October 2005. They raised the issue of the continuation of the right optometrists and registered corporate bodies to hold a local general ophthalmic services contract. I assured them that we envisage the sight testing service operating like the GOS system now. Contractors, who meet agreed national criteria, subject to local decision on matters such as quality of service, will be able to have a GOS contract. Patients will be able to choose a GOS contractor who provides their sight test. We also envisage continuing to have a centrally negotiated sight test fee with access to sight tests not being constrained locally by individual primary care trust budgets.

Food Labelling

Mr. Hollobone: To ask the Secretary of State for Health what changes the planned amendments to food labelling laws will make to the information and choice available to consumers on genetically modified derivatives. [38971]

Caroline Flint: Rules for the labelling of genetically modified food products are provided by Regulation (EC) No 1829/2003 of the European Parliament and of the Council of 22 September 2003 on genetically modified food and feed and the related national regulations, The Genetically Modified Food (England) Regulations 2004. There are no current plans to change the labelling of genetically modified food under these regulations.

The Regulations require that foods, which contain or consist of Genetically Modified Organisms (GMOs), or are produced from or contain ingredients from GMOs, are labelled as containing or consisting of genetically modified ingredients. This includes ingredients such as glucose syrup, maize flour and soya oil.

Mr. Austin Mitchell: To ask the Secretary of State for Health what assessment she has made of the impact upon *(a)* existing brands and *(b)* consumer confidence of the proposed regulation of nutrition and health claims on food packaging and the prohibition of endorsements from healthcare professionals; and whether compensation will be available to businesses adversely affected. [39447]

Caroline Flint: The introduction of new safeguards is expected to increase consumer confidence in claims made for food products and to help consumers when making healthy eating choices. A partial regulatory impact assessment (RIA) on the impact of this proposed European Parliament and Council Regulation is available in the Library. This is being revised in light of the latest position and comments from interested parties.

During the first reading stage of the negotiations, the United Kingdom played a key role in securing deletion of various proposed bans on health claims. A prohibition on endorsements by individual healthcare professionals in labelling and advertising remains in the text and officials are exploring the potential impact of this prohibition on existing claims. Some stakeholders have expressed concern that this ban would apply to all advice by healthcare professionals However, only claims made in commercial communications would be affected.

Mr. Austin Mitchell: To ask the Secretary of State for Health what consideration she has given to the way in which the Food Standards Agency should assess which charitable and healthcare organisations should be permitted to give endorsements to food products under the proposed regulation of nutrition and health claims made on food; what assessment she has made of the impact of this new regulation on the incomes of charities; and if she will make a statement. [39451]

Caroline Flint: The original proposal for an European Commission regulation on nutrition and health claims made on food sought to ban claims which referred to the advice of doctors or other health professionals, or their professional associations, or charities. The partial regulatory impact assessment recognised that this would seriously affect a number of charities and helped to inform United Kingdom policy. The UK was largely responsible for overturning this aspect of the proposal during the first reading stage of negotiation, in favour of control of endorsements or recommendations being left to national rules.

It is intended to introduce best practice guidelines to the food industry, medical associations and health charities, but there are no plans to introduce a list of charities or healthcare organisations permitted to make recommendations or endorsements of food products. The Food Standards Agency expects to consult on the guidelines before the regulation is adopted.

Food Supplements

Mr. Austin Mitchell: To ask the Secretary of State for Health if she will make a statement on progress of the EU proposal for a regulation on the addition of vitamins, minerals and other nutrients to foods; what her objectives are for the negotiations on this legislation; what assessment she has made of the implications for the setting of maximum permitted levels for nutrients in food supplements under article 5 of the food supplements directive of the proposed authorisation of the fortification of foods under this new regulation; and if she will make a statement. [39795]

Caroline Flint: The proposed European Parliament and Council regulation on the addition of vitamins and minerals and other substances to foods has completed its first reading under the co-decision procedures and is due to begin its second reading in the European Parliament. The United Kingdom has achieved key objectives during the first reading phase of protecting traditional products and of introducing harmonised European Commission arrangements for assessment and possible action concerning the safety of substances other than vitamins and minerals. Our objective is to help steer this proposal to adoption to ensure consumer protection and harmonised rules within the single market.

The proposal provides for the setting of maximum amounts for vitamins and minerals in foods, not food supplements, which must take into account a scientific risk assessment and intakes from other dietary sources, including food supplements. Article 5 of EC Directive 2002/46/EC on food supplements already contains a similar provision.

There are, as yet, no EC proposals for the setting of maximum levels for vitamins and minerals, and the Government have made no assessment in relation to their application to food supplements or the fortification of foods. Once proposals come forward, a regulatory impact assessment will be prepared and published for consultation.

Mr. Austin Mitchell: To ask the Secretary of State for Health what assistance will be made available to small and medium-sized enterprises from *(a)* the Government and *(b)* the European Union in relation to the costs of compliance with the provisions of the Traditional Herbal Medicinal Products Directive; and if she will make a statement. [39450]

Jane Kennedy: The Medicines and Healthcare products Regulatory Agency has to date held around 60 meetings to offer regulatory advice to individual companies on their initial plans to register traditional herbal medicines. These meetings are helping companies to use their resources effectively in preparing to meet the requirements of the new registration scheme. The Small Business Service offers guidance and information on new directives and regulations on its website at www.businesslink.gov.uk. The website also sets out the range of support, not linked to specific legislation, that is offered to small business.

GM Crops

Alan Simpson: To ask the Secretary of State for Health (1) if she will list all tests carried out for the unauthorised presence of Bt10 in imported *(a)* maize, *(b)* maize products and *(c)* processed foodstuffs intended for (i) animal and (ii) human consumption; and which tests were (A) positive and (B) negative; [38979]

(2) if she will list all tests carried out for the presence of the illegal GM maize variety Bt10 at *(a)* British ports and *(b)* other entry points since March 2005; and which tests were (i) positive and (ii) negative. [38984]

Caroline Flint: The sampling of animal feeds (corn gluten feed and brewers' grains) for Bt10 has been carried out by local authorities within their jurisdiction since March 2005. The Food Standards Agency (FSA) does not hold information on the samples taken or the number of samples tested. This information is held by the authorities, which carried out sampling. The FSA is not aware of any sample that was tested and found to be positive for the presence of Bt10 maize.

The FSA has carried out its own survey in order to increase the number of samples tested for Bt10 maize. The intention of this survey was to sample consignments of raw or minimally processed maize products for animal and human consumption coming into the United Kingdom from the United States of America either at ports or at importers or feed mill premises. Results will be published in early 2006 in accordance with FSA's guidelines on surveys to publish results within 20 weeks of sampling.

GPs

Mr. Amess: To ask the Secretary of State for Health (1) whether general practitioners who overspend their annual budget are penalised by her Department; and if she will make a statement; [34527]

(2) how many general practitioners had *(a)* an underspend and *(b)* an overspend in their budget in each primary care trust area in each of the last two years for which figures are available. [34528]

Mr. Byrne: General practitioner (GP) practices have been able to participate in practice based commissioning (PBC) since April 2005. Prior to this, practices have not been delegated indicative PBC budgets. Therefore, it is not possible to provide the data requested. The publication "Practice Based Commissioning:" Engaging practices in commissioning' is available on the Department's website at:

www.dh.gov.uk/assetRoot/04/09/03/59/04090359.pdf. Paragraphs 19 to 22 and 33 of this publication address and provide guidance on the issue of GP practices overspending against their indicative practice based commissioning budgets.

Ben Chapman: To ask the Secretary of State for Health if she will make a statement on the siting of local general practitioner practices. [40222]

Jane Kennedy: In line with the policy of "Shifting the Balance of Power", it is now for primary care trusts to plan, develop and improve general practitioner services. This includes making decisions about the location and relocation of general practitioner practices.

Health and Social Care (Community Health and Standards) Act

Mr. Burstow: To ask the Secretary of State for Health how compliance with section 15 of the Health and Social Care (Community Health and Standards) Act 2003 is monitored; and which NHS organisations *(a)* have reached, *(b)* are below and *(c)* have exceeded the cap applied under that section. [34660]

Mr. Byrne: The terms of authorisation for national health service foundation trusts (NHSFTs) sets out the limitation on the level of income that can be derived from private patient charges in any financial year. This limitation is underpinned by section 15 of the Health and Social Care (Community Health and Standards) Act 2003. Each of the current 32 NHSFTs is therefore required under primary legislation and their terms of authorisation to limit the percentage of private patient income to the same level as it was when the organisation was an NHS trust in 2002–03, and cannot increase its income from private patients at the expense of NHS patients.

Monitor (the statutory name of which is the Independent Regulator of NHS Foundation Trusts) assesses whether NHSFTs are complying with their terms of authorisation using its compliance framework, which is available at www.monitor-nhsft.gov.uk. Compliance with the restriction on private patient activity is measured on an annual basis. I am informed by the chairman of Monitor that no NHSFT has so far exceeded its 'private patient cap'. To do so would mean breaching a statutory duty and the terms of authorisation, where Monitor could use its powers to intervene. Further details on the restriction of private patient income for NHSFTs can be found in Monitor's Review and Consolidated Accounts of NHS Foundation Trusts 2004–05, which was recently laid before Parliament and is also available on Monitor's website.

Health Committee Evidence

Mr. Lansley: To ask the Secretary of State for Health pursuant to the oral evidence from Mr. Andrew Foster to the Health Committee on 1 December 2005, HC 736-i, on public expenditure on health and personal social services 2005, what the figures on agency staff are which are referred to at Question 128. [36480]

Mr. Byrne: The figures referred to in the question are the provisional 2004–05 trust financial returns which show that the percentage of total national health service pay bill spent on agency staff has decreased from 5.1 per cent. in 2003–04 to 4.2 per cent. in 2004–05. This is the lowest percentage level in six years.

Mr. Lansley: To ask the Secretary of State for Health pursuant to question 172 of the oral evidence from Mr. John Bacon to the Health Committee on 1 December 2005, HC736-i, on public expenditure on health and personal social services, how many patients were waiting over *(a)* six months for in-patient treating and *(b)* 13 weeks for out-patient treatment in each week since 30 September. [36481]

Mr. Byrne: The information requested is shown in the table. It is important to note that this weekly provider data are not subject to the same validation process as the monthly and quarterly commissioner data published by the Department and is therefore not as robust.

Number of patients waiting for in-patient and out-patient treatment

Week ending	*Over six month in-patient waits*	*Over 13 week out-patient waits*
25 September 2005	39,635	50,462
2 October 2005	36,119	43,666
9 October 2005	35,476	45,300
16 October 2005	34,001	44,402
23 October 2005	31,241	39,708
30 October 2005	27,473	33,769
6 November 2005	26,112	32,995
13 November 2005	24,781	32,253
20 November 2005	21,587	28,668
27 November 2005	17,084	22,059
4 December 2005	12,962	13,529

Note:
Figures included Welsh patients waiting at a hospital in England.
Source:
Provider based weekly monitoring data

Mr. Lansley: To ask the Secretary of State for Health pursuant to the oral evidence from Sir Nigel Crisp to the Health Committee on 1 December, HC736-i, on public expenditure on health and personal social services 2005, if she will break down the efficiency savings referred to at question 8 by cost area; how much of the saving was made *(a)* centrally and *(b)* in each strategic health authority area; and in what time frame she intends further savings to be made. [36490]

Mr. Byrne: Our autumn performance report published on 7 December provides a breakdown of the current £1.7 billion savings and identifies future plans.

Efficiency gains have been calculated using national level data and have not been disaggregated to strategic health authority level.

Health Services (Northamptonshire)

Mr. Hollobone: To ask the Secretary of State for Health to which NHS organisations in Northamptonshire her Department intends to send turnaround teams. [36142]

Ms Rosie Winterton: The Department does not intend to send turnaround teams to any organisations in the Northamptonshire area.

Health Staff (Early Retirement)

Mr. Amess: To ask the Secretary of State for Health how many *(a)* general practitioners, *(b)* consultants and *(c)* nurses have retired early in each of the last five years for which figures are available. [34600]

Mr. Byrne: The information requested is currently unavailable. The NHS Pensions Agency however expects the information to be available from April 2006 and will write to the hon. Member to provide it in the format requested.

Hepatitis C

Mr. Burstow: To ask the Secretary of State for Health what assessment her Department has made of the effectiveness of the hepatitis C FaCe it campaign. [34659]

Caroline Flint: Qualitative research of hepatitis C awareness among general practitioners and practice nurses has been carried out this year. This research, which repeats a baseline study carried out in 2001, indicates that awareness of hepatitis C is much improved compared to 2001 and that hepatitis C testing is being offered to those known to be at risk.

The Health Protection Agency has been monitoring the number of reported laboratory diagnoses of hepatitis C, which is a national outcome indicator for implementation of the "Hepatitis C Action Plan for England". There has been a noticeable upward trend in hepatitis C diagnoses since 2000 from just under 5,000 reports to around 8,000 in 2004.

Injecting drug users are the group currently at greatest risk of hepatitis C infection in this country. The unlinked anonymous prevalence monitoring programme's survey of injecting drug users in contact with specialist services showed that 67 per cent. had had a voluntary confidential test for hepatitis C in 2004 compared to 49 per cent. in 2000.

There has also been qualitative research this year into format and design of the hepatitis C "Face Your Past" leaflet, which is being widely distributed as the hepatitis C awareness photography exhibition tours regional cities. This research suggested that the design, content and tone were effective at gaining attention and giving a clear message without causing panic.

Research into public awareness of hepatitis C will be carried out in 2006. This will repeat a survey of awareness among the general public and groups at increased risk of infection in 2003.

Note:

For example, needle exchanges or treatment programmes, such as methadone maintenance.

Heroin Addicts

John Mann: To ask the Secretary of State for Health what assessment she has made of the use of *(a)* buphrenorphine and *(b)* suboxone in tackling heroin addiction among prisoners. [40688]

Ms Rosie Winterton *[holding answer 9 January 2006]:* People in prison are prescribed buphrenorphine in line with national treatment guidelines. Suboxone is not licenced for use in the United Kingdom for the treatment of heroin addiction.

HIV/AIDS

Mr. Hollobone: To ask the Secretary of State for Health how many people were recorded as HIV positive in *(a)* Northamptonshire and *(b)* England in each of the last 10 years. [34874]

Caroline Flint: HIV data are not available by county; they are available by strategic health authority (SHA) or by region. The data for Leicestershire, Northamptonshire and Rutland SHA and England are available on the Health Protection Agency's website at: http://www.hpa.org.uk/infections/topics_az/hiv_and_sti/hiv/epidemiology/hars_tables.htm.

Hospital Beds

Mr. Maude: To ask the Secretary of State for Health (1) how many hospital beds there were per capita in each strategic health authority in England in each of the last 10 years; [35156]

(2) what was the average bed occupancy rate in each strategic health authority area in England in each of the last 10 years. [35158]

Mr. Byrne: Data for the years 2002–03, 2003–04 and 2004–05 are shown in the table. Strategic health authorities (SHAs) were established in 2002 and, therefore, data prior to 2002–03 are not available on an SHA basis.

Beds available in wards open overnight per 1,000 people and occupancy rate, strategic health authorities in England: 2002–03 to 2004–05

Department of Health form KH03. ONS Mid Year population Estimates

Hospital Re-admissions

Mr. David Hamilton: To ask the Secretary of State for Health how many people were re-admitted to hospital in 2005 after being discharged. [35260]

Mr. Byrne: Information on the total number of people re-admitted is not currently available. Information on England's readmissions, calculated using the star ratings re-admission rate definition, "emergency re-admissions to hospitals within 28 days of discharge to hospitals", is available at www.nchod.nhs.uk. The latest year available there is 2003–04. A full definition of the indicator is given in the guidance notes.

Influenza

Mr. Lansley: To ask the Secretary of State for Health (1) if she will lower the age at which the routine winter influenza vaccination becomes available to 50; [23037]

(2) whether she plans to extend the routine seasonal influenza immunisation programme to all aged 50 years and over. [33269]

Caroline Flint: Department of Health funded research is being carried out on the potential benefits of routinely immunising people aged 50 years and over. The results of this research will be considered by the joint committee on vaccination and immunisation (JCVI) which advises us on all issues regarding immunisation.

Andrew Rosindell: To ask the Secretary of State for Health how many people of retirement age have sought but not received influenza vaccinations in each London borough in 2005; and if she will make a statement. [40614]

Jane Kennedy: The information requested is not collected centrally.

Long-term Conditions (Policies)

Mr. Burstow: To ask the Secretary of State for Health what the roles are of *(a)* the national service framework for long-term conditions and *(b)* the long-term conditions strategy. [37297]

Mr. Byrne: The national service framework (NSF) for long-term conditions aims to make sure that services for people with long-term neurological conditions and their families and carers are:

quicker and easier to use and more closely matched to people's needs;

better co-ordinated—so people do not have to see too many professionals and tell them the same information about themselves again and again;

provided for as long as people need them, so that treatment continues without the need for a new referral every time the person has a new problem;

better at helping people with neurological conditions and their carers to make decisions about care and treatment;

provided by people with knowledge and experience of specific conditions;

giving people with long-term neurological conditions better results from their treatment;

planned around the views of people with long-term neurological conditions and their carers; and

better at helping people to live more independently.

The purpose of the long-term conditions information strategy is to ensure that the implementation of the 11 quality requirements, detailed in the NSF, is facilitated by the availability of the appropriate information for patients, families and carers, the general public and care professionals.

Mental Health

Mr. Pelling: To ask the Secretary of State for Health what steps the NHS has taken to improve *(a)* mental health and *(b)* well-being in the community. [36278]

Ms Rosie Winterton: Mental health services are continuing to implement the national service framework for mental health in order to improve access to effective treatment and care, reduce unfair variation, raise standards, and provide quicker and more convenient services. In line with the targets set in the "NHS Plan" 343 crisis resolution, 262 assertive outreach and 109 early intervention teams were established in England at the end of March 2005. On the same day, 1,520 community gateway, 654 carer support and 648 graduate workers were in post.

Progress is also being made towards meeting the Department's public service agreement target to reduce the death rate from suicide and undetermined injury by at least 20 per cent. by 2010. The rate is now 6.6 per cent. below the baseline.

The "Choosing Health" White Paper recognised the importance of supporting the mental health and wellbeing of children and adults: To that aim, the White Paper included a set of actions to strengthen individuals and communities and reduce structural barriers. These actions to strengthen individuals and communities and reduce structural barriers. These actions include developing day services further to provide support for employment, occupation and mainstream social contact beyond the mental health system; encouraging employers to adopt policies to promote better mental health at work; expanding help for people with mental health problems by improving access, care planning and referral arrangements; offering new models of physical healthcare for people with mental health problems and developing new approaches to helping them manage their own care; and making available information on all aspects of health and wellbeing.

Morning-after Contraception Pill

Sarah Teather: To ask the Secretary of State for Health how many people have purchased the morning after contraception pill in London in each of the last five years; and what assessment she has made of the reasons given for purchase. [40809]

Jane Kennedy: Data are not held centrally in respect of over the counter purchases of emergency hormonal contraception, or the reasons for purchase.

Neurological Conditions

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 7 November 2005, *Official Report*, columns 265–6W, on neurological conditions, what the planning recommendations to strategic health authorities were. [34525]

Mr. Byrne: The planning recommendations for the workforce are published by the Workforce Review Team and are available at:

www.healthcareworkforce.org.uk/c4/2005/default.aspx.

NHS Care (Private Providers)

Rosie Cooper: To ask the Secretary of State for Health how much has been paid to private providers for treatment given to NHS patients in each year since 2000; and what the projected figure is for 2005. [37311]

Mr. Byrne: Expenditure on centrally procured independent sector treatment providers was £78.8 million for 2004–05. Data prior to 2004–05 is not available. The projected spend for 2005–06 is £203.5 million.

Expenditure on locally procured independent sector treatment providers is not separately identified in the annual financial returns of national health service trusts, primary care trusts and health authorities.

NHS Direct

Julia Goldsworthy: To ask the Secretary of State for Health pursuant to the answer of 28 June 2005, *Official Report*, column 1521W, on NHS Direct, whether she has *(a)* undertaken an assessment of, *(b)* (i) commissioned and (ii) evaluated research into and *(c)* considered the impact of the operation of NHS Direct on staff recruitment in NHS accident and emergency departments. [31816]

Mr. Byrne: No such specific assessment or research has been commissioned or undertaken.

NHS Finance

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 7 November 2005, *Official Report*, column 266W, on NHS finance, what role the Department's recovery support unit plays in assessing recovery plans. [34526]

Mr. Byrne: The Department manages the financial performance of the national health service through strategic health authorities (SHAs). NHS organisations that overspend are required to develop recovery plans to return to financial balance. Recovery plans are agreed and managed by SHAs. A number of NHS organisations and SHAs will be supported in this by the turnaround teams that were recently announced. The turnaround teams will report to the chief executives of the local NHS organisations. The Department's recovery and support unit will continue to performance manage SHAs on the delivery of all key targets including financial performance.

Mr. Burstow: To ask the Secretary of State for Health what assessment she has made of the impact on the stability of local health economies of her plan to penalise overspending NHS organisations. [34658]

Mr. Byrne: The impact of any deficits in 2005–06 will be discussed with each strategic health authority as part of the financial planning process for 2006–07. The planning process for 2006–07 will be completed before the start of the financial year.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Written Statement of 1 December 2005, *Official Report*, column 37WS, on NHS finance data, how many turnaround teams she intends to establish; who will staff the turnaround teams; how staff in turnaround teams will be remunerated; whether *(a)* strategic health authorities, *(b)* NHS trusts and *(c)* primary care trusts are being supported by turnaround teams; whether there are specific trusts to which she intends to send turnaround teams; who will take the decision to send turnaround teams to trusts in financial difficulty; under what legislation the powers available to turnaround teams have been made available; what the total budget for operating turnaround teams will be in (i) the current financial year and (ii) 2006–07; and if she will make a statement. [36346]

Mr. Byrne: My right hon. Friend the Secretary of State announced on the 1 December 2005 that teams of financial and management experts are to be sent to support the strategic health authorities, national health service trusts and primary care trusts that have the biggest delivery problems.

An initial assessment began on the 7 December to ensure that the organisations that are forecasting the most significant deficits, expected to number 63, have financial control and that there are an agreed set of actions to restore financial balance.

Following the initial assessment, the SHA, the Department and the organisation will agree on a tailored package of turnaround support. The chief executives of the most challenged organisations will then be supported in delivering turnaround. The type and length of engagement will be tailored to the needs of specific organisations. The chief executives will remain responsible for delivery in their organisations. The Department has always provided additional expert advice to challenged organisations to support delivery and the turnaround teams are no different as they are not operating under any specific legislation.

The teams will bring together specialists from the NHS and the commercial sector, including NHS staff with a track record of helping challenged NHS trusts, to provide more locally focused support than the existing performance management systems.

The contract for the initial assessment was awarded in accordance with the Department's tendering arrangements. The amount of the contract is to be treated as commercial in confidence.

The cost of the further turnaround support will be dependant on the type of engagement.

NHS Management

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* chief executives, *(b)* finance directors and *(c)* other board members have left the boards of (i) strategic health authorities, (ii) NHS trusts and (iii) primary care trusts in each financial year since 1997. [36433]

Mr. Byrne: Information about how many chief executives, and finance directors have left the boards of national health service bodies is not available centrally. The NHS Appointments Commission has informed about the appointment of non-executive board members since 2001, when it was established. I have asked the NHS Appointments Commission to write to you directly regarding your inquiry.

NHS Reconfiguration

Charlotte Atkins: To ask the Secretary of State for Health (1) what action a primary care trust (PCT) can take if its strategic health authority presents an NHS consultation document on PCT reconfiguration which it considers to be biased; [36448]

(2) what role *(a)* she and *(b)* her Department's independent external panel has in ensuring that (i) strategic health authorities (SHAs) present options for primary care trust (PCT) reconfiguration fairly in their formal NHS consultation document and (ii) SHAs effectively engage the relevant PCT in preparing their formal NHS consultation document on PCT reconfiguration where there are sharply differing views on particular options; [36449]

(3) what steps she is taking to ensure that the advice given in John Bacon's letter dated 30 November on strategic health authorities engaging primary care trusts in preparing their formal NHS consultation document is followed; [36450]

(4) what steps she is taking to ensure that the advice given in John Bacon's letter dated 30 November to strategic health authorities (SHAs) regarding SHA and primary care trust reconfiguration is being followed. [36451]

Mr. Byrne: Guidance issued from the Department to strategic health authorities (SHAs) on the forthcoming consultations clearly states that;

> "All options must be presented fairly and given equal weight in your documentation. Appropriate primary care trusts (PCTs) should be involved in drafting sections where an option is not the preferred option of the SHA".

A further communication was sent on 8 December to all SHA chief executives, which stated

> "Responsibility for approving PCT consultations, ensuring they reflect the conditionality set out in my 30 November letter and that equal weight is given to all options, rests with the SHA".

The letter went on to stress how important it is that particular attention is paid to this, and asked SHA chief executives to personally oversee this.

We have written to SHAs in a further communication that when preparing a report on the results of the consultation, all views generated as a result of the consultation must be taken into account.

Consultees can express their views throughout the consultation, and the Secretary of State will take into consideration any objections raised when deciding whether to make the reconfiguration order or not.

NHS Targets

Mr. Lansley: To ask the Secretary of State for Health if she will list the targets her Department has set which apply to the NHS; and when these targets are expected to be met in each case. [36430]

Jane Kennedy: Details of the national targets for the national health service and social services are set out in "National Standards, Local Action", which is available in the Library and on the Department's website at www.dh.gov.uk/assetRoot/04/08/60/58/04086058.pdf

NICE

Mr. Paterson: To ask the Secretary of State for Health (1) how many cancer drugs approved by the EU Committee for Medicinal Products for Human Use are being assessed by the Department prior to referral to the National Institute for Health and Clinical Excellence; [19894]

(2) how many drugs approved by the EU Committee for Medicinal Products for Human Use were not approved by the National Institute for Health and Clinical Excellence in each of the last five years; [19899]

(3) how many drugs approved by the EU Committee for Medicinal Products for Human Use are awaiting approval from the National Institute for Health and Clinical Excellence. [19900]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) does not approve drugs for use; it provides advice to the national health service on the clinical and cost effectiveness of medical treatments. There are no cancer drugs approved for use by the Committee for Medicinal Products for Human Use currently awaiting referral to NICE by the Department.

We are aware of 23 drugs currently undergoing appraisal by NICE that have been approved by the Committee for Medicinal Products for Human Use.

Tim Loughton: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence plans to update the technical guidance on atypical anti-psychotic drugs through a general review of its clinical guidelines on the management of schizophrenia. [40233]

Jane Kennedy: I understand that the National Institute for Health and Clinical Excellence (NICE) plans to review its guidance on atypical anti-psychotics drugs as part of the review of its clinical guideline on the management of schizophrenia. NICE plans to start its work in mid 2006. Further information can be found on NICE's website at www.nice.org.uk.

Palliative/Neurological Services

Patrick Hall: To ask the Secretary of State for Health (1) what guidance has been issued to local commissioners on the requirement to implement full cost recovery for *(a)* palliative and *(b)* neurological care services; [36172]

(2) what progress has been made towards meeting the commitment in the Treasury's report, The Role of the Voluntary Sector in Service Delivery, in relation to full cost recovery for voluntary providers of palliative care services by 2006; and if she will make a statement. [36173]

Ms Rosie Winterton: Her Majesty's Treasury's cross cutting review recommended that funders should recognise that it is legitimate for voluntary and community sector providers to include the relevant element of overheads in their cost estimates for providing a given service under a contract or service agreement. This recommendation was drawn to the attention of primary care trust commissioners through the Chief Executive Bulletin published on 14 April 2005 (Issue 264, 8–14 April 2005).

Patient Costs

Michael Connarty: To ask the Secretary of State for Health what assessment she has made of the cost per patient treated at *(a)* foundation hospitals and *(b)* non-foundation hospitals in the last year for which figures are available. [32124]

Mr. Byrne: There is no data collected centrally at individual patient level. However, data is collected on a finished consultant (FCE) basis. An FCE is defined as a period of admitted patient care under one consultant within one health care provider. The latest cost data available is 2003–04 when the average cost per FCE for all national health service trusts was £1,206.

It is not possible to assess the average cost per FCE for existing foundation trusts, as they did not become operational until 2004–05 and cost data for that year is not yet available.

Prescriptions (Pre-payment Certificates)

Sarah Teather: To ask the Secretary of State for Health pursuant to her answer of 2 December 2005, *Official Report*, column 855W, on prescriptions (pre-payment certificates), how many pre-payment certificates were issued in each *(a)* London borough, *(b)* primary care trust and *(c)* strategic health authority in each month. [40345]

Jane Kennedy: Information on the number of pre-payment certificates (PPCs) issued for London by borough, primary care trust or strategic health authority, is not separately identifiable.

The number of PPCs issued for the whole of England, by month, for each of the last 12 months, was provided in the reply I gave the hon. Member on 2 December 2005, *Official Report*, column 855W.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 15 November 2005, *Official Report*, column 1178W, on primary care trusts, for what reasons her Department had not collected this information by 24 October as requested in the letter by her Department's director of access dated 13 October. [31892]

Mr. Byrne: Each of the 303 primary care trusts (PCTs) has provided the Department with data on the providers and services that they have commissioned under the requirement to be offering a choice of at least four secondary care providers to patients from 1 January 2006.

In conjunction with each PCT, the Department is producing locally-tailored information booklets to support choice of at least four, based on the responses to the letter of 13 October. Each booklet will list the locally-commissioned services for the top 15 specialties. The booklets will be published in due course as part of the roll out of choice of at least four from 1 January 2006.

Radiographers/Speech Therapists

Mr. Burstow: To ask the Secretary of State for Health how many training commissions there were for *(a)* radiographers and *(b)* speech and language therapists in each strategic health authority in each year since 2002. [34713]

Mr. Byrne: The information requested is shown in the table.

Commissions: 2004–05

Strategic health authorities	*Radiography (diagnostic)*	*Radiography (therapeutic)*	*Speech therapy*
Avon, Gloucester and Wiltshire	60	27	0
Birmingham and the Black Country	102	30	99
Bedfordshire and Hertfordshire	89	21	0
Cheshire and Merseyside	0	0	0
County Durham and Tees Valley	57	0	0
Cumbria and Lancashire, Hereford and Worcester	163	36	0
Devon and Cornwall	30	0	50
Dorset and Somerset	24	0	0
Essex	7	8	0
Greater Manchester	0	0	80
Hampshire and Isle of Wight	55	16	8
Kent and Medway	60	2	1
Leicestershire, Northamptonshire and Rutland	2	0	43
North Central London	0	0	0
North East London	0	0	0
North and East Yorkshire and North Lincolnshire	0	0	0
Norfolk, Suffolk and Cambridgeshire	52	18	20

Commissions: 2004–05

Strategic health authorities	*Radiography (diagnostic)*	*Radiography (therapeutic)*	*Speech therapy*
North West London	0	0	231
Northumberland Tyne and Wear	0	0	53
South East London	0	0	0

National Total	1093	306	742

Senior NHS Management

Rosie Cooper: To ask the Secretary of State for Health how many displaced chief executive officers and other senior NHS employees without permanent roles are working in each strategic health authority area. [37319]

Mr. Byrne: The requested information is not collected centrally.

Smoking

Mr. Hollobone: To ask the Secretary of State for Health what recent representations she has received on tackling smoking in pregnancy. [34427]

Caroline Flint: We regularly receive representations on tackling smoking in pregnancy. We have recently received five parliamentary questions on smoking in pregnancy, four from the hon. Member and one from a Peer.

We have made good progress on this issue since the publication of the White Paper "Smoking Kills' in 1998, where we set a target to reduce the percentage of women who smoke during pregnancy from 23 percent., to 15 percent., by the year 2010; with a fall to 18 percent., by the year 2005.

Information on smoking in pregnancy is obtained from the report on infant feeding which is carried out every five years; the most recent survey was in 2000, this shows the proportion of women, in England, who smoke during pregnancy has fallen to 19 percent.

Mr. Hollobone: To ask the Secretary of State for Health how much public money has been spent on smoking cessation schemes for pregnant women in each of the last 10 years. [34429]

Caroline Flint: The information requested is not collected centrally.

Mr. Jeremy Browne: To ask the Secretary of State for Health what protection the smoking legislation in the Health Bill will give to *(a)* domestic servants and *(b)* au pairs in their places of work. [34584]

Caroline Flint: The smoke-free provisions of the Health Bill will cover 99 percent., of enclosed public places and workplaces.

The Government have proposed to exempt residential accommodation to give effect to the right to respect for the home and private life in Article 8 of the European Convention on Human Rights.

However, nothing in the Health Bill undermines the Health and Safety obligations which employers already have.

Social Services

Mr. Lancaster: To ask the Secretary of State for Health how many younger adult clients were seen by social services in Milton Keynes in each of the last five years. [35268]

Ms Rosie Winterton: The available information is for adults aged 18 to 64.

In 2003–04, 120 new clients were assessed and 520 existing clients were reviewed by Milton Keynes council with social service responsibilities. Data for earlier years are not available on a comparable basis.

Sustainable Procurement

Lynne Featherstone: To ask the Secretary of State for Health what plans she has to reassess sustainable procurement practices in the NHS, with particular reference to reusable nappy use on maternity wards. [39503]

Jane Kennedy: The Department has a strong commitment to the principles of sustainable development, and this is reflected in the new United Kingdom strategy for sustainable development.

Through this policy, the Department and its agencies are committed to considering the environmental, social and economic impacts of its procurement. The NHS Purchasing and Supply Agency (NHS PASA) works with the Department and other Government Departments to increase awareness of sustainable development within the national health service supply chain, and to ensure that wherever possible NHS PASA support the achievement of sustainable development objectives, and support the improvement of the nation's health and well being.

The use of disposable or re-usable nappies in the national health service is a matter for individual maternity units and trusts to determine locally.

Vitamin D

Dr. Gibson: To ask the Secretary of State for Health what plans she has to review vitamin D supplements for pregnant and nursing mothers. [37131]

Caroline Flint: The Committee on Medical Aspects of Food and Nutrition Policy and the Scientific Advisory Committee on Nutrition particularly recommend dietary vitamin D supplements for all pregnant and nursing mothers of 10 micrograms per day.

As part of the reform of the Welfare Food Scheme the Department is considering options for the manufacture and supply of bespoke vitamin supplements, which include vitamin D.

Supplements developed as part of the Welfare Food Scheme reforms may also be considered for wider use among pregnant and nursing mothers.

Zoonotic Disease Risk

Greg Clark: To ask the Secretary of State for Health whether her Department has assessed the zoonotic disease risk in the UK posed by the intensification of meat and dairy production in other countries. [40530]

Caroline Flint: The risk of zoonotic disease in the United Kingdom is affected by many factors, of which farming practices are only one. In the case of zoonotic disease a cross-departmental working group monitors human and animal surveillance and assesses the risk associated with new and emerging pathogens. Outputs from this group are reported to the national expert panel for new and emerging infections.

Written Answers to Questions

Thursday 12 January 2006

SOLICITOR-GENERAL

Small Businesses (Fraud)

24. **Mr. Bellingham:** To ask the Solicitor-General what further steps he plans to take to protect small businesses from fraudulent schemes. [41085]

The Solicitor-General: The Government are taking considerable steps to assist small company fraud. Fraud is an issue for SME's as more of them do business through the Internet. A new one-stop-shop website for up-to-date information about online safety has recently been launched.

Get Safe Online www. getsafeonline.org aims to give home users and small businesses the advice they need to use the Internet safety. The campaign is a joint initiative between HM Government, the National Hi-Tech Crime Unit, and private sector sponsors from the worlds of technology, retail and finance.

Human Trafficking

25. **Hugh Bayley:** To ask the Solicitor-General what additional steps the Law Officers will take to tackle human trafficking for prostitution; [41086]

27. **Huw Irranca-Davies:** To ask the Solicitor-General what the Crown Prosecution Service's policy is on prosecuting men who use prostitutes who have been trafficked from other countries. [41088]

The Solicitor-General: The Law Officers regard tackling human trafficking, for both sexual and non-sexual exploitation, as a priority. I am a member of the ministerial group on human trafficking and am working jointly with Home Office Ministers to tackle human trafficking including for prostitution, by co-chairing a Joint Ministerial NGO Stakeholder /Consultative Group on Human Trafficking on the issue. This will seek to improve the efficiency and effectiveness of criminal justice policy and will be informed by the public consultation document on proposals for a UK action plan, launched last week.

In cases involving allegations of a sexual offence, assuming the evidential test is satisfied, prosecution policy makes it clear that the public interest will strongly favour a prosecution. This applies equally to cases where the victim has been trafficked for the purposes of sexual exploitation.

Fraud Trials

26. **John Robertson:** To ask the Solicitor-General what assessment his Department has made of the need for effective trial management in complex fraud trials. [41087]

The Solicitor-General: The need for effective judicial trial management of complex trials, especially large fraud trials, was recognised in the Lord Chief Justice's Protocol for the Control and Management of Heavy Fraud and Other Complex Criminal Cases and Practice Direction issued on 14 March 2005. I welcome the Criminal Procedure Rules 2005 but they will not be sufficient of themselves to resolve all the issues of trial management in the most serious cases which is why we are seeking non jury trials in a few cases each year.

Corruption

Malcolm Bruce: To ask the Solicitor-General pursuant to the answer of 7 November 2005, *Official Report*, column 1W, on corruption, whether the Serious Fraud Office has commenced an investigation into the allegation of corruption involving a Department of Trade and Industry employee. [41631]

The Solicitor-General: I am informed that the Serious Fraud Office has not commenced an investigation into any allegation of corruption involving a Department of Trade and Industry employee.

Serious Fraud Office

Malcolm Bruce: To ask the Solicitor-General pursuant to the answer of 1 December 2005, *Official Report*, column 731W, on the Serious Fraud Office, if he will place in the Library the paper commissioned by the Attorney General from the Serious Fraud Office on the policy and legislative changes they thought would assist them in the investigation and prosecution of overseas corruption offences. [41414]

The Solicitor-General: Further to my answer of 1 December 2005 a consultation paper was issued on 8 December 2005 by the Home Office entitled "Reform of the Prevention of Corruption Acts and SFO Powers in cases of bribery of foreign officials". This reflects submissions made to me by the Director of the Serious Fraud Office. A copy of the consultation document can be found at:

www.homeoffice.gov.uk/documents/2005-cons-bribery ?version = 1

PRIME MINISTER

"Day in the Life"

Mike Penning: To ask the Prime Minister what costs were incurred at public expense in the production of the film "Day in the Life". [40975]

The Prime Minister: The production of the film "Day in the Life" cost £900.

So far nearly 55,000 people have downloaded the film via the Downing street website. The film was also available to download on the Sky and BBC News websites.

Administration Costs

Stewart Hosie: To ask the Prime Minister what the total administration costs were for his Office in the last

year; and whether these are regarded as identifiable or non-identifiable for the purposes of public expenditure statistical analyses. [40051]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked the Under-Secretary of State for the Cabinet Office, my hon. Friend the Member for East Renfrewshire (Jim Murphy) to reply.

Al-Jazeera (Bombing)

Adam Price: To ask the Prime Minister whether the Government holds information which records President Bush's discussions with him about the bombing of the al-Jazeera television station in Qatar. [41191]

The Prime Minister: I refer the hon. Member to the answer I gave him on 28 November 2005, *Official Report*, column 23W.

Departmental Expenditure

Mr. Weir: To ask the Prime Minister (1) what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment of his Office was in each of the last three financial years; and what the planned expenditure is for 2005–06. [40078]

(2) what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of his Office in each of the last three financial years; and what the planned expenditure is for 2005–06. [40079]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked the Under-Secretary of State for the Cabinet Office, my hon. Friend the Member for East Renfrewshire (Jim Murphy) to reply. A copy of the reply will be placed in the Library of the House.

Mr. Spellar: To ask the Prime Minister how much his Office spent on bottled water in 2004–05. [40328]

The Prime Minister: For these purposes my Office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by the Under-Secretary of State for the Cabinet Office, my hon. Friend the Member for East Renfrewshire (Jim Murphy) on 9 January 2006, *Official Report*, column 200W.

Departmental Jobs

Mr. Weir: To ask the Prime Minister how many jobs are located in his office in London. [39873]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for Belfast, East (Mr. Robinson) on 10 October 2005, *Official Report*, columns 163–64W.

Energy Issues (Russia)

Mr. Brady: To ask the Prime Minister if he will list the occasions in the last five years when he has discussed energy issues with President Putin of Russia. [41628]

The Prime Minister: I regularly discuss a wide range of issues with President Putin, including energy.

European Council

Mr. Redwood: To ask the Prime Minister who represented the UK at the recent European Council when he was chairing the Council. [39666]

The Prime Minister: As is always the case, the country holding the Presidency represent themselves at the European Council.

Joint Intelligence Committee

Andrew Mackinlay: To ask the Prime Minister what investigations are being made into the source of leaks of the report of the Joint Intelligence Committee written prior to 7 July 2005 that al-Qaeda was planning a high priority attack on the underground; and if he will make a statement. [39879]

The Prime Minister: In order to safeguard security and investigative arrangements, it has been the practice of successive Governments not to comment on the conduct and outcome of leak inquiries.

Lords Lieutenants

Chris Ruane: To ask the Prime Minister what the name is of each person who has been appointed to a post of Lord Lieutenant of the County in each of the last 30 years; and in respect of which county each was appointed. [39287]

The Prime Minister: This information requested is not held centrally and to obtain it would incur disproportionate costs.

Office Equipment

Mr. Weir: To ask the Prime Minister how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines his Office owned in (i) 2003–04 and (ii) 2004–05. [40077]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked the Under-Secretary of State for the Cabinet Office, my hon. Friend the Member for East Renfrewshire (Jim Murphy) to reply. A copy of the reply will be placed in the Library of the House.

Rendition Flights

Lynne Jones: To ask the Prime Minister whether *(a)* he and *(b)* his officials have requested details from the US Administration of (i) the specific purpose of each rendition flight given landing rights at any airport in the United Kingdom and (ii) the destination of each such flight. [39790]

The Prime Minister: I refer my hon. Friend to the answer given to the right hon. and learned Member for North-East Fife (Sir Menzies Campbell) by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs on 12 December 2005, *Official Report*, columns 1652–53W.

I also refer my hon. Friend to the written statement made by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs on 10 January 2006, *Official Report*, column 5WS.

UK Overseas Territories

Mr. Weir: To ask the Prime Minister what powers of intervention his Government have over the domestic monetary and fiscal policies of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar, *(f)* Saint Helena, *(g)* Anguilla, *(h)* Montserrat, *(i)* Bermuda, *(j)* the British Virgin Islands, *(k)* Turks and Caicos Islands and *(l)* the Cayman Islands. [39117]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Financial Secretary on 10 January 2006 [39216].

CHURCH COMMISSIONERS

Tenants

Kate Hoey: To ask the hon. Member for Middlesbrough, representing the Church Commissioners whether compensation has been offered by the Commissioners to tenants of the Commissioners' properties at *(a)* Mitre street, *(b)* Ufford street and *(c)* Webber street in relation to the outcomes of renovation; and if the Commissioners will disclose all relevant documents relating to these properties to the tenants. [40767]

Sir Stuart Bell: The Commissioners have given tenants on an ex-gratia basis one week's rent rebate. In view of the threat of litigation by some tenants it is not appropriate for the Commissioners to comment further.

Kate Hoey: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what safeguards are employed by the Commissioners to ensure that personal information on Church Commissioners' tenants is not passed to third parties; what measures are in place to provide redress when such information is passed on; and what disciplinary measures are in place relating to staff misuse of tenants' personal information. [40766]

Sir Stuart Bell: The Commissioners seek to follow best practice regarding the maintenance and use of tenants' personal information, including the sharing of information with third parties where properly necessary. Some such information may be properly shared with professional advisers and managing agents.

Any alleged instances of the improper sharing of tenants' personal information may be reported to the Commissioners' Chief Surveyor. The matter will then be investigated.

All staff of the National Church Institutions are expected to observe standards of conduct and are subject to a formal disciplinary procedure where they fail to do so.

WALES

Departmental Expenditure

Stewart Hosie: To ask the Secretary of State for Wales what the total administrative costs of his core Department were in the last period for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39838]

Mr. Hain: I refer my hon. Member to the answer I gave to the hon. Member for Banff and Buchan (Mr. Salmond) on 15 December 2005, *Official Report*, column 2277W.

Departmental Websites

Sarah Teather: To ask the Secretary of State for Wales what websites come under his Department's responsibility; and what the *(a)* cost and *(b)* number of visitors to those sites was in the last year for which figures are available. [40796]

Mr. Hain: The Wales Office has responsibility for www.walesoffice.gov.uk and its parallel Welsh language site www.swyddfa.cymru.gov.uk

The cost of running both sites was £5,875 in 2005, with an additional £58.75 charged to renew the domain names.

The English language site received 568,201 page requests last year, while the Welsh language site received 92,432.

Gwydyr House (Disabled Access)

Mrs. Betty Williams: To ask the Secretary of State for Wales if he will take steps to ensure that the access for disabled people to Gwydyr House is always in working order; and for what reasons it was not working on the evening of 14 December. [39155]

Mr. Hain: Unfortunately due to problems with misuse the gate to the Disabled Access ramp for Gwydyr House is kept locked.

Due to a problem with the process for obtaining the key on the evening of 14 December the gate could not be opened. This was later rectified and the ramp was available later that evening for people leaving the building.

There have been new instructions issued to all relevant personnel to prevent this from happening again.

National Assembly

Mrs. Gillan: To ask the Secretary of State for Wales on what dates and for how long he has *(a)* attended sessions of the National Assembly, *(b)* spoken at sessions of the National Assembly and *(c)* met the National Assembly to discuss the Government's legislative programme. [40739]

Mr. Hain: As soon as is reasonably practicable after the beginning of each session of Parliament, I participate in a session of the National Assembly to discuss the Government's legislative programme.

Thus, I attended sessions of the Assembly on the following dates:

26 November 2002

10 December 2002

3 December 2003

11 December 2004

21 June 2005

RAF St. Athan

David Wright: To ask the Secretary of State for Wales what funding has been *(a)* allocated and *(b)* spent by the Welsh Development Agency to support RAF St Athan. [39132]

Nick Ainger: RAF St. Athan was acquired by the WDA in 2003 for redevelopment. To date £15.9 million has been spent on land acquisition and other development costs. There is no future allocation for the project as budget allocation for capital projects undertaken by the WDA is agreed on an annual basis as part of the normal business planning process.

CONSTITUTIONAL AFFAIRS

Claims Handlers

John Mann: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effects of Government Departments accepting industrial injury and disease compensation claims directly from claims handlers. [40694]

Bridget Prentice: None. It is primarily for the relevant Government Departments, in consultation as necessary with Treasury Solicitors and other Government Departments, to decide what arrangements they make to handle compensation claims whether brought on behalf of the injured party by a claims handling company, a solicitor or any other intermediary. The Government are introducing legislation in the Compensation Bill (HL) introduced on 2 November 2005 that will enable the statutory regulation of claims handling companies.

Legal Advice Direct

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the use of webcam technology as part of the online Legal Advice Direct project. [40824]

Bridget Prentice: The Legal Services Commission is currently in contract negotiations with the firm responsible for Legal Advice Direct. It would therefore be inappropriate to comment on their services at this stage as this could compromise impartiality during the tender process. In general I am keen to embrace and work with new technology in ensuring that services are delivered using methods that best meet client need while demonstrating cost-effectiveness.

Legal Aid

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what steps her Department is planning to encourage law students to choose careers involving legal aid work. [40823]

Bridget Prentice: Supporting the development of the next generation of legal aid lawyers is a high priority for the Department and the Legal Services Commission (LSC).

The LSC has committed £10 million over three years in a training support grants scheme for students and trainee solicitors. To date nearly 400 grants have been awarded to 338 solicitors' firms and 49 not-for-profit organisations.

The LSC worked with the College of Law and the Law Society to develop a Legal Practice Course with a specialist option (or 'elective') in legal aid work.

The LSC promotes legal aid work to students and young lawyers as a career of choice in a range of ways: for example, exhibiting at the Graduate Law Fair, arranging work shadowing, and sponsoring the Young Legal Aid Lawyer of the Year award and the Young Solicitors' Group legal aid conference.

MINISTER FOR WOMEN

Parental Leave

Michael Connarty: To ask the Minister for Women and Equality what steps are being taken to provide for equal parental leave rights to both parents in the second six months of their child's life. [40700]

Meg Munn: The Work and Families Bill includes provisions that will allow fathers to take time off in the second six months of their child's life. The first six months of maternity leave will be reserved for the mother, in the second six months the fathers will be able to take up to six months additional paternity leave (APL) if the mother has returned to work.

Pregnancy and Maternity (Equality and Employment Law)

Michael Connarty: To ask the Minister for Women and Equality what steps are being taken by the Government *(a)* to harmonise, *(b)* to consolidate and *(c)* to simplify (i) equality and (ii) employment law relating to pregnancy and maternity. [41173]

Meg Munn: The Discrimination Law Review, led by the Women and Equality Unit in the Department of Trade and Industry, is examining the current framework of anti-discrimination legislation, by developing proposals for a more modern, coherent and effective legal framework for tackling discrimination across all equality strands. This includes discrimination in employment on grounds of pregnancy and maternity.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine TB

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what size of culling area the Department is considering for the control of bovine TB; and what percentage of badgers would have to be despatched in those areas in order for the policy to be effective; [39629]

(2) what restrictions there will be on areas chosen for badger culling to control bovine TB; and whether restrictions will apply to locations where active study of the badger population is under way. [39630]

Mr. Bradshaw: We are currently consulting both on the principle of culling badgers to control bovine tuberculosis (TB), and on how a badger cull might operate. Options are set out in the consultation document "Controlling the spread of bovine tuberculosis in cattle in high incidence areas in England: Badger Culling". These include possible culling areas ranging from 1 km to 3 km from an eligible farm's boundary to areas of 100 km^2 or more. Until the consultation is complete no decisions on culling badgers or the detail of how an effective cull would operate can be made.

In deciding whether to introduce a badger culling policy we will take account of scientific evidence, the effectiveness of culling as a way of reducing bovine TB in cattle, and whether this is cost-effective. We will also consider what is practical and sustainable. Copies of the consultation document are available in the House Library or on the DEFRA website at:

http://www.defra.gov.uk/corporate/consult/badgers-tbcontrols/index.htm

The deadline for responses is 10 March 2006.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what additional powers the Department requires to enforce a cull of badgers in locations where the landowner does not agree to the policy. [39631]

Mr. Bradshaw: We are currently consulting both on the principle of culling badgers to control bovine tuberculosis, and on how a badger cull could operate. If we do decide to introduce such a policy, the consent of landowners would be needed for culling to take place on their land.

Carbon Dioxide Emissions

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what the carbon dioxide emissions of *(a)* China, *(b)* India, *(c)* the US and *(d)* the UK were as most recently reported for the purposes of the Kyoto and Montreal agreements; and what projections have been made for that purpose for (i) 2020 and (ii) 2050 in each case. [39789]

Mr. Morley: The following table shows historical and projected carbon dioxide (CO_2) emissions in million tonnes of CO_2 ($MtCO_2$) for China, India, the USA and the UK.

Emissions estimates are submitted under the United Nations framework convention on climate change (UNFCCC) which is the parent treaty for Kyoto protocol and the Montreal decisions, and also covers the US which has not ratified the protocol.

The USA and UK are annexe 1 parties to the UNFCCC, and submit emissions inventories annually; the most recent year for which data are available is 2003. China and India are non-annexe 1 parties to the UNFCCC; the most recent data they have submitted is for 1994. The table also provides US and UK CO_2 emissions for 1994 from UNFCCC submissions for comparison. The data in the table cover all sectors including land-use, land-use change and forestry as reported by the country. The UK's data have been updated for consistency with the information provided in June 2005 to the European Union.

The USA and UK have submitted projections to the UNFCCC for CO_2 emissions in 2020, but China and India have not. Projections to 2050 are not available for any of the countries, although the UK policy, as set out in the 2003 Energy White Paper, is to put ourselves on a path to a reduction of some 60 per cent. by 2050.

	CO_2 emissions ($MtCO_2$)		
Country	*1994*	*2003*	*2020*
China	2,666.0	n/a	n/a
India	793.5	n/a	n/a
US	4,327.8	5,013.5	6,763.0
UK	559.8	555.9	524.7

n/a = Not available.

The International Energy Agency provides estimates of projected emissions from use of fossil fuels which indicate, for China and India respectively, increases of about 210 per cent. and about 240 per cent. over the period 1994 to 2020. Fossil fuels account for the majority of CO_2 emissions but do not include land-use, land-use change and forestry which in 1994 reduced emission from China by about +5 per cent. and increased those of India by about 8 per cent.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what measures her Department is implementing to cut carbon emissions from transport; and what the percentage change in emissions from transport was between 2000 and 2005 *(a)* in total and *(b)* in each year. [39905]

Mr. Morley: The UK Government set out its policy on reducing greenhouse gas emissions from all sectors in its publication "Climate Change: The UK Programme" in 2000. The Climate Change Programme (CCP) is currently under review, and as part of this review the Government are considering the scope for additional policy measures to further reduce emissions from all sectors, including transport.

The following tables contain carbon emissions from 2000 to 2003, the latest year for which published data are available, expressed as million tonnes of carbon (MtC) equivalent. Percentage changes are shown as a year-on-year change and as a total change from 2000 to 2003.

The first table shows carbon emissions from domestic transport, which includes emissions from road, diesel rail, domestic aviation and domestic shipping. The second table shows carbon emissions from international shipping and international aviation; under guidelines agreed internationally, these emissions are not included in UK total emissions, but are estimated for information purposes and do not count towards the achievement of the UK's Kyoto target.

Domestic transport

	Total transport emissions (MtC)	*Percentage change between each year*	*Percentage change in total (2000-03)*
2000	33.63	—	—
2001	33.50	-0.39	—
2002	34.00	1.49	—
2003	34.34	1.00	2.11

International aviation and shipping

	Total transport emissions (MtC)	*Percentage change between each year*	*Percentage change in total (2000-03)*
2000	9.81	—	—
2001	9.79	-0.20	—
2002	9.35	-4.49	—
2003	9.49	1.50	-3.26

EC Water Framework Directive

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of lakes of more than one hectare in area in England and Wales have been designated as water bodies under the EC Water Framework directive. [40629]

Mr. Morley: 432 lakes were designated and reported to the European Commission in March 2005 as part of the first round of river basin district characterisation under the EC Water Framework directive. Of these 432, a total of 137 lakes were greater than 50 hectares in size and 295 lakes were less than 50 hectares in size (50 hectares being the minimum size threshold required for designation and reporting to the European Commission).

There are 6,247 lakes of more than one hectare in England and Wales. 432 of these lakes were designated as water bodies under the Water Framework directive (WFD), and this equates to 6.9 per cent. of lakes of greater than one hectare.

The Environment Agency and DEFRA are working with English Nature and Countryside Council of Wales to ensure that the designation of smaller waters under the WFD is in line with relevant EU WFD Common Implementation Strategy Guidance.

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that additional *(a)* lakes, *(b)* rivers and *(c)* other small waters of high biodiversity significance beyond those already identified by the Environment Agency will be designated as water bodies in time for the first round of the River Basin Management Planning under the EC Water Framework directive. [40634]

Mr. Morley: The Environment Agency is working with English Nature and Countryside Council of Wales, to identify water bodies of biodiversity significance in line with the relevant Guidance developed under the EU Water Framework directive (WFD) Common Implementation Strategy and the UK WFD Technical Advisery Group (UKTAG). A protocol for the appropriate designation of these water bodies is being developed with DEFRA and the Welsh Assembly Government.

Further details of this protocol will be discussed with members of the WFD Stakeholder Forum for England which is chaired by my Department and meets next on 18 January 2006.

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of length of rivers in England and Wales has been designated as water bodies under the EC Water Framework directive. [40635]

Mr. Morley: A total of 51,182.7 km of rivers were designated as water bodies in accordance with the EC Water Framework directive (WFD) and associated EU WFD Common Implementation Strategy Guidance, and reported to the European Commission in March 2005 as part of the first round of river basin characterisation. The reported length is approximately 31 per cent. of the total river network of 163,837km (at the scale of 1:50,000) which represents catchments greater than 10km2 as specified under the system A typology for rivers under the directive.

As part of the refinement of characterisation, the Environment Agency and DEFRA are working with English Nature and Countryside Council of Wales to ensure that smaller waters are dealt with in accordance with the relevant EU WFD common implementation strategy guidance.

Hunting Act

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of *(a)* sections 1 to 5 and *(b)* Schedule 1 of the Hunting Act 2004. [40997]

Jim Knight: The Government are satisfied with the operation of the Hunting Act 2004 to date.

Rural Communities (East Yorkshire)

Mr. Graham Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to sustain rural communities in East Yorkshire. [38931]

Jim Knight: In its Rural Strategy 2004, the Government announced an ambitious and targeted set of priorities for rural communities and enhancing our natural environment, together with radical reforms for their delivery, all firmly within a sustainable development framework. Since the General Election in May we have reinforced those priorities through actions such as the establishment of the Affordable Rural Housing Commission, the announcement of a new Rural Social and Community funding programme and the introduction of the Natural Environment and Rural Communities Bill. The Bill seeks, among other things, to establish both the Commission for Rural Communities-an expert adviser, advocate and watchdog for rural communities-and Natural England-a new integrated agency to conserve and enhance the natural environment.

All of these activities will impact on East Yorkshire. In addition, the East Riding of Yorkshire benefits from being a LEADER + rural development area and forms part of the Humber Rural Pathfinder area for the Yorkshire and Humberside region.

DEFENCE

Administrative Costs

Mr. Salmond: To ask the Secretary of State for Defence what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40057]

Mr. Touhig: The Ministry of Defence has six Executive non-departmental public bodies (NDPBs) and 11 advisory NDPBs.

Executive NDPB gross expenditure costs for reporting years 1999–2000 through to 2004–05 can be found in the supplementary annex to the Ministry of Defence annual report and accounts 2004–05 (http://www.mod.uk/publications/modara04_05/index.html). Figures given for each Executive NDPB are generally non-identifiable. Figures for the Fleet Air Arm Museum are identifiable.

Administrative costs for MOD advisory NDPBs in 2004–05 are listed in the following table.

£

Advisory NDPB	*Administrative costs*	*Contract costs*	*Total costs for 2004–05*
Animal Welfare Advisory Committee	6,665	0	6,665
Defence Nuclear Safety Committee	34,808	0	34,808
Nuclear Research Advisory Committee	18,169	0	18,169
Defence Scientific Advisory Council	369,929	134,140	504,069
Advisory Committee on Conscientious Objectors	n/a	n/a	n/a
Advisory Group on Medical Countermeasures	5,000	175,000	180,000
Armed Forces Pay Review Body	92,056	0	92,056
War Pensions Committee	38,507	0	38,507
Dartmoor Steering Group	0	0	0
National Employers Advisory board	21,300	0	21,300
Review Board for Government Contracts	41,943	347,518	389,461

Notes:
1. Administrative costs may include staff fees, travel and subsistence claims, conferences and advertising.
2. Advisory Committee on Conscientious Objectors has not met since 1996. There were no costs for 2004–05.
3. The Dartmoor Steering Group incurs no costs. Members are voluntary and no expenses are claimed.

Chinook HC2

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library copies of all *(a)* reports, *(b)* memoranda, *(c)* audits and *(d)* other evaluations that were produced by (i) Boscombe Down and (ii) on behalf of Boscombe Down during the flight trials of the Chinook HC2 helicopter, including those covering engine-control software before 3 June 1994. [21756]

Mr. Ingram: I will write to the right hon. Gentleman, and place a copy of my letter in the Library of the House.

DESO

Malcolm Bruce: To ask the Secretary of State for Defence pursuant to the answer of 20 December 2005, *Official Report*, column 2759W, on the Defence Export Service Organisation (DESO), whether records of such requests are kept or recorded in DESO's overseas offices. [41627]

Mr. Ingram: There is no requirement for overseas staff of the Defence Export Services Organisation to report to the London office details of instances in which advice has been given to companies about agents. It is therefore for each overseas post to determine in which cases there is a business need to record such advice.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Defence how many detainees being held by multi-national forces in Iraq *(a)* have been charged with a criminal offence and *(b)* are entitled to obtain independent legal advice regarding their detention. [33936]

Mr. Ingram: None of the individuals held by UK forces have been charged with a criminal offence. They are held because they are judged to be an imperative threat to security as coalition forces are authorised to do by International and Iraqi law. All of them are entitled to obtain independent legal advice regarding their detention.

The divisional temporary detention facility is subject to regular inspections by the ICRC.

Adam Price: To ask the Secretary of State for Defence pursuant to his answer of 1 December 2005, *Official Report*, columns 677–78W, on Iraq, (1) when the Government were first informed of the deaths in April; and what action was taken as a result; [36073]

(2) whether either of the two individuals who died in custody are known to have had prior contact with UK armed service personnel. [36071]

Mr. Ingram *[holding answer 8 December 2005]:* I am only aware of one death in April 2005 of an Iraqi that United Kingdom forces believe was at the time in the

custody of the Iraqi police service. It is believed that the death occurred between 10 April, when the individual was detained and 14 April, when officials became aware of it. Ministers were advised on 28 April. Strong representations were subsequently made to the Iraqi authorities, both in Basra and in Baghdad, that they should carry out a full investigation and that any human rights abuses in the treatment of prisoners in Iraqi custody should cease. As a result the unit in whose custody the death occurred was disbanded and three Iraqi police officers are under investigation.

UK armed forces were involved in the arrest of the individual on 10 April but there is no record of prior contact with him.

The other death to which I referred in my answer of 11 November 2005, *Official Report*, column 855W, occurred in September 2005. I am not aware that the individual concerned had any prior involvement with UK forces.

Mr. Ancram: To ask the Secretary of State for Defence (1) how many of those suspected of committing a serious terrorism-related offence in *(a)* Iraq and *(b)* Afghanistan and detained by the British armed forces (i) have been extradited to another state and (ii) have been handed over to US authorities in Iraq since March 2003; and if he will make a statement; [36671]

(2) what the legal status is of those in British custody but not charged in *(a)* Iraq and *(b)* Afghanistan; and if he will make a statement. [36672]

Mr. Ingram: British armed forces have neither extradited to another state nor handed over to US authorities in Iraq any detainees suspected of committing a serious terrorism-related offence in Afghanistan since March 2003. No one is currently held in British custody in Afghanistan.

I refer the right hon. Gentleman to my answer of 9 January 2006, *Official Report*, columns 221–22W, which gives the numbers of those suspected of committing a serious terrorism-related offence who have been transferred into US custody in Iraq since 2003. British armed forces have not extradited to another state any detainees suspected of committing a serious terrorism-related offence in Iraq since March 2003.

All internees in British custody in Iraq are held under the auspices of UN Security Council Resolution 1546 and Iraqi law.

Joint Strike Fighter

Mr. Bone: To ask the Secretary of State for Defence whether the two different engines proposed to power the F35 Joint Strike Fighter are still to be produced. [40958]

Mr. Ingram: Work continues on developing both the F135 and F136 engines for the Joint Strike Fighter.

Mr. Bone: To ask the Secretary of State for Defence whether the three variants of the F35 Joint Strike Fighter with the different wings, power systems and weapons are still to be produced. [40959]

Mr. Ingram: Work on the development of the three Joint Strike Fighter variants continues.

Mr. Bone: To ask the Secretary of State for Defence whether the F35B version of the Joint Strike Fighter is the only aircraft that could operate from the proposed two new aircraft carriers. [41388]

Mr. Ingram: It remains our plan to operate the F-35B (Short Take-Off Vertical Landing variant) Joint Strike Fighter aircraft from the future carrier. We also retain the option to deploy Harrier GR9 initially. However, the design has the flexibility to be adapted to operate conventional take-off and landing aircraft if we decide to do so in the future. In addition a range of helicopters will operate from the ships.

Officer Training Corps

Mr. Lancaster: To ask the Secretary of State for Defence whether members of the Officer Training Corps are eligible for mobilised service. [41662]

Mr. Touhig: Members of the Officer Training Corps may be called out for mobilised service under Section 52 of the Reserve Forces Act 1996. No call-out Order has been made under that section.

PR Companies

Mr. Weir: To ask the Secretary of State for Defence if he will list the public relations companies that have had contracts with *(a)* his Department, *(b)* his non-departmental public bodies, *(c)* his Department's Executive agencies and *(d)* other bodies funded by his Department and for which he is responsible since May 1997; and what work was undertaken by each. [39190]

Mr. Touhig: Ministry of Defence expenditure on external assistance, of which consultants employed to manage PR is part, is available in the Library of the House for years 1995–96 to 2004–05 contained in the documents "Expenditure On External Assistance for the MOD by TLB/Agency", and "Expenditure On External Assistance for the MOD by Category". Although this is broken down by various categories, my Department does not centrally record expenditure on external PR or other related agencies.

RAF Tristars

Mr. Bone: To ask the Secretary of State for Defence what percentage of RAF Tristars are fitted with *(a)* the defensive aid system and *(b)* cockpit armour. [40402]

Mr. Ingram: 33 per cent. of the RAF's Tristar fleet are currently fitted with a defensive aid suite and 78 per cent. are fitted with flight deck armour.

Sub-munitions (Kosovo)

Mr. Moore: To ask the Secretary of State for Defence how many BL755 sub-munitions were destroyed by *(a)* 33 Engineer Regiment and *(b)* other UK forces in Kosovo between June 1999 and July 2000. [40422]

Mr. Ingram: Information about the number and types of sub-munitions destroyed by United Kingdom forces is not held centrally and could be provided only at disproportionate cost. Nonetheless, I can confirm that 212 sub-munitions tasks were conducted in Kosovo between 12 June 1999 and 30 June 2000; however, this figure relates to all sub-munitions tasks.

TRANSPORT

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Transport (1) how much was spent on advertising by *(a)* his Department and previous Departments with his Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department in each year since May 1997; [39113]

(2) if he will list the public relations companies that have had contracts with *(a)* his Department and previous Departments with his Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department since May 1997. [39114]

Ms Buck: The requested figures for advertising are set out as follows. However, records of costs from 1997–98 until 2001–02 are not readily available due to departmental re-organisations and could be obtained only at disproportionate costs.

The majority of advertising investment by my central Department is in support of the THINK! Road Safety campaign. DVLA's main advertising expenditure has been to support the introduction of continuous registration.

	2002–03	*2003–04*	*2004–05*
DfT (Central)	10,446,000	10,427,000	9,021,724
DVLA	8,066,000	10,177,000	9,370,000
DSA	0	0	0
HA	232,135	137,703	388,024
VOSA	0	4,800	13,500
MCA	52,292	33,619	49,495
VCA	4,641	5,640	8,865
SRA	95,000	505,000	25,000

Listing the public relations companies that have had contracts with *(a)* the Department and previous Departments with the Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) Executive agency for which the Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by the Department since May 1997 could be produced only at disproportionate cost.

Pete Wishart: To ask the Secretary of State for Transport what the annual expenditure on training and development by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [40007]

Ms Buck: The Department is committed to developing and improving the way it works to better achieve its business objectives. In order to do this it encourages all of its staff to take part in development activities that will improve their skills. In addition, certain staff may be required to carry out mandatory training for particular duties.

The information is as follows:

£

	2002–03	*2003–04*	*2004–05*	*2005–06 (planned)*
Department for Transport (Central)	2,206,518	2,627,595	2,845,353	2,937,748

Vehicle Certification Agency	111,000	146,000	127,000	150,000
Government Car and Despatch Agency	60,409	80,393	56,237	51,645
Railway Heritage Committee	—	—	—	0
Northern Lighthouse Board	182,270	222,851	159,978	185,000
Trinity House Lighthouse Service	332,000	252,000	300,000	400,000
Rail Passengers Council	—	—	—	80,000
Commission for Integrated Transport	5,952	8,481	9,610	7,500
Disabled Persons Transport Advisory Committee	—	2,036	6,183	1,985
Traffic Commissioners and Deputies	0	0	0	0
Strategic Rail Authority	407,435	650,603	919,024	973,634
Standing Advisory Committee for Trunk Road Assessment	0	0	0	0

Financial records are not kept in a form which allows the Department to distinguish between country or region.

The Rail Passenger Council was launched on 25 July 2005.

The Railway Heritage Committee transferred to the Department for Transport on 21 November 2005.

There are no records for the Disabled Persons Transport Advisory Committee prior to 2003–04.

The Vehicle and Operator Services Agency was set up on 1 April 2003.

Department for Transport (Central) was set up in May 2002 and the 2002–03 expenditure reflects that.

There is no current Standing Advisory Committee for Trunk Road Assessment set up.

Light Rail

Mr. Duncan: To ask the Secretary of State for Transport how much was given in subsidy by his Department to each light rail scheme currently in operation in each year since they commenced operation. [27504]

Mr. Darling *[holding answer 11 November 2005]:* The following light rail schemes are currently in operation in England.

Blackpool Trams
Croydon Tramlink
Docklands Light Railway
Manchester Metrolink
Midland Metro
Nottingham Express Transit
Sheffield Supertram
Tyne and Wear Metro

Of these, only the Docklands Light Railway (DLR) and the Tyne and Wear Metro, have received operating subsidy from the Department for Transport or its predecessors and agencies.

The operating subsidy provided is as follows.

£ million

	Docklands Light Railway	*Tyne and Wear Metro*
1987–88	2.126	—
1988–89	2.840	—
1989–90	5.420	—
1990–91	9.999	—
1991–92	19.759	—
1992–93	15.342	—
1993–94	14.399	—
1994–95	15.656	—
1995–96	13.249	—
1996–97	19.530	8.795
1997–98	6.716	8.619
1998–99	6.343	8.630
1999–2000	20.824	9.428
2000–01	4.911	9.787
2001–02	3.681	9.884
2002–03	4.594	11.831
2003–04	3.734	13.407
2004–05	5.838	15.952

From 2000 the DLR subsidy has been paid by Transport for London (TfL).

For the years prior to 1996–97 it is not possible to separately identify the Metro element within the overall support provided for heavy rail and Metro services in Tyne and Wear.

The concessionaire of Croydon Tramlink, though it does not receive a revenue subsidy from central Government, is entitled to compensation on a 'no better, no worse' basis where fares policy enacted by the Mayor results in revenues per trip falling below those assumed in the 1996 financing plan which underpinned the Private Finance Initiative concession. It received compensation payments of £5.501 million in 2003–04 and £5.812 million (estimated) in 2004–05.

The local authorities which are responsible for the running of these systems may make some contribution to their operating costs depending on the commercial arrangements with the system operators in each particular case. The Department does not hold any central records on this.

The Department's capital expenditure on the construction of light rail systems in England since 1980 is as follows:

£ million

	Amount
Tyne and Wear Metro	237.5
Docklands Light Railway	335.5
Manchester Metrolink	123.0
Sheffield Supertram	220.0
Midland Metro	80.0
Croydon Tramlink	125.0
Nottingham Express Transit	167.0

Normally this is paid as an upfront capital sum, except in the case of Nottingham Express Transit where the funding is in the form of annual availability payments.

Mobility and Inclusion Unit

Danny Alexander: To ask the Secretary of State for Transport if he will list the work completed to date by the Mobility and Inclusion Unit; and what issues the unit is working on. [40743]

Ms Buck: The Mobility and Inclusion Unit contributes to the delivery of the Department for Transport's aim to

"make transport accessible and affordable to users of public transport, pedestrians and motorists, and to promote diversity in transport provision".

Specifically the current focus of the unit is to:

improve accessibility to transport, in particular through implementation of Disability Discrimination Act 1995 and 2005 provisions, and promote personal mobility;

reduce social exclusion through implementation of recommendations of the Social Exclusion Unit report and promote social inclusion, in particular through implementation of the Race Equality Scheme;

work with partners to reduce crime and fear of crime on the transport network.

Details of the recent achievements and current objectives of the unit can be found in the Mobility and Inclusion Unit Business Plan 2005–06 which is available on the Department for Transport's website.

Danny Alexander: To ask the Secretary of State for Transport what his policy is on the retention of expertise in the Mobility and Inclusion Unit; and if he will make a statement. [40744]

Ms Buck: Staff in the Mobility and Inclusion Unit often stay in posts longer than is usual elsewhere in the Department for Transport. We balance the benefits of retaining expertise in the short-term with providing opportunities for development and promotion to allow us to sustain this valuable work in the long-term.

Passenger Subsidies

Mr. Andrew Turner: To ask the Secretary of State for Transport what the *(a)* capital and *(b)* revenue subsidy per passenger mile travelled was for each transport authority in the most recent year for which figures are available. [38159]

Ms Buck *[holding answer 19 December 2005]:* I refer the hon. Member to my answer of 12 December 2005, *Official Report*, column 1620W.

Public Service Agreements

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on progress of each public service agreement target set for his Department. [40980]

Ms Buck: Progress against public service agreement targets is set out in the Department's annual report and autumn performance report, as well as on the Department's website.

Mr. Amess: To ask the Secretary of State for Transport what discussions he has had with stakeholders about progress of each public service agreement target set for his Department; and if he will make a statement. [40981]

Ms Buck: Management of public service agreement targets is an integral part of the Department's business and discussions with stakeholders about delivery of these targets take place on a routine basis.

TREASURY

Cancer

Mr. Baron: To ask the Chancellor of the Exchequer how many people were diagnosed with *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years. [41166]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning how many people were diagnosed with *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years.(41166)

The most recent available information on registration of newly diagnosed cases (incidence) is for the year 2003. Numbers of newly diagnosed cases of selected cancers registered in England and Wales between 1994 and 2003 are given in the attached table.

Number of newly diagnosed cases of selected cancers registered in England and Wales, 1994–2003

	Prostate[1]	*Breast*[1]	*Colorectal (bowel)*[1]		*Lung*[1]		*All other cancers*[2]	
	Male	*Female*	*Male*	*Female*	*Male*	*Female*	*Male*	*Female*
1994	19,399	31,671	14,811	14,093	23,314	12,297	54,622	54,114
1995	19,239	31,834	15,013	13,917	22,481	12,432	54,679	54,211
1996	20,098	32,393	15,547	14,353	21,398	12,117	54,518	53,852
1997	19,501	33,457	15,837	14,123	21,180	12,223	55,255	54,967
1998	20,597	34,822	16,266	14,757	20,768	12,559	56,365	55,046
1999	22,403	36,438	16,507	14,731	20,445	12,566	57,055	56,092
2000	24,726	35,888	16,653	14,255	20,311	12,880	57,599	56,574
2001	27,773	36,392	16,174	13,943	19,758	12,719	56,685	56,432
2002	28,577	36,659	16,276	13,928	19,182	12,634	56,297	55,715
2003	28,810	38,864	16,636	13,906	18,841	13,071	56,841	56,748

[1] Cancers registered in 1994 and 1995–2003 are, respectively, defined by codes in the International Classification of Diseases, Ninth Revision (IC.D9) and Tenth Revision (JCDI0). Therefore, prostate cancer is defined by codes 185 or C61, breast cancer by codes 174 or C50, colorectal (bowel) cancer by codes 153–154 or C18-C21 and lung cancer by codes 162 or C33-C34.
[2] "All other cancers" are defined by codes 140–208 or COO-C97 (excluding non-melanoma skin cancer 173 or C44 and excluding the codes in footnote 1 above).

Office for National Statistics

Mr. Baron: To ask the Chancellor of the Exchequer how many people died from *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years. [41167]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician I have been asked to reply to your recent question asking how many people died from *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years. (41167)

The latest year for which data are available is 2004. Figures for deaths from cancer by site are shown in the attached table for each year from 1995 to 2004.

Number of deaths from cancer by site,[1] *England and Wales, 1995 to 2004*[2]

Calendar year	*(a) prostate*	*(b) breast*[3]	*(c) bowel*	*(d) lung*	*(e) other cancer site*
1995	8,866	12,623	15,749	31,627	70,293
1996	8,742	12,246	15.447	30:S10	70.214
1997	8.523	12.047	15,219	29,976	69.882
1998	8.573	11.835	14,984	30,199	70,738
1999	8,533	11.670	14,607	29,493	69.832

Number of deaths from cancer by site,[1] England and Wales, 1995 to 2004[2]

Calendar year	(a) prostate	(b) breast[3]	(c) bowel	(d) lung	(e) other cancer site
2000	8,293	11,433	14,236	29,029	69,695
2001[4]	8,912	11,638	14,142	28,728	72,419
2002[4]	8,973	11,557	14,275	28,806	73,166
2003[4]	9,166	11,276	14,051	28,765	72,697
2004[4]	9,169	11,031	14,171	28,328	72,157

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1995 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 onwards. The codes used are listed as follows:

Malignant neoplasm of prostate—ICD-9 185; ICD-10 C61;

Malignant neoplasm of breast—ICD-9 174–175; ICD-10 C50;

Malignant neoplasm of colon and rectum—ICD-9 153/154; ICD-10 C18-C21;

Malignant neoplasm of trachea, bronchus and lung—ICD-9 162; ICD-10 C33-C34;

Other cancer sites—ICD-9 140–208 excluding the above codes; ICD-10 C00-C97 excluding the above codes.

[2] Figures are based on deaths occurring in each calendar year.

[3] Figures include deaths in males as well as females.

[4] The introduction of ICD-10 for coding cause of death in 2001 means that data for cancer are not completely comparable with data for years before this date. The data should therefore be interpreted with caution. The effect of the change in classification in 2001 on deaths from cancer by site is described in an article published in August 2004 [5] .

[5] Brock A. Griffiths C. Rooney C (2004) The effect of the introduction of ICD-10 on cancer mortality trends in England and Wales. Health Statistics Quarterly 23. 7–17.

Mr. Baron: To ask the Chancellor of the Exchequer what the five-year survival rates were for *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years. [41168]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning what the five-year survival rates were for *(a)* prostate cancer, *(b)* breast cancer, *(c)* bowel cancer, *(d)* lung cancer and *(e)* all other cancers in each of the last 10 years.(41168)

Cancer survival rates are only produced for specific cancers and are calculated by combining several years of diagnosis.

The latest available five-year survival rates for the selected major cancers in England are for adult patients (aged 15–99 years) diagnosed during 1998–2001 and followed up to the end of 2003, These figures and survival rates for patients diagnosed during 1991–95 and 1996–99 in England and Wales are given in the attached table.

Five-year age-standardised[1] relative survival (%) for adult patients[2] diagnosed during 1991–95 (England and Wales), 1996–99 (England and Wales) and 1998–2001 (England), major cancers by sex

		Five-year relative survival		
Cancer		Patients diagnosed 1991–95 England and Wales	Patients diagnosed 1996–99 England and Wales	Patients diagnosed 1998–2001 England
Prostate[3]	Men	53.6	64.8	70.8
Breast[3]	Women	72.8	77.5	79.9
Colon[3]	Men	42.1	46.9	49.4
	Women	42.8	47.9	50.2
Rectum[3]	Men	40.3	46.8	50.0
	Women	44.8	51.1	53.6
Lung[3]	Men	5.2	5.8	6.3
	Women	5.4	6.4	7.5

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15–99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.

[2] Aged 15–99 years.

[3] Cancers registered in 1991–94 and 1995–2001 are, respectively, defined by codes in the International Classification of Diseases, Ninth Revision (ICD9) and Tenth Revision ICD10). Therefore, prostate cancer is defined by codes 185 or C61, breast cancer by codes 174 or C50, colorectal (bowel) cancer by codes 153–154 or C18-C21 and lung cancer by codes 162 or C33-C34.

Office for National Statistics

Mr. Baron: To ask the Chancellor of the Exchequer what the mortality rate was for cancer in people under 75 years in each of the last 10 years. [41169]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician I have been asked to reply to your recent question asking what the mortality rate was for cancer in people under 75 years in each of the last 10 years. (41169)

The latest year for which data are available is 2004. Figures for deaths from cancer in people aged under 75 years are shown in the attached table for each year from 1995 to 2004.

Age-standardised death rate[1] from cancer,[2] in persons aged under 75 years,[3] England, 1995 to 2004[4]

Calendar year	Rate per 100,000
1995[5]	144.7
1996[5]	141.6
1997[5]	137.3
1998[5]	136.0
1999[5]	132.0
2000[5]	129.0
2001	125.8
2002	124.4
2003	121.3
2004	118.7

[1] Age-standardised to the European standard population.

[2] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1995 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 onwards. The codes used are listed as follows:

Malignant neoplasms—ICD-9 140–208; ICD-10 C00 C97.

[3] Data exclude deaths at age under 28 days.

[4] Figures are based on deaths occurring in each calendar year.

[5] The introduction of ICD-10 for coding cause of death in 2001 means that data for cancer are not completely comparable with data for years before this date. The figures presented in this table for the years 1993 to 2000 have been adjusted using comparability ratios to be comparable with ICD-10.
The effect of the change in classification in 2001 on deaths from all cancer and cancer by site is described in an article published in August 2004.*
* Brock A, Griffiths C, Rooney C (2004) The effect of the introduction of ICD-10 on cancer mortality trends in England and Wales "Health Statistics Quarterly" 23, 7–17.

Child Benefit

Mr. Laws: To ask the Chancellor of the Exchequer for what reasons the weekly amount of child benefit paid to the first child in each household is higher than the rate paid in respect of other children in the household; and if he will make a statement. [41424]

Dawn Primarolo: The Government are committed to helping families with children through the financial support system. Its approach is based on the dual principles of providing financial support for all families with children, recognising the extra costs and responsibilities associated with bringing up a child; and offering more help to those who need it most, when they need it most. In the Child Poverty Review (2004), the Government also set out its long-term aspiration to improve the financial support available to large families.

Mr. Laws: To ask the Chancellor of the Exchequer what assessment he has made of the merits of taxing child benefit at the marginal rate of tax; and if he will make a statement. [41433]

Dawn Primarolo: The Government's system of financial support for families with children is built on the principle of progressive universalism, delivering help for all families and more help for those who need it most. Universal child benefit forms the foundation of this system, recognising the extra costs and responsibilities associated with bringing up a child. The Government believe it is right that society should recognise the importance of family life by providing financial support for every family with a dependent child, and will not tax child benefit. Child benefit is complemented by child tax credit, which delivers greatest support to those who need it most, including families on lower incomes, those with children under one, and parents of disabled children.

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the annual revenue yield of taxing child benefit at the marginal rate of tax. [41485]

Dawn Primarolo: An estimate of the annual cost of exempting tax on Child Benefit for 2005–06 is published in Table 7 of 'Tax ready reckoner and tax reliefs', published alongside the pre-Budget report.

Child Trust Fund

Mr. Laws: To ask the Chancellor of the Exchequer what proportion of Child Trust Fund vouchers issued to date have been used to open accounts which are valued at *(a)* £500 and *(b)* £250; and if he will make a statement. [41465]

Mr. Ivan Lewis: I refer the hon. Member to the answer given on 12 December 2005, *Official Report*, column 1783 to the hon. Member for Kingston and Surbiton (Mr. Davey).

Commissioners for Revenue and Customs Act 2005

Mr. Amess: To ask the Chancellor of the Exchequer (1) if he will make a statement on the operation of sections *(a)* 1 and *(b)* 2 of the Commissioners for Revenue and Customs Act 2005; [41736]

(2) when he expects each section of the Commissioners for Revenue and Customs Act 2005 to come into force; and if he will make a statement. [41737]

Dawn Primarolo: Most of the provisions of the Commissioners for Revenue and Customs Act 2005 were brought into force by Commencement Order (Statutory Instrument 2005 no. 1126) with effect from 5.45 pm on 7 April 2005 shortly after the Act had received Royal Assent. The Order provided for the remainder of the Act to come into force on 18 April 2005.

Those sections, including sections 1 and 2, brought into force on 7 April enabled preparatory work to begin on the setting up of HM Revenue and Customs and the Revenue and Customs Prosecutions Office. The transfer of functions from the Inland Revenue and HM Customs and Excise was completed on 18 April, when the new Departments were launched.

Details of the current Commissioners can be found in HM Revenue and Customs' Annual Report 2004–05, which is available in the House Library.

Council Tax

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 14 December 2005, *Official Report*, column 1964W, on council tax, if he will place in the Library a copy of the *(a)* internal guidance and manuals and *(b)* external guidance for local authorities in Wales that the Valuation Office Agency produced for the Welsh council tax revaluation. [39961]

Dawn Primarolo: No internal guidance or manuals were produced by the Valuation Office Agency for local authority departments in Wales for the Welsh council tax revaluation. Copies of external guidance will be placed in the Library.

Departmental Expenditure

Dr. Cable: To ask the Chancellor of the Exchequer how much his Department has spent on *(a)* online and *(b)* non-online self assessment in each year since 1997; and how much was spent on (i) set up and maintenance of the website, (ii) advertising and (iii) investigation of fraud and error; and if he will make a statement. [38348]

Dawn Primarolo: The information requested is as follows:

(i) The Inland Revenue's on-line service for self assessment tax returns went live in 2000–01 (on 3 July 2000). Costs provided are for set up and maintenance of that website based service.

£ million

	(i) Set up and maintenance of website
1998–99	0
1999–2000	0
2000–01	7.4
2001–02	7.3
2002–03	10.0
2003–04	6.5

(ii) In respect of costs of advertising attributable to self assessment may I refer the hon. Member back to the answers given to him on 18 July 2005, *Official Report*, column 1334W and 19 November 2003, *Official Report*, column 1093W and the reply to the hon. Member for West Dorset (Mr. Letwin) on 5 January 2004.

(iii) HMRC do not separate the costs of compliance for online/non online filers. The information can be provided only at a disproportionate cost.

Economic Activity (Ethnic Groups)

Mr. Spellar: To ask the Chancellor of the Exchequer what the economic activity rates were for *(a)* men and *(b)* women in each ethnic group in the last year for which figures are available. [40661]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about economic activity rates for ethnic groups. (40661)

The attached table gives the estimate of the economic activity rates for people of working age by ethnic groups for the twelve month period ending December 2004 from the Annual Population Survey.

As with any sample survey, estimates from the Annual Population Survey (APS) are subject to a margin of uncertainty.

Economic activity rates for people of working age[1] by ethnicity and sex: United Kingdom—12 months ending December 2004

	All persons		Men		Women	
	Levels (000s)	Activity rates (%)[4]	Levels (000s)	Activity rates (%)[4]	Levels (000s)	Activity rates (%)[4]
Total[2]	28,327	78.0	15,503	83.2	12,824	72.6
White[2]	25,388	79.5	13,826	84.1	11,562	74.6
of which:						
British[3]	24,089	79.6	13,124	84.2	10,965	74.8
Other white[3]	1,299	77.1	702	82.9	597	71.3
Mixed	185	71.1	91	77.8	94	65.5
of which:						
White and Black Caribbean	52	69.3	24	73.5	28	66.2
White and Black African	25	75.5	11	79.8	14	72.4
White and Asian	50	67.5	29	77.2	21	57.4
Other mixed	58	74.3	27	81.9	31	68.5
Asian or Asian British	1,060	63.8	658	76.7	402	50.1
of which:						
Indian	555	74.0	320	81.1	234	66.1
Pakistani	251	51.8	178	71.8	73	30.9
Bangladeshi	91	48.0	67	70.5	24	25.3
Other Asian	163	68.9	93	77.4	71	60.3
Black or Black British	545	69.9	273	75.8	272	64.9
of which:						
Black Caribbean	269	76.8	132	80.3	138	73.8
Black African	251	63.7	129	72.0	122	56.7
Other Black	24	72.0	12	72.6	12	71.4
Chinese	105	59.4	56	63.0	49	55.8
Other	279	63.1	166	71.8	113	53.6

[1] Includes men aged 16–64 and women aged 16–59.
[2] Includes people who did not state their ethnic origin.
[3] Excludes Northern Ireland. Detailed level ethnicity questions are not asked of the white group in Northern Ireland.
[4] Economically active as a percentage of all persons in the relevant ethnic group.

ONS—Annual Population Survey

Equity Release

Mr. Drew: To ask the Chancellor of the Exchequer if he will make a statement on the Government's approach to equity release, with particular reference to maintaining older people in their homes. [41503]

Mr. Ivan Lewis: Property is the most important and sometimes only significant asset of elderly people. The Government's approach to equity release schemes is to ensure that all homeowners, including older people, are able to make informed choices when purchasing these products, to offer suitable consumer protection, and to ensure that there is a level regulatory playing field in the equity release market.

There are two main types of equity release schemes: lifetime mortgages and home reversion plans. The Financial Services Authority regulates the sale and administration of first charge mortgages on primary

residences, including lifetime mortgages. Following extensive consultation, the Regulation of Financial Services (Land Transactions) Act gained Royal Assent on 19 December 2005, bringing home reversion plans into regulation. The Government will consult further on the detail of the changes in due course.

EU Agriculture Budget

Michael Gove: To ask the Chancellor of the Exchequer what proportion of the EU's agriculture budget was spent on *(a)* direct payments, *(b)* market price support, *(c)* input subsidies and *(d)* export subsidies in the last period for which figures are available. [40948]

Mr. Ivan Lewis: In 2004, the EU spent a total of €43.7 billion under the "Agriculture" heading of the Financial Perspective. €29.9 billion (68 per cent.) was spent on direct payments and €8.5 billion (19 per cent.) on "interventions in agricultural markets", which broadly corresponds to market price support, of which €3.3 billion (8 per cent.) was for export subsidies (export subsidies are one of the tools used to support market prices). Input subsidies are not separately identified in the budget, but the OECD estimates that €14 billion was spent in the EU in 2004 on payments based on input use and input constraints in 2004, some of which was nationally funded, out of a total of €108 billion support provided to EU farmers by EU taxpayers and consumers.

The EU's agriculture budget accounts for only part of EL market price support, the bulk of which is paid for by consumers. Fuller analysis can be found in DEFRA and HM Treasury's recent paper, "A Vision for the Common Agricultural Policy", in particular in Chapter 2.

HM Revenue and Customs

Mr. Amess: To ask the Chancellor of the Exchequer how many staff are employed in Southend by HM Revenue and Customs, broken down by *(a)* sex and *(b)* grade. [41756]

Dawn Primarolo: The following table shows the current breakdown of HMRC staff in Southend on Sea by grade and sex.

	Female	*Male*	*Total*
SCS	1	3	4
Grade 6	6	11	17
Grade 7	15	24	39
Senior Officer (SEO)	116	206	322
Higher Officer (HEO)	245	255	500
Officer (EO)	322	168	490
Assistant Officer (AO)	380	154	534
Admin Assistant (AA)	263	134	397
Total	1,348	955	2,303

Identity Cards

Mr. Laws: To ask the Chancellor of the Exchequer what estimate has been made by his Department of the total cost to the Exchequer of introducing a national identity card scheme; what approval for such expenditure has been given by his Department; and if he will make a statement. [41505]

Mr. Des Browne: The Treasury has not conducted any separate estimates of the costs of creating and maintaining a national identity card.

However, as with other policy formulation, the Treasury contributed to the cross-government estimates of the costs and benefits of ID card scheme led by the department leading the policy area, in this case the Home Office. The estimates for the global costs for the scheme were set out in the Regulatory Impact Assessment. This can be found at: http://www.identitycards.aov.uk/library/Identity_cards_bill_regulatory_impact.pdf

The Government announced it would proceed with the ID cards scheme in November 2003. At the time it was agreed that all costs will be met from existing departmental budgets and charging. This remains the case, as the Home Secretary reiterated to the House on 13 October 2005.

Income Tax (Self-assessment)

Mr. Bone: To ask the Chancellor of the Exchequer what criteria are used to determine which taxpayers are required to fill in a self-assessment income tax return. [40926]

Dawn Primarolo: The criteria used to determine which taxpayers are required to make self assessment returns are published on the HMRC website at http://www.hmrc.gov.uk/sa/guidelines.htm and in other HMRC guidance.

Mr. Bone: To ask the Chancellor of the Exchequer how many self-assessment tax returns were issued in each year since 1997. [40931]

Dawn Primarolo: The total numbers of self assessment tax returns issued in each financial year are detailed as follows. The figures for the financial year 1997–98 are not available.

Return year	*Year issued*	*Total number issued (million)*
1997–98	1998–99	9.189
1998–99	1999–2000	9.346
1999–2000	2000–01	9.324
2000–01	2001–02	9.246
2001–02	2002–03	9.431
2002–03	2003–04	9.816
2003–4	2004–05	10.069

Parliamentary Questions

Mr. Laws: To ask the Chancellor of the Exchequer when he expects to answer questions 19721, 19172, 19285, 19180, 19290, 18639, 19720, 19719, 20015, 20442, 20441, 20440, 20692, 23571, 23294, 23573, 24587, 24586, 24547, 24542, 24506, 25243, 25250, 25253, 25249, 25248, 25242, 25252, 29703, 29704, 29706, 29984, 30662, 30008, 30661, 30567 and 33747, tabled by the hon. Member for Yeovil. [40852]

Dawn Primarolo: Most of the questions concerned have already been answered and I hope to be in a position to answer the remainder soon.

Treasury Ministers attach importance to answering Parliamentary questions promptly. Responding to questions which are tabled in very large numbers (the Treasury has received 373 written questions from the hon. Gentleman since the May 2005 General Election) seeking information on issues where extensive documentation has already been provided to Parliament, or where it cannot easily be established whether the information is actually available and capable of being assembled reasonably quickly without incurring disproportionate cost, can, however, be a time-consuming business and delays are almost inevitable.

Population Statistics (London Boroughs)

Jeremy Corbyn: To ask the Chancellor of the Exchequer what his estimate is of the current population of each London borough based on *(a)* the 2001 census, *(b)* electoral rolls and *(c)* health service users; and what projections he has made for the next five years. [39923]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 12 January 2006:

As National Statistician I have been asked to reply to your question regarding estimates of the current population of each London borough on *(a)* 2001 Census, *(b)* electoral rolls and *(c)* health service users; and projections for the next five years. (39923)

The Office for National Statistics publishes annual mid-year population estimates. The latest estimates are for mid-2004 and are given in Table 1. These mid-year population estimates are calculated using a robust methodology and are the best estimates of the resident population in an area. They are based on aged-on 2001 Census data adjusted for births, deaths and net migration. Further information on the methodology can be found at: www.statistics.gov.uk/StatBase/Product.asp?vlnk = 575.

Population projections for each London borough (and the City of London) for mid-2005 to mid-2010, are also given in Table 1. These projections are based on the mid-2003 population estimates and are the latest population projections available. They assume that trends in fertility, mortality and migration at the time of the mid-2003 population estimate will continue into the future.

The 2001 Census provided estimates the number of people usually resident in an area on Census day, 29 April 2001. These figures can be obtained from the published 2001 Census table KS01 a copy of which is held in the House of Commons Library in the published volume Census 2001, Key Statistics for local authorities in England and Wales.

Electoral rolls provide counts of the number of people registered to vote. The latest available data on the local/European electorate for 1 December 2004 can be found in the Table 2. It should be noted that the number of people eligible to vote is not the same as the resident population aged 18 and over. There are numerous reasons for this. For example, not everyone who is usually resident is entitled to vote (for example, persons from outside of the EU and Commonwealth, prisoners etc. are not eligible), some people do not register to vote and people who have more than one address may register in more than one place. Further there is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. These factors may have a different impact from place to place.

The number of people registered with a GP, living in each London borough (and the City of London), in July 2004, can also be found in the Table 2. It should also "be noted that patient register counts differ from estimates of the usually resident population for a number of reasons.

Some patients may have more than one NHS number and be double counted and people may be on a patient register after having left the country. Patient registers for local areas may be inflated, for example, student areas, due to students who do not quickly re-register after finishing their course of study and moving away from an area. The patient registers also exclude individuals who are ineligible to be registered with a GP, such as persons employed in the armed forces, prisoners that are sentenced for a term of two years or more and certain patients in long stay medical hospitals. Again this has differential impact from area to area.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer on what basis the calculation was made that £2 million be written off from the £174 million of tax credit overpayments arising from software errors in 2003–04 and 2004–05. [19172]

Dawn Primarolo: As was noted in the Inland Revenue 2003–04 annual report and accounts, £37 million was written-off in respect of tax credit overpayments that had arisen as a result of a computer software error, where the overpayment was less than £300. Further analysis of the payment data within the tax credit system identified additional cases amounting to £1.85 million. This was rounded to 'some £2 million' in the Comptroller and Auditor General's standard report on the 2004–05 accounts of the Inland Revenue.

Mr. Laws: To ask the Chancellor of the Exchequer (1) what streamlined procedures were introduced earlier in 2005 to deal with disputed overpayments of tax credits; [19719]

(2) if he will place in the Library a copy of the instructions issued to Tax Credit Office staff prior to the introduction of the new procedures. [40453]

Dawn Primarolo: HMRC's policy on tax credits overpayments is set out in their code of practice 26. The Tax Credit Office streamlined the procedures to clear a backlog of cases where claimants had disputed recovery of an overpayment. The streamlined procedures involve a risk-based approach. As is normal practice with risk-based compliance activity HMRC does not publish details of the procedures.

Dr. McCrea: To ask the Chancellor of the Exchequer how many cases of tax credit fraud in Northern Ireland have been detected in 2004–05. [21356]

Dawn Primarolo: The information requested is not available.

Mr. Laws: To ask the Chancellor of the Exchequer what the total number of overpayments due to official errors in the new tax credit system is; and what their value was in each year since April 2003. [30567]

Dawn Primarolo: The information is not available in the form requested.

For the total number of disputed overpayments written off as a result of official error, I refer the hon. member to the reply I gave him on 27 October 2005, *Official Report*, column 497W, and on 15 November 2005, *Official Report*, column 1214W.

Mr. Ian Taylor: To ask the Chancellor of the Exchequer if he will ask the Tax Office to provide claimants with a full explanation of how the demands for repayment of *(a)* working tax credit and *(b)* child tax credit are calculated. [32421]

Dawn Primarolo: HM Revenue and Customs (HMRC) code of practice 26 "What happens if we have paid you too much tax credit?" explains the rates of recovery for overpayments of tax credits. From April 2006 HMRC will introduce an improved version of the tax credits award notice. This will include a section on overpayments and how any overpayment will be recovered.

Anne Milton: To ask the Chancellor of the Exchequer how many *(a)* child tax credit and *(b)* working tax credit applications are being processed; and how many of each were received (i) up to six months ago and (ii) more than six months ago. [36669]

Dawn Primarolo: The information is not available in the form requested. There is a single claim form for tax credits so it is not possible to differentiate between claims for child tax credit and working tax credit.

Mr. Frank Field: To ask the Chancellor of the Exchequer if his Department will extend the criteria for suspension of the recovery of a tax credit overpayment to include cases where *(a)* a letter has been sent by an hon. Member to the Paymaster General regarding a case of disputed overpayment, *(b)* the Parliamentary ombudsman has commenced an investigation into a case where the claimant has been overpaid and *(c)* a letter has been sent by an hon. Member to the Tax Credit Office in Preston regarding a case of overpaid tax credits. [38626]

Dawn Primarolo *[holding answer 19 December 2006]:* Where a claimant wishes to dispute recovery of an overpayment, HM Revenue and Customs will initiate suspension of recovery following receipt of a letter or a form TC846 (request to reconsider recovery of tax credits) from the claimant; or a letter sent on behalf of the claimant, and with their authority.

Mr. Holloway: To ask the Chancellor of the Exchequer how many cases of forged tax credits there were in the Gravesham area in each of the five years before the Jobcentre Plus scheme was launched; and how many there were in the last year for which figures are available. [39453]

Dawn Primarolo: It is not possible to provide the information in the format requested.

Mr. Holloway: To ask the Chancellor of the Exchequer how many cases of forged tax credits resulting in prosecution have been reported relating to Jobcentre Plus in the Gravesham area in the last 12 months. [39454]

Dawn Primarolo: None.

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to the answer of 2 December 2005, *Official Report*, column 804W, on tax credits, on what date was a written assurance received from EDS that the IT system would be fit for the purpose of supporting tax credits. [40452]

Dawn Primarolo: EDS provided a certificate on 4 April 2003 confirming that the IT system was fit for the purpose of supporting tax credits and on 5 April 2003 EDS wrote to the Inland Revenue in similar terms.

Mr. Laws: To ask the Chancellor of the Exchequer how many people he estimates were entitled to, but did not claim, tax credits in each year since 2000–01; how much he estimates was unclaimed; and if he will make a statement. [41463]

Dawn Primarolo: Estimates of the number of families entitled to, but not claiming working families tax credit in 2000–01, 2001–02 and 2002–03, and the value of unclaimed WFTC entitlements, are available on the HMRC website at http://www.hmrc.gov.uk/stats/wftc/takeup_rates.htm (tables 1 and 2 of each annual publication). Analysis relating to 2003–04 is on-going and we expect this work to be completed towards the end of 2005–06.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what estimate he has made of the cost of not reclaiming overpaid tax credits from those whose incomes rise by less than £25,000. [41714]

Dawn Primarolo: I refer the hon. Member to the answer given to the hon. Members for Birkenhead (Mr. Frank Field) and for Yeovil (Mr. David Laws) on 13 December 2005, *Official Report*, column 1836W.

Tax Debt

Dr. Strang: To ask the Chancellor of the Exchequer how HM Revenue and Customs traces those who owe tax for whom it has an incorrect address. [41028]

Dawn Primarolo: Her Majesty's Revenue and Customs (HMRC) use a number of ways to trace those who owe tax for whom it has an incorrect address.

1. HMRC sources: Departmental data is checked to see if the Department holds an alternative address.

2. Other Government Departments and Agencies: Legislation provides legal gateways that allow HMRC to obtain current address information held on other Departments' systems.

3. Private sector sources: Some use is made of data already in the public domain held by private sector organisations.

4. Contact by phone or personal call: HMRC staff will attempt contact by telephone as customers may retain their telephone number when they move address.

Tax Investigations

Mr. Bone: To ask the Chancellor of the Exchequer what provisions there are for a taxpayer to offset against taxes the cost of tax investigation by HM Revenue and Customs. [41174]

Dawn Primarolo: Costs arising out of an investigation into taxes are deductible in calculating the taxable profits of a business, if those taxes are paid as part of the expenses of carrying on the business. In addition, the normal expenses incurred in preparing accounts and calculating the income tax or corporation tax liabilities in respect of the profits of a business are deductible in calculating its taxable profits.

Additional expenses arising out of an investigation by HMRC are not deductible if the investigation reveals additional income tax or corporation tax liabilities arising from negligent or fraudulent conduct.

Mr. Bone: To ask the Chancellor of the Exchequer what criteria are used to decide which taxpayers will be subject to tax investigation. [40925]

Dawn Primarolo: Cases for direct tax investigation into Self-Assessment returns are selected according to the risk of loss of duty to the Treasury.

The only exception to this is the small proportion of cases that are statistically selected at random in order to police the system while at the same time providing information as to the extent of compliance in the general population.

For indirect taxes, "investigation" is the term specifically used to describe the Department's activity to combat cases of suspected fraud.

The selection of taxpayers for mainstream assurance contact, including visits, is based upon interpretation of the Department's risk analysis systems, past results and other information and intelligence.

The Department focuses its contacts not only on the wilfully non-compliant through tax investigations, but also on those taxpayers needing education and support through an educational and enabling programme.

Mr. Bone: To ask the Chancellor of the Exchequer how many tax investigations were carried out in each year since 1997. [40927]

Dawn Primarolo: The number of tax investigations carried out in each year is as follows:

Year ending 5 April:	*Number*
1999	250,415
2000	510,103
2001	469,750
2002	448,650
2003	313,231
2004	298,819
2005	279,302

For the years ended 5 April 1997, 5 April 1998 and 5 April 1999 the IR did not report the number of tax investigations carried out but reported the number of tax investigations settled annually. The respective annual settlement figures are 96,905, 93,558 and 79,133.

Mr. Bone: To ask the Chancellor of the Exchequer how much additional tax was recovered by the Inland Revenue as a result of tax investigations in each year since 1997. [40929]

Dawn Primarolo: The total additional liability brought into charge as a result of HMRC tackling non-compliance is as follows:

5 April:	*£ billion*
1997	4.3
1998	3.9
1999	4.0
2000	5.4
2001	4.5
2002	3.8
2003	4.3
2004	4.5
2005	5.7

It should be borne in mind that not all of these liabilities may be collected due to a variety of factors, for example insolvency. We have no data indicating what proportion of these liabilities is ultimately collected.

Mr. Bone: To ask the Chancellor of the Exchequer in respect of how many people tax investigations resulted in a recovery of income tax of *(a)* nil, or negative tax recovery, *(b)* under £500, *(c)* between £500 and £1,000, *(d)* between £1,000 and £2,000, *(e)* between £2,000 and £3,000, *(f)* between £3,000 and £4,000, *(g)* between £4,000 and £5,000 and *(h)* over £5,000 in each year since 1997. [40930]

Dawn Primarolo: These statistics are not routinely kept or reported and the costs involved in extracting the data would be too prohibitive.

Tax Returns

Mr. Bone: To ask the Chancellor of the Exchequer how many people have been fined for filing their income tax return late in each year since 1997. [40932]

Dawn Primarolo: The total numbers of late filing penalty notices (the first automatic penalty) issued in each financial year are detailed as follows. The figures for the financial year 1997–98 are not available.

Return year	*Year issued*	*Total number issued (000)*
1997–98	1998–99	748
1998–99	1999–2000	744
1999–2000	2000–01	808
2000–01	2001–02	823
2001–02	2002–03	847
2002–03	2003–04	953
2003–04	2004–05	998

Mr. Bone: To ask the Chancellor of the Exchequer how much money was received in fines from filing late income tax returns in each year since 1997. [40933]

Dawn Primarolo: Available information on the amount paid in respect of penalties for failure to submit income tax self assessment returns, since the start of self assessment, is shown in the table as follows. The years relate to accounting years that run to the end of October.

Year to end of October	*Penalties paid (£ million)*
1998	18.07
1999	29.29
2000	33.01
2001	36.20
2002	36.45
2003	37.68
2004	37.26

Tax Treatment

Mr. Bone: To ask the Chancellor of the Exchequer if he will make it his policy to treat payment made to people who mark examination papers as self-employed income. [41177]

Dawn Primarolo: I refer the hon. Member to the answer I gave him on 10 January to his questions 40625 and 40626. We have no plans to change the tax treatment of examiners.

INTERNATIONAL DEVELOPMENT

Business Financial Reviews

Mr. Davidson: To ask the Secretary of State for International Development if he will list the meetings held between his Department and the Treasury at which the decision to remove the obligation on businesses to publish operating and financial reviews was discussed. [36707]

Hilary Benn: DFID has not had any such meetings.

Departmental Expenditure

Stewart Hosie: To ask the Secretary of State for International Development what the total administrative costs for his core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39837]

Hilary Benn: DFID's provisional outturn for its gross control administration costs limit for 2004–05 is £216,457,000.

DFID's total expenditure, including administration costs, is classified as identifiable, outside the UK for the purpose of the Public Expenditure Statistical Analyses (PESA).

Mr. MacNeil: To ask the Secretary of State for International Development what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39858]

Hilary Benn: DFID does not have responsibility for any agencies.

Mr. Salmond: To ask the Secretary of State for International Development what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40067]

Hilary Benn: DFID does not have responsibility for any non-departmental public bodies.

Departmental Functions

Pete Wishart: To ask the Secretary of State for International Development what functions in his Department are carried out in Scotland; and what the administrative costs of these functions were in the last year for which figures are available. [40012]

Hilary Benn: The total number of UK staff is 1,372, of which 822 are based in London and 550 based in Scotland. DFID's Scotland HQ provides the majority of DFID's support services, including Human Resources, Finance and Corporate Performance, IT and office services. It also provides advisory and operational services for Policy, Knowledge and regional Divisions.

DFID does not break down its administration costs by location in the UK; however we estimate that for 2004–05, £45 million of our total administration outturn of £216,457,000 can be attributed to the teams based in Scotland.

DFID has moved a number of posts to Scotland in line with the Efficiency Review recommendations.

Famine

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on the threat of famine in Somalia, Ethiopia, Kenya and Djibouti. [41415]

Hilary Benn: Poor rains in much of the Horn of Africa at the end of 2005 have left many communities who are dependent on farming and raising livestock in serious difficulties. The United Nations Food and Agriculture Organisation has issued a report saying that as many as 11 million people in Somalia, Ethiopia, Kenya and Djibouti may require assistance in 2006. The severe food shortages in parts of these countries are sadly not a new phenomenon, and DFID has been responding with humanitarian assistance for many years. We are aware of the particular threat this year, the possibility that the current crisis may deepen, and that other areas may come to be affected.

DFID humanitarian advisers visited the worst affected areas in Kenya in November 2005, and visits to Somalia and Ethiopia are planned for early 2006.

This month DFID contributed £1 million to the World Food Programme for Somalia on top of the over £5 million we spent there on humanitarian interventions in 2005. This includes a number of health and nutrition operations in the worst affected parts of Southern Somalia.

In Ethiopia DFID made a commitment of £43 million in March 2005 to the cash and food aid based Productive Safety Net programme. This programme provides assistance to some of the poorest communities in Ethiopia. In December 2005 we announced a further £2.7 million for Kenya in response to the situation there.

DFID will continue to monitor the situation closely and we stand ready to provide additional support if necessary.

DEPUTY PRIME MINISTER

Departmental Expenditure

Pete Wishart: To ask the Deputy Prime Minister what has been the annual expenditure on training and development for *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in

(A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39983]

Jim Fitzpatrick: The available information is given in the following tables. The Office of the Deputy Prime Minister (ODPM) is not responsible for any training expenditure in bodies in Scotland or Northern Ireland.

Expenditure on training in the Office of the Deputy Prime Minister is split between budgets held centrally in the training and development team and those held by line management. The central budget covers the ODPM's induction programme, performance management training, the learning library and Skills for Life programme, helps deliver the ODPM's Excellence in Delivery programme and supports the implementation of Professional Skills for Government. Expenditure on training by line managers is via the Training Framework which offers over 600 public scheduled courses covering a wide range of topics to ensure staff have the necessary core skills.

With regard to the Audit Commission, this is an operational matter for that body. I will ask the chief executive to write to the hon. Member and to ensure the answer is made available in the Library of the House.

Table 1

£000

	2002-03 Out-turn	*2003-04 Out-turn*	*2004-05 Out-turn*	*2005-06 Planned*

Total	1,680	2,452	2,412	1,779

n/a = Not available.

The Architects Registration Board's accounts operate on an annual basis—from January to December, rather than the financial year from April to March. The training expenditure, in £000 is as follows:

	£
2002	10
2003	6
2004	13
2005	6
2006	16

Departmental Publications

Mr. Amess: To ask the Deputy Prime Minister if he will make it his policy to publish as an annex to his annual report a list of all publications published by his Department in the preceding year; and if he will make a statement. [41018]

Jim Fitzpatrick: A database of publications issued by the Office of the Deputy Prime Minister since May 2002 is available on the ODPM website at: http://www.publications.odpm.gov.uk/ Information can be accessed by both date and policy area.

The Office of the Deputy Prime Minister has no plans to publish this information in duplicate in our annual report.

Fire Service Restructuring

Miss McIntosh: To ask the Deputy Prime Minister what recent representations he has received on his proposals for regional fire control centres; what assessment he has made of the implications for individual fire authorities of leaving certain functions out of scope of the regional control centre project; and what assessment he has made of the implications for council tax of the continuation of the performance of out of scope activities by local fire brigades. [39705]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has received three representations directly from fire and rescue authorities since the end of the summer recess. While they raise concerns over finance, none has opposed the fundamental principles of the FiReControl project. On out of scope activities, I refer the hon. Member to the answer given on 9 January 2006, *Official Report*, column 255W. There are not expected to be implications for council tax payers of the continuation of out of scope activities since the overall savings from the project will more than offset any costs arising.

Local Government Finance

Mr. Spellar: To ask the Deputy Prime Minister what action his Department is taking to reduce increases in the cost of auditing to local councils. [40775]

Mr. Woolas: The Audit Commission is responsible for setting the fees for audit. Its current consultation paper "Local Councils—Proposed fee scales 2006–2011" gives details of proposed reductions on audit fees for many small councils.

Non-governmental Organisations

Alistair Burt: To ask the Deputy Prime Minister if he will list the quasi-autonomous non-governmental organisations for which his Department had responsibility on 1 January *(a)* 2001 and *(b)* 2006; how many people were employed by each body in each year since 2001; and what the salary of the chief executive of each body was in each year since 2001. [41506]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) was established in May 2002. Cabinet Office's publication 'Public Bodies 2002' provides information on the non-departmental public bodies sponsored by ODPM, including a figure for staff employed by each body and the salary of the chief executive or other senior officer. A copy of 'Public Bodies 2002' was placed in the Library of the House of Commons. Similar information for years up to 31 March 2005 can be found on Cabinet Office's Public Bodies database at:

http://www.knowledgenetwork.gov.uk/ndpb/ndpb.nsf/0/8AC82848303185688025 70AD0044C876?OpenDocument

On 1 January 2006, ODPM sponsored the following executive public bodies:

The Architects' Registration Board;

The Audit Commission for Local Authorities and the National Health Service in England and Wales;

English Partnerships (consisting of the Commission for the New Towns and the Urban Regeneration Agency);

The Housing Corporation;

The Leasehold Advisory Service;

London Thames Gateway Development Corporation;

The Standards Board for England;

Stonebridge Housing Action Trust;

Thurrock Thames Gateway Development Corporation;

West Northants Development Corporation; and

The Valuation Tribunal Service.

Official Residences (Council Tax)

Mrs. Spelman: To ask the Deputy Prime Minister whether the council tax bills for his official residences have been paid out of public funds, in each year since his appointment as Deputy Prime Minister. [39478]

The Deputy Prime Minister *[holding answer 9 January 2006]:* I have reviewed the arrangements for the payment of council tax on the official residence I occupy at Admiralty house.

The Government have paid a discounted amount of council tax on this flat since 1997, continuing the arrangements in place for the previous Conservative Administration. The residence at the time was the responsibility of the Ministry of Defence. Consequently, the following amounts of council tax have been paid out of public funds for my official residence:

£

	Ministry of Defence	*ODPM and predecessors*
1997–98	[1]266.52	—
1998–99 to 2004–05	—	3,564

[1] Pro-rata share subsequently taken over by DETR.

I was paying council tax on my Hull constituency home and on a rented flat in London, which I vacated in November 2003. I believed that I was paying council tax on all three properties.

In 1997 I was assigned an official residency at Admiralty house that was deemed as my primary residence in accordance with the House of Commons rules.

As part of this arrangement I paid additional income tax on the benefit in kind arising from the utilities and services associated with my occupancy of the official residence, equivalent to 10 per cent. of my ministerial salary. This is in accordance with legislation first introduced in the Finance Act 1977 and included in the Income and Corporation Taxes Act 1988 and the Income Tax (Earnings and Pensions) Act 2003.I believed that council tax on the official residence was included in this.

In 1997 the Government carried on paying council tax as before on the flat, and claimed a discount (on a second home/company basis). This was not confirmed with me and nor was any advice given to me at the time.

On reviewing the situation, I am now aware that an inadvertent error has occurred, based on a genuine misunderstanding. To avoid any doubt, I have therefore:

issued this answer to a parliamentary question to correct the record and to fully apologise to the House;

instructed my Department to confirm to Westminster City council that Admiralty house is my primary residence;

insisted that future council tax bills should be sent direct and personally to me;

reimbursed the Department for their payment of council tax since 1997; and

although I have no legal obligation to do so, I will pay full council tax on Admiralty house for the whole of the period since 1997 and have requested that Westminster City council calculate any amounts arising from my decision to do so.

The Commons Fees Office have confirmed that I have acted within the rules at all times.

The Cabinet Secretary has confirmed that for the future he has put in place procedures to ensure that Ministers who are allocated official residences are given clear guidance on dealing with their council tax liabilities.

Dorneywood is owned and managed by an independent trust, which meets the cost of the council tax. There is no cost to public funds.

CULTURE, MEDIA AND SPORT

2012 Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what aspirational target for medals at the 2012 Olympic Games has been set by *(a)* UK Sport and *(b)* her Department; and what representations have been received on these targets from the British Olympic Association. [41188]

Mr. Caborn: Neither the Department nor UK Sport has set an aspirational target for Olympic medals in London 2012.

The Chair of the British Olympic Association (BOA) met the Secretary of State on 16 November, and wrote on 2 December to indicate that the BOA's aspirational goal for London 2012 was fourth in the Olympic medal table.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what representations *(a)* the Department and *(b)* UK Sport received from the British Olympic Association on UK Sport's submission to the Treasury on the funding of elite athletes prior to the publication of the pre-Budget report. [41189]

Mr. Caborn: The Chair of the British Olympic Association (BOA) met the Secretary of State on 16 November, and wrote on 2 December about UK Sport's submission to the Department on funding for elite athletes. In addition, officials have also had periodic conversations with the BOA.

Officials from UK Sport and the BOA met on at least four occasions prior to the submission of UK Sport's 2012 funding proposals to the Department. In addition, the Chairs of the respective organisations met on 12 October to discuss funding for elite athletes.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport on how many occasions UK Sport met the British Olympic Association to discuss the funding of elite athletes prior to the publication of the pre-Budget report. [41192]

Mr. Caborn: On 12 July, the British Olympic Association (BOA) convened a meeting with UK Sport and Performance Directors from all the summer Olympic sports to assess the initial implications of the successful bid to host the 2012 Olympics.

Subsequently, officials from UK Sport and the BOA met on at least four other occasions prior to the submission of UK Sport's 2012 funding proposals to the DCMS. UK Sport and BOA officials also met with representatives from 22 of the 26 summer Olympic sports. In addition, the Chairs of the respective organisations met on 12 October to discuss funding for elite athletes.

Digital Broadcasting

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what the average cost is per household of *(a)* digital switch-over and *(b)* aerial repairs to enable households to receive digital television. [40652]

James Purnell: On 8 November 2005, Ofcom published research by the Generics Group which examined the cost and power consumption implications of digital switchover for UK households. The report estimates that

"for those households that will incur a cost as a result of switchover, the actual cost will depend on the equipment requiring conversion and the level of voluntary conversion carried out before switchover. Typical non-voluntary costs for TVs and recorders in households containing an average collection of reception equipment are therefore estimated to range from £26 to £153."

Disabled People (Media Portrayal)

Tim Farron: To ask the Secretary of State for Culture, Media and Sport what recent assessment her Department has made of the portrayal of people with disabilities on television; and what recent discussions she has had with Ofcom on this issue. [40825]

James Purnell: None. Responsibility for what is broadcast on television and radio rests with the broadcasters and the organisations which regulate broadcasting—the Office of Communications (Ofcom), the Governors of the BBC and the Welsh Fourth Channel Authority. Ofcom did recently publish a report on the representation and portrayal of people with disabilities on analogue terrestrial television.

Free Television Licences

Mr. Dismore: To ask the Secretary of State for Culture, Media and Sport how many pensioners in Hendon have received free television licences in 2005; and if she will make a statement. [41618]

James Purnell: TV Licensing, which administers free television licences for people aged 75 or over as agents for the BBC, is not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Hendon constituency in 2004–05 was 5,740 according to Department for Work and Pensions records.

ICONS Online

Hywel Williams: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the *(a)* set-up costs, *(b)* annual running costs, *(c)* projected lifespan, *(d)* total cost and *(e)* impact on Barnett formula funding of ICONS online. [41549]

Mr. Lammy: ICONS is a Culture Online project run in partnership with Cognitive Applications. The project set-up cost to date is £510,000; running costs amount to £43,500 each month (£522,000 per year). The project ends in March 2007, but has been designed to become a self-sustainable non-profit organisation after that date. The total cost therefore amounts to just over £1,000,000. Culture Online's remit only extends to England, and the ICONS project has no impact on the Barnett formula funding.

Parliamentary Questions

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport when she expects to reply to question 38358 tabled on 13 December by the hon. Member for Faversham and Mid Kent, on funding for elite athletes. [41186]

Mr. Caborn: I answered question 38358 from the hon. Member for Faversham and Mid Kent (Hugh Robertson) on 9 January 2006, *Official Report*, column 32W.

World Cup

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport how many Government officials will be attending FIFA World Cup matches in their official capacity. [41687]

Mr. Caborn: No decision has been made as to whether any Government officials will attend any of the FIFA World Cup matches in Germany this year in an official capacity.

It is likely that a number of Government Ministers may attend matches and will be accompanied by officials. Similarly, no decisions about Ministerial attendance have been made.

TRADE AND INDUSTRY

Bankruptcies

Sarah Teather: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of *(a)* personal and *(b)* company bankruptcies in (i) London and (ii) each London borough in each of the last three years. [40803]

Mr. Sutcliffe: The following table records the numbers of individual bankruptcy orders and company compulsory liquidations in the London Region classified according to Official Receivers' Office from 2002–03 to 2004–05.

Figures are not separately available for each London borough.

Numbers of compulsory insolvencies recorded in the London Official Receivers offices, 2002–03 to 2004–05 [1,2]

Financial year total

	2002–03	*2003–04*	*2004–05* [1,2]
Bankruptcy Orders	1,562	2,132	4,910
Company Compulsory Liquidations	1,211	823	1,137

[1] Croydon Official Receiver's Office is classified under London Region for 2004–05 only, when it accounted for 1,678 of the 4,910 bankruptcies and 209 of the 1,137 company compulsory liquidations.

[2] The 2004–05 figures also include Public Interest Unit (PIU) and Carousel, which together amount to 18 bankruptcies and 139 company compulsory liquidations.

Companies (Audit, Investigations and Community Enterprise) Act

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on the operation of section 60 of the Companies (Audit, Investigations and Community Enterprise) Act 2004. [41001]

Alun Michael: To date there have been no proceedings in relation to offences covered by section 60 of the Companies (Audit, Investigations and Community Enterprise) Act 2004.

End of Life Vehicles Directive

Mr. Rogerson: To ask the Secretary of State for Trade and Industry whether the UK is on track to meet the January 2006 targets set by the EU end of life vehicles directive. [40467]

Malcolm Wicks: The End-of-Life Vehicles (Producer Responsibility) Regulations 2005, which transpose the targets in the Directive into national law, place obligations on vehicle producers and, in certain circumstances, Authorised Treatment Facilities, to achieve recovery and recycling of 85 per cent. of the weight of ELVs they scrap during the whole of 2006. A study commissioned by the Department last year established that 75 per cent. of the average weight of ELVs is made up of ferrous and non-ferrous metals, and this proportion may be deemed to have been automatically reused or recycled, under the terms of Commission Decision 2005/293/EC, to reflect usual commercial practice. A further 10 per cent. of the weight of ELVs needs therefore to be recovered during 2006. Fluids, including fuel, and tyres, plastics and glass are likely to contribute. Progress will be reviewed during the course of the year to ensure that obligated parties are on course to meet their targets.

Fireworks (Amendment) Bill

Mr. Amess: To ask the Secretary of State for Trade and Industry what recent representations he has

received about the Fireworks (Amendment) Bill; how many *(a)* supported and *(b)* opposed the Bill; and if he will make a statement. [40999]

Mr. Sutcliffe: I have received no representations on this Bill.

Gwynt-y-Mor Wind Farm

Mr. David Jones: To ask the Secretary of State for Trade and Industry what discussions his Department has held with representatives of power renewables concerning the proposed development of the Gwynt-y-Mor wind farm. [40718]

Malcolm Wicks: Prior to an application being submitted under the Electricity Act 1989 officials in the Department had various discussions with npower about a proposed generating station at Gwynt-y-Mor. These discussions concerned issues relating to a formal scoping request under regulation 7 of the Electricity Works (Environmental Impact Assessment) England and Wales Regulations 2000 and more recently to matters concerning the making of an application under the Electricity Act and about the administrative processes triggered by such an application.

Industrial Disease Compensation

John Mann: To ask the Secretary of State for Trade and Industry what steps he is taking to ensure that industrial disease compensation cheques are paid directly to miners. [40692]

Malcolm Wicks: Compensation cheques are made payable to the claimant but sent via the claimant's representative. The claimant's representative is responsible for ensuring that the correct moneys are paid to the claimant and, for deceased claims, that compensation is correctly distributed.

David Taylor: To ask the Secretary of State for Trade and Industry how many pending coal health compensation claims there are in *(a)* North West Leicestershire, *(b)* the East Midlands, *(c)* England, *(d)* Wales and *(e)* Scotland involving claimants who worked as miners in both the public and private sectors where settlement is being delayed by lack of agreement with legal advisers to the former private sector employer. [40818]

Malcolm Wicks: The information requested is not readily available. There are nearly 22,000 claims involving co-defendants which have yet to be settled. However, most of the issues preventing progress have been resolved. Consequently, the bulk of these 22,000 claims should be in a position to be processed in accordance with the priority system.

Miners' Compensation

Mr. Clapham: To ask the Secretary of State for Trade and Industry whether agreements between his Department and *(a)* the Claimants Group Solicitors and *(b)* the Union of Democratic Mineworkers are effectively identical so far as the payment of compensation to claimants is concerned; and in what ways they differ so far as the claimant is concerned as stated in the Boyd-Smith report. [38957]

Malcolm Wicks *[holding answer 11 January 2006]:* A claimant would receive the same compensation whichever handling agreement the claim is processed under. The medical assessment process is identical, the evidential burden is the same and the priorities for deciding which claims are processed first do not depend on the handling agreement that applies. There are some procedural differences but neither handling agreement delivers compensation any quicker than the other.

Pregnancy and Maternity

Michael Connarty: To ask the Secretary of State for Trade and Industry what steps he is taking to set out the employment legislation relating to pregnancy and maternity for *(a)* employers and *(b)* employees. [40672]

Mr. Sutcliffe: A large amount of information is already available to both employers and employees, including guidance provided by DTI, DWP and HMRC. ACAS provides information through its dedicated helpline as well as through guidance. The information on the Businesslink.gov website is being enhanced to provide employers with more support in managing a pregnancy in the workplace. Information for employees has been drawn together on to the direct.gov website.

However, in the context of the changes to maternity leave and pay provisions which will follow the Work and Families Bill, DTI, DWP and HMRC will work together to rationalise the guidance on their own websites and ensure there is comprehensive and coherent information available that is easily accessible and properly signposted. This will include Government working with stakeholders to develop the proposal for a leaflet setting out the rights and responsibilities of both employers and employees which will be provided at an early stage of a woman's pregnancy.

Michael Connarty: To ask the Secretary of State for Trade and Industry what steps his Department is taking to support micro and small businesses to manage pregnancy and maternity within their employee base. [40699]

Mr. Sutcliffe: The Government recognise that small businesses can sometimes face particular difficulties in managing and administering maternity leave and statutory maternity pay (SMP). Additional financial support is available for smaller employers. All employers are able to claim back 92 per cent. of the SMP they pay to their employees but smaller employers—those whose annual national insurance liability is £45,000 or less—are able to claim back 100 per cent. of the SMP they pay out plus an additional 4.5 per cent. Employers are also able to claim this money in advance from HMRC where making the payment would cause them cashflow problems.

Measures in the work and families package will also offer small employers more practical support. To give employers more certainty in managing maternity leave we will be extending, from 28 days to eight weeks, the amount of notice a woman must give if she is changing her plans about returning from maternity leave. We will also be clarifying in regulation that an employer may make reasonable contact with a woman during maternity leave. The introduction of keeping in touch

days will enable a woman to do some limited days' work activity for her employer. This will support employers and employees in maintaining contact during maternity leave and will help to ease a woman's return to work after maternity leave.

Government are also changing some of the SMP rules to ease administration for employers. Employers will be able to calculate a daily rate for SMP if this will help them to pay SMP at the same time as a woman's usual payday. Women will be able to choose to begin their maternity leave on any day of the week which will allow maternity leave and pay periods to be fully aligned.

No employer now needs to calculate SMP manually. From February 2005, HMRC introduced and supplied a new SMP calculate to all employers on its employers CD ROM 2005. HMRC has also improved the SMP calculators on its website. To support those less comfortable with electronic solutions, the HMRC employer's helpline will calculate the SMP amounts and dates payable and the amounts recoverable, and follow this up with prompt reassurance in the form of written confirmation.

Services Directive

Michael Gove: To ask the Secretary of State for Trade and Industry if he will make a statement on current negotiations on the services directive under the Austrian presidency of the EU. [40955]

Ian Pearson: The proposed EU directive on services in the internal market was last discussed in Council at the Competitiveness Council on 28 November 2005. Ministers agreed that good technical progress had been made during the UK presidency, and that they should wait for the opinion of the European Parliament and the Commission's revised proposal before resuming discussions.

The European Parliament is scheduled to hold its first reading vote on the directive next month. The Commission has recently indicated that it will submit its revised proposal very soon afterwards.

The Austrian Chancellor has said that he hopes to present a solution on the directive, which is a priority dossier for their presidency. In their joint Operational Programme for 2006 (available at http://www.eu2006at/includes/Download_Dokumente/0512draft_operationalprogrammeEN.pdf), the Finnish and Austrian Governments have stated that they are committed to completing negotiations on the directive.

The UK Government strongly support the market-opening objectives of the directive and will work closely with the Austrian presidency, other member states and the Commission to take negotiations forward during 2006.

Sunday Trading

Mr. Jenkins: To ask the Secretary of State for Trade and Industry what plans the Department has for evaluating the impact of Sunday trading on the family life of employees. [40685]

Mr. Sutcliffe: The DTI will be assessing work-life balance issues as part of its wider evaluation of the impact of further liberalisation of Sunday trading hours.

Telephone Main Lines (Broadband)

Mr. Weir: To ask the Secretary of State for Trade and Industry how many telephone main lines are in use in *(a)* Scotland, *(b)* Wales, *(c)* each of the English regions and *(d)* Northern Ireland; and how many are broadband in each case. [39199]

Alun Michael: The information is not available in the form requested, but Ofcom's Communications Market report 2005 showed that in the UK at the end of 2004 there were:

33.7 million fixed line connections;

61.2 million mobile connections;

15.9 million internet connections;

6.3 million broadband connections.

By September 2005, the number of broadband connections in the UK had risen to 8.1 million[1]. Great progress has been made towards providing broadband access across the UK as a whole, where 99.6 per cent. of households are now connected to a broadband enabled exchange. This is considerable progress against the 2003 (80 per cent.) and 2004 (93 per cent.) figures.

Ovum, an analyst and consulting company in the telecommunication sector.

Veterinary Medicines

Mr. Drew: To ask the Secretary of State for Trade and Industry what steps he is taking to monitor the impact of the recent changes in the prescription of veterinary medicines and accompanying services. [40649]

Mr. Sutcliffe: The regulatory impact assessment accompanying the Supply of Relevant Veterinary Medicinal Products Order 2005 sets out that the Office of Fair Trading is responsible for reviewing and monitoring compliance with competition legislation. To achieve this they may request information from a wide range of parties. The Royal College of Veterinary Surgeons is responsible for the changes implemented through the Guide to Professional Conduct.

The legislation covering the placing on the market and safe use of veterinary medicines in the UK is set out in the Veterinary Medicines Regulations 2005 (SI 2005/2745) and is the responsibility of the Veterinary Medicines Directorate, an agency of the Department for the Environment, Food and Rural Affairs (DEFRA). These regulations will be revoked and replaced annually to ensure that they remain relevant. A regulatory impact assessment will be produced and published to accompany the Regulations and full public consultation will be carried out.

More generally, DEFRA continually assesses the impact of all factors affecting the veterinary sector, including the effect of new legislation.

Wind Power

Mr. Spellar: To ask the Secretary of State for Trade and Industry what assessment his Department has made

of the availability of equipment for wind power projects in relation to the Government's targets for renewable energy. [40777]

Malcolm Wicks: The availability of equipment for wind power projects is primarily a matter for wind power developers. However, the Department recognises that the current growth in the worldwide demand for wind turbines is having an impact on UK offshore wind farm developers in particular.

The Department's 2010 target team is working with developers and suppliers in order to minimise the impact on industry's ability to meet the Government's 2010 renewables target.

Working Time Directive

Michael Gove: To ask the Secretary of State for Trade and Industry if he will make a statement on current negotiations on the working time directive under the Austrian presidency of the EU. [40956]

Mr. Sutcliffe: Austria has not yet publicly announced formal plans for handling negotiations on the working time directive, however, we would expect the Austrians to aim for political agreement during the next Employment Council in March 2006.

Michael Gove: To ask the Secretary of State for Trade and Industry which other EU member states support the UK's position on maintaining its opt-out from the 48-hour week in the working time directive. [40957]

Mr. Sutcliffe: A significant number of member states support the retention of the individual right to opt-out from the 48-hour week in the working time directive, including Germany and Poland.

NORTHERN IRELAND

Hospitality Costs

David Simpson: To ask the Secretary of State for Northern Ireland how much was spent on hospitality by *(a)* the Secretary of State and Direct Rule Ministers, *(b)* Ministers in the Northern Ireland Assembly, *(c)* the Speaker of the Northern Ireland Assembly, *(d)* the Chief Constable and *(e)* district commanders in each of the last 10 years; and how much of that was spent on alcohol in each case. [38595]

Mr. Woodward: The Northern Ireland Office, Office of the First Minister and Deputy First Minister and the Police Service of Northern Ireland cannot provide the information requested by the hon. Gentleman. To do so would incur disproportionate costs as we cannot easily identify expenditure on hospitality or alcohol for the individuals the hon. Gentleman refers to.

House Prices

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on house prices in Northern Ireland. [2190]

Mr. Hanson: The peace process and the improved economic benefits associated with this have had a major impact on house prices which were, in the past, reasonably stagnant in comparison to the buoyant GB housing market. Many home owners are therefore benefiting from this. Rising house prices can create difficulties for first-time buyers and while Northern Ireland does not have a general affordability problem there are hot spot areas where affordability problems may occur. Recent Government initiatives such as the increase in the threshold at which stamp duty is paid from £60,000 to £120,000 coupled with the recent increase in the level of funding available to the Co-ownership scheme and the changes to the eligibility rules, will play an increasing role in helping those on lower incomes to become home owners.

Limavady Bypass

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what changes have been made to the Limavady bypass since its opening. [38954]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 12 January 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what improvements or changes have been made to the Limavady Bypass since its opening. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Since the Limavady Bypass became operational in July 2003 some minor alterations, involving the realignment of kerbing and road markings, were carried out to provide smoother vehicle paths through priority junctions. Resurfacing work was also carried out on approaches to bridges following anticipated residual settlement of embankments.

I hope this information is helpful.

PE

Kate Hoey: To ask the Secretary of State for Northern Ireland what plans there are to establish a strategic approach to the development and support of curriculum physical education. [40770]

Angela E. Smith: The Government recognise the importance of physical activity for the long-term health and well-being of the community. Physical education will continue to be a compulsory part of the revised Northern Ireland school curriculum, which the Government plan to introduce from September 2006. The wider aspects of physical activity will be addressed in light of the report of the fit futures taskforce and the review of the physical activity strategy.

Pre-School Provision Report

Sammy Wilson: To ask the Secretary of State for Northern Ireland when the Department of Education in Northern Ireland will publish its response to the pre-school review. [40771]

Angela E. Smith: It is anticipated that the response to the review of pre-school education will be published following the announcement of the children and young people fund, which is due shortly.

Primary School (New Construction)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the average cost of constructing a new one-form-of-entry 4 to 11 primary school has been in the last three years. [19526]

Angela E. Smith: In the last three financial years there have been five new seven-classroom primary schools, including two with nursery units, completed in Northern Ireland. The average construction cost was £1.8 million.

Review of Public Administration

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the legislative framework is for the implementation of the Review of Public Administration. [40780]

Angela E. Smith: The Government will be introducing a number of pieces of legislation over the next few years to provide for the implementation of decisions on the Review of Public Administration. Subordinate legislation will be brought forward before Easter to dissolve 18 health and social services trusts and establish five new trusts. It is intended to lay a draft Order in Council before Parliament in the current term to set the context for the review of local government boundaries. Separate Orders in Council will also be brought forward in due course for the further reorganisation of health and personal social services, education and local government structures; to provide for certain of the new or enhanced responsibilities of the new district councils; and, where appropriate, to implement any further decisions on executive agencies and public bodies.

Road Safety

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will move responsibility for all road safety measures in Northern Ireland into one Department; and if he will make a statement. [33534]

Angela E. Smith: The Northern Ireland Road Safety Strategy 2002 to 2012 provides an integrated approach to the planning, co-ordination and delivery of Government's road safety activities and it requires the three main statutory bodies with responsibility for road safety in Northern Ireland (the Department of the Environment, the Department for Regional Development's Roads Service and the Police Service of Northern Ireland) to work together closely in partnership.

A road safety steering group, comprising senior management from each of the three partners, is responsible for coordinating delivery of the strategy and ensuring cohesive and complementary education, enforcement and engineering road safety activities.

These partnership arrangements are working well and are making a significant contribution to casualty reductions and there are no plans at this time to change this approach.

Road Maintenance

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the Department for Regional Development Roads maintenance budget expenditure in *(a)* Limavady and *(b)* Coleraine borough council areas was in each of the last three years. [38955]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 12 January 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what the Department for Regional Development Roads maintenance budget expenditure in *(a)* Limavady and *(b)* Coleraine Borough Council areas was in each of the last three years.

I have been asked to reply as these issues fall within my responsibility as Chief Executive of Roads Service.

The most recent figures available are up to the financial year ended March 2005 and I can confirm that the roads maintenance expenditure in Limavady and Coleraine Borough Council areas in each of the last three years are as detailed in the table below.

£000

Summary	*2002–03*	*2003–04*	*2004–05*
Limavady	2,636	3,555	3,156
Coleraine	3,740	5,167	3,960

I hope this information is helpful.

School Transport Costs

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the administration costs of transport were in each Education and Library Board in each of the last five years. [40836]

Angela E. Smith: The information requested is not available in the required format prior to 2002–03. The Education and Library Boards have, however, incurred the following expenditure in each of the last three years in relation to the administration of the home to school transport service:

	BELB	*NEELB*	*SEELB*	*SELB*	*WELB*	*Total*
2002–03	170,000	195,000	252,000	196,000	429,157	1,242,157
2003–04	223,000	231,000	236,879	367,000	350,979	1,221,858
2004–05	194,000	256,000	178,000	493,000	410,708	1,531,708

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the cost of home to school transport was in each of the Education and Library Boards in each of the last five years, broken down by *(a)* board vehicles, *(b)* translink, *(c)* taxi hire, *(d)* mini-buses, *(e)* *bus* escorts and *(f)* other costs. [40837]

Angela E. Smith: The information requested is only available in the required format for the past three years. Also, information is not held relating to the cost of providing escorts. The Education and Library Boards have, however, incurred the following expenditure in each of the last three years.

Belfast Board

	Board vehicles	Translink	Taxi hire	Private operators	Other	Total
2002–03	1,647,000	827,000	1,236,000	—	307,000	4,017,000
2003–04	2,338,000	845,000	952,000	105,000	366,000	4,606,000
2004–05	2,268,000	866,000	633,000	346,000	312,000	4,425,000

North-Eastern Board

	Board vehicles	Translink	Taxi hire	Private operators	Other	Total
2002–03	1,926,000	7,373,000	1,790,000	2,742,000	321,000	14,152,000
2003–04	1,996,000	7,620,000	2,007,000	2,713,000	919,000	15,255,000
2004–05	2,328,000	8,373,000	2,095,000	3,113,000	897,000	16,806,000

South-Eastern Board

	Board vehicles	Translink	Taxi hire	Private operators	Other	Total
2002–03	1,997,000	6,419,000	2,108,000	807,000	546,000	11,877,000
2003–04	3,058,507	5,917,792	2,656,528	692,803	547,678	12,873,308
2004–05	2,423,000	6,931,000	2,216,000	1,199,000	516,000	13,285,000

Southern Board

	Board vehicles	Translink	Taxi hire	Private operators	Other	Total
2002–03	4,620,000	5,135,000	1,833,000	3,030,000	223,000	14,841,000
2003–04	3,796,000	5,429,000	1,965,000	3,150,000	876,000	15,216,000
2004–05	4,274,000	5,966,000	2,022,000	3,140,000	965,000	16,367,000

Western Board

	Board vehicles	Translink	Taxi hire	Private operators	Other	Total
2002–03	5,936,000	3,731,000	694,000	1,175,000	780,614	12,316,614
2003–04	5,244,000	3,731,000	877,000	1,255,000	545,219	11,652,219
2004–05	5,836,553	4,340,631	1,046,192	1,300,316	642,872	13,166,564

Note:
The 'Other' category includes Strangford and Rathlin ferries, parents' car, Lough Swilly, building maintenance and administration costs.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the cost of home-to-college transport was in each of the education and library board areas in each of the last five years. [40838]

Angela E. Smith: A detailed breakdown of the Home to College Transport spend in each education and library board, in each of the last five financial years where the information has been validated is as follows:

	BELB	NEELB	SEELB	SELB	WELB
1999–2000	117,694	797,987	1,057,726	1,185,317	548,000
2000–01	131,844	914,672	1,033,867	1,012,821	563,941
2001–02	127,404	911,387	688,830	1,068,282	617,838
2002–03	106,233	932,185	675,954	1,036,222	611,289
2003–04	105,832	891,382	662,911	1,032,752	690,147

Stormont Spy Ring

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* police and *(b)* prison personnel in each parliamentary constituency were informed that they had to move from their homes following the collapse of the Stormont spy ring prosecutions. [42265]

Mr. Woodward: PSNI has advised that no police officers have applied for special purchase evacuated dwellings (SPED) as a result of the 'Stormontgate' case.

The police will only advise people of threats to their personal safety and cannot force anyone to move house. The decision to apply for SPED is for the individual alone to make.

The NI Prison Service advises that a total of 451 prison officers relocated under the assisted home removal scheme. As with the PSNI, the decision to move rests solely with the individual.

Student Finance

Mark Durkan: To ask the Secretary of State for Northern Ireland how many students will lose funding support as a result of the decision to withdraw funding for post-graduate diplomas in Northern Ireland. [39477]

Angela E. Smith: The decision to withdraw funding did not affect students already in receipt of an award.

Sub-regional Transportation Plan

Mr. McGrady: To ask the Secretary of State for Northern Ireland what consultations took place on the formulation of the sub-regional transportation plan in respect of the towns of Downpatrick, Ballynahinch and Newcastle. [40783]

Mr. Woodward: The chief executive of the Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 12 January 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what consultations took place on the formulation of the Sub-Regional Transportation Plan in respect of the towns of Downpatrick, Ballynahinch and Newcastle. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

The preparation of the Sub-Regional Transport Plan has been supported by some 29 local transport studies of towns and cities across Northern Ireland, including those for Downpatrick, Ballynahinch and Newcastle. These studies have been undertaken by independent consultants, working to a standard brief prepared by Roads Service, and their management has included interdepartmental liaison and participation of Translink. The consultants have worked closely with Roads Service Divisional staff and have taken full account of their local knowledge of the issues developed over the years through regular consultation with the Councils and contact with the general public.

As you will also be aware, the Draft Ards and Down Area Plan 2015 was published in December 2002. Consultation on the Area Plan, which includes Downpatrick, Ballynahinch and Newcastle, involved the production of an Issues Paper in December 2000 and a series of public meetings facilitated and reported by Community Technical Aid. The consultation included transportation matters.

In preparing the Draft Sub-Regional Transport Plan, Roads Service had intended that an emerging blueprint, detailing the likely improvements in each local area, would have been available prior to Christmas. However, due to the draft NI Priorities and Budget 2006/08 and the Investment Strategy for Northern Ireland announcements in December, and their potential impact, it was decided to defer issuing the blueprints until the New Year. The Councils were advised accordingly.

It is our intention to produce the Draft Sub-Regional Transport for formal consultation in March 2006, with the final Plan to be published in December 2006 and it is still Roads Service's intention to provide District Councils with sight of the blueprints for their respective towns, in advance of the formal consultation.

I hope this information is helpful.

Sustainable Development

Mark Williams: To ask the Secretary of State for Northern Ireland what parts of his Department's estate will not be covered by the commitments set out in the Framework for Sustainable Development on the Government Estate. [18440]

Angela E. Smith: The Framework for Sustainable Development on the Government Estate does not apply to devolved Administrations.

Water Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland what financial investment he plans to make in the Water Service. [1358]

Mr. Woodward: The Priorities and Budget document published on 20 December 2004 provides for the following levels of investment in the Water Service:

£ million

	2005–06	*2006–07*	*2007–08*
Current investment	110.4	114.7	112.4
Capital investment	279.5	228.8	224.4
Total investment	389.9	343.5	336.8

FOREIGN AND COMMONWEALTH AFFAIRS

Darfur

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Sudan regarding the removal from their posts of regional administrators and mid-ranking military personnel who are suspected of committing war crimes in Darfur. [39694]

Ian Pearson: We have consistently made clear that those responsible for war crimes in Darfur must be brought to justice. We have called on the Sudanese Government to investigate those believed to be responsible for war crimes. We are encouraging anyone with information on the perpetrators of war crimes to pass it to the Sanctions Committee and the International Criminal Court for consideration in their work under United Nations Security Council Resolutions 1591 and 1593.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United States Administration regarding the restoration of funding for the African Union force in Darfur removed from the US's Foreign Operations Appropriations Bill 2006. [40413]

Ian Pearson: We are in regular and close contact with the US and other donors to the African Union Mission in Sudan (AMIS) to ensure that the mission's funding requirements are met. The US Senate did propose an Amendment to the 2006 Foreign Operations Appropriations Bill to provide $50 million to AMIS, but for technical reasons this Amendment was not agreed. The US Administration and key members of Congress have assured us that they remain committed to continuing to support and help fund AMIS. Currently, the United States funds vital camp, vehicle, and communications operations and maintenance for the 34 AMIS camps as well as 14 contract Military Observers. Congress has not yet completed its budgetary processes, so there will be other opportunities for additional US funding for AMIS to be agreed. There are also alternative sources of funding within the US State Department which could be used to help finance AMIS.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the International Criminal Court on investigating and prosecuting *(a)* state governors, *(b)* provincial commissioners and *(c)* individuals in the formal military chain of command responsible for war crimes and crimes against humanity in Darfur. [40415]

Ian Pearson: The Government have consistently made clear that those responsible for the terrible crimes committed in Darfur should be brought to justice. The UK sponsored UN Security Council Resolution 1593, referring the situation in Darfur to the International Criminal Court (ICC). The Prosecutor of the ICC began a formal investigation on 6 June 2005.

It is for the ICC to consider the evidence and to make decisions regarding the indictment of specific individuals. The UK is committed to respect the Prosecutor's independence. Ministers and officials, in

their contacts with ICC, have underlined that the UK remains a strong supporter-in principle and in practice-of the Court's work.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Government of Sudan's co-operation with the work of the Prosecutor of the International Criminal Court in Darfur. [40496]

Ian Pearson: On 13 December 2005, the Prosecutor of the International Criminal Court (ICC), Luis Moreno-Ocampo, presented a report to the UN Security Council on the progress of his Office's investigation into the situation in Darfur. The report, available at www.icc-cpi.int/home.html stated that the Office had made good progress in the investigation's first phase, and noted that the next phase would seek the further assistance and co-operation of the Government of Sudan.

However, also on 13 December 2005, the Sudanese Justice Minister made comments suggesting that the ICC would not be allowed to enter Darfur to conduct investigations.

In response, on 14 December 2005, my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, said:

"UN Security Council Resolution (UNSCR) 1593 referred the situation in Darfur to the ICC and called upon all parties, including the Government of Sudan, to co-operate with the ICC investigation. This referral sent a strong signal to the world at large that there can be no impunity for those guilty of grave human rights abuses. I am therefore deeply concerned to hear the recent statement by Sudan's Justice Minister, Muhammad Ali al-Mardi, that Sudan will not allow investigators from the ICC into Darfur. We expect the Government of Sudan to comply with all the wishes of the international community as set out in UNSCR 1593 and cooperate fully with the ICC should it decide to visit Darfur."

The Government will continue to support the ICC as it takes forward its investigation, and to maintain pressure on all parties, including the Government of Sudan, to provide full co-operation as requested by the ICC.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan concerning its decision not to allow international investigators into Darfur; and if he will continue to seek the Government of Sudan's agreement to sign up to the International Criminal Court. [40648]

Ian Pearson: In a statement issued on 14 December 2005, available at http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1007029391638&a=KArticle&aid=1133774576642 my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, said:

"UN Security Council Resolution (UNSCR) 1593 referred the situation in Darfur to the International Criminal Court (ICC) and called upon all parties, including the Government of Sudan, to co-operate with the ICC investigation. This referral sent a strong signal to the world at large that there can be no impunity for those guilty of grave human rights abuses. I am therefore deeply concerned to hear the recent statement by Sudan's Justice Minister, Muhammed Ali al-Mardi, that Sudan will not allow investigators from the ICC into Darfur. We expect the Government of Sudan to comply with all the wishes of the international community as set out in UNSCR 1593 and cooperate fully with the ICC should it decide to visit Darfur."

On 21 December 2005, the British ambassador to Sudan met with Vice President Taha of Sudan and also emphasised the importance of co-operation with the ICC.

The Government will continue to support the ICC as it takes forward its investigation, and to maintain pressure on all parties, including the Government of Sudan, to provide full co-operation in response to any ICC request.

Sudan is a signatory to the Rome Statute of the ICC but has not yet ratified the Statute. The UK believes in a strong ICC with global membership and jurisdiction that can help bring an end to the culture of impunity for the worst crimes against humanity including genocide and other war crimes. To this end, we urge Sudan to ratify the Rome Statute.

Ethiopia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of respect for human rights in Ethiopia; and what recent discussions he has had on this with the Government of Ethiopia. [40586]

Ian Pearson: We remain concerned about the human rights situation in Ethiopia and regularly raise those concerns with the Ethiopian Government. My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, did so most recently during his visit to Ethiopia on 17 December when he discussed the current political crisis with Prime Minister Meles.

We will continue to work with the Government of Ethiopia, the international community and other stakeholders to help further progress on human rights and governance issues.

Illegal Weapons Trade

Peter Law: To ask the Secretary of State for Foreign and Commonwealth Affairs which *(a)* Ministers and *(b)* departmental officials will attend the review meeting of the United Nations programme of action to prevent, combat and eradicate illicit trade in small arms and light weapons. [41537]

Dr. Howells: We expect the UK delegation to the Review Conference to be made up of Foreign and Commonwealth Office, Ministry of Defence and the Department for International Development officials led by our senior Ambassador on disarmament issues.

Indonesia

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to urge the Government of Indonesia *(a)* to refrain from executing and *(b)* to release the three Christians imprisoned and sentenced to death in Sulawesi; and if he will make a statement. [39395]

Ian Pearson: On 14 November 2005, the UK expressed to the Indonesian Government the EU's regret at the decision to carry out the executions, and urged the Indonesian Government to refrain from carrying out the executions, and to consider the abolition of the death penalty.

Mr. Andy Reed: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent research his Department has commissioned on *(a)* religious discrimination, *(b)* church closures and *(c)* violence in West Java. [41030]

Ian Pearson: The Foreign and Commonwealth Office has not commissioned any specific research on religious discrimination, church closures and violence in West Java. However, we continually monitor the situation.

We welcome the fact that President Yudhoyono issued an instruction in December 2005 to his Cabinet Secretary, instructing him to ensure that no more places of worship are closed and to assist congregations which no longer have a place of worship.

Mr. Andy Reed: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received from religious minorities in Indonesia; and what plans he has to discuss religious minority rights with the Indonesian Government. [41031]

Ian Pearson: Officials from the Foreign and Commonwealth Office and our embassy in Jakarta meet regularly with Indonesian religious minority representatives.

We discuss the rights of religious minorities with the Indonesian authorities regularly, as part of our on-going dialogue. In September this year, President Yudhoyono stressed that the state guaranteed every citizen religious freedom and called on the police and members of the public to act to prevent violence against any faith. The UK co-sponsored with the Indonesian Government in Bali, in July 2005, an international conference to promote inter-faith understanding and harmony. We will continue to co-operate with them on this important objective.

Israel

Mark Williams: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he *(a)* has had and *(b)* is planning to have discussions with the Israeli Government about UK business contracts that might include transactions in East or West Jerusalem. [40701]

Ian Pearson: We have been in contact with the Israeli Government in the past in support of UK companies seeking business in Israel. However, it is the Government's policy that we will not support companies seeking contracts that involve work in East Jerusalem.

Niger

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Niger Government concerning the attacks upon Christian students by Muslim extremists in Niger state on 21 September at the Bosso campus of the Federal University of Technology at Minna; [28073]

(2) what representations he has made to the Niger Government concerning the attacks on Christians by Muslim extremists on 26 October at Tungan Rogo village in Niger state. [28074]

Ian Pearson: We are concerned by all incidents of inter-religious conflict and violence in Nigeria. We raise incidents with the relevant Federal and State authorities when they are brought to our attention and verified.

Representatives from the British high commission in Abuja repeatedly speak to senior Nigerian Christian and Muslim religious leaders about these issues. They have also spoken to one of the most senior Christian leaders in Northern Nigeria, who is not aware of the specific incidents in Niger State that my hon. Friend refers to.

We also fund projects to build trust between the various religious communities in Nigeria. We are funding the work of the International Centre for Reconciliation to promote understanding between Christians and Muslims in Plateau State. The Department for International Development are also working in two of the states most affected by ethno-religious unrest, Benue and Jigawa.

Religious Freedom

Mr. Andy Reed: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to promote and protect religious freedom as a central objective of foreign diplomacy. [41032]

Ian Pearson: Promotion and protection of human rights is at the heart of Foreign and Commonwealth Office (FCO) policy. This includes a commitment to religious freedom throughout the world. We condemn instances where individuals are persecuted because of their faith or belief, wherever they happen and whatever the religion of the individual or group concerned. We urge all states to pursue laws and practices which foster tolerance and mutual respect and protect religious minorities from persecution. The FCO's Annual Report on Human Rights, which was laid before the House on 21 July 2005, provides some further information on the work that we have done in this area.

Su Su Nwe

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Government of Myanmar regarding the detention of Su Su Nwe. [40789]

Ian Pearson: Our ambassador in Rangoon raised the detention of Su Su Nwe, and that of other prisoners of conscience, when she met the Burmese Interior Minister on 26 October 2005 and Burmese Foreign and Labour Ministers on 31 October 2005.

We will continue to raise her case with the Burmese authorities.

UN Convention Against Corruption

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 December 2005, *Official Report*, column 2496W, on the UN Convention Against Corruption, how many written

representations his Department has received from *(a)* businesses, *(b)* business organisations and *(c)* non-governmental organisations on the UK signing and ratification of the UN Convention Against Corruption; and how many of these stated that they were intended to remain confidential between the parties involved. [41626]

Ian Pearson: Due to the number of contacts, their diverse range, the varied nature of representations and the lengthy consultation period on this issue it is not practically possible to identify and list all written representations from all businesses, business organisations and non-governmental organisations. It is therefore also not possible to identify which of those representations stated that they were to remain confidential.

UN Security Council Resolutions

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government supports the proposal for a United Nations Security Council resolution by Vaclav Havel and Desmond Tutu in their report "A Threat to the Peace". [40790]

Dr. Howells: We fully support any action in the United Nations, including in the UN Security Council, which would help to promote reform and positive change in Burma. UN Security Council members discussed the situation in Burma on 16 December. The United Kingdom took an active role in this discussion, raising our concerns about human rights abuses, including the detention of political prisoners, internal conflicts and the spread of HIV/AIDS and other diseases.

WORK AND PENSIONS

Benefit Claimants

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of Welsh claimants of *(a)* jobseeker's allowance, *(b)* income support and *(c)* incapacity benefit returned to work in each year since 1997; and if he will make a statement. [39557]

Margaret Hodge: The information is not available in the format requested.

The Department for Work and Pensions Research Report No. 244—Destination of benefit leavers 2004—showed that nationally, 62 per cent. of claimants leaving income support, incapacity benefit or jobseeker's allowance entered employment of 16 hours or more a week. Copies of the report are available in the Library.

Carers Allowance

Tim Farron: To ask the Secretary of State for Work and Pensions for what reasons levels of carers allowance reduce when carers reach pensionable age. [41720]

Mrs. McGuire: The payment of carers allowance is affected by the award of other social security benefits such as state pension, bereavement allowance and incapacity benefit, rather than simply reaching pension age. The reason why a carers allowance is not paid in full together with that other benefit is because they are both paid for income maintenance, and paying both benefits in full would duplicate provision for the same need. In practice the personal contributory benefit is paid in full and the carers allowance is adjusted against it. Where carers allowance is overlapped in full, the person maintains an underlying entitlement to the benefit which, in turn, gives them access to the carer premium in the income-related benefits, such as income support, housing benefit and council tax benefit, and to the carers additional amount in pension credit.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions how many people have been non-compliant with their Child Support Agency assessment in each quarter since Q1 1996; and if he will make a statement. [28422]

Mr. Plaskitt *[holding answer 17 November 2005]:* The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 12 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many people have been non-compliant with their Child Support Agency assessment in each quarter since Q1 1996; and if he will make a statement.

The information requested is provided in the table attached.

It should be noted that, whilst the number of non-compliant cases has nearly doubled between February 1996 and August 2005, the Child Support Agency's caseload has also increased significantly over this period. Over the same period, the Agency's case compliance rate has increased from 58 to 70 per cent.

I hope you find this helpful.

Child Support Agency collection service cases compliance status February 1996 to August 2005

Quarter ending	*Number of non compliant cases*
February 1996	66,000
May 1996	63,000
August 1996	67,000
November 1996	70,000
February 1997	70,000
May 1997	68,000
August 1997	70,000
November 1997	73,000
February 1998	76,000
May 1998	81,000
August 1998	87,000
November 1998	91,000
February 1999	97,000
May 1999	99,000
August 1999	101,000
November 1999	104,000
February 2000	106,000
May 2000	104,000
August 2000	105,000
November 2000	104,000
February 2001	104,000
May 2001	101,000

February 2002	99,000
May 2002	92,000
August 2002	90,000
November 2002	91,000
February 2003	90,000
May 2003	—

Child Support Agency collection service cases compliance status February 1996 to August 2005

Quarter ending	Number of non compliant cases
August 2003	—
November 2003	—
February 2004	—
May 2004	121,000
August 2004	123,000
November 2004	124,000
February 2005	126,000
May 2005	123,000
August 2005	125,000

Notes:
1. Numbers are rounded to the nearest thousand.
2. Robust information covering the period May 2003 to February 2004 is not currently available.
3. Compliance is defined as all those cases which are open and have paid money, either regular maintenance and/or arrears via the collection service over the preceding quarter.
4. The above includes only those old scheme cases with a full maintenance assessment, and those new scheme cases with either a full maintenance calculation, or a default maintenance decision. Old scheme cases with a punitive interim maintenance assessment are excluded from this analysis in line with the agency's target definition.

Health-related Benefit Claims

Joan Walley: To ask the Secretary of State for Work and Pensions how many health-related benefit claims by the working age population *(a)* were made in 2004–05 and *(b)* have been made in 2005–06 in (i) England, (ii) the West Midlands and (iii) Stoke-on-Trent. [37741]

Mrs. McGuire: Information is not available in the format requested. The most recent available information on the number of recipients of health-related benefits is in the table.

Working age recipients of incapacity benefit (IB); severe disablement benefit (SDA); industrial injuries disablement benefit (IIDB); reduced earnings allowance (REA); retirement allowance (RA); income support disability premium (ISDP); or disability living allowance (DLA), by area

Area	IB/SDA	IIDB/REA/RA[1,2]	ISDP	DLA
England	2,201,500	154,500	913,300	1,288,200
West Midlands GOR	247,300	17,500	99,900	149,100
Stoke-on-Trent North parliamentary constituency	5,800	600	2,300	3,000
Stoke-on-Trent city council area	19,500	2,000	7,400	10,500

[1] IIDB and REA/RA figures are at March 2005, all others are at May 2005.
[2] A customer may be in receipt of either industrial injuries disablement benefit or reduced earnings allowance/retirement allowance or both.
Notes:
1. Figures are rounded to the nearest hundred.
2. IB/SDA 'Claimant' figures include all IB and SDA (including IB credits only cases).
3. DLA totals show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if they are in hospital.

Incapacity Benefit

Bill Wiggin: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people receiving incapacity benefit who are no longer incapable of working. [29521]

Mrs. McGuire: Incapacity benefit is paid to those who are unable to work because of sickness or disability. For the benefit to remain in payment once the claimant was no longer incapable of to work would be the result of a fraud or an error.

The level of fraud and error in incapacity benefit was last measured in 2001 at which time it was estimated that the amount of fraud and error combined amounted to less than two percent of the total expenditure.

Industrial Injuries Scheme

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of administering industrial injuries benefit in 2004–05. [40473]

Margaret Hodge: The latest estimate of the cost of administering industrial injury benefits, for the year ending 31 March 2005, is £14 million.

Jobcentre Plus

John McDonnell: To ask the Secretary of State for Work and Pensions what the charge per minute is of telephoning the Jobcentre Plus contact centre from *(a)* a land line and *(b)* from each mobile phone network; and what the average call duration has been in the last 12 months. [38388]

Margaret Hodge *[holding answer 20 December 2005]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to my hon. Friend.

Letter from Lesley Strathie, dated 12 January 2006:

The Secretary of State has asked me to reply to your question concerning what the charge per minute is of phoning the Jobcentre Plus contact centre from *(a)* a land line and *(b)* from each mobile phone network; and what the average call duration has been in the last 12 months. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

To make a claim, the customer calls a contact centre. Contact centre staff ask the customer a series of questions to assess their potential eligibility to Jobcentre Plus benefits and then arrange to call the customer back at a mutually agreed time, to assist in completion of a claim form. This allows the customers to provide information over the phone, rather than completing a lengthy form.

Jobcentre Plus contact centres use 0845 numbers—which is equivalent to local rate when customers use a BT landline. The charge per minute will depend on the service tariff that customers have signed up to with their phone provider. Customers using mobile telephones or other landline networks are charged at their network provider's normal tariff for 0845 calls.

The average length of an inbound call is 11 minutes. BT call prices for 0845 numbers vary dependent on the time the customer calls, and can range from 1p to 3p per minute. Based on this information the cost of the inbound call using a BT line would be on average between 11p & 33p. Customers can also use "warm phones" in local Jobcentre Plus offices to call the contact centre free of charge.

To complete the information gathering process for a customer's claim to benefit, a call is made from the contact centre to the customer. There is no cost to the customer for this call.

New Deal

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of public expenditure on the new deal for each year from 1997–98 to 2008–09; and if he will make a statement. [36163]

Margaret Hodge: The available information is in the following table.

New deal expenditure

£ million

		Amount
1997–98	Outturn	43
1998–99	Outturn	314
1999–2000	Outturn	536
2000–01	Outturn	596
2001–02	Outturn	672
2002–03	Outturn	736
2003–04	Outturn	655
2004–05	Outturn	639
2005–06	Forecast outturn	557
2006–07	Plans	536
2007–08	Plans	538

Notes:

1. Figures comprise: programme expenditure; allowance payments, and the New Deal 50 plus Employment Credit (which was subsumed in the Working Tax Credit from 2003–04).
2. Figures also include total administrative expenditure up to 2002–03 but only the staff cost element of administrative expenditure from 2003–04.
3. Figures for 2006–07 and 2007–08 are indicative and subject to change.
4. Figures for 2008–09 are not available.

Older Workers

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the number and proportion of *(a)* men and *(b)* women aged between 50 years and state pension age who (i) changed jobs, (ii) changed careers, (iii) reduced their hours of work, (iv) took up educational courses, (v) retired early due to ill-health and (vi) retired early for reasons other than ill-health over the last 20 years; and if he will make a statement. [40483]

Margaret Hodge: The available information is in the tables.

Number of people aged 50 to state pension age changing occupation or employer since 1986

	Changed occupation or employer in last year			Changed occupation in last year		
	Male	Female	All	Male	Female	All
1986	135,000	76,000	211,000	102,000	59,000	160,000

Pathways to Work

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what cost benefit analysis has been carried out with regard to the pathways to work pilot scheme. [40756]

Margaret Hodge: The information requested is in Working Paper "Incapacity Benefit Reforms—Pathways to Work Pilots performance and analysis" a copy of which has been placed in the Library.

The pathways to work districts are piloting new measures and innovative approaches to helping people with long term illnesses or a disability to return to work. As pilot schemes, they are designed to test whether alternative approaches may be more effective than existing measures.

Early results show off-flows from incapacity benefit at six months of around 48 per cent. in the pilot areas compared with around 40 per cent. nationally, an improvement of eight percentage points resulting in a reduction in the incapacity benefit caseload which more than pays for the additional costs of the pilots.

Pension Credit

Mr. Laws: To ask the Secretary of State for Work and Pensions how many telephone calls to the Pension Credit Application line were *(a)* received, *(b)* answered, *(c)* engaged and *(d)* hung up on in the weeks commencing (i) 17 October, (ii) 24 October and (iii) 31 October; and if he will make a statement. [38208]

Mr. Timms: The administration of The Pension Service is a matter for the Chief Executive, Ms Alexis Cleveland. She will write to the hon. Member.

Letter from Alexis Cleveland, dated 12 January 2006:

The Secretary of State has asked me to reply to your question concerning how many calls made to the Pension Credit Application line were *(a)* received *(b)* answered *(c)* engaged and *(d)* hung up on in the weeks commencing (i) 17 October (ii) 24 October (iii) 31 October; and if he will make a statement. This is something that falls within the responsibilities delegated to me as Chief Executive of The Pension Service.

The table shows the information, as requested. As you are aware, the number of calls received by the Pension Credit Application Line in the weeks selected was exceptionally high as a result of a new marketing approach. Even so, in the worst affected week, we were still able to answer 65 per cent. of the calls available. In addition, we have included figures for the week commencing 12 December 2005. These are indicative of our current telephony performance (calls answered were 81 per cent. of those available).

The Pension Credit Application Line uses an automated filter, the Auto Attendant, when experiencing high volumes of calls. At times when this is required, customers who wish to make a claim for Pension Credit are advised by the Auto Attendant that they will be put through to the call queue. The automated message

advises all other callers of the high call volumes and they are given the option to call again (during opening hours) or to contact their local Pension Centre, for which the correct telephone number is provided. When the auto attendant is not operating, callers receive a standard greeting message, during which they may abandon their call (for instance if they have dialled a wrong number).

	(i) Inbound calls	(ii) Receiving engaged tone	(iii) Calls available to be answered having been filtered to the queue by the auto attendant (when in use)	(iv) Of (iii), calls abandoned	(v) Of (iii) calls answered
17 October 2005	31,940	0	25,714	4,596	21,066
24 October 2005	207,346	0	53,755	18,772	34,974
31 October 2005	133,852	2	56,476	16,547	39,917
12 December 2005	30,303	0	30,303	5,831	24,467

Note

There is discrepancy in the calls answered total due to missing calls. This arises due to a small amount of calls not registering on the IT system correctly.

I hope this information is helpful

Pensioner Benefits

Mr. Laws: To ask the Secretary of State for Work and Pensions how much was spent *(a)* in cash terms, *(b)* at current prices and *(c)* as a share of gross domestic product on (i) the basic state pension, (ii) pension credit, minimum income guarantee or income support for the elderly and (iii) all pensioner benefits in each year since 1992–93; what the estimate is for each year to the end of the public expenditure planning period; and how many pensioners were in receipt of each benefit in each year. [33295]

Mr. Timms: The available information regarding the figures requested on pensions is in the table as follows.

1. Basic state pension

	£ million		Share of GDP
	Cash terms	Current prices	(percentage)
1992–93	25,364	34,806	4.1
1993–94	26,546	35,520	4.1
1994–95	26,859	35,395	3.9
1995–96	27,740	35,559	3.8
1996–97	29,239	36,201	3.8
1997–98	30,391	36,547	3.7
1998–99	31,914	37,408	3.7
1999–2000	33,378	38,369	3.6
2000–01	33,986	38,564	3.5
2001–02	36,565	40,490	3.6
2002–03	38,469	41,287	3.6
2003–04	39,828	41,641	3.6
2004–05	41,389	42,373	3.5
2005–06	43,055	43,055	3.5
2006–07	44,829	43,753	3.5
2007–08	46,966	44,652	3.4

2. Pension credit, minimum income guarantee or income support

	£ million		Share of GDP
	Cash terms	Current prices	(percentage)
1992–93	3,687	5,059	0.6
1993–94	3,894	5,210	0.6
1994–95	3,925	5,173	0.6
1995–96	3,841	4,924	0.5
1996–97	3,764	4,660	0.5
1997–98	3,721	4,475	0.5
1998–99	3,566	4,180	0.4
1999–2000	3,725	4,283	0.4
2000–01	4,035	4,578	0.4

2. Pension credit, minimum income guarantee or income support

	£ million		Share of GDP
	Cash terms	Current prices	(percentage)
2001–02	4,417	4,891	0.4
2002–03	4,405	4,728	0.4
2003–04	4,851	5,072	0.4
2004–05	5,997	6,140	0.5
2005–06	6,457	6,457	0.5
2006–07	7,059	6,889	0.5
2007–08	7,817	7,432	0.6

3. All pensioner benefits

	£ million		Share of GDP
	Cash terms	Current prices	(percentage)
1992–93	35,387	48,559	5.8
1993–94	37,811	50,594	5.8
1994–95	38,723	51,030	5.6
1995–96	39,919	51,170	5.5
1996–97	41,829	51,789	5.4
1997–98	43,426	52,222	5.3
1998–99	45,165	52,940	5.2
1999–2000	47,934	55,102	5.2
2000–01	50,580	57,392	5.2
2001–02	54,494	60,343	5.4
2002–03	57,437	61,644	5.4
2003–04	60,230	62,971	5.4
2004–05	64,560	66,095	5.5
2005–06	68,669	68,669	5.6
2006–07	71,400	69,686	5.5
2007–08	75,776	72,042	5.6

Notes:

1. Figures have been rounded to the nearest million pounds.

2. All figures are consistent with the pre-Budget report 2005 and are in 2005–06 prices. Figures are for GB other than the share of GDP which is a proportion of the UKGDP.

3. All pensioner benefits (table 3) includes the basic state pension (table 1) and pension credit (table 2) and the following benefits paid to pensioners: Christmas bonus-contribution based; retirement pension-non contributory; invalidity/incapacity benefit up to and including 1999–2000; widows/bereavement benefits; severe disablement allowance; winter fuel payments (from 1997–98 onwards); over- 65s payment (in 2005–06) and over-70s payment (in 2004–05 and 2005–06); over-75 TV licence (from 2000–01 onwards); housing Benefit and discretionary housing payments; community charge/council tax benefit, pensions compensation board.

DWP Historic and forecast caseload information.

Special Advisers

John Hemming: To ask the Secretary of State for Work and Pensions if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29418]

Mrs. McGuire: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the answer given by my right hon. Friend, the Parliamentary Secretary at the Cabinet Office on 16 November 2005, *Official Report*, column 1258W.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

State Pension

Paul Flynn: To ask the Secretary of State for Work and Pensions what the value of the basic pension would have been for *(a)* individuals and *(b)* couples in (i) 1997–98 and (ii) 2006–07 if it had been increased in line with average earnings each year from April 1980. [41722]

Mr. Timms: The information is in the table.

	1997–98	2006–07
Individuals	95.45	136.75
Couples	152.95	219.10

Notes:
1. All figures are in cash terms.
2. In April 1980 the rate of Basic State Pension was £23.30 (£37.30 for a couple).
3. There are no singles or couples rate as such, the basic state pension is an individual benefit; although the Category A rate is commonly referred to as the singles rate, and the combination of the Category A and Category B rate paid to married women is commonly referred to as the couples rate.
4. Figures are based on the April 1980 rate of basic state pension uprated in line with growth in the seasonally unadjusted Average Earnings Index (including bonuses) to September in each year. They take account of the convention that rates of basic state pension are rounded to the nearest 5p.
5. The actual level of the basic state pension was £62.45 (£99.80 for a couple) in 1997–98. The proposed rate is £84.25 (£134.75 for a couple) in 2006–07.

Winter Fuel Payments

Adam Afriyie: To ask the Secretary of State for Work and Pensions how many eligible pensioners failed to claim winter fuel payments in the last three years for which figures are available. [40737]

Mr. Timms: Most people who qualify for a winter fuel payment do not need to make a claim because they are paid automatically from DWP records. Some people aged 60 or over who are not in receipt of a benefit administered by DWP do need to claim. Many men aged 60–64, for example, fall into this category and need to claim. It is, however, not possible to estimate how many eligible pensioners have not claimed.

EDUCATION AND SKILLS

School Sports

12. Mr. Andy Reed: To ask the Secretary of State for Education and Skills what steps she is taking to improve the teaching of physical education in schools. [41073]

Jacqui Smith: In the five years up to 2008, the Government is investing over £1.5 billion in delivering the national PE and school sport strategy. Within this strategy the PE and school sport professional development programme is raising the quality of teaching in PE by ensuring that teachers are able to deliver a broad, balanced and inclusive programme of PE and sport in schools. The programme is free to all teachers in maintained schools in England. So far this year, over 43,000 teacher places have been taken up on the programme.

Universities

13. Hugh Bayley: To ask the Secretary of State for Education and Skills what steps the Government is taking to enable the most popular universities to expand. [41074]

Bill Rammell: We have increased the total annual funding for Higher Education by some £2 billion since taking office to enable institutions to educate over 250,000 more students a year over the same period. Popular institutions wishing to expand are free to submit proposals for growth to the Higher Education Funding Council for England which distributes the grant we make available for them.

Schools (Out-of-hours Facilities)

14. Mr. Simon: To ask the Secretary of State for Education and Skills what steps she is taking to improve out-of-hours facilities provided by schools. [41075]

Jacqui Smith: We have committed £840 million to help develop extended services, including high quality child care, study support, and before and after school clubs, so that they are accessible through all our schools by 2010. We have also appointed the National Remodelling Team to provide support to schools and local authorities in developing extended services. Good progress is being made with 4,400 schools, thus far, indicating their willingness to work on developing extended services.

Looked-after Children

15. Mrs. Cryer: To ask the Secretary of State for Education and Skills what steps she is taking to improve the life chances of looked-after children. [41076]

Maria Eagle: Since the £885 million Quality Protects initiative, we have taken further steps to improve chances for looked after children, including: investing an extra £113 million through the Choice Protects initiative to improve placement choice, particularly foster care. In addition to our wide reforms of children's services, we are seeking to improve placement stability and have introduced a duty to promote educational achievement. We will be consulting this year on further proposals for improving outcomes for Looked After Children.

Small Classes

16. David Wright: To ask the Secretary of State for Education and Skills if she will fund smaller classes for children who are not reaching the required educational standard; and if she will make a statement. [41077]

Jacqui Smith: The Schools White Paper, "Higher Standards, Better Schools For All", announced our plans for personalised learning, and in particular for catch-up lessons for pupils who are falling behind. £335 million has been earmarked within the Dedicated Schools Grant (DSG) for 2006–08, to provide the resources secondary schools need to start delivering personalised learning for pupils in Key Stage 3, particularly for those who have fallen behind in literacy and numeracy and for those who are gifted or talented.

£230 million of DSG for 2006–08 was earmarked in the Schools Funding Announcement on 7 December 2005 to personalise learning in primary schools. This will enable schools to provide more effective small group and one-to-one tuition.

In addition, an extra £60 million in each of 2006–07 and 2007–08 will be shared among the primary and secondary sectors, targeted at schools with the largest numbers of pupils who have fallen behind in English and maths.

School Admissions

17. Mrs. Ellman: To ask the Secretary of State for Education and Skills Whether, as part of further schools reform, she intends to require all schools to follow the existing admissions code of practice; and if she will make a statement. [41078]

Jacqui Smith: All schools must have regard to the existing statutory School Admissions Code of Practice and comply with the legislation on school admissions which prevents the introduction of new selection by ability. Schools cannot introduce unlawful arrangements. If they introduce arrangements which are not in line with the good practice in the Code, their local authority should object to those arrangements to the school adjudicators. Adjudicator decisions are binding.

Special Needs

18. Ed Balls: To ask the Secretary of State for Education and Skills What steps she plans to take to improve the co-ordination of services for children with special needs and their families. [41079]

Maria Eagle: The "Every Child Matters" Change for Children Programme aims to improve the coordination of services for children and families through children's trust arrangements, children's centres and extended schools. The programme will enable us to better deliver improved services for children with special needs and disabled children and their families, as set out in the National Service Framework for Children, Young People and Maternity Services and the Prime Minister's Strategy Unit report "Improving the Life Chances of Disabled People".

Mr. Gibb: To ask the Secretary of State for Education and Skills how many children were recorded as having a requirement for *(a)* a statement of educational need, *(b)* School Action and *(c)* School Action Plus in (i) 2003–04 and (ii) 2004–05. [40723]

Maria Eagle: The available information is given in the tables.

Number of pupils with statements of special educational needs (SEN) by type of school

Extended Schools

19. Mr. Martlew: To ask the Secretary of State for Education and Skills What discussions she has had with local authorities about extended schools. [41080]

Beverley Hughes: Local authorities have a vital role to play in developing extended services as part of their work on "Every Child Matters". We meet regularly with local authorities. Good progress is being made. All local authorities are establishing strategic plans within their children and young people plans. Schools will have a new legal duty to have regard to those plans when developing extended services. The national remodelling team, which is working with all local authorities, report the good progress that, thus far, 4,400 schools have expressed their willingness to develop extended services.

Carers

Dr. Francis: To ask the Secretary of State for Education and Skills what steps her Department is taking to enhance the rights of carers. [37909]

Beverley Hughes: This Government are the first to recognise the contribution and concerns of all carers formally and are supporting carers on a number of fronts through the work of several departments.

The Carers and Disabled Children Act 2000 strengthens the rights of carers to an assessment of their own needs as carers and involves a new right to a carer's assessment. It gives local councils mandatory duties to support carers by providing services to carers directly and in the provision of breaks, and as well, supporting carers by providing direct payment for carers' services. These direct payments can be made to families with disabled children and disabled young people aged 16 and 17 who have been assessed as needing services. Direct payments are cash payments made by the local authority to disabled young people or families, to enable them to purchase social care services that best meet their needs. The Health and Social Care Act 2001 made the offer of direct payments mandatory.

The Carers (Equal Opportunities) Act 2004 builds on previous legislation and makes changes to the existing law around carers' services. There is now a duty on councils to inform carers of their right to an assessment of their needs. When assessing carers councils must also take into account whether the carer works or wishes to work, undertakes or wishes to undertake education, training or leisure activities. The Act also facilitates co-operation between authorities in relation to the provision of services that are relevant to carers. DfES worked closely with DH on this legislation.

We are increasing funding for short breaks through yearly increases in the carer's grant. This is leading to increases in services for parents of disabled children. The carers grant is worth £185 million in 2005–06. Approximately 20 per cent. is spent on children's services, including services to disabled children and children and young people under 18 who are care-givers for other members of their family. In the last local government finance settlement, we confirmed our commitment to continue the carers grant until the end of the 2007–08 financial year.

The DfES is also funding a national freephone helpline, run by Contact a Family (a national registered charity) to provide information for parents of disabled children on disability and to support them in contacting other families, developing local and national support groups and acting as a voice to raise awareness and campaign for families.

Child Disabilities

Danny Alexander: To ask the Secretary of State for Education and Skills what assessment she has made of the *(a)* feasibility and *(b)* merits of a national centre for early intervention for children with disabilities; and if she will make a statement. [40939]

Beverley Hughes: Early intervention is an important part of early years policy and my Department continues to promote the early support programme for young disabled children and their families as an ongoing, central feature of our policy in England. As part of that approach, my Department asked Mencap and other stakeholders to undertake a feasibility study to assess the viability of a National Centre for Early Intervention. I welcome their report. However, because the funding implications of a national centre are significant, I have now requested a robust business appraisal of the cost benefits of such a centre and how it might be funded. Further consideration will then be given to their report as part of the comprehensive spending review.

Childcare Bill

Mr. Prisk: To ask the Secretary of State for Education and Skills what estimate her Department has made of the cost to local authorities in *(a)* England and *(b)* Hertfordshire of fulfilling the statutory duties included in part 1 of the Childcare Bill. [33515]

Beverley Hughes: The Government have already planned to increase expenditure on early years and child care from £958 million in 2004/05 to £1.8 billion in 2007/08, an increase of 55 per cent. A total of £4.4 billion will be available in 2007/08 when funding for the free early education offer is taken into account.

This substantial increase in funding will provide the framework for support to local authorities as they take forward their responsibilities under the Bill. There is no need for additional money because:

(a) Local authorities are already funded to play a lead role in this area. The provisions of the Bill merely formalise this lead role and establish it on a more long-term and sustainable basis;

(b) Forthcoming guidance on the new duty to secure sufficient child care will indicate that ongoing subsidy of providers by local authorities is unlikely to satisfy the requirement of a "reasonably practicable" use of resources in the long-term.

(c) The duty on local authorities to secure sufficient childcare will require them to shape and support the childcare market as a whole. In those instances where councils are providers of child care themselves, they will be able to recover their costs by charging fees. A substantial portion of that fee income would come from the Government via parents through the childcare element of working tax credit.

(d) Mainstreaming of funding and the ability to link to existing performance management systems will carry a cost saving for local authorities as they will not have to report on separate targets or progress to central Government and central Government would no longer have to administer and police these targets.

The vast majority of Sure Start funding will be routed through local authorities by 2008 and funding is already in place to deliver these services through the General Sure Start Grant (GSSG).

Local authorities were advised of their funding allocation in winter 2005. This allocation will include capital and revenue for children's centres and Extended Schools, together with revenue for Sure Start Local Programmes.

Hertfordshire were allocated £38,800,000 for 2006–08 including £20,242,000 in revenue. In 2004–06, Hertfordshire received £10,916,000 in revenue, therefore revenue funding has increased by 85 per cent.

Disabled People (Services)

Danny Alexander: To ask the Secretary of State for Education and Skills what assessment she has made of the continuity in delivery provided by different models of multi-agency transition from child to adult services for disabled people; and if she will make a statement. [37348]

Maria Eagle: The Prime Minister's Strategy Unit report "Improving the Life Chances of Disabled People" recommended that

> "DFES should identify, by 2006, different models of multi-agency transition co-ordination and disseminate effective practice through existing or developing mechanisms, such as the Transition Information Network (TIN) or the proposed practice development toolkit".

The Secretary of State has endorsed the report. The Department is currently finalising a contract to survey different transition models and to draw up practical guidance for professionals in the field. The work is scheduled for completion by the end of June 2006. It will take account of previous initiatives in this field, such as the Department's longitudinal study of transition planning and outcomes for young people with special educational needs, and of current work, such as the Department of Health-led work on transition to adult services for young people under long-term healthcare. The practical guidance will be disseminated widely on appropriate websites, such as the Transition Information Network.

Adult Education (Ealing)

Stephen Pound: To ask the Secretary of State for Education and Skills what steps she is taking to expand vocational education and training for adults in Ealing. [40703]

Phil Hope: The Learning and Skills Council (LSC) London West is responsible for the planning and funding of training to raise the skills of the workforce and potential workforce. It engages throughout the year with providers and employers to ensure that provision matches employer skills demands. There has been considerable recent work in the London borough of Ealing to ensure that said demands are met. This work includes the following:

The opening, at Ealing and West London College, of the new Institute of Media. This is an £11.5 million development in central Ealing, linking directly with the BBC and other employers, providing vocational education for adults and funded by both the LSC and the college. There has also been substantial funding and redevelopment for vocational provision at the college's sites at Acton and Southall.

The work towards Centre of Vocational Excellence (CoVE) status of Ealing, Hammersmith and West London College. Interim CoVE status has been achieved in the area of Media.

and an application is being moderated currently for CoVE status in the area of Construction. Each of these will result in increased Level 2 and Level 3 vocational provision in the area.

The allocation of over £3 million, from LSC London West's recent European Social Fund round, to providers based in Ealing which are delivering vocational training. There are also a large number of other providers who are working with Ealing residents to provide vocational training as a result of this funding round.

Work with the London borough of Ealing's Adult and Community Learning team, to identify the vocational priorities within Ealing, and match the provision offered against these areas, resulting in increased opportunities in customer service and retail, among other sector areas.

The organisation and promotion of Ealing's Year of Adult Learning 2005, including the promotion of vocational opportunities both in the borough and available to residents of the borough.

Further detailed information is available from Peter Pledger, Executive Director of LSC London West.

Education Maintenance Allowance

Mr. Holloway: To ask the Secretary of State for Education and Skills how many young people in Gravesham have been granted an education maintenance allowance. [32631]

Maria Eagle: This is a matter for the Learning and Skills Council, which operates education maintenance allowances for the DfES and holds the information about take-up of the scheme. Mark Haysom, the Council's chief executive, has written to the hon. Member with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 20 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people in Gravesham have been granted an Education Maintenance Allowance (EMA)?"

Information on the number of young people who have applied, enrolled and received EMA is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of October 2005, 7,872 young people in the Kent Local Education Authority area had received one or more EMA payments in the academic year 2005/06 so far.

During the academic year 2004/05, 5,317 young people in the Kent Local Education Authority received one or more EMA payments

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or christopher.bradley@lsc.gov.uk

John Battle: To ask the Secretary of State for Education and Skills how many young people have been granted an education maintenance allowance in *(a)* Leeds, West constituency and *(b)* Leeds. [35136]

Maria Eagle: As outlined in my response to my right hon. Friend on 27 June 2005, *Official Report*, columns 1216–17W, in respect of a similar question about education maintenance allowance, this is a matter for the Learning and Skills Council, which operates education maintenance allowances for the DfES and holds the information about take-up of the scheme. Mark Haysom, the council's Chief Executive has written to my right hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people have been granted an education maintenance allowance in *(a)* Leeds West constituency and *(b)* Leeds?"

Information on the number of young people who have applied, enrolled and received EMA is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of November 2005, 5,440 young people in the Leeds Local Education Authority area had received one or more EMA payments in the academic year 2005/06 so far.

During the academic year 2004/05, 5,651 young people in the Leeds Local Education Authority received one or more EMA payments. During academic year 2003/04 EMA was piloted in Leeds and 4,964 young people received EMA payments.

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or Christopher.Bradley@lsc.gov.uk

ERASMUS Students

Michael Gove: To ask the Secretary of State for Education and Skills how many non-UK national ERASMUS students have studied at UK institutions in each year since 1990; and what the total cost to her Department was of such students in each year. [40953]

Bill Rammell: The numbers of non-UK Erasmus students at UK institutions from 1995 onwards are provided in the following table. Data prior to 1995 are unavailable.

Incoming Erasmus Students to UK 1995–96 to 2003–04

	Number of non-UK Erasmus students
1995–96	21,073
1996–97	22,088
1997–98	20,867
1998–99	21,168
1999–2000	20,667
2000–01	19,130
2001–02	17,645
2002–03	16,976
2003–04	16,601

Source:
UK SOCRATES ERASMUS Council (UKSEC).

As Erasmus students receive funding in the form of grants from the European Commission, there is no direct cost to the Department.

Further Education (Gravesham)

Mr. Holloway: To ask the Secretary of State for Education and Skills which further education colleges in Gravesham will receive *(a)* a decrease and *(b)* an increase in their funding for adult education, not including for basic skills courses, in 2005–06 compared to the previous academic year. [28884]

Bill Rammell: The Department allocates funds for further education and training in the post-16 learning and skills sector, including 16 to 18 years participation, to the Learning and Skills Council (LSC) working through 47 local offices. The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body within a framework set by Government.

My Department does not hold figures at local or regional levels and this is a matter for the LSC. Therefore, LSC's Chief Executive, Mark Haysom has written to the hon. Member with further details and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 12 January 2006:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills where you asked which further education colleges in Gravesham will receive *(a)* a decrease and *(b)* an increase in their funding for adult education, not including for basic skills courses, in 2005–06 compared to the previous academic year.

The only FE College funded by the LSC in Gravesham is North West Kent College of Technology. In 2005–06 this college had its funding increased to almost £19.5 million, an increase of over 12 per cent. on 2004–05. However, within this increased funding, the amount spent on adult learning fell by about 0.5 per cent. to just under £4.7 million, which includes funding for adult skills for life learning.

The overall amount of skills for life learning being funded in this FE college in 2005–06 is currently just over £0.7 million (an increase on the previous academic year of over 300 per cent.), but this learning can be in respect of either young people or adults. Therefore, whilst the majority of the £4.7 million funding for adult learning will not be skills for life learning, the precise amount will not be known until the college submits student data after the year end.

Trust this is helpful.

Parenting Support

John Bercow: To ask the Secretary of State for Education and Skills what steps she has taken to increase parenting support available to vulnerable families with particular reference to those living in socio-economically deprived circumstances. [39405]

Beverley Hughes: We will increase the provision of parenting support across the country through the roll out of children's centres and extended schools. By 2008 we will have established 2,500 children's centres and, half of all secondary schools and one third of all primary schools will be providing extended services. By 2010, there will be 3,500 children's centres and pupils at all schools will be able to access extended services.

Children's centres serving the most disadvantaged communities must provide parenting support as part of their core offer.

Public Bodies

Julia Goldsworthy: To ask the Secretary of State for Education and Skills if she will list the former hon. Members who left Parliament in 2005 who have since been appointed to public bodies by her Department, broken down by party; and who was responsible for making each appointment. [36682]

Maria Eagle: Information about the political activity of appointees is recorded and publicised in accordance with the independent Commissioner for Public Appointments' code of practice. This shows that no former hon. Members who left Parliament in 2005 have since been appointed to public bodies sponsored by the Department.

Qualifications and Curriculum Authority

Mr. Gibb: To ask the Secretary of State for Education and Skills what discussions she has had with the Qualifications and Curriculum Authority on its location; and if she will make a statement. [39510]

Jacqui Smith: I refer the hon. Member to the answer given to my hon. Friend the Member for Norwich, North (Dr. Gibson) on 9 January 2006, *Official Report*, column 428W.

Schools for the Hearing Impaired

Mr. Gibb: To ask the Secretary of State for Education and Skills how many schools for the hearing impaired there were in each year since 1996. [40725]

Maria Eagle: The available information is given in the table. The type of special need for which a school is formally approved to make provision is collected from special schools only.

All special schools: Number of schools formally approved to make provision for pupils with hearing impairment[1]—1996 to 2005—position in January each year—England

	Maintained special schools		
	Number of schools formally approved to make provision for pupils with hearing impairment	*Total number of schools*	*Percentage of schools formally approved to make provision for pupils with hearing impairment[2]*
1996	26	1,191	2.2
1997	25	1,171	2.1
1998	40	1,164	3.4
1999	45	1,148	3.9
2000	45	1,134	4.0
2001	112	1,113	10.1
2002	134	1,098	12.2
2003	175	1,088	16.1
2004	257	1,078	23.8
2005	258	1,049	24.6

	Non-maintained special schools		
	Number of schools formally approved to make provision for pupils with hearing impairment	*Total number of schools*	*Percentage of schools formally approved to make provision for pupils with hearing impairment[3]*
1996	13	72	18.1
1997	11	68	16.2
1998	11	65	16.9
1999	12	61	19.7
2000	11	63	17.5
2001	11	62	17.7
2002	12	63	19.0
2003	23	72	31.9
2004	24	70	34.3
2005	24	73	32.9

	All special schools		
	Number of schools formally approved to make provision for pupils with hearing impairment	*Total number of schools*	*Percentage of schools formally approved to make provision for pupils with hearing impairment*[4]
1996	39	1,263	3.1
1997	36	1,239	2.9
1998	51	1,229	4.1
1999	57	1,209	4.7
2000	56	1,197	4.7
2001	123	1,175	10.5
2002	146	1,161	12.6
2003	198	1,160	17.1
2004	281	1,148	24.5
2005	282	1,122	25.1

[1] Information is as reported by schools. Schools may be approved to make provision for more than one type of special educational need.
[2] Number of maintained special schools formally approved to make provision for pupils with hearing impairment expressed as a percentage of all maintained special schools.
[3] Number of non-maintained special schools formally approved to make provision for pupils with hearing impairment expressed as a percentage of all non-maintained special schools.
[4] Number of special schools formally approved to make provision for pupils with hearing impairment expressed as a percentage of all special schools.

Annual Schools Census

Sure Start

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme in Coventry, South. [39739]

Beverley Hughes: There are two Sure Start Children's Centres in Coventry South, Barley Lea Children's Centre, designated as such in June 2003 and Middleride Early Years Centre, designated in August 2005. Both these children's centres are based on parts of the catchment area of the Sure Start local programme in Coventry, South-East. Together they serve children under the age of 5 and their families living in Binley and Ernesford Grange, Willenhall, and Stoke Aldermoor and deliver seamless, integrated services to a population of 1,028 children under five and their families.

HOME DEPARTMENT

Antisocial Behaviour Orders

Mr. Hurd: To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders have been issued in *(a)* Hillingdon and *(b)* each police division in Hillingdon in each of the last five years; [39457]

(2) how many prosecutions for breaches of antisocial behaviour orders the Crown Prosecution Service has brought in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon. [40247]

Hazel Blears: Data held centrally on the number of antisocial behaviour orders (ASBOs) issued are not available below local authority area (LAA) level. A table is available on the Crime Reduction website at www.crimereduction.gov.uk giving the number of ASBOs issued in England and Wales where restrictions have been imposed in LAAs.

The Home Office Court Proceedings Database holds breach proceedings only where there has been a conviction. These data are available at Criminal Justice System area level only.

John McDonnell: To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders had been issued by each local authority area by the latest date for which figures are available; [39896]

(2) what percentage of antisocial behaviour orders have been breached in each local authority area; [39897]

(3) what percentage of antisocial behaviour orders that have been breached by those aged *(a)* over 21 and *(b)* 20 years and under resulted in the imposition of a term of imprisonment. [39898]

Hazel Blears: A table giving a breakdown by the local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the Crime Reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced up to 30 June 2005 (latest available).

ASBO breach data are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. Age data are for those aged 10 to 17 and 18 and over. During this period 46 per cent. of persons aged 10 to 17 received a custodial sentence for breaching their ASBO. The corresponding percentage for those aged 18 and over is 64 per cent.

ASBO breach data are available at Criminal Justice System area level only.

Crimes Against Young People

Mr. Hurd: To ask the Secretary of State for the Home Department what the most common forms of crime committed against young people of school age were in *(a)* Ruislip-Northwood constituency, *(b)* the London borough of Hillingdon, *(c)* Greater London and *(d)* England in each of the last five years. [40713]

Hazel Blears: The information requested is not collected centrally. Apart from specific sexual offences, it is not possible to identify the age of the victim in the recorded crime statistics.

Criminal Records Bureau

Mr. Pelling: To ask the Secretary of State for the Home Department what steps he is taking to minimise processing times for Criminal Records Bureau checks. [39550]

Andy Burnham: The Criminal Records Bureau (CRB) assesses its performance continually against published service standards and remains committed to improving the overall efficiency of its service. The Bureau's performance for Standard Disclosures has consistently exceeded the target of 93 per cent. issued within two weeks: this has been achieved largely through greater automation of its internal processes.

For Enhanced CRB checks, an additional search is made against information held by police forces and the CRB is reliant on forces completing their work efficiently. A new service level agreement is now being reviewed by the 43 police forces which contains improved clearance times and aims to provide greater certainty on volumes, thus enabling more informed demand planning and a clearer framework under which police performance can be monitored. The new agreement should be in place by April 2006.

An Interim Police Local Cross Checking (I-PLX) system was launched in February 2005 and delivered ahead of schedule in August. Work is now in hand to enhance the database further and by 2007–08 CRB's processing times will reduce even further by removing the CRB's reliance on applicants' previous addresses.

The CRB has commenced a review of the Disclosure application form. A new prototype of the form has been produced in consultation with a number of their customers and a cross section of Registered Bodies has agreed to take part in a pilot study. This review is expected to reach its conclusion early in 2006. The changes proposed should reduce customer errors and the resulting double handling of those applications.

As part of a broader strategy of making all of its services available electronically, the CRB is also developing an electronic application form that will capture accurate data first time, minimising customer error and speeding up processing times.

In the longer term the CRB is working with the Home Office to see how ID cards can improve the CRB's processes and further significantly reduce turnaround times.

Deportations

Mr. David Jones: To ask the Secretary of State for the Home Department if he will reconsider his decision to deport Eleonora Suhoviy. [40719]

Mr. McNulty: It is not appropriate to deal with an individual case in this manner; I will write to the hon. member separately.

DNA Database

Mr. Gibb: To ask the Secretary of State for the Home Department how many people have refused to give police DNA samples for use in the national police DNA database in each year since 2000. [41669]

Andy Burnham: The Home Office does not hold statistics on the number of refusals made to requests for DNA samples.

Mr. Gibb: To ask the Secretary of State for the Home Department what procedures are in place to remove a DNA sample given *(a)* following an arrest and *(b)* following voluntary consent from the National DNA Database. [41701]

Andy Burnham: The decision to remove from the National DNA Database a DNA profile taken following arrest is an operational matter for the Chief Officer of the police force which took the DNA sample. When such a decision is taken, the Chief Officer will instruct the Custodian of the National DNA Database to remove the profile. A DNA profile obtained from a volunteer can be loaded onto the National DNA database only if the volunteer has given his/her written consent.

Elderly People (Fraud)

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government have taken to protect the elderly from fraud; and what recent discussions he has had on this issue. [41689]

Paul Goggins: A large amount of fraud can be prevented if people take simple precautions to protect themselves. Government therefore takes an active role in improving public awareness of fraud and how to avoid becoming a victim. These measures are targeted at all members of the community.

The Government publishes fraud prevention advice on the Home Office, Department of Trade and Industry and crime reduction websites and the Home Office published (jointly with the banking industry) a card fraud prevention leaflet that contains useful advice for members of the public. The Office of Fair Trading (OFT) and Financial Services Authority (FSA) websites also contain material on common scams and how to avoid them.

The Government recently launched Get Safe Online, the UK's first national internet and computer security awareness campaign. The campaign is a joint public and private sector initiative, primarily targeted at consumers and micro-businesses, which aims to raise awareness of internet security threats (including online fraud) and help users to protect themselves.

The Government have also set up, in conjunction with the private sector, a consumer website where people can get advice on protecting their identity. This has been followed up by a leaflet and poster campaign, with material distributed to consumers by police stations, libraries, Citizens' Advice Bureaux and Passport and Driver and Vehicle Licensing Agency (DVLA) offices.

To improve the law enforcement response to fraud, the Government have made available additional funding for the City of London police force, matched by funding from the Corporation of London, to enable it to take a lead role in fraud investigation not just in the City but across London and the south east. The Fraud Bill, introduced in the House of Lords in May, seeks to clarify and simplify the laws on fraud to better equip police and prosecutors to deal with modern crimes and keep up with new and inventive frauds.

Home Office Ministers and officials hold regular discussions with law enforcement and industry bodies about a number of fraud-related issues.

Eurojust

Nick Harvey: To ask the Secretary of State for the Home Department if he will make a statement on the outcome of the Eurojust conference held in London in October. [40653]

Paul Goggins: The Eurojust conference on trafficking in human beings, held in London on 24 and 25 October last year under the UK presidency of the EU, was attended by investigators and prosecutors from across

the EU. It provided an opportunity to share and exchange experience on national legislation, different investigative and prosecuting approaches and the sharing of information on trafficking networks. The conference also demonstrated the roles of Eurojust and Europol in improving co-operation and co-ordination between member states and raised awareness of other international measures to prevent and combat trafficking in human beings, including specialist training programmes supported by the EU.

The effectiveness of a co-ordinated response to trafficking was demonstrated in an operation facilitated by Eurojust on 14 December last year when authorities conducted simultaneous houses searches and arrests in Turkey, Greece, Italy, France and the United Kingdom against a network trafficking human beings into the UK and other member states.

The UK made action against trafficking a priority during its presidency of the EU and the adoption of an EU Action Plan by the Council of Ministers in December last year was a major achievement of our presidency. The plan aims to tackle trafficking at all stages of the process, focusing on priority areas where the EU, acting collectively, can make a real impact. Trafficking continues to be one of the Government's priorities. On 5 January 2006, we launched a public consultation document "Tackling Human Trafficking-Consultation on Proposals for a UK Action Plan". The consultation period runs until 5 April 2005.

Murder

Andrew Rosindell: To ask the Secretary of State for the Home Department if he will make a statement on the recent Law Commission recommendation concerning the reclassification of the offence of murder. [41666]

Hazel Blears: The Law Commission's consultation is the first part of the Government's review of the law of murder and is the start of a wider consultative process. The Government welcome the detailed analysis that the Law Commission has done and hope that a wide range of organisations and individuals will respond to the consultation so that their views can be fully taken into account during this initial stage of the review.

Offenders (Prison Recalls)

Mr. Oaten: To ask the Secretary of State for the Home Department how many offenders were recalled to prison as a result of breach of a post-custody licence in each of the last five years; and what proportion in each year was recalled for *(a)* violations of their licence and *(b)* fresh offences. [15361]

Fiona Mactaggart: Information on the number of offenders sentenced to four years or more who were recalled to prison as a result of a breach of post custody licence in each of the last five years can be found in tables 10.8 and 10.9 of the Home Office Statistical Bulletin: Offender Management Caseload Statistics 2004. Information on the number of offenders sentenced to less than four years who were recalled to prison in 2004-05 is provided at paragraph 10.12 of the same publication. Copies of this publication are available in the House of Commons Library.

All offenders who have been recalled to prison have violated at least one of the conditions of their licence. Specific information on the reasons for the recall in each of the last five years of those released on parole is provided in the attached table. Data held centrally on non-parole cases recalled for further offences are not sufficiently complete or reliable for publication.

Proportion of persons recalled from parole by reason for recall

Reason for recall	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*
Further offences	40	27	45	42	37
Being out of touch	32	23	26	29	28
Hostel: failure to reside/ comply	15	9	9	8	10
Other reasons	13	41	21	21	25
Total number recalled	267	329	420	601	712

Organised Crime

Mr. Gauke: To ask the Secretary of State for the Home Department if he will make a statement on the finding of the HM Inspectorate of Constabulary report closing the gap that organised crime is widespread, vibrant and growing. [27096]

Hazel Blears: By looking at organised crime utilising additional data sets to those traditionally used to examine "criminal markets" such as counterfeit, contraband, illicit goods and immigration crime, Her Majesty's Inspectorate of Constabulary (HMIC) came to the conclusion that the complexity, resilience and reach of organised crime was growing.

The closing the gap report provides a detailed and convincing case as part of the wider grounds for reconfiguring police service provision effectively to tackle all criminal and anti social threats. The issues in relation to organised crime were key drivers to the creation of the multi-disciplinary Serious and Organised Crime Agency that will come into existence in April 2006.

This body will bring together the National Crime Squad, the National Criminal Intelligence Service and elements of Her Majesty's Revenue and Customs and the Immigration Service to develop an improved knowledge and understanding of the way criminal enterprises operate, and will intervene in a way that achieves a real and lasting impact.

It will also work to share intelligence with, and offer support to, others engaged in law enforcement at home and overseas to foster a holistic approach to harm reduction. The creation of strategic forces will give the police service and partner agencies the capability and resilience to tackle organised crime cross-force or cross-basic command unit without impacting on neighbourhood policing: indeed it is the information and intelligence that flows from effective neighbourhood policing that will enable success at this level.

Police

Tim Farron: To ask the Secretary of State for the Home Department what assessment he has made of the likely impact on the individual and local identity of

local policing of merging predominantly rural police authorities with authorities that are predominantly urban. [31529]

Hazel Blears: Analysis of responses received in December 2005 from Cumbria Police Force and Police Authority to the recommendations of Her Majesty's Inspectorate of Constabulary (HMIC)'s report "Closing the Gap" is currently under way. Assessment of the implications for the balance between urban and rural areas will be part of that analysis. It would not be appropriate to comment in detail on the proposals for a particular area until that analysis is complete.

Tim Farron: To ask the Secretary of State for the Home Department if he will extend the consultation period on the proposed merger of police authorities in England beyond 23 December. [31530]

Hazel Blears: We acknowledge that the timetable set for this review is tight. Given the stark findings of the Her Majesty's Inspectorate of Constabulary (HMIC) report, "Closing the Gap" it would have been negligent not to have responded quickly. The consultation process did not end with the submission of proposals on 23 December. Police forces and authorities will continue to consult locally with their communities and stakeholders on the best options for their areas. Similarly, no decisions will be made nationally without proper consultation across Government and with stakeholders at national level.

Tim Farron: To ask the Secretary of State for the Home Department if he will take steps to ensure that Cumbria retains a minimum number of police officers not less than its current staffing level in the event of Cumbria Police Authority merging with one or more other authorities. [31531]

Hazel Blears: Analysis of responses received in December 2005 from Cumbria Police Force and Police Authority to the recommendations of Her Majesty's Inspectorate of Constabulary (HMIC)'s report "Closing the Gap" is currently under way. It would not be appropriate to comment in detail on the proposals for a particular area until that analysis is complete. Nonetheless, our commitment to ensure that every neighbourhood has a dedicated neighbourhood policing team by 2008 remains absolute. The creation of strategic forces is complimentary to that commitment and intended to reduce abstractions of neighbourhood officers to deal with major incidents or investigations elsewhere.

Tim Farron: To ask the Secretary of State for the Home Department what assessment he has made of the likely impact on Cumbria Police Authority's excellent rating for citizen-focused policing of a merger of the authority with other more urban police authorities. [31532]

Hazel Blears: Analysis of responses received in December 2005 from Cumbria Police Force and Police Authority to the recommendations of Her Majesty's Inspectorate of Constabulary (HMIC)'s report "Closing the Gap" is currently under way. Assessment of the implications for citizen focused policing and the balance between urban and rural areas will be part of that analysis. It would not be appropriate to comment in detail on the proposals for a particular area until that analysis is complete.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many support staff are employed by each police force in the West Midlands Region. [40682]

Hazel Blears: The breakdown of police service strength for 31 March 2005 was published on 25 July 2005 and is available in the Library of the House and on:

www.homeoffice.gov.uk/rds/pdfs05/hosb1205.pdf

Within this publication, figures for the breakdown of police staff in all police forces are available in Table 8a and 8b.

Prisoners

Philip Davies: To ask the Secretary of State for the Home Department pursuant to the answer of 7 November 2005, *Official Report*, column 57W, on prisoners, if he will provide a breakdown of the *(a)* offences and *(b)* number of each offence committed included in the 'Other' category. [31119]

Fiona Mactaggart: The types of offence included in the category of "other" are:

Criminal damage
Affray
Violent disorder
Threatening/disorderly behaviour
Arson
Cruelty to children
Abduction
Blackmail
Kidnapping
Perjury, libel,
Breach of court order
False imprisonment
Bail Act Offences
Assisting illegal immigrant
Minor firearm offences
Vagrancy Act offences
Cruelty to animals
Escaping lawful custody
Making off without payment
Criminal attempts
Other indictable offences
Held under Immigration Act 1971
Other non criminal offences
Offence not recorded

The number of each offence committed and included in the "other" category is not readily available and it would incur disproportionate cost to provide it.

Philip Davies: To ask the Secretary of State for the Home Department pursuant to the answer of 7 November 2005, *Official Report*, column 57W, on prisoners, if he will break down the information provided in the category of violence against the person by specific offence. [31252]

Fiona Mactaggart: From the start of the home detention curfew (HDC) scheme in January 1999, to 31 October 2005.119,000 offenders have been released onto the HDC scheme. The number of offences of

violence against the person offences which offenders have committed during the HDC period, as reported to the Home Office, is 886.

The total has been adjusted to incorporate additional information received since the answer given on 7 November.

The following table breaks down this figure by specific offences.

Breakdown of violence against the person offences committed whilst subject to HOC up to the 31 October 2005

	Number
Assault occasioning ABH	146
Arson Endangering life	3
Assault	7
Assault on a PC	133
Assault with intent to cause GBH	2
Assault with intent to resist arrest	1
Assault on a PC occasioning ABH	1
Attempted murder	1
GBH	1
Making threats to kill	31
Manslaughter	3
Manslaughter with a mechanical vehicle	1
Murder	1
Obstructing Resisting Constable	87
Other assault	322
Other violence against the person	11
Possession of firearms with intent	9
Possession of offensive weapon	76
Wounding	50
TOTAL	88

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department (1) what criteria are used to determine the use of *(a)* protective shields and *(b)* body armour in prisons; when these criteria were last reviewed; and if he will make a statement; [40017]

(2) under what circumstances an inmate is designated suitable for *(a)* a three-man unlock and *(b)* a six-man unlock; and if he will make a statement; [40018]

(3) what the criteria are for prisoners to be admitted to a witness protection unit; who authorises detention in such a unit; where these units are located; and if he will make a statement; [40019]

(4) when *(a)* his Department and *(b)* the Prison Service last issued guidance regarding the handling of contraband smuggled into the prison estate; on what basis this new guidance was issued; when its effects will be reviewed; and if he will make a statement; [40026]

(5) what the risk assessment required is for the use of protective shields for inmates on suicide watch in prison; and if he will make a statement. [40027]

Fiona Mactaggart: When a prisoner is armed, or suspected of being armed, or is violent and has access to weapons, approved protective personal equipment including protective shields, leg guards and helmets must be worn and/or used by staff attending an incident. The assessment as to whether personal protective equipment is necessary is made by the supervisor of the control and restraint team responding to the incident. In the case of a prisoner identified as at risk of suicide or self-harm, the prisoner's care plan would be available for the supervisor to consult to determine how such action would affect the individual.

National Control and Restraint instructors, who are required to attend incidents such as a hostage situation, are equipped with body armour that provides stab and ballistic protection. The use of personal protective equipment was last reviewed in preparation for the publication of Prison Service Order 1600 'Use Of Force' in July 2005.

The deployment of a three-officer team is the approved method of dealing with a violent or uncooperative prisoner. It is only used as a last resort after other methods, for example, by persuasion or negotiation, have been exhausted. There may be occasions when local risk assessment, based on the prisoner's recent history of behaviour, requires that more than one three-officer team is necessary to meet the threat of violence posed by a prisoner.

Not everyone who acts as a protected witness needs to be admitted to a protected witness unit (PWU). Other methods can be used to protect such people, such as being located in a vulnerable prisoner or other secure unit. An allocation to a PWU is made after completion of a risk assessment and at the direction of the Prison Service in accordance with the Prison Act 1952. The prisoner has usually been an active participant in a serious crime and has elected to identify, provide information, or give evidence against others involved in serious crime, thus placing himself at risk. The Service does not openly disclose where PWU are located for security reasons and will write separately on this matter.

The most recent guidance on the handling and preservation of illicit items found in prisons, such as drugs, weapons etc., was published in the Prison Service's National Security Framework (NSF) in 2003. The current guidance will be reviewed in line with the next review of the NSF in September 2006. The document is reviewed on an 18 monthly basis.

Proceeds of Crime Act

Mr. Jenkins: To ask the Secretary of State for the Home Department what *(a)* the total value and *(b)* value per head of relevant population was of assets seized under the Proceeds of Crime Act 2002 by each police force in England and Wales in the last year for which figures are available, ranked in descending order. [40826]

Paul Goggins: Police force performance on recovering the proceeds of crime is measured by the value of cash forfeiture orders and confiscation orders obtained by a force. The total value of orders obtained by each police force in England and Wales in 2004–05 under the Proceeds of Crime Act 2002 and earlier legislation is shown in table A. The total value of orders obtained by each police force in England and Wales in 2004–05 per 100,000 of relevant population is shown in table B.

Table A: Value of orders by police force in England and Wales

Police Force	Total value of cash forfeitures and confiscation orders obtain by the police service in 2004-05 £
Metropolitan Police Service	26,426,648.39
Lancashire Constabulary	3,743,146.94
Greater Manchester Police	3,453,431.70
Merseyside Police	2,908,711.21
Cambridgeshire Constabulary	2,695,434.41
Derbyshire Constabulary	2,540,453.70
West Yorkshire Police	2,265,457.57

Warwickshire Police	11,045.12
City of London Police[1]	275,015.31

[1] Calculated per 1000 as deputation is under 100,000

Ricin

Paul Flynn: To ask the Secretary of State for the Home Department on what date his Department was informed that the substance thought to be ricin discovered in an incident in 2003 was not ricin. [21890]

Hazel Blears: An initial test conducted by Defence Science and Technology Laboratory Porton Down on 6 January 2003 on an exhibit taken by police from the flat occupied by Kamal Bourgass gave an apparent positive result for ricin. However, confirmatory tests which were conducted throughout the period from 7 January 2003 to 28 January 2003 failed to detect the presence of ricin.

Ricin was identified and confirmed on 7 January, 2003 in a second exhibit, consisting of 22 castor beans seized from the flat. Nicotine poison was also identified and confirmed. Other materials, specifically mentioned in the poison recipes recovered from the flat were also found including acetone and isopropyl alcohol.

The Prosecuting Counsel (Mr. Sweeney QC), Crown Prosecution Service, was verbally informed of the ricin test result at a case conference on 20 March 2003, by Defence Science and Technology Laboratory. The Metropolitan Police Anti-Terrorist Branch was also represented at the meeting where the information was provided. The result was also provided in a written statement which was made available to the Crown Prosecution Service and the Metropolitan police at that time.

Further tests on the first exhibit on 27/28 April 2003 also did not detect ricin.

We do not have a record of the date this information was passed from the police to the Home Office and subsequently to Ministers.

Traffic Wardens

Mr. Amess: To ask the Secretary of State for the Home Department if he will amend the Functions of Traffic Wardens (Amendment) Order 2002 to allow police and community support officers to enforce section *(a)* 14(3), *(b)* 15(2) and *(c)* 15(4) of the Road Traffic Act 1988; and if he will make a statement. [40976]

Paul Goggins: Under the provisions of Sections 14 and 15 of the Road Traffic Act 1988 it is an offence for persons who are driving or riding in motor vehicles on a road not to wear seat belts or to convey children who are not wearing seat belts. Police officers can already take enforcement action as appropriate against persons they see breaking the law in this way.

The Functions of Traffic Wardens Order 1970, as amended by the 2002 (and other) Amendment Orders relates only to traffic wardens and cannot be amended in the way suggested.

The powers with which Community Support Officers (CSO) can be designated are as set in Schedule four of the Police Reform Act 2002 as amended. There are no plans to increase the number of traffic powers available to CSOs. Our concern is that CSO powers should focus on issues around neighbourhood policing.

UK Passport Service (Fraud)

Mr. Amess: To ask the Secretary of State for the Home Department how many officials employed by the United Kingdom Passport Service have been *(a)* investigated, *(b)* prosecuted and *(c)* convicted of fraudulent issuing of passports in each passport office in each of the last 10 years for which figures are available. [40792]

Andy Burnham: The information requested on the number of people employed by the UK Passport Service (UKPS) who have been investigated, prosecuted and convicted of fraudulently issuing passports is given in the following table.

The UK Passport Service takes very seriously any allegations or suspicions of fraud among members of staff. All such allegations or suspicions are investigated thoroughly and appropriate legal and disciplinary action taken where there are sound grounds to do so.

	Investigated	*Prosecuted*	*Convicted*
1995–96	1	1	[1]1
1996–97	0	0	0
1997–98	3	3	[2]3
1998–99	4	1	[3]1
1999–2000	2	0	0
2000–01	4	0	0
2001–02	4	1	[4]1
2002–03	6	1	[4]1
2003–04	16	0	0
2004–05	9	0	0
Total	49	7	7

[1] Glasgow
[2] All London
[3] Newport
[4] London

Notes:
1. Prosecutions and convictions did not necessarily take place in the year an investigation commenced.
2. These figures do not include any ongoing and current investigations which UKPS may be conducting.

Victim Support

Mr. Drew: To ask the Secretary of State for the Home Department whether Victim Support will be allowed to run the new victim care units. [37285]

Fiona Mactaggart: We have been working with Victim Support and will continue to do so to develop the models for victim care units. Through the green paper Rebuilding Lives; supporting victims of crime we are consulting widely on how to deliver our proposals.

We are making £1 million available in 2006–07 to pilot the models for victim care units in a number of areas. We will be working with the voluntary sector, particularly Victim Support to deliver these.

Visas

Damian Green: To ask the Secretary of State for the Home Department what percentage of visa applicants were fingerprinted in November 2005. [40355]

Dr. Howells: I have been asked to reply.

The total number of visa applications received at our visa issuing missions overseas in November 2005 was 172,588. Of these, approximately 5,933 applicants were fingerprinted. This represents a figure of 3.44 per cent.

Fingerprinting of applicants is currently undertaken for applications received in Kinshasa, Addis Ababa, Djibouti, Kampala, Kigali, Asmara, Dar Es Salaam, Nairobi, Amsterdam, Colombo, Hanoi and Ho Chi Minh.

War Crimes

Sarah Teather: To ask the Secretary of State for the Home Department whether there is a maximum level of estimated costs for the investigation of alleged war crimes under the Geneva Convention beyond which action is deemed disproportionate to pursue. [40800]

Andy Burnham: There is no maximum level of estimated costs for the investigation of alleged war crimes under the Geneva Convention beyond which action is deemed disproportionate to pursue.

A decision to investigate is considered on a 'case-by-case' basis and resource issues may be taken into account among other factors, including the likelihood of a successful prosecution.

Sarah Teather: To ask the Secretary of State for the Home Department what criteria are used by the police in deciding whether to make arrests of individuals *(a)* upon whom warrants for war crimes under the Geneva Conventions have been served and *(b)* against whom allegations of war crimes have been made. [40802]

Andy Burnham: There are no set criteria used by police in deciding whether or not to arrest individuals. In respect of the two situations mentioned in the Question :

(a) in cases where arrest warrants have been issued by a court, police should take reasonable steps to execute the warrant;

(b) in the case of persons against whom allegations have been made arrest is an operational decision and dependent upon the circumstances of that particular case.

Window Breakages (Cautions)

Martin Horwood: To ask the Secretary of State for the Home Department what cautioning policy has been issued by his Department for breaking *(a)* a domestic property window and *(b)* a commercial property window. [24825]

Hazel Blears: General guidance on the cautioning of adult offenders is contained in the Cautioning of Adult Offenders circular 30/2005 issued by the Home Office. The circular offers a framework to help police officers exercise their discretion and professional judgment, but does not provide guidance in relation to specific offences. The questions to consider in each case are whether a caution is appropriate to the offence and the offender, and whether a caution is likely to be effective in the circumstances.

Broadly the criteria for cautioning are that there should be sufficient evidence of guilt and a clear and reliable admission of the offence, that it is in the public interest to use a caution as the appropriate means of disposal, and that the suspect should be 18 years or over. Indictable only cases must be referred to the Crown Prosecution Service.

If all the above requirements are met, the police officer must consider whether the seriousness of the offence makes it appropriate for disposal by a caution. In order to assist with this decision, officers have been provided with a Gravity Factors Matrix, which is available on the Police National Legal Database.

Young Offenders

Mr. Hurd: To ask the Secretary of State for the Home Department how many young people of school age *(a)* found guilty of a crime and *(b)* placed in custody had a previous history of being in care in (i) Ruislip-Northwood constituency, (ii) the London borough of Hillingdon, (iii) Greater London and (iv) England in each year since 1997. [40710]

Fiona Mactaggart: This information is not collected centrally.

HEALTH

Alcohol Misuse

John Bercow: To ask the Secretary of State for Health (1) what assessment she has made of the adequacy of treatment services for alcoholics in Aylesbury Vale; [39661]

(2) what steps she is taking to tackle health inequalities in the area covered by the Aylesbury Vale Primary Care Trust. [39674]

Caroline Flint: I announced the launch of "Alcohol Misuse Interventions: Guidance on developing a local programme of improvement" as part of my keynote speech at Alcohol Concern's annual conference on 1 November 2005. The outcomes of this programme will enable local health organisations to focus on their decision-making on alcohol services at a local level. This will include identifying gaps in treatment pathways and mapping the best possible care pathways suited to need.

Local recommendations regarding tackling health inequalities have been reviewed in the report of Director of Public Health for Vale of Aylesbury Primary Care Trust in November 2005.

Abortion

Mr. Binley: To ask the Secretary of State for Health how many abortions were performed in *(a)* Northampton Primary Care Trust, *(b)* Daventry and South Northamptonshire Primary Care Trust and *(c)* Northamptonshire Heartland Primary Care Trust in each of the last 10 years, broken down by the (i) reason for the procedure and (ii) age of the patient. [36421]

Ms Rosie Winterton: The available information is shown in the table.

Number of abortions to women resident in (a) Northampton, (b) Daventry and South Northamptonshire and (c) Northamptonshire Heartlands PCTs by age and reason for procedure, in 2002–04[1]

	Age								Reason for procedure	
	< 16	*16–17*	*18–19*	*20–24*	*25–29*	*30–34*	*30–39*	*40 and over*	*Total*	*Section 1(1)(a)*[2]	*Other*[3]
(a) Northampton PCT

[1] Prior to 2002 information was published by health authority and not directly comparable with PCTs

[2] Section 1(1)(a) of the Abortion Act—that the pregnancy has not exceeded its twenty-fourth week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman or any existing children of her family.

[3] Other includes Sections 1(1)(b)-(d) and Section 1(4) of the Act as set out below.

Section 1(1)(b)—that the termination is necessary to prevent grave permanent injury to the physical or mental health of the pregnant woman

Section 1(1)(c)—that the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated

Section 1(1)(d)—that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped

Section 1(4)—that the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant women

[4] suppressed value where the totals are between 0 and 9. For confidentiality reasons totals less than 10 are not released

Notes:

Total includes women age under 16 where total < 16 is fewer than 10 cases and therefore not available for release.

Total includes cases of 'other' where the total is fewer than 10 cases and therefore not available for release.

Accident and Emergency Services

Mr. Sanders: To ask the Secretary of State for Health what the target is for accident and emergency waiting times; and what percentage of patients has been seen within these targets in each hospital in Devon since 1997. [38480]

Caroline Flint: The accident and emergency (A&E) four-hour waiting time target is now an ongoing operational standard. national health service trusts and primary care trusts (PCTs) are required to ensure that at least 98 percent., of patients in all their A&Es, combined with any associated minor injuries units or walk-in-centres, are seen, treated and admitted or discharged within four hours of arrival. The Healthcare Commission measures PCT and trust performance annually against this standard. The table shows annual data held for trusts in Devon.

Percentage of patients who spent less than four hours in A&E from arrival to admission, transfer or discharge, 2002–03 to 2005–06

Org code	Organisation	2002–03	2003–04	2004–05	2005–06
5FT	East Devon PCT	—	—	100.0	100.0

RWV	Devon Partnership NHS Trust				
RBZ	Northern Devon Healthcare NHS Trust	94.1	95.1	95.1	97.0
RH8	Royal Devon and Exeter NHS Foundation Trust	88.9	91.0	96.7	98.6
RA9	South Devon Health Care NHS Trust	87.2	91.4	95.2	97.7

Notes:
1. Data are not available prior to 2002–03.
2. 2002–03 data do not include Q1.
3. 2002–03 data are for major A&E departments only.
4. East Devon PCT and Mid Devon PCT did not monitor A&E performance in 2003–04.
5. East Devon PCT, Mid Devon PCT and North Devon PCT did not monitor A&E performance in Q1 2004–05, therefore, their 2004–05 data is for Q2-Q4.
6. Exeter PCT did not provide any data in Q1 2004–05. Therefore, their 2004–05 data is for Q2-Q4.
7. 2005–06 data are for the first two quarters of the year.

Consultants

Lynne Jones: To ask the Secretary of State for Health (1) what rules apply to the length of time that should elapse before a consultant employed by her Department, involved in awarding a contract to a company, can work for that company or receive payment from it; and how such rules are enforced; [34855]

(2) what mechanisms are in place to monitor possible conflicts of interest when commissioning is carried out by a private sector organisation appointed by a tendering mechanism; [34856]

(3) what criteria are used to judge potential conflicts of interest when a company bidding for an NHS contract has an employee who has been engaged or employed by her Department within the past two years; and if she will make a statement. [34857]

Jane Kennedy: The period that should elapse before a consultant previously employed by the Department may work or receive payment from a company that has been awarded a contract is determined on a case-by-case basis.

Departmental staff are required to obtain Government approval before taking up any form of full-time, part-time, fee-paid employment in the United Kingdom, or overseas in a public or private company or in the service of a foreign government or its agencies. For the most senior grades, the Prime Minister, on advice from the Advisory Committee on Business Appointments, decides whether conditions should be applied to business appointments and, if so, what they should be.

Public procurement regulations require that the range of organisations involved in the procurement process disclose potential conflicts of interest. This covers: civil servants, contractors engaged by the Department, bidders, and employees and contractors engaged by the national health service.

Dentistry

David Taylor: To ask the Secretary of State for Health if she will list the locations of the dental access centres operating in England, broken down by primary care trust. [33413]

Ms Rosie Winterton: The locations of the 53 dental access centres in England, which provide access to national health service dentistry across 85 sites, are shown in the table.

North and East Yorkshire and Northern	Yorkshire Wolds and Coast	Pocklington Dental Access Centre, 14 Market Place, Pocklington, York, YO42 2AR

Mr. Lansley: To ask the Secretary of State for Health how many dental access centres there are in England; and where they are situated. [32070]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave my hon. Friend the Member for North-West Leicestershire (David Taylor) today.

Mr. Hoyle: To ask the Secretary of State for Health (1) if she will make a statement on access to NHS dental treatment in the Chorley and South Ribble primary care trust area; [35488]

(2) what steps she is taking to increase the number of dentists accepting patients on the NHS in the Chorley and South Ribble primary care trust area. [35489]

Ms Rosie Winterton: The number of dental practices in Chorley and South Ribble primary care trust (PCT) area is 30, of which 11 have open personal dental service (PDS) contracts.

Access has improved in 2005 and it is estimated that 51 per cent. of the local population are registered with a national health service dentist.

The Government is reforming NHS dentistry to create a locally focussed service which people can access where and when they need to. Major changes to improve access include:

A new contractual framework for dentists to be introduced in April 2006, based on PDS pilots that better promote oral health, improve access to services and improve the quality of dentists' working lives;

a programme which recruited the equivalent of 1,000 dentists by the end of October 2005 with the capacity to treat some 2 million people in areas of the country where access to dentistry needs improving;

53 dental access centres across the country where people can be treated without an appointment and without needing to be registered;

an advice service from NHS Direct to help people find a dentist who will provide NHS treatment.

These major changes have been supported by an unprecedented level of Government investment which is set to increase by 19 per cent. over two years (2005–06 over 2003–04). This will result in an extra spend of over £250 million a year in primary care dentistry.

From April 2006 under the new national contract, the PCT will be responsible for the commissioning of all dental services. Over the next two years (2006–07 and 2007–08) Chorley and South Ribble PCT will receive a cash increase of over £44.3 million (19.9 per cent.)

Chris Ruane: To ask the Secretary of State for Health how many dentists were employed in the public sector in each of the last 30 years. [37029]

Ms Rosie Winterton: The information requested in shown in the following table.

The numbers of dentists employed in the hospital and community health service (HCHS), in England at 30 September each year

	All HCHS dental staff	*Hospital dental staff*	*Community health service dental staff*
1975	3,792	1,673	2,119

Source:
NHS Health and Social Care Information Centre Medical and Dental Workforce Census

The vast majority of general dental services and personal dental services dentists are self-employed contractors who provide services to patients on behalf of the national health service but are remunerated through public funds.

Departmental Assets

Mr. Ian Austin: To ask the Secretary of State for Health if she will make a statement clarifying what the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department are. [36306]

Mr. Byrne: The following table lists the top ten moveable and top ten immoveable fixed assets in the books of the Department of Health.

Description of asset	£
Immoveable fixed assets	
Harperbury Hospital, Radlett	76,700,608
Richmond House, London	39,441,362
St. James Hospital, Portsmouth	37,082,361
West Park Hospital, Epsom	34,300,000
Land-Warneford Hospital, Oxford	30,900,000
Runwell Hospital, Wickford	24,459,790
St Ebbas Hospital, Epsom	23,283,855
Wellington House, London	18,677,010
Little Plumstead Hospital, Little Plumstead	14,844,777
Clamp Hill Hospital, Harrow, London	14,500,000
Moveable fixed assets	
Electronic Staff Records 2004–05-Country-wide-Asset Under Construction	79,852,333
Software Licences from Microsoft	75,583,418
Local Service Provider North West	57,310,442

Description of asset	£
Spine Project-the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	44,835,458
Spine Project-the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	21,250,000
Software Licences-Oracle-National Programme For Information Technology	21,197,152
Spine Project-the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	20,887,632
National Software Licences from Microsoft	17,290,037
Picture Archive Communication System (PACS)-Assets Under Construction	10,127,000
Connecting for Health-Electronic Booking-Assets Under Construction	8,000,000

Notes:
1. Immoveable assets are land and buildings and any plant and machinery that form an integral part of the land and buildings (such as central heating and air conditioning systems, for example)
2. Moveable assets are any asset that is not an immoveable asset.
3. The amounts are stated at net current cost adjusted to net current replacement cost as at 31 October 2005.

Source:
Department of Health Fixed Assets Register

I regret the reply I gave to the hon. Member for Hemel Hempstead (Mike Penning) on 24 November 2005, *Official Report*, column 2272W was incorrect.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Secretary of State for Health how many and what percentage of jobs in *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which her Department is responsible are located in (A) England, excluding Greater London, and (B) Greater London. [39809]

Jane Kennedy: The figures are published in table D of Civil Service Statistics, which covers permanent staff numbers (full time equivalent). This information is available at the following address on the Cabinet Office's statistics website at:www.civilservice.gov.uk/management_of_the_civil_service/statistics/index.asp.

The total number of staff employed by executive non-Departmental public bodies sponsored by the Department as at 31 March 2005 is recorded in table two of Public Bodies 2005, a copy of which is available in the Library and is also available on the Cabinet Office's website at www.knowledgenetwork.gov.uk/ndpb/ndpb.nsf. However, *Public Bodies* does not give the regional breakdowns sought and those data are not held by the Department. They could be provided only at disproportionate cost.

The number of staff employed in the Department's executive agencies as at 1 April 2004, including a regional analysis, is available in Civil Service Statistics 2004, published in February 2005. A copy is available in the Library and is also available on the Cabinet Office's website at: www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_servicestatistics/index.asp and www.civilservice.gov.uk/management_of_the_civil_service/statistics/contents_for_civil_service_statistics_2004_report/index.asp

Diabetes

John Bercow: To ask the Secretary of State for Health if she will make a statement on progress with the national service framework for diabetes. [39678]

Ms Rosie Winterton: A full report on progress of the implementation of the national service framework for diabetes will be published in the spring.

John Bercow: To ask the Secretary of State for Health if she will make a statement on the extent of screening for diabetes. [39679]

Ms Rosie Winterton: The national service framework for diabetes states that there is emerging evidence to suggest that it may be clinically and cost effective to offer screening for diabetes to those sub-groups of the population at increased risk of developing the condition. The United Kingdom National Screening Committee considered screening for type two diabetes at its meeting on 29 November 2005 and I expect to receive its advice on the next steps shortly.

Information is not held centrally about screening currently undertaken in primary care locally.

Electronic Patient Records

Mark Simmonds: To ask the Secretary of State for Health what the *(a)* timescale is for and *(b)* estimated cost is of implementation of NHS electronic patient records. [33946]

Mr. Byrne: Initial implementation of the national health service care records service (NHS CRS) began in the summer of 2004 with the introduction of a personal demographic service containing personal identity details of patients; access controls to ensure secure service system access via Smartcard; a messaging service with the standard messaging protocols; and a spine directory service containing reference file information. Over time each person's NHS care record will build into a comprehensive patient history with a summary of patient information available at the point of need anywhere in the NHS in England. The final phase of the NHS CRS, by 2010, will be the full integration of health and social care information systems across England.

A contract to the value of £620 million was awarded in 2003 from central expenditure for the creation of the national database of key information about patients' health and care, which is the core component of the NHS CRS. The contract covers on-going funding of core deliverables and the connection of existing systems to national applications. However, it does not include

all the costs of implementation at local level, such as training national health service staff or local change management costs, which are planned to be borne by individual NHS organisations out of baseline budgets.

Emergency Contraception

Mr. Binley: To ask the Secretary of State for Health how many prescriptions were issued for emergency contraception in *(a)* Northampton primary care trust, *(b)* Daventry and South Northamptonshire primary care trust and *(c)* Northamptonshire Heartlands primary care trust, in the last 12 months. [36420]

Ms Rosie Winterton: The information requested is shown in the table.

Prescriptions issued for emergency hormonal contraception for the period October 2004 to September 2005

Primary care trust	*Number of prescriptions*
Daventry and South Northamptonshire	964
Northampton	1666
Northamptonshire Heartlands	2186

Emergency contraception is also available through community contraception clinics, and can be purchased 'over the counter' by those aged over 16. The Department does not hold data centrally on the latter.

Community contraceptive clinic services in these localities are provided by Northamptonshire Healthcare national health service trust. That trust reported prescribing hormonal post-coital contraceptives on 1,023 occasions in 2004–05.

Ethnicity Guidance

John Bercow: To ask the Secretary of State for Health what guidance she has issued on recording of ethnicity in *(a)* primary and *(b)* secondary care. [39402]

Ms Rosie Winterton: The use of appropriate ethnic and other equality data is very important to the National Health Service. Without recording ethnicity, the NHS would not be able to check that its access and treatments are equitable to all communities.

Revised guidance on ethnicity monitoring of NHS patients and social care users was published in July 2005. This guidance applies to primary and secondary care settings and confirms the use of Office for National Statistics codes for ethnic groups as the NHS standard.

EU Directives

Mr. Davidson: To ask the Secretary of State for Health what assessment she has made of the likely impact of the EU Directive on Services in the Internal Market on *(a)* the national health service and *(b)* privately-owned care homes owned by an identity based in another EU member state. [35745]

Ms Rosie Winterton: Since the replies I gave on 12 September, 2005, *Official Report*, columns 2685–6W, to similar questions tabled by my hon. Friend, the situation remains that negotiations on the draft European Union directive on services in the internal market are on-going. Until the text is finalised it is difficult to assess its precise effects on particular sectors.

A number of general impact assessments are available. The Department of Trade and Industry (DTI) has performed a partial regulatory impact assessment for the proposal, which indicates that the general benefits are likely to be substantial. This is available on DTI's website at www.dti.gov.uk/ccp/topics2/pdf2/servicesria.pdf. An independent consultancy, Copenhagen Economics, has also assessed the general economic impact of the directive. They predicted that the services directive would add £25 billion to the EU economy, create an extra 600,000 jobs, boost EU gross domestic product by 0.6 per cent., and lead to an increase in real wages of 0.4 per cent.

In addition to these general impact assessments, the Department has held informal consultations and taken the views of relevant parties concerning the possible impact of the services directive on the national health service and on social care providers. No economic analysis has been carried out to date.

The United Kingdom Government's position is to seek an exclusion for publicly-funded healthcare from the scope of the Directive, plus a derogation for all healthcare from the country of origin principle, and the deletion of Article 23 on the assumption of healthcare costs.

Food Supplements Directive

Mr. Austin Mitchell: To ask the Secretary of State for Health (1) on what date *(a)* the Food Standards Agency adopted formal advice to Ministers in relation to proposed objectives for the finalisation of the provisions of the Food Supplements Directive and *(b)* she reached a conclusion on that advice; what that conclusion was; what steps have been taken since within the EU by (i) her Department and (ii) the Food Standards Agency to further her objectives for further negotiations on the Directive; and if she will make a statement; [39448]

(2) when she next plans to meet consumer and industry stakeholders to discuss progress on the interpretation and implementation of the Food Supplements Directive. [39449]

Caroline Flint: The Food Standards Agency (FSA) board discussed proposed objectives for the finalisation of the provisions of the food supplements directive, in terms of the setting of maximum levels for vitamins and minerals in food supplements on 15 September 2005. Ministers were advised of the FSA board's position on 11 October. I accepted this advice on 22 November 2005. FSA officials have had a preliminary discussion with the European Commission on the issue of setting maximum safe levels of vitamins and minerals in food supplements.

I met FSA officials on 19 December 2005 to agree further action in Europe to be taken in early 2006. I plan to meet consumer and industry stakeholders to discuss the
progress and implementation of the food supplements directive in early 2006

General Ophthalmic Service

Mr. Lansley: To ask the Secretary of State for Health when she will undertake the review of the General Ophthalmic Service announced on 29 August. [34198]

Ms Rosie Winterton: The review of general ophthalmic services is currently underway.

When we announced the review in August 2005, we indicated that we expected the review to report in early 2006. It is now likely that the review will report later in 2006. This takes into account arguments put forward by the main representative bodies for extending the time scale to ensure full consideration of the issues. It will also ensure that the review is able to reflect the forthcoming White Paper on services outside hospital.

Gershon Review

Mr. Burstow: To ask the Secretary of State for Health what savings were identified in her Department as a result of the Gershon Review; and what progress has been made towards making these savings to date. [35365]

Mr. Byrne: The Gershon Review required the Department to achieve £6.5 billion of annual efficiency gains by March 2008.

We have achieved £1.7 billion of this total up to September 2005. Details of these savings have been provided in our autumn performance report published on 7 December.

Heroin Addicts

John Mann: To ask the Secretary of State for Health what assessment she has made of the use of Suboxone in treating heroin addicts. [40791]

Caroline Flint *[holding answer 9 January 2006]*: Suboxone does not currently have marketing authorisation in the United Kingdom.

The Department has assessed the evidence for use of buprenorphine, the active ingredient of Suboxone, and has actively supported its increasing use, working with the National Treatment Agency for Substance Misuse (NTA), and by pursuing a number of measures:

Regulations were amended by the Department in 2001 to ensure buprenorphine could be prescribed using instalment dispensing, to make it easier to use in the management of drug addiction

In 2003, clinical guidance referring to the key research evidence on buprenorphine was published in the NTA document, *Prescribing services for drug misuse*, which supported its use as a treatment alongside other treatments such as methadone prescribing.

The Department has subsequently asked the National Institute for Health and Clinical Excellence to carry out a technology appraisal on methadone and buprenorphine as opiate substitutes. That is currently under way and due to report in March 2007.

The Department's *Clinical Guidelines* (1999)[1] promote the use of supervised consumption. That NTA has also promoted the availability of pharmacy supervised consumption schemes. Supervised consumption—in order to minimise the risk of inappropriate injecting of prescribed buprenorphine—is feasible in the UK context. With careful selection for its suitable use, it does provide an additional option to the pharmacological approach that Suboxone might offer in this regard.

[1] Drug misuse and dependence—guidelines on clinical management (HMSO, 1999)

HIV/AIDS

Mr. Hunt: To ask the Secretary of State for Health how many children in England under the age of 16 years are diagnosed with HIV/AIDS; and if she will make a statement. [38282]

Caroline Flint: 903 children under the age of 16 are currently reported to be living with a diagnosis of HIV infection in England.

Notes:

1. Data received and processed by 16 December 2005.
2. These data do not include diagnosed children who are known to have died or left the country.

Source:

National Study of HIV in Pregnancy and Childhood, Institute of Child Health, London.

Hospices

Mr. Holloway: To ask the Secretary of State for Health what recent estimate her Department has made of the effect on costs to the NHS of the contribution of the hospice movement. [35607]

Ms Rosie Winterton: We acknowledge the valuable contribution the voluntary sector makes to the provision of palliative and specialist palliative care services. We have not made any estimate of the effect on costs to the national health service of the contribution of the hospice movement. However, data from the voluntary organisation Help the Hospices show that the total expenditure from all adult voluntary hospices in England in 2004 was £286 million, of which £97.8 million was from national health service funding, an average of 34 per cent. of hospices' expenditure.

Hospital Admissions

Mr. Lansley: To ask the Secretary of State for Health what recent estimate she has made of *(a)* the percentage of hospital admissions which are due to adverse drug reactions and *(b)* the resultant cost to the public purse. [39367]

Jane Kennedy: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Commission for Human Medicines (CHM) through the spontaneous reporting scheme, the Yellow Card Scheme. Approximately 20,000 reports of ADRs are reported to the MHRA/CHM through this scheme each year. Between 1 December 2004 and 30 November 2005, 18,482 reports were received. Of these 4,018 (28 per cent.) reported that the suspected ADR involved or prolonged in-patient hospitalisation. It is not possible to estimate from the Yellow Card Scheme the number of people who suffer adverse reactions to drugs since the scheme is associated with an unknown level of under-reporting.

Addressing the impact of adverse drug reactions on public health is a key concern for the MHRA. A study funded by the MHRA and published in the *British Medical Journal* on 2 July 2004, was conducted in two large hospitals in Merseyside in order to ascertain the current burden of ADRs in the NHS. The study found that of 18,820 patients aged over 16 years admitted to hospital over a six month period, there were 1,225 admissions judged to be related to an adverse drug

reaction (ADR), giving a prevalence of 6.5 per cent. Of these 1,225, the ADR was judged to lead directly to the admission in 80 per cent. of cases. The median bed stay was eight days, accounting for 4 per cent. of the hospital bed capacity. The projected annual cost of such admissions to the NHS is £466 million.

Hospital Facilities

Steve Webb: To ask the Secretary of State for Health what proportion of NHS in-patients shared a mixed sex sleeping area at some point during their hospital stay in the last year for which figures are available. [35194]

Ms Rosie Winterton: The proportion of national health service in-patients reporting sharing a room or bay with members of the opposite sex was measured through the 2004 acute adult in-patient survey, administered by the Healthcare Commission. This was conducted in 169 acute and specialist NHS trusts in England that care for adult patients. The response rate to this survey was 63 per cent.

The results of this survey showed that on average, 22 per cent. of patients shared a room or bay while in hospital. This is a fall of 4 percentage points from the previous survey conducted in 2002, and reflects the progress made by the NHS in eliminating mixed-sex accommodation. Results at national and individual trust level are published on the Healthcare Commission website at www.healthcarecommission.org.uk.

The Department has set clear standards for the provision of single-sex accommodation in the NHS. in 2005, 97 per cent. of NHS trusts met these standards, which cover a broader range of issues than the Healthcare Commission's survey, including the provision of separate sanitary facilities for men and women, issues of privacy, dignity and respect and criteria to ensure the safety of patients in mental health settings.

Hospital Hygiene

Ms Gisela Stuart: To ask the Secretary of State for Health what assessment she has made of the merits of *(a)* compulsory wearing of facemasks by staff dealing directly with patients, *(b)* compulsory routine testing of all hospital staff for infections and *(c)* prohibition of hospital uniforms being worn offsite. [35447]

Jane Kennedy: National evidence based guidelines[1,2] do not identify any clinical benefit from wearing facemasks to protect patients during routine ward procedures such as wound dressing or invasive medical procedures.

Screening for healthcare associated infections is not routinely recommended for staff.

It is for individual trusts to determine their own policies on the wearing of uniforms in and around the workplace.

Many trusts have uniform policies in place for all staff stating that staff should not wear uniforms outside of the work place, unless working in the community or on official hospital business. Many also state that uniforms worn outside of the workplace should be covered with a full-length coat.

British Journal of Infection Control December 2004 Vol. 5 No. 6 Pellowe CM, Pratt RJ, Loveday HP, Harper P, Robinson M, Hones SRLJ

Hospital-acquired Infection

Mr. Horam: To ask the Secretary of State for Health how many *(a)* incidents of hospital-acquired infection (HAI) and *(b)* deaths due to HAI there have been in the national health service in each year since 1996. [8713]

Jane Kennedy *[holding answer 5 July 2005]:* Information on the number of cases of all hospital acquired infection is not available.

The best available information is on meticillin resistant *Staphylococcus aureus* (MRSA) blood stream infections from mandatory surveillance system at: www.dh.gov.uk/assetRoot/04/11/40/15/04114015.pdf which was introduced in April 2001. National totals for the first four years are shown in the table.

Reports under the mandatory MRSA bacteraemia surveillance system (acute national health service trust, England)

	Number MRSA bacteraemia
April 2001 to March 2002	7,249
April 2002 to March 2003	7,373
April 2003 to March 2004	7,684
April 2004 to March 2004	7,212

Source:

Health Protection Agency

It is not possible to give reliable figures on the number of deaths involving hospital-acquired infections from routinely collected mortality data, as information on whether the infection was acquired in hospital or elsewhere may not be available to the doctor certifying the death.

Influenza

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 10 November 2005, *Official Report*, column 666W, on influenza, whether she has plans to vaccinate poultry handlers against influenza of subtype A/H5N1 should a vaccine become available; and what plans she has to vaccinate poultry handlers against other forms of highly pathogenic avian influenza. [39312]

Caroline Flint: The Government have already announced their plans to purchase a small stockpile of new A/H5N1 vaccine that is currently being developed. Though it is intended that this will initially be used for research purposes, its use for poultry workers and others at serious risk of exposure to infection will be considered in the event of an outbreak of H5N1 in poultry flocks.

There are no plans to vaccinate poultry handlers against other forms of avian influenza as there are no suitable vaccines available.

In the event of an outbreak of avian influenza in poultry, seasonal human influenza vaccine will be offered to all those considered to be at risk of exposure to infection in addition to antiviral therapy.

Isolation Units

Mr. Drew: To ask the Secretary of State for Health (1) how many isolation units there are in each region; and where each is located; [35790]

(2) how many positive-negative pressure isolation rooms exist within the NHS; and where they are located. [36703]

Jane Kennedy: The Department does not collect information on isolation facilities but has issued guidance that trusts should ensure adequate provision.

Health Service Circular 2000/2002 on the Management and control of hospital infection required trusts to undertake a risk assessment to determine appropriate provision of isolation facilities within each trust. Winning Ways (December 2003) states that national health service trust chief executives will ensure over time that there is appropriate provision of isolation facilities within their healthcare facilities.

Medical Equipment (Supply Contracts)

Mr. Amess: To ask the Secretary of State for Health with which companies based in the UK her Department has contracts for the supply of medical equipment. [39692]

Jane Kennedy: The information requested has been placed in the Library.

Medical Staff (Attacks)

Mr. Alan Williams: To ask the Secretary of State for Health how many cases were recorded of attacks on *(a)* ambulance crews and *(b)* nurses in each year since 2003–04; how many there were in 2005–06; how many prosecutions were pursued in each case; and what sentences were imposed on those found guilty in each case where all proceedings are complete. [36012]

Mr. Byrne: The information requested is not held centrally in the format requested. The national health service security management service (NHS SMS) is currently in the process of compiling and validating the first ever accurate figures for the levels of physical assault on NHS staff in 2004–05 for the acute, primary care and ambulance services; these will be released in the near future.

Information relating to the number of physical assaults on staff working in NHS mental health and learning disability environments was released on 19 October 2005; these totalled 43,301 for the period 2004–05. In 2002–03 there were 59,992 violent incidents in these settings.

The number of successful prosecutions involving physical assaults on NHS staff for 2004–05 was 759; a 15 fold rise over the 51 such prosecutions identified in 2002–03. In 2004–05 there were 100 successful prosecutions involving assaults on ambulance staff.

No information on sentences imposed on offenders was collated for this period.

Mental Health

Chris Ruane: To ask the Secretary of State for Health which 50 areas have the highest proportion of registered mentally ill people per 10,000 head of population. [39291]

Ms Rosie Winterton: The 50 primary care trusts (PCTs) with the highest number of admissions of patients with a mental illness per 10,000 of population in England in 2003–04 is shown in table 1.

Table 2 shows the number of formal admissions of patients detained under the 1983 Mental Health Act among all national health service care providers in England. There is a direct relationship between the number of admissions and the size of a trust's work force and the capacity of a unit.

Table 1: Admission rates, per 10,000 population, to NHS hospitals under mental illness specialities by PCT of residence, 2003–04

MRSA

James Brokenshire: To ask the Secretary of State for Health how many people have *(a)* successfully claimed and *(b)* tried to claim compensation (i) having contracted MRSA and (ii) having had a member of their family contract MRSA at an NHS hospital in each of the last five years. [34518]

Jane Kennedy: The information available is shown in the table.

Notification year	*(A) Number of successful claims made (i.e. damages paid)*	*(B) Number of attempted claims made*
2000–01	11	19
2001–02	21	50
2002–03	33	91
2003–04	30	104
2004–05	16	109

Notes:
1. Column (A) shows the number of successful claims and column (B) shows the total number of attempted claims. It is not possible however, to provide a breakdown of the data into the question's categories (i) and (ii)—as centrally held data do not differentiate between a patient and a member of their family claiming for negligence.
2. The figures provided are in respect of all claims where MRSA is stated as an element of the claim—it could be a "cause" or an "injury". The contraction of the MRSA could be a non-negligent consequence of the negligent act.
3. The number of claims are shown by notification year i.e. the financial year in which the Trust was first notified that a claim was going to be made. Because the notification date can be up to three years after the incident, the information in the table is subject to updates that might place additional claims in certain years.

NHS Litigation Authority

NHS Finance

Mr. Burstow: To ask the Secretary of State for Health what the cumulative break-even position as reported in the final accounts of *(a)* strategic health authorities, *(b)* primary care trusts, *(c)* NHS trusts and *(d)* other care trusts was in each of the last five years, broken down by Government Office region. [29928]

Mr. Byrne: The break even cumulative position for national health service trusts for the period 2000–01 to 2004–05 is provided by Government Office region, in table one.

Table 1: Cumulative position for NHS trusts 2000–01 to 2004–05

£000

Government Office Region	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
North East	10,773	10,705	11,478	9,559	3,279
North West	35,571	35,568	17,035	-38	-23,279
Yorkshire and the Humber	7,996	-4,318	2,988	-18,667	-51,214
East Midlands	11,429	8,228	8,413	3,210	-2,653
West Midlands	1,618	1,650	-15,740	-42,748	-85,820
East	-5,203	-23,657	1,268	-9,168	-69,817
London	-32,632	-3,012	-13,433	-12,826	-92,213
South East	-23,453	-42,084	-58,557	-89,708	-160,376
South West	2,662	-16,180	-100,355	-115,333	-115,934

Notes:
1. For accounting purposes, the figures include data for the five care trusts.
2. The figures exclude NHS Foundation Trust data in 2004–05.

Source:
Audited summarisation schedules of the NHS trusts 2000–01 to 2004–05.

The term cumulative break even does not apply to strategic health authorities (SHAs) and primary care trusts (PCTs).

If a SHA or PCT reports a deficit position in one year, that deficit is recovered by deducting it from the resources available to them in the subsequent year, therefore their current performance represents their cumulative position.

The final audited financial position for health authorities (HA) for the period 2000–01 to 2001–02 and for SHAs, formed in 2002–03, for the period 2002–03 to 2004–05, aggregated by Government office region is provided in table two.

Table 2: Financial position of HAs and SHAs

£000

Government Office Region	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*

South West	2,779	470	-6,334	-11,679	-44,842

Note:
Primary Care Trusts came into existence in 2000–01, however Revenue Allocations were not made directly to them until 2003–04.
Source:
Audited summarisation schedules of the primary care trusts 2000–01 to 2004–05.

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* terms of reference, *(b)* powers and *(c)* costs are of the turnaround teams she is sending into NHS organisations in deficit. [35367]

Mr. Byrne: The turnaround teams will support the national health service in identifying opportunities to deliver services with greater cost-effectiveness and to make financial savings. They will help the local NHS ensure that the NHS delivers both its key targets and financial balance.

An initial assessment to ensure that the 63 organisations, that are forecasting the most significant deficits, have financial control and there are an agreed set of actions to restore financial balance began on 7 December.

Following the initial assessment the teams will agree a tailored package of turnaround support with each organisation and the strategic health authority. The teams will then support the chief executive of the organisations in delivering turnaround. The type and length of engagement will be tailored to the needs of specific organisations. The chief executives will remain responsible for delivery in their organisations.

The contract for this work was awarded in accordance with Department tendering arrangements. The amount of the contract is commercial in confidence.

NHS Interpreting Service

John Bercow: To ask the Secretary of State for Health if she will ensure provision of a comprehensive 24-hour interpreting service within the national health service. [39403]

Ms Rosie Winterton: NHS Direct provides a 24-hour telephone service and there is full 24-hour availability of interpretation for all callers to the service. Other national health service trusts and bodies provide interpreting services on a local basis, and their availability in general reflects the opening hours of the services provided.

NHS Loans

Dr. Pugh: To ask the Secretary of State for Health (1) what amount of interest is paid by NHS trusts on NHS loans; [33996]

(2) if she will list NHS acute trusts which borrowed money from the NHS to remain in balance in the 2004–05 financial year; and how much interest each was charged. [34254]

Mr. Byrne: No national health service organisation has the legal power to make loans to any other NHS organisation or any other body.

As NHS trusts do not have the power to lend money to other NHS organisations, there was no interest charged in respect of borrowings from the NHS.

However, strategic health authorities (SHAs) can provide planned financial support. The recovery of this support is managed locally by the SHAs.

The following table shows the planned support required by NHS trusts to achieve financial balance or better in 2004–05.

NHS trusts requiring planned support in 2004–05 to achieve financial balance

£000

	2004–05	
	Surplus/ (deficit)	Planned support
Royal Cornwall Hospitals NHS Trust	13,581	26,377

Audited NHS trust summarisation schedules 2004–05.

NHS Staff Costs

Mr. Wills: To ask the Secretary of State for Health what overall NHS staff costs were in each year since 1997. [35468]

Mr. Byrne: The information requested is shown in the table.

Overall national health service staff costs since 1997–98 to 2004–05

	English total (£)
2004–05	29,974,339,000
2003–04	28,529,703,305
2002–03	25,871,029,531
2001–02	23,211,677,814
2000–01	20,531,877,107
1999–2000	18,708,225,971
1998–99	17,081,105,039
1997–98	16,098,946,558

Source:

Annual Financial Returns for Strategic Health Authorities, Primary Care Trusts and NHS Trusts 1997–98 to 2004–05.

NHS Trusts

Steve Webb: To ask the Secretary of State for Health what the *(a)* total capital revenue expenditure and *(b)* capital and revenue IT expenditure was for NHS trusts in England in the last year for which figures are available. [35197]

Mr. Byrne: The information is given as follows. Figures do not include expenditure on the national programme for information technology funded centrally by the Department.

National health service trust expenditure in England 2004–05

	£000
Total capital expenditure	2,008,839
Total revenue expenditure	36,033,813
Total capital expenditure on information technology (IT)	130,037
Total revenue expenditure on IT	[1]Not yet available

[1] Revenue expenditure on IT is reported through an annual national survey of NHS bodies. Collation and analysis of survey returns has not yet been finalised. The equivalent figure for 2003–04 was 567,017.

Note:

Data for NHS foundation trusts are not included in 2004–05.

Source:

Audited NHS trust summarisation schedules 2004–05.

NICE Guidance

Mr. Lansley: To ask the Secretary of State for Health what the total estimated cost has been of issuing National Institute for Health and Clinical Excellence guidance; and how much of that figure is accounted for by the cost of issuing *(a)* clinical guidelines and *(b)* technology appraisals. [36428]

Jane Kennedy: The cost to the national health service of implementing National Institute for Health and Clinical Excellence (NICE) technology appraisal guidance up to July 2005 is estimated to be £838 million. There are no data available for the cost of implementing NICE clinical guidelines.

It is not possible to disaggregate accurately the cost of producing NICE appraisals and clinical guidelines. NICE'S total budget for 2005–06 is £29.3 million.

Nurses

Mr. Hunt: To ask the Secretary of State for Health how many full-time equivalent nurses have been employed in the NHS in each of the last five years, broken down by region; and if she will make a statement. [35519]

Mr. Byrne: The requested information is shown in the table.

The number of full-time equivalent qualified nurses has increased by 48,453 (18 per cent.) since 2000.

All NHS qualified nursing, midwifery and health visiting staff, including practice nurses employed by unrestricted principals and equivalents (UPEs)[1], in England by Government office region and strategic health authority area as at 30 September each year

Full-time equivalent

Health and Social Care Information Centre Non-Medical Workforce Census

Health and Social Care Information Centre General and Personal Medical Services Statistics

Obesity

Steve Webb: To ask the Secretary of State for Health how many weight management clinics there were in England in each of the last five years for which figures are available. [39566]

Caroline Flint: Figures on the number of weight management clinics in England are not available for the last five years. There are, at present, weight management clinics. Six of these are for children and seven for adults.

Pandemic Influenza

Mr. Lansley: To ask the Secretary of State for Health pursuant to her letter to the hon. Member for South Cambridgeshire dated 8 December, on pandemic influenza, what representations she has received from interested parties regarding the purchase of Relenza as an adjunct to the existing antiviral strategy; and when she expects to take a decision as to whether Relenza will be purchased. [39349]

Caroline Flint: The Department has been approached by the manufacturer of Relenza in relation to supply of

that product for pandemic preparedness. There are practical issues to consider concerning use of Relenza during a pandemic, notably that the product is not licensed for prevention of influenza, it is not licensed for use in children and has to be administered via inhalation. No decision has been made on whether to stockpile Relenza, however the Department is keeping its pandemic antiviral strategy under constant review and this remains an option.

Penserver Software

Mrs. Humble: To ask the Secretary of State for Health how many cases were cleared on average per month by the NHS Pension Agency *(a)* before the introduction of the new penserver software, *(b)* after the introduction of penserver phase 1 and *(c)* after the introduction of pensaver phase 2. [35881]

Mr. Byrne: The average monthly case clearance pre Penserver Phase 1 (April 2001 to July 2003) was 17,528 transactions per month.

The average monthly case clearance between phase one and up to phase two implementation was 18,854 transactions per month, an increase of 7.6 per cent.

Penserver Phase 2 went live on 3 October 2005. There is insufficient information to assess the average monthly transactions since that date.

Primary Care Trust (Resource Allocation)

Mr. Hunt: To ask the Secretary of State for Health what assessment she has made of the extent to which the additional needs element of the weighted capitation formula for primary care trust (PCT) resource allocation reflects the degree of health inequality in the PCT's locality; and if she will make a statement. [35692]

Mr. Byrne: When making revenue allocations to primary care trusts (PCTs) the aim is to support the objective of equal access to equal need. We believe the weighted-capitation formula is the best mechanism available to enable this objective to be met.

The development of the formula is continuously overseen by the Advisory Committee on Resource Allocation (ACRA). ACRA is an independent body, made up of national health service managers, academics and general practitioners.

Primary Eye Care

Mr. Caton: To ask the Secretary of State for Health what discussions her Department has had with *(a)* the Association of British Dispensing Opticians, *(b)* the Association of Optometrists and *(c)* the Federation of Ophthalmic and Dispensing Opticians on the future of primary eye care in England. [38384]

Ms Rosie Winterton: I met with the Association of British Dispensing Opticians, the Association of Optometrists and the Federation of Ophthalmic and Dispensing Opticians on 27 October to discuss the ophthalmic clauses in the Health Bill and the review of General Ophthalmic Services.

We anticipate valuable contributions from stakeholders, including the optical representative bodies, to the review of the General Ophthalmic Services. The review provides an opportunity to consider how we can build on the success of current arrangements.

Prostate Cancer

John Bercow: To ask the Secretary of State for Health if she will launch a national screening programme for prostate cancer. [39680]

Ms Rosie Winterton: Screening and treatment techniques are not sufficiently well developed for the introduction of a national screening programme. The national screening committee is advising Government on this issue and is keeping screening for prostate cancer under review.

Public Appointments

Julia Goldsworthy: To ask the Secretary of State for Health if she will list the former hon. Members who left Parliament in 2005 who have since been appointed to public bodies by her Department, broken down by party; and who was responsible for making each appointment. [36685]

Jane Kennedy: Information about the political activity of appointees is recorded and publicised in accordance with the independent Commissioner for Public Appointments' Code of Practice. This shows that the Department has appointed no former hon. Members who left Parliament in 2005 to public bodies.

Purified Protein Derivative

Mr. Lansley: To ask the Secretary of State for Health what discussions her Department has had with solicitors regarding the administration of the unlicensed Mantoux strength purified protein derivative by nurses, as stated in the Minutes of the Joint Committee on Vaccination and Immunisation's meeting of 14 July; what the content of these discussions was; what advice she has received as a result of these discussions; and whether this advice has been made available to the nursing and medical professions. [39324]

Jane Kennedy: The Statens Serum Insitut (SSI) Tuberculin PPD (Purified Protein Derivative) used routinely in the Mantoux test is a prescription only medicine (POM) and unlicensed. Such products may only be prescribed by an appropriate practitioner, such as a doctor or extended formulary nurse prescriber (EFNP). EFNPs can prescribe, administer (and direct others to administer) licensed and unlicensed Tuberculin PPD (and BCG vaccine) as listed in schedule 3A of the Medicines Act, 1968.

This information was issued to the nursing and medical professions on 19 July 2005 and is available on the Department's website at:

http://www.doh.gov.uk/assetRoot/04/11/80/17/04118017.pdf

Skipton House Refit

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 24 November 2005, *Official Report*, column 2272W, on departmental assets, if she will break down the expenditure on the Skipton

House refit by category listed; and if she will make a statement on the purchase of computers in Quarry House. [33751]

Mr. Byrne: The breakdown of the expenditure on the Skipton House refit by category is shown in the following table.

£

	Net current replacement cost
General enhancement expenditure	3,504,096.00
Blinds	26,957.00
Carpets	24,165.00
Signage	19,857.00
Catering/servery equipment	75,183.00
Total net current replacement cost	3,650,258.00

Source:
The detail of the Skipton House refit asset was obtained from Strategy and Business Development, Group Business Team, Estate Services section of the Department, at Skipton House.

The Department's policy is to refresh personal computers (PCs) on a rolling basis and the PCs in Quarry House referenced in the reply on 24 November 2005, *Official Report*, column 2272W were included in a scheduled refresh programme. PCs are replaced when they are at least three years old and unable to meet the needs of the business.

Smallpox Vaccination

Mr. Lancaster: To ask the Secretary of State for Health what evidence she has collated on whether there is a relationship between smallpox vaccinations and ill health involving seizures. [39419]

Caroline Flint: Historical evidence of the possible adverse effects that can result from smallpox vaccination is summarised in Appendix 9 of the United Kingdom's 'Smallpox Plan (Guidelines for Smallpox Response and Management in the Post-eradication Era)' published in December 2003.

Recent evidence of adverse effects, including evidence of seizures, has been gathered from two studies of adverse effects in those people who received smallpox vaccination under government contingency planning arrangements in the United Kingdom and in the United States of America (USA). During the 2002–2004, the USA's smallpox vaccination programme, 665,000 people received smallpox vaccine and eight seizures were reported amongst those in receipt of vaccine. The full report of all adverse effects was published in the Journal of the American Medical Association in December 2005.

In the UK, in a study of 232 people vaccinated, there were no seizures reported. The full account of all side effects reported was published in the journal Vaccine in July 2005.

Tuberculosis

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 8 December 2005, *Official Report*, columns 1578–9W, on tuberculosis, what steps she is taking to ensure nurses are familiar with the need for a patient group direction to administer Mantoux-strength purified protein derivative. [39311]

Jane Kennedy: The Statens Serum Insitut (SSI) Tuberculin PPD (Purified Protein Derivative) used routinely in the Mantoux test is a prescription only medicine (POM) and unlicensed. Such products may only be prescribed by an appropriate practitioner, such as a doctor or extended formulary nurse prescriber (EFNP). EFNPs can prescribe, administer (and direct others to administer) licensed and unlicensed Tuberculin PPD (and BCG vaccine) as listed in Schedule 3A of the Medicines Act, 1968.

This information was issued to the nursing and medical professions on 19 July 2005 and is available on the Department's website at:

http://www.doh.gov.uk/assetRoot/04/11/80/17/04118017.pdf.

Waiting Times

Mr. Marsden: To ask the Secretary of State for Health what the *(a)* average and *(b)* target waiting times to see a (i) consultant psychiatrist and (ii) psychologist were in (A) Blackpool, (B) the North West and (C) England in each of the last five years for which figures are available. [37656]

Ms Rosie Winterton: The Department does not routinely collect information on waiting times for appointments with psychologists as waiting time targets apply to consultant-led services only.

The maximum waiting time for a first out-patient appointment with a psychiatry consultant is 17 weeks. From the end of 2005, the target will reduce to 13 weeks. The maximum waiting time for in-patient treatment under the care of a psychiatry consultant is nine months. From the end of 2005, the target will reduce to six months.

Information on the estimated average waiting time from general practitioner written referral to first out-patient appointment with a psychiatry consultant in Blackpool primary care trust (PCT), Cumbria and Lancashire strategic health authority (SHA) and England is shown in the following table. This information is not being captured at regional level. Therefore, such information for the North West is not available.

Estimated average waiting time from general practitioner written referral to first out-patient appointment, September 2001 to September 2005. Commissioner based

	Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)					
Quarter	*0<4*	*4<13*	*13<17*	*17<21*	*21 plus*	*Median wait*
Blackpool PCT						
September 2002	93	44	12	1	0	3.2
September 2003	89	49	4	5	0	3.3
September 2004	62	46	-0	1	0	3.5
September 2005	18	32	15	0	0	8.2

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)

Quarter	*0<4*	*4<13*	*13<26*	*26 plus*	*Median wait*
Cumbria and Lancashire SHA					
September 2001	683	533	139	34	4.2

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)

Quarter	0<4	4<13	13<17	17<21	21 plus	Median wait
September 2002	546	402	46	25	35	3.9
September 2003	547	700	43	29	0	5.5
September 2004	670	485	75	20	0	3.7
September 2005	105	91	27	3	0	4.8

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)

Quarter	0<4	4<13	13<26	26 plus	Median wait
England					
September 2001	14,590	11,443	2,067	579	3.9

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)

Quarter	0<4	4<13	13<17	17<21	21 plus	Median wait
September 2002	11,052	8,174	1,122	607	450	3.9
September 2003	12,204	9,562	695	261	13	3.7
September 2004	10,454	7,813	833	78	2	3.7
September 2005	4,170	2,174	1,064	38	0	3.6

Notes:
1. Due to small numbers, the calculation of the median wait is prone to fluctuation at PCT and SHA level.
2. Care should be taken when interpreting these figures.
3. Waiting times apply to consultant-led appointments only. Services in many areas are now run by multi-disciplinary teams.
4. PCTs came into existence from April 2002.

Department of Health form QM08R

Written Answers to Questions

Monday 16 January 2006

PRIME MINISTER

2012 Olympics

Hugh Robertson: To ask the Prime Minister (1) when the Cabinet Committee overseeing the London 2012 Olympics is next due to meet; who will attend; and what the agenda is; [41883]

(2) whether the minutes of the Cabinet Committee overseeing the London 2012 Olympics will be made public. [41887]

The Prime Minister: Information relating to internal meetings, discussion and advice and the proceedings of Cabinet and Cabinet Committees is generally not disclosed, as to do so could harm the frankness and candour of internal discussion.

Details of the membership and terms of reference of the Committee are available in the Libraries of both Houses and on the Cabinet Office website.

Defence Decisions (Military Officers)

Mr. Gordon Prentice: To ask the Prime Minister if he will make it his policy to allow the most senior serving military officers to express their views publicly on whether the country should go to war; and if he will make a statement. [41972]

The Prime Minister: The policy for serving military officers publicly expressing their views on matters of Government policy is set out in the Defence Council Instruction "Contact with the media and writing or speaking in public". This is available in the Libraries of the House and is reflected in each service's Queen's Regulations.

Downing Street Tours

Daniel Kawczynski: To ask the Prime Minister if he will invite a group of children from Shrewsbury with special needs to visit No. 10 Downing Street for a tour. [41559]

The Prime Minister: Hon. Members from all parties are invited on a rolling programme to nominate and accompany a small group of children from their constituencies to have tea at No.10 Downing Street. Hon. Members are invited to select, in a fair and open way, children and adults who have a particular interest in visiting No. 10 Downing Street. Since 1998 approximately 424 MPs have accepted invitations for children to come for tea.

EU Charter of Fundamental Rights

Michael Gove: To ask the Prime Minister what was agreed at the Warwick National Policy Forum in regard to the EU Charter of Fundamental Rights. [40960]

The Prime Minister: The National Policy Forum in Warwick was a Labour Party event.

Homeland Security

Mr. Bone: To ask the Prime Minister if he will take steps to establish a separate Department with responsibility for homeland security. [42469]

The Prime Minister: I refer the hon. Member to the answer I gave the right hon. and learned Member for Folkestone and Hythe (Mr. Howard), at Prime Minister's questions on 8 September 2004, *Official Report*, column 711.

Iraq

Mr. Gordon Prentice: To ask the Prime Minister what recent discussions he has had with General Sir Michael Rose concerning Iraq and the situation in the Middle East; and if he will make a statement. [41939]

The Prime Minister: None.

Little Haven Children's Hospice

Bob Spink: To ask the Prime Minister if he will visit Little Haven Children's Hospice in Castle Point to review the work of the hospice and its funding levels. [42219]

The Prime Minister: I have no current plans to do so. However, I appreciate and fully support the excellent work that children's hospices do for children and their families.

Terrorism Victims (Compensation)

Mr. Quentin Davies: To ask the Prime Minister whether he plans to establish a scheme to provide compensation to British citizens who are the victims of terrorist acts abroad; and if he will make a statement. [42178]

The Prime Minister: I refer the hon. Member to the answer I gave my hon. Friend the Member for Walsall, North (Mr. Winnick) at Prime Minister's Questions on 19 October 2005, *Official Report*, columns 838–39.

SOLICITOR-GENERAL

Crime Clear-up Rates

Mr. Andrew Turner: To ask the Solicitor-General pursuant to the answer of 9 January 2006, *Official Report*, column 1W, on crime clear-up rates, how many offenders went before the courts in each area listed in the table in each year between 2000 and 2005; how many *(a)* pleaded guilty and *(b)* were found guilty in each year; how many (i) cases and (ii) charges were discontinued by the Crown Prosecution Service in each year; and on how many occasions the Crown Prosecution Service dropped a charge in favour of a less serious charge. [42758]

The Solicitor-General: I have placed tables in the Library of the House that show the number of defendants whose case was completed in magistrates courts and in the Crown court, in each Crown Prosecution Service (CPS) Area, in each of the years in question; the number resulting in guilty plea; the

number found guilty after trial; the number whose case was discontinued; and, for completeness, the number resulting in other outcomes. The tables also express each outcome as a proportion of the total.

"Other outcomes" comprise cases in which the defendant was found not guilty after trial; cases discharged in the course of committal proceedings; and cases which could not proceed because the defendant could not be traced by the police, or had died, or been found unfit to plead.

The CPS reports case outcomes at defendant level, and holds no central information on the outcome of specific charges. This information is held on individual case files, and could be retrieved only by examining every file in each CPS office. It is therefore not possible to provide figures for the number of charges discontinued, nor on the number of occasions on which a charge was dropped in favour of a less serious charge.

Figures for 2005 are provisional, and may be subject to revision.

Departmental Expenditure

Mrs. Villiers: To ask the Solicitor-General how much was spent by the Law Officers on plants in each year since 1997. [41193]

The Solicitor-General: I am informed that the Revenue and Customs Prosecution Office and HM Crown Prosecution Service Inspectorate have not incurred costs on plants since 1997. The Legal Secretariat to the Law Officers spent £40 in 2005. The Crown Prosecution Service and Serious Fraud Office do incur expenditure on plants for its offices but no central records are kept of such expenditure specifically on plants. It would incur disproportionate cost to identify the figures.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Administration Costs

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs which functions of her core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last year. [39821]

Jim Knight: Public Expenditure Statistical Analyses (PESA) is published annually by HM Treasury. It includes various analyses of public expenditure including Country and Regional Analysis in chapter 8, the data for which are obtained from Departments each year as part of the Country and Regional Analysis exercise (CRA). Treasury does not, however, monitor country or regional administration costs separately. The information is available at the following address on Treasury's website:

http://www.hm-treasury.gov.uk/media/172/83/pesa2005_chapter8.pdf

Provisional 2004–05 departmental administration costs outturn are set out in Public Expenditure Outturn White Paper (CMD 6639), which is available in the Library.

Defra's Departmental Report 2005 (CMD 6537) gives an overview of Defra's activities over 2004–05, and includes some tables of expenditure on services by function, country and region. The information is available at the following address on Defra's website:

http://defraweb/corporate/deprep/default.htm

This report is also available in the Library, or can be obtained in hard copy from The Stationery Office (ISO), ISBN 0101653727.

Mr. MacNeil: To ask the Secretary of State for Environment, Food and Rural Affairs what the administrative costs were of each agency for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39849]

Jim Knight: Costs for each of the Defra executive agencies for 2004–05 are in their annual reports with accounts, copies of which are placed in the Library of the House. In the reports these are not further classified as "identifiable" or "non-identifiable", i.e. whether or not they benefit particular individuals, enterprises or communities within particular regions. Administrative costs for 2004–05 are set out in the following table.

£000

Agency	*Administrative costs for 2004–05*
Centre for Environment, Fisheries and Aquaculture Science (CEFAS)	37,300
Central Science Laboratory (CSL)	43,000
Pesticides Safety Directorate (PSD)	9,161
Rural Payments Agency (RPA)	249,208
Veterinary Laboratories Agency (VLA)	99,081
Veterinary Medicines Directorate (VMD)	8,304
Government Decontamination Service (CDS)	[1]—
Marine Fisheries Agency (MFA)	[1]—
State Veterinary Service (SVS)	[1]—
Total	446,054

[1] New agency in 2005—data not available.

Information on the precise apportionment of individual Defra executive agency administration costs to the "identifiable" and "non-identifiable" categories for the purpose of the Country and Regional Analyses exercise is available only at disproportionate cost.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs which functions of her core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39947]

Jim Knight: Provisional 2004–05 departmental administration costs outturn are set out in Public Expenditure Outturn White Paper (CMD 6639), which is available in the Library. The administration budgets regime Treasury oversees is for Whitehall Departments only. How running costs are controlled in the devolved Administrations is a matter for them.

Defra's Departmental Report 2005 (CMD 6537) gives an overview of Defra's activities over 2004–05, and includes some tables of expenditure on services by function, country and region. The information is available at the following address on Defra's website:

http://defraweb/corporate/deprep/default.htm

This report is also available in the Library, or can be obtained in hard copy from The Stationery Office (TSO), ISBN 0101653727.

Mr. Salmond: To ask the Secretary of State for Environment, Food and Rural Affairs what the administrative costs were of each non-departmental public body for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40058]

Jim Knight: Public Expenditure Statistical Analyses (PESA), which is published annually by HM Treasury, includes various analyses of public expenditure. However, non-departmental public bodies (NDPBs), apart from ACAS and HSE, are not covered by the Treasury's administration budgets regime.

Information on NDPBs' administrative costs is not collected centrally in Defra and could be provided only at disproportionate cost.

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the animal welfare units at Aston Down and Polwhele have been closed; and if she will make a statement. [41513]

Mr. Bradshaw: The Wildlife Units at Aston Down and Polwhele have not been closed. Staff are still working to conclude the final surveying element of the randomised badger culling trial (RBCT).

Decisions about the future of these units will be taken after the consultation on badger culling as a means of controlling bovine tuberculosis in cattle in England has ended. The cost benefit analysis which supports our consultation shows that state operated culling could lead to higher costs and slower delivery compared with other options. So our intention is to redeploy or release workers who have carried out cage trapping at the end of the RBCT. Remaining staff, who could be used to support any future culling policy, will be retained.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the operation of the Breeding of Dogs Acts 1973 and 1991; [42302]

(2) if she will make a statement on the operation of the Breeding and Sale of Dogs (Welfare) Act 1999; [42303]

(3) if she will make a statement on the operation of the Agriculture (Miscellaneous Provisions) Act 1968; [42305]

(4) if she will make a statement on the operation of the Animals (Cruel Poisons) Act 1962; [42307]

(5) if she will make a statement on the operation of the Animal Boarding Establishments Act 1963; [42308]

(6) if she will make a statement on the operation of the Riding Establishments Acts 1964 and 1970; [42309]

(7) if she will make a statement on the operation of the Protection of Animals (Amendment) Act 1954; [42310]

(8) if she will make a statement on the operation of the Abandonment of Animals Act 1960; [42312]

(9) if she will make a statement on the operation of the Docking and Nicking of Horses Act 1949; [42313]

(10) if she will make a statement on the operation of the Protection of Animals Act 1911; [42314]

(11) if she will make a statement on the operation of the Performing Animals (Regulation) Act 1925; [42315]

(12) if she will make a statement on the operation of the Protection of Animals Act 1934; [42316]

(13) if she will make a statement on the operation of the Pet Animals Act 1951; [42418]

(14) if she will make a statement on the operation of the Cockfighting Act 1952. [42419]

Mr. Bradshaw: We have looked at all these Acts as part of the review of animal welfare legislation that informed the drafting of the Animal Welfare Bill. While much of this legislation still provides valuable protection for animals there is scope, in some areas, for updating, simplifying and improvement.

Avian Influenza

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs how often rural workers are being kept informed of precautions to take with regard to the H5N1 influenza strain; and by what methods. [41681]

Mr. Bradshaw: Defra has distributed guidance materials on avian influenza to a range of industry groups, including the British Poultry Council, the British Egg Industry Council and the National Farmers Union and these stakeholders are helping to distribute information to their members. A simple one-page leaflet on biosecurity and surveillance for smaller businesses and back yard keepers has been produced as well. This has been widely circulated, including to all veterinary practices. The leaflet has also been placed in the trade and specialist press to help with targeting the same audience.

Specific guidance on worker protection has been issued by an industry and cross-departmental working group. This is also available on the avian influenza pages of the Defra website.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many wild birds have been tested for avian influenza in each of the last six months; whether each bird was *(a)* found dead, *(b)* shot and *(c)* trapped alive; whether each bird was (i) wildfowl and (ii) other species; in which country each was taken; and what the results were of the test on each. [42140]

Mr. Bradshaw: To date approximately 3,179 wild birds have been tested for avian influenza viruses as part of surveillance activities across the UK.

Of these 131 were found dead, 326 were shot as part of legal wildfowling activities and 2,722 were caught and sampled live. 239 were sampled in Scotland, 2,621 in England and Wales and 319 in Northern Ireland. 3,078 were wildfowl and 101 were other species

Two birds tested positive for low pathogenic avian influenza viruses. A mallard shot in Scotland tested positive for the subtype H6N2 and a shelduck that was caught live in England tested positive for the subtype H2.

All other results to date have been negative.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many poultry flocks have been registered under the Avian Influenza (Preventative Measures) (No 2) Regulations 2005. [42141]

Mr. Bradshaw: As of midnight on 10 January 2005, 1,677 eligible poultry premises have been registered on the GB poultry register under the Avian Influenza (Preventive Measures) (No 2) Regulations 2005 and the equivalent regulations for Scotland and Wales. All eligible premises are required to register by 28 February 2006.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to raise awareness among poultry keepers of the requirements of the Avian Influenza (Preventative Measures) (No 2) Regulations 2005. [42142]

Mr. Bradshaw: DEFRA has distributed guidance materials to a range of industry groups, including the British Poultry Council, the British Egg Industry Council and the National Farmers Union. These stakeholders are helping to distribute information to their members. We have also provided leaflets and posters to farmers and to many other people, including local veterinary surgeons and placed advertisements in poultry hobby magazines. Guidance is also available on the avian influenza pages of the DEFRA website.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications for the release of gamebirds during 2006 of an outbreak of avian influenza. [42143]

Mr. Bradshaw: Restrictions on the movement of poultry in the event of an outbreak are contained within the Diseases of Poultry Order 2003. Gamebirds fall within the definition of poultry within this order if they are reared or kept in captivity and there are no plans to treat gamebird activity any differently from the remainder of the poultry industry.

Gamebird shooting parties are allowed provided birds are not brought together for the shoot from different premises and the event organiser advises the local animal health office that the event is taking place.

The provisions of the Diseases of Poultry Order 2003 include the imposition of movement controls on suspicion of disease, and where disease is confirmed, the imposition of a protection zone and a surveillance zone around the infected premises by declaratory order. These measures would prohibit the release of gamebirds in those zones. The order also allows the elimination of the disease by slaughter of infected and contact animals.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what advice she has prepared for game farmers and gamekeepers regarding the release of game birds during 2006 in the event of an outbreak of avian influenza. [42061]

Mr. Bradshaw: Working closely with industry Defra has issued guidance for all bird keepers, including those involved with the release of game birds. A leaflet on improving biosecurity and surveillance has been circulated to smaller businesses. We have also placed information in the trade and specialist press and on the Defra website. An industry and cross-Department working group has issued specific guidance on worker protection.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to prepare for the isolation of free range poultry flocks in the event of an outbreak of avian influenza in the UK. [42062]

Mr. Bradshaw: As part of the Government's current programme to reduce the risks posed by avian influenza bird owners would be required, wherever practicable, to move their birds indoors as soon as possible if a case of highly pathogenic H5N1 avian influenza were found in Great Britain. In cases where housing is not practicable, the keeper will be required to take all reasonable measures to minimise contact with wild birds.

These requirements would be invoked as a precautionary measure to avoid spread of the disease while an outbreak is investigated. As information about the source and nature of any outbreak became available, the Government's strategy would be to lift or reduce the requirements as soon as appropriate.

Guidance on separating domestic poultry flocks from wild birds has been issued to a wide range of industry groups and bird keepers. We have also issued advice for poultry keepers on how to improve biosecurity.

We have also established the Great Britain Poultry Register to gather essential information about certain species of birds held on commercial premises in Great Britain. This will help reduce the impact of an outbreak of avian influenza by enabling rapid communication with keepers, and help in targeting resources where they are needed most.

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 November to question 27526, when she expects to present the outcome of the consideration to the House; in what form; and whether legislative changes are being considered. [30756]

Mr. Bradshaw: I assume the hon. Member means the answer to question 27525 regarding financial resources being made available to publicise the procedures that should be followed by local authorities who suspect the presence of avian influenza. I apologise for the delay in replying.

My officials are in regular contact with the Local Authorities Co-ordinators of Regulatory Services (LACORS), representing local authorities, who have produced a template for local authority contingency plans for animal disease control. Consideration of funding arrangements for local authorities for work following an outbreak of avian influenza is ongoing. It will not lead to a need for legislative changes.

Badgers

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons gassing has been ruled out as a method of culling badgers. [41551]

Mr. Bradshaw: Gassing has not been ruled out as a method of culling badgers. We are currently consulting on both the principle and method of a badger culling policy.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the compatibility with the Berne Convention of the practice of licensing individual farmers to cull badgers. [42255]

Mr. Bradshaw: We are currently consulting on both the principle and method of a badger culling policy. Any new culling policy would have to be sustainable and take account of legislation protecting the welfare of badgers. But no decisions have yet been made.

Badgers are listed as a protected species under Appendix III of the Berne Convention, but they are not an endangered species. The Berne Convention allows regulated management of a protected species as long as this is not

"detrimental to the survival of the population concerned".

Avian Quarantine

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of the quarantine system since the testing of the sentinel birds in the quarantine centre in Farmbridge. [42139]

Mr. Bradshaw: We are carefully considering the recommendations of the Independent Review of Avian Quarantine in close consultation with EU partners and stakeholders. We will implement any essential recommendations as quickly as possible, before imports of captive birds resume.

Bonfires

Mr. Iain Wright: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to reduce the frequency of bonfires in rural areas. [40405]

Mr. Bradshaw: Bonfires on domestic and business premises, including those in rural areas, are already regulated under the statutory nuisance provisions in sections 79 to 82 of the Environmental Protection Act 1990. This means that local authorities have a duty to investigate complaints of smoke from premises which are prejudicial to health or a nuisance, and if satisfied that a statutory nuisance exists an abatement notice must be served requiring the abatement of the nuisance or the restriction of its occurrence or recurrence. Failure to comply with the terms of an abatement notice will, upon summary conviction, result in a fine of up to £5,000 for domestic premises and £20,000 for business premises. In addition, Section 2 of the Clean Air Act 1993 prohibits emissions of dark smoke from industrial and trade premises, which can include agricultural and horticultural premises.

The Government are taking further steps to regulate bonfires. The proposed Waste Management (England and Wales) Regulations 2006 would stop the unregulated burning of waste from any mine, quarry or agricultural premises.

CAP Payments

Sir Paul Beresford: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of Common Agricultural Policy payments were allocated to small farmers in the UK in 2004–05. [40598]

Jim Knight: Taking the definition of a small farmer to be one who receives less than £10,000 in CAP aid per year, 58 per cent. of claimants in 2004–05 European agriculture guidance and guarantee fund year (16 October 2004 to 15 October 2005) could be described as small farmers and received 9 per cent. of the total aid paid.

Centre for Ecology and Hydrology

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Secretary of State for Trade and Industry regarding the proposed closure of the Natural Environment Research Council's Centre for Ecology and Hydrology at Monks Wood; and if she will make a statement. [39545]

Margaret Beckett *[holding answer 9 January 2006]:* The Department has had no discussions with the Secretary of State for Trade and Industry regarding the closure of the Natural Environment Research Council's Centre for Ecology and Hydrology at Monks Wood. The Centre for Ecology and Hydrology is a wholly-owned Research Centre of the Natural Environment Research Council which provides independent research and training in the environmental sciences. The future shape of the Centre for Ecology has been informed by a strategic review that involved extensive consultation with stakeholders including DEFRA.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely impact on environmental research of the proposed closure of the Centre for Ecology and Hydrology at Monks Wood; and if she will make a statement. [39546]

Margaret Beckett *[holding answer 9 January 2006]:* The Natural Environment Research Council (NERC) is currently consulting on a proposed restructuring of the Centre for Ecology and Hydrology (CEH). The proposals include the potential closure of the site at Monks Wood. The aim of the restructuring proposal is to ensure the long term sustainability of CEH which will

ensure continued capacity for environmental research in the UK into the future. NERC has confirmed that the scientific programmes for the restructured CEH will be:

Biodiversity

Water

Biogeochemistry

Climate Change

Sustainable Economics

Environmental Informatics

The proposed closure of specific sites does not imply that the research carried out at those sites will be discontinued.

Clean Neighbourhoods and Environment Act

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of sections *(a)* 3 to 9, *(b)* 10 to 14 and *(c)* 28 to 32 of the Clean Neighbourhoods and Environment Act 2005. [40995]

Mr. Bradshaw: Sections 3 to 9 deal with the nuisance to local residents caused by the sale and repair of vehicles on the road.

These sections:

Make it an offence to leave or cause to leave two or more vehicles on a road within 500 metres of each other where they are exposed for sale. The offence will not be committed if the sale is not for the purpose of a business of selling motor vehicles.

Make it an offence to carry out restricted works on a motor vehicle on a road. The offence is not committed if the works are legitimately needed due to a breakdown or are not for the purposes of a business. However, the business defence does not apply if the works give reasonable cause for annoyance to persons in the vicinity.

Allow for the issue of a £100 fixed penalty for the above offences.

Create an offence to give false information to a local authority officer.

Are enforceable by the local authority.

Interim guidance on these sections was issued to local authorities on 3 June 2005 and will be updated as part of the Act's full guidance issued in March 2006.

Sections 10–14 deal with the enforcement, removal, and disposal of abandoned vehicles and amend the Refuse Disposal Amenity Act 1978. These sections:

Allow for the issue of a £200 fixed penalty notice for the offence of abandonment.

Create an offence to give false information to a local authority officer.

Removes the requirement to give notice before removing a vehicle from occupied land where the land is on a 'road'. This will include roads running through housing estates.

Removes the requirement to give 24 hours notice before the removal of a vehicle that ought to be destroyed.

Allow for the immediate disposal of abandoned vehicles that do not display a valid tax disc and a registration plate.

Remove the requirement to wait for the expiration of a valid tax disc before disposal.

Gives the Government the power to issue statutory guidance that local authorities must have regard to when exercising their abandoned vehicle functions.

Are enforceable by the local authority.

Interim guidance on these sections was issued to local authorities on 18 October 2005 and will be updated as part of the Act's full guidance issued in March 2006.

Sections 28–30 make changes to fixed penalty notices for graffiti and flyposting, by amending section 43 of the Anti-social Behaviour Act 2003. This will allow local authorities to specify the level of penalty themselves within a range that will be set out by the Secretary of State in regulations. If they do not choose to specify their own level, a default amount of £75 will apply. It also widens the range of officers who will be able to issue fixed penalties for graffiti and fly-posting offences by enabling local authorities to authorise officers other than their own employees to issue them, as well as giving the power of issue to parish councils. A new section 43B will also be inserted into the 2003 Act, making it an offence for someone to fail to provide their name and address details when requested to do so by an authorised officer.

These sections will help encourage more effective enforcement by increasing the number of officers with the power to address minor acts of graffiti and fly-posting, and by giving local authorities flexibility in setting the penalties that will apply.

Section 31 of the Act will enable local authorities to require the removal of both graffiti and fly-posting where this is defacing street furniture and other relevant surfaces belonging to statutory undertakers. Currently this power is available for graffiti in 12 pilot authority areas under section 48 of the Anti-social Behaviour Act 2003. The 2005 Act extends these provisions so that 'defacement removal notices' will be available for dealing with fly-posting as well as graffiti, thus allowing more co-ordinated removal from affected surfaces.

Under the Act it is an offence for anyone to sell aerosol paint to anyone under the age of 16. From 1 July 2005, this provision has been supplemented by a requirement under section 32 which places a duty on local trading standards to carry out a review of underage sales once every 12 months and take enforcement action where necessary. Guidance for the operation of section 32 and for test purchasing aerosol paints can be found on the TOGETHER website (http://www.together.gov.uk/article.asp?aid=3435).

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects each section of the Clean Neighbourhoods and Environment Act 2005 to come into force. [40996]

Mr. Bradshaw: The current timetable for commencement is as follows:

Section	*Date to be commenced*	
1	Crime and disorder reduction strategies	To be confirmed
2	Gating orders	By spring 2006
3–5	Nuisance parking offences	7 June 2005
6–9	Nuisance Parking Offences: fixed penalty notices	Planned for 6 April 2006
10–14	Abandoned vehicles	18 October 2005

Section	Date to be commenced	
15–17	Illegally parked vehicles	18 October 2005
18	Offence of dropping litter	7 June 2005
19	Litter offence: fixed penalty notice	Planned for 6 April 2006
20–22	Litter and refuse—local authority notices	Planned for 6 April 2006
23	Free distribution of printed matter	Planned for 6 April 2006
24–26	Litter and refuse—general	Planned for 6 April 2006
27	"Litter"	7 June 2005
28–31	Graffiti and flyposting	Planned for 6 April 2006
32	Sale of aerosol paint to children	—
33	Unlawful display of advertisements: defences	7 June 2005
34	Removal of placards and posters	Planned for 6 April 2006
35	Unregistered transport: defence of acting under employer's instructions	7 June 2005
36	Registration requirements and conditions	7 June 2005
37	Transport of waste: enforcement powers	Planned for spring 2007
38–39	Failure to produce authority: fixed penalty notices	Planned for 6 April 2006
40	Defence of acting under employer's instructions	7 June 2005
41	Penalties on conviction	7 June 2005
42	Investigation and enforcement costs	18 October 2005
43	Clean up costs	18 October 2005
44	Forfeiture of vehicles	18 October 2005
45	Failure to furnish documentation: fixed penalty notices	Planned for 6 April 2006
46	Power to search and seize vehicles	Planned for spring 2007
47	Abolition of requirement to contract out waste disposal functions	18 October 2005
48–50	Local authority waste collection and disposal	Planned for 6 April 2006
51–52	Appropriate person and use of fixed penalty receipts	Planned for 6 April 2006
53	Supplementary enforcement powers	18 October 2005
54	Site waste management plans	7 June 2005
55–58	Dog control orders	Planned for 6 April 2006
59–62	Fixed penalty notices	Planned for 6 April 2006
63–65	Supplementary	Planned for 6 April 2006
66–67	General	Planned for 6 April 2006
68	Termination of police responsibility for stray dogs	Date still to be decided
69–76	Alarm notification areas	Planned for 6 April 2006
77–79	Powers in relation to alarms	Planned for 6 April 2006
80–81	Supplementary	Planned for 6 April 2006
82, 84, 85	Noise from premises	Planned for 6 April 2006
83	Noise offences: use of fixed penalty notices	7 June 2005
86	Deferral of duty to serve abatement notice	Planned for 6 April 2006
87–95	Commission for Architecture and the Built Environment	1 January 2006
96–98	Miscellaneous—use of fixed penalty receipts	Planned for 6 April 2006
99–100	Shopping and luggage trolleys	Planned for 6 April 2006
101–103	Statutory nuisances	Planned for 6 April 2006
104	Contaminated land: appeals against remediation notices	Planned for spring 2006
105	Offences relating to pollution etc: penalties on conviction	7 June 2005

Climate Change

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what data the Government have concerning changes in any international comparisons with similar or greater changes in rain and snowfall; and with changes in peak flows and flooding in river catchment areas in North West Europe or elsewhere; [39264]

(2) what data the Government holds concerning changes in the intensity of rain and snowfall measured by meteorological stations in the United Kingdom; what recent trends have been observed in such intensity; and whether there have been associated changes in *(a)* peak flows and *(b)* flooding in river catchment areas. [39242]

Mr. Morley: Defra has policy responsibility for flood risk management in England. The Met Office is a Trading Fund within the Ministry of Defence and one of the world's leading providers of environmental and weather-related services. The Environment Agency is a Non-Departmental Public Body of Defra and is the principal operating authority with responsibility for flood risk management in England.

I understand the Met Office has analysed data relating to changes in the intensity of rain in the UK and also data relating to changes in the intensity of rain in North West Europe and countries elsewhere in the world but has not specifically compared the changes in the UK with the changes in these other regions.

The Met Office has looked at trends in annual average precipitation intensity in the UK over the period 1961–2004. Their assessment is that precipitation intensity has increased since 1961 by 5–10 per cent. in most parts of the UK apart from north-west England. This increase is statistically significant for East Anglia, the Midlands, south-west England, and most of Scotland. Trends in snowfall intensity have not been specifically studied but there has been a decreasing trend in days of snow cover for all parts of the UK since 1981.

I understand from the Environment Agency that measurement of change in peak flows and flood risk over time is difficult and not helped by the brevity of historical records and large year-on-year variations in precipitation and peak river flows.

The Agency is collecting high-flow data to undertake the necessary analysis in future. Recent reviews of seasonal mean river flows do show some evidence of autumn and winter increases since the 1970s.

Coastal Access

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish new guidance on access to coastal countryside areas. [40691]

Jim Knight: We are talking to a range of interested parties to inform the development of detailed options for improving access to coastal land. We then plan to consult publicly in October 2006.

Coastal Erosion

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what her latest assessment is of the rate of coastal erosion. [38899]

Mr. Morley: Defra has overall policy responsibility for coastal erosion risk in England and grant aids local authority improvement projects to reduce this risk but does not build defences, nor direct the authorities on which specific projects to undertake. Management of coastal erosion risk and associated monitoring is the responsibility of the relevant local authority in each area.

Erosion risk will vary around the coastline depending on local conditions and defences in place. Defra has encouraged the relevant authorities to produce Shoreline Management Plans (SMPs) which provide large-scale assessments of the risks associated with coastal processes and present long term policy frameworks to manage these risks in a sustainable manner. In 2001 Defra funded a national study of information on long term coastal processes and evolution over the next century (Futurecoast). This is designed to be used by coastal authorities to inform their current revisions of SMPs.

The Office of Science and Technology's Foresight Future Flooding report, published in 2004, also considered possible rates of coastal erosion under different scenarios over the next 80 years.

Constituency Dispute (Leominster)

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps her Department is taking to investigate the dispute between Mr. Gilgan, Ms Quershi and Mrs. Booton, constituents of the hon. Member for Leominster; [41234]

(2) when she will reply to the letter of 5 December from the hon. Member for Leominster about the treatment of his constituents Ms Qureshi and Mrs. Booton by officials in her Department. [41190]

Mr. Bradshaw *[holding answer 12 January 2006]:* I apologise for the delay in replying to the hon. Member's letter, which deals with the dispute involving his constituents. I will reply shortly.

Departmental Property

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid by her Department in rates to each local authority in the UK in 2004–05; and what the total paid in *(a)* each (i) nation and (ii) region of the UK and *(b)* London was in that year. [35992]

Mr. Bradshaw: The amounts paid by the Department in rates in 2004–05 are summarised on spreadsheets by local authority, by nation and region of the UK and in London made available in the Library of the House.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committee on the Financial instrument for the Environment, *(b)* Committee for the application of the Regulation authorising voluntary participation by undertakings in the industrial sector in a Community eco-management and audit scheme and *(c)* Committee for the implementation of the Directive on the incineration of hazardous waste have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [39009]

Mr. Morley: During the UK presidency there was one meeting of the Committee on the Financial instrument for the Environment (the LIFE-Committee), which was held in July 2005 and was chaired by the European Commission. Two officials from the Department for Environment, Food and Rural Affairs (Defra) attended the meeting.

There was also one meeting of the Committee for the application of the Regulation allowing voluntary participation by organisations in a Community eco-management and audit scheme (EMAS). The European Commission presided over the meeting. The two UK representatives at the meeting were from Defra and the Institute of Environmental Management and Assessment, the UK competent body for EMAS.

No Committees were held during this period for the implementation of the Directive on the incineration of hazardous waste.

The devolved administrations are routinely asked to represent their views.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-Madagascar), *(b)* Standing Committee for implementation of the Directive on the marketing of biological products, *(c)* Committee on evaluation and control of the risks of existing products and *(d)* Committee for the adaptation to technical progress of the provisions on the removal of technical barriers to trade in the sector of dangerous substances and preparations have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39013]

(2) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-Comoros), *(b)* Fisheries Joint Committee (EEC-Côte d'Ivoire) and *(c)* Fisheries Joint Committee (EEC-Estonia) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39015]

(3) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-Gambia), *(b)* Fisheries Joint Committee (EEC-Greenland) and *(c)* Fisheries Joint Committee (EEC-Guinea) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39016]

(5) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-São Tome and Principe), *(b)* Fisheries Joint Committee (EEC-Senegal) and *(c)* Fisheries Joint Committee (EEC-Seychelles) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39018]

(4) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-Guinea Bissau), *(b)* Fisheries Joint Committee (EEC-Equatorial Guinea) and *(c)* Fisheries Joint Committee (EEC-Mauritius) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39017]

(6) how many meetings of the EU *(a)* Committee on supply of agricultural products to the population of the former Soviet Union, *(b)* Fisheries Joint Committee (EEC-Angola), *(c)* Fisheries Joint Committee (EEC-Argentina) and *(d)* Fisheries Joint Committee (EEC-Cape Verde) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement; [39019]

(7) how many meetings of the EU *(a)* Fisheries Joint Committee (EEC-Morocco), *(b)* Fisheries Joint Committee (EEC-Mauritania and *(c)* Fisheries Joint Committee (EC-Russia) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [39022]

Mr. Bradshaw: The UK did not attend any of the Joint Committees (except that for EU/Greenland) listed in these questions as we have no fishing interests in these waters. Records about these meetings are not held by my Department. The meeting of the EU/Greenland Joint Committee took place on 12 December 2005. The UK was represented by DEFRA officials. UK officials also attended negotiations of the EU/Morocco and EU/Senegal agreements during our presidency of the EU.

EU Packaging Directive

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the UK packaging business recovery and recycling targets for all materials were achieved in 2004; whether she expects the UK to meet EU packaging directive targets for 2008; and if she will make a statement. [40462]

Mr. Bradshaw: The UK met the glass, paper and wood interim business recycling targets in 2004, but narrowly missed the metals (by 0.1 per cent. each) and plastic (by 0.7 per cent.) targets.

The level of achievement attained in 2004 demonstrates that the UK is making good progress towards meeting the next packaging directive targets in 2008 and while the targets are challenging for the UK they are achievable.

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps she is taking to increase the collection of packaging waste from households to meet the EU packaging directive targets for 2008; [40463]

(2) whether *(a)* local authorities and *(b)* producers are responsible for the collection and recovery of packaging within household waste. [40468]

Mr. Bradshaw: Local authorities have a duty to collect any household waste and to meet individual Statutory Performance Standards for recycling and composting of household waste. Each authority is free to choose the range of materials it collects to meet its target.

In addition, the Household Waste Recycling Act 2003 requires waste collection authorities-subject to certain exemptions-to provide a kerbside collection service of at least two recyclable materials by 2010.

However, the Department has also put in place the Producer Responsibility Obligations (Packaging Waste) Regulations 2005, "the Packaging Regulations" which place obligations on businesses to recover and recycle packaging waste. As the packaging waste recycling targets, set in the regulations, increase between now and 2008 it is expected that producers will have to ensure that more packaging waste is extracted from the household waste stream for recycling. Producers will therefore need to work with local authorities e.g. through their packaging compliance schemes and/or accredited reprocessors/exporters, to ensure that packaging materials can be collected by local authorities for recycling, e.g. by co-financing such collections. This is particularly so where producers' needs extend beyond the local authorities' own recycling obligations.

Fisheries

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what action she expects the Agriculture and Fisheries Council will take at the meeting on 19 December to support the European

Commission's proposed emergency measures to close the deep water gill net fishery off the west coast of Scotland. [38660]

Mr. Bradshaw: The Agriculture and Fisheries Council agreed to ban the use of fixed netting in deep waters to the west of the British Isles in 2006 with effect from 1 February. The Council also agreed on the need to improve knowledge of the effects of these fisheries and agree that measures to regulate these fisheries should be considered in the light of further scientific advice from the Commission's Scientific, Technical and Economic Committee for Fisheries.

Fixed Penalty Notices

David Davis: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalty notices have been issued for *(a)* graffiti, *(b)* fly-posting and *(c)* dog fouling in each of the last four years. [42154]

Mr. Bradshaw: The power to issue fixed penalties for both graffiti and fly-posting offences commenced in April 2004.

	Graffiti	*Fly-posting*	*Dog fouling*
2001–02	—	—	2,461
2002–03	—	—	2,036
2003–04	—	—	2,742
2004–05	19	57	2,329

Home Inspection Packs (Contaminated Land)

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library a copy of the note produced by her Department's Contaminated Land branch on the Council of Property Search Organisations' proposals for a contaminated land report to be included in home inspection packs. [39501]

Mr. Bradshaw: I refer the hon. Member to the answer given on 19 December 2005, *Official Report*, column 2380W.

Fly-tipping

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* incidents of fly-tipping were reported and *(b)* prosecutions were made as a result in (i) the Ruislip-Northwood constituency and (ii) the London borough of Hillingdon in each year since 1997; and if she will make a statement. [41827]

Mr. Bradshaw: Defra has worked with the Environment Agency to establish Flycapture, the national database on fly-tipping, which has been operational since April 2004. No national data were previously available on illegal waste disposal or fly-tipping.

Flycapture collects data at local authority level only. The data are probably also an underestimate and are likely to increase as local authorities improve their collection and reporting of the data.

The London borough of Hillingdon and the Environment Agency have reported the following data to Flycapture:

Number of incidents	*London borough of Hillingdon*	*Environment agency*
April 2004 to March 2005	[1]2,128	11
April 2005 to November 2005	[2]1,673	4
Number of prosecutions[3]		
April 2004 to March 2005	11	2
April 2005 to March 2006	[4]6	[4]2

[1] Average 177 per month.
[2] Average 209 per month.
[3] Data are incomplete.
[4] To date.

Greenhouse Gases

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what measures the UK Government have proposed to help developing countries to reduce greenhouse gas emissions. [39728]

Mr. Morley *[holding answer 10 January 2006]:* The United Kingdom Government has proposed to help developing countries to reduce emissions through a number of different activities. Highlights so far include:

Consolidated support for the Renewable Energy and Energy Efficiency Partnership (REEEP). Defra will be providing a further £2.5 million pounds per year in 2006–07 and 2007–08. In addition, the FCO will be providing funding of £1 million in 2006–07 and 2007–08 giving a total of £6 million from the UK over the coming two years.

Dialogues with Latin America and China on low carbon investment strategies are under way.

The UK is at the fore of the EU-China Partnership on Climate Change and is leading the near-Zero Emissions Coal (nZEC) project with China. The nZEC proposal was announced at the EU-China Summit on 5 September.

The nZEC project aims to demonstrate coal-fired power generation with carbon capture and storage technology in China by 2020. The technology has the potential to reduce carbon dioxide emissions by some 90 per cent. This is in recognition that carbon dioxide emissions from China's increasing coal use are set to double by 2030.

We have just signed an agreement with the Chinese Government to take this work forward (21 December 2005). The signing of the UK-China MoU is a significant milestone under the EU-China Partnership on Climate Change and a high profile achievement for the UK's Presidency of the EU.

The UK actively promotes use of the Clean Development Mechanisms (COM) and COM related investments:

The UK in its capacity of Presidency of the EU negotiated a package of measures for strengthened COM in Montreal; these include significant institutional and financial measures to improve the transparency and efficiency of the approval process. In particular following COP11 and COP/MOP1 some $8.8 million in additional funding has been agreed for administrative expenses of the Clean Development Mechanism (COM) in 2006—more this year than in the previous four years of operation. The UK is a major contributor, and will contribute $740,000 this coming year.

The United Kingdom is also at the fore of the EU-India Initiative on Clean Development and Climate Change, with the aim of promoting cleaner technologies and their use.

During the early part of 2006 we are aiming to agree the Terms of Reference for the Technology Development and Transfer Study and we are hopeful that my right hon. Friend, the Secretary of State, may be able to formally launch the project on her visit in March.

Elsewhere, the UK supports research, which will help developing countries deal with climate change. Current research includes an assessment of how to improve climate modelling and monitoring for Africa, and two separate investigations into the impacts of climate change on Chinese and Indian agriculture.

Illegal Trade (Wildlife)

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs (1) with which internet service providers the National Wildlife Crime Intelligence Unit has held discussions on the illegal trade in wildlife; when these discussions took place; and what assessment she has made of the steps taken by internet service providers to combat such trades; [40745]

(2) which internet service providers have made commitments to the National Wildlife Crime Intelligence Unit to combat the illegal trade in endangered species; [41139]

(3) what commitment the National Wildlife Crime Intelligence Unit has received from e-Bay about combating the illegal trade in endangered species on its website. [41140]

Jim Knight: Details of the relationships between the National Wildlife Crime Intelligence Unit and internet service providers (including individual websites such as e-Bay) are confidential and I am unable to provide any detailed information. I agree with the hon. Member that this is an important issue. But discussions are taking place, and progress is being made.

Live Animal Exports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the *(a)* National Farmers Union, *(b)* Farmers Union of Wales and *(c)* National Sheep Association on re-started live exports of sheep and cattle. [41512]

Mr. Bradshaw: Defra Ministers have had a number of discussions with various organisations on this subject.

Nappies

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the environmental effects of disposing of disposable nappies in landfill. [39555]

Mr. Bradshaw: The Environment Agency's recently published 'Life Cycle Assessment' has helped to provide an understanding of the environmental impact of disposables and the traditional type of re-usable nappy. The main conclusion of the study is that the overall environmental impact of disposable and reusable nappies is similar.

From a waste management perspective, Government's view is that a reduction in the use of disposable nappies is one of many ways, which will help the UK to meet tough EU landfill directive targets.

Open Country

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs when she plans to amend the definition of open country in section 1(2) of the Countryside and Rights of Way Act 2000 to include coastal land. [42539]

Jim Knight: We are aiming for public consultation on this issue in October 2006.

Pet Fairs

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to ban pet fairs. [40732]

Mr. Bradshaw: We have been in contact with interested parties, both for and against the banning of pet fairs, in order to prepare proposals in relation to these events. We have now had an opportunity to consider the responses to this first consultation and our proposal to license pet fairs is detailed in a Regulatory Impact Assessment which DEFRA published alongside the Animal Welfare Bill. We also intend to undertake a wider public consultation before any legislation in this area is finally introduced.

Piers and Harbour Order (Bembridge Harbour) Confirmation Act 1963

Mr. Andrew Turner: To ask the Secretary of State for Environment, Food and Rural Affairs what decisions have been *(a)* sought and *(b)* obtained from her Department and its predecessors since 1997 under the Piers and Harbour Order (Bembridge Harbour) Confirmation Act 1963. [40459]

Mr. Bradshaw *[holding answer 9 January 2006]:* As the reply given by my hon. Friend the Minster of State for the Department of Transport on 19 December 2005, *Official Report*, column 2315W, explained, responsibility for granting consents under various local harbours legislation where the approval of the Secretary of State is required, was transferred to this Department with effect from 1 October 2004.

The Department's Marine Consents and Environment Unit has no record of any application for consent, or of any approvals being given, under the Piers and Harbour Order (Bembridge Harbour) Confirmation Act 1963 since that date.

Racehorses

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has held with *(a)* animal welfare organisations, *(b)* the Jockey Club and *(c)* others, about the whipping of racehorses. [40733]

Mr. Bradshaw: The Department has not held any recent discussions with animal welfare organisations, the Jockey Club or others about the whipping of racehorses.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what studies she has *(a)* commissioned and *(b)* evaluated on the animal welfare implications of the whipping of racehorses; and if she will make a statement. [40734]

Mr. Bradshaw: The Department has not evaluated or commissioned any studies on the animal welfare implications of the whipping of racehorses.

Any person or organisation may initiate proceedings under the Protection of Animals Act 1911, where there is reason to believe that unnecessary suffering has been caused to a racehorse.

Ragwort Control Act

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of the Ragwort Control Act 2003. [40998]

Jim Knight: The central part of the Ragwort Control Act is the publication of a code of practice on how to prevent the spread of ragwort. The code was published in July 2004 and provides comprehensive guidance on how to develop a cost-effective and strategic approach to weed control. It includes advice on the identification of Common Ragwort, risk assessment and priorities for control, the suitability and efficacy of control methods, environmental considerations and health and safety issues. The code of practice aims to reduce the risk of ragwort poisoning in horses and other livestock. It has been made widely available to individual land managers and also land owning institutions, such as local authorities.

The code of practice provides a yardstick against which compliance with an enforcement notice served under the Weeds Act 1959 can be measured. Together with Defra's revised procedures for investigating complaints about injurious weeds, the code of practice has enable Defra to make better use of the statutory measures available under the Weeds Act. In 2005, 69 enforcement notices were issued. Prior to the introduction of the code and the revised procedures, enforcement notices were rarely issued, if ever.

Sustainable Development

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to ensure maximum recycling of *(a)* Christmas wrapping paper and *(b)* Christmas trees. [41540]

Mr. Bradshaw: Support for local authorities who wish to run a Christmas recycling scheme is provided through the Waste and Resources Action programme's (WRAP) 'Recycle Now' campaign, funded by Defra. The support includes the use of artwork, advertising templates and PR materials.

The WRAP website also provides advice to members of the public on how to reduce/recycle waste, including cards, wrapping paper, trees and food, arising from Christmas.

Tuberculosis Test

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what appeal procedures are in place against the results of the tuberculosis test when a vet makes an error in administering the test. [R] [41181]

Mr. Bradshaw: Testing, techniques and methods of interpretation are tightly prescribed in EU law. To prevent errors, rigorous training procedures are in place for those authorised to carry out bovine tuberculosis testing work. Any errors in administering the test would be dealt with on a case by case basis.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances her Department would not approve the use of a private tuberculin test; and in how many cases the use of such a test has been refused in the last two years. [41231]

Mr. Bradshaw: In the case of statutory tuberculin testing of cattle, any request to release tuberculin for a further private test will always be declined by the Department. Approval for private tests is generally granted in the context of a test for purchaser assurance, or as a condition for cattle export in herds not subjected to tuberculosis restrictions.

Information on the number of applications for private tests rejected by the state veterinary service is not held by the Department.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to introduce polymerase chain reaction testing to reinforce the tuberculosis test in cases where reactors are found. [41233]

Mr. Bradshaw: We are continuing to fund projects at the Veterinary Laboratories Agency to develop methods (including polymerase chain reaction-PCR) for detecting *Mycobacterium bovis* in clinical samples. PCR methods potentially offer extra flexibility and speed in confirming *M. Bovis* in post-mortem cattle samples. So far, however, PCR has not shown itself to be superior in terms of sensitivity, specificity or overall reliability to conventional culture.

At present it is unrealistic to consider PCR methods as a viable alternative to the existing primary surveillance tool for TB in live cattle (i.e. the tuberculin skin test) or to other ancillary ante-mortem tests that are used when skin test reactors are found.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons her Department does not use the gamma interferon test to support tuberculosis tests. [41235]

Mr. Bradshaw: The use of the tuberculin skin test and the gamma interferon blood test in parallel has the potential to significantly increase the detection of infected cattle in herds where TB has been confirmed. Defra does use the gamma interferon test in identified problem TB herds at a rate of about 6,000 animal tests a year. EU legislation allows the blood test only to be used to supplement the skin test.

Preparations are now being made for wider use of the gamma interferon test, in prescribed circumstances. A working group has been established to prepare and deliver a policy for increased use of the test.

Waste Management

Ms Gisela Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs if she will exclude tallow from the waste incineration directive. [41304]

Mr. Bradshaw: If the tallow concerned is waste as defined by the waste framework directive, it does not lie within the competence of any member state of the European Union unilaterally to exclude its incineration or co-incineration from the scope of the waste incineration directive.

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the merits of household charges for waste collection as a method of increasing participation in recycling. [40465]

Mr. Bradshaw: The Department's work on variable household charging and household incentives for waste recycling and reduction is based on the body of existing, publicly available, research, supplemented by investigation into specific examples of such activity and by specially commissioned research and pilot schemes on household incentives in England.

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she will be taking to ensure *(a)* packaging producers and *(b)* compliance schemes contribute appropriately to meeting UK packaging waste recycling targets each year. [40469]

Mr. Bradshaw: Packaging producers already have legal obligations under the Producer Responsibility Obligations (Packaging Waste) Regulations 2005 to recover and recycle specified tonnages of packaging waste each year based on the amount of packaging that goes through their business. A producer will be committing an offence if he fails to discharge his obligations under these regulations. However, producers may join compliance schemes, which take on the producers' legal obligations to recover and recycle packaging waste.

Water Consumption

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what the changes have been in water consumption since 1980, broken down by sewerage company service areas. [38972]

Mr. Morley: The earliest figures we hold for average household water consumption are for 1995–96. The following table shows water company estimates of average daily household consumption in litres per head per day for 1995–96 and 2004–05. Further details are contained in the Ofwat 'Security of supply, leakage and the efficient use of water' report, a copy of which is in the Library of the House.

	1995–96	*2004–05*
Anglian	152	143
Bournemouth and West Hants	178	167
Bristol	160	153
Cambridge	152	148

Whaling (Japan)

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to ensure that Japan is aware of the UK's views on its increased scientific whaling within the Southern Ocean Whale Sanctuary; and if she will make a statement. [41470]

Mr. Bradshaw: The UK Government, in common with those of a majority of International Whaling Commission (IWC) members, has regularly criticised Japanese scientific whaling programmes in both the North Pacific (JARPN) and the Southern Ocean (JARPA) as being of little scientific value and urged Japan to terminate them forthwith.

Prior to last year's annual meeting of the IWC (IWC57), the UK participated in an Australian led demarche of 18 countries objecting to Japan's proposed expansion of JARPA. This drew attention to a draft IWC Resolution Proposed by Australia and co-sponsored by the UK, which was subsequently adopted during IWC57; this resolution urges the Government of Japan to revise its JARPA II scientific whaling programme so that any information needed to meet scientific objectives is obtained using non-lethal means.

I issued a press notice on 11 November urging Japan not to proceed with their JARPA II programme. The statement condemned the Japanese plans in the Antarctic stating that

"Japan is flying in the face of world opinion"

and that

"This slaughter has little or no basis in science".

Later this month the UK and a number of other countries will take high level diplomatic action in Tokyo protesting in the strongest possible terms our objection to the continuation of their whaling activities.

Wildlife Rescue Centres

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what support her Department makes available to wildlife rescue centres. [41516]

Jim Knight: Defra does not fund individual wildlife rescue centres.

HOUSE OF COMMONS COMMISSION

Archiving

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) if the Commission will take steps to establish a searchable archive on the parliamentary *(a)* intranet and *(b)* internet of the (i) meetings of (A) Standing Committees and (B) Select Committees and (ii) Sittings of the House that were webcast in each of the last three sessions of Parliament; and if he will make a statement; [41732]

(2) if he will list the meetings of *(a)* standing and *(b)* Select Committees that were webcast in the last session of Parliament for which information is available. [41766]

Nick Harvey: Since January 2004 the webcasting service has provided audio-coverage of all Select and Standing Committee meetings which are not televised but which are being held in public, as well as of televised meetings. Ignoring the period between the general election and the summer recess, an average of 26 Commons Committees, five Lords Committees and two Joint Committees have been webcast each week in the current session. Of these, an average of 10 Commons Committees and one Lords Committee are webcast as "television"; the rest are webcast as audio. A full list could be compiled only at disproportionate expense.

www.parliamentlive.tv offers an online, on-demand searchable archive of coverage of all meetings which have been "webcast" over the internet and intranet for two weeks following transmission. Webcast committee coverage which has been televised is then held by the Parliamentary Recording Unit indefinitely and can be made available on request in a number of modern formats, including online. The business case currently being prepared for a radical redesign of the parliamentary website will include options for improvements to the accessibility of audio and video material.

E-mail

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) what restrictions apply to *(a)* individuals and *(b)* pressure groups and other organisations e-mailing hon. Members at their parliamentary e-mail accounts; and if he will make a statement; [41638]

(2) whether the Privacy and Electronic Communications (EC Directive) Regulations 2003 (SI 2426) will apply to pressure groups wishing to e-mail all hon. Members at their parliamentary e-mail accounts; and if he will make a statement. [41639]

Nick Harvey: PICT delete all known "SPAM e-mail" from incoming messages and known "scams" directed at Members. No attempt is made to filter e-mail beyond this. Members can make local arrangements to identify and block known senders of unwanted e-mail on an individual basis.

The Privacy and Electronic Communications (EC Directive) Regulations 2003 prohibit use of unsolicited electronic mail for the purposes of direct marketing, except when it is with the recipient's consent. The remedies for those in receipt of such electronic mail are set out in the regulations.

Medical Facilities

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission what medical facilities are available in the Palace of Westminster for *(a)* hon. Members' staff, *(b)* hon. Members and *(c)* visitors to the Palace; and if he will make a statement. [41733]

Nick Harvey: Within the Palace of Westminster itself, a practice nurse is available from 9 am to 5 pm at the medical suite located in the lower waiting hall, offering health advice and a minor treatment service. These services are available to all passholders. The practice nurse also assists with medical emergencies and cases of ill health whether they involve passholders or visitors to the Palace.

There are approximately 180 qualified first aiders across the parliamentary estate (including security personnel and staff from both Houses), of whom around 80 are trained defibrillator operators. Appropriately trained staff have access to an Epipen for emergency use in cases of anaphylactic shock.

The parliamentary Occupational Health, Safety and Welfare Service (OHSWS) offers a range of services, including medical screening for Members. Further details can be found on the parliamentary intranet at http://dfaweb.parliament.uk/members/medservs/medical.htm.Information, brochures and leaflets are available from OHSWS and information packs were distributed to all Members and Peers following the 2005 summer recess.

Parliamentary Book Shop

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission whether it is possible for members of the public to order non-parliamentary publications from the Parliamentary Book Shop; and if he will make a statement. [41765]

Nick Harvey: Non-parliamentary publications published by the official publisher, The Stationery Office Limited, are available for sale from the Parliamentary Bookshop, or can be ordered if not in stock. But those documents classified as non-parliamentary publications which are items available free of charge from originating Government Departments and agencies or solely via download from their websites are not sold in the Parliamentary Bookshop.

Parliamentary Information Management System

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will make a statement on the progress of the Parliamentary Information Management System project. [41734]

Nick Harvey: The PIMS project's aims were to provide easy access to parliamentary information for all users of the parliamentary intranet, by creating a new infrastructure for the storage, search, retrieval and management of parliamentary information held in the two Libraries. This would replace and extend the POLIS databases that had been used by the two Libraries for over 20 years, and provide a platform on which the services available to Members of both Houses of Parliament and the public might be developed further.

The first services went live in December 2004 supporting Commons Library inquiry handling. The main services came on stream in April 2005 with facilities for search and retrieval of material and content management. There were some initial difficulties with maintaining the currency of information in the system, and a programme of technical changes designed to improve performance was put in place and completed in November 2005. Further enhancements are to be made over the next few months before the project concludes in the spring of 2006.

A separate project is also under way to develop the parliamentary intranet building on the PIMS technology infrastructure. In addition, a business case is being prepared for a radical redesign of the Parliament website.

Postage Costs

Sarah Teather: To ask the hon. Member for North Devon, representing the House of Commons Commission how many hon. Members have had to pay back postage costs to the House in each of the last five years. [41161]

Nick Harvey: It is not possible to separate the figures for postage and stationery, as repayments may cover both. The number of Members repaying the House, either on their own initiative or following a request from the House authorities, for the use of either stationery or postage in each of the past four years for which there are reliable records is as follows:

	Number of Members
2002	29
2003	30
2004	34
2005	34

Strategic Plan

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) when the Strategic Plan for the House of Commons Administration was last updated; and if he will make a statement; [41735]

(2) if he will make a statement on the progress of each of the four core tasks set out on page 61 of HC 65; what discussions he has had with stakeholders about implementation of each of the four core tasks; and if he will make a statement; [41763]

(3) what discussions he has had with stakeholders about implementation of Objective *(a)* 1, *(b)* 2 and *(c)* 3 in the Corporate Business Plan; and if he will make a statement. [41767]

Nick Harvey: A new outline Strategic Plan, covering the period 2006 to 2011 was agreed by the Commission in July 2005. The text is available via the Commission's intranet and internet pages. This new plan confirms that the primary purpose of the House Service is to enable the House and its Members to perform their parliamentary duties effectively. Beyond this it has a duty to promote public understanding of Parliament's work and role through the provision of information and access. The plan also sets out six priority areas for the period 2006 to 2011: accommodation and works, human resources, information for the public, information management and ICT, planning and management and security. For each of these areas the board of management has developed a detailed statement of its aims for the planning period. These have been incorporated in the 2006 Corporate Business Plan.

The previous strategic plan identified four on-going core tasks and eight developmental objectives for the period covered by the plan: 2001–02 to 2005–06. Pages 15–48 of the 2004–05 Commission Annual Report [HC65 2005–06] provide a description of performance against each of the core tasks. A further statement on performance will be provided in the 2005–06 Annual Report. The views of Members and other stakeholders on the implementation of elements of both the core tasks and the development objectives have been expressed in a number of ways, including reports and advice from the Administration Committee and its predecessors in the last Parliament and the Modernisation Committee, and the 2003 Survey of Services. It is anticipated that a further survey of services will be conducted during the current Parliament.

Furthermore, there have been three hour debates in Westminster Hall on each of the two most recent annual reports, in December 2004 and November 2005, and the Commission hopes that this pattern of annual debate will continue.

Vote Bundle

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission how *(a)* members of the public and *(b)* public libraries may purchase the vote bundle; and if he will make a statement. [41764]

Nick Harvey: Members of the public and public libraries may purchase the vote bundle from the official distributor of parliamentary and Government publications, The Stationery Office Ltd., or from the Parliamentary Bookshop. Public libraries qualify for a subsidy on their purchases under the Government's public library access scheme.

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission what the retail cost of the vote bundle is per printed page; and what the retail cost per page was in *(a)* 1997, *(b)* 2001 and *(c)* 2004. [41768]

Nick Harvey: The current retail cost of the vote bundle per printed page is 18p and has been held at that price since before 1997.

DEFENCE

Afghanistan

Mr. Scott: To ask the Secretary of State for Defence if he will make a statement on his plans for the deployment of additional British troops to Afghanistan. [38663]

Mr. Ingram: I refer the hon. Member to the statement I made on 14 November 2005, *Official Report*, column 41WS.

A statement will be made to the House should the United Kingdom decide to commit additional forces to the international security assistance force (ISAF) in 2006.

Armed MOD Police

Mr. Hancock: To ask the Secretary of State for Defence if he will set out the *(a)* training programme and *(b)* rules of engagement for armed MOD police who guard (i) Aldermaston, (ii) Faslane and (iii) other UK departmental sites; and if he will make a statement. [40735]

Mr. Touhig: The training programme for all Ministry of Defence police (MDP) firearms officers follows the National Police Firearms Training Curriculum that was introduced in February 2004. The curriculum identifies the training that should be delivered to firearms officers and was introduced by the code of practice on 'Police Use of Firearms and Less Lethal Weapons'. Officers in Nuclear Guarding roles receive additional training to meet the requirements of the Ministry of Defence Joint service Publication 440 'Defence Manual of Security'.

MDP do not operate under 'Rules of Engagement' but are governed by the law relating to the use of force, as are all other UK police forces. The law is contained within:

Section 3 Criminal Law Act 1967 and Section 3 Criminal Law Act (Northern Ireland) 1967

Section 117 Police and Criminal Evidence Act 1984 and Article 88 Police and Criminal Evidence (Northern Ireland) Order 1989

Common Law

Human Rights Act, 1998

The four types of legislation listed apply to MOD police who guard Aldermaston, Faslane and other UK departmental sites.

British Base, Cyprus

Mr. David Hamilton: To ask the Secretary of State for Defence how many British service men and women are stationed in Cyprus. [42450]

Mr. Ingram: I refer my hon. Friend to Tri Service Publication 6, Global Location of UK Regular Forces (TSP 6). This shows that as at 1 October 2005, there were 3,090 UK Regular Service Personnel posted to Cyprus.

Copies of TSP 6 are held in the Library of the House and also available on www.dasa.mod.uk

Civilian Detainees

Mr. Austin Mitchell: To ask the Secretary of State for Defence how many British civilian detainees of the Japanese did not receive the compensation because they had no blood link with the UK; and what estimate he has made of the cost of including them in the scheme. [41143]

Mr. Touhig: Until the Ministry of Defence has completed the review that I outlined in my statement to the House on 12 December 2005, *Official Report*, columns 1119–28) I am unable to provide this information. I hope to make a further statement, on the outcome of the review, in February.

Courts Martial

Mr. Mullin: To ask the Secretary of State for Defence pursuant to the answer of 24 November 2005, *Official Report*, column 2202W, on courts martial, what role Private Gary Bartlam's commanding officer played in the process that led to the reduction of Private Bartlam's statement. [40438]

Mr. Ingram: The decision to reduce Private Bartlam's sentence was made by the Army Reviewing Authority and the Court Martial Appeal Court in the High Court. The commanding officer played no part in this process.

Decorations/Payments

Mr. Dismore: To ask the Secretary of State for Defence how many Hendon residents are *(a)* eligible for and *(b)* have received (i) the Veterans' Badge, (ii) the Suez Campaign Clasp, (iii) the Arctic Convoy Badge and (iv) ex-gratia payments as former Far East Prisoners of War and Civilian Internees; and if he will make a statement. [41221]

Mr. Touhig: We do not have the information required to establish how many residents of Hendon might fulfil the eligibility criteria for the Armed Forces Veterans' Badge, the General Service Medal Suez Canal Zone Clasp, the Arctic Convoy Emblem and ex-gratia payments as former Far East Prisoners of War or Civilian Internees.

The veterans' badge scheme was launched in May 2004 and since April 2005 11 residents from Hendon have applied for and received the badge. There are no accurate records of geographicel issue available before April 2005.

The first General Service Medal Suez Canal Zone Clasp was issued around October 2003 and it is estimated that some 42,250 had been issued by 30 December 2005. Records are not maintained of the geographical issue of these clasps.

Production and issue of the Arctic Convoy Emblem has not yet started.

The Veterans Agency has received four claims from Hendon residents for an ex-gratia payment under the scheme for former Far East Prisoners of War and Civilian Internees. Two claims have been paid and two rejected.

Departmental IT Equipment

Mrs. Villiers: To ask the Secretary of State for Defence how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41269]

Mr. Touhig: Information on the number and cost of laptop computers bought in each year since 1997 is not held centrally and could be provided only at disproportionate cost.

Information relating to the number and cost of mobile telephones is only available from 1999:

£ million

	Number	*Spend (ex VAT)*
1999	6,656	2.64
2000	8,964	2.66
2001	10,958	2.37
2002	13,808	3.40
2003	17,084	3.96
2004	22,029	3.98
2005	24,800	4.74

There are a small number of local agreements in place for which information is not available.

Illegal Drugs (RN Seizures)

Mr. Hollobone: To ask the Secretary of State for Defence pursuant to the answer of 7 November 2005, *Official Report*, column 557, on illegal drugs (RN seizures), when he expects to be able to supply the remaining information. [41885]

Mr. Ingram: Most of the hurricane damage at the Joint Inter Agency Task Force South (JIATFS) in Key West, Florida, has now been repaired and I expect to be able to provide as much further information as is held by the JIATFS to the hon. Member by the end of this month.

Lieutenant-Colonel Blair Mayne

Mr. Burns: To ask the Secretary of State for Defence if he will award a posthumous Victoria Cross to Lieutenant-Colonel Blair Mayne; and if he will make a statement. [41550]

Mr. Touhig: In 1946 the Government reviewed all actions and campaigns that took place during world war two and decided that after this date no further awards would be made. This remains the case to this day, and it would be impossible to second guess the decisions made by military commanders at the time. For that reason it is not possible to make a posthumous award of the Victoria Cross to Lieutenant-Colonel Blair Mayne.

None of this lessens our appreciation for Lieutenant-Colonel Mayne's actions at the time, which were recognised with the award of a fourth Distinguished Service Order.

Maladministration

Mr. Laws: To ask the Secretary of State for Defence (1) how many payments for maladministration have been made by *(a)* his Department, *(b)* its agencies, *(c)* its non-departmental public bodies and *(d)* other bodies for which his Department has responsibility in each of the last five years; and if he will make a statement; [32240]

(2) when he expects to answer question 32240 tabled by the hon. Member for Yeovil on 24 November 2005. [40642]

Mr. Touhig: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Medals

Bob Russell: To ask the Secretary of State for Defence how many General Service Medal Suez Canal Zone clasps for the period 16 October 1951 to 19 October 1954 have been issued; how many applications have still to be processed; on what date the first clasp was issued; and when he expects that the final award will be made. [41478]

Mr. Touhig: As at 30 December 2005, some 42,250 General Service Medal Suez Canal Zone clasps had been issued. A further 758 applications were waiting to be processed. The first clasp was issued in October 2003.

It is likely that a small number of applications from veterans or their relatives will continue to be received for many years to come.

While this means that it is impossible to predict when the final award will be made, the applications currently outstanding should be processed within two months.

Met Office

Dr. McCrea: To ask the Secretary of State for Defence how many responses his Department received to the Met Office consultation about proposals to change its civil centre forecast production network; and how many responses were received from each UK political party. [28344]

Mr. Touhig: The Met Office received 166 responses to the consultation about proposals to change its civil forecast production network. Of these responses, 33 were from the Labour party, 20 from the Liberal Democrats, nine from the Conservatives, 12 from the Scottish National party and nine from the Democratic Unionist party.

Ministerial Visits

Mike Penning: To ask the Secretary of State for Defence how many times he has visited *(a)* Dacorum and *(b)* Hertfordshire in his official capacity in the last 12 months; and what the purpose was of each visit. [29923]

Mr. Touhig: My right hon. Friend the Leader of the House, in his former role as Secretary of State for Defence, opened the new MBDA facility in Stevenage on 6 April 2005. My noble Friend Lord Bach, the former Minister for Defence Procurement, visited Paradigm in Stevenage on 22 March 2005.

Since the General Election no Defence Ministers have visited the borough of Dacorum or the County of Hertfordshire.

Office Equipment

Mr. Weir: To ask the Secretary of State for Defence how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) his Department, (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland owned in (x) 2003–04 and *(y)* 2004–05. [40086]

Mr. Touhig: The information requested is not held centrally and could be provided only at disproportionate cost.

Reserve Forces

Mr. Lancaster: To ask the Secretary of State for Defence how many appeals against compulsory mobilisation under the Reserve Forces Act have been made in the last 12 months; and how many were successful. [41658]

Mr. Touhig: As at 11 January 2006, there has been one appeal made by a Reservist in the last 12 months against compulsory mobilisation under the Reserve Forces Act 1996. This was subsequently withdrawn.

Royal Flight

Mr. Quentin Davies: To ask the Secretary of State for Defence (1) who is allowed to use the resources of the Royal Flight; on what criteria eligibility is based; and whether he has plans to alter these criteria; [42175]

(2) what plans he has for the future of the Royal Flight. [42176]

John Reid: No. 32 (The Royal) Squadron, based at RAF Northolt, is established for the support of military and government communications tasks in times of crisis and war. The Royal Household, Government Ministers and senior military officers may use irreducible spare capacity within this communications fleet when the aircraft are not being used to support named military operations or training. Such tasking is allocated according to seniority.

It is planned to replace the three commercially owned-RAF operated Twin-Squirrel Helicopters which form part of the fleet with three Agusta 109 Power helicopters under similar contractual arrangements in April.

Furthermore, an Independent Review of Royal Family and Ministerial Air Travel headed by Sir Peter Gershon is currently under way.

Royal Navy (Surface Fleet)

Mr. Ancram: To ask the Secretary of State for Defence what proportion of the Royal Navy's surface fleet is *(a)* at sea and *(b)* available to put to sea at a week's notice. [42049]

Mr. Ingram: On 12 January 2006, of the total commissioned Royal Navy and Royal Fleet Auxiliary ships, 32 per cent. were at sea. A further 58 per cent. could put to sea at one week's notice.

Troubles (Northern Ireland)

Mr. Robathan: To ask the Secretary of State for Defence what estimate he has made of the number of deaths in the recent period of the troubles in Northern Ireland that have been caused by armed forces personnel; and whether he intends to re-open investigations into these cases. [27355]

Mr. Ingram *[holding answer 11 November 2005]:* The attribution of deaths in Northern Ireland is not a matter for the Ministry of Defence and it is for the Police Service of Northern Ireland to decide if they are to re-open investigations into deaths in Northern Ireland during the troubles.

UK-awarded Contracts

Dr. Starkey: To ask the Secretary of State for Defence whether his Department permits participation in UK-awarded contracts by firms that have engaged in activities that violate international humanitarian law. [35735]

Mr. Ingram: Violation of international humanitarian law is in law a matter of state culpability rather than of firms or companies. In awarding contracts, the Ministry of Defence's policy is to assess tenders against a number of criteria to evaluate the most suitable compliant tender providing value for money. A contract may not be placed with a company if there are reasonable doubts about its suitability.

INTERNATIONAL DEVELOPMENT

Birth Control

Mr. Amess: To ask the Secretary of State for International Development what research projects on *(a)* abortion, *(b)* contraception, *(c)* reproductive health and *(d)* the effects of coercive abortion on women have been commissioned by his Department in each of the last five years for which information is available; and what the publication arrangements were in each case. [41761]

Mr. Thomas: DFID has not explicitly commissioned work on abortion , contraception and the effects of coercive abortion but we have commissioned five major Research Knowledge Programmes in the broad area of reproductive health for the period 1999–2005 for a total commitment of £10.6 million; (2000–01 £1 million; 2001–02 £1.9 million; 2002–03 £1.7 million; 2003–04 £2 million and 2004–05 £1.9 million). All of the programmes involve numerous research activities and smaller projects in Reproductive, Maternal and Sexual Health.

In 2005, DFID commissioned two research programme consortia for the period 2005–10 for a total of £5 million. The consortia involve a number of

different research activities in the broad areas of sexual reproductive health and rights and sexual reproductive health and HIV.

The aim of all of the programmes is to provide research that leads to better quality and a wider range of reproductive health services in developing countries.

Publication of material resulting from the programmes in appropriate journals, and other media, is the responsibility of the researchers.

Support is also provided to the United Nations Population Fund (UNFPA), the International Planned Parenthood Federation (IPPF), the World Health Organisation Human Reproductive Health Programme and the UK's Medical Research Council.

Disaster Management

Greg Mulholland: To ask the Secretary of State for International Development what work his Department has undertaken to facilitate the exchange of disaster management expertise between the United Kingdom and each country affected by Hurricane *(a)* Ivan and *(b)* Emily. [42128]

Mr. Thomas: The three countries most seriously affected by Hurricane Ivan in 2004, were Grenada, Jamaica and the Cayman Islands. In Grenada, we funded the provision of disaster management experts from Christian Aid UK and Oxfam UK, who worked closely on emergency projects with regional and local partners. For Jamaica and the Cayman Islands, the UK Government sent two humanitarian advisers to the region who provided initial emergency support to the relief efforts. The UK also funded Oxfam UK and Save the Children UK to send disaster management experts to Jamaica. Using this close network of partnerships helped in the exchange of disaster management expertise between the countries.

For the duration of the 2005 Hurricane season, DFID placed a Humanitarian and Disaster Risk Reduction Adviser in the region based in Barbados. The Adviser liaised with and provided advice to regional agencies and other development partners dealing with Disaster Risk Reduction and the continuing response to Hurricane Ivan. He also provided input to the two Caribbean Regional Donor groups for disaster coordination and response.

Following Hurricane Emily in July 2005, the Adviser visited Grenada and the island of Carriacou, to assess the damage and provide advice on the appropriate international response. This arrangement for the placing of UK expertise in the region will continue during the 2006 hurricane season.

The UK also funds a full-time Disaster Risk Reduction adviser to the Caribbean Overseas Territories. This Adviser provides ongoing expertise to these countries to strengthen and improve their disaster preparedness. He visited the Cayman Islands in the immediate aftermath of Hurricane Ivan to advise on recovery planning.

At the regional level, after Hurricane Ivan the UK funded a technical review of hazard impacts and their effects on the built environment. DFID also contributed to the studies of the 2004 Hurricane season that underpinned the regional lesson learning conference held in Jamaica in April 2005.

HIV/AIDS

Paul Flynn: To ask the Secretary of State for International Development what assistance his Department will provide in the next two years to reduce the spread of HIV/AIDS in Commonwealth of Independent States countries. [41699]

Mr. Thomas: DFID is supporting programmes to reduce the spread of HIV/AIDS in Central Asia, Ukraine and Russia. Details of commitments are as follows:

Central Asia:

DFID is providing £5.4 million over four years (2005–09) for a Central Asia Regional HIV/AIDS Programme, operating in Kyrgyzstan, Tajikistan and Uzbekistan. The Programme will complement the World Bank and the United States Agency for International Development (USAID) Regional HIV/AIDS projects in supporting the implementation of government strategies.

As part of the above work, DFID is also providing £1 million for the World Bank's Central Asia Regional HIV/AIDS Programme and £420,000 for the salaries of a Regional Policy Advisor and a Regional Monitoring and Evaluation Advisor in the Joint United Nations Programme for HIV/AIDS (UNAIDS) office in Almaty.

Ukraine:

DFID is providing £300,000 from May 2005 to May 2007, in support of the UNAIDS work with the Government of Ukraine to improve co-ordination of HIV/AIDS interventions. In addition DFID is providing 65,000. from September 2004 to September 2006, to support the work of the non-government Substance Abuse and AIDS Support Fund and to provide technical support to the UN Global Fund.

DFID has also provided £25,000 in August 2004 for an HIV/AIDS harm reduction awareness campaign in Crimea and £350,000 from September 2004 to September 2005 for work with the Ministry of Education to highlight HIV/AIDS issues in schools and among young people.

Russia:

DFID is providing £74,000 over 2006–07, comprising: (i) £22,000 in support of UNAIDS work with the Government of Russia; (ii) £47,000 to support a regional response to tackling HIV/AIDS in Nizhny Novgorod and (iii) £50,000 to disseminate findings from previous DFID funded research to help inform the Government of Russia's policies for tackling HIV/AIDS.

Horn of Africa

Andrew George: To ask the Secretary of State for International Development what assessment his Department has made of the food situation in the Horn of Africa. [42213]

Hilary Benn: Poor rains in much of the Horn of Africa at the end of 2005 have left many communities who are dependent on farming and raising livestock in serious difficulties. The United Nations Food and Agriculture Organisation has issued a report saying that as many as 11 million people in Somalia, Ethiopia, Kenya and Djibouti may require assistance in 2006. The severe food shortages in parts of these countries is sadly not a new phenomenon, and DFID has been responding with humanitarian assistance for many years. We are aware of the particular threat this year, the possibility that the current crisis may deepen, and that other areas may come to be affected.

DFID humanitarian advisers visited the worst affected areas in Kenya in November 2005, and visits to Somalia and Ethiopia are planned for early 2006.

This month DFID contributed £1 million to the World Food Programme for Somalia on top of the over £5 million we spent there on humanitarian interventions in 2005. This includes a number of health and nutrition operations in the worst affected parts of Southern Somalia.

In Ethiopia DFID made a commitment of £43 million in March 2005 to the cash and food aid based Productive Safety Net programme. This programme provides assistance to some of the poorest communities in Ethiopia. In December 2005 we announced a further £2.7 million for Kenya in response to the situation there.

DFID will continue to monitor the situation closely and we stand ready to provide additional support if necessary.

Hurricane Ivan

Greg Mulholland: To ask the Secretary of State for International Development what recent discussions he has had with representatives of *(a)* the Government of Grenada and *(b)* the Government of the Cayman Islands concerning reconstruction efforts following Hurricane Ivan; and what funding his Department has (i) committed to these efforts and (ii) made available to date. [42129]

Mr. Thomas: Since Hurricane Ivan, DFID has remained closely engaged with the Government of Grenada. By December 2004, DFID had committed and fully disbursed £6.5 million of emergency assistance: £1 million was provided as emergency humanitarian support through partner agencies; £5.5 million was provided as emergency financial aid to help the Government meet their public sector salary obligations. In 2005, DFID committed a total of £325,000 to provide consultancy support in the forestry sector, a chartered surveyor to assess the damage done to the Governor-General's compound and the Parliament Buildings. With the US Agency for International Development, DFID co-financed debt advisers to develop proposals for the restructuring of Grenada's debt. In addition, our share of the European Commission humanitarian support and additional reconstruction funds was £1.18 million.

Most recently, both my right hon. Friend, the Secretary of State for International Development and the Prime Minister, met Prime Minister Keith Mitchell in the lead up to and during the Commonwealth Heads of Government meeting in Malta in November. During a meeting with Prime Minister Mitchell in May 2005, my right hon. Friend the Secretary of State made it clear that DFID recognised the continuing reconstruction challenges facing Grenada, and he made a commitment that DFID would review the case for additional budget support to Grenada.

In November 2005, following the Government of Grenada's successful debt exchange offer to creditors and their work on a home-grown economic reform programme, the International Monetary Fund (IMF) judged the financing gap for 2005 to have been reduced to a limited and manageable level of about 1 per cent. of the Gross Domestic Product (GDP). Given this relative success we have decided not to offer further emergency financial aid to the Government of Grenada before March 2006. However, we remain open to the IMF's projections that the financial gap may widen dramatically in the next financial year and for a number of years after that, as the current construction industry boom subsides. We will continue to keep the situation under close review.

DFID provided some £250,000 to Cayman Islands for emergency supplies and services in the immediate aftermath of Hurricane Ivan. We have not provided specific assistance for reconstruction. We understand, however, that the European Union is considering a request from the Cayman Islands Government for support to rebuild homes. DFID's focus has been aimed at improving and strengthening disaster preparedness in all UK Overseas Territories in the region. In the Cayman Islands, we also funded a study of the impact of Hurricane Ivan to help learn from the Cayman Islands' experience of handling the emergency.

Jordan

Dr. Starkey: To ask the Secretary of State for International Development how much funding his Department has provided for projects in Jordan in each of the last five years; and how much such funding is planned for the 2005–06 financial year. [41178]

Hilary Benn: Jordan is now a middle income country that receives relatively large amounts of donor funding in relation to its levels of poverty. DFID has provided bilateral funding in the form of technical co-operation (i.e. support for projects) as well as other types of bilateral funding such as humanitarian assistance and debt relief. DFID's bilateral programme with Jordan closed in September 2005. DFID also provided funding to Jordan through our contributions to multilateral organisations including the EC and the World Bank, which we will continue to do.

million

	Technical co-operation	*Total bilateral programme*
2000–01	4.0	6.8
2001–02	2.3	6.4
2002–03	2.8	4.8
2003–04	1.2	4.2
2004–05	3.2	5.3

DFID is planning to provide £1.6 million in bilateral assistance to Jordan in 2005–06.

Lawful Activities

Mr. Amess: To ask the Secretary of State for International Development what activities which were lawful before 1 May 2001 have since been made unlawful by legislation introduced by his Department; and if he will make a statement. [41636]

Hilary Benn: The only legislation introduced by DFID since 1 May 2002 was the International Development Act 2002, which put furthering poverty reduction at the heart of the Secretary of State's statutory powers. Subject to this overarching objective, as defined by the Act, it did not outlaw any specific activities. The restriction in the Act over how funds voted by Parliament can be used means, for example, that aid cannot be tied to the purchase of British goods and services.

Palestinian Authority

Mr. Fabian Hamilton: To ask the Secretary of State for International Development what support his Department is giving to the Palestinian Authority *(a)* to ensure the efficient running of the forthcoming elections and *(b)* to reconstruct Gaza. [41934]

Hilary Benn: The European Union (EU) has committed €14 million to enable the Palestinian Authority (PA) to prepare for elections, 18 per cent. of which is attributable to the UK. The core elements of the EU support are:

Assistance to the Palestinian Election Commission (€10 million);

Technical expertise on election operations (€1 million);

International observation of the election process (€2.5 million);

Assistance to voter and civic education (€350,000).

The UK Government are also assisting elections through the following projects:

Purchase of Ballot Papers (£45,000);

Media Monitoring of 2006 Palestinian Legislative Council Elections (£34,000);

Training of journalists and public awareness (£90,316).

The Quartet Special Envoy for Disengagement, Mr. James Wolfensohn, has identified the key issues for Israeli disengagement from Gaza and parts of the West Bank to be an economic success for the Palestinians and to assure Israeli security. DFID is working closely with Mr. Wolfensohn's team and is providing assistance to help the PA develop a medium-term development plan—one of the key issues identified by Mr. Wolfensohn. DFID is also providing substantial financial support (£15 million in 2005–06) to support Palestinian refugees in Gaza and elsewhere. This assistance, provided via the United Nations Relief and Works Agency (UNRWA), helps provide education, health, housing and social services to Palestinian refugees.

South and Central America

Greg Mulholland: To ask the Secretary of State for International Development how much funding his Department has provided to each south and central American country in each year since 1997. [42130]

Mr. Thomas: The Department for International Development (DFID) has provided the following bilateral assistance to countries in central and south America since 1997:

£

Country	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*

TRANSPORT

A180

Shona McIsaac: To ask the Secretary of State for Transport when he expects the remaining sections of the A180 in north east Lincolnshire to be resurfaced with low-noise materials; and if he will make a statement. [42588]

Dr. Ladyman: The remaining sections of the A180 will be resurfaced with quieter materials as follows: Croxton to Ulceby in 2008–09 and Barnetby to Croxton in 2009–10 when maintenance becomes due; this is subject to the availability of funding.

Administration Costs

Stewart Hosie: To ask the Secretary of State for Transport what the total administrative costs of his core Department were in the last period for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39829]

Ms Buck: The total administration costs for the core Department for Transport, as shown in Note 10 of the Resource Accounts for 2004–05 (HC 476), were £152,559,000. All of this expenditure is 'identifiable' for the purposes of the Public Expenditure Statistical Analyses (PESA) published by the Treasury.

Canvey Island

Bob Spink: To ask the Secretary of State for Transport if he will visit Canvey Island to assess the need for an additional access route for the island from the Northwick area; and if he will make a statement. [42221]

Dr. Ladyman: The need for an additional access road to Canvey Island is not at present a matter for assessment by the Secretary of State but one for consideration by the local planning and transport authorities. I understand that, accordingly, Essex county council is currently progressing work looking at the feasibility of a link between Canvey and Thurrock and expects to consider the preliminary results of these investigations in the spring.

Car Exhaust Pipes

Mr. Sanders: To ask the Secretary of State for Transport if he will introduce legislation to require car manufacturers to ensure exhaust pipes on motor vehicles are fitted on the off-side; and if he will make a statement. [41992]

Dr. Ladyman: It would be difficult to impose legislation to require exhaust pipes to be positioned only on the off-side, bearing in mind the overall design constraints of individual vehicles, the economies of scale that would be lost and the conflict with European internal market objectives.

The effectiveness of such a measure would also be questionable given the significant reduction in exhaust pollutants that are now being achieved from new vehicles and which are set to reduce even further as emission standards are progressively tightened.

Crime Reports (London)

Mr. Burstow: To ask the Secretary of State for Transport how many crimes were reported to British Transport Police in each of the last five years in *(a)* England, *(b)* London, *(c)* each London borough and *(d)* each London (i) underground, (ii) mainline and (iii) interchange station in relation to (A) violence against the person, (B) sexual offences, (C) theft of passenger property and (D) robbery, broken down by gender; and whether the crime was reported by a member of (1) the public and (2) rail staff in each case. [36625]

Derek Twigg: The information has been placed in the Libraries of the House.

Cycling

Mr. Drew: To ask the Secretary of State for Transport how many fatalities of pedestrians have been caused by cyclists *(a)* on the road, *(b)* on pavements and *(c)* off-road in each of the last five years. [41522]

Dr. Ladyman: The number of pedestrian fatalities in personal injury road accidents who were hit by cyclists on the road for the years 2000 to 2004 is shown in the table.

	Fatalities
2000	3
2001	0
2002	4
2003	4
2004	1

There were no pedestrian fatalities hit by a cyclist on the pavement during these years.

We have no information on who was to blame for these accidents.

Information on pedestrian fatalities hit by cyclists off-road is not available.

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Transport how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40283]

Ms Buck: The Department and its agencies have a flexible approach in helping staff meet work life balance commitments. Although the Department does not have a home working policy, other policies cover a variety of working patterns. These patterns include flexible working hours, staggered hours, part-time working and job share. In addition, requests to work from home on an ad hoc basis are subject to line agreement.

The table provides figures where available from both the central Department and its agencies.

	Figures
DfT C	1,2
DVLA	157
HA	74
MCA	2
VOSA	2
VGA	1
GCDA	2
DSA	2

[1] In the recent staff survey (DfT C only completed by 1,374 (77 per cent.) participants) revealed 838 (61 per cent.) staff members worked flexibly. Those who did work flexibly, went on to say that they worked from home once a week, 117 (14 per cent.). This however, is only an approximate figure as it is based on those who participated in the staff survey.
[2] No central figures available

European Council

Peter Law: To ask the Secretary of State for Transport what assessment he has made of the implications for United Kingdom transport policy of the EU sustainable development strategy noted in the EU Council Communiqué, Part VI, on conclusion of the European Council on 15 to 16 December 2005. [41542]

Dr. Ladyman: We are currently considering the implications for United Kingdom transport policy of the Commission's proposal to review the EU Sustainable Development Strategy. This is with a view to playing a full part in the discussions that the Austrian presidency of the Council of the European Union will set-up during the first half of 2006.

Local Transport Plan (Gloucestershire)

Mr. Drew: To ask the Secretary of State for Transport what discussions he has had with Gloucestershire county council on its proposals for public transport in its local transport plan with particular reference to buses. [41524]

Ms Buck: The Secretary of State and other Transport Ministers have not had any meetings with Gloucestershire county council about its local transport plan. Officials based in both the central Department for Transport and the Government office for the south west have met Gloucestershire county council officials about the development of the county council's local transport plan including about the potential role of buses in it, regularly during the last two years. Officials also met a number of Gloucestershire county council's members about the plan in June 2005.

M1

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason the M1 is being resurfaced between junctions 20 and 21; how long the work will take; and what the total cost is of the work. [41977]

Dr. Ladyman: The M1 between junctions 20 and 21 is being resurfaced for safety reasons. The existing surface was reaching the end of its useful life and represented an increasing hazard to road users.

In order to minimise traffic disruption the resurfacing is being carried out in several phases. The first phase started in July 2005 and was completed in December. The second phase started on 4 January and is due for completion in March. Other phases will follow subject to the availability of funding.

The total cost of the first two phases is £9.8 million.

M6

Mr. Amess: To ask the Secretary of State for Transport whether his Department is monitoring the impact of the M6 toll on the economy; and if he will make a statement. [41009]

Dr. Ladyman: No monitoring is being undertaken by the Department on the economic impact of the M6 toll as the impact of any major new infrastructure is only likely to show over a longer period. We will consider whether to make such an assessment after a period of about five years from opening.

Daniel Kawczynski: To ask the Secretary of State for Transport what timetable the Highways Agency has set for erecting the sign for Shrewsbury on the M6. [41561]

Dr. Ladyman: Negotiations are currently under way between the Highways Agency, Shropshire county council and Shrewsbury and Atcham borough council about funding for this sign. Assuming agreement is reached, the sign should be erected during the first part of the 2006–07 financial year.

Motorway Resurfacing

Mr. Greg Knight: To ask the Secretary of State for Transport what criteria are used when deciding whether to resurface a motorway for the purpose of reducing tyre noise; whether such work is always held in abeyance until the road surface in question needs replacing; what the typical additional cost of such work is over normal resurfacing; and if he will make a statement. [41978]

Dr. Ladyman: During the assessment of the Highways Agency's Spending Review 2004 submission, Ministers agreed that the resurfacing of concrete roads ahead of maintenance need, for noise reasons, would not be allocated funding.

The Highways Agency resurfaces sections of carriageway for the purpose of reducing tyre noise where there is a maintenance requirement, where it is required on safety grounds (due to loss of surface texture required for skid resistance in the wet), or as a result of general wear and tear caused by traffic.

The carriageway maintenance programme is developed on a whole life cost basis, identifying the appropriate maintenance treatment at the optimum time. When resurfacing a carriageway, it is standard Highways Agency practice to use quieter surfacing materials. There is no additional cost for these materials compared with conventional surfacing materials as they can be laid quickly; therefore, the overall laying costs are a lot less.

Railways

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, what mechanisms exist in the franchising process for train operating companies to ensure that an appropriate level of risk is transferred to the private sector; and what level of risk he deems appropriate. [39386]

Derek Twigg: The allocation of risk between a train operating company and the Department is governed by the franchise agreement. Following publication of the Future of Rail White Paper, extensive negotiations were undertaken with the Association of Train Operating Companies and a standard form franchise agreement was agreed having taken legal, economic, commercial and financial advice. The standard agreement reflects the optimum risk balance in the light of that that advice.

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, what mechanisms exist to ensure that the tendering process for franchises of train operating companies is competitive. [39373]

Derek Twigg: The franchise replacement process follows Office of Government Commerce (OGC) procurement guidelines and is subject to review by independent OGC-appointed reviewers. Selected projects are additionally subject to annual audits.

Stephen Hammond: To ask the Secretary of State for Transport what customer usage is on intercity rail lines; and what customer usage was in 2000. [40843]

Derek Twigg: In 2004–05, 85 million journeys were undertaken on long distance train services compared with 70 million journeys in 2000–01.

Gregory Barker: To ask the Secretary of State for Transport what representations he has received about proposals for fare increases on the Hastings to Charring Cross line; and if he will make a statement. [39255]

Derek Twigg: No representations have been received.

Kerry McCarthy: To ask the Secretary of State for Transport when he intends *(a)* to announce the outcome of the "Railways for All" consultation and *(b)* to publish a strategy for rail accessibility. [41599]

Ms Buck: We propose to publish the strategy shortly. A summary of the consultation responses to the draft strategy document, "Railways for All", will be published on the Department's website at that time.

Tom Brake: To ask the Secretary of State for Transport whether he has authorised negotiations with rail franchisees to secure agreements to invest in additional and higher quality rolling stock in return for an extension to the franchise period. [39332]

Derek Twigg: There are only two franchises in relation to which discussions on extending the franchise beyond its current term are taking place. These are Silverlink and Central Trains franchises. Increased investment in rolling stock does not form part of these discussions.

Road Accidents (Costs)

Tom Brake: To ask the Secretary of State for Transport what the most recent estimated cost of a road accident resulting in *(a)* serious and *(b)* slight injuries is (i) in total and (ii) broken down by (A) lost output, (B) medical assistance and ambulance costs and (C) human costs. [42709]

Dr. Ladyman: The more recent values used to estimate the benefits of the prevention of road accidents are set out in the "Highways Economic Note No. 1: 2004 Valuation of the Benefits of Prevention of Road Accidents and Casualties" which can be found on the DfT website.

http://www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/page/dft_rdsafety_610642.hcsp

The Highways Economics Note disaggregates the elements of the value according to whether they relate specifically to casualties or accidents. The casualty-related values are lost output, medical and ambulance costs, and human costs. The costs of police, property damage and the administrative costs of accident insurance are accident-related costs. The total value of prevention of an accident is the aggregate of both sets of values.

The following table illustrates the average estimated costs of a road accident. Total casualty costs represent the sum of the casualty-related elements, while total value of prevention is the sum of casualty-related costs and accident-related costs.

Table: Average value of prevention per accident by severity (excluding fatalities) and element of costs (£ million June 2004)

	Injury severity	
	Serious	*Slight*
Lost output	21,379	2,550
Medical and ambulance	12,806	1,082
Human costs	145,370	12,151
Total casualty costs	179,555	15,783
Total value of prevention	184,269	18,496

Tom Brake: To ask the Secretary of State for Transport what the most recent estimate is of the cost of a road accident, excluding the cost of deaths and casualties, broken down by *(a)* police costs, *(b)* insurance costs and *(c)* costs arising from damage to property. [42710]

Dr. Ladyman: The more recent values used to estimate the benefits of the prevention of road accidents are set out in the "Highways Economic Note No. 1: 2004 Valuation of the Benefits of Prevention of Road Accidents and Casualties" which can be found on the DfT website.

http://www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/paae/dft_rdsafety_610642.hcsp

The Highways Economics Note disaggregates the elements of the value according to whether they relate specifically to casualties or accidents. The accident-related costs include costs of police and property damage and the administrative costs of accident insurance. These costs are not specific to casualties.

The following table illustrates the average estimated costs per accident minus the casualty specific costs.

Table: Average value of prevention per accident by severity and element of costs (£ million June 2004)

	Injury severity		
	Fatal	*Serious*	*Slight*
Police costs	1,607	219	49
Insurance and admin	254	158	96
Damage to property	9,465	4,336	2,569
Total accident costs	11,326	4,713	2,714

Road Closures (Essex)

Mr. Amess: To ask the Secretary of State for Transport if he will list the occasions when the *(a)* A13 and *(b)* A127 between the M25 and Southend were closed in each direction for 30 minutes or longer during each of the last five years for which information is available; and what the (i) reason for and (ii) duration was of each such closure. [40982]

Dr. Ladyman: Only the section of A13 eastwards from M25 to its junction with the A1089 (to Tilbury) is a trunk road, for which the Secretary of State is directly responsible in his capacity as highway authority. The following table provided by the Highways Agency shows the total number of closures of 30 minutes or more for each carriageway since 2002. The precise duration of closure was recorded in only seven instances.

The remainder of the A13, and the whole length of the A127, is the responsibility of Essex county council, Thurrock borough council and Southend-on-Sea borough council as local highway authorities for the sections of the routes in their respective areas.

Date	*Carriageway*	*Duration*	*Reason for Closure*
24 January 2002	Eastbound	—	Oil Spillage
9 June 2002	Eastbound	—	Fatal Accident
12 July 2002	Eastbound	—	Injury Road Traffic Accident Lane 1
30 July 2002	Eastbound	—	Flooding
8 August 2002	E/N Slip	—	Oil Spillage
13 August 2002	Westbound	—	Oil Spillage
11 November 2002	Eastbound	1 hr 45 mins	Injury Road Traffic Accident Lane 1
20 March 2003	Eastbound	—	Oil Spillage
14 May 2003	Westbound	—	Vehicle Fire
15 May 2003	Eastbound	—	Injury Road Traffic Accident Lane 1
6 July 2003	Westbound	—	Injury Road Traffic Accident Lane 1
14 July 2003	Westbound	—	Oil Spillage
22 August 2003	Westbound	—	Vehicle Fire
14 September 2003	East and West	1 hr	Abandoned Vehicle/Suspected Package—Security Alert
18 October 2003	East and West	30 mins	Lamp column in dangerous position following Road Traffic Accident
28 October 2003	Eastbound	—	Total Closure
10 December 2003	Westbound	—	Injury Road Traffic Accident Lane 3
13 December 2003	Eastbound	4 hrs	Accident/ Damage to nearside barrier
20 December 2003	Eastbound	—	Injury Road Traffic Accident Lane 1
2 March 2004	Westbound	—	Oil Spillage
20 March 2004	Westbound	—	Oil Spillage
30 March 2004	Eastbound	—	Oil Spillage
6 October 2004	Westbound	2 hrs	Serious Injury Accident
18 December 2004	Westbound	3 hrs 15 mins	Vehicle Fire
7 April 2005	Eastbound	—	Oil Spillage
17 May 2005	Westbound	—	Oil Spillage
14 July 2005	Westbound	—	Oil Spillage
12 October 2005	Eastbound	—	Oil Spillage
27 October 2005	Eastbound	2 hrs	Multiple Road Traffic Collision
1 November 2005	Westbound	5 hrs 45 mins	Injury Road Traffic Accident Lane 1

Road Deaths (Sunderland)

Mr. Kemp: To ask the Secretary of State for Transport how many road deaths there have been in the Sunderland council area in the last three years. [42442]

Dr. Ladyman: The number of fatalities in personal injury accidents, in the Sunderland local authority for the last three years for which data are available are given in the table.

	Fatalities[1]
2002	10
2003	8
2004	8

[1] Deaths within 30 days of the accident. Excludes confirmed suicides, death from natural causes and injuries to pedestrians with no vehicle involvement (eg a fall on the pavement).

Road Detrunking Programme

Miss McIntosh: To ask the Secretary of State for Transport if he will make a statement on his road detrunking programme. [42410]

Dr. Ladyman: The policy of transferring non-core trunk roads (detrunking) to local highway authorities was first set out in the White Paper "A New Deal for Transport" published in July 1998. Detrunking allows the Highways Agency to concentrate on the operation of the strategic trunk road network, whilst enabling local authorities to consider their own priorities for the improvement of non-core routes. The aim has been to transfer some 3,200 km (30 per cent.) of the trunk road network (as it was in April 1999) to local authorities in a phased programme. To date more than 80 per cent. (around 2,628 km) of the programme has been completed since April 2001. Prior to detrunking, the Highways Agency and local authorities agree the transfer of an appropriate level of funding for annual maintenance and in some cases for outstanding capital projects.

During the financial year 2005–06, six routes have been detrunked. They are:

A7 in Cumbria (between Carlisle boundary and the Scottish border)

A40 in Gloucestershire (between the Oxfordshire County Council boundary and the M5)

A48 in Gloucestershire (between A40 Highnam and the Welsh border)

A417 in Gloucestershire (from M40 to A40)

A500 in Cheshire (from Nantwich bypass to M6 junction 16)

A6514 in the City of Nottingham (from A52 to A60)

Road Improvements

Chris Grayling: To ask the Secretary of State for Transport how many roads have been widened in the last five years to ease bottlenecks. [40575]

Dr. Ladyman: I refer the hon. Member to my answer of 11 January 2006 (UIN 40570) which provides information on the Highways Agency trunk roads that have been widened in each of the last five years.

The following table lists local authority roads that have been widened (at a cost of over £5 million) to ease bottlenecks in the last five years:

	Scheme
2000	—
2001	—
2002	Bridgewater Northern Distributor Road
	A22 Dualling Nightingale Farm—Polegate
	City Link/White City Interchange
	A5063 Trafford (The Quays to White City)
2003	A689 Sedgefield—Wynyard
2004	Manchester-Salford Inner Relief Route (Regent Road to Gore Street)
	Stockport: Portwood roundabout under junction 27 of the M60
2005	North West Taunton Package
	A386 Plymouth Northern Corridor
	A228 Main Road to Ropers Lane
	Improved access to North Manchester Business Park (Central Park)

Chris Grayling: To ask the Secretary of State for Transport if he will list trunk roads given lower noise surfaces in each of the last five years. [40577]

Dr. Ladyman: The Highways Agency aims to resurface the strategic road network with quieter materials as structural or safety related maintenance becomes due.

Highway maintenance is carried out on a whole life cost basis, implementing the appropriate maintenance treatment at the optimum time. The requirement to carry out carriageway maintenance is based on the condition of an identified length of carriageway. Consequently, maintenance is not carried out for complete lengths of individual roads, but only where it has been identified as being required as part of the whole life cost maintenance solution.

The following table shows the number of roads where the Highways Agency has implemented lengths of lower noise surfacing in the last five years, together with the number of lane kilometres (Lkms) treated (up to 21 December 2005):

	Number of roads	*Total Lkms*
2001	45	638.4
2002	54	951.5
2003	62	1237.4
2004	68	912.2
2005[1]	45	778.4

[1] Details taken from HAPMSystem on 21 December 2005, details for 2005 are therefore incomplete.

A list showing individual roads that were treated in each of the years in the above table has been placed in the Libraries of the House.

Chris Grayling: To ask the Secretary of State for Transport how much was spent on maintenance for trunk roads in each year since 2000–01. [40578]

Dr. Ladyman: The motorways and trunks roads of the strategic road network are managed by the Highways Agency, an executive Agency of the Department for Transport. The reporting of the spend on these roads is

not broken down between motorways and trunk roads. The figures for the spend on the maintenance of these roads since 2000–01 are, in £ million:

	Motorways and trunk roads
2000–01	545
2001–02	603
2002–03	656
2003–04	863
2004–05	857

Road Safety

Mr. Amess: To ask the Secretary of State for Transport if he will list those companies supporting his Department's THINK! road safety campaign; and if he will make a statement. [40979]

Dr. Ladyman: The Department's 2005 Annual Report to Parliament (Command Paper CM6527) listed the companies who supported the THINK! road safety campaign in 2004. Details of companies who are currently supporting the campaign are listed:

Drink Drive

Mitchells and Butler
Spirit Group (now owned by Punch Taverns)
Punch Taverns
Enterprise Inns
Regent Inns (Jongelurs and Walkabout)
The Union Pub Company
Pathfinder Pubs
JD Wetherspoons
Beefeater (Whitbread)
Auto Trader
Cabana Soft Drinks
Threshers
Scooterman
ComCab (Zingos)
Scoot
The Portman Group
The Publican
Hardys and Hansons
George Gale (now owned by Fullers)
Fullers
Youngs Pubs
Greene King
Shepherd Neame

Driver Tiredness

Moto
RoadChef
Welcome Break
First Motorway
Rocket Fuel
MultiMap
Little Chef
Philips Maps
M6 Toll Road
Auto Trader
RAC
The Caravan Club
CSMA
What Car?
Merlin Entertainment (Sea Life Centres)
Old English Inns

Child Road Safety

Asda
Fun Radio (Gcap)
Dairy Farmers of Britain
3M

Motorbikes

Hein Gericke
Arai
Bennetts
Suzuki and Rizla Suzuki
Ducati and Airwaves Ducati
Yamaha and Virgin Yamaha
Honda and HM Plant Honda
Vespa
Kawasaki and Hawk Kawasaki
Dorna
Motorcycle Circuit Racing Control Board
Feridax
Shoei
Spyke
Knox Back Protectors

The THINK! Road Safety campaign has received in-kind rather than cash donations from these partners. I welcome this third party support. It provides a very valuable and effective way of communicating key campaign messages, using practical and immediate solutions, through commercial brands.

Mr. Drew: To ask the Secretary of State for Transport if he will include in the forthcoming Road Safety Bill measures to introduce additional penalties for those who continue to use hand-held mobile phones while driving. [42194]

Dr. Ladyman: The Road Safety Bill contains provisions to make the offence of using a hand-held mobile phone while driving endorsable with. three penalty points. The Fixed Penalty Notice will become 60. For those convicted in court, the available penalties will include penalty points and a discretionary disqualification as well as a fine of up to £1,000 (£2,500 in the case of a goods vehicle or a bus/coach).

Road Traffic Congestion

Chris Grayling: To ask the Secretary of State for Transport what estimate he has made of the change in the level of road traffic congestion since 2000–01. [40568]

Dr. Ladyman: The Government announced in the White Paper The Future of Transport (July 2004) that it was replacing the indicator set in Transport 2010: The Ten Year Plan (July 2000). The new indicators, relating to journey time reliability on Highways Agency roads and person movements on local authority roads, will be measured from 2005–06 onwards. It is not possible to compare the new congestion indicators with the one used in 2000.

Roads

Mr. Garnier: To ask the Secretary of State for Transport what representations he has received on levels of road traffic miles travelled and road traffic congestion in *(a)* Harborough constituency and *(b)* the East Midlands Government office area. [38842]

Dr. Ladyman: Over the last 12 months the Department has received 21 representations for the East Midlands region in respect of the levels of road traffic miles travelled and road traffic congestion; and none specifically for Harborough.

Mr. Stewart Jackson: To ask the Secretary of State for Transport whether he plans to ask the Highways Agency to review carriageway lighting in Cambridgeshire on the A47 and A1 routes in the next 12 months. [40989]

Dr. Ladyman: The Highways Agency constantly monitors the safety record of all parts of the trunk road and motorway network and where justified takes action to install new lighting or extend any existing lighting provision. In all cases, the critical determining factor is the number and severity of accidents that have occurred during hours of darkness.

Following a structural and electrical testing programme of lighting columns on the A47 in Cambridgeshire, the Highways Agency plans to replace existing lighting on the A47 Soke Parkway between junctions 17 and 20. These works are phase 2 of the contract and are currently programmed to start in September this year.

The A1 in Cambridgeshire consists of an all purpose trunk road and a section of motorway known as A1(M) between junctions 14 and 17, running from Alconbury to Peterborough.

Lighting was provided along the complete length of the A1(M) at the outset, when the motorway opened in 1998 and no review is planned.

The Highways Agency has no proposals to review carriageway lighting along the A1 all-purpose trunk road in Cambridgeshire and Peterborough City. Existing lighting columns and lanterns will be replaced as and when required under the Agency's maintenance regime.

Seat Belts

Mr. Amess: To ask the Secretary of State for Transport (1) what research he has *(a)* commissioned and *(b)* evaluated on the effect of seat belt wearing rates if persons guilty of an offence under section 14(3) of the Road Traffic Act 1988, in lieu of a fine, attend a driving safety course paid for by the offender that includes instruction on the benefits of wearing seat belts; and if he will make a statement; [40983]

(2) if his Department will undertake a review drawing on international research and experience into the effects of requiring persons guilty of an offence under section 14(3) of the Road Traffic Act 1988, in lieu of a fine, to attend a driving safety course paid for by the offender that includes instruction on the benefits of wearing seat belts; and if he will make a statement. [40985]

Dr. Ladyman: This offence relates to the failure of adults to use seat belts in motor vehicles. The Department has not undertaken such research and has no current plans to undertake such a review. Seat belt wearing rates in Great Britain are already generally high as demonstrated by the wearing rates given in my answer of 14 December 2005, *Official Report*, column 2026W, to the hon. Member.

Mr. Amess: To ask the Secretary of State for Transport when his Department last undertook a review of the evidence relating to the effectiveness of seat belts in reducing deaths and injury that drew on *(a)* UK and *(b)* international research; and if he will make a statement. [40984]

Dr. Ladyman: A report to Parliament, 'Compulsory Seat Belt Wearing: Report by the Department for Transport' dated 14 October 1985 (ISBN 0115507094, available from The Stationery Office) is the last such review. That report provided the evidence to support the decision, debated in January 1986, to make permanent the regulations on seat belt wearing that had first come into force in January 1983. The factors that make seat belts effective in reducing deaths and injury have not changed since then.

Mr. Amess: To ask the Secretary of State for Transport what research projects commissioned by his Department are being undertaken on the effects of seat belt wearing; and if he will make a statement. [41751]

Dr. Ladyman: Two research projects are currently being undertaken. One is the regular observational survey of seat belt wearing by TRL Ltd. for the Department—the most recent report, 'Lf2096', is available at www.trl.co.uk/store/report_list.asp?pid=211&pno=6&searchtext= (see the page for reports 51 to 57).

The second, an 'In-depth Study of Trends in Fatal Accidents', will report in spring 2007. That part of the study being undertaken by TRL Ltd. will include, among other things, an estimation of the reduction in risk achieved by seat belt wearing.

Speed Cameras

Mr. Spellar: To ask the Secretary of State for Transport what advice is given to speed camera partnerships regarding the prosecution of drivers of emergency vehicles for breaking the speed limit. [40277]

Dr. Ladyman: We do not give advice to safety camera partnerships about the prosecution of drivers of emergency vehicles who break the speed limit.

Section 87 of the Road Traffic Regulation Act 1984 allows police, fire, and ambulance vehicles to be exempt from speed limits if observing the speed limit would hinder the execution of emergency activity for which the vehicle is being used on that occasion. Prosecutions are considered outside of this exemption.

The Association of Chief Police Officers has policy guidance on this though final decisions on such prosecutions are a matter for Chief Police Officers.

Transport Infrastructure (Sussex)

Mr. Soames: To ask the Secretary of State for Transport how much money has been spent on improvements in transport infrastructure in west Sussex since 1997; and what proportion of this expenditure was spent in mid-Sussex. [42369]

Ms Buck: Since the introduction of local transport plans in 2000, west Sussex has received around £73 million for local transport improvements and maintenance schemes. In addition the county council has received approximately £14.5 million county council has received approximately £7.7 million for local transport capital investment. We do not have the data to identify a figure separately for local transport investment in mid-Sussex.

Funding for trunk roads is neither allocated nor recorded on a county by county basis. West Sussex has benefited from the new trains and associated power supply and depot upgrades delivered as part of the Mark 1 "slam door" stock replacement programme, the total value of the investment (benefiting west Sussex and other parts of London and the south east) being in the region of £2 billion.

Transport Projects (Appraisal System)

Chris Grayling: To ask the Secretary of State for Transport which transport projects were assessed using the New Approach to Appraisal system; and what the conclusions were in each case. [40571]

Ms Buck: The New Approach To Appraisal (NATA) was announced in the Government's 1998 White Paper "A new deal for transport: better for everyone". The NATA provides a comprehensive assessment of the main impacts of a scheme on the environment, safety, the economic performance, accessibility and integration so that all the key criteria are considered in decisions.

NATA was first used to inform decisions taken during the 1998 Roads Review and results for 67 schemes which were candidates for the targeted programme of improvements were published in "A new deal for trunk roads in England: Understanding the New Approach To Appraisal". The Highways Agency has continued to use the NATA for all major (that is, those costing more than £5 million) highway schemes since then. It also introduced a simplified version of NATA for use on small schemes.

Subsequently, the NATA was revised to be applicable to other transport modes, including rail, light rail and bus schemes. NATA has been used for appraisal of Community Infrastructure Funding. The Department has required the use of the NATA for the appraisal of all Local Transport Plan major schemes (road and public transport) since 2000. The NATA was the basis for OPRAF's 1999 "Planning Criteria—a guide to the appraisal of support for passenger rail services", revised in 2003 by the Strategic Rail Authority and published as "Appraisal Criteria—a guide to the appraisal of support for passenger and freight rail services".

The NATA has been applied to a wide range of transport projects proposed by a number of different agencies. The Department does not hold a comprehensive record of all of these projects and to compile one would be prohibitively expensive. However, the projects have been subject to the NATA before submission to Ministers in the period February 2004 to June 2005.

NATA is used to appraise and inform the prioritisation of schemes. A range of appraisal requirements including assessments using the NATA system apply to all schemes submitted to the Department for funding, with the level of detail required in the appraisal being proportional to the scale and complexity of the scheme. For each scheme, the Appraisal Summary Table provides an indication of the impact of the scheme on each of five criteria.

Water-borne Pleasure Craft

Mr. Drew: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned and *(b)* evaluated into the use of alternative fuels by water-borne pleasure craft. [41525]

Dr. Ladyman: None.

TRADE AND INDUSTRY

Business Closures (East Midlands)

Mr. Garnier: To ask the Secretary of State for Trade and Industry how many *(a)* post offices, *(b)* bank branches, *(c)* independent retail shops and *(d)* police stations have closed in each calendar year since 1997 in (i) Harborough constituency and (ii) the East Midlands Government office area. [38841]

Alun Michael: The information is as follows.

(a) Post offices

Decisions on post office closures are an operational matter for Post Office Ltd. I understand from the company that the numbers of net closures are as follows:

Harborough constituency

2002–03: 1 net opening

1 net closure

4 net closures (including three under urban reinvention programme)

Constituency closure data are not available prior to financial year 2002–03.

East Midlands region

38 net closures

31 net closures

108 net closures

90 net closures

Regional closure data prior to financial year 2001–02 are not available. Closures in 2003–04 and 2004–05 include closures under the urban reinvention programme.

(b) Bank branches

The number of local bank branch closures is not available.

This is a matter for each individual bank, but my officials have checked with the British Bankers' Association, the Financial Services Authority and the Office for National Statistics. None of them are able to provide the number of bank closures.

(c) Independent retail shops

VAT de-registrations for retail businesses[1] in Harborough constituency and East Midlands Government office region, are shown as follows for 1997 to 2004.

VAT de-registrations in the retail sector[1]

	Harborough	*East Midlands*
1997	45	1,540
1998	25	1,490
1999	35	1,465
2000	30	1,425
2001	30	1,300
2002	30	1,320
2003	35	1,400
2004	35	1,420

[1] Standard Industrial Classification 52.

Source:

Small Business Service figures based on data from the ONS Inter Departmental Business Register.

(d) Police stations

Information provided by police forces for police stations opened and closed in Harborough constituency and East Midlands Government office region, are shown as follows for 1997 to 2004.

	Leicestershire[1]		*East Midlands Government office area*	
	Op	*Cls*	*Op*	*Cls*
1997	3	0	6	6
1998	2	2	2	25
1999	3	3	6	6
2000	2	0	4	0
2001	0	0	3	1
2002	1	1	3	3
2003	3	3	4	7
2004	0	0	1	2

[1] Harborough figures are included within Leicestershire.

EU Structural Funds

Michael Gove: To ask the Secretary of State for Trade and Industry, which types of projects may qualify for EU structural funding. [40961]

Alun Michael: The eligibility of projects for support from the EU structural funds is determined by the relevant Council and Commission regulations and by the more detailed priorities for intervention established in programming documents.

Although the details vary from one programme to another, typically structural funds programmes in the UK support a range of activities in the fields of business development, community regeneration, training and development of skills.

First-class Mail

Mr. Hands: To ask the Secretary of State for Trade and Industry what percentage of first class mail was delivered to arrive the next day in each London postal district in *(a)* the most recent year available and *(b)* 1999–2000. [41602]

Barry Gardiner: This is an operational matter for Royal Mail and the chief executive has been asked to reply directly to the hon. Member.

Housing Grants, Construction and Regeneration Act

Mr. Pelling: To ask the Secretary of State for Trade and Industry (1) what steps will be taken by the Department following the consultation on the effectiveness of the Housing Grants, Construction and Regeneration Act 1996 as it applies to internal industry payments practices; [41123]

(2) what assessment he has made of the effectiveness of the Housing Grants, Construction and Regeneration Act 1996 in encouraging the timely settlement of construction industry debts. [41124]

Alun Michael: My written statement to the House on Monday 16 January announced the publication of "Improving Payment Practices in the Construction Industry—Analysis of the Consultation on Proposals to Amend Part II of the Housing Grants Construction and Regeneration Act 1996 and the Scheme for Construction Contracts (England and Wales) Regulations 1998".

Illegal Broadcasting

James Brokenshire: To ask the Secretary of State for Trade and Industry how many complaints Ofcom has received in each of the last five years in relation to *(a)* pirate radio stations and *(b)* illegal broadcasts; and how many prosecutions it initiated in each case in each year. [38022]

Alun Michael *[holding answer 15 December 2005]:* Radio spectrum use under the Wireless and Telegraphy Act is a matter for Ofcom. The information on complaints and prosecutions has therefore been prepared in consultation with the regulator.

I am informed by Ofcom their records show that, since 1 April 2002 (when reliable records showing this level of detail began) the yearly figures for complaints received have been:

	Number
2002 (April-December)	592
2003	1,085
2004	446
2005 (to date)	966

The figures for completed prosecutions for the same periods are:

	Number
2002 (April-December)	23
2003	71
2004	59
2005	38

In recording these details, Ofcom (and its predecessor, the Radiocommunications Agency) draws no distinction between complaints about named pirate radio stations and unidentifiable illegal broadcasts. They record any complaint or allegation of illegal broadcasting in the same way.

Microgeneration

Greg Clark: To ask the Secretary of State for Trade and Industry how many civil servants in his Department are dedicated full-time to the promotion of microgeneration. [42016]

Malcolm Wicks: The Department of Trade and Industry has three civil servants dedicated full-time to the promotion of microgeneration.

Military Hardware Exports

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what the value was of defence military hardware exports to *(a)* Poland and *(b)* Hungary in 2005. [41563]

Malcolm Wicks: The DTI Export Control Organisation (ECO) is responsible only for holding information on the licences it has issued, not on exports made under those licences. The Government publishes detailed information on its export licensing decisions, including the total value of standard individual export licences (SIELs) issued, by destination, in its annual and quarterly reports on strategic export controls. Her Majesty's Revenue and Custom collects some data on exports of military list items which is published, by destination, in the annual reports.

The annual reports are available from the Libraries of the House, and the quarterly reports, from the DTI Export Control Organisation website, www.dti.gov.uk/export.control. We expect to publish the 2005 annual report by June 2006, and the final quarterly report for 2005, by end March 2006.

Miners' Compensation

Mr. Clapham: To ask the Secretary of State for Trade and Industry if he will ensure that the data collected in relation to UK coal miners' health claims is passed to the Medical Research Council for archiving and further research. [38959]

Malcolm Wicks *[holding answer 11 January 2006]:* In general, the Department is happy to make available generic information collated through the schemes. It should be noted that much of the information the Department holds relates to individuals and their claims. The Department will have to ensure compliance with the Data Protection Act 1998 in considering how much information can be released. The issue will be considered with the schemes' Medical Reference Panels.

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many coal health claimants have been under surveillance since the scheme started; how many proven cases of fraud there have been in relation to *(a)* vibration white finger claims and *(b)* chronic obstructive pulmonary disease claims; what the total cost has been to date of audit investigations on counter fraud procedures for each scheme; and what estimate he has made of the savings made through surveillance procedures. [38960]

Malcolm Wicks *[holding answer 11 January 2006]:* Surveillance has been undertaken on 80 claimants since the start of the schemes.

The main protection against fraud/exaggeration in the schemes is the medical assessment process in the respiratory disease scheme and the employment requirement in the vibration white finger (VWF) scheme. About 10 per cent. (26,000) of respiratory disease and 20 per cent. (24,000) VWF claims have been denied.

In addition, of 2,199 claims investigated as potentially fraudulent, 789 claims have been reduced or denied, 46 of which were as a result of surveillance. This is made up of 683 VWF, 100 COPD and six other claims. The total saving for anti-fraud activity is approximately £10.75 million of which approximately £870,000 has been saved from cases in which surveillance was used. The total cost of counter-fraud activity is approximately £3 million.

Mint Postage Stamps

Mr. Hands: To ask the Secretary of State for Trade and Industry what the sterling value was of mint postage stamps sold in post offices and by mail order in the United Kingdom in each year since 1997–98, broken down by *(a)* first class, *(b)* second class and *(c)* other. [41601]

Barry Gardiner: This is an operational matter for Royal Mail and the chief executive has been asked to reply direct to the hon. Member.

Nuclear Industry

Colin Challen: To ask the Secretary of State for Trade and Industry which organisations will fund the upgrade of the Sellafield MOX Plant; and how much it is estimated to cost. [42124]

Malcolm Wicks: The Sellafield MOX Plant was transferred to the NDA under the Energy Act. As such the asset is owned by the NDA and it is responsible for funding its operation, maintenance and enhancement.

The planned engineering enhancements to improve SMP throughput are detailed in the current Near Term Work Plan and are estimated to cost in the order of £13.5 million over the next two to three years.

Colin Challen: To ask the Secretary of State for Trade and Industry what has been the total cost of the Sellafield MOX Plant to date; and how much income it has generated. [42125]

Malcolm Wicks: I am advised by the Nuclear Decommissioning Authority that the current capitalised asset value of the Sellafield MOX Plant is £490 million. The income generated to date is £55 million.

Colin Challen: To ask the Secretary of State for Trade and Industry what liabilities for pensions for workers in the state-owned sector of the nuclear industry are anticipated following any sale of companies in that sector. [42126]

Malcolm Wicks: The liabilities for accrued pensions will remain constant and therefore the effect will be neutral. Until the sale of Westinghouse is concluded and the competition of sites is completed we will not know how many staff will transfer to the private sector and how many will transfer accrued pension rights.

Piracy

Keith Vaz: To ask the Secretary of State for Trade and Industry whether his Department has commissioned research into the cost to British trade of piracy in international waters. [37923]

Dr. Ladyman: I have been asked to reply.

The UK Government take the issue of piracy extremely seriously and have published on the Department's website a counter-piracy strategy which sets out the actions that it has committed to taking to tackle the menace of piracy. However, neither the Department for Transport nor the Department for Trade and Industry have commissioned research into the cost to British trade of piracy in international waters.

Radioactive Waste Management

Mr. Drew: To ask the Secretary of State for Trade and Industry what assessment he has made of the implications of the use of discarded cathode-ray tubes for vitrification of high-level nuclear waste; and whether he has discussed this with the Committee for Radioactive Waste Management. [41518]

Malcolm Wicks: My right hon. Friend the Secretary of State has made no assessment of the use of cathode-ray tubes for inclusion in the vitrification process of high-level nuclear waste.

I am advised by the Nuclear Decommissioning Authority that obsolete cathode-ray tubes have been considered for vitrified glass, but were found to be unsuitable as they did not produce a product that met the high quality control specification for the vitrified glass waste form.

Renewable Energy

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what the market value is of 1MW/hr of power under the renewables obligation certificate scheme; and what that value was in each year since the introduction of the scheme. [40880]

Malcolm Wicks: This is no single market value for renewables obligation certificates (ROCs). The renewables obligation is a market-based mechanism, and so the value of individual ROCs varies according to a number of different factors including volume, liquidity, supply and demand.

However, the Non Fossil Purchasing Agency operates, on behalf of its clients, a biannual ROC auction. The average price for a ROC in the last auction, which was completed on 20 October 2005, was £39.17.

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what the total traded value in *(a)* financial terms and *(b)* MW/hr of the renewables obligation certificate scheme has been since its introduction. [40881]

Malcolm Wicks: The Government do not hold information on the market value or number of renewables obligation certificates (ROCs) traded since the introduction of the renewables obligation in 2002.

The renewables obligation is a market-based mechanism, and so the value of individual ROCs varies according to a number of different factors including supply and demand. In addition, not all ROCs issued by Ofgem will necessarily be traded. For example, electricity suppliers who are also renewables generators will have less need to trade ROCs than some other market participants.

Information on ROCs is published in Ofgem's Annual Report on the renewables obligation. A copy of which is available from the Libraries of the House.

Royal Mail

Gregory Barker: To ask the Secretary of State for Trade and Industry how much Royal Mail spent on employment and recruitment specialists in each year since 1997. [41910]

Barry Gardiner: This is an operational matter for Royal Mail and the chief executive has been asked to reply direct to the hon. Member.

Gregory Barker: To ask the Secretary of State for Trade and Industry what executive performance bonus scheme Royal Mail operates; and if he will make a statement on its objectives. [41912]

Barry Gardiner: As with other public limited companies, Royal Mail directors' remuneration is required to be published in its annual report and accounts. The latest accounts (2004–05) were published in May last year and a copy is available in the Libraries of the House.

Shrewsbury Power Station

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what plans there are to replace the power station near Buildwas in the Shrewsbury constituency. [41376]

Malcolm Wicks: This is a commercial matter for the company concerned.

CULTURE, MEDIA AND SPORT

2012 Olympics

Mr. Andy Reed: To ask the Secretary of State for Culture, Media and Sport what commitments the London Organising Committee of the Olympic Games has given to the International Olympic Committee with regard to enabling them to monitor and regulate betting on the Olympic Games. [42215]

Mr. Caborn: The International Olympic Committee did not request any guarantees of this sort from London 2012 during the bidding phase on betting and as such none were given. The London Organising Committee for the Olympic Games (LOCOG) is aware of its obligations under the Host City Contract and has discussed these with Government. LOCOG is also aware of the existing legal position relating to betting in the UK, where the onus remains on governing bodies and the organisers of sporting events to protect the integrity of their own events. The Gambling Act 2005 makes it a key objective of the Gambling Commission to

keep gambling crime free. The Gambling Commission will work closely with sporting and Olympic authorities to minimise potential threats to the integrity of Olympic events.

2012 Paralympics

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what support her Department plans to provide to disabled athletes to enable them to compete in the 2012 Paralympics; and if she will make a statement. [41475]

Mr. Caborn: Financial support to our very best disabled athletes to enable them to compete at the highest level is provided through UK Sport's World Class Performance Programme. The investment for Paralympic Sport in the build up to the Beijing 2008 Paralympics is £22.4 million, including £2 million for the British Paralympic Association. In addition, the Talented Athlete Scholarship Scheme and 2012 Scholarships provide financial assistance to talented athletes, including disabled athletes, who are committed to combining their sport and education to help fulfil their sporting potential. £17 million is being provided to support these schemes over the period 2004–08. The level of financial support to our very best athletes, including disabled athletes, beyond 2009 in the build up to Games in 2012 has yet to be determined.

Administrative Costs

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport which functions of her core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39944]

Mr. Lammy: Although DCMS retains policy and legislative responsibility for a number of functions in Wales and Northern Ireland none of these functions are carried out in the devolved countries themselves and therefore no administration costs are incurred directly by the Department.

Art/Sport (Disabled People)

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to meet its target for increasing the take up of arts and sports opportunities by people with disabilities; and if she will make a statement. [41474]

Mr. Lammy: The Department is taking significant steps to increase participation in the arts and sports by people with disabilities.

In Sport, through Sport England, the English Federation of Disability Sport (EFDS) receives £1.05 million funding each year. The EFDS is an umbrella organisation which brings together five disability sport bodies and disburses grants to other disability sport organisations and programmes.

There is also Lottery support for disability sport. The Inclusive Fitness Initiative (IFI), has received an initial £1 million in lottery money to make health and fitness facilities accessible to disabled people.

In November 2004, the Equality Standard was launched as a framework for assisting sports organisations to widen access and reduce inequalities in sport and physical activity from under-represented individuals, groups and communities. This includes people with disabilities.

In the Arts, several of the Arts Council's Regularly Funded Organisations (RFOs) produce work specifically with or for disabled people—the Shape network, the Disability Arts Forum network, Vocal Eyes, Theatre Resource and StageText. RFOs also provide training and participatory sessions aimed specifically at disabled people.

In February 2004, the Arts Council allocated capital investment totalling £4.3 million to six disability-led organisations from the Grants for the Arts Capital programme. This represents 7 per cent. of the total allocation through the programme.

The Arts Council also supports the National Disability Touring Network which works with a range of venues and promoters to help expand arts participation and attendance by disabled people.

Big Lottery Fund

Adam Price: To ask the Secretary of State for Culture, Media and Sport if she will place in the Library a copy of the deprivation index used for resource allocation by the Big Lottery Fund. [41183]

Mr. Caborn: There is no one deprivation index used for resource allocation by the Big Lottery Fund. I have asked the chief executive of the Fund to write to the hon. Member in more detail and I will place copies of his response in the Libraries of both Houses.

Consultants/Special Advisers

Mike Penning: To ask the Secretary of State for Culture, Media and Sport pursuant to her answer of 6 December 2005, *Official Report*, column 1094, on Consultants/Special Advisers, if she will place in the Library a copy of the ASK Europe plc report on 360 Degree Feedback; and if she will make a statement. [40750]

Mr. Lammy: From December 2003 to September 2004, DCMS ran a 360 Degree Feedback programme designed to increase self awareness and management performance among staff with line management responsibility. The contract was awarded to ASK Europe plc. after a competitive tender exercise. I am arranging for copies of ASK Europe's report on the programme to be placed in the Libraries of both Houses.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport when she will respond to the letter from the hon. Member for West Worcestershire of 21 November 2005. [41973]

James Purnell: I replied to the hon. Member's letter on 11 January.

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport when the Minister for Sport will reply to the letter of 25 November 2005 from the hon. Member for West Worcestershire. [42144]

Mr. Caborn: I am currently awaiting advice on the issues raised in the correspondence from your constituent, to which I hope to respond to shortly.

Departmental Expenditure

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport how much was spent by her Department on new works of art in each year since 1997; where each item is located; and whether each item is accessible to the public. [41327]

Mr. Lammy: The following figures represent how much the Government Art Collection (part of the Department for Culture, Media & Sport) has spent on works of art since 1 April1997, including the current Financial Year:

	£
1997–98	137,000
1998–99	127,000
1999–2000	179,000
2000–01	135,000
2001–02	158,000
2002–03	253,600
2003–04	225,200
2004–05	295,500
2005–10 January 2006	242,600

Some works of art included in these figures have been purchased or commissioned by the Government Art Collection on behalf of other Government Departments. These figures exclude works of art commissioned for the new Home Office building, Marsham Street, London as the project is ongoing and costs have not been finalised.

A list of current locations of works of art purchased since 1 April 1997 (as of 10 January 2006) and listed by Government Department and Government Art Collection (GAC), is provided in a separate document. I am arranging for copies of this document to be placed in the Libraries of both Houses.

The GAC's acquisition policy is guided by the Advisory Committee on the GAC which is a non-departmental public body. Members are both independent and ex-officio, including the Directors of the Tate, National Gallery and National Portrait Gallery.

The GAC plays a unique role in the UK in displaying works of art from its holdings in major Government buildings in the UK and abroad, in order to promote British art, culture and history. Due to the nature of Government buildings and current security issues, it is not possible for the general public to gain open access to most of the works on a daily basis. However, the buildings in which the works of art are displayed—in reception rooms, entrance halls, Minister's and ambassador's offices—all receive many thousands of visitors per year, all over the world.

Members of the public may consult the GAC to see individual works of art. Additionally, many Government buildings in the UK (including the GAC's own premises) are accessible during the annual Open House Weekend. The GAC also gives regular tours throughout the year round its premises, lends works of art to public exhibitions, and operates a website (www.gac.culture.gov.uk) listing and illustrating all its original works of art. A growing number of historical and modern prints are being added to this.

Digital Broadcasting

Mike Penning: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 15 December 2005, *Official Report*, column 2181W, on digital broadcasting, what estimate she has made of the *(a)* number of sets that will ultimately become surplus to requirement as non-digitalised and *(b)* total cost to the public of compliance with digitalisation; what regulations govern disposing of excess sets; and what estimate she has made of the cost of disposing. [41145]

Alun Michael: I have been asked to reply.

Digital switchover itself does not require any equipment to be thrown away, but its timing may affect the timing of disposal of some equipment such as rarely used televisions that people choose not to adapt. This may accelerate the process by which all electrical equipment would be disposed of in the natural course of events.

DTI and DEFRA have commissioned research to model any changes in patterns of waste disposal generate by digital switchover. The first results from this research are expected shortly.

A comprehensive assessment of total costs to consumers arising from digital television switchover was made in cost benefit analysis work undertaken by the Department of Trade and Industry and the Department of Culture, Media and Sport between 2002 and 2005. Details of this assessment also appear in the Government's Regulatory and Environmental Impact Assessment on the timing of digital switchover which was published on 16 September 2005.

Any additional waste electrical equipment produced as a result of the switchover will be disposed of subject to the requirement of the EU waste electrical and electronic Equipment (WEEE) directive. The planned WEEE regulations, which implement the directive, will make producers of electrical goods financially responsible for the collection, treatment and recycling of waste electrical and electronic equipment. The planned implementation of the WEEE regulations are currently under review and a new timetable for implementation will be announced shortly.

Elite Athlete Funding

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport from whom she has received representations on elite athlete funding since the pre-Budget report; and what view each expressed. [42705]

Mr. Caborn: In addition to periodic telephone calls and conversations between DCMS, UK Sport and BOA officials, the BOA wrote to the Department on 21 December about elite athlete funding. The letter expressed support for setting a target of 4th place in the Olympic medal table in 2012, and that there should be a six year funding package for elite athletes.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 December 2005, *Official Report*, column 32W, on elite athletes (funding), what the title was of UK Sports's submission; what level of funding it envisaged; over how many years; and what aspirational target for medals it set. [42737]

Mr. Caborn: UK Sport's submission to the Department was called "A Sporting Chance for all in 2012: Additional Funding to Support Team GB Success at the London 2012 Olympic and Paralympic Games: Options for the Chancellor's 2005 Pre-Budget Report: Submission from UK Sport".

The submission presents a 'top line' funding package together with a range of options for additional investment in the run-up to London 2012, starting in 2006. The submission identifies potential medal targets for 2012 depending on the resources available.

As this policy advice is under active consideration, it would not be appropriate to divulge further details.

Gender Equality (Sports Events)

Vera Baird: To ask the Secretary of State for Culture, Media and Sport what her policy is on whether there should be equal prize money for men and women participating in mixed events such as road races. [42391]

Mr. Caborn: The Government are committed to promoting equality in sport but decisions on prize money for men and women participating in mixed events are an issue for those organising the events.

Vera Baird: To ask the Secretary of State for Culture, Media and Sport whether the *(a)* Amateur Athletics Association and *(b)* UK Athletics will be subject to the duty to promote gender equality under the Equality Bill. [42396]

Mr. Caborn: The Government have consulted on the range of bodies they intend to require to comply with the specific duties under the Equality Bill. The consultation period ended on 12 January 2006 and all responses will be carefully considered.

German Football Grounds

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether the Government have requested an independent assessment of the safety of German football grounds to be used for the 2006 World cup; and if she will make a statement. [42703]

Mr. Caborn: The Government have not requested an independent assessment of the safety of German football grounds to be used for this summer's World cup.

While it is a matter for FIFA to decide whether any independent assessment is appropriate, the German FA has agreed to look at the concerns highlighted in the German consumer watchdog's report and I understand that the English FA will closely monitor the situation as necessary.

Gyms (Disabled Access)

Tim Farron: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 9 January 2006, *Official Report*, columns 39–40W, on gyms (accessibility), in which parliamentary constituencies the 180 local authority gyms which have received Sport England investment are located; what recent meetings Sport England and the English Federation of Disability Sport have had with Cannons and Fitness First to discuss improving provision for disabled people in private sector facilities; what was discussed; and whether they propose to meet other gym providers. [41921]

Mr. Caborn: Sport England and the English Federation of Disability Sport (EFDS) have met the Chair and chief executive of the Fitness Industry Association to discuss the implementation and delivery of a number of pilot projects in private sector gym facilities. Their aim is to encourage the implementation of the principles of the Inclusive Fitness Initiative to all providers.

Sport England is currently working with the following private gym providers: Fitness First, Colchester; Esporta, Guildford; Cannons, Paddington; Fitness Express, Kelling Heath; LA Fitness, Fornby; and Livingwell, Barnsley.

A list of the 180 local authority gyms supported by the Inclusive Fitness Initiative will be placed in the Libraries of both Houses.

Tim Farron: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 9 January 2006, *Official Report*, columns 39–40W, on gyms (accessibility), what *(a)* submissions she has made to and *(b)* discussions she has had with the Department for Work and Pensions inter-departmental group on disability regarding disabled user access to gymnasia. [42009]

Mr. Caborn: DCMS has made no submissions about disabled user access to gymnasia to the inter-departmental group on disability, nor has it raised this issue as a specific discussion topic for the group.

Tim Farron: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 9 January 2006, *Official Report*, columns 39–40W, on gyms (accessibility), which local authorities responded to her correspondence in August 2005. [42135]

Mr. Caborn: Our August 2005 letter to local authorities about the Disability Discrimination Act did not solicit a response. However, some local authorities have chosen to reply and these include:

Birmingham city council;

Manchester city council;

Sedgemoor district council;

West Lancashire district council;

Castle Morpeth borough council;

Selby district council.

Historic Sites

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport how many historic sites were on English Heritage's Buildings at Risk list in the London borough of Hammersmith and Fulham in each of the last five years. [41612]

Mr. Lammy: The number of historic sites on English Heritage's Building at Risk register for the London borough of Hammersmith and Fulham in each of the last five years is as follows:

	Sites
2005	7
2004	7
2003	8
2002	7
2001	7

During this period, three sites have been removed from the Register and a further three have been added.

Office Equipment

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport (1) how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) her Department, (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in each English region owned in (1) 2003–04 and (2) 2004–05; [40068]

(2) how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) her Department, (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in (1) Scotland, (2) Wales, (3) each of the English regions and (4) Northern Ireland owned in (x) 2003–04 and *(y)* 2004–05. [40110]

Mr. Lammy: My Department does not hold a record of the IT and telecommunications assets of its NDPBs, Agency or any other public body. The information could be collated only at disproportionate cost.

Olympic Development Authority

Peter Law: To ask the Secretary of State for Culture, Media and Sport what steps she has taken to ensure potential suitably qualified candidates for the Board of the Olympic Development Authority (ODA) are informed of the prospective recruitment; and whether she plans to make it her policy that each country within the United Kingdom is proportionately represented on the ODA board. [41543]

Mr. Caborn: The advertisements for membership of the Board of the Olympic Development Authority were published in National newspapers and on the Web and several hundred applications were received.

Board members will be selected from among the applicants according to how well they meet the requirements of the post. There are no plans to recruit board members on a geographical basis but we are committed to assembling the best talent from across the UK.

Press Complaints Commission

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport when the term of office of the current chairman of the Press Complaints Commission is due to end. [41870]

James Purnell: The Press Complaints Commission is an independent body, and Government plays no role in the appointment of any of its officers. However, I understand from the PCC that Sir Christopher Meyer's term of office will run until 31 March 2009.

Theatre Audiences

Mr. Pelling: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the percentage of audiences representing black and minority ethnic communities at *(a)* the National Theatre, *(b)* the Royal Opera House and *(c)* the English National Opera in the last year for which figures are available. [41132]

Mr. Lammy: 9 per cent. of English National Opera's (ENO) audience for the period 2004–05 were from the black and minority ethnic community. In addition, a February 2003 to May 2004 snapshot shows that 44 per cent. of participants in projects run by ENO Baylis (ENO's education programme) were from the black and minority ethnic community.

No comparable statistics were available for the Royal Opera House or National Theatre.

The Department for Culture, Media and Sport, working in partnership with its non-departmental public body partners, has commissioned the "Taking Part" survey which aims to improve our current knowledge of engagement in our sectors. The data collected will enable a robust measurement of the departmental Public Service Agreement (PSA) target on increasing participation and attendance amongst priority groups. These include people from the black and minority ethnic community.

Tourism

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the financial contribution of the tourist industry to London's economy in the last year for which figures are available. [40804]

James Purnell: The English regions 'First Steps Tourism Satellite Account' report (August 2005), sponsored by the English Regional Development Agencies, estimated that, in 2000, the contribution of tourism to regional Gross-Value Added (GVA) in London was around £7 billion, or 5.3 per cent.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many jobs she estimates the tourist industry creates in London. [40805]

James Purnell: The English regions 'First Steps Tourism Satellite Account' report (August 2005), sponsored by the English Regional Development Agencies, estimated that tourism industry employment in London was around 740,000 workers in 2000.

Violent Computer Games

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport if she will commission research on the impact of violent computer games on individuals. [41520]

James Purnell: We commissioned research last year to determine whether there was any substance to allegations of a link between playing violent computer games and violent behaviour in real life. We will be publishing the results of the research shortly.

DEPUTY PRIME MINISTER

Brixham Council Proposal

Mr. Steen: To ask the Deputy Prime Minister when he received draft proposals from Torbay council for the establishment of a town council for Brixham; if he will expedite his confirmation of receipt of the proposals to enable the town council to be established before 1 April 2007; and if he will make a statement. [40636]

Mr. Woolas: The Office of the Deputy Prime Minister received proposals from Torbay council for the establishment of a town council for Brixham on 1 December 2005. Officials in the Office of the Deputy Prime Minister wrote to Torbay council confirming receipt of their recommendation on 2 December 2005.

For administrative and financial purposes new parishes are established on 1 April in any year. The earliest date that the Office of the Deputy Prime Minister expects to establish a town council for Brixham is 1 April 2007.

Business Rates (London)

Mr. Hands: To ask the Deputy Prime Minister what the change in the amount raised through business rates was in each London borough in 2004–05 compared to the previous year. [41603]

Mr. Woolas: Details of the amount raised through business rates in each London borough in 2003–04 and 2004–05 are published on the Office of the Deputy Prime Minister's website at: http://www.local.odpm.gov.uk/finance/ctax/data/cp045tab4.xls

Correspondence

Tony Lloyd: To ask the Deputy Prime Minister when he will respond to the letter from the hon. Member for Manchester Central sent on 16 August 2005, reference number FIRE01002/SKL. [42431]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has no record of receiving my hon. Friend's letter of 16 August 2005. However, I have replied to my hon. Friends letter of 30 August on 9 January, which quotes the same reference number.

Departmental Estate

Pete Wishart: To ask the Deputy Prime Minister if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was *(x)* retained by his Department and *(y)* claimed by the Treasury. [40142]

Mr. Woolas: Since the formation of the Office of the Deputy Prime Minister in May 2002 no land or buildings for which it or its agencies are responsible have been sold. Information relating to non-departmental public bodies and independent statutory bodies is not held centrally, and could be provided only at disproportionate cost.

This answer does not include land and buildings occupied by Government offices, who carry out functions on behalf of 10 Government Departments.

Departmental Expenditure

Mr. Weir: To ask the Deputy Prime Minister what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of his (i) Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40105]

Mr. Woolas: The information requested is not held centrally, and could be provided only at disproportionate cost.

The Office of the Deputy Prime Minister has no properties in Scotland, Wales or Northern Ireland.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Deputy Prime Minister how many and what percentage of jobs in *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which his Department is responsible are located in (A) England, excluding Greater London and (B) Greater London. [39861]

Jim Fitzpatrick: The figures on permanent staff (FTE basis) in Departments and agencies are published in Table D of Civil Service Statistics. This information is available on the Cabinet Office Statistics website at:

http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

Information on staff in non-departmental public bodies on a regional basis is not held centrally, and could be provided only at disproportionate cost.

Departmental Targets

Mr. Amess: To ask the Deputy Prime Minister what discussions he has had with stakeholders about implementation of each of the targets in his Department's strategic priority *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five. [41015]

Jim Fitzpatrick: The Office of the Deputy Prime Minister works in partnership with all our delivery partners and stakeholders to deliver on our strategic priorities and public service agreement targets, and hold frequent discussions with them at the national, regional and local level.

Mr. Amess: To ask the Deputy Prime Minister if he will make a statement on the progress of each of the targets in his Department's Strategic Priority *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five. [41019]

Jim Fitzpatrick: The Office of the Deputy Prime Minister publishes an assessment of progress against our priorities and public service agreement targets in our annual and autumn performance reports. The latest assessment published was in the autumn performance report published in December 2005 (Cmd. 6722). The next assessment will be given in the annual report for 2005–06, due to be published in spring 2006.

Engagements

Norman Baker: To ask the Deputy Prime Minister pursuant to his answer of 9 January 2006, *Official Report*, column 254W on engagements, if he will list the meetings he had while in *(a)* Worthing and *(b)* Brighton; and whom he met in each case. [41916]

Jim Fitzpatrick: My right hon. Friend the Deputy Prime Minister visited Worthing and Brighton as part of a regional visit to the South Coast on 17 December 2005. In Worthing, my right hon. Friend the Deputy Prime Minister had a meeting to discuss regeneration initiatives in Shoreham and Worthing, at which council representatives and others involved in local regeneration projects were present.

In Brighton, my right hon. Friend the Deputy Prime Minister visited the Brighton Jubilee Library, where he discussed economic development in the city. Representatives from the local council, Local Strategic Partnership, Economic Partnership and Regional Development Agency were present. My right hon. Friend the Deputy Prime Minister also attended the Brighton and Hove Albion *v.* Hull City football match. Also present were a number of the directors of both clubs and their guests.

Home Information Packs

Mr. Drew: To ask the Deputy Prime Minister whether his Department will provide support for independents in the field of estate agents, surveyors and solicitors as home information packs become required by law. [41469]

Yvette Cooper: The Government are providing information, advice and other supporting material to all stakeholders, including the development and launch of a dedicated website targeting core stakeholder groups in spring 2006. This support will supplement industry initiatives including business solutions designed to meet the particular needs of small independent businesses.

Housing

Mr. Laws: To ask the Deputy Prime Minister how many new *(a)* council houses, *(b)* houses for social rent and *(c)* private homes have been built in each year since 1977–78 ; how many are planned for 2006–07 in each case; and if he will make a statement. [41437]

Yvette Cooper: Historical figures on house building by tenure in England are provided in the Housing Statistics Table 244 on the Office of the Deputy Prime Minister's website at:

http://www.odpm.gov.uk/embedded_object.asp?id=1156060.

Planned annual housing requirements are developed as part the Regional Spatial Strategies. The Government's response to Kate Barker's Review outlined its ambition to increase the rate of all house building from 150,000 net additional dwellings per year today to 200,000 net additional dwellings per year by 2016.

The Government set a target of providing 75,000 social rented homes, through a mix of new build and purchase, from 2004–05 to 2007–08. Of these it is estimated around 3,000 will be provided through local authorities and at least 60,000 through Registered Social Landlords. In addition housing will be provided under the Private Finance Initiative and by planning gain.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many local authorities have used provisions in the Local Government Act 2004 to borrow for housing; against what *(a)* revenue stream and *(b)* security such borrowing is allowed; what the process of authorisation for such borrowing is; and whether such borrowing is (i) on and (ii) off balance sheet on (A) local and (B) national level. [41150]

Mr. Woolas: No information is centrally available on the number of local authorities which have borrowed for housing under the powers in the Local Government Act 2003, which came into force on 1 April 2004. An authority's borrowing for its own housing stock must be affordable from the resources available from its housing revenue account. All money borrowed by a local authority has to be secured against its total revenues. Authorities may borrow for capital spending without Government consent, provided that they can afford to service the debt out of their revenues. Any borrowing by an authority will be on its balance sheet and would appear on the balance sheet of any national consolidation of local authority account.

Daniel Kawczynski: To ask the Deputy Prime Minister what plans he has for large scale housing development in Shrewsbury; what assessment he has made of the implications of such developments for green belt areas; and if he will make a statement. [40746]

Yvette Cooper: This falls within the responsibilities of Shrewsbury and Atcham borough council as the local planning authority. The allocation of sites for housing is a matter for the council to consider in the preparation of its new Local Development Framework (LDF). The First Secretary of State, my right hon. Friend the Deputy Prime Minister has a statutory role in relation to the LDF and proposals for individual sites may come before my right hon. Friend the Deputy Prime Minister for decision on appeal or call in. Therefore it would not normally be appropriate for my right hon. Friend the Deputy Prime Minister to become involved directly in local planning processes for Shrewsbury. There is no statutory green belt in the Shrewsbury area, but any development on greenfield sites should be considered by the council against relevant national planning policies and the Regional Spatial Strategy for the West Midlands, as well as the adopted local development plan.

Mr. Holloway: To ask the Deputy Prime Minister what percentage of new housing development in Gravesham has been on brownfield land in each year since 1997. [40754].

Yvette Cooper: The percentage of new housing development in Gravesham is as follows:

	Annual completions (gross)	*Number of dwellings built on brownfield land*	*Percentage of dwellings built on brownfield land*
2000–01	92	85	92
2001–02	104	98	94
2002–03	209	129	62
2003–04	225	219	97
2004–05	486	449	92
Total	1,116	980	88
Annual average	223	196	—

Figures showing the percentage of new housing development on brownfield land prior to 2000 are not available.

Mr. Holloway: To ask the Deputy Prime Minister what estimate he has made of *(a)* the number and *(b)* the total area of privately owned gardens in Gravesham that has been developed in each year since 1997. [40755]

Yvette Cooper: The following table provides the number of privately owned gardens that have been developed on between 2000 and 2003:

	Annual completions (gross)	*Number of units built on private garden land*
2000–01	92	2
2001–02	104	6
2002–03	209	2
2003–04	225	—
2004–05	486	—
Total	1,116	—
Annual Average	223	—

Please note that the size in hectares and the figures for annual completions (gross) prior to 2000 and after 2002–03 are not readily available, and could be provided only at disproportionate cost.

Mr. Holloway: To ask the Deputy Prime Minister how many hectares of *(a)* greenfield and *(b)* brownfield land have been developed in Gravesham in each year since 1997; and how many new homes such development has involved in each category. [40760]

Yvette Cooper: The following table provides the number of new housing developments in greenfield and brownfield land in Gravesham since 2000:

	Annual completions (gross)	*Number of units built on greenfield land*	*Number of units built on brownfield land*
2000–01	92	7	85
2001–02	104	6	98
2002–03	209	80	129
2003–04	225	6	219
2004–05	486	37	449
Total	1,116	136	980
Annual Average	223	27	196

Please note that the figures for annual completions (gross) prior to 2000 and the size in hectares is not readily available, and could be provided only at disproportionate cost.

Mr. Lancaster: To ask the Deputy Prime Minister (1) how much money he estimates the Government's proposed housing levy will raise in Milton Keynes unitary authority in each of the next five years; [40905]

(2) whether the housing levy raised within the Milton Keynes unitary authority will be ring fenced for use solely within Milton Keynes unitary authority. [40906]

Yvette Cooper: As part of its response to Kate Barker's Review of Housing Supply, the Government are currently consulting on the introduction of planning gain supplement (PGS), which would apply to residential and non-residential land. PGS would capture a modest portion of the land value uplift created by the planning process, in order to help finance additional infrastructure, while preserving incentives to bring forward land for development.

PGS would not be implemented before 2008. The level of PGS has not yet been set. It is premature to attempt to estimate the amount of PGS that might be raised in Milton Keynes unitary authority in 2008 and beyond.

PGS would be an essentially local measure. A significant majority of PGS revenues would be recycled directly to the local level for local priorities. This would help local communities to share better the benefits of growth and manage its impacts. As part of its consultation, the Government are consulting on how PGS revenues should be recycled to the local level for local priorities and how they should be used to fund strategic infrastructure at the regional level.

Separate from PGS there is currently a mechanism under section 106 of the Town and Country Planning Act 1990 as substituted by the Planning and Compensation Act 1991 whereby parties with an interest in land may enter into a planning obligation enforceable by the local planning authority. Such planning obligations are used to make acceptable development which would otherwise be unacceptable in planning terms, for example to compensate for loss or damage created by a development or mitigate a developments' impact.

An approach to standardising planning obligations has been developed in Milton Keynes. Milton Keynes Partnership Committee (MKPC, which has development control powers in the Milton Keynes expansion areas) has developed a "prospectus" identifying and prioritising the local and strategic infrastructure needed to deliver 15,000 homes in the expansion flanks over the period to 2016. The prospectus identifies the contributions to infrastructure that will be made by developers, through planning obligations, broken down on a per dwelling basis. The s106 contribution that developers are expected to make amounts to around £18,500 per dwelling, plus land for social infrastructure and affordable housing. This represents approximately one quarter of the total

£1.2 billion infrastructure cost of the infrastructure development identified by MKP, with the remainder to be sought from mainstream and growth area public sector funding. Further details of the expected uses of such contributions over the next five years can be found in recent MKPC papers (in particular September and December 2005) available online at: http://www.mkweb.co.uk/mkpartnership/home.asp.

Housing Act 2004

Mr. Pope: To ask the Deputy Prime Minister when he plans to issue guidance relating to the Housing Act 2004. [40038]

Yvette Cooper: The following table sets out the timetable for guidance relating to the Housing Act 2004. Guidance covering Wales is a matter for the National Assembly.

Housing Act 2004: Timetable for guidance

Provision/Part	*Proposed/Actual publication date of guidance*
Part 1—Housing Conditions	Statutory guidance for local authorities on the operation of the Housing Health and Safety Rating System was laid before Parliament on 28 November. Subject to the parliamentary procedure, it will be published before part 1 of the Act is implemented on 6 April, together with non-statutory guidance for other users of the rating system.
Parts 2, 3, 4 and 7—HMO and Selective Licensing	The Act does not provide for formal guidance but explanatory information will be made available for landlords and tenants. It is also intended that informal advice will be issued to local authorities in due course.
Part 4—Empty Dwelling Management Orders	March 2006
Part 5—Home Information Packs	Draft SI "The Home Information Pack Regulations 2006" and accompanying guidance published for consultation (consultation period ended 30 December 2005). Final version of regulations and guidance planned to be made in spring 2006. This will be supplemented by more general consumer guidance as part of planned publicity campaign on home information packs.
Part 6—Right to Buy modifications	Guidance has been issued for the changes to Right to Buy. The guidance booklet entitled 'Your Right to Buy your home' was revised together with the relevant Right to Buy forms. Copies of these have been issued to local authorities and housing associations. Guidance on landlords' discretion not to require repayment of discount, which was clarified by section 185 of the Act, was also issued in January 2005.
Part 6—Suspension of certain rights in connection with antisocial behaviour	ASB measures in part 6 of the Act commenced in June 2005. They include enabling local authorities to extend the period of introductory tenancies and withhold consent to mutual exchange on ASB grounds as well as measures to prevent tenants exercising the right to buy. We will be issuing a factsheet on these measures in the near future following commencement of associated regulations.
Part 6—Gypsy and Traveller accommodation needs assessments	We intend to publish guidance under section 226 of the Housing Act, in respect of section 225, which relates to the assessment of the accommodation needs of Gypsies and Travellers, in January 2006.
Part 6—Tenant Deposit Protection	Explanatory information to be issued from spring/summer 2006.

Park Homes

Mr. Pope: To ask the Deputy Prime Minister when he expects to conclude the review of park homes legislation. [40037]

Yvette Cooper: The Government introduced several provisions in the Housing Act 2004, which came into force on 18 January 2005. These implement some of the key recommendations of the Park Homes Working Party. The provisions in the Act also allow us to insert further amendments to the Implied Terms and Written Statement. We expect to make regulations in early 2006 that insert further amendments.

The remaining recommendations relate to the model standards, the commission payment and site licensing. We are currently consulting on proposed amendments to the model standards for park home sites, with a view to issuing the revised model standards by autumn 2006. We intend to consult on the commission payment during summer 2006. We consulted on proposals to amend the site licensing regime during spring 2005 and issued a summary of responses in summer 2005. The proposals require primary legislation. We will take this forward as soon as practicable.

Planning

Mr. Gauke: To ask the Deputy Prime Minister what rights of appeal residents have to a proposed development by a statutory undertaking in accordance with Schedule II, Part 17 of the Town and Country Planning (General Permitted Development) Order 1995 (S.I. 1995/418). [40964]

Yvette Cooper: Residents do not have a right of appeal in relation to the permitted development of statutory undertakers authorised by the General Permitted Development Order (GPDO). In exceptional circumstances a local planning authority may consider that normal planning control should apply to permitted development. The planning authority can make and submit to the Secretary of State, my right hon.. Friend the Deputy Prime Minister a direction under Article 4

of the GPDO seeking the removal of the particular permitted development right and requiring an application for planning permission. Each submission for an Article 4 direction is considered on its own merits.

Mr. Gauke: To ask the Deputy Prime Minister how many developments have been made by statutory undertakings in each of the last five years using powers contained in Schedule II, Part 17 of the Town and Country Planning (General Permitted Development) Order 1995 (S.I., 1995, No. 418). [40967]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

Mr. Lancaster: To ask the Deputy Prime Minister which organisation will be responsible for the collection of the Planning-gain Supplement. [42065]

John Healey: I have been asked to reply.

Alongside the 2005 Pre-Budget Report, the Government published Planning-gain Supplement: a consultation as part of its response to the Barker Review of Housing Supply. Box 1.3 of the consultation paper highlighted the main features of the proposed Planning-gain Supplement (PGS), including that PGS would be payable under a self-assessment regime administered by HM Revenue and Customs.

Mr. Benton: To ask the Deputy Prime Minister what criteria his Department used in taking the decision that the Ikea application for a new store in the town of Bootle would result in a negative rating. [41236]

Yvette Cooper: The First Secretary of State, my right hon. Friend the Deputy Prime Minister called-in the application for an IKEA store at Dunnings Bridge Road, Netherton, Sefton as it was considered that the proposal might conflict with national policies on important matters, in particular retail policies as set out in PPS6. The applicant has now withdrawn the application.

Private Rented Accommodation

Grant Shapps: To ask the Deputy Prime Minister how many students living in private rented accommodation were recorded in total in England on form CBT1 returned by local authorities on 21 October 2005. [41876]

Yvette Cooper: Information on the numbers of dwellings within each billing authority area that are subject to exemptions from council tax, or where some residents are disregarded for council tax purposes, are collected on the CTB1 (Supplementary) form. While some of the categories largely relate to students (e.g. exemption class N, for "a dwelling which is occupied only by students, the foreign spouses of students, or school and colleague leavers"), they do not provide a basis for making reliable estimates of the number of students living in private rented accommodation. This is because it does not include other information such as the tenure of dwellings, and the number of students in each dwelling, that would be needed to make an estimate.

Regional Government

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 21 November 2005, *Official Report*, column 1700W, on regional government (1) if the Government will review its classification of the regional chambers as voluntary bodies to take account of their new statutory powers and responsibilities over planning; [40043]

(2) whether the regional chambers are public authorities. [40042]

Yvette Cooper: Regional assemblies are bodies formed voluntarily within each region that have since been designated by Government to undertake specific activities. In the performance of these activities we would regard them as undertaking a public role and therefore need to be mindful of their duties, for example under the Human Rights Act 1998.

Right to Buy

Mr. Hands: To ask the Deputy Prime Minister how many right-to-buy completions there were in each London borough in each year since 1996–97. [41610]

Yvette Cooper: The number of right-to-buy completions in each London borough, for each of the most recent years can be found tabulated on the Office of the Deputy Prime Minister's website (table 4) at: http://www.odpm.gov.uk/embedded object.asp?id=1156373

Single Regeneration Budget Scheme

Keith Vaz: To ask the Deputy Prime Minister if he will make a statement on the role of appraisal panels in awarding development funding under the single regeneration budget scheme. [40639]

Yvette Cooper: The single regeneration budget consisted of six annual bidding rounds, running from 1995 to 2000. Government offices (and regional development agencies for rounds 5 and 6) were responsible for assessing bids received from applicants and making recommendations to Ministers.

To assist with bid assessment, each Government office created an advisory panel of private and public sector experts to provide advice about the bids against the key assessment criteria set out in the bidding guidance for each round.

Copies of the bidding guidance are available on the Office of the Deputy Prime Minister's website.

Keith Vaz: To ask the Deputy Prime Minister what guidelines his Department publishes on the tendering process for the allocation of single regeneration budget development funding. [40640]

Mr. Woolas: The single regeneration budget consisted of six annual bidding rounds, running from 1995 to 2000. The Office of the Deputy Prime Minister's (ODPM) predecessor Departments published detailed bidding guidance on each round for prospective bidders.

Copies of the bidding guidance are available on the ODPM website.

Town and Country Planning Act

Mr. Amess: To ask the Deputy Prime Minister how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted during 2004 of an offence under section 224(3) of the Town and Country Planning Act 1990. [41054]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

Waste Management

Daniel Kawczynski: To ask the Deputy Prime Minister what guidance his Department issues to county councils on their legal obligations to collect household waste from April 2007 in cases where a borough council chooses not to participate in a waste management partnership scheme. [40627]

Mr. Bradshaw: I have been asked to reply.

Defra has not issued guidance on these particular circumstances. The duties under the Environmental Protection Act 1990 for:

> district councils, as waste collection authorities, to collect household waste in their area and deliver it to their waste disposal authority; and,
>
> county councils, as waste disposal authorities, to arrange for the disposal of household waste collected by their district councils,

continue to apply where a district council chooses not to participate in a waste management partnership scheme.

FOREIGN AND COMMONWEALTH AFFAIRS

Airspace (Extraordinary Rendition)

Peter Law: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his interview on the Today programme on 12 December 2005, what methodology was used to check the allegations made by Liberty to several chief constables, to which he referred, on the United States policy of rendition of detainees. [41554]

Dr. Howells: I refer the hon. Member to the reply to the Rt. hon. Member for North East Fife (Sir Menzies Campbell) on 12 December 2005 (Official Report, column 1652–1653 W) and to the Written Ministerial Statement my Rt. hon. Friend the Foreign Secretary gave on 10 January (Official Report, column 5WS). These demonstrate that the US Government has sought the UK Government's permission before using UK airports and airspace for the purpose of rendition.

Since before 11 September 2001, we have worked closely with the US to achieve our shared goal of fighting terrorism. As part of that close co-operation, we have made clear to the US authorities, including in recent months:

> that we expect them to seek permission to render detainees via UK territory and airspace (including the Overseas Territories and Sovereign Bases);
>
> that we will grant permission only if we are satisfied that the rendition would accord with UK law and our international obligations, and
>
> how we understand our obligations under the UN Convention Against Torture.

We are clear that the US would not render a detainee through the UK without our permission. It has sought such permission in the past: in some cases we have agreed, in others we have not, as my right hon. Friend the Foreign Secretary has made clear.

Belarus

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage a fair presidential election in Belarus in March. [41389]

Mr. Douglas Alexander: The Government continue to raise the issue of free and fair elections with the Belarusian authorities, both bilaterally and together with EU partners. At November's General Affairs External Relations Council meeting in Brussels, EU partners called for the Belarusian Government to issue an early invitation to the Organisation for Security and Co-operation in Europe/Office for Democratic Institutions and Human Rights electoral monitoring mission, and stated the Council's willingness to take appropriate restrictive measures in the event of a failure to uphold international standards. A further discussion on Belarus will take place in January's Council meeting.

Burma

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent representations the British Government have made to Russia regarding *(a)* the situation in Burma and *(b)* placing Burma on the agenda of the United Nations Security Council; [41723]

(2) what representations the Government have made to Russia regarding the sale of a nuclear reactor to Burma. [42248]

Ian Pearson: Both our ambassador in Rangoon and our Mission to the United Nations in New York regularly discuss the situation in Burma with their Russian counterparts. They are fully aware of our views. On 16 December 2005 United Nations Security Council members, including Russia, met with the UN Secretary-General and senior UN officials in informal consultations to consider the situation in Burma.

The British ambassador has raised the issue of the possible sale of a Russian nuclear reactor to Burma with her Russian counterpart. There is no evidence that this matter has progressed beyond the signing of a memorandum of understanding.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made by the *(a)* British Government and *(b)* European Commission of the effectiveness of the EU common position on Burma. [41880]

Ian Pearson: We consider that the best interests of the people of Burma continue to be served by a twin-track common position of targeted measures against members of the regime, and humanitarian support to the poorest and most vulnerable. With our European partners and the European Commission, we keep the common position under review.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with Condeleeza Rice regarding the situation in Burma. [42244]

Ian Pearson: There have been no recent discussions with Condeleeza Rice regarding the situation in Burma. However, officials regularly discuss the situation in Burma with their counterparts in the United States.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK Government recognises the National League for Democracy as the winners of the 1990 elections in Burma. [42245]

Ian Pearson: Yes.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made in the past two years to companies importing Burmese goods into the UK. [42246]

Ian Pearson: The Foreign and Commonwealth Office has made no recent representations to companies importing goods into the UK, but our clear policy is not to encourage trade with Burma.

Caps Committee on Missing Person

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide further financial support to the Caps Committee on Missing Persons towards their general programme of exhumations and identifications due to start in Spring 2006; and if he will make a statement. [41334]

Mr. Douglas Alexander: The United Nations search for missing persons in Cyprus is both a humanitarian priority and a rare prospect for reconciliation between the two communities on the island. In 2004, we donated US$50,000 towards what we hope will become a truly successful confidence building measure. More recently, we have informed the Committee on Missing Persons and the British charity INFORCE, which is assisting in the new phase of the Committee's work, that we are happy to provide further funding of up to £45,000. We expect that this contribution will go towards training forensic archaeologists from both communities in the necessary skills for continuing this important work.

China (Arms Embargo)

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government supports the lifting of the EU embargo on arms exports to China. [42046]

Ian Pearson: I refer the right hon. Member to the answer I gave him on 14 December 2005, *Official Report*, column 2061W.

Christian Minorities

Mr. Andy Reed: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received from Christian minority groups from *(a)* Burma, *(b)* China and *(c)* Pakistan. [41048]

Ian Pearson: We have received no recent representations from Christian minority groups from China and Pakistan. However, the Foreign and Commonwealth Office continues to receive correspondence from UK-based organisations about the treatment of Christians in these two countries.

Officials at our embassy in Rangoon have frequent meetings with Christian and other minority groups in Burma. They have also provided funding to these groups for schools, orphanages and a peace and reconciliation project.

We are concerned about the situation of religious freedom in all three countries and we regularly raise those concerns with their governments, bilaterally and with our international partners.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 5 December 2005 from the right hon. Member for Manchester, Gorton with regard to Mr. T. Iqbal. [41840]

Dr. Howells: My right hon. Friend the Foreign Secretary replied on 9 January.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 5 December 2005 from the right hon. Member for Manchester, Gorton with regard to Ms R. Hughes. [41841]

Dr. Howells: We have no record of having received this letter and have requested a copy from my right hon. Friend's office. My right. hon. Friend the Foreign Secretary will reply as soon as possible after a copy of the letter is received.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what the annual expenditure on training and development by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [39980]

Mr. Straw: The approximate figures for expenditure on training and development are as follows:

Foreign and Commonwealth Office

	£000
2002–03	9,136
2003–04	11,429
2004–05	13,171
2005–06 (Est.)	14,919

Notes:
1. Includes all training and development costs (including languages, ICT, security, consular and visa work), most training-related travel where separately identifiable.
2. Excludes most staff costs, indirect and overhead costs.
3. Figures apply to the FCO's staff in the UK (all in the South East of England) as well as diplomatic missions overseas.

British Council

£000

	Total	Of which: Scotland	Wales	England	Northern Ireland
2002–03	5,200	14	8	5,172	6
2003–04	7,300	25	8	7,261	6
2004–05	6,500	25	6	6,456	13
2005–06 (Est.)	4,400	25	6	4,354	15

Notes

1. Includes all direct costs and fees, travel and accommodation, project budgets relating to staff development and the indirect cost of staff attendance.
2. Excludes apportionment of overhead costs.
3. British Council figures are not broken down by English region.

Wilton Park

£000

2002–03	15
2003–04	16
2004–05	15
2005–06 (Est.)	23

Note

Figures apply to the South East of England.

Westminster Foundation for Democracy

£000

2002–03	1
2003–04	1
2004–05	6
2005–06 (Est.)	10

Note

Figures apply to the South East of England.

No other non-departmental public bodies reported expenditure in any financial year over £1,000.

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on refreshments in each year since 1997. [41249]

Mr. Straw: Expenditure on refreshments can be identified only by examining individual transactions in the UK and at overseas Posts for the periods concerned. The information requested is not held centrally and could therefore be obtained only at disproportionate cost.

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41587]

Mr. Straw: The amount spent on salaries paid to UK based civil servants in each year since 1997 is as follows:

£

Financial year	Amount
1997–98	127,942,176.19
1998–99	128,674,412.28
1999–2000	135,464,386.85
2000–01	147,110,659.02
2001–02	152,775,417.07
2002–03	171,743,435.00
2003–04	177,045,645.99
2004–05	185,914,352.64

Departmental Functions

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39819]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) is a global network and carries out its core functions across the world through its 218 embassies, high commissions and consulates overseas. In the UK, policy and service delivery functions are carried out in London and the corporate function is split between London and Hanslope Park, near Milton Keynes.

I refer the hon. Member to the answer my hon. Friend the Minister for Trade, Investment and Foreign Affairs (Ian Pearson) gave to the hon. Member for Banff and Buchan (Mr. Salmond) on 13 December 2005, *Official Report*, column 1950W. The FCO does not identify its expenditure on administration costs by area.

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what functions in his Department are carried out in Scotland; and what the administrative costs of these functions were in the last year for which figures are available. [40015]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) is a global network which carries out its core functions across the world through its 218 embassies, high commissions and consulates overseas. The FCO has five officers working in the Glasgow office of UK Trade and Investment, a joint FCO and Department for Trade and Industry organisation. They are involved in assisting British companies in the gas and oil industries to find business abroad. The FCO does not identify its expenditure on administration costs by area.

Diplomatic Immunity

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 9 November 2005, *Official Report*, column 539W, on diplomatic immunity, if he will set out in his proposed written ministerial statement whether a prosecution for the offence was undertaken in the home country of the person holding the diplomatic immunity. [41903]

Mr. Straw: Further to my written ministerial statement of 12 December 2005, *Official Report*, columns 127–29WS, it is not within our remit to set out whether a prosecution for the alleged offence was undertaken in the home country of the person entitled to immunity. We do all we can to ensure that alleged offences committed in the UK are fully investigated and, if there is justification, the outcome determined by the UK courts. Where the sending State refuses to waive immunity to enable a prosecution to take place in the UK, we ask for the withdrawal of the diplomat. Once the diplomat has left the UK we consider this an end to the matter. Foreign missions are not obliged to inform me of action taken once the alleged offender has left the United Kingdom.

Embassy Function (Incident)

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 December 2005, *Official Report*, column 1388W, on damages, what the nature was of the incident that led to burns sustained at an embassy function. [40859]

Mr. Straw: The incident took place at a barbecue. Lighter fuel was spilled accidentally, ignited and burned the legs of a guest at the function.

Energy Supplies (Russia)

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions in the past 12 months on which Ministers in his Department have met representatives of the Russian Government to discuss the security of energy supply to the United Kingdom and EU. [41629]

Mr. Douglas Alexander *[holding answer 12 January 2006]:* On 4 October 2005, my right hon. Friend the Foreign Secretary took part in bilateral discussions in London with President Putin and senior members of his government during which a substantial exchange on energy security issues took place. The energy sector formed an important part of the EU engagement with Russia under the UK Presidency. This was most prominent in discussions held during the EU-Russia Permanent Partnership Council on 3 October 2005, co-chaired by my right hon. Friend, the Secretary of State for Trade and Industry, and also on 4 October during the EU- Russia Summit, hosted by my right hon. Friend the Prime Minister. Energy security will also be a key theme for the Russian G8 Presidency during 2006 and in preparation for this, senior FCO officials met with Russian counterparts in September 2005 in Moscow for economic talks which included discussion of energy supply issues.

EU Military and Policing Operations

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs what EU *(a)* military and *(b)* policing operations in countries outside the EU (i) are under way, (ii) are planned and (iii) have been carried out since 1997. [40940]

Mr. Straw: Since 1997 the European Union has conducted three military operations under the European Security and Defence Policy (ESDP): Operation Concordia in Macedonia (March-December 2003), Operation Artemis in the Democratic Republic of Congo (June-September 2003) and Operation Althea in Bosnia, which was launched in December 2004 and is ongoing. At this moment there are no additional EU military operations being planned.

There have been five ESDP civilian policing missions: the EU Police Mission in Bosnia (January 2003 to present); EUPOL Proxima in Macedonia (December 2003 to December 2005); the EU Police Advisory Team in Macedonia (December 2005 to present); EUPOL Kinshasa in the Democratic Republic of Congo (April 2005 to present); and EUPOL COPPS, the EU Police Mission for the Palestinian Territories. This last was launched on 1 January 2006 and is building on the work of the UK-led EU Coordination Office for Palestinian Policing Support. Current discussions about the EU's future role in Kosovo have included the possibility of a policing contribution.

There is a range of other ESDP missions currently active covering security sector reform, rule of law, ceasefire monitoring and border monitoring. The EU can also provide support, including military and police resources, to another international organisation, as it is currently doing for the African Union Mission in Sudan operation in Darfur.

Further details on all ESDP missions can be found on the FCO's website at:

http://www.fco.gov.uk/servlet/Front?pagename = = OpenMarket/Xcelerate/ShowPage&c = Page&cid = 1077042145284.

Hamas/Interpal

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether there are links between Hamas and Interpal; and if he will make a statement. [42089]

Dr. Howells: The Charity Commission has investigated Interpal on several occasions regarding their links with Hamas. They have found insufficient evidence to support taking action against Interpal.

Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence he has received that Iran is removing control seals from nuclear installations. [41830]

Dr. Howells: On 10 January, inspectors of the International Atomic Energy Agency (IAEA) confirmed that Iran had started to remove IAEA seals on enrichment-related equipment and material at its enrichment facility in Natanz. The IAEA expected the removal of seals at Natanz and at two related storage and testing locations to be completed by 11 January.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in securing the return from Iran of the naval and military equipment seized by them in the Shatt-al Arab. [42048]

Dr. Howells: We have raised the return of boats and equipment with the Iranian authorities on numerous occasions, at both Ministerial and senior official level, in Tehran and London. The British Ambassador in Tehran did so most recently on 12 December. Our discussions are continuing.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Iran's progress towards ratifying the Additional Protocol; and if he will make a statement. [42507]

Dr. Howells: In the 'Tehran Statement' of 12 October 2003, Iran agreed to sign an additional protocol to its Safeguards Agreement, and to commence ratification procedures. It further stated that

"as a confirmation of its good intentions, the Iranian Government will continue to co-operate with the [International Atomic Energy] Agency (IAEA) in accordance with the Protocol in advance of its ratification".

Iran signed the Additional Protocol on 18 December 2003. In the Paris Agreement of 15 November 2004, Iran again reaffirmed that it would

"continue to implement the Additional Protocol voluntarily pending ratification".

Iran has not yet ratified the Protocol. In its most recent resolution on 24 September 2005, the IAEA Board of Governors urged Iran

"promptly to ratify and implement in full the Additional Protocol"

and

"pending completion of the ratification of the Additional Protocol, to continue to act in accordance with the provisions".

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the progress made in the construction of the heavy water research reactor at Arak in Iran; and if he will make a statement. [42508]

Dr. Howells: International Atomic Energy Agency (IAEA) Director General Dr. Mohammed El Baradei confirmed in his November 2005 report that the Agency had carried out a design information verification visit to Arak and noted that the civil engineering construction of the reactor building was continuing. In declarations to the IAEA, the Iranian government has stated that the facility should be ready for commissioning in 2014. We are not aware of any change to this timescale.

We have made clear to the Iranians our concerns that this reactor design is not best suited to their declared research needs, but presents significant proliferation concerns in respect of its suitability for the production of weapons grade plutonium. This is why we have suggested to Iran for some time that it should acquire instead a research reactor moderated by light water. We made clear in our comprehensive proposal presented on 5 August 2005 that we would support them in doing this.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs when the return of British military equipment confiscated by Iran in the summer of 2004 was last raised by the UK Government's representative in Tehran; and what the result was of that discussion. [42509]

Dr. Howells: We have raised the return of boats and equipment with the Iranian authorities on numerous occasions, at both Ministerial and senior official level, in Tehran and London. The British Ambassador in Tehran did so most recently on 12 December 2005. Our discussions are continuing.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the stage that has been achieved by the Iranian government in the development of nuclear weapons technology; and if he will make a statement. [42510]

Dr. Howells: Iran is seeking to master enrichment technology. This would give it the capability to produce nuclear weapons grade enriched uranium. Iran's recent notification that it intends to resume research and development activity, including the introduction of nuclear material into enrichment centrifuges, is contrary to the calls expressed in repeated International Atomic Energy Agency Board resolutions and to Iran's own undertakings, and does nothing to resolve longstanding international concerns over Iranian government intentions.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for Thurrock of 9 January 2006, *Official Report*, column 193W, on Iran, when he expects the explanatory meeting between Iran and the EU scheduled for 2006 to take place; and if he will make a statement. [42717]

Dr. Howells: The E3/EU held exploratory talks with Iran on 21 December aimed at establishing whether a basis could be agreed for resuming negotiations on long-term arrangements for Iran's nuclear programme. We made crystal clear that a resumption of negotiations would only be possible if Iran refrained from any further erosion of its suspension of enrichment related and reprocessing activities, including research and development on enrichment.

Iran's decision to restart enrichment related activity on 9 January was a clear rejection of the diplomatic process the E3/EU and Iran have been engaged in for over two years with the support of the international community. In addition, it constitutes a further challenge to the authority of the International Atomic Energy Agency (IAEA) and international community. We have, therefore, decided to inform the IAEA Board of Governors that our discussions with Iran have reached an impasse.

Iraq

Colin Challen: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department has given to the Iraq Oil Ministry on the introduction of production sharing agreements. [41884]

Dr. Howells: The contractual arrangements for future oil exploration and production are a decision for the incoming Iraqi Government and the Government have not sought to influence this decision. The Foreign and Commonwealth Office did support a 2003 independent study which set out the full range of possible contractual financing arrangements to allow the rehabilitation and development of the Iraqi oil industry.

Under the outgoing Iraqi Transitional Government, the Ministry of Oil was clear that the option of concluding Production Sharing Agreements would be one of a range of contracts that might be needed to help redevelop the oil industry. This is because after decades of isolation, Iraq has weak technical and managerial capacity combined with an ageing infrastructure with severely outdated production facilities. Furthermore, there has been no explorations for new fields since the 1980s and limited post-2003 investment and poor maintenance. Given the state of the infrastructure, and the US$20 billion needed for reconstruction of the oil industry, it is highly unlikely that the Iraqi Government will be able to fund investment in the oil industry itself. Without the needed investment the oil industry will not be able to fuel the required sustainable economic growth in Iraq.

The Government reiterates, however, that the decision as to whether to conclude a Production Sharing Agreement will be for the Iraqi Government to decide.

Israel

Mr. Hunt: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department last met Israeli officials to discuss the security wall; and if he will make a statement. [41476]

Dr. Howells: The British ambassador in Tel Aviv last raised our concerns on the route of the barrier with the Director General of the Israeli Ministry of Foreign Affairs on 19 December.

We fully recognise Israel's right to self-defence. A barrier is a reasonable way to achieve this. But the barrier's route should be on or behind the Green Line, and not on occupied territory. Construction of the barrier on Palestinian land is illegal. The route is particularly damaging around Jerusalem, as it risks cutting the city off from the west bank and dividing the west bank in two.

We will continue to raise our concerns over the barrier with the Israeli Government at all levels.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likelihood of a pre-emptive strike by Israel on Iran's nuclear facilities. [41898]

Dr. Howells: My right hon. Friend the Foreign Secretary said in the House on 10 January that he had

> "made it clear that military action is not on our agenda, and I do not believe that in practice it is on anybody else's agenda."

Kashmir

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Governments of India and Pakistan on including representatives of the people of Kashmir in the next round of peace talks. [41305]

Dr. Howells: The UK supports the on-going Composite Dialogue process between the two countries. This aims to resolve all of their outstanding differences, including over Kashmir. For any such settlement to be durable, we believe that the views of the Kashmiris must be taken into account, and we continue to raise this with our Pakistani and Indian interlocutors. We therefore welcome the steps taken so far by Prime Minister Manmohan Singh to initiate a dialogue with Kashmiri separatists, and are aware of reports that a second round of talks may begin early this year.

Moldova

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit Moldova. [41544]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary has no plans to visit Moldova.

Organisation for Security and Cooperation in Europe

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding was contributed by his Department to the Organisation for Security and Cooperation in Europe in each year since 2001. [41949]

Dr. Howells: The United Kingdom's total contributions to the activities of the Organisation for Security and Co-operation in Europe were £17.3 million in 2001–02, £20.4 million in 2002–03, £24.8 million in 2003–04 and £24.8 million in 2004–05.

Pakistan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Pakistan on the growth in the number of cases being brought before the courts for the charge of blasphemy. [41527]

Dr. Howells: We make regular representations to the Government of Pakistan regarding the Blasphemy Laws. In December 2005 the UK and EU Partners démarche raised its concerns with the Government of Pakistan about the 19 cases of Blasphemy registered in 2005. With our European Union partners we encourage the Government of Pakistan to repeal or modify the Blasphemy Laws to remove the possibility of the Laws being misused.

Palestinian Authority

Mr. Fabian Hamilton: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Government funding for the Palestinian Authority is made *(a)* through the World Bank Trust Fund and *(b)* directly to the Palestinian Authority. [41933]

Hilary Benn: I have been asked to reply.

DFID provides support to the Palestinian Authority (PA) budget through the Reform Trust Fund managed by the World Bank. Since the fund's inception in January 2004 total DFID funding has amounted to £12 million. Funding is conditional on the achievement of benchmarks for reform, progress against which is carefully monitored. Through this process the Reform Trust Fund has helped the PA to improve its financial control and management.

DFID also provides financial aid and technical assistance to the PA in the areas of public administration and reform, budgeting and planning, security sector reform, statistics, and the water sector.

Public Diplomacy Review

Ms Gisela Stuart: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to respond to Lord Carter of Coles's Public Diplomacy Review. [41237]

Mr. Straw: In my written ministerial statement to the House on 15 December 2005, I welcomed the recommendations made in the noble Lord Carter of Coles's Review. I wrote to the noble Lord on 14 December 2005 making this clear. Public Diplomacy is a vital part of our work in promoting UK interests overseas. The Foreign and Commonwealth Office is committed to working closely with Public Diplomacy partners to achieve maximum impact from our public diplomacy activity. Work has already begun on

implementation of the recommendations. I intend to keep the Foreign Affairs Committee informed of progress.

Sharm El Sheikh Bomb Attacks

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether assistance given by his Department to the families of the victims of the Sharm El Sheikh bomb attacks in July was in line with his Department's usual practice; [40122]

(2) what assistance was given by his Department to the families of the victims of the Sharm El Sheikh bomb attacks in July. [40123]

Mr. Straw: The assistance given to the families of the victims of the Sharm El Sheikh bomb attacks incorporated the experience and lessons learnt from previous incidents.

The British ambassador in Cairo led a team to the scene arriving eight hours after the bombings; a rapid deployment team from London (including trained Foreign and Commonwealth Office (FCO) volunteers, the police, Red Cross and medical personnel) arrived within 24 hours. Further police staff for disaster victim identification deployed to Sharm El Sheikh the following day. A call handling centre was set up in the FCO within one hour of our hearing of the incident, with calls being transferred later in the day to the West Midlands police who acted on our behalf in the UK throughout the crisis on call handling, and on family liaison issues.

On the ground, we set up an office and provided support to survivors and visiting families, helped to arrange medical evacuations and, liaising with the tour companies, arranged for survivors to be flown home. We also helped to locate and repatriate those who died in this tragedy. Throughout, we worked closely with the Egyptian authorities.

The FCO also has in place a package of immediate assistance measures to help victims of terrorism overseas and their families in the immediate aftermath of an incident such as this. These measures were made available to the families affected.

South Africa (Chemical Weapons Data)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the South African Government has requested *(a)* information and *(b)* assistance from the UK Government in seeking to ascertain the extent of information or help extended by the Chemical Weapons Establishment at Porton Down to Wouter Basson during the period of the apartheid regime; and if he will make a statement. [39882]

Dr. Howells: I refer my hon. Friend to the reply my hon. Friend the former Minister of State at the Foreign and Commonwealth Office (Dr. Denis MacShane) gave him on 14 March 2005, *Official Report*, column 94W.

Spain

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit Spain. [41564]

Mr. Douglas Alexander: My right. hon. Friend the Foreign Secretary currently has no plans to visit Spain.

Staffing Costs

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what the staffing costs of each *(a)* embassy and *(b)* consulate were in the last year for which figures are available. [39687]

Mr. Straw: I am placing the information requested for the financial year 2003–04 in the Library of the House.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the use by the Sudanese authorities of amputation as a deterrent for crimes; and what representations he has made to them to end such punishment. [41814]

Ian Pearson: The UK believes that extreme punishments such as stoning, amputation and execution under Sharia law are wholly inconsistent with international human rights standards. We regularly raise with the Government of Sudan the need to respect human rights and abide by international human rights treaties such as the International Covenant on Civil and Political Rights. We are also pressing the Government of Sudan, both bilaterally and through multilateral forums such as the EU-Sudan Human Rights Dialogue, to ratify and implement human rights treaties to which it is not a party, including the UN Convention Against Torture.

Under the terms of the new Sudanese constitution, Sharia law, which allows for corporal punishment such as amputations, will apply in the states of Northern Sudan, but not Southern Sudan. The constitution also specifies that in the national capital non-Muslims shall not be subject to Sharia law, and that a Specialist Committee will ensure that Non-Muslims are not adversely affected by the application of the Sharia law in the National Capital. This committee was formed on 4 January 2006.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to help resolve the dispute between the North and South of Sudan over the allocation of oil wells; and if he will make a statement. [41831]

Ian Pearson: Under the terms of the Comprehensive Peace Agreement (CPA), revenue from oil resources shall be shared equally between the National Government and the Government of South Sudan, with a contribution going to the oil producing state. The Commission to define the boundaries of Southern Sudan in accordance with the CPA was established on 8 September 2005.

The National Petroleum Commission, comprising members of the National Congress Party, the Sudanese People's Liberation Movement and oil producing states, is tasked to formulate, monitor and assess policies on the petroleum sector, negotiate all new oil contracts and ensure transparency in the handling of all oil revenues. The UK is providing financial support to this commission.

We are pressing the parties to resolve any disputes using the mechanisms provided by the CPA. The UK also holds a seat on the Assessment and Evaluation Commission (AEC), which monitors implementation of the CPA. The parties to the CPA have the right to bring any disputes to the AEC for its recommendations, although no cases have yet been brought.

Terrorist Suspects (Guantanamo Bay)

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has *(a)* received and *(b)* made to the United States Administration on behalf of Bisher Al-Rawi and Jamil Al-Banna currently detained at Guantanamo Bay. [39152]

Dr. Howells: While it is long-standing policy that we cannot provide consular assistance for individuals who are not British nationals, we agreed exceptionally in March and April 2005 to meet the families of the five detainees in Guantanamo Bay whom we knew were resident in the UK, but who are not British citizens. My noble Friend the former Foreign and Commonwealth Office Minister of State, Baroness Symons of Vernham Dean, met the families and representatives of Bisher Al-Rawi on 5 April 2005 and of Jamil Al-Banna on 19 April 2005. We passed the concerns expressed to us by the families to the US authorities. We were additionally asked to submit an amicus curiae brief on behalf of these five detainees in court proceedings in the United States. We gave careful consideration to this request, but concluded that the most effective way to achieve real improvements to the situation of the detainees was through continuing discussions about Guantanamo and detainee policy with the US authorities.

We continue to receive correspondence from members of the public and others who have concerns about Guantanamo Bay, including about detainees who were resident in the UK. We have always made clear that we regard the circumstances under which detainees are continuing to be held in Guantanamo Bay as unacceptable. The US Government knows our views. We will continue to raise our concerns at official and ministerial level, and to work with the US authorities to resolve the issues of concern to us.

Uganda

Mr. Andy Reed: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he plans to have with Ugandan President Museveni about the imprisonment of opposition leader Kizza Besigye. [41033]

Ian Pearson: My right hon. Friend the Prime Minister raised the case of Dr. Besigye when he met President Museveni at the Commonwealth Heads of Government meeting in Valetta at the end of November 2005. My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, and our High Commissioner in Uganda have underlined the need for a transparent and fair civilian trial at the highest level of the Ugandan Government. We are encouraged that Dr. Besigye was released on bail on 2 January.

UK Ambassador (Buenos Aires)

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the works of art stolen from the UK ambassador's temporary residence in Buenos Aires in August 2001; what the value was of each item; and if he will make a statement on *(a)* the security arrangements in place at the time of the robbery and *(b)* any changes subsequently made. [40761]

Mr. Straw: In August 2001, our ambassador in Buenos Aires moved to a temporary residence in order that the principal residence be refurbished. During this move, a number of works of art were stolen from the ambassador's temporary residence shortly before it was occupied. These were:

"Offering to Jupiter" painting by Michael Rocca, value £80,000.

"Lake Landscape" painting by George Arnauld, value £35,000.

"St. James's Park and Banqueting Rooms" painting by Anthony Higmore, value £60,000.

"Landscape" painting by Edward Charles Williams, value £60,000.

"Sir Woodbine Parish" painting by Edmund Dyer (after Thomas Phillips RA), value £5,000.

Immediately following this incident, a full police investigation was initiated. The Foreign and Commonwealth Office (FCO) does not comment on specific security measures taken to protect its missions and residences overseas. However, the FCO takes the security of our staff and official premises very seriously and security arrangements at all our posts are regularly reviewed, including after incidents of this nature.

UK Embassies/Consulates

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of running each *(a)* embassy and *(b)* consulate in the last year for which figures are available. [39864]

Mr. Straw: I am placing details of the cost of each post in the Library of the House.

US Administration (Rendition)

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish the wording of questions *(a)* he and *(b)* his officials have put to the US Administration about rendition in each of the last six months. [41856]

Dr. Howells: It is not usual practice to make public the content of confidential ministerial or official exchanges with our international partners. We discuss security and human rights issues with the United States on a regular basis.

Since before 11 September 2001, we have worked closely with the US to achieve our shared goal of fighting terrorism. As part of that close co-operation, we have made clear to the US authorities, including in recent months:

that we expect them to seek permission to render detainees via UK territory and airspace (including Overseas Territories and Sovereign Bases);

that we will grant permission only if we are satisfied that the rendition would accord with UK law and our international obligations; and

how we understand our obligations under the UN Convention Against Torture.

West Papua

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what the source was of the advice to his Department that the recent use of Tactica water cannon vehicles by police in West Papua was for the purpose of dispersing a violent incident during which demonstrators were seeking to cause criminal damage to a public facility. [41946]

Ian Pearson: Following reports that Tactica water cannon had been used in Papua, an embassy official visited Papua and spoke to local community leaders and non-governmental organisations there.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what lines of inquiry his Department is pursuing to investigate the events that led to Tactica water cannon vehicles being used recently by police in West Papua on demonstrators, in addition to information from the Indonesian Government. [41947]

Ian Pearson: The British embassy has followed up reports that Tactica water cannon were used in Papua by speaking to a number of local community leaders and non-governmental organisations about the use of water cannon in Papua.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 8 December 2005, *Official Report*, column 1562W, on West Papua, what the reasons are for not making the reports available to *(a)* the public and *(b)* hon. Members; what his response would be to a freedom of information request for the same documents; and if he will make a statement. [42000]

Ian Pearson: Release of political reporting would cause harm to the effective conduct of international relations as it depends upon maintaining trust and confidence between Governments and international organisations. This relationship allows for the free and frank exchange of information on the understanding that it will be treated in confidence. By releasing information that they have provided strictly in confidence, there is a possibility that they would refuse to share similar information in the future. This would harm the UK's ability to protect and promote its interests through international relations, which there is a strong public interest in maintaining. For these reasons we consider that the public interest in maintaining this exemption outweighs the public interest in disclosing it.

These reasons apply equally if the reports were requested for release to the public, to Parliament or through Freedom of Information Act requests.

Wouter Basson

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations have been carried out as a result of the statement by South Africa's Deputy Defence Minister Kasrils that Wouter Basson obtained information from the United Kingdom in support of the apartheid regime's chemical and biological weapons programme; and if he will make a statement. [39743]

Dr. Howells: Following allegations that the Government was involved in providing information to personnel connected to South Africa's Chemical and Biological Weapons programme, the Government conducted full investigations into the allegations made. There was no evidence to suggest UK Government officials knowingly provided assistance to any South African Chemical and Biological Weapons programme.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what the reasons were for each of the three démarches made by and on behalf of the UK Government to *(a)* President Mandela and *(b)* the South African Government in respect of Wouter Basson; and if he will make a statement. [39798]

Dr. Howells: Démarches were made to the South African Government to highlight the Government's concerns about the onward proliferation risk of any remaining records or expertise relating to offensive Chemical and Biological Weapons programmes, and to encourage South Africa to submit a confidence building measure return to the United Nations in respect of the Biological and Toxin Weapons Convention.

NORTHERN IRELAND

Bill of Rights

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on progress made in implementing the proposal to establish a round-table forum to progress the debate about a Bill of Rights for Northern Ireland. [9129]

Mr. Hanson: I wrote to all Northern Ireland political party leaders on 28 December 2005 inviting each of them to meet with me to discuss their views on how we can work to build cross-community support for a Bill of Rights for Northern Ireland.

Civil Service

Mark Durkan: To ask the Secretary of State for Northern Ireland from which Departments of the Northern Ireland Office officials responsible for the Department's e-Business strategies were represented on the project board for the Northern Ireland civil service e-HR contract. [36176]

Angela E. Smith: The Government Departments from which officials responsible for the e-Business strategies were represented on the project board for the Northern Ireland civil service e-HR contract are as follows:

Department of Employment and Learning;

Department of Education;

the Office of the First and Deputy First Minister and

the Department of Enterprise Trade and Industry.

Correspondence

Lady Hermon: To ask the Secretary of State for Northern Ireland when he will reply to the letter dated

11 November 2005 from the hon. Member for North Down in relation to the Mental Health Unit at Ards hospital. [42721]

Mr. Woodward: There is no record of a letter dated 11 November 2005 being received by the Department of Health, Social Services and Public Safety in relation to the Mental Health Unit at Ards Hospitals.

Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many dental practices in Northern Ireland ceased to operate within the NHS during 2005. [42134]

Mr. Woodward: During 2005 two dental surgeries closed. In the first case, the dental contractor owned a second surgery and the registered patient list transferred to the contractor's other surgery. In the second case, all the registered patients were transferred to another NHS dental provider in the near vicinity.

Departmental Staff

Mr. Pelling: To ask the Secretary of State for Northern Ireland what steps are taken by the Department to support staff with mental ill health. [36271]

Mr. Woodward: The Northern Ireland Office provides emotional support, advice and factual information in a confidential manner to staff with mental ill health.

Occupational health services are available to help employees remain effective in work or to facilitate the successful return to work.

Two Northern Ireland Office Agencies offer staff an employee assistance programme, counselling and psychotherapy services.

Electricity Supply

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps are being taken to ensure continuity of supply to Northern Ireland electricity consumers following the recent problems at Coolkeeragh Power Station. [42274]

Angela E. Smith: In order to meet Northern Ireland's electricity demand during the current unavailability of Coolkeeragh power station, Northern Ireland's available generating capacity is being augmented by imports from Great Britain via the Moyle Interconnector and by energy trades with the Republic of Ireland via the North-South interconnector. In addition, Northern Ireland Electricity plc has taken steps to help maintain electricity supplies by ensuring that adequate stocks of back-up fuel are held at the Ballylumford and Kilroot power stations.

Coolkeeragh is in the process of resolving its current problem and expects to be able to generate again by 20 January 2006.

Health Boards (Agency Staff)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the costs have been to each health board of employing private agency staff in each of the last three years; and if he will make a statement. [42267]

Mr. Woodward: The bulk of the costs in question are incurred by the 19 HSS trusts. The information provided in the table relates agency expenditure to a trust's host Board i.e. the area in which each trust is located.

£000

Board	*2002–03*	*2003–04*	*2004–05*
EHSSB	14,822	16,503	19,428
NHSSB	3,247	8,209	8,258
SHSSB	1,272	1,108	811
WHSSB	2,777	3,506	4,522
Total	22,118	29,326	33,019

In addition, the Northern Ireland Ambulance Service, in providing its regional service, incurred expenditure on agency staff of £267,000 and £306,000 in the years 2003–04 and 2004–05 respectively. It incurred no such expenditure in 2002–03.

Hospital Parking

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many car parking spaces were provided by *(a)* Belfast City Hospital, *(b)* Mater Infirmorum Hospital, *(c)* the Royal Group of Hospitals and *(d)* Ulster Hospital in the last year for which figures are available; and how much was raised through parking charges by each hospital in that year. [40938]

Mr. Woodward: The information requested is set out in the following table.

	Number of parking spaces	*Amount generated for Trusts in 2004–05*
Belfast City Hospital	1,080	623,000
Mater Infirmorum Hospital	357	117,000
Royal Group of Hospitals	2,311	0
Ulster Hospital	1,082	357,000

Parking at the Royal Group of Hospitals is operated by Private Finance Initiative (PFI) and the car parking charges do not generate any income for the Trust.

Hospitals (Delayed Discharges)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the rate of delayed discharge was in each major hospital in Northern Ireland on the last date for which figures are available. [42266]

Mr. Woodward: The rate of delayed discharge, within each hospital who had any delayed discharges at 31 March 2005, is detailed in the following table.

Hospital	*Rate of delayed discharge (Percentage)*
Belfast City Hospital	3.77
Musgrave Park Hospital	3.77
Forster Green	2.42
Ulster Hospital	6.62
Bangor	10.15

Hospital	Rate of delayed discharge (Percentage)
Royal Victoria Hospital	4.54
Mater Infirmorum Hospital	2.43
Lagan Valley Hospital	3.39
Downe Hospital	10.28
Robinson Memorial Hospital	8.00
Dalriada	9.38
Causeway	7.34
Moyle Hospital	42.32
Whiteabbey Hospital	16.17
Mid-Ulster Hospital	11.78
Antrim Hospital	4.74
Braid Valley Hospital	53.05
South Tyrone Hospital	19.51
Mullinure	8.33
Craigavon Area Hospital	0.80
Daisy Hill Hospital	3.43
Altnagelvin Hospital	2.57
Erne Hospital	4.15
NI Average Rate	5.82

Notes:
Rate of delayed discharge is calculated by dividing the number of delayed discharges as at 31 March 2005 by the average number of available beds over the period 2004-05 for each hospital.

Source:
Hospital Information Branch

Invest NI

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what investment was made in Strangford constituency in the last five years by Invest NI; and if he will make a statement. [42264]

Angela E. Smith: During the past five years from April 2000 to March 2005, Invest NI, and its predecessor agencies offered assistance worth £9.5 million to businesses within the Strangford parliamentary constituency area. This contributed towards a total planned investment of £42.6 million.

This includes £1.4 million assistance offered to inward investment projects within Strangford, contributing towards a planned investment of £6.3 million.

The Invest NI Local Office Network actively promotes enterprise and business start-ups in the area through partnerships with local business development bodies and the district councils. The Start a Business Programme has supported 667 locally focused business starts within Strangford since September 2001 to date. These are estimated to produce an associated additional investment within the Strangford area of almost £6.7 million.

Northern Ireland Statistics and Research Agency

Sammy Wilson: To ask the Secretary of State for Northern Ireland (1) how many people are employed as researchers by the Northern Ireland Statistics and Research Agency; [40828]

(2) when payment of the last annual wage increase commenced for researchers within the Northern Ireland Statistics and Research Agency. [40829]

Angela E. Smith: Staff working in the Northern Ireland Statistics and Research Agency are employed by the Department of Finance and Personnel. At the end of December 2005 none of those staff were graded as researchers.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what contracts the Northern Ireland Statistics and Research Agency holds to collect statistics. [40830]

Angela E. Smith: The Northern Ireland Statistics and Research Agency currently holds two contracts:

Contract to undertake the Northern Ireland Household Panel Study (waves 5 through to 8).

Contract to undertake sweep 3 of the Millennium Cohort Study.

Sammy Wilson: To ask the Secretary of State for Northern Ireland if he will make a statement on the steps being taken to resolve the current pay disputes within the Northern Ireland Statistics and Research Agency. [40831]

Angela E. Smith: The chief executive of NISRA has sought delegated authority for the pay of survey interviewers with a view to resolving the outstanding pay issue for this group. The relevant trade union has been consulted on this issue and its views are currently being considered by the Department.

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people are employed by the Northern Ireland Statistics and Research Agency; and how many of these are regarded as employees of the Northern Ireland civil service. [40832]

Angela E. Smith: The number of staff working in the Northern Ireland Statistics and Research Agency at the end of December 2005 was 369, of whom 110 were graded as administrative staff and 242 were graded as statisticians. In addition, NISRA had 17 other staff (including students) on a casual basis. NISRA also has a field-force of 298 fee-paid survey interviewers who have a non-guaranteed hours contract unique to their role.

All staff working in the Northern Ireland Statistics and Research Agency are employed by the Department of Finance and Personnel, a Department of the Northern Ireland civil service.

The status of the interviewers is that they are employees of the Department but are not employed under the full range of terms and conditions of service applicable to civil servants.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what contracts the Northern Ireland Statistics and Research Agency has lost in each of the last three years. [40833]

Angela E. Smith: The Northern Ireland Statistics and Research Agency has not lost any contracts in the last three financial years.

Pathways to Work

Mr. Dodds: To ask the Secretary of State for Northern Ireland what Pathways to Work pilots are being carried out in Northern Ireland. [39224]

Angela E. Smith: Three Pathways to Work pilot programmes are currently under way in Northern Ireland in Ballymoney, Lurgan and Magherafelt. An announcement on future expansion of Pathways to Work will be made alongside publication of details of the Skills and Science fund shortly.

Police Training Centre

Dr. McCrea: To ask the Secretary of State for Northern Ireland when work is expected to commence on-site for the new police training centre for Northern Ireland; and when building work is likely to be completed. [28407]

Mr. Woodward: Subject to final decisions on the most appropriate funding arrangement the police hope to commence construction of the new Police College in the summer of 2007. We anticipate building will take some 2–3 years.

Premature Deaths

David Simpson: To ask the Secretary of State for Northern Ireland what recent estimate he has made of the number of premature deaths in *(a)* Northern Ireland and *(b)* Upper Bann caused by smoking. [36379]

Angela E. Smith: The number of premature deaths caused by smoking is not available in *(a)* Northern Ireland and *(b)* Upper Bann. as smoking history is rarely recorded on death certificates.

However, Northern Ireland level estimates can be made of the total number of deaths attributed to smoking by using information on the contribution that smoking makes to specific conditions recorded at death. The Health Development Agency[1] published the most recent estimates for Northern Ireland in 2004. This report estimated that in Northern Ireland each year over the period 1998 to 2002, 2,300 deaths can be attributed to smoking.

[1] Twigg, L., Moon, G., and Walker, S. The smoking epidemic in England, Health Development Agency, 2004 (http://www.publichealth.nice.org.uk/page.aspx?o = 502811).

Pre-School Provision Report

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the review of effective pre-school provision in Northern Ireland commissioned by the Department of Education concluded with respect to different pre-school settings and their respective impacts on children's development. [40764]

Angela E. Smith: The effective pre-school provision in Northern Ireland (EPPNI) project found that attending a pre-school setting, compared to none, enhances all-round development for all children, and that children benefit more from nursery school, nursery class or playgroup provision than from other types of pre-school provision.

Sammy Wilson: To ask the Secretary of State for Northern Ireland when the Department of Education will publish the findings of the effective pre-school provision in Northern Ireland study. [40765]

Angela E. Smith: The report of the effective pre-school provision in Northern Ireland (EPPNI) project is expected to be published by the end of February 2006.

School Transport Costs

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many pupils receive home-to-school transport in each of the board areas to *(a)* controlled schools, *(b)* maintained schools, *(c)* grant-maintained schools, *(d)* Irish-medium schools, *(e)* special schools, *(f)* voluntary grammar schools and *(g)* further education colleges; and what the cost per pupil is in each category. [40853]

Angela E. Smith: The education and library boards provided home to school and college transport to pupils broken down as follows:

	BELB		*NEELB*		*SEELB*		*SELB*		*WELB*	
Schools 2004–05	*Pupils*	*Unit cost (£)*	*Pupils*	*Unit cost (£)*	*Pupils*	*Unit cost (£)*	*Pupils*	*Unit cost (£)*	*Pupils*	*Unit cost (£)*
Controlled and Maintained	1,135	679	19,412	633	16,236	500	24,759	540	22,775	491
Integrated	1,272	447	1,547	687	1,895	506	1,349	720	1,877	458
Irish-Medium	83	446	77	2,052	77	792	73	1,274	154	901
Special	1,554	1,829	1,066	2,560	1,518	2,899	466	2,888	754	716
FE Colleges 2003–04[1]	395	268	3,999	223	1,367	485	2,331	443	1,515	456

[1] While details on schools are in respect of the 2004–05 financial year the latest available data with regard to FE colleges relates to the 2003–04 financial year.

Note:

Current statistics do not differentiate between pupils attending controlled, maintained and voluntary grammar schools. Also it is assumed the request in respect of grant-maintained schools is a reference with regard to integrated schools.

Sports Stadium

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of locating the new sports stadium for Northern Ireland at Ormeau Park in Belfast. [42725]

Mr. Hanson: Between May and September 2004, the Strategic Investment Board, on behalf of the Department of Culture, Arts and Leisure undertook a technical site evaluation exercise to help identify a suitable location for a multi-sports stadium for Northern Ireland. Ormeau Park in Belfast was assessed as part of this evaluation but was rejected due to planning and access problems with the site.

Temporary Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what action has been taken by the Department of Social Development where the Northern Ireland Housing Executive has been found to be

providing unsuitable or unsafe temporary dwelling for tenants whose permanent dwellings are undergoing improvement works. [42277]

Mr. Hanson: This is an operational matter falling within the day to day responsibility of the Northern Ireland Housing Executive. However, if such an occurrence were to be drawn to the Department's attention, the Housing Executive would be asked to take remedial action as quickly as possible. I understand that a problem has been identified in the Coleraine area where residents have complained about the condition of mobile homes which are being used for decanting purposes. I am advised that with the exception of one of these mobile homes where dampness was discovered they are fit for habitation. They are, however, hard to heat in the winter and I have asked the Housing Executive, therefore, to address this issue.

Water Charges/Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the cost will be of financing the implementation of the charging and billing system for new separate water charges; and who will be responsible for those costs. [40782]

Mr. Woodward: The total cost of financing the implementation of the charging and billing system is estimated at £15.9 million, with the cost being borne by the Department for Regional Development. The new systems, which form part of the reform programme to improve the efficiency and quality of water and sewerage services, will provide a customer contact centre and collect water and sewerage charges from domestic and non-domestic customers. When the new charges are fully phased in this will allow up to £300 million per year to be allocated to other public services in Northern Ireland.

Mark Durkan: To ask the Secretary of State for Northern Ireland how much was paid in *(a)* wages and *(b)* overtime in each of the Water Service telemetry centres in each of the last three years. [40641]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question:

Letter from Mrs. Katharine Bryan, dated 13 January 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about how much was paid in *(a)* wages and *(b)* overtime in each of the Water Service telemetry centres in each of the last three years (40641). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

A breakdown of the total wage costs for the Water Service's 4 telemetry centres during the financial years 2002–03 and 2003–04 is set out below. As part of the changes in the financial reporting procedures, occasioned by Water Service's reorganisation into a functionalised structure in 2004–05, the wage costs for all of the telemetry centres were grouped together under a single cost centre. It would therefore be difficult to extract a breakdown of the costs for 2004–05 across the 4 telemetry centres without a lengthy and costly manual exercise.

£

	2002–03			2003–04			2004–05
Telemetry centre	*Wages*	*Overtime*	*Other pay costs*[1]	*Wages*	*Overtime*	*Other pay costs*[1]	*Total pay cost*
Marlborough House (Craigavon)	62,400	36,400	55,100	66,100	37,800	55,800	143,800
Altnagelvin (Londonderry)	72,300	28,700	51,400	55,300	36,400	47,500	139,700
Academy House (Ballymena)	71,400	39,700	53,600	73,500	43,400	57,300	132,200
Westland House (Belfast)	54,600	56,300	51,500	[2]56,000	[2]57,700	[2]52,800	179,100

[1] Other pay costs include—Allowances, Employers National Insurance and Superannuation costs.
[2] The Westland House costs for 2003–04 are estimated—actual costs are not readily available.

EDUCATION AND SKILLS

Academic Performance

Mr. Laws: To ask the Secretary of State for Education and Skills if she will make a statement on academic performance by *(a)* primary and *(b)* secondary pupils in (i) Somerset schools, (ii) England and (iii) the south west. [41452]

Jacqui Smith: The 2005 national results show that standards in both primary and secondary schools are continuing to rise, with improvements at every key stage this year. Since 1997 at key stage 2, English has increased by 16 percentage points (pp) to 79 per cent. and in maths by 13 pp to 75 per cent.. Provisional results at key stage 3 show English has increased by 17 pp to 74 per cent.; in maths by 14 pp to 74 per cent.; in science by 10 pp to 60 per cent.; and in ICT by 19 pp to 69 per cent. At key stage 4 provisional results show the percentage of pupils achieving 5+A*-C GCSEs has increased by 10.6 pp to 55.7 per cent.

Standards of educational attainment in both primary and secondary schools in *(a)* Somerset and *(b)* the south west show that performance is above that of the national average. A summary of the 2005 outcomes is set out in the following table.

Information about education and skills by constituency is made available by the Department through the 'In Your Area' web site, available at http://www.dfes.gov.uk/inyourarea.

Performance level[1]

	Primary—KS2 percentage achieved level 4+			*Secondary—KS3 percentage achieved level 5+*				*Secondary—KS4 percentage achieved 5+ A*-C*
	English	*Maths*	*Science*	*English*	*Maths*	*Science*	*ICT*	*GCSE or equivalent*
Somerset[2]	80	76	88	77	77	75	75	57.9
National	79	75	86	74	74	70	69	55.7
South West	79	75	87	75	75	73	72	55.8

[1] Data for KS2 is amended. For KS3 and KS4 data are provisional.
[2] Overall figures for Bath and NE Somerset, North Somerset and Somerset local authorities.

Administrative Costs

Angus Robertson: To ask the Secretary of State for Education and Skills which functions of her core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39828]

Maria Eagle: All the core functions of the Department of Education and Skills are carried out in England at four locations, one of which is London. The Department and HM Treasury do not monitor administration costs by region. Further details of the Department's expenditure, including administration expenditure, are outlined in the Department for Education and Skills' Departmental Report 2005, a copy of which is available in the House Library (Cm6522).

Stewart Hosie: To ask the Secretary of State for Education and Skills what the total administrative costs for her core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39839]

Bill Rammell: The total administration costs for the Department are outlined in Annex E of the Department for Education and Skills' Departmental Report 2005, a copy of which is available in the House Library (Cm6522). All administration costs are identifiable for the purposes of public expenditure statistical analyses.

Mr. MacNeil: To ask the Secretary of State for Education and Skills what the administrative costs were of each agency for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39856]

Bill Rammell: The Department for Education and Skills is not responsible for any agencies. Further details of the Department's expenditure are outlined in the Department for Education and Skills' departmental report 2005, a copy of which is available in the House Library (Cm6522).

Mr. Salmond: To ask the Secretary of State for Education and Skills what the administrative costs were of each non-departmental public body for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40066]

Bill Rammell: The administrative costs for 2004–05 of those non-departmental public bodies for which the Secretary of State for Education and Skills has responsibility are listed as follows. All of these costs are regarded for the purposes of public expenditure statistical analyses as identifiable costs.

Net administration costs of non-departmental public bodies[1,2]

	£000
Adult Learning Inspectorate	25,818
British Educational Communications and Technology Agency	15,460
Children and Family Court Advisory and Support Service	105,304
Higher Education Funding Council for England	18,304
Investors in People	2,297
Learning and Skills Council	212,257
National College for School Leadership	17,677
Office for Fair Access[3]	410
Partnership for Schools[3]	7,667
Qualifications and Curriculum Authority	41,141
Sector Skills Development Agency	5,715
Student Loans Company[4]	48,337

Net administration costs of non-departmental public bodies[1,2]

	£000
Training and Development Agency for Schools	14,476
Construction Industry Training Board[3]	39,844
Engineering Construction Industry Training Board[3]	93
Total	554,800

[1] Receipts relating to administration costs have been deducted.
[2] Out-turn figures are from individual NDPB annual accounts.
[3] The Office for Fair Access and Partnership for Schools are new NDPBs set up in 2004–05.
[4] The SLC administration figures are for the whole of the UK and include contributions from Scotland and Ireland.
[5] Funded by industry levies and not from DfES funds.

Cassels Report

Norman Lamb: To ask the Secretary of State for Education and Skills what steps her Department is taking to implement the recommendation of Sir John Cassels in 2001 that a clearing house be developed for prospective apprentices and employers; when she expects to implement such a system; and if she will make a statement. [42329]

Phil Hope: We are committed to implementing the recommendation of a clearing house from the Modern Apprenticeship Advisory Committee report in 2001, and are currently working with the Learning and Skills Council to build on good practice from the various local, regional and sector-based models that are already operating. Our plans for 14–19 reform include significant engagement with employers, and we are considering a form of clearing house which will incorporate other opportunities for young people to gain experience in the workplace, such as work placements. The recently published 14–19 Implementation Plan states our intention to develop a clearing house by 2007/08.

Child Care Bodies

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many regulatory bodies for which her Department has responsibility regulate child care; and if she will make a statement. [42119]

Beverley Hughes: One. Ofsted regulates child care in England for children under eight. Through the Childcare Bill currently before Parliament, we are taking forward the commitments in our 10-year child care strategy published in December 2004 on reforming the regulation and inspection of child care.

Children's Centres

Mr. Laws: To ask the Secretary of State for Education and Skills how many children's centres opened in each year from 1999–2000; how many she expects will open in each year to 2010–11; and if she will make a statement. [41296]

Beverley Hughes: No Sure Start Children's Centres were opened between 1999–2002. Local authorities were asked to start planning the development of Children's Centres in February 2003 and 67 centres were designated in 2003–04. An additional 163 centres were designated in 2004–05, and we expect a further 600 centres to be designated in 2005–06. Local authorities are still developing plans for children centre delivery for 2006–08, and a breakdown of numbers of centres to be opened in these years is not centrally available. However, by the end of this period we expect at least 2,500 to be designated. The Government intend to develop 3,500 Sure Start children's centres by 2010. This will mean every community in England will have a children centre co-ordinating a range of integrated services for pre-school children and their parents.

Constructivist Approaches to Learning

Mr. Gibb: To ask the Secretary of State for Education and Skills what research her Department has carried out on the efficacy of constructivist approaches to learning. [40721]

Beverley Hughes: The Department has not commissioned any research exploring the efficacy of constructivist approaches to learning.

Degree Courses

Mr. Lansley: To ask the Secretary of State for Education and Skills how many students were admitted onto degree courses in each year since 1997–98, broken down by *(a)* socio-economic class and *(b)* ethnic group. [27540]

Bill Rammell: The latest available information is given in the following tables. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) which are limited to students who apply to full-time first degree courses via the UCAS application system. The figures do not therefore cover part-time students nor those full-time students who apply directly to Higher Education Institutions.

(a) Number of UK domiciled students accepted onto full-time degree courses by UK higher education institutions

	by social class				
	1997/98	*1998/99*	*1999/00*	*2000/01*	*2001/02*
Total number accepted	276,505	272,340	277,340	281,810	298,055
Of which:					
I. Professional	37,760	36,850	37,250	37,305	38,195
II. Intermediate	109,020	107,695	108,030	109,820	113,285
IIIN. Skilled non-manual	34,090	32,475	33,215	34,515	35,525
IIIM. Skilled manual	39,695	39,505	39,920	39,780	43,570
IV. Partly skilled	20,850	20,345	20,585	21,590	20,795
V. Unskilled	4,895	4,605	4,770	4,805	4,885
Unknown	30,195	30,870	33,570	33,995	41,800

by socio-economic group

	2002/03	2003/04	2004/05
Total number accepted	309,460	316,240	320,535
Of which:			
1. Higher managerial and professional	59,425	58,035	58,595
2. Lower managerial and professional	79,660	80,180	82,310
3. Intermediate occupations	39,835	38,930	39,500
4. Small employers	18,525	18,845	18,950
5. Lower supervisory/technical	11,835	12,695	12,540
6. Semi-routine	31,895	33,065	33,930
7. Routine	14,310	14,015	14,335
Unknown	53,970	60,480	60,375

Notes:

1. Numbers are rounded to the nearest 5 so components may not sum to totals.

2. The classification used to record the social background of students changed between academic years 2001/02 and 2002/03, and so the two sets of data in these tables are not directly comparable.

Source:

The Universities and Colleges Admissions Service (UCAS).

(b) Number of UK domiciled students accepted onto full-time degree courses by UK higher education institutions, by ethnic group

	1997/98	1998/99	1999/00	2000/01
Total number accepted	276,505	272,340	277,340	281,810
Of which:				
Asian	22,665	23,540	25,050	26,990
Black	8,330	7,980	8,350	8,910
White	224,450	216,880	219,920	222,045
Other	4,215	4,215	4,600	5,110
Unknown	16,845	19,730	19,415	18,750

	2001/02	2002/03	2003/04	2004/05
Total number accepted	298,055	309,460	316,240	320,535
Of which:				
Asian	28,820	28,775	29,735	30,565
Black	9,240	9,815	11,565	12,505
Mixed	5,150	5,850	6,420	7,215
White	231,370	238,350	244,300	247,990
Other	2,035	1,940	2,090	2,660
Unknown	21,445	24,725	22,130	19,600

Notes:

1. Numbers are rounded to the nearest 5 so components may not sum to totals.

2. The classification of ethnic group changed between academic years 2000/01 and 2001/02 in order to incorporate those of mixed ethnicity, and so the two sets of data in these tables are not directly comparable.

The Universities and Colleges Admissions Service (UCAS).

Departmental Estate

Mr. Weir: To ask the Secretary of State for Education and Skills what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) her Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which her Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40073]

Maria Eagle: The following table details expenditure on buildings and insurance of buildings for the Department.

	2004/05		Planned 2005/06	
Region	*Rent, rates and service charge*	*Insurance*	*Rent, rates and service charge*	*Insurance*
London	23,253,389	77,800	23,253,389	80,000
North West	589,736	0	591,250	0
Yorkshire and the Humber	945,355	0	945,355	0
North East	188,000	0	188,000	0
South East	123,621	8,000	124,500	8,500
East of England	218,908	4,637	186,863	3,500
West Midlands	63,212	0	15,750	0

The Department do not hold any records of property expenditure by NDPBs, Executive agencies or other public bodies for which the Department is responsible.

The information requested for the years 2002 to 2003 and 2003 to 2004 could be provided only at disproportionate costs.

Departmental Expenditure

Mr. Spellar: To ask the Secretary of State for Education and Skills how much her Department spent on bottled water in 2004–05. [40337]

Maria Eagle: Our data show that £58,401 was spent via the Department's framework contract. £39,875 of this total was spent on bottled water, the remainder being on ancillary products such as cups and maintenance.

A further £43,629 was spent "off contract". To provide the information requested for this spend could be provided only at disproportionate costs.

Disabled Children (School Holiday Support)

Ed Balls: To ask the Secretary of State for Education and Skills how many qualified staff are available to support families with disabled children during school holidays in *(a)* West Yorkshire, *(b)* Wakefield District and *(c)* Normanton constituency; and whether she plans to increase resources in this area. [41096]

Maria Eagle: The information requested is not held by the Department and to collect it would incur disproportionate cost.

Education Maintenance Allowance

Mr. Laws: To ask the Secretary of State for Education and Skills what her estimate is of total spending on the education maintenance allowance for each year from 2003–04 to 2008–09. [41455]

Maria Eagle: Spending on the education maintenance allowance programme is within the Treasury's annually managed expenditure (AME). The following table shows, for 2003–04 and 2004–05, actual spend on the programme through AME, and for the years 2005–06 to 2008–09, the provision made in AME for the programme based on an assessment of take up in future years. These figures were correct at the time of the pre-Budget report in November 2005. AME programme forecasts are updated every six months.

EMA provision made in AME

	£ million
2003–04 actual	142
2004–05 actual	260
2005–06 planned	432
2006–07 planned	569
2007–08 planned	589
2008–09 planned	598

Education Spending

Harry Cohen: To ask the Secretary of State for Education and Skills what percentage change in educational spending per pupil is proposed for 2006–07 in *(a)* Redbridge and *(b)* Waltham Forest; what this equates to in money terms per pupil; and what the total expenditure per pupil will be in 2006–07 in each borough. [42681]

Jacqui Smith: The information is set out in the following table. All figures are for allocations of Dedicated Schools Grant (DSG) per pupil. Authorities must apply the whole of their allocation of DSG to their schools budget, but they are free to add to it from their own resources: final figures for total expenditure per pupil may therefore be higher than the authority's allocation of DSG per pupil.

	Redbridge	*Waltham Forest*
Percentage increase	7.3	6.9
Cash increase (£)	255	264
Total Dedicated Schools Grant (£)	3,757	4,115

Mr. Laws: To ask the Secretary of State for Education and Skills what per capita spending on primary school pupils in England was as a percentage of per capita spending on secondary school pupils in each year from 1978–79; and if she will make a statement. [41448]

Jacqui Smith: The available information is contained within the following table. Similar data are not available before 1992–93.

School based expenditure[1,2,3] per pupil[2] in local authority maintained primary and secondary schools since 1992–93[3]

£ cash terms prices

	Primary[4] (£ per pupil)	*Pre-primary and primary[4] (£ per pupil)*	*Secondary (£ per pupil)*	*Primary (£ per pupil as a percentage of secondary £ per pupil)*	*Pre-primary and primary (£ per pupil as a percentage of secondary £ per pupil)*
1992–93	n/a	1,560	2,260	n/a	69.2
1993–94	n/a	1,610	2,240	n/a	71.9
1994–95	n/a	1,660	2,270	n/a	73.1
1995–96	n/a	1,690	2,300	n/a	73.8
1996–97	n/a	1,740	2,350	n/a	74.0
1997–98[5]	n/a	1,740	2,360	n/a	73.6

1999–2000[4,6]	2,010	2,050	2,610	76.9	78.5
2000–01	2,210	2,280	2,830	78.2	80.5
2001–02	2,480	2,570	3,150	78.7	81.4
2002–03[7]	2,530	n/a	3,230	78.5	n/a
2003–04	2,750	n/a	3,550	77.7	n/a
2004–05	2,910	n/a	3,800	76.7	n/a

n/a = figures are not available.

[1] School based expenditure includes only expenditure incurred directly by local authority schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[2] The expenditure data to 1998–99 are drawn from the annual 'RO1' spending returns which local authorities submitted to the Department of Environment, Transport and the Regions. Figures for 1999–2000 to 2001–02 are drawn from section 52 (table 3) outturn statements which local authorities submitted to the DfES. Figures for 2002–03 onwards are taken from section 52 (table A) outturn statements. The change in sources is shown by the blank rows. The pupil data are drawn from the DfES Annual Schools Census adjusted to be on a financial year basis.

[3] From 2002–03 the calculation is broadly similar to the calculation in previous years. However, 2001–02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses, while from 2002–03 only the schools element of these categories is included. In 2001–02 this accounted for approximately £70 per pupil

of the England total, while the schools element of these categories accounted for approximately £50 per pupil of the England total in 2002–03. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002–03 and would therefore be excluded, though this is not quantifiable from existing sources.

[4] Expenditure was not distinguished between the pre-primary and primary sectors until the inception of section 52 for financial year 1999–2000.

[5] Spending in 1997–98 reflects the transfer of monies from local government to central Government for the nursery vouchers scheme. These were returned to local government from 1998–99.

[6] The expenditure data for 1999–2000 onwards reflect the return of grant maintained schools to local authority maintenance.

Note:

Figures are reported in cash terms as at 11 January 2006 and rounded to the nearest £10 and may not sum due to rounding.

Educational Psychologists

Mr. Gibb: To ask the Secretary of State for Education and Skills how many educational psychologists are employed by local education authorities. [39516]

Jacqui Smith: Information on the number of educational psychologists in service is collected in January of each year. The following table provides the full-time equivalent number of educational psychologists employed in each local authority in January 1997 and 2005.

Full-time equivalent number of educational psychologists[1] in local authorities in England, January 1997 and 2005

Annual survey of teacher numbers and teacher vacancies, Form 618g.

Falling School Rolls

Mrs. Hodgson: To ask the Secretary of State for Education and Skills what assessment has been made by the Department of the effects of falling school rolls in *(a)* the North East and *(b)* Gateshead, East and Washington, West constituency. [41621]

Jacqui Smith: The Department's national forecasts indicate that primary school rolls will fall by 129,000 between 2004/05 and 2007/08 with secondary rolls falling by 133,000 between 2004/05 and 2007/08.

Local authority forecast data are at authority level and we do not have forecasts for the Gateshead, East and Washington, West constituency. Gateshead local authority's 2004 forecasts indicate that primary rolls will fall by 1,176 between 2004/05 and 2007/08 and secondary rolls will fall by 422 between 2004/05 and 2010/11. Sunderland local authority's 2004 forecasts indicate that primary rolls will fall by 2,739 between 2004/05 and 2007/08 and secondary rolls will fall by 1,876 between 2004/05 and 2010/11. We have developed a toolkit offering practical advice to help local authorities manage the challenges and opportunities presented by falling primary rolls. The toolkit is available at www.teachernet.gov.uk/fallingrolls.

Foster Carers

Kerry McCarthy: To ask the Secretary of State for Education and Skills what steps the Government are taking to ensure that foster carers are not discouraged by the welfare and benefits system from taking children on foster placements, with particular reference to housing benefit; and if she will make a statement. [41597]

Maria Eagle: Foster carers play a vital role and we are committed to ensuring that they are not discouraged from caring for children by financial issues.

All payments to foster carers in respect of children placed with them are disregarded in the calculation of entitlements for income support, income-based jobseeker's allowance and housing benefit. For the purposes of jobseeker's allowance, foster carers are treated as not being in remunerative work and so no account is taken of the hours spent in 'caring' for the children whom they are fostering. In cases where single foster parents are caring for a child, they are treated in the same way as lone parents in terms of their entitlement to income support (provided they meet the criteria). This means that their potential entitlement is not dependent on their availability for employment.

Moreover, in March 2003 Home Responsibilities Protection was extended to include foster carers. The number of years they need to work to qualify for the state pension will therefore be reduced to take into account their years of caring (including periods when they are awaiting a placement), thereby increasing their long-term financial security.

Fosterline, a new advice line funded by the DfES, offers information for prospective and existing foster carers on a range of issues, including benefits.

More widely, we are seeking to improve the financial support that foster carers receive through the introduction of a national minimum allowance. We shall be consulting on our proposals later this month.

Further Education

Kelvin Hopkins: To ask the Secretary of State for Education and Skills what plans she has to promote a national brand for *(a)* sixth-form colleges and *(b)* general further education colleges, as recommended in the Foster report. [41553]

Bill Rammell: As the Secretary of State for Education and Skills said at the Association of College's annual conference on 16 November, we think Sir Andrew Foster has produced an impressive report which sets out a clear direction of travel. We want to take the time to consider the detailed recommendations in Sir Andrew's report. These recommendations, and how they should be taken forward, are being discussed with the Learning and Skills Council, colleges and other stakeholders. This includes those recommendations that relate to the branding and reputation management of FE and sixth-form colleges. We plan to announce in the spring the next stage of our reform of further education.

Stephen Pound: To ask the Secretary of State for Education and Skills (1) what steps she is taking to ensure that the Learning and Skills Council is able to fund further education colleges sufficiently to meet the demand for places on non-basic skills courses for people aged over 19 years; and if she will make a statement; [40704]

(2) what assessment she has made of the extent to which the Learning and Skills Council is able to fund further education colleges sufficiently to meet the demand from those wishing to study English for speakers of other languages courses; and if she will make a statement. [40705]

Bill Rammell: On 21 October the Government set out their priorities for post-16 education including adult line. I set out the Government's priorities for the learning and skills sector and the impact on funding in 2006–07 and 2007–08 on the 21 October, and full details can be found in "Priorities for Success" on the LSC's website. Overall funding for further education (FE) which includes adult skills increased by 4.4 per cent. in 2005–06. Funding for non-vocational learning opportunities for adults, delivered mainly through local authority adult education services, has also increased. In 2004–05 we provided over £207 million to the Learning and Skills Council (LSC) in support of this learning. This has risen to £210 million in 2005–06. After piloting from 2002 we have also announced the national roll-out of the National Employer Training Programme in 2006–07 with a budget rising to £399 million in 2007–08. Through their dialogue with providers and their assessment of the needs of local communities, LSCs agree plans which enable colleges and other providers to deliver a wide range of learning opportunities to meet the needs of learners and employers. Literacy, numeracy and English language learning is a key priority.

Graduates and Postgraduates

Tim Farron: To ask the Secretary of State for Education and Skills what percentage of working age people have held a qualification at *(a)* degree level or equivalent and *(b)* above degree level in each parliamentary constituency in each year since 1997. [40698]

Bill Rammell: The information requested has been place in the House Libraries.

HE/FE Drop-out Rates

Greg Clark: To ask the Secretary of State for Education and Skills what statistics the Government keep on drop-out rates from further and higher education courses. [42015]

Bill Rammell: Since 1996/97, information on projected non-completion rates for higher education students has been published annually, initially by the Higher Education Funding Council for England (HEFCE) and latterly by the Higher Education Statistics Agency (HESA) in "Performance Indicators in Higher Education". The latest available figures giving overall non-completion rates for students starting full-time first degree courses in England are shown in the table. Figures published in 2005 by the Organisation for Economic Co-operation and Development (OECD) showed that in 2003 the UK had one of the lowest higher education non-completion rates among OECD countries.

Percentage of UK domiciled full-time first degree students expected neither to obtain an award nor transfer—English higher education institutions

Percentage

Students starting courses in:	*Non-completion rate*
2002/03	13.9
2001/02	13.8
2000/01	15.0
1999/2000	15.9
1998/99	15.8
1997/98	16.1
1996/97	15.7

Source:
"Performance Indicators in Higher Education", published by HESA. For 2002/03, the projected outcomes summarise the pattern of movements of students at institutions between 2002/03 and 2003/04 and give the outcomes that would have been expected from starters in 2002/03 if progression patterns were to remain unchanged over the next few years. The HESA data show the proportion of entrants who are projected to: obtain a qualification (either a first degree or another undergraduate award); transfer to another HEI; neither obtain a qualification nor transfer (i.e. fail to complete the course).

One of the measures used by the Government to monitor performance in further education is the learner retention rate. The learner retention rate is the proportion of qualification aims for which all learning activities were completed.

Learner retention rates are published annually in a Statistical First Release (http://www.dfes.gov.uk/rsgateway/DB/SFR/s000583/index.shtml). The overall learner retention rate for FE colleges was 85 per cent. in 2003/04, the latest year for which final data are available.

Retention rates for individual colleges can be downloaded from the LSC website (http://benchmarkingdata.lsc.gov.uk/year8/index.cfm). For the middle 80 per cent. of colleges the retention rate in 2003/04 lay in the range 78 per cent. to 91 per cent.

Retention rates are highly dependent on the mix of qualifications done at a college. A college that does few short courses and many full courses is likely to get a

relatively low retention rate, simply because the national retention rate for short courses is relatively high and the national retention rate for full courses is relatively low.

FE college retention rates and HE institution non-completion rates are collected in different ways and are not comparable.

Healthy Schools

John Bercow: To ask the Secretary of State for Education and Skills if she will list the schools which have achieved healthy schools status, broken down by local education authority. [39443]

Jacqui Smith: The information requested has been placed in the House Libraries.

Higher Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many further education students went on to university in the last year for which figures are available. [24999]

Bill Rammell: The latest information is given in the table.

Accepted applicants to full-time undergraduate courses by previous school type UK institutions 2004/05

School type	*Acceptances*
Further education	112,395
Maintained schools	123,315
Independent schools	31,390
Other	4,125
Not known	63,065
Total	334,295

Source:
Universities and Colleges Admissions Service (UCAS).

Dr. Gibson: To ask the Secretary of State for Education and Skills how many pupils in *(a)* Sprowston High School, *(b)* Kellesden High School, *(c)* King Edward School and *(d)* Norwich High Street in Norwich progressed to (i) medicine, (ii) law and (iii) science subjects at university in the last five years. [37916]

Bill Rammell: Figures on the number of pupils from individual schools entering higher education are not calculated by the Department. Information on the number of entrants from Norwich, North constituency are given in the table. Figures for 2004/05 will be available later in January.

18-year-olds entrants to HE courses from Norwich, North constituency

Academic year	*Pre-clinical medicine*	*Law*	*All sciences*[1]	*All subjects*
2000/01	[2]	5	55	140
2001/02	[2]	5	65	160
2002/03[3]	[2]	5	80	165
2003/04	5	10	65	175

[1] 'Sciences' includes 'Medicine and Dentistry', 'Subjects allied to Medicine', 'Biological Sciences', 'Physical Sciences', 'Computer Sciences', 'Mathematical Sciences', 'Architecture Building and Planning' and 'Engineering and Technology'.
[2] less than 3.
[3] In 2002/03 a new coding frame for recording subject of study was introduced, as was a new method of apportionment between subjects studied. As such, figures for 2002/03 onwards are not directly comparable to earlier years.
Note:
Figures are on a DfES whole year count basis and are rounded to the nearest 5.

Home Schooling

Mrs. Hodgson: To ask the Secretary of State for Education and Skills what assessment has been made of the impact the proposals contained within the Education White Paper will have on local education authority powers to regulate home schooling. [41622]

Jacqui Smith: Local authorities have a duty to ensure that all children of compulsory school age in their locality receive a suitable full-time education. While the White Paper proposes a new statutory duty on local authorities to identify children missing education, it will not have any impact on local authority powers to regulate home schooling and there are no current plans to introduce compulsory registration of parents choosing to educate their children at home.

Learning and Skills Councils

Harry Cohen: To ask the Secretary of State for Education and Skills what steps she is taking to improve the operation of Learning and Skills Councils in London; and if she will make a statement. [42684]

Bill Rammell: London faces a range of opportunities and challenges which need distinctive and tailored solutions. One of the biggest challenges over the next few years will be the Olympics and Paralympics. The Learning and Skills Council (LSC), the body responsible for planning and funding skills in London, has made good progress in meeting the skill needs of the capital, and is committed to working with all private and public sector partners to ensure that these opportunities are realised and the challenges met.

The appointment of an LSC Regional Director for London has helped to strengthen the way that the LSC is working with partners to tackle education and skills issues in the capital. The recent appointment of a new Director for Regeneration, whose responsibilities include links to the Olympics, will further strengthen its ability to deliver training and skills in London.

The LSC is also undergoing a radical restructuring exercise, which will ensure that the LSC is able to identify and respond to London's learning and skill needs even more effectively. These proposals will create a number of specialist economic development teams that will focus on skills for employers and regeneration. They will be supported by a new regional centre that will co-ordinate work with the RDAs, Sector Skills Councils and Regional Skills Partnership. The proposals are currently out to consultation with staff and unions until the end of January, and the final agreed changes will take effect from summer 2006.

We will also want to consider in due course the outcomes of the current consultation on the powers and responsibilities of the Greater London Authority.

Level 2 Qualification

Kelvin Hopkins: To ask the Secretary of State for Education and Skills whether the entitlement to a first Level 2 qualification is available to citizens of other countries resident in England; and if she will make a statement. [41598]

Phil Hope: The Level 2 entitlement is targeted at all adults aged 19 or over without a first full level 2 qualification. It provides access to free tuition for their first full Level 2 qualification and eligibility is determined using a process of self-declaration. This process requires the learner to complete and sign a declaration of eligibility stating their highest level of qualification held.

All individuals must meet the Learning and Skills Council's (LSC) residency and nationality criteria. This is laid down in section 7 of the LSC Funding Guidance for Further Education 2004–05 (published April 2004) and the supplementary 2005–06 guidance which corresponds to the groups listed in the Education (Fees and Awards) Regulations, 1997.

Learner eligibility in relation to the Level 2 entitlement, and wider LSC funding eligibility, is widely drawn. The LSC regards an individual as ordinarily resident, and therefore eligible for LSC funding, as any person who habitually, normally and lawfully resides from choice and for settled purpose in that country. A copy of the LSC Funding Guidance for Further Education 2004–05 and supplementary 2005–06 information can be found at the following internet addresses:

http://readingroom.lsc.gov.uk/pre2005/funding/streams/funding-guidance-for-fe-2004–05.pdf

http://readingroom.lsc.gov.uk/lsc/2005/quality/performanceachievement/funding-guidance-for-fe-2005–2006..pdf

Kelvin Hopkins: To ask the Secretary of State for Education and Skills if she will list the companies in receipt of funds in *(a)* 2004–05 and *(b)* 2005–06 as part of the entitlement to a first level 2 qualification; and how much was received by such companies in each pilot area. [41620]

Phil Hope: During 2004–05 and 2005–06 the entitlement to a first full level 2 qualification has been available to individuals through further education (FE) colleges and to employers and their employees through Employer Training Pilots (ETP).

In 2004–05 the approach to individuals was piloted through FE colleges in the North East and South East Learning and Skills Council (LSC) regions. From 2005–06, in a transition year toward national roll-out in 2006/07, all FE colleges in all LSC regions began to implement the entitlement. Individual learners exercising their entitlement are not asked to pay their contribution to the tuition fee; these fees are received by FE colleges from the LSC.

ETPs were introduced in September 2002. At the end of March 2004, 8,427 employers were involved and by the end of March 2005, 19,440 had signed up. By the end of December 2005, a total of 26,974 employers and 226,426 learners had participated in ETP. Nearly 80 per cent. of ETP learners are, or were working towards an NVQ level 2 qualification.

Details of contracts between ETP managers and employers taking part are confidential, including information on learning given and funding received. Release of any information, including the names of participating employers, would be subject to getting formal agreement from each employer Given the numbers of employers in ETP we believe that the costs of disaggregating the data and then obtaining permission to use it from employers would be disproportionate.

Local Strategic Partnerships

John Hemming: To ask the Secretary of State for Education and Skills what *(a)* guidance and *(b)* advice the Learning and Skills Councils have issued as to who should chair local strategic partnerships. [42678]

Bill Rammell: The consultation paper "Local Strategic Partnerships: Shaping the Future" launched on 8 December by my right hon. Friend the Deputy Prime Minister examines the future role of LSPs, their governance and accountability, and their capacity to deliver sustainable community strategies and local area agreements.

Membership of LSPs is drawn from a wide range of local partners, including the Learning and Skills Council (LSC). The leadership of individual LSPs is a matter for local discretion and members' views can be sought on their chairmanship. The LSC has not issued guidance on who should chair LSPs.

Medicine

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many British medical students have studied in England in each year since 1997; how many were entrants from *(a)* the state sector and *(b)* the independent sector in each year; and if she will make a statement. [22923]

Bill Rammell: The latest available figures for medical students are shown in the table. Information for 2004/05 will be available in January 2006. Information on the school background of young (under 21) higher education students is published annually by the Higher Education Statistics Agency (HESA) in "Performance Indicators in Higher Education", but this covers all students and does not show figures for each subject separately. The latest data collected by HESA for 2003/04, covering students of all ages, show that 30 per cent. of entrants to undergraduate medical and dentistry courses came from the independent sector, compared to 12 per cent. of entrants to all undergraduate courses of any subject. Comparable figures for earlier years are not available centrally at present.

UK domiciled students on undergraduate medical courses, English HE institutions

Academic year	*Students*
1997/98	16,640
1998/99	16,575
1999/2000	16,650
2000/01	17,215
2001/02	17,970
2002/03	20,540
2003/04	22,695

Note:
Numbers have been rounded to the nearest five.
Source:
Higher Education Statistics Agency (HESA).

Ofsted Offices (Refurbishment Expenditure)

Mr. Cox: To ask the Secretary of State for Education and Skills what the total cost of refurbishing Ofsted offices in *(a)* Bristol, *(b)* Nottingham and *(c)* Manchester is expected to be; if she will provide a breakdown of expenditure for each office on items costing £500 or more including import and labour costs; and if she will make a statement. [41152]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, Maurice Smith, has written to the hon. Member and a copy of his reply has been placed in the House Library.

Parliamentary Questions

Mr. Gibb: To ask the Secretary of State for Education and Skills when she will reply to the question tabled on 14 December (38605) by the hon. Member for Bognor, Regis and Littlehampton. [41596]

Jacqui Smith: I refer the hon. Member to the reply I gave on 10 January 2006, *Official Report*, column 517W.

Physical Education

Kate Hoey: To ask the Secretary of State for Education and Skills (1) what guidance is being provided for primary school head teachers on how to implement the workforce reform proposals in relation to physical education while maintaining *(a)* safety standards for children and *(b)* progress towards the public service agreement target on high quality physical education; [40768]

(2) what guidance is produced by the Teaching and Development Agency on the minimum number of hours in initial training needed by primary school teachers to be adequately prepared to teach physical education *(a)* safely and *(b)* to the level required for the achievement of the public service agreement target on high quality physical education. [40769]

Jacqui Smith: We have worked with the British Association of Advisers and Lecturers in Physical Education (BAALPE) to develop a range of guidance documents for schools. Guidance is aimed at helping schools to implement workforce remodelling and to take a fresh look at the roles of support staff and external specialists in PE. We have always been clear that anyone working in this area needs to have relevant skills, experience and competence, with the safety of pupils always the first consideration. Full details of the guidance developed can be found at: www.baalpe.org.

The Training and Development Agency for Schools does not prescribe a number of hours to be spent on any individual area of the curriculum for trainee teachers. Instead, the Agency requires trainees to meet a demanding set of outcomes by the end of their training programmes. All primary trainee teachers are required to demonstrate knowledge and understanding of PE as well as demonstrating teaching ability in PE before they can become newly qualified teachers. This should enable newly qualified teachers to meet the PSA target. All trainee teachers are required to be able to manage lessons safely.

Post-16 Education

Mr. Laws: To ask the Secretary of State for Education and Skills what the staying on rates for 16-year-olds in England were in each year from 1996–97; and if she will make a statement. [41453]

Bill Rammell: The percentage of 16-year-olds in full-time education in England is shown in the following table.

	Percentage of 16-year-olds in full-time education in England
1996	70.6
1997	70.2
1998	70.2
1999	71.8
2000	71.0
2001	70.7
2002	71.9
2003	72.3
2004 (Provisional)	74.2

Mr. Laws: To ask the Secretary of State for Education and Skills what estimate she has made of the effect on staying-on rates of the introduction of the education maintenance allowance; and if she will make a statement. [41454]

Maria Eagle: EMA was subject to one of the most comprehensive evaluations of any educational initiative. It was piloted in 10 areas (plus five others in London/Leeds) and the evaluation followed two cohorts of 16-year-olds for four years from 1999/2000 and 2000/01. Their outcomes were compared to those of matched individuals in 11 control areas. It was rolled out to a further 41 area in 2000/01 so that it was operating in around one third of the country.

The results indicated that EMA increased participation of eligible young people in the pilot areas by 5.9 percentage points. This is equivalent to an increase in participation of all 16-year-olds across the whole country of 3.8 percentage points. There was a particularly strong impact for key target groups:

young males (1.2 times impact),

none/low/middle achievers (1.3 to 1.7 times impact)

lower SEG groups (1.3 to 1.6 times impact)

The results also showed positive impacts on retention from Y13 to Y14, and also on an individual's attachment to education, as measured by number of terms which they stay in education to age 19.

EMA was rolled out to 16-year-olds in the remaining two thirds of the country in September 2004. There was a 1.9 percentage point increase in participation of 16-year-olds in full-time education between 2003/04 and 2004/05. This is in line with the increase in participation which was expected from the roll out of EMA and is the largest increase in participation for over 10 years. While it is not possible to say that all of the increase was due to EMA, this was one of the most important initiatives aimed at increasing participation. The Department and LSC will be doing further analyses of local participation when these become available to try to get a better estimate of the change which might be due to EMA. EMA was rolled out to 17-year-olds in September 2005 and will be fully rolled out to 18-year-olds from September 2006.

This year the LSC has adopted the strategy of measuring EMA take-up to show early impact of the scheme locally. Volumes are on target, and take-up among poorer students is higher than originally projected, which is the group upon whom EMA is likely to have the greatest beneficial effect. Take-up among 16-year-olds largely met or exceeded estimated figures in 2004/05. Where take-up is lower than anticipated, the local LSC targets additional support to raise awareness of EMA and increase the figures.

Postgraduates

Mr. Wills: To ask the Secretary of State for Education and Skills what percentage of students *(a)* studying for and *(b)* who achieved postgraduate degrees were educated in state schools in each year since 1997. [24453]

Bill Rammell: The available information on the previous school type of students is published by the Higher Education Statistics Agency (HESA) in 'Performance Indicators in Higher Education in the UK'. However, these figures cover undergraduate entrants only and corresponding information for postgraduates is not available.

The latest available information on the school background of higher education students covers young (aged under 21) first degree entrants, and is shown in the table.

Proportion of UK domiciled young full-time first degree entrants to English Institutions from state schools and colleges

Academic Year	*Proportion from state schools and colleges*
1997/98	81.0
1998/99	84.4
1999/2000	84.1
2000/01	85.0
2001/02	85.2
2002/03	86.4
2003/04	86.1

Source:
"Performance Indicators in Higher Education" published by the Higher Education Statistics Agency (HESA).

Qualifications (Gateshead)

Mrs. Hodgson: To ask the Secretary of State for Education and Skills what proportion of working age people in Gateshead East and Washington West were *(a)* qualified to (i) post-graduate level, (ii) graduate level and (iii) A-level and *(b)* without qualifications in each year from 1990. [41623]

Phil Hope: The following table shows estimates of the level of highest qualification held by the working age population in the parliamentary constituency of Gateshead East and Washington West. Data come from the Local Labour Force Survey. The number of people holding qualifications at post-graduate level and who were sampled in the LLFS, were too small to yield any meaningful estimates. The figures below therefore indicate the proportion qualified to either graduate level or equivalent (level 4), or postgraduate level (level 5). Qualified to A-level is defined as level 3 in the table. Data at parliamentary constituency level are not available prior to 1999.

Percentage

Qualification level	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Level 4 or 5	18	16	18	18	23	25
Level 3	16	12	14	14	13	12
Trade apprenticeships[1]	13	13	12	10	7	7
Level 2	13	17	17	17	17	16
Below level 2	18	17	16	18	17	17
Other qualifications[2]	[3]	7	4	5	6	7
No qualifications	19	17	19	18	16	17

[1] For the purposes of target measurement people with trade apprenticeships as their highest qualification are assigned to level 3 and level 2 in the ratio of 50:50.
[2] Qualifications that cannot be assigned directly to levels. For the purposes of target measurement, people with Other qualifications as their highest qualification level are assigned to level 3:level 2:below level 2 in the ratio of 10:35:55.
[3] Estimates for 1999–2000 and 2000–01 based on small sample sizes have been suppressed as they are statistically unreliable. Estimates for later years based on small sample sizes have been given, and are therefore subject to a higher degree of sampling variability. They should therefore be treated with caution and, in particular, changes from year to year should not be used in isolation from the figures for a run of years.
Notes:
1. As with all sample surveys the estimates presented in this table are subject to sampling variability.
2. Columns may not sum to 100 per cent. due to rounding.
3. Working age people are defined as males and females aged 16–64 and 16–59 respectively.

School Budgets (Shrewsbury)

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what additional funding has been made available for schools in Shrewsbury which have been unable to remain within their financial budgets for 2005–06. [41160]

Jacqui Smith: My Department has not made any additional funds available to Shropshire county council for this purpose. However, the LEA and School Budget Regulations enable local authorities to support schools in financial difficulty through sums held centrally by them, or by extending licensed deficit facilities under the conditions set out in their schemes for financing schools.

In 2005–06 Shropshire received a 7.1 per cent. increase per pupil in its Schools Formula Spending Share.

School Curriculum (International Activities)

Mrs. Dorries: To ask the Secretary of State for Education and Skills (1) what steps the Government are taking to encourage schools and local education authorities to promote greater international links and opportunities with regard to curriculum-related activities; and if she will make a statement; [41155]

(2) what steps the Government are taking to encourage schools and local education authorities to promote international professional development opportunities for teachers and head teachers; and if she will make a statement; [41156]

(3) what representations she has received about encouraging schools and local education authorities to promote greater international links and opportunities; and if she will make a statement. [41157]

Bill Rammell: A key aim of 'Putting the World into World-Class Education—An international strategy for education, skills and children's services' is to equip our children, young people and adults for life in a global society and work in a global economy. In addition, our national languages strategy clearly sets out the importance of international partnerships for the enrichment of language learning and to the curriculum more generally.

Feeding into these, a tremendous amount of work is taking place to encourage schools and local authorities to promote international development opportunities for teachers and head teachers as well as greater international links and opportunities with regard to curriculum-related activities:

Under citizenship education (which is statutory in secondary schools), pupils are being taught about the world as a global community, the political economic, environmental and social implications of this, including the wider issues and challenges of global interdependence and responsibility;

The DfES has funded and worked with organisations to produce resource materials to support schools, such as the guide on 'Developing a Global Dimension' in the school curriculum';

The Global Gateway website (www.globalgateway.org) is being continuously developed as our primary resource for all aspects of internationalism in education. It is primarily a global school partner finding facility. It also contains, among other things, guidance and resources for curriculum-related activities and information on professional development opportunities for teachers;

With the British Council, we have developed a promotion pack containing relevant information and ready-made presentations for use by local authorities and other regional and local networks (e.g. the British Council Regional Professional Development network, development education centres) and, through them, to schools;

We are working to further increase the impact of the DfES Teachers' International Professional Development (TIPD) programme, including greater synergy with the NCSL International Programme for Head teachers so that they can both potentially impact more on whole system change and policy development;

The Comenius EU Programme provides opportunities for schools to work in multinational partnerships in projects to support and develop all areas of the curriculum, as well as opportunities for teachers to undertake training periods within one of the participating countries. Since 2004/05 the British Council has undertaken a focused promotion of the opportunities to schools and local authorities, and in 2005 there was a record number of 1,044 UK schools taking part in school projects. 605 teachers also took training courses in the programme, the majority being intensive courses for language teachers.

We have had a very enthusiastic and positive response to the international strategy and have been working across a wide range of partners on raising the profile of the global dimension. Partners include: DFID and other Government Departments; British Council; Association of Colleges; Development Education Association; Institute of Education, University of London; Learning and Skills Council; QCA; NCSL; Universities UK; and UK Forum for International Education and Training.

School Swimming Pools

Hugh Robertson: To ask the Secretary of State for Education and Skills how many school swimming pools there were in 1997; and how many have closed in each of the subsequent years. [41889]

Jacqui Smith: This information is not held centrally.

School Transport

Mr. Amess: To ask the Secretary of State for Education and Skills which local authorities operate a Home to School transport scheme; and if she will make a statement. [41004]

Jacqui Smith: All local authorities in England and Wales are required to make arrangements for home to school transport under provisions contained in the Education Act 1996.

Mr. Amess: To ask the Secretary of State for Education and Skills what evaluation her Department *(a)* has undertaken and *(b)* plans to undertake to ascertain why parents are not using home to school transport provided by local authorities; and if she will make a statement. [41005]

Jacqui Smith: My Department is not aware of any evidence to suggest that there is any large scale failure on the part of parents to take advantage of home to school transport arranged by local authorities, and therefore has not, and does not plan to undertake any such evaluation.

Schools

Mr. Pelling: To ask the Secretary of State for Education and Skills how many children resident in the London borough of Croydon are educated in other local

authorities, broken down by the local authority of the school which the child attends. [41131]

Jacqui Smith: The information requested has been provided in the following table.

Number of children residing in Croydon local authority by local authority in which they attend school

	Primary[2]		Secondary[3]		Special[4]

Annual Schools Census 2005

Daniel Kawczynski: To ask the Secretary of State for Education and Skills how many schools in Shropshire did not exceed their budget in the 2004–05 financial year. [40749]

Jacqui Smith: The information requested is contained within the following table:

	Total
Number of local authority maintained schools reported on section 52 outturn during financial year 2004–05[1]	167
Number of schools over their revenue budget for 2004–05[2,3]	122
Total number of schools within their revenue budget for 2004–05[2,4]	45

[1] Included in the above table are all local authority maintained nursery, primary, secondary and special schools reported by Shropshire local authority on their 2004–05 Section 52 Outturn Statement (Table B).
[2] For the purposes of this table, a school is defined as operating within its revenue budget during 2004–05 if its closing revenue balance is greater than or equal to its opening revenue balance. The balance information reported in Shropshire's return is not internally consistent for all schools and in two cases this inconsistency, although relatively small, could mean that they should have been reported as over rather than within their revenue budget for the year.
[3] Of the 122 schools who were within budget for 2004–05:
eight started the year with a deficit revenue balance and remained in deficit at the end of the year;
15 went from having a deficit revenue balance at the start of the year to being in surplus at the end of the year;
99 started the year with a surplus revenue balance and ended the year further in surplus;
[4] Of the 45 schools who were over budget for 2004–05:
34 had sufficient surplus revenue balances at the start of the year that they still remained in surplus at the end of the year;
seven went from having a surplus revenue balance at the start of the year to being in deficit at the end of the year;
four started the year with a deficit revenue balance and ended the year further in deficit.
Note:
Data are as reported by Shropshire LA, but is being validated by the Department and is likely to change.

Schools White Paper

Mr. Marsden: To ask the Secretary of State for Education and Skills what functions *(a)* her Department, *(b)* HM Inspectorate, *(c)* School Admissions Forums, *(d)* Ofsted, *(e)* the Schools Commissioner, *(f)* the Schools Adjudicator, *(g)* local authorities and *(h)* the Audit Commission will exercise with regard to (i) community schools, (ii) trust schools, (iii) special schools, (iv) city academies, (v) pupil referral units, (vi) federated schools and (vii) foundation schools under the proposals in the Schools White Paper; and what formal powers each body will be able to exercise in the discharge of each function. [37104]

Jacqui Smith: The Department for Education and Skills will set the overall legislative and policy framework for all schools.

Admission Forums provide a vehicle for representatives of admission authorities and other key parties to discuss admission issues and consider the effectiveness of local admission arrangements. The function of the Forum is to provide advice on difficult admission issues, information for parents and to broker agreement on arrangements for admitting vulnerable pupils to schools quickly. All maintained schools, including Trust schools, and Academies must have regard to the Forum's advice. Admission Forums will have no functions in relation to special schools or Pupil Referral Units.

Ofsted contribute to improvement and provide accountability through independent inspection and reporting. New shorter, sharper inspections were introduced in September 2005 as part of the New Relationship with Schools. The White Paper proposes that Ofsted should explore the introduction of even lighter touch inspections for high-performing schools. It also proposes that Ofsted should be given powers to investigate complaints from parents.

The Schools Commissioner will be a senior Civil Servant within DfES and as such he/she will be carrying out functions on behalf of the Secretary of State. The Schools Commissioner will have a general role in promoting trust schools, including encouraging the spread of good practice between schools. In particular, the Commissioner will support schools wishing to adopt trusts, for example by brokering relationships with suitable partners and providing model documentation to facilitate the formation of trusts.

The Schools Adjudicator rules on any objections to the proposed admission arrangements of all maintained schools, including Trust schools, and makes decisions on school organisation matters referred to him. Under the proposals in the White Paper, local authorities will be able to propose new foundation schools, propose the closure of all schools and propose expansion or the addition of SEN facilities to all categories of school. Where there is a conflict of interest, proposals will be decided by the Adjudicator. The Schools Adjudicator will have no functions in relation to Academies, special schools and Pupil Referral Units.

The Audit Commission is an independent public body responsible for ensuring that public money is spent economically, efficiently, and effectively in the areas of local government. It will continue to have a role in monitoring the effectiveness of the delivery of school improvement policies.

The White Paper sets out a role for local authorities as the champions of the young people and parents in their area. Local authorities are currently responsible for ensuring that there is sufficiency of supply (as laid out in Sections 13 and 14 of the Education Act 1996). Under proposals set out in the White Paper, the local authority will also be responsible for promoting choice, diversity and fair access. Local authorities also provide challenge and support to schools through the School Improvement Partner. They will have new powers to intervene early in underperforming schools. They will also be expected to consider radical action when a school is judged to be inadequate by Ofsted.

Dr. Kumar: To ask the Secretary of State for Education and Skills if she will list the measures in the White Paper "Higher Standards, Better Schools for All" which have been proposed to address *(a)* root causes of social disadvantage and *(b)* religious and culture segregation in education. [37780]

Jacqui Smith: As stated in the first paragraph of the executive summary of the White Paper, "Higher Standards, Better Schools for All"; its aim is

> "to transform our school system so that every child receives an excellent education—whatever their background and wherever they live".

All the policies set out in the White Paper will contribute to this aim and will address the root causes of social disadvantage and religious and cultural segregation in education. In particular:

more personalisation enabling every school to provide an education tailored to the needs of every pupil, supported by catch up and extra support for those who need it to ensure that every child reaches their potential;

ensuring that choice is more widely available to all, not just to those who can pay for it, will be delivered by better information, dedicated choice advisers and an extended transport offer to help the least well-off parents exercise choices;

ensuring that school failure and underperformance, which is often most severe in disadvantaged areas, is tackled swiftly and decisively;

ensuring that schools have the necessary freedoms to respond to the particular circumstances that they face in their locality and are able to engage and work with external partners to bring in additional expertise, including through the acquisition of trusts;

ensuring that school staff have the necessary powers to deal effectively with disruptive pupils for the benefit of all children in the school;

creating a new, strategic role for local authorities as the champions of pupils and parents in their area, particularly the most disadvantaged.

Schoolteachers and College Staff

Sarah Teather: To ask the Secretary of State for Education and Skills how many secondary school teachers in London have *(a)* a first class, *(b)* an upper second, *(c)* a lower second, *(d)* a third class and *(e)* no degree. [40380]

Jacqui Smith: The following table provides degree class information for all full-time regular teachers in service in maintained secondary schools in London in 2004, the latest information available. For comparison, the degree class of those teachers qualifying during 2003 is also provided.

Percentage of full-time teachers in London secondary school service, March 2004[1], by class of degree held and year of qualification

	Year of qualification	
Class of degree	*All years*	*2003*
1st Honours	4.1	6.0
2nd Honours[2]	73.2	73.7
3rd and unclassified honours	6.4	4.5
Degree obtained outside UK	5.0	8.1
Pass/Other[3]	10.1	7.5
No degree recorded[4]	1.2	0.2
Total	100	100

[1] Provisional estimates.
[2] Information for 2nd class honours degrees cannot be split into 2:1 or 2:2 categories.

[3] Includes teachers whose degree class is not recorded, teachers with other graduate equivalent qualifications and a small number of teachers with higher degrees where the class of their first degree is unknown.

[4] Includes teachers obtaining qualified teacher status through a Certificate of Education. Some of these teachers may have gained degree level qualifications after entering teaching but no details of these qualifications are available.

Database of Teachers Records

Mr. Weir: To ask the Secretary of State for Education and Skills how many *(a)* school teachers and *(b)* college staff there are in each English region. [39805]

Jacqui Smith: Information on teachers employed in maintained schools is collected in January of each year and September for staff in further education colleges. The following table provides the full-time equivalent number of teachers in maintained schools in each local authority in January 2004 and 2005, and the full-time number of staff in further education colleges in September 2004, the latest information available.

Full-time equivalent regular teachers in maintained schools and full-time staff in further education colleges by Government Office Region

	Maintained schools January		*Further education colleges*[1] *September*
	2004	*2005*	*2004*
North East	22,700	22,700	4,300
North West	62,000	62,200	12,600
Yorkshire and the Humber	44,200	44,600	8,700
East Midlands	36,200	36,400	5,400
West Midlands	48,200	49,200	9,400
East of England	47,100	47,200	6,100
London	61,600	62,700	9,500
South East	65,500	66,300	10,200
South West	40,200	40,600	6,800
Region Unknown	—	—	3,800
England	427,700	431,900	76,800

[1] Information relates to full-time staff whose primary role is teaching and does not include other staff whose primary role is supporting teaching and learning or other support.

Note:

Figures are rounded to the nearest 100.

Annual survey of teacher numbers and teacher vacancies, (Form 618g) and Staff Individualised Record.

Sector Skills Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the Government Capital Reserve in the Learning and Skills Council Annual Report and Accounts 2004–05 is; and what guidelines cover its use. [36579]

Bill Rammell: I have overall responsibility for the Learning and Skills Council (LSC). However the operations of the LSC are managed and overseen by Mark Haysom, the LSC's Chief Executive. Details of the LSC's Statutory Accounts and the guidelines and policies they use for the Government Capital Reserve are a matter for the LSC. Mark Haysom has written to the hon. Member with information and copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

I refer to your recent parliamentary questions in which you asked the Secretary of State *(a)* what the donated asset reserve in the Learning and Skills Council (LSC) Annual Report and Accounts 2004–05 is and what guidelines cover its use *(b)* what the Government Capital Reserve in the LSC Annual Report and Accounts 2004–05 is and guidelines cover its use. I am pleased to provide the following information answering your questions below.

The Donated Asset Reserve reflects the current net book value of the fixed assets transferred to the LSC from the Training and Enterprise Councils (TECs) when the LSC was set up. The Executive Non-Departmental Public Bodies (NDPBs) Annual Reports and Accounts Guidance for 2004–05 provides further detail on the accounting for this reserve. The Government Accounting manual covers the management of assets.

The Government Capital Reserve reflects the current net book value of fixed assets acquired by the LSC. The Government Capital Reserve is credited with the amount of the grant that equates to the asset's acquisition cost. Notes 9 and 10 to the accounts provide further details on the fixed assets of the LSC. The Executive NDPBs Annual Reports and Accounts Guidance for 2004–05 provides further detail on the accounting for this reserve. The Government Accounting manual covers the management of assets.

I trust the above information will be of assistance to you

Social Mobility

Mr. Laws: To ask the Secretary of State for Education and Skills if she will make a statement on changes in social mobility in relation to inter-generational academic achievement between 1978 and 2005. [41449]

Jacqui Smith: The Secretary of State's speech to IPPR on 26 July 2005 set out the Government's commitment to help develop a society which can foster greater social mobility. Her speech underlined the important role that education can play in improving life chances for all individuals, and it set out the forward looking context for our programme of reform across the system.

An assessment of changes in inter-generational academic achievement is constrained by data limitations. However in a paper accompanying the speech, "Has the Social Class Gap Narrowed in Primary Schools", analysis was presented to show how gaps in attainment between pupils from high and low income brackets (proxied by free school meal (FSM) status) have changed. The paper focused on key stage 2 between 1998 and 2004, the period in which the data allow such comparisons to be made.

The analysis showed that performance has improved on average for both FSM and non-FSM pupils, but there was little significant change in the gap between the two groups. However it was found that schools with the highest proportions of pupils eligible for FSM did narrow the gap compared to schools with low proportions of FSM. For example in key stage 2 English, the gap in attainment at level 4 narrowed by eight percentage points in the period 1998–2004 between schools with high and low proportions of FSM pupils. The full paper is available on the Department's website.

Further analysis will be carried out over the coming months. In particular, we will look at key stages 1, 3 and 4, to the extent that data for these phases can be tracked over time on a comparable basis.

Special Educational Needs

Ed Balls: To ask the Secretary of State for Education and Skills what support and services are available for new parents whose children have been diagnosed at birth as suffering from learning difficulties in *(a)* West Yorkshire, *(b)* Wakefield District and *(c)* Normanton constituency; and whether she plans to increase this assistance. [41098]

Maria Eagle: The Government are committed to improving services for all children and their families, including those with learning disabilities. The Every Child Matters programme, alongside the implementation of the National Service Framework for Children, Young People and Maternity Services and the Government's SEN strategy "Removing Barriers to Achievement", supports and promotes early intervention to help families of very young disabled children. In particular, the Government's Early Support Programme has been funded to improve support to parents of disabled children aged 0–3 and to provide timely interventions at the very earliest stages of impairment being identified. The development of Sure Start Children's Centres will also improve the integrated support provided to families with children under 5. Disabled children and special educational needs are a priority for this programme.

In the West Yorkshire area there are currently 24 Children's Centres (expected to rise to 76 by September 2006) and 1 Early Support Programme (with one currently being developed in Wakefield). All local authorities have now been asked to begin using the Early Support approaches and materials to review and improve services for families with young disabled children.

Families of children with learning disabilities are, of course, entitled to access an additional range of local authority and health support. Details about these local services are not collected centrally and to do so would incur disproportionate cost.

State Schools (Selection)

Dr. Evan Harris: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of selection on religious grounds in state schools on social cohesion. [41127]

Jacqui Smith: We welcome faith schools into the maintained sector as they can make an important contribution to community cohesion by promoting inclusion and developing partnerships with schools of other faiths, and with non-faith schools. Many faith schools play their part in social cohesion by admitting pupils of other faiths and none and we encourage them in the School Admissions Code of Practice to do this.

Summer Enterprise School

Charles Hendry: To ask the Secretary of State for Education and Skills (1) what the forecast budget is for the Summer Enterprise School programme; how this budget is distributed between each pathfinder programme; and what the cost is for each school; [38889]

(2) if she will list the organisations which bid to run the Summer Enterprise School pathfinder programme; which bid was successful; and what provision that bid made for the programme; [38890]

(3) which organisations her Department consulted on the estimate of costs for the Summer Enterprise School pathfinder programme; and what comparisons have been made with similar schemes overseas. [38891]

Jacqui Smith *[holding answer 20 December 2005]:* Following the Chancellor's 15 November announcement that Young Enterprise (YE) will run Enterprise Summer School Pathfinders in 2006, the DfES hav. been given responsibility for the delivery of the Pathfinders. £2 million has been made available, and while we have had early discussions with YE about how, along with other organisations, they will deliver the Pathfinders, we are not yet at a stage to finalise detailed costings.

Enterprise Summer Schools were initially announced on 26 June 2005, and a number of proposals to run them were received following that announcement. However, Young Enterprise, as a nationally enabled charity with a regional structure, and long experience of enterprise education, had the only suitable proposal. In pathfinding and evaluating YE's different summer school models we will be taking account of international best practice.

Specialist Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills for what reason selection of up to 10 per cent. of intake by aptitude is not permitted in schools which specialise in *(a)* business and enterprise, *(b)* engineering, *(c)* humanities, *(d)* mathematics and computing and *(e)* science; and if she will make a statement. [40728]

Jacqui Smith: Admission authorities of schools have been able to select up to 10 per cent. of their intake based upon applicant's aptitude in certain prescribed subjects. We allow this limited flexibility so that pupils with a relevant aptitude can gain access to particular schools.

However, we are opposed to academic selection and do not wish to see it extended. It is accordingly permissible only to use tests that assess aptitude in the particular subject as distinct from general academic ability.

Mr. Gibb: To ask the Secretary of State for Education and Skills what the average point score at *(a)* Key Stage 3 and *(b)* GCSE and equivalent was for specialist schools in 2004, (i) in total and (ii) broken down by specialism. [41672]

Jacqui Smith: The average point scores at Key Stage 3 and GCSE and equivalent for specialist schools in 2004 are shown in the following tables:

2004 Key Stage 3:

Specialism	Number of schools	Average points score
All specialist schools	1,433	34.9
Arts	226	34.4
Business and enterprise	82	34.5
Engineering	14	34.8
Language	187	36.1
Maths and computing	76	35.9
Science	121	36.1
Sports	226	33.9
Technology	491	34.7
Combined specialism	10	35.5

2004 GCSEs and equivalents:

Specialism	Number of schools	Average points score: Capped[1]	Average points score: Uncapped
All specialist schools	1,443	295.1	361.2
Arts	227	290.1	353.3
Business and enterprise	82	294.1	363.0
Engineering	14	287.7	340.8
Language	187	312.7	383.7
Maths and computing	76	309.8	379.4
Science	121	313.7	385.7
Sports	228	276.7	331.9
Technology	498	293.2	362.1
Combined specialism	10	301.8	358.0

[1] Average capped point scores are calculated using the best eight results.

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of pupils attending specialist schools attained five or more GCSEs including English and mathematics in 2004 *(a)* in total and *(b)* broken down by specialism. [41673]

Jacqui Smith: The number and proportion of pupils attending specialist schools who achieved five or more GCSE's including English and mathematics in 2004 is shown in the following table:

Specialism	Number of 15-year-old pupils achieving five or more grades A*-C, including English and maths	Percentage of 15-year-old pupils achieving five or more grades A*-C, including English and maths
All specialist schools	130,812	45
Arts	19,603	42
Business and enterprise	6,781	44
Engineering	1,229	43
Language	19,824	53
Maths and computing	7,595	53
Science	12,480	53
Sports	17,420	38
Technology	44,943	44
Combined specialism	937	49

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of pupils attending specialist schools achieved *(a)* level 5 or above and *(b)* level 6 or above in 2004, (i) in total and (ii) broken down by specialism. [41674]

Jacqui Smith: The proportion of pupils attending specialist schools achieving level 5 or above and level 6 or above in 2004 are shown in the following table:

2004 Key Stage 3

Specialism	Number achieving L5 or above	Proportion achieving L5 or above (percentage)	Number achieving L6 or above	Proportion achieving L6 or above (percentage)
All specialist schools	653,929	74	385,627	44
Arts	102,764	72	58,815	41
Business and Enterprise	35,961	73	20,236	41
Engineering	6,476	73	3,816	43
Language	91,424	79	58,771	51
Maths and Computing	34,627	78	21,841	49
Science	58,123	80	36,949	51
Sports	97,522	70	53,291	38
Technology	222,489	73	129,236	43
Combined	4,543	78	2,672	46

State-funded Education

Mr. Pelling: To ask the Secretary of State for Education and Skills what percentage of gross domestic product was spent on state-funded education in *(a)* 1979–80, *(b)* 1987–88, *(c)* 1997–98 and *(d)* 2004–05. [41126]

Jacqui Smith: The following table shows the percentage of gross domestic product (GDP) spent on education in the UK.

	Percentage
1979–80	5.1
1987–88	4.7
1997–98	4.5
2004–05	5.4

Note:

1. Figures on UK education spend for the years shown were obtained from the Public Expenditure Statistical Analyses.

2. The GDP figures used are the latest available and were updated at the end of December 2005.

3. The international definition of education expenditure used to produce the figures for the Public Expenditure Statistical Analyses has changed over time; therefore, the figure for 1979–80 is not directly comparable with the other years. The figures for 1987–88, 1997–98 and 2004–05 have been produced to the same definition and so are comparable.

Teachers

Mr. Hayes: To ask the Secretary of State for Education and Skills how many people have qualified but have not taken up a career in teaching since 1997; and what the cost per student has been of training such people. [39909]

Jacqui Smith: Data from the Teachers Pension Scheme indicate that the following proportions of qualifiers are not known to have any teaching service up to March 2004 since qualifying.

Year of qualification	*Percentage without teaching service*	*Qualifiers recorded on Teachers Pension Scheme*
1997	10	26,223
1998	10	24,841
1999	8	24,197
2000	8	21,814
2001	8	21,812
2002	11	23,038
2003	20	25,175

Note:
Figures exclude those qualifying through employment based routes.

The main reason for the higher figures in the most recent years is that some qualified teachers delay the start of their teaching careers. The proportion of qualifiers without teaching service usually falls substantially over the first year or two after qualification, and in the long-term has been around 9–10 per cent. since 1990; the figures for the 2003 qualifiers are expected to fall to a similar level. For example, the proportion of all qualifiers without recorded teaching service by March of the year after they qualified has remained at 20 per cent. for 2001, 2002 and 2003, but for 2002 qualifiers it fell to 11 per cent. after another year and for 2001 qualifiers it fell to 8 per cent. after two.

The Teachers Pension Scheme has only partial coverage for those teaching outside maintained schools, for example in independent schools or in further or higher education, so the true proportion is expected to be lower.

The cost of teacher training varies according to different routes to achieving qualified teacher status (QTS) to work in maintained schools in England. The three main types are:

a. Undergraduate courses leading to a degree plus QTS.

b. Postgraduate courses leading to QTS; and

c. Employment-based teacher training routes leading to QTS.

The funding which each of these routes attracts from the Training and Development Agency for Schools (TDA) is in 2005/06:

a. Undergraduate courses: £16,000 per trainee (or £4,000 per year), excluding fee/maintenance support.

b. Postgraduate courses: £5,200 per trainee, plus at least £1,200 fee/maintenance support, plus £6,000 bursary (in total £12,400 per trainee).

c. Employment-based teacher training routes: £17,620 per trainee, including a £13,000 grant towards the employment costs of each trainee.

Truancy

Stephen Hammond: To ask the Secretary of State for Education and Skills how many children were *(a)* stopped and *(b)* cautioned for truancy in (i) Wimbledon and (ii) the London borough of Merton in each year since 1997. [41706]

Jacqui Smith: Since December 2002, the Department has co-ordinated national truancy sweeps in England. These usually take place during the autumn and spring terms. Data are collected from each local authority (LA) which participates in the national sweeps and relates to the whole LA and not to individual areas.

Under Section 16 of the Crime and Disorder Act 1998 police officers have the power to return truants to their school or to a local designated place. There is no power to arrest, caution or detain children because they are out of school without a good reason. Children who truant from school are not committing a crime; their parents are legally responsible for their non-attendance. However, it is important that follow up arrangements are made for children who are out of school with no good reason.

Data for the London borough of Merton

Truancy sweeps	*Total number of truancy sweeps*	*Total stopped*	*Total stopped with no valid reason for being out of school*	*Total stopped over the year with no valid reason for being out of school*
Autumn 2002	Not known	63	11	11
Spring 2003	2	16	7	40
Autumn 2003	5	44	33	
Spring 2004	4	48	22	
Autumn 2004	5	23	8	30
Spring 2005	3	15	11	11
Autumn 2005	[1]			

[1] Data still being collected

Deprivation Funding

Mr. Laws: To ask the Secretary of State for Education and Skills when she will announce the full conclusions of the Deprivation Funding Review; and if she will make a statement. [41300]

Jacqui Smith: My written statement of 7 December on the School Funding Settlement for 2006–07 and 2007–08 announced that the report of the DfES/HM Treasury review of deprivation "Child Poverty, Fair Funding for Schools" was being published on the same day, and is on Teachernet at www.teachernet.gov.uk/deprivationfundingreview/. A copy of the report has also been placed in the House Libraries.

Mr. Laws: To ask the Secretary of State for Education and Skills what assessment she has made of the allocation of funding to schools in deprived areas of Somerset; and if she will make a statement. [41301]

Jacqui Smith: Under the current Schools Formula Spending Share (SFSS) arrangements in 2005–06, Somerset's SFSS takes account of the incidence of Additional Educational Needs, in the form of the numbers of families found to be in receipt of income support and working families tax credits, and the level of primary and secondary ethnicity in schools in Somerset. The school funding regulations stipulate that authorities must have a factor within their local funding formulae which recognises the incidence of deprivation in distributing resources to local schools.

From April 2006, the Department is introducing a new ring fenced Dedicated Schools Grant (DSG) in distributing resources directly to authorities based on authorities spending levels in 2005–06. Somerset will receive increases of 6.7 per cent. and 6.5 per cent. per pupil in the next two financial years. It will be for the local authority to decide how to distribute their resources to schools via the local funding formula.

Variable Top-up Fees

Ms Gisela Stuart: To ask the Secretary of State for Education and Skills what assessment the Government have made of the impact of variable top-up fees on the number of UK-domiciled students taking up postgraduate courses. [40657]

Bill Rammell: Separate arrangements apply in Northern Ireland, Scotland and Wales. In England, there should be no impact on the take-up of postgraduate places as variable tuition fees apply only to undergraduate courses and designated initial teacher training courses, for which the Government will continue to provide non-means tested support in 2006/07.

Postgraduate tuition fees are unregulated. However eligible students may receive specific support for postgraduate study through the disabled students' allowance and awards funded by the Office of Science and Technology through the Research Councils and HE institutions.

WORK AND PENSIONS

Benefit Fraud

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of new claims for *(a)* jobseeker's allowance, *(b)* income support and *(c)* incapacity benefit were determined to be fraudulent in Wales in each year since 1997; and if he will make a statement. [39472]

Mr. Plaskitt: The information is not available.

Dr. Strang: To ask the Secretary of State for Work and Pensions (1) if he will estimate *(a)* how many instances of fraud there have been in each of the last five years that have arisen as a result of sending information to someone who has (i) died and (ii) moved house and *(b)* the resultant cost to his Department; [39888]

(2) if he will estimate *(a)* how many instances of fraud there have been in each of the last five years involving those who are falsely claiming pension credit for someone who has (i) died and (ii) moved house and *(b)* the resultant cost to his Department; [39890]

(3) if he will estimate how much correspondence was addressed by his Department to people who have *(a)* died and *(b)* moved house in each of the last five years. [39891]

Mr. Plaskitt: The information requested is not held and no estimate is available of the volume, value and cost of fraud linked to claims of persons who have died or moved house.

Dr. Strang: To ask the Secretary of State for Work and Pensions if he will estimate *(a)* how many instances of fraud there have been in each of the last five years involving those who are falsely claiming housing benefit for someone who has (i) died and (ii) moved house and *(b)* the resultant cost to his Department. [39889]

Mr. Plaskitt: The information requested is not held and no estimate is available of the volume, value and cost of fraud linked to claims of persons who have died or moved house.

Benefit Payments

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of telephone calls to HM Revenue and Customs for the pension credit in Wales went unanswered in each year since the pension credit system began; and if he will make a statement. [39558]

Mr. Timms: Pension credit is administered by The Pension Service and tax credits by HM Revenue and Customs.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* all pensioners and *(b)* eligible pensioners received the pension credit in Wales in each year since the system began; and if he will make a statement. [39560]

Mr. Timms: The available information is in the following tables:

ONS mid year pensioner population estimates for Wales 2003, 2004

	2004	*2003*
Total pensioner population	684,000	674,600
Proportion who are pension credit household recipients (percentage)	21.3	18.1
Proportion who are pension credit individual beneficiaries (percentage)	26.2	21.9

Pension credit recipients in Wales as at May 2004, 2005 and November 2003

	Household recipients	*Individual beneficiaries*
May 2005	158,300	195,100
May 2004	145,900	179,100
November 2003	121,900	147,600

Notes:

1. Figures are rounded to the nearest hundred.
2. Pension credit (PC) replaced minimum income guarantee (MIG) on 6 October 2003. Existing MIG recipients were automatically converted onto pension credit on that date (assuming they still met the eligibility criteria).
3. The latest available population figures from ONS are mid year 2004.
4. Pension credit data are from the new WPLS and are taken as at 30 November 2003 and 31 May 2004, 2005.
5. Couples may include partners who are aged less than 60.
6. The pensioner population is defined as all males and females aged 60+.
7. Household recipients are those people who claim PC either on behalf of themselves only or on behalf of a household. This number is equal to the number of households in receipt of PC. The number of beneficiaries is the claimants plus their partners.

Source:
Pension Credit Data: DWP Information Directorate: Work and Pensions Longitudinal Study (WPLS) 100 per cent. data.
Mid year population estimates: ONS, Population Estimates Unit.

Latest estimates of the number of pensioners entitled to but not receiving the main income-related benefits relate to financial year 2002–03 and predate the introduction of pension credit. Estimates for minimum income guarantee—the predecessor to pension credit—can be found in the DWP report entitled "Income Related Benefits Estimates of Take-Up in 2002–2003". Copies of the publication are available in the Library.

Estimates of pension credit will be published in early 2006; this publication will include the first six months of pension credit. Estimates for the full year 2004–05 are expected to be published in May 2006. Information is not available below a national level.

Jenny Willott: To ask the Secretary of State for Work and Pensions what the average length of time was from receipt of an *(a)* incapacity benefits, *(b)* jobseeker's allowance, *(c)* income support, *(d)* disability living allowance and *(e)* pension credit claim to payment of the benefit to the claimant in Wales in each year since 1997; and if he will make a statement. [39561]

Mr. Plaskitt: The available information is in the following tables.

Average number of days from benefit claim to payment of benefit in Wales

Days

	2002	*2003*	*2004*	*2005*
Incapacity benefit (IB) clearance rate	13.6	12.8	15.2	13.2
IB Clearance target	22	19		
Jobseekers allowance (JSA) clearance rate	9.2	9.5	10.0	10.5
JSA Clearance target	12			
Income support (IS) clearance rate	9.1	9.1	9.9	9.5
IS clearance target	12			

Notes:
1. Figures are only available from April 2002 when Jobcentre Plus came into being, replacing the former Employment Service and parts of the Benefits Agency.
2. Clearance times are measured up to the date of decision and referral for payment. The payment will be issued on the appropriate pay-day.

Disability living allowance (normal rules) new claims clearance times

	Target	*YTD*
1999/2000	Percentage cleared (85 per cent. in 53 days)	89.5
2000/01	Percentage cleared (95 per cent. in 73 days)	95.9
2001/02	Percentage cleared (95 per cent. in 73 days)	95.9
2002/03	Average clearance time (43 days)	34.1
2003/04	Average clearance time (42 days)	39.2
2004/05	Average clearance time (39 days)	35.4
As at November 2005	Average clearance time (39 days)	34.4

Disability living allowance (special rules) new claims clearance times

	Target	*YTD*
1999/2000	Percentage cleared (80 per cent. in 10 days)	88.9
2000/01	Percentage cleared (95 per cent. in 15 days)	92.1
2001/02	Percentage cleared (95 per cent. in 15 days)	91.3
2002/03	Average Clearance time (8 days)	5.8
2003/04	Average Clearance time (8 days)	6.7
2004/05	Average Clearance time (8 days)	6.4
As at November 2005	Average Clearance time (8 days)	5.5

Notes:
1. Each year runs from April to the following March, except for the current year where the YTD figure is up to and including 30 November 2005.
2. Up to 2001–02 the target was known as 'X percentage into Y days' but since 2002–03 it has been expressed as an Actual Average Clearance Time.
3. The target and YTD figure only relates to clearance times and not to payment of benefit. Although an assumption is made that payment will be authorised at the same time as the case is cleared, in a favourable award, there will always be exceptions to this.

Pension credit was introduced on 6 October 2003 and replaced minimum income guarantee (income support for people aged 60 or over). The vast majority of people who were previously in receipt of the minimum income guarantee transferred to pension credit in October 2003.

Clearance time data for pension credit is not available in the format requested. When The Pension Service was introduced the agency was organised into Government Office Regions. As The Pension Service caseload is managed by Pension Centre, it is not possible to trace clearance times to claims originating in Wales.

Dr. Strang: To ask the Secretary of State for Work and Pensions how much money has been spent in each of the last five years on sending information to incorrect addresses for those in receipt of benefits; and what the estimate is of the amount of money fraudulently claimed as a result. [39885]

Mr. Plaskitt: The information is not available.

Dr. Strang: To ask the Secretary of State for Work and Pensions whether his Department uses an automatic indicator that someone in receipt of benefit has *(a)* died and *(b)* moved house. [39886]

Mr. Plaskitt: The Department for Work and Pensions uses automatic indicators to 'broadcast' to all its benefit systems changes of circumstances where someone in receipt of benefit has died or has moved house.

When a person dies, the Department is notified of the death by the Office for National Statistics (ONS) for England and Wales, the General Registrar's Office for Scotland or the General Registrar's Office for Northern Ireland. This data is transmitted to a central point in DWP. It is recorded on the Departmental Central Index (DCI) and forwarded automatically to all benefit systems including the jobseeker's allowance payment system and the pension strategy computer system. Once the notification is received, payment of benefit will automatically be suspended on systems such as the pension strategy computer system and the disability living allowance/attendance allowance computer system. On other systems, such as the income support computer system and the jobseeker's allowance payment system staff will be notified of the need to take action on the cases affected.

When the Department is notified that someone has moved house, the data are automatically sent to the relevant benefit systems. This alerts staff to take the necessary action to update addresses and, where appropriate, notify the relevant local authority for housing benefit and council tax benefit purposes. A process is also in place where local authorities can notify DWP when a person in receipt of benefit has moved house and when this is received at a central point, automatic indicators are broadcast to other benefit systems.

Dr. Strang: To ask the Secretary of State for Work and Pensions how his Department traces an individual in receipt of benefit for whom it has an incorrect address. [39887]

Mr. Plaskitt: I refer my right hon. Friend to the written answer I gave on 9 January 2006, *Official Report*, column 80W.

Carers

Dr. Francis: To ask the Secretary of State for Work and Pensions what steps his Department is taking to enhance the rights of carers. [37908]

Mrs. McGuire: This Government are the first ever to recognise the contribution and concerns of all carers formally and is supporting carers on a number of fronts through the work of several Departments.

The principle of fair outcomes for women and carers is central to the National Pensions Debate that the Government launched earlier this year.

The Department for Work and Pensions held a specific event focusing on women and pensions on 7 November, following the publication of the Government's report "Women and pensions: The evidence". The report provides a compendium of evidence that highlights the key influences on the level of women's retirement income, including consideration of the impact of parenthood and family caring responsibilities on pension entitlement.

Tim Farron: To ask the Secretary of State for Work and Pensions on what basis applications for additional assistance for carers wishing to take a break in their care provision are selected for means-testing. [41721]

Mr. Byrne *[holding answer 12 January 2006]:* I have been asked to reply.

A service that enables a carer to take a break from caring is viewed as a service for the cared for person. Carers cannot be charged for community care services provided to the people they care for. If the council charges for short break services, it is the service user who must be financially assessed.

Carers can only be charged for services they receive as a result of a carer's assessment under the Carers and Disabled Children Act 2000. It is for local authorities to determine their own charging policy for non-residential services for both carers and service users. For residential care, they must charge the service user in accordance with statutory regulations.

Child Care

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what role his Department has in the regulation of child care; and if he will make a statement. [42120]

Margaret Hodge: The regulation of child care in England is the responsibility of Ofsted, under the policy direction of the Department for Education and Skills. The Department for Work and Pensions has no role in the regulation.

Regulation of child care in Scotland and Wales is the responsibility of the Scottish Executive and Welsh Assembly respectively.

Civil Service Relocation (Scotland)

Stewart Hosie: To ask the Secretary of State for Work and Pensions how many departmental civil service jobs have been relocated to Scotland in each year since 2001. [32261]

Mrs. McGuire *[holding answer 28 November 2005]:* A total of 50 posts have been relocated to Scotland from London and the South East as part of the Lyons Review of Public Sector Relocation. These relocations have taken place since June 2003. Information prior to this date is not available.

Claimant Behaviour

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on findings of research projects *(a)* commissioned and *(b)* evaluated by his Department on the efficiency of benefit sanctions in influencing claimant behaviour. [36726]

Mr. Plaskitt: Our administration database tells us that 14 per cent. of jobseeker's allowance customers are referred to a decision maker for consideration of a sanction. In total only 4 per cent. of customers are actually sanctioned. This would suggest that the threat of the application of sanctions leads the majority to comply with the conditions of receiving jobseeker's allowance. New evidence from a commissioned evaluation on jobseeker's allowance sanctions will be published in early 2006. This will help to shed light on customer understanding and knowledge of jobseeker's allowance sanctions.

In the case of lone parents, new research findings, to be published on 19 January 2006, will provide qualitative evidence on the efficiency of benefit sanctions for lone parents in influencing claimant behaviour.

Due to the low volumes, no evaluation has taken place of the efficiency of benefit sanctions in the pathways to work pilots.

Child Support Agency

Danny Alexander: To ask the Secretary of State for Work and Pensions what percentage of maintenance applications to the Child Support Agency have been determined within *(a)* 22 weeks and *(b)* 12 months in each of the last five years for which figures are available. [10146]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the requested information.

Letter from Stephen Geraghty, dated 16 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what percentage of maintenance applications to the CSA have been determined within *(a)* 22 weeks and *(b)* 12 months in each of the last 5 years for which figures are available?

The information requested can be found in the attached tables. Recent improvements in management information for new-scheme cases allows the Agency to provide more meaningful information on the time taken to clear new scheme applications, which was published for the first time in the Departments Child Support Agency Quarterly Statistical Supplement on the DWP website on 27 October 2005.

It should be noted that, a new-scheme application is defined as determined (or cleared) if the case is closed, a maintenance calculation has been carried out and a payment arrangement is in place, the Parent with Care is identified as claiming Good Cause or subject to a Reduced Benefit Decision, or the application is identified as being a change of circumstances on an existing case.

For old-scheme cases on the old computer system (CSCS), the Agency is only able to measure clearances up to the point of closure or maintenance assessment.

As the definition of a clearance is slightly different for old and new-scheme cases, the numbers presented below are therefore broadly, but not directly, comparable.

I recognise that performance in this area is unsatisfactory, and that there is a need for real improvement in the near future. To this end, I am currently presenting proposals to Ministers aimed at making the Agency more effective in its role of ensuring that non resident parents take financial responsibility for their children.

Old scheme

Application received	*Percentage of maintenance applications cleared within:*	
March to February:	*22 weeks*	*12 months*
2000–01	34	56
2001–02	42	65
2002–03	52	70

New scheme

Application received	*Percentage of maintenance applications cleared within:*	
March to February:	*22 weeks*	*12 months*
2003–04	46	64
2004–05	46	—

Notes:

1. Figures are rounded to the nearest whole per cent.
2. Figures for the new scheme exclude cases which have been progressed and cleared clerically and 161,000 potential applications that had come via the Jobcentre Plus interface (80,000 of which had been cleared and 81,000 which were still outstanding as of September 2005) and for which no management information is currently available.
3. It is not currently possible to provide figures in relation to old scheme cases received prior to the introduction of the new scheme, but migrated to the new IT system (CS2) prior to the application being cleared.
4. Comparable data are not available for the percentage of applications received between March 2004 and February 2005 that were cleared in 12 months as a full 12 months has not yet elapsed since the end of this period.

Danny Alexander: To ask the Secretary of State for Work and Pensions what percentage of non-resident parents have paid the full maintenance as determined by the Child Support Agency in each of the last five years for which figures are available. [10147]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the requested information.

Letter from Stephen Geraghty, dated 16 January 2006:

You asked the Secretary of State for Work and Pensions, what percentage of non-resident parents have paid the full maintenance as determined by the Child Support Agency in each of the last five years for which figures are available. I have provided the figures for the percentage of non-resident parents who have paid the full amount of maintenance as requested by the Agency, for the last five years for which data is available. These figures present a view as at August in each year the most recent point in time for which comparable information in earlier years is available.

The figures provided in the table for August 2004 and 2005 include both new and old scheme, on both systems.

Percentage of non-resident parents who paid the full amount of maintenance (Overall Agency)

Quarter ending August:	*Old scheme old system*	*New and old scheme*
2000	49	—
2001	47	—
2002	53	—
2003	55	—
2004	—	46
2005	—	46

Note:

New scheme was introduced 3 March 2003 but reliable data for the six months to August 2003 is currently not available for new and old scheme cases on the new computer system.

To place these figures into context, it should be noted that, whilst only 46 per cent. of non-resident parents paid their maintenance liability in full over the quarter ending August 2005, the Agency obtained a payment from 70 per cent. of cases in which maintenance was due via the collection service, with the remainder of non-resident parents, not taking any financial responsibility for their children. Where any such payment was obtained, on average, 90 per cent. of the amount due was collected.

I hope you find this response helpful and apologise for the delay in providing this response.

Departmental Data

Dr. Strang: To ask the Secretary of State for Work and Pensions what methods his Department employs to ensure that its data are up-to-date, with particular reference to information on people who have *(a)* moved house and *(b)* died. [37790]

Mr. Plaskitt: The Department for Work and Pensions makes every effort to ensure that its data is accurate, up-to-date and relevant. It employs different methods according to the type of data it holds in relation to change of address and death details.

Where people move house there is no obligation on them as individuals to notify my Department of such a change unless they are in receipt of benefit, where checks are made at the start of the claim and in certain benefits at specified points during the course of the claim. However, through closer working with other Government Departments, particularly Her Majesty's Revenue and Customs (HMRC), my Department receives on a daily

basis, changes of address notified to HMRC for their customers who are in employment, claiming tax credits or liable for income tax or national insurance contributions. In addition to this, my Department fully supports cross-government data sharing initiatives such as the setting up of a National Identity Register for ID Cards in order to maintain the integrity of its data. If the person moving home is in receipt of housing benefit or council tax benefit processes are in place for local authorities to notify my Department of the change.

When a person dies, my Department is notified of the death by the Office of National Statistics (for England and Wales), the General Registrar's Office (Scotland) and the General Registrar's Office (Northern Ireland). These data are recorded centrally and, where appropriate, forwarded to the relevant benefit system to suspend payment of benefit and alert staff to the need to take action on specific cases. In addition to this, many relatives, friends and next of kin of the deceased person notify the death direct to the Department when benefit is in payment or bereavement benefit claimed, providing copies of the death certificate. Between these processes my Department captures the death data within a matter of weeks. As modernisation programmes progress in registrations of death, plans are in place to automate the notifications from ONS (England and Wales) and GRO (Scotland), making the process quicker and more efficient.

Departmental Expenditure

Martin Horwood: To ask the Secretary of State for Work and Pensions how much his Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. [33204]

Mrs. McGuire: The information requested is not held centrally and could be obtained only at disproportionate cost.

Departmental Research

Bob Spink: To ask the Secretary of State for Work and Pensions what research projects commissioned by his Department are being undertaken; and what the publication arrangements are in each case. [32991]

Mrs. McGuire: Research projects currently being undertaken that have been commissioned by the Department for Work and Pensions are outlined in the following list:

Project name:

The Pension Service Customer Survey 2005

Micro-employers attitudes to employee pension provision

Evaluation of automatic state pension forecasts

Design of the evaluation of the Pension Education Fund

Evaluation of The Pension Service Partnership Fund

Overcoming barriers to Pension Credit Take-Up

Overcoming barriers to Pension Credit Take-Up: Qualitative research with Pension Credit Eligible non-recipients

Attitudes to Pensions Survey

Pensions and Savings research: Focus Groups

The International Pensions Centre Customer Survey

Pensions and Savings research: Omnibus questions

Survey of Annuity pricing

Evaluation of Pension Increase Pledge

The effects of means-testing pensions on savings and retirement

Understanding older people's experiences of poverty and material deprivation—quantitative element

Understanding older people's experiences of poverty and material deprivation—qualitative element

The importance of incentives in influencing private retirement savings: known knowns and unknowns

Savings incentives—Understanding the interactions of long term savings and debt

Employers Pension Provision Survey 2005

Which pensioners don't spend their income and why?

Self-employed: Work and Saving for retirement

Retirement Planner: Proof of concept work

Qualitative evaluation of the Intensive Activity period for 50+

Transitions to and from activity for the over 50s

Work and Retirement Literature Review

Work and Retirement Literature Review

Age Legislation: Qualitative research with employers (and secondary dataset analysis subject to funding)

Intensive Activity Period for 50+—Qualitative

Macroeconomic Modelling of savings scenarios

Initial Evaluation of the Phase 1 Age Partnership Group "Be Ready" National Guidance Campaign products

Age and Training Phase 2

Encouraging Cultural Change: Communication about extending working life

Poverty and large families

Intergenerational Child Poverty

Understanding debt

Poverty—Bucking The Trend

Administrative Datasets for Measuring Impacts on Disadvantage

Families, Health and Work

Examining the position of the public sector in relation to the provisions of the 1995 Disability Discrimination Act (coming into force October 2004) and the new Disability Discrimination Bill

Disability Communications

Economic and Social Costs and Benefits to employers for recruiting, retaining and employing disabled people and/or people with health conditions or injury

Information needs for disabled people

Job Retention and Rehabilitation Evaluation

Fair Cities Evaluation

Jobcentre Plus National Customer Satisfaction Survey 2005 (Ethnic Minority Booster)

Overarching thematic analysis of Jobcentre Plus employment policies for ex-offenders

Jobcentre Plus Local Office Traffic Survey

Jobseekers Mandatory Activity Pilots Evaluation

Job Outcome Target quantitative evaluation strand

Evaluation of Jobcentre Plus Job Outcome Target Pilots: Stage Three

Job Outcome Target Pilots' Evaluation: Summary Report

Evaluation of the New Deal Plus Project

Clusters of workless couples and their employment transitions: Phase 1

Review of Action Teams for Jobs

Work Based Learning for Adults—Longer term outcomes of Work Based Learning for Adults customers

A methodological study of barriers to work

Annual Employer Research

Evaluation of Pathways to Work Expansion (to a further 14 Districts)

Evaluation of Multiple Provider Employment Zones

Employment Zones Extensions Qualitative (Single Provider)

Evaluation of Working Neighbourhoods Pilot

Maximising the Role of Outreach

Basic Skills Mandatory Training Pilots

Evaluation of Skills Coaching

Systematic Review of the Impact of Adult Learning

Base lining Survey for Financial Support for Adult Learners

Sanctions Quantitative

Repeat Spells

Evaluation Extensions to Personal Adviser meetings

Evaluation of Specialist Employment Advisers

Secondary Analysis of New Deal for Lone Parents /Work Focused interviews Datasets

Perceptions and Experiences in Jobcentre Plus

Part-time Work seminar

Customer Case Management

Survey of Employers Practices

Ethnic Minority Populations and the Labour Market: Analysis of the 2001 Census

Barriers to Employment: Pakistani and Bangladeshi

Ethnic Parity in Jobcentre Plus Programmes and Mainstream Services

Lone Parent and Partner Pilots: In Work Credit, Work Search Premium and Quarterly Work Focused Interviews Qualitative Evaluation

Lone Parent In Work Credit, Work Search Premium, Extended Schools Child Care , Childcare Tasters and Quarterly Work Focused Interviews Impact Evaluation

Work focused Interviews and New Deal for Partners Evaluation (Quantitative)

Work focused Interviews and New Deal for Partners Evaluation (Qualitative)

Family and Children's Survey

Review of Family and Children's Survey

Survey of New Deal for Disabled People Registrants, cohort three: additional analysis of dataset

Evaluation of New Deal for Disabled People Extensions

The impact of Incapacity Benefit Pilots (Condition Management Programme) on participants health related quality of life

Routes onto Incapacity Benefits—quantitative work

Statutory Sick Pay Feasibility Project

Literature review of the scientific evidence regarding chronic obstructive pulmonary disease on behalf of the Industrial Injuries Advisory Council

WORKSTEP Evaluation

WORKSTEP Modernisation Funds Evaluation

British Social Attitudes Survey (Welfare Module)

Contribution to the Millennium birth Cohort

Contribution to the General household survey

Attitudes to making adjustments to common parts in rented and leased residential accommodation

Claimants and advisers awareness of and attitudes to Housing Benefit and Council Tax Benefit as an In-Work Benefit

Housing Benefit Control for Gypsy Site Rents

Claimants motivations for reporting changes of circumstances

Local Housing Authority Pathfinders

An Investigation of Child Support Agency Maintenance Direct payments—Qualitative research

An Investigation of Child Support Agency Maintenance Direct Payments—Quantitative research

European Social Fund Objective 3 Beneficiary Survey

Evaluation of the impact of co-financing on European Social Fund Objectives

Survey of European Social Fund Objectives

Update to the mid-term Evaluation of the European Social Fund Community Support Framework

Developing Policy: Positive Action Policies

Public Awareness Research

Conversion of PDF research files using ORC software and future conversion of hard copy research using ORC software

Evaluation Databases

What Works? Literature review and meta-analysis

Linking English Longitudinal Study of Ageing data to administrative data: documenting the process and access arrangements

Evaluation of CMS version3

Externally commissioned research findings are released publicly, the vast majority appearing in the Department's Research Report Series which is available both in hard copy and for download from the website (http://www.dwp.gov.uk/asd/asd5/)

Departmental Staff

Justine Greening: To ask the Secretary of State for Work and Pensions how much the Department spent on activities relating to the recruitment of head count to the Department in each year from 1997; what the latest estimates are for *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; and if he will make a statement. [32432]

Mrs. McGuire *[holding answer 28 November 2005]*: The information requested is not held centrally and could be obtained only at disproportionate cost.

EU Directive on Working at Heights

Hugh Robertson: To ask the Secretary of State for Work and Pensions what assessment he has made of the implications for sport of the EU directive on working at heights. [42707]

Mrs. McGuire: While we are keen to promote all sporting activity on the basis of sensible risk, in this case no assessment is required. This is because the directive and regulations only apply to persons at work and not to private individuals participating in sports activities.

Gershon Review

Mr. Wallace: To ask the Secretary of State for Work and Pensions if he will make a statement on the implementation of the Gershon review in his Department. [34383]

Mrs. McGuire: The Department is on track to meet its Gershon review efficiency targets. Progress against the targets has been reported in the department's autumn performance report which was laid before Parliament on 15 December 2005.

Habitual Residence Test

John Hemming: To ask the Secretary of State for Work and Pensions pursuant to the answer of 5 December 2005, *Official Report*, column 1048W, on the Habitual Residence Test, if he will change the rules for non-contributory benefits so that those who make sufficient contributions to a contributory benefit to enable them to obtain half of the maximum are deemed to have passed the habitual residency test. [38197]

Mr. Plaskitt: The Habitual Residence Test is only applied to income-related benefits and people who qualify for a contributory benefit such as contribution based jobseeker's allowance will not be subject to the test. There is already provision in regulations which allows EEA nationals who have been working in the UK to be treated as habitually resident if they claim an income-related benefit. In line with EC case law, a returning UK national who has previously worked in the UK is likely to pass the Habitual Residence Test immediately. Non-EEA nationals who work in the UK are usually subject to immigration control and have no recourse to public funds. As such they have no access to income-related benefits and therefore would not be subject to the Habitual Residence Test.

Job Vacancies (London)

Sarah Teather: To ask the Secretary of State for Work and Pensions how many job vacancies there were in each London borough per 1,000 working age population on the most recent date for which figures are available; how many there were 12 months prior to this date; and what the current national vacancy rate is per 1,000 of working age population. [40680]

Margaret Hodge: The number of vacancies remains at a historically high level. More than 10,000 new vacancies are placed at Jobcentres every working day and at least as many again are filled through other recruitment channels.

The latest vacancy survey by the Office for National Statistics (ONS) estimates there were 600.2 thousand unfilled vacancies in the quarter to November 2005, compared to 641.7 thousand this time last year. The ONS vacancy ratio for the UK for November 2005 (the latest data) is 2.3. This is the number of vacancies per 100 employee jobs.

The specific information requested for London is not available. The available information on recorded unfilled Jobcentre Plus vacancies for the London boroughs at November 2004 and 2005 is in the table.

	November 2004	*November 2005*
Barking and Dagenham	1,995	1,138
Barnet	3,946	2,313

Pension Credit

Mr. Bone: To ask the Secretary of State for Work and Pensions what the change in take-up of pension credit has been in each quarter since it was introduced. [41569]

Mr. Timms: The information requested is not available. Latest estimates of pensioners' take-up of the main income-related benefits relate to financial year 2002–03 and predates the introduction of pension credit. Estimates for minimum income guarantee, the predecessor to pension credit, can be found in the DWP report entitled "Income Related Benefits Estimates of Take-Up in 2002/2003". Copies of the publication are available in the Library.

Estimates of pension credit will be published in early 2006; this publication will include the first six months of pension credit. Estimates for the full year 2004–05 are expected to be published in May 2006. This information is only available on an annual basis.

Mr. Dismore: To ask the Secretary of State for Work and Pensions how many pensioners in Hendon receive pension credit *(a)* savings element and *(b)* guarantee element; what the average award was in each case in the latest period for which figures are available; and if he will make a statement. [41218]

Mr. Timms: The available information is in the table.

Pension credit recipients in the Hendon constituency as at 30 September 2005 with pension credit average amounts for recipients in the Hendon constituency as at 16 September 2005

	Household recipients	
	Recipients	*Average amounts (£ per week)*
All	4,300	64.55
Guarantee credit (GC) only	2,300	93.16
Savings credit (SC) only	600	10.58
GC and SC	1,500	40.63

Notes:

1. Caseloads are rounded to the nearest hundred, average amounts are given to the nearest penny.

2. Pension credit (PC) replaced minimum income guarantee (MIG) on 6 October 2003. Existing MIG recipients were automatically converted onto pension credit on that date (assuming they still met the eligibility criteria).
3. PC data from the Generalised Matching Service (CMS) 100 per cent. scan taken on 16 September 2005. The caseloads have been rated up to give month-end estimates, but the average amounts have been supplied in an un-adjusted form, therefore they are representative of 16 September 2005.
4. These figures are early estimates. Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases.

Information Directorate 100 per cent. data

Post Office Card Accounts

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions whether his Department allows the Post Office to recognise representatives acting under Power of Attorney with regard to accessing Post Office card accounts; and if he will make a statement. [40666]

Mr. Plaskitt: The Post Office card account is a banking product owned by Post Office Ltd., and it is for them to set the terms by which they and the customer agree to operate the account under the usual Financial Services Authority licences and regulations. The Post Office card account does not support Power of Attorney.

Customers who are not capable of managing their own affairs may apply to have a person appointed by the Secretary of State to act on their behalf. An appointee can open a Post Office card account in their own name to receive any benefit or pension paid to them in respect of the customer.

Most banks and building societies have accounts (many of which are accessible at the Post Office) that will allow someone, including a person who holds Power of Attorney, to access a customer's account. The precise arrangements will depend on the type of account held and with which account provider.

Stakeholder Pensions

Gregory Barker: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of stakeholder pensions. [41871]

Mr. Timms: Stakeholder pensions were introduced to provide a good value pension option for moderate earners who do not have access to an occupational pension scheme or to a cost effective personal pension plan. Figures from HM Revenue and Customs for the 2003–04 tax year, the latest available, show that around two-thirds of stakeholder pensions sales have been to people in work earning less than £20,000 a year.

Figures from the Association of British Insurers (ABI) show that at 30 September 2005 2,622,160 stakeholder pensions had been sold since their introduction in April 2001.

The impact of stakeholder pensions on saving for retirement may extend beyond their sales alone. There is evidence that annual management charges for other personal pensions fell by around a third between 1999 and 2001, to around the 1 per cent. level of stakeholder pension charges, suggesting that the stakeholder pension initiative has benefited the personal pension market as a whole.

Winter Fuel Payments

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what discussions he has had with representatives of people of pensionable age on increasing the winter fuel payment in line with fuel prices. [40524]

Mr. Timms: The Department has had no such discussions. The winter fuel payment is intended to be a significant contribution towards fuel costs and has risen above the level of inflation from £20 in winter 1997–98 to £200 from winter 2000–01 and to £300 for those aged 80 or over from winter 2003–04. We have no plans to increase the winter fuel payment.

CONSTITUTIONAL AFFAIRS

Bail Requests

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs how many police requests for denial of bail were received by Northamptonshire magistrates in the last year for which figures are available; and how many such requests were turned down. [38099]

Fiona Mactaggart: I have been asked to reply.

The information requested is not available. The Court Proceedings Database held by the Office for Criminal Justice Reform does not hold information on police requests for denial of bail.

Child Maintenance

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs in how many cases of separation where children are involved consent orders have been set by the courts on the level of child maintenance to be paid in each of the last 10 years. [40470]

Ms Harman: This information cannot be provided without incurring disproportionate cost.

Civil Servants

Stewart Hosie: To ask the Minister of State, Department for Constitutional Affairs how many and what proportion of each Civil Service grade in her Department is located in each *(a)* region and *(b)* nation of the UK; what the average salary is for each grade; and if she will make a statement. [35915]

Ms Harman: My hon. Friend, the Parliamentary Under-Secretary at the Cabinet Office will write to the hon. Member with details for the civil service of the percentage of staff in post by region and grade responsibility and the median salary of staff in post by region and grade responsibility as at 1 April 2004. Copies of his letter will be placed in the Library.

Correspondence

Sir Gerald Kaufman: To ask the Minister of State, Department for Constitutional Affairs when the Secretary of State will reply to the letter dated 22 November 2005 from the right hon. Member for Manchester, Gorton, with regard to Mrs. S. Ali. [41839]

Ms Harman: The Secretary of State and Lord Chancellor wrote to the hon. Member on 21 December in response to his letter of 22 November.

Court House (Colchester)

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on proposals to build a new court house at Colchester. [41479]

Ms Harman: The Essex magistrates court scheme, of which Colchester is part, continues to be within the programme of new court projects. However, my Department is still finalising investment plans, as part of the development of a Business and Estates Strategy for Her Majesty's Court Service. A further announcement will be made once spending plans have been agreed with Treasury. As part of our continuing commitment to the Essex magistrates court scheme, we are currently in the process of purchasing a site for the new courthouse in Colchester. The purchase is expected to be completed by the end of March 2006.

Criminal Justice (Statistics)

Judy Mallaber: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the requirement to collect data on women and the criminal justice system to enable criminal justice bodies to monitor the impact of policies on women under the proposed gender equality duty in the Equality Bill. [38370]

Fiona Mactaggart: I have been asked to reply.

The Office for Criminal Justice Reform is monitoring the passage of the Equality Bill and the duties it will place on criminal justice bodies, including the impact of policies on women. We will take forward our obligations once the regulations have been laid later this year.

Crown Court Hearings

Mr. Bone: To ask the Minister of State, Department for Constitutional Affairs how many Crown court hearings were *(a)* held and *(b)* scheduled and then subsequently postponed in (i) England and Wales and (ii) Northamptonshire in each year since 1997. [41056]

Ms Harman: Figures relating to how many Crown court hearings were *(a)* held and *(b)* scheduled and then subsequently postponed in (i) England and Wales and (ii) Northamptonshire in each year since 1997, can be found in the tables.

The figures in the following tables show the number of hearings arranged, those which took place, and those which were removed from the list before the hearing date.

England and Wales

	Number of cases		
	Hearings fixed	*Effective hearings*	*Removed*
1997–98	368,140	340,243	27,897
1998–99	917,778	847,641	70,137
1999–2000	915,660	841,374	74,286
2000–01	895,241	822,468	72,773
2001–02	1,020,015	944,142	75,873
2002–03	1,153,383	1,066,030	87,353
2003–04	1,188,600	1,100,748	87,852
2004–05	1,177,854	1,089,488	88,366
2005–06	898,283	828,232	70,051

Northamptonshire

	Number of cases		
	Hearings fixed	*Effective hearings*	*Removed*
1997–98	2,556	2,159	397
1998–99	9,173	7,900	1,273
1999–2000	11,116	9,248	1,868
2000–01	9,042	7,498	1,544
2001–02	8,219	6,774	1,445
2002–03	11,618	9,424	2,194
2003–04	12,619	10,452	2,167
2004–05	12,473	10,342	2,131
2005–06	9,848	8,265	1,583

Departmental Expenditure

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs how much was spent on external consultants and advisers by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39083]

Ms Harman: Since its inception in June 2003, my Department has used consultants to support its wide-ranging and fast-paced programme of modernisation and change, to increase efficiency, provide better customer service, and value for money for the taxpayer.

Information on consultancy expenditure is not held centrally, and is collected once a year for the previous financial year from the Department, its Executive agencies and NDPB's.

The exercise relating to expenditure in 2004–05 is under way, and on completion details will be sent to the hon. Member.

Expenditure with consultants in year 2003–04 was as follows:

	£
(a) DCA and Court Service	9,016,488
(b) (i) Legal Services Commission	319,800
Information Commissioner	417,429
(ii) Public Guardianship Office	766,200
Court Service	[1]

[1] Included in DCA figure.

(c) Information on expenditure by independent statutory bodies is not held centrally and could be obtained only at disproportionate cost

Mr. Spellar: To ask the Minister of State, Department for Constitutional Affairs how much her Department spent on bottled water in 2004–05. [40341]

Ms Harman: My Department has a contract for the provision of chilled water and water coolers. The cost of this contract in 2004–05 was £16,734.00 but this is solely for mains fed water machines. Bottled water is occasionally supplied by our caterers for meetings; it is not possible to separate the cost of this from overall refreshment costs.

This answer relates solely to the Department for Constitutional Affairs, HQ Estate and not to Her Majesty's Court Service, related agencies or NDPB's as to gather this information would incur a disproportionate cost.

Electoral Administration

Lynne Featherstone: To ask the Minister of State, Department for Constitutional Affairs what proportion of returning officers submitted their form Ks after the general election on time and with all the information supplied; which returning officers failed to submit a form K; and if she will make a statement. [40813]

Ms Harman: Election Commission collate and publish data held on the form Ks, as part of their remit to report on UK parliamentary elections.

In their report "Election 2005: turnout", the Commission noted that some or all the data on postal voting take-up was missing for 35 constituencies in England and one constituency in Wales.

Electoral Register

Dr. Strang: To ask the Minister of State, Department for Constitutional Affairs how local authority registration officers keep the electoral register up to date regarding deaths. [41025]

Ms Harman: Under the representation of the People Regulations 2001, electoral registration officers (EROs) have access to the records of the local registrar of births, marriages and deaths for the purpose of their registration duties. EROs will also act upon any information received from other sources, such as the family of a deceased person.

Fine Defaulting

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs whether Operation Payback Two was used in the Southend West constituency. [41742]

Ms Harman: All 42 magistrates court areas took part in Operation Payback Two. Essex ran Operation Payback Two from 29 November through to 3 December, with visits to Southend West taking place on 1 December.

Essex collected £65,790 during the initiative.

Innovations Fund

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what criteria were used in making the decision not to make a statement to Parliament on the Department's plans to introduce an Innovations Fund for elections. [41241]

Ms Harman: The Innovations Fund is a small funding programme that is now available from the Democratic Engagement Branch of the DCA.

The Innovations Fund will provide seed funding of £10,000 to up to 10 projects that will build, test and evaluate new tools, both online and offline, that will facilitate democratic engagement between Government and the public or between members of the public.

The Innovations Fund is a small, trial project with a maximum budget of £100,000 that is not directly related to the election process. It was therefore not considered to be of a large enough scale to announce in Parliament.

All projects funded by the Innovations Fund will have robust contracts in place to ensure that funding is allocated appropriately. The Innovations Fund is separate from proposals for administrative pilots at the May 2006 elections.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what types of projects may be funded under the Department's elections Innovations fund pilots. [41242]

Ms Harman: The Innovations fund is a small funding programme that is now available from the Democratic Engagement Branch of the DCA.

The Innovations fund will provide seed funding of approximately £10,000 to up to 10 projects that will build, test and evaluate new tools that will facilitate democratic engagement between elections, either online or offline, between government and the public or between members of the public.

The Innovations fund is not related to elections per se, but instead will fund projects that will explore ways of motivating and mobilising citizens to participate in the decision-making processes that affect their lives and their communities in between elections.

The Innovations fund is separate from proposals for administrative pilots at the May 2006 elections.

Judges

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* Crown court and *(b)* appeal court judges were convicted of a criminal offence in each year since 1975. [37549]

Ms Harman: Convictions for serious criminal offences (i.e. those potentially or actually carrying a sentence of imprisonment) are considered by the Lord Chancellor as incompatible with holding judicial office. In the period since 1975, there has only been one such conviction (for smuggling) and the circuit judge in question was removed by the Lord Chancellor in 1983. The information on other convictions is not held centrally.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what recent discussions she has had with the judiciary in Chelmsford on the reform of the judges' lodging system; and if she will make a statement. [41013]

Ms Harman: I have had no discussions with the judiciary in Chelmsford on the reform of the judges' lodgings system.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what the total cost was of each judge's lodging housing a judge sitting in Chelmsford Crown court in each of the last five years for which figures are available; on how many nights they were used by judges in each year; how many staff were employed in such lodgings in each year; and what the *(a)* capital value is of each freehold property and *(b)* surrender value is of each leasehold property. [41014]

Ms Harman: There is only one judges' lodgings used by the High Court Judiciary sitting at Chelmsford Crown court. The property is owned by Essex county council and is hired as serviced accommodation under the terms of a license. I am therefore unable to supply the information on staffing, capital value, and the surrender value. The other information is given as follows.

	Total spend (£)	*Judge nights occupation*
2000-01	107,853.64	69
2001-02	114,388.17	145
2002-03	138,406.16	142
2003-04	103,069.09	115
2004-05	87,192.20	66

Judicial Pension Schemes

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs pursuant to the written statement of 15 December 2005, *Official Report*, column 162WS, on judicial pensions, what the evidential basis is for the deregistering of judicial pension schemes having no net cost; and if she will give an estimate for the *(a)* cost and *(b)* saving of each component of the reforms. [40475]

Ms Harman: Changes in payments to, and contributions payable by, judges will be balanced by tax revenue; and higher employers national insurance contributions will be payments within Government.

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs how many and what proportion of judges she estimates will have pension funds larger than £1.5 million in each of the next five years. [40477]

Ms Harman: No information is held on judges' personal pension arrangements and it is therefore not possible to provide such an estimate.

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the tax yield from judges' pensions if they were subject to the provisions of the Finance Act 2004. [40478]

Ms Harman: It is not possible to provide an estimate of any lifetime allowance charge liability as this would depend on a number of factors, including the level of personal pension benefits, the effect of any relief under the transitional provisions of the Finance Act and the order in which judges chose to vest their personal and judicial pensions.

Magistrates

Mr. Bone: To ask the Minister of State, Department for Constitutional Affairs what the criteria are for appointing magistrates. [40986]

Ms Harman: Candidates for the magistracy must be between 18 and 65 years of age and must demonstrate at interview each of the following six key qualities: good character, understanding and communication, social awareness, maturity and sound temperament, sound judgment, and commitment and reliability. Details of those factors which will act as a bar to appointment are set out in the Lord Chancellor's directions to Advisory Committees, a copy of which is available in the Library of the House.

Voting Systems

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the outcome of the Government review of the proportional voting systems used for the Scottish Parliament, Welsh Assembly and European Parliament elections. [41390]

Ms Harman: The Government review of the experiences of the new UK voting systems introduced for the devolved Administrations, the European Parliament and London assembly elections being conducted by officials within my Department is under way, and any decisions on any next steps, if necessary, will be taken in due course.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health (1) when her Department last undertook an evidence review into the long-term consequences of abortion on women, with particular reference to *(a)* depression, *(b)* drug misuse, *(c)* anxiety, *(d)* attempted suicide and *(e)* alcoholism, that drew on (i) UK and (ii) international research; and if she will make a statement; [41635]

(2) if she will commission an independent study of the long-term effects of abortion on the health of women, with particular reference to *(a)* depression, *(b)* drug misuse, *(c)* anxiety, *(d)* attempted suicide and *(e)* alcoholism; and if she will make a statement. [41704]

Caroline Flint: The safety and psychological effects of abortion were considered by the Royal College of Obstetricians and Gynaecologists (RCOG) in its updated evidence-based guideline, "The Care of Women Requesting Induced Abortion" (2004). In updating the guidance, the RCOG took account of the most recent national and international evidence. This is taken into account in the recommendations concerning information for women and abortion aftercare.

The Department has no current plans to commission an independent study of the long-term effects of abortion on the health of women, but keeps all new and emerging evidence under review.

Mr. Amess: To ask the Secretary of State for Health (1) what methodology was used by her Department to make the estimate of 25,000 in paragraph 4.10.5 of the partial regulatory impact assessment on the Prohibition of Abortion (England and Wales) Bill; and if she will make a statement; [41752]

(2) what methodology her Department used to make the conclusion in paragraph 4.10.4 of the partial regulatory impact assessment on the Prohibition of Abortion (England and Wales) Bill that 15,000 illegal abortions would take place in the United Kingdom if the Bill were passed; and if she will make a statement. [41753]

Caroline Flint: When developing the partial regulatory impact assessment (PRIA) on the Prohibition of Abortion (England and Wales) Bill officials contacted a diverse range of stakeholders to get the best possible understanding of the Bill. The number of possible illegal abortions, and abortions granted under risk to life clause of the Bill, shown in the PRIA was a best estimate based on the information provided by those stakeholders responding to the consultation and from examining what happened in other countries where access to abortion is restricted or illegal. The PRIA highlights that any outcomes would evolve over time, requiring around five years to become established.

Alcohol Misuse

John Bercow: To ask the Secretary of State for Health what steps she is taking to provide *(a)* screening, *(b)* education and *(c)* early intervention for children and young people at risk of alcohol misuse. [39430]

Caroline Flint: The Department for Education and Skills have lead responsibility for ensuring that school pupils are educated about the effects of drinking. Alcohol education must be addressed at key stages two, three and four within the science curriculum.

Alcohol education is a statutory part of the national curriculum, which requires all children to learn about the risks of alcohol. This sits within a broader programme of drug education since many of the attitudes and skills to enable young people to make informed choices will be the same.

The guidance requires schools to emphasise alcohol education within their drug education programmes. It makes clear that the message should be about promoting sensible drinking and reducing the harm related to alcohol misuse. The guidance encourages schools to look at the influence of the media on attitudes towards alcohol.

The Qualifications and Curriculum Authority (QCA) has developed drug, alcohol and tobacco education schemes of work as part of the education training package for teachers. We are now working with QCA on end of key stage assessment materials that would help teachers assess progress in personal social and health education including alcohol education.

Blueprint is the largest research programme ever run in this country to evaluate the effectiveness of a multi-component approach to school-based drug education. The programme covered illegal drugs, legal drugs such as alcohol and tobacco, and medicines.

The programme was delivered in spring term 2004 and 2005 to 4,500 young people in 23 schools. Full results of the research will be available in 2008 although the intention is to use the experience of the programme to inform practice in the interim.

The Department plans to commission a programme of trailblazer pilots for alcohol screening and brief interventions mainly aimed at adults but including young adults. Although the contract has still to be finalised, we have selected a consortium led by St. George's Medical School (University of London) and Newcastle University to operate these pilots and extract the learning from them to apply to a larger roll-out programme planned for the future.

These trailblazer pilots will operate in three settings; primary care, accident and emergency (A&E) and criminal justice settings. This gives the best spread of settings to offer screening and brief interventions across the whole adult population. Young adults, particularly young men, are less likely to attend their general practice than their older counterparts but their drinking behaviour is more likely to bring a number of them into contact with A&E and the criminal justice system.

Alzheimer's Disease

Lynne Featherstone: To ask the Secretary of State for Health (1) what assessment she has made of the implications for neuroleptic prescribing of a withdrawal of Alzheimer's disease drugs; [39553]

(2) whether concerns raised by the Department about National Institute for Health and Clinical Excellence draft guidance on drug treatments for Alzheimer's disease have been addressed. [39554]

Jane Kennedy: I have not made such an assessment. The National Institute for Health and Clinical Excellence (NICE) is currently reviewing its guidance on drugs for the treatment of Alzheimer's Disease. The institute plans to publish its revised guidance on 23 January 2006. Information about NICE'S current work programme is available on the NICE'S website at www.nice.org.uk.

Aylesbury Vale PCT

John Bercow: To ask the Secretary of State for Health what assessment she has made of the difference between the rate of change in death rates for men and women in Aylesbury Vale between 1995 and 2004. [39676]

Caroline Flint: The information requested on the number of death rates for men and women in Aylesbury Vale is shown in the table.

Death rates, per 100,000 population standardised to the European standard population, for males and females in Aylesbury Vale local authority, based on usual residence, from 1995 to 2004

	Males	*Females*
1995	845	634
1996	937	587
1997	824	608
1998	772	582
1999	780	592
2000	793	558

Death rates, per 100,000 population standardised to the European standard population, for males and females in Aylesbury Vale local authority, based on usual residence, from 1995 to 2004

	Males	Females
2001	729	533
2002	727	534

Source:

Compendium of clinical and health indicators, Department of Health/National Centre for Health Outcomes Development. Based on death registrations and population estimates from the Office for National Statistics.

Death rates are subject to random fluctuation from year to year, but the underlying trend is for an improvement in death rates for both males and females. Analysis of the underlying trend shows a slightly larger annual decrease in the death rate for males than for females, from a higher starting point.

The overall death rates for men and women combined is 7 per cent. lower than the national average.

Cancelled Operations (Devon)

Mr. Sanders: To ask the Secretary of State for Health how many operations have been cancelled by hospitals in Devon since 1997; and what percentage of these patients had their operations rescheduled within 28 days. [38416]

Caroline Flint: The number of operations cancelled by hospitals in Devon since 1997 is shown in the table. However, the Department only collects the number of patients admitted within one month of a cancellation and not the number rescheduled. This information is also included in the table.

Cancelled operations for non clinical reasons, 2001-02 to Q2 2005-06

Notes:
Data are not collected for individual hospitals. Data were collected by health authority only prior to 2001–02. Trust level data were collected from 2001–02 onwards. The 2005–06 data are upto Q2 2005–06.
We collect the number of patients admitted within one month or 28 days of a cancellation, not the number rescheduled.
From 2002–03, the number of patients not admitted within one month was replaced by the number of patients not admitted within 28 days.
In 2002–03, the number of patients not admitted within 28 days of a last minute cancellation was not collected.
The number of patients not admitted within 28 days of a cancellation on the day of surgery was collected instead.
A last minute cancellation is one that occurs on the day the patient was due to arrive, after they have arrived in hospital or on the day of their operation.
For example, you are to be admitted to hospital on a Monday for an operation scheduled for the following day(Tuesday).
If the hospital cancels your operation for non-clinical reasons on the Monday then this would count as a last minute cancellation.
This includes patients who have not actually arrived in hospital and have been telephoned at home prior to their arrival.
An operation which is rescheduled to a time within 24 hours of the original scheduled operation should be recorded as a postponement and not as a cancellation.
The QMCO collection does not record the number of postponements.
Some common non-clinical reasons for cancellations by the hospital include: ward beds unavailable; surgeon unavailable; emergency case needing theatre; theatre list over-ran; equipment failure; admin error; anaesthetist unavailable; theatre staff unavailable; and critical care bed unavailable.

Department of Health dataset QMCO

Care Homes

Andrew Rosindell: To ask the Secretary of State for Health how many recorded incidents of *(a)* theft, *(b)* physical abuse and *(c)* bullying in care homes for the elderly there were in each of the last eight years, broken down by county. [40521]

Mr. Byrne: I understand from the Chair of the Commission for Social Care Inspection (CSCI) that the information requested is only available from April 2004, when CSCI took over the work of care homes inspection and regulation from the National Care Standards Commission.

The information is not recorded on a county basis, but by CSCI region. The number of recorded incidents of theft, physical abuse and bullying in care homes for older people between April 2004 and December 2005 in the nine CSCI regions are shown in the table.

CSCI region	*Theft*	*Physical abuse*	*Emotional and psychological abuse*
North East	41	67	19
East Midlands	26	25	8
South West	78	93	63
West Midlands	70	63	28
North West	92	114	49
London	54	28	32
South East	92	412	36
Eastern	30	90	41
Yorkshire and Humberside	53	87	32
Total	536	979	308

Note:
A recorded incident of abuse does not mean that abuse actually took place. Upon investigation of a complaint, it might be found to be upheld, not upheld or unresolved.

Andrew Rosindell: To ask the Secretary of State for Health (1) what action the Government are taking to encourage an increase in the provision of care homes for the elderly; [40602]

(2) what steps the Government are taking to encourage provision of care homes for the elderly. [41688]

Mr. Byrne: The Government believe that care homes are only one of a range of options that should be available for supporting people with long-term care needs. The Green Paper, 'Independence, Well-being and Choice', published in March 2005, set out the vision for adult social care. To make that vision a reality, domiciliary care must become an increasingly important element of social care provision. Domiciliary care services can help people to remain in control of their own lives. There has been substantial investment in other care settings for older people, such as domiciliary care and extra care housing. The Government recognise that most people want to live in their own homes for as long as possible.

The Government are promoting better planning and commissioning of care services at a local level to stabilise the long-term care sector in a way that will allow it to meet future demand.

It is for local councils to ensure that effective arrangements are in place to meet the needs of local people.

Christmas Cards

Mr. Holloway: To ask the Secretary of State for Health if she will estimate the cost to the NHS of sending Christmas cards in 2005. [39530]

Mr. Byrne: The information requested is not held centrally.

Coeliac Disease

Mr. Drew: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Morley and Rothwell (Colin Challen) of 14 December 2005, *Official Report*, column 2131W, on coeliac disease, if she will commission research into whether there is an adverse reaction upon coeliacs caused by consumption of genetically-modified foodstuffs. [42225]

Mr. Byrne: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics: research proposals in all areas compete for the funding available. When appropriate, high quality research in particular areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

Correspondence

Rosie Cooper: To ask the Secretary of State for Health when she will reply to the letter from Mark Heyes dated 23 October 2002 about matters relating to his employment at Southport and Ormskirk NHS Trust, which was referred to her Department by the Prime Minister's Office; and what measures she is taking to ensure that her Department's policy on whistleblowing is adhered to. [28144]

Jane Kennedy: A reply from my right hon. Friend the then Secretary of State for Health, Alan Milburn was sent on 17 December 2002 to Mark Heyes's letter dated 23 October 2002.

Guidance on whistleblowing was issued by the Department in 1999 (HSC198). This was followed by a letter of 25 July 2003 to all national health service trusts, primary care trusts and strategic health authorities, enclosing a policy pack on whistleblowing and setting out the need for all NHS organisations to develop and review their policies.

NHS Employers now provides guidance and support on whistleblowing. In addition, the Department funds the Public Concern at Work helpline, which offers independent legal advice to NHS employees and advises them how to raise their concerns appropriately. The Healthcare Commission assesses NHS trusts against the national standards and ensures that all trusts have a whistleblowing policy in place, with effective monitoring processes.

Cotswold and Vale PCT

Mr. Drew: To ask the Secretary of State for Health what the *(a)* terms of reference and *(b)* powers are of the turnaround team sent into the Cotswold and Vale primary care trust; and when she expects it to report. [41508]

Caroline Flint: The first stage of engagement with the turnaround teams in Cotswold and Vale primary care trust (PCT) has been to undertake an assessment of the current position.

Following this initial assessment the strategic health authority is currently agreeing a tailored package of turnaround support with the PCT.

The turnaround teams will support and advise the management team of the PCT on delivering the organisation's statutory duties and key national targets.

Countess of Chester Foundation Hospital

Andrew Miller: To ask the Secretary of State for Health how many and what percentage of patients in the Countess of Chester Foundation hospital in the last period for which figures are available were normally resident in Wales. [39682]

Mr. Byrne: In 2004–05, the total number of unique patients with a finished admission episode in the Countess of Chester Hospital National Health Service Foundation Trust was 37,746. Of these, 6,759 (or 17.91 per cent.) unique patients were resident in Wales.

Notes:

Patient counts:

Patient counts are based on the unique patient identifier HESID. This identifier is based on a patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Each patient is only counted once, irrespective of the number of times that patient has been admitted within the year. Where data is incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.

Finished admission episodes:

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Data quality:

Hospital episode statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The health and social care information centre liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. Whilst this brings about improvement over time, some shortcomings remain.

Ungrossed data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:
Hospital Episode Statistics, Health and Social Care Information Centre.

Dentistry

Mr. Hancock: To ask the Secretary of State for Health if she will make it her policy to assess the budget for the provision of NHS dentistry in *(a)* Portsmouth and *(b)* other primary care trust areas on the basis of need. [28284]

Ms Rosie Winterton: Primary care trusts (PCTs) were notified of their budget allocations for 2006–07 in early December, taking into account the current provision of services and the recent expansion of personal dental services. In both Portsmouth and other PCT areas, the recent budget allocations for local commissioning of dentistry in 2006–07 onwards reflect the current provision of services in each PCT area. These budgets are ring fenced for three years and can only be used by the PCT for the provision of primary care dental services.

In the future, the distribution of these resources within a PCT area will be a matter of local discretion. When a dentist leaves the local area or reduces his or her national health service commitment, the resources will return to the PCT to re-deploy according to local needs. PCTs may also commit additional funds from their overall allocation to augment the ring fenced dental budget and address local dental needs. The Department will continue to keep future budget allocations for dentistry under review.

Emergency Calls

Mr. Graham Stuart: To ask the Secretary of State for Health (1) how many emergency calls were answered within the Tees, East and North Yorkshire Ambulance Service NHS Trust in each of the last five years; [39952]

(2) what proportion of emergency calls resulted in an ambulance arriving at the scene of the reported incident within the Government's target response times for Tees, East and North Yorkshire Ambulance Service NHS Trust in each of the last five years. [39953]

Mr. Byrne: The information requested is shown in the table.

Emergency calls and response times, Tees, East and North Yorkshire, 2000–01 to 2004–05

Thousand

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*

Equity Audits

John Bercow: To ask the Secretary of State for Health what equity audits have been undertaken by her Department to assess the health of vulnerable groups. [39401]

Caroline Flint: The Department have not undertaken any health equity audits. Health equity audit is a key tool to be used by the national health service to embed evidence of local inequalities into mainstream activity such as planning, commissioning and service delivery. Health equity audit is a mandatory part of primary care trust planning and the topic for each health equity audit is down to local determination by the NHS trust and their partners. The Choosing Health White Paper "Delivering Choosing Health (2005)" set out the intention to extend health and wellbeing equity audits to other NHS trusts and local authorities.

Healthy Living Centres

John Bercow: To ask the Secretary of State for Health if she will make a statement on the range of services provided by healthy living centres. [39663]

Caroline Flint: Healthy living centres (HLCs) in England provide, or host, a wide range of services for their local communities. These include mainstream health promotion services local facilities including community cafes and activities such as dance and tai chi. The mix of services and facilities varies widely between individual HLCs.

Hearing Services

Peter Bottomley: To ask the Secretary of State for Health how long the waiting times are for *(a)* a hospital hearing test and *(b)* the fitting of a hearing aid in the health districts covering Sedgefield and Worthing; and what the equivalent waiting times were in 1997. [38923]

Mr. Byrne: The information requested is not available centrally. However, from January 2006, a new monthly commissioner-based diagnostic data collection will be introduced. This will look at waiting times and activity for 15 diagnostic tests or procedures, including pure tone audiometry.

Hypothermia

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to make the elderly more aware of hypothermia. [40607]

Mr. Byrne: The Government are engaged in a large number of initiatives designed to make older people more aware of the dangers of hypothermia. These are the same as those designed to heighten awareness of the dangers of cold generally and include:

The 'Keep Warm Keep Well' campaign launched this year with the flu immunisation campaign and a leaflet and helpline-based advice on what simple measures older people can take to preserve their health in winter time.

Flu and pneumococcal immunisation programmes. The United Kingdom has the highest uptake of flu immunisation among eligible groups of any in Europe.

Helping to set up the health, housing and fuel poverty forum in March 2005, to raise the profile of cold, damp homes and to mainstream the many innovative activities the national health service is engaged in to address this issue.

Establishing the £60 million Partnerships for Older People Projects fund. The focus of these projects is on improving outcomes for older people through preventive interventions. Fuel poverty reduction forms a part in several of these.

Direct encouragement to the NHS to increase further the many fuel poverty reduction partnerships between the NHS, local authorities and, for example, Warm Front. These lead to primary care staff being trained and supported, simplified referral routes and rapid response from Warm Front and others.

Influenza Vaccinations

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 8 December 2005, *Official Report*, column 1571W, on influenza inoculations, whether any priorities for the recipients of the two to three million doses of the H5N1 vaccine being purchased have been determined in addition to the healthcare workers referred to. [40864]

Caroline Flint: We are in the process of gathering expert advice on the optimal strategy for use of H5N1 vaccine. No decisions have yet been made.

IVF Treatment

Mr. Drew: To ask the Secretary of State for Health (1) how many primary care trusts restrict funding for IVF treatment to women aged 30 years and over; [41500]

(2) what action she is taking to ensure that primary care trusts meet the clinical criteria set out in the National Institute for Health and Clinical Excellence's clinical guidelines on the assessment and treatment of people with fertility problems. [41501]

Caroline Flint: Information about the number of primary care trusts restricting funding for in-vitro fertilisation treatment for women aged 30 years and over is not collected centrally. We are discussing with Infertility Network UK, the leading voluntary organisation representing the interests of fertility patients, ways in which they can work with primary care trusts to help ensure that the patients' voice is heard when decisions about the provision of services are made at local level.

Mal de Debarquement Syndrome

Mrs. James: To ask the Secretary of State for Health what improvements have been made to the *(a)* diagnosis and *(b)* treatment of mal de debarquement syndrome on the NHS; and if she will make a statement. [42044]

Mr. Byrne: We are not aware of any improvements in the diagnosis and treatment of this rare condition.

Maternity Centres

Mr. Sheerman: To ask the Secretary of State for Health (1) what assessment her Department has made of the level of use of midwife-led maternity centres; [39633]

(2) how many midwife-led maternity centres have been in operation in each of the last 10 years; [39634]

(3) how many midwife-led maternity centres have shut in each of the last 10 years; [39635]

(4) what assessment her Department has made of the impact on mothers of travelling further while in labour as a result of the closure of local maternity services; [39698]

(5) what proportion of births took place in midwife-led maternity centres in the last year for which figures are available. [39962]

Mr. Byrne: It is for primary care trusts and national health service trusts to determine the level of midwife-led maternity care required locally. A survey of patients conducted on behalf of the Department[1] asking for a preference as to where the next delivery would take place found 20.4 per cent. wanted to give birth in a midwife-led unit.

Under the maternity standard of the national service framework for children, young people and maternity services, published in September 2004, NHS maternity care providers and primary care trusts (PCTs) are required to ensure that the range of antenatal, birth and post-birth care services available locally constitutes real choice for women.

Information on the number of midwife-led maternity centres that have been in operation or shut in each of the last 10 years is not collected centrally.

It is for local PCTs and NHS trusts to assess the impact reconfiguring maternity services will have on mothers to be.

Information on the proportion of births that took place in midwife-led maternity centres is not collected centrally.

[1] "Different models of maternity care: an evaluation of the roles of primary health care workers", Hewison J, Renfrew M J, Gregson B, Young G, Braunholtz D, Dowswell T, Hirst J, Ross-McGill H. 2003

Mobility Equipment

Tim Farron: To ask the Secretary of State for Health how many outstanding requests for mobility equipment for children under the age of 16 there are; what the average waiting time for mobility equipment is; how many children are registered as requiring disability equipment; how many children are on the waiting list for disability equipment; if she will break down the information in each category by parliamentary constituency; and what procedures are in place to ensure mobility equipment is provided to similar cases. [40671]

Mr. Byrne: The information requested is not held centrally.

MRI Scans

Mr. Davey: To ask the Secretary of State for Health what recent representations she has received regarding waiting times for MRI scans. [29278]

Mr. Byrne: Written representations have been received from hon. and right hon. Members and the public.

New-born Children (Low Birth Weight)

Mr. Laws: To ask the Secretary of State for Health what percentage of children were born with a low birth weight in each year from 1975–76; and if she will make a statement. [41309]

John Healey: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent question asking what percentage of children were born with a low birthweight in each year from 1975–1976 to 2005–2006. (41309)

The attached table shows the information requested. The latest available figures are for 2004. Birthweight information for liveborn babies is currently provided by primary care organisations to Registrars of births, deaths and marriages in their area for recording on the draft birth entry. This is then made available to the Office for National Statistics (ONS) for statistical purposes. Prior to 1982 this birthweight information was not made available to Registrars for a large proportion of liveborn babies. For this reason figures for the period 1975 to 1981 are taken from the DHSS annual summaries of LHS 27/1 low birthweight returns. On the returns for these years, low birthweight was defined as 2,500 grams and under.

Figures from 1982 are based on the information available to ONS and is based on the World Health Organisation's definition of low birthweight (under 2,500 grams).

Percentage of live born babies with low birth weight[1,2], England and Wales 1975–2004

	Percentage
1975[1]	6.4
1976	6.4
1977	6.5
1978	6.5
1979	6.7
1980	6.8
1981	6.8
1982[2]	6.7
1983	6.7
1984	6.7
1985	6.8
1986	6.9
1987	6.8
1988	6.6
1989	6.7
1990	6.8
1991	6.9
1992	6.8
1993	6.9
1994	7.0
1995	7.3
1996	7.3
1997	7.4
1998	7.5
1999	7.6
2000	7.6
2001	7.6
2002	7.7
2003	7.7
2004	7.6

[1] For the years 1975–81: low birth weight was defined as 2,500g and under.
[2] For the years 1982–2004: low birth weight was defined as less than 2,500g.

NHS Finance

Mr. Paul Goodman: To ask the Secretary of State for Health what the financial position of *(a)* the Thames Valley strategic health authority, *(b)* Buckinghamshire Hospitals NHS Trust, *(c)* Wycombe primary care trust, *(d)* Buckinghamshire mental health trust and *(e)* Two Shires ambulance trust was during 2004–05; and if she will make a statement. [41719]

Caroline Flint *[holding answer 12 January 2006]:* The 2004–05 audited financial position of all national health service organisations, strategic health authorities (SHAs) primary care trusts and NHS trusts is available on the Department's website at:

www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

A copy of this information is available in the Library.

NHS Rationing (BMJ Correspondence)

Peter Luff: To ask the Secretary of State for Health what representations she has received about the recent letter published online in the *British Medical Journal*, on rationing in response to NHS deficits: by Professor Sheena Asthana. [38540]

Mr. Byrne: We have received only one representation and that was from the hon. Member.

NHS Staff (Overseas Recruitment)

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the impact on the levels of recruitment of doctors from overseas of her proposal to abolish the register of medical practitioners with limited registration. [27552]

Jane Kennedy: Abolishing the provisions for limited registration will make little or no difference to numbers. Its main effects will be to reduce bureaucracy, freeing resources for patient care, and remove a source of potential discrimination.

Non-emergency Operations

Steve Webb: To ask the Secretary of State for Health pursuant to the answer of 12 September 2005, *Official Report*, column 2737W, on non-emergency operations, (1) if she will list other providers in England, including independent hospitals and treatment centres, which treat NHS patients for *(a)* knee replacement surgery, *(b)* cataract surgery, *(c)* hernia repair and *(d)* hip replacement surgery; [18887]

(2) when she will answer the question tabled by the hon. Member for Northavon on 12 October 2005, on non-emergency operations, reference 18887. [40901]

Mr. Byrne: Information on the services provided in England by providers contracted to set up independent sector treatment centres under the central procurements is shown in the table.

Information on other independent sector providers commissioned locally is not collected centrally.

Programme name	*Strategic health authority*	*Specialties*	*Provider*	*Operational status*

GSUP2	n/a	Orthopaedic, general surgery	BMI/BUPA/ Nuffield	Full service

Obesity

Steve Webb: To ask the Secretary of State for Health (1) how many patients were referred to weight management clinics in each of the last five years for which figures are available; [39563]

(2) what the average waiting time for obese patients to receive treatment at a weight management clinic was in the most recent period for which figures are available. [39564]

Caroline Flint: The information requested is not collected centrally, as data are only collected at trust level and not specialist clinic level.

Mr. Spellar: To ask the Secretary of State for Health if she will make a statement on her Department's policy on the effectiveness of the Body Mass Index in assessing the health effects of being overweight. [40660]

Caroline Flint: Trends in overweight and obesity and their relationship to other risk factors are monitored each year through the Health Survey for England. Body fatness is most commonly assessed by body mass index (BMI). A BMI of 25 to 30 is considered overweight and greater than 30, obese. There is a graded increase in the risk of total mortality and cardiovascular mortality with increasing BMI above 25. BMI combined with waist measurement is a good indicator of obesity and associated health risks. Waist circumference levels of greater than 102 centimetres in men and greater than 80 centimetres in women are associated with increased risk of diabetes and cardiovascular disease.

Paymaster

Mrs. Humble: To ask the Secretary of State for Health what contracts Paymaster has within her Department. [26423]

Jane Kennedy: The Department contract Paymaster to provide pension administration for the principal civil service pension scheme, to which the majority of established civil servants within the Department are members. The contract has been in place since April 2004 and will be due for renewal in April 2009. The Department has no other contracts with Paymaster.

Pesticides

Mr. Drew: To ask the Secretary of State for Health what research she has commissioned into genetic susceptibility to illness following contact with pesticides. [25498]

Caroline Flint: The Department has not commissioned any research into genetic susceptibility to illness following contact with pesticides.

However, in deriving the acceptable exposure levels for pesticides from the required animal data, variation within the human population is part of the assessment carried out by the pesticides safety directorate, for consideration by the advisory committee on pesticides. A 100 fold factor is routinely applied to the critical dose that produces no adverse effects in the test species. The 100 is made up of 10 to extrapolate from the animals to humans (humans are considered more sensitive) and 10 to account for variation in response within the human population (individuals that are more sensitive than the norm).

Podiatry Provision (Gray Report)

Andrew Mackinlay: To ask the Secretary of State for Health if she will place in the Library a copy of the report published by the taskforce chaired by Dr. Muir Gray on podiatry provision. [40630]

Mr. Byrne: The report called "Feet First", published by the NHS executive in 1994, is available in the Library.

Polio

Mr. Marsden: To ask the Secretary of State for Health how many people have been identified as having had an episode of polio at some time in their life in each primary care trust. [39262]

Caroline Flint: This information is not available centrally. Annual notifications of acute poliomyelitis since 1912 and a summary of cases occurring between 1985–2003 in the United Kingdom can be found at:

www.hpa.org.uk/infections/topics_az/polio/data.htm.

Pre-term Labour

Mr. Todd: To ask the Secretary of State for Health what guidance is given on the appropriate clinical definition of pre-term labour. [39246]

Mr. Byrne: Pre-term labour is defined as the onset of labour when the foetus is viable and before 37 completed weeks of pregnancy. The Royal College of Obstetricians and Gynaecologists has not specifically given guidance on the incidence of pre-term labour but has produced guidelines on the administration of corticosteroids and tocolytic drugs to try and arrest pre-term labour.

The national service framework for children, young people and maternity services published in September 2004 requires maternity care service providers and trusts to ensure that a comprehensive high quality ante-natal screening and diagnostic service, based on the current recommendations of the National Screening Committee and designed to detect maternal or foetal problems at an early stage, is offered to all women.

Primary Care Staff

Steve Webb: To ask the Secretary of State for Health what representations she has received concerning the impact of the proposals within "Commissioning a Patient Led NHS" on the morale of primary care staff, with particular reference to representations on the prospect of staff leaving or retiring early; and if she will make a statement. [18896]

Mr. Byrne: The Department, NHS Employers and the national health service trade unions have produced a joint framework setting out how the human resources (HR) changes, arising form "Commissioning a Patient Led NHS", should be managed. The framework identifies the processes that organisations are expected to follow to ensure the changes are managed fairly, with national support underpinning local decision making.

Following publication of the framework on 1 December, a number of questions have been received from people seeking more detailed guidance on the implications of the anticipated organisational changes. NHS Employers is providing responses to those questions through its website. In addition, NHS Employers is playing a key role in supporting NHS organisations and staff during these changes, including issuing best practice guidelines, providing employment opportunities for NHS staff through the on-line clearing house "NHS Jobs", and advising on redeployment support. Local support will be provided by HR cluster leads, who will provide advice and guidance, drawing upon best practice.

School Nursing/Health Visiting

John Bercow: To ask the Secretary of State for Health if she will make a statement on the development of *(a)* school nursing and *(b)* health visiting services. [39442]

Mr. Byrne: Though the detail of developing school nursing and health visiting services rests with primary care trusts (PCTs), we recognise the important role these nurses play in addressing health priorities. This was reinforced in the children's national service framework and the chief nursing officer's review of the nursing, midwifery and health visiting contribution to vulnerable children and young people, as well as in the White Paper, Choosing Health.

Additionally, we are providing new funding so that by 2010 every PCT, working with children's trusts and local authorities, will have at least one full-time, year-round, qualified school nurse working with each cluster or group of primary schools and the related secondary school. Revenue allocations to PCTs covering the period 2006–07 and 2007–08 were announced in February. For the two years covered by this allocation, a total of £62 million has been identified nationally to invest in the school nurses, £20 million in 2006–07 and £42 million in 2007–08.

Choosing Health also commits the chief nursing officer to work with nurse leaders and the Department for Education and Skills to modernise and promote school nursing and to develop a national programme for best practice that includes reviewing children's and young people's health and supporting the use of children's personal health guide.

Sexual Health

Sarah Teather: To ask the Secretary of State for Health how many cases of diagnosed sexually transmitted diseases there were in each primary care trust in London in *(a)* 2003–04 and *(b)* 2004–05. [33309]

Jane Kennedy: The number and rates of diagnoses of sexually transmitted diseases made at genitourinary medicine (GUM) clinics in each of the London strategic health authorities (SHAs) are shown on the Health Protection Agency website at:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/national2000_2004_Final.pdf.

The dataset used to compile these data is based on diagnoses made in GUM clinics. Testing undertaken in other clinical settings, such as general practice, is not recorded in the dataset.

The release of small area statistics is being reviewed and sexually transmitted infections data is currently only published at SHA level. The data are shown in calendar years. Data are not available for 2005.

Smoking

Mr. Lansley: To ask the Secretary of State for Health what research she has commissioned into where smokers under the age of 16 years obtain their tobacco. [39369]

Caroline Flint: Data on smoking among young people are available from a series of surveys of secondary school children. The main purpose of the surveys are to monitor smoking, drinking and drug use among secondary school pupils in years seven to 11, where the majority are aged 11 to 15.

We have provided an example of data available from the "Smoking, drinking and drug use among young people in England 2004" report, chapter 5 "Where children get cigarettes" which is shown in the table. This survey and chapter is available on the Department's website at: www.dh.gov.uk/assetRoot/04/12/34/32/04123432.pdf.

Usual sources of cigarettes[1], by age, England 2004—Current smokers

Percentage

	Age 11–12 years	*13 years*	*14 years*	*15 years*	*Total*
Bought from any shop	28	53	63	78	66
Bought from supermarket	5	13	16	30	21
Bought from newsagent/tobacconist/sweet shop	24	45	54	70	58
Bought from garage shop	9	15	25	38	29
Bought from other type of shop	3	9	9	16	12
Bought from street markets	2	8	5	4	5
Bought from machine	14	14	17	22	19
Bought through the internet	—	—	0	—	0
Bought from other people	40	38	41	33	37
Bought from friends/relatives	28	29	30	25	27
Bought from someone else	24	22	22	15	19
Given by other people	62	67	67	61	63
Given by friends	51	64	61	56	58
Given by brother/sister	18	17	12	11	13
Given by father/mother	3	2	7	9	7
Found or taken	11	9	7	4	6
Other	15	5	6	6	7
Bases	123	214	388	628	1,353

[1] Percentages total more than 100 because pupils could give more than one answer.

Note:
The survey from which the results are taken are from secondary school pupils in years 7 to 11. The majority of pupils questioned are therefore aged between 11 and 15.

Source:
Smoking, drinking and drug use among young people in England 2004. Health and Social Care Information Centre.

Social Services

Miss McIntosh: To ask the Secretary of State for Health what assessment she has made of *(a)* the recent report by the Association of Directors of Social Services on learning disabilities services and *(b)* the likely impact of its recommendations on social care in North Yorkshire. [39693]

Mr. Byrne: The Department welcomes this report as a useful piece of work, particularly in its emphasis on the importance of maintaining support for people with learning disabilities to lead their lives as independently as possible.

It is for North Yorkshire to consider the contents of the report in relation to their local service provision.

Sorafenib

Daniel Kawczynski: To ask the Secretary of State for Health what assessment she has made of the likely timescale for introducing Sorafenib following successful clinical trials. [27480]

Jane Kennedy: A press statement issued by the applicant pharmaceutical company indicates that an application for a marketing authorisation for Sorafenib has been submitted to the European medicines agency (EMEA) in September 2005 for the treatment of patients with advanced renal cell cancer. As with all medicinal products, before Sorafenib is granted a marketing authorisation and becomes available in the United Kingdom it must be fully evaluated in relation to the appropriate standards required in the relevant European rules and regulations on medicinal products. Data submitted in support of the application will need to demonstrate that the safety, quality and efficacy of the product are satisfactory for its intended use. Under European procedures, it takes up to 210 days for an opinion on licensing to be given by the scientific committee of the EMEA, the Committee for human medicinal products, excluding time taken by the company to provide further information or data to support any questions which may arise during the assessment process. Should the assessment consider that the quality, safety and efficacy are satisfactory and a

positive opinion be given, the European Commission will consider the opinion and decide upon granting a marketing authorisation, valid across the community.

Waiting Lists/Times

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 October 2005, *Official Report*, column 2843W, on waiting times, whether the Department has agreed local delivery plans with every strategic health authority; where the Department is piloting data collections to support the 18-week waiting time target; where these pilots are taking place; whether she has taken a decision on whether data drawn from the pilots will be published; and when she intends to begin monitoring waiting times across England for the purpose of measuring the 18-week waiting time target. [31895]

Mr. Byrne: I refer the hon. Member to the reply I gave him on 8 December 2005, *Official Report*, column 1579W.

Measurement of the total patient pathway, from referral to treatment, will be in place in advance of 2008 to help support delivery of 18 weeks. In the meantime, all strategic health authorities (SHAs) have developed plans, based upon the three stages of treatment, outpatients, diagnostics and inpatients, which have been signed off by the Department.

Primary care trusts and SHAs have recently been asked to refresh their plans for cutting long waits for outpatients, diagnostics and inpatients, in order to reflect their latest thinking on achievement of the 18-week target. We plan to monitor referral-to-treatment times across England from early 2007.

Winter Deaths

Martin Horwood: To ask the Secretary of State for Health what assessment the Department has made of the strength of the correlation between excess winter deaths and the average outdoor temperature. [32642]

Mr. Byrne: It is well known that there is a linear relationship of temperature and mortality, 1.4 per cent. increase in mortality for every one degree centigrade fall in temperature from 18 degrees centigrade. This means that all winter days, not just the coldest, create some excess mortality.

This message is spelt out in the materials for the Keep Warm Keep Well campaign, a campaign run every winter for the last 17 winters in partnership with the Department of Work and Pensions, Department of Environment, Food and Rural Affairs, Age Concern, Help the Aged, National Energy Action, and WRVS.

Source:
The Eurowinter group. *Lancet*, 1997, May 10; 349 (9062): 1341–6.

Yorkshire Wolds and Coast PCT

Mr. Graham Stuart: To ask the Secretary of State for Health what assessment she has made of the reasons for Yorkshire Wolds and Coast primary care trust's budget deficit. [39585]

Mr. Byrne: Strategic health authorities (SHAs) are responsible for managing the financial position for their local health communities, which includes assessing the reasons for organisations incurring deficits. SHAs are charged with ensuring that every organisation achieves financial balance.

LEADER OF THE HOUSE

Parliamentary Questions

Peter Law: To ask the Leader of the House what assessment he has made of the merits of arranging for 'will write answers' to hon. Members to be published in full in an annex to the *Official Report*. [41535]

Mr. Hoon: Improvements to the way Government Departments handle replies to parliamentary questions, to reduce the number and increase the accessibility of 'I will write' replies, were announced by written ministerial statement on 21 July 2004.

I have recently conducted a review of how these new arrangements have been working, in response to a report recommendation from the Public Administration Select Committee. I am content that the arrangements at the time of Prorogation are working well.

I have sent a memorandum to the Committee today.

HOME DEPARTMENT

Wildlife Crime

13. **Martin Horwood:** To ask the Secretary of State for the Home Department if he will make a statement on the resources available to police officers for tackling wildlife crime. [41781]

Fiona Mactaggart: All Police forces have a policy for dealing with wildlife crime and the chief constable and police authority are responsible for allocating resources to deliver that policy. The enforcement capability of officers on the ground is supported by the Partnership Against Wildlife Crime; a multi-agency body comprising representatives of all the organisations involved in wildlife law enforcement in the UK. In addition, the National Criminal Intelligence Service houses the National Wildlife Crime Intelligence Unit, which supports all forces.

Police

14. **Adam Afriyie:** To ask the Secretary of State for the Home Department what estimate he has made of the likely costs of police force amalgamation. [41782]

Mr. Charles Clarke: Further to a previous reply, we are currently analysing the proposals put forward to ensure that we understand fully the real costs of change and the future benefits. Until that analysis is complete, I am not prepared to comment further on the likely costs.

19. **Philip Davies:** To ask the Secretary of State for the Home Department what recent representations he has received from the Association of Police Authorities about the merger of police forces. [41787]

Hazel Blears: The Home Secretary has received a number of representations from the APA both in writing and in person on the review of police force structures. The issues raised by the APA are important and will continue to be considered carefully in the light of the proposals we have received from police forces and authorities and as we move into the implementation phase of the review. The APA has been and will continue to be fully involved in our deliberations.

23. **Anne Main:** To ask the Secretary of State for the Home Department what plans he has to ensure that local communities are consulted about police force amalgamations. [41792]

Mr. Charles Clarke: As part of developing options for change forces and authorities were asked to consult with all relevant local stakeholders including local communities so as to ensure their views were taken into consideration. There will also be further consultation at a national and local level as the final proposals for change in each region become clear.

Mr. Blunt: To ask the Secretary of State for the Home Department what the cost was of policing per head of population in Surrey in *(a)* 1997–98 and *(b)* 2005–06, broken down by (i) council tax, (ii) police grant, (iii) national business rates, (iv) revenue support grant and (v) other funding sources. [34200]

Hazel Blears: The information is set out in the table. The figures are not directly comparable because in April 2000 the area covered by the Surrey police authority was increased as a result of a boundary change with the Metropolitan Police area.

We do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of socio-demographic data to reflect reasonably the relative needs of each authority. Grant allocations take into account the relative resources of each authority. They are also adjusted to limit year-on-year variations.

Cost of policing per head of population in Surrey

		£	
		1997–98	*2005–06*
(i)	Council tax per head of population	19.51	69.33
(ii)	Home Office police grant per head of population	57.80	54.29
(iii)	National non domestic rates per head of population	19.72	16.25
(iv)	Revenue support grant per head of population	20.01	15.39
(v)	Other funding sources per head of population[1]	3.09	12.28

[1] Approximately half the 'other' funding for 2005–06 is from Home Office specific grants.

Source:
Office of the Deputy Prime Minister. Figures of 'other' income provided by Surrey police.

Philip Davies: To ask the Secretary of State for the Home Department what the tendering process which led to the drug testing equipment being supplied to the police by Cozart Bioscience Ltd. was. [40319]

Paul Goggins: The Department tendered for the provision of drug testing equipment to the police by issuing an advertisement in the Official Journal of the European Union (OJEU) in 2003. Interested companies were short-listed against the criteria specified in the OJEU advertisement, with the contract being awarded to Cozart Bioscience Ltd.

Philip Davies: To ask the Secretary of State for the Home Department what assessment he has made of the drug testing equipment supplied to the police by Cozart Bioscience Ltd. [40344]

Paul Goggins: The Cozart drug testing equipment was assessed against the criteria specified in the procurement notice advertised in the *Official Journal* of the European Union in 2003. In accordance with contractual arrangements, the Home Office monitors the performance of the equipment provided by Cozart Bioscience Ltd.

James Duddridge: To ask the Secretary of State for the Home Department how many police officers have been employed in Rayleigh, Essex, in each year since 2002. [40033]

Hazel Blears: Rayleigh is a basic command unit (BCU) within Essex. The deployment of police officers to the Rayleigh BCU is a matter for the chief constable of Essex.

In 2002, there were 154 police officers in Rayleigh. In 2003 there were 148 officers, 165 in 2004 and 163 in 2005.

The numbers of police officers are based on full-time equivalent figures that have been rounded to the nearest whole number. Figures are as at 31 March.

Philip Davies: To ask the Secretary of State for the Home Department what percentage of the police are from ethnic minorities. [39792]

Hazel Blears: As at 31 March 2005, 3.5 per cent. of the total number of police officers, full-time equivalent, in England and Wales were from an ethnic minority background.

Mr. Hurd: To ask the Secretary of State for the Home Department how many police officers there have been in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon in each year since 1997. [39956]

Hazel Blears: Data on police officers are not collected centrally at constituency level. Data for the number of police officers in the London borough of Hillingdon is provided in the following table. Data are available only from 2000–01 onwards.

Number of police officers in Hillingdon (full-time equivalent)—2001–05

As at 31 March	*Full-time equivalent*
2001	398
2002	418
2003	458
2004	484
2005	498

Mr. Hurd: To ask the Secretary of State for the Home Department how many police community support officers have been introduced in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon; and what assessment he has made of their impact on (i) crime and (ii) antisocial behaviour. [39957]

Hazel Blears: As at 30 June 2005, there were 56 community support officers (CSOs) assigned to Hillingdon. Data on CSOs is not available for constituencies. The allocation of CSOs to individual Borough Operational Command Units is an operational matter for the Commissioner of Police of the Metropolis.

Initial findings from the Home Office evaluation on CSOs, published on the Home Office website (http://police.homeoffice.gov.uk/news-and-publications/publication/community-policing/) on 28 October 2005 confirm that CSOs are providing a valuable service to the police and public alike in terms of visibility and a reassurance presence in the community. They are being used to tackle low level crime and antisocial behaviour as well as youth disorder and alcohol-related issues. I have no information specifically about the impact of CSOs in Hillingdon.

Lynne Featherstone: To ask the Secretary of State for the Home Department if he will list police buildings which operate under private finance initiative contracts; and if he will make a statement. [39060]

Hazel Blears: The following list shows all grant supported police private finance initiatives (PFI) projects which are in operation or under construction. Information is not held on any PFI projects developed without grant support.

Police Force	*PFI Project*
Cleveland	Rationalised Custody
Kent	Divisional HQ—Medway
Cheshire	Centralised Custody Suites
GMP	Property Review—Divisional/Sub Divisional HQ and Police Stations
Cleveland/Durham	Firearms Facility
Cumbria	Workington Police Station
Derbyshire	Ilkeston Police Station
Derbyshire	Divisional HQ and City Police Station
Dorset	Divisional HQ and 3 New Police Stations
Dyfed Powys	Ammanford Police Station
Gloucestershire	Force HQ
Gwent	Ystrad Mynach Police Station
N Wales	Divisional HQ and Major Incident Unit
Norfolk	HQ, Operations and Communications Centre
Northumbria	Mounted Facilities
Notts	Traffic Wing and Vehicles Services
Sussex	Centralised Custody Suites
TVP	Abingdon Area Divisional HQ
Wiltshire	Divisional HQ and Satellite Facilities
Wiltshire	Air Support

David Taylor: To ask the Secretary of State for the Home Department what the average time taken to process Police Community Volunteer applications in *(a)* the East Midlands and *(b)* England was in the most recent period for which figures are available, broken down by constabulary. [40883]

Hazel Blears: This information is not collected centrally.

Grant Shapps: To ask the Secretary of State for the Home Department how many records on the Police National DNA database fall within the voluntary category. [41878]

Andy Burnham: As at 10 January 2006, there were 15,316 voluntary records on the National DNA Database.

Andrew Mackinlay: To ask the Secretary of State for the Home Department what steps he will take to ensure that the extra costs of police forces with relatively large budgets which are merged with police forces with smaller budgets will not be met by council tax payers; what transitional financial arrangements he proposes to introduce; and if he will make a statement. [39930]

Hazel Blears: The Government will be considering grant arrangements for police authorities in the light of changes to police authority boundaries and in the way the new larger authorities might operate.

My Department, the Office of the Deputy Prime Minister, the Welsh Assembly Government, Her Majesty's Treasury and police representative bodies are currently participating in examining the financial aspects of reorganisation, including the impact of restructuring on budgets, grant and council tax.

Mr. Jenkins: To ask the Secretary of State for the Home Department whether he has had discussions with police authorities on the suspension of further appointments to high level vacancies in police forces, subject to their possible restructuring. [40687]

Hazel Blears: I have had no specific discussions with police authorities on this matter. However, in his capacity as chair of the Senior Appointments Panel Sir Ronnie Flanagan, Her Majesty's Chief Inspector of Constabulary (HMIC), recently wrote to police authorities addressing the implications of HMIC's "Closing the Gap" report on the current structure of policing.

Reflecting the views of the Senior Appointments Panel, the letter advised police authorities that, except where specific approval had already been granted, the common sense approach would be not to proceed with existing or future plans to recruit new chief constables during the restructuring process. Where police authorities wished to recruit deputy or assistant chief constables, the panel would exercise its professional judgement on a case by case basis and decide whether or not there was merit in filling the post at that point in time.

A copy of this letter has been placed in the Libraries of both Houses.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many police hours were worked *(a)* in total and *(b)* per police officer in post (i) in the period immediately before the implementation of the European Working Time Directive on policing and (ii) in the period following that date. [39568]

Hazel Blears: The information requested is not collected centrally.

Chris Ruane: To ask the Secretary of State for the Home Department how many police officers there were in each police authority area in England and Wales in each of the last 20 years, grouped according to region and listed in descending order according to the percentage change over that period. [39297]

Hazel Blears: The information requested is set out in the following table.

Police force	March 1985	March 1986	March 1987	March 1988	March 1989	March 1990	March 1991	March 1992
East Midlands								
Leicestershire	1,695	1,737	1,712	1,735	1,745	1,769	1,818	1,845
Northamptonshire	1,015	1,025	1,047	1,093	1,095	1,126	1,139	1,158
Derbyshire	1,752	1,753	1,777	1,790	1,784	1,795	1,741	1,706
Nottinghamshire	2,150	2,210	2,226	2,252	2,298	2,316	2,336	2,331
Lincolnshire	1,146	1,139	1,173	1,168	1,194	1,188	1,209	1,196
Eastern								
Hertfordshire[1]	1,562	1,565	1,579	1,603	1,638	1,657	1,666	1,695
Norfolk	1,248	1,263	1,312	1,308	1,340	1,363	1,405	1,414
Cambridgeshire	1,137	1,136	1,142	1,171	1,187	1,193	1,201	1,250

[1] Boundary changes on 1 April 2000 tranferred resources from the Metropolitan Police to Essex, Hertfordshire and Surrey forces.
[2] Boundary changes on 1 April 1996 moved resources for the policing of the Rhymney Valley from South Wales Police to Gwent Police.

Mr. Weir: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* civilian support staff to the police there are in (i) each of the English regions and (ii) Wales. [40046]

Hazel Blears: The numbers of *(a)* police officers and *(b)* police staff in each of the English and Welsh regions are provided in the following table.

Police officer and police staff strength by English Government office regions and Wales (full-time equivalents) as at 31 March 2005

English Government office regions and Wales	Police officers	Police officers less staff on career breaks or maternity/paternity leave[2]	Police staff	Police staff less staff on career breaks or maternity/paternity leave[2]

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[2] Comparable with previously published figures.

Andrew Mackinlay: To ask the Secretary of State for the Home Department whether a conviction for the *(a)* use of and *(b)* possession of cocaine while a teenager continues to disqualify a person from successfully applying to become a police officer in England and Wales; and if he will make a statement. [39601]

Hazel Blears: The Home Office provides guidance to police forces on vetting applicants who have a criminal record but it is for the police force concerned to make decisions on individual cases.

Guidance is provided in HOC 54/2003. Forces are advised that convictions which will lead to rejection unless there are exceptionally compelling circumstances include serious involvement in drugs including possession of a Class A drug or more than one Class B drug and/or supplying drugs of any kind.

Each case is treated on its own merits, and if the offence is deemed sufficiently serious, a person will be rejected irrespective of age at the time of offending.

Generally, a juvenile conviction within the last five years for any recordable offence will lead to rejection.

However, any offence committed as an adult or a juvenile which results in a prison sentence (including custodial, suspended or deferred sentence and sentences served at a young offenders' institution or community home) will lead to rejection unless there are exceptionally compelling circumstances.

Mr. Lancaster: To ask the Secretary of State for the Home Department what the average waiting time has been in each of the last five years between police recruits applying to and starting training in the Thames Valley Police Force, broken down by *(a)* sex and *(b)* ethnic origin. [39639]

Hazel Blears: This information is not held centrally.

This is an operational matter for the chief constable and the question should be directed to Thames Valley police.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what his policy is on charging the organisers for policing of events which do not fall within his definition of normal policing which *(a)* are and *(b)* are not organised with the intention of making a profit; what his definition is of normal policing for this purpose; and what events which do not constitute normal policing are taken into account in determining his Department's financial support for police forces. [39567]

Hazel Blears: Section 25 of the Police Act 1996 enables Chief Officers of Police to provide special police services upon request and in return for payment at a rate set by the police authority. Home Office guidance is that where the police charge for special services arrangements should be made for full recovery of costs, but authorities may decide to recover a lesser amount.

The Association of Chief Police Officers has produced guidance to encourage a consistent and transparent approach to the calculation of policing costs.

The provision of special police services is not taken into account in determining the provision of grant for police forces.

Where a force has to meet an exceptional level of expenditure that affects its financial position to the extent that normal operational policing is at risk, the Authority can make a special grant request to the Home Secretary. In such circumstances the approval of such a grant is entirely at the discretion of the Home Secretary.

Respect Action Plan

15. **Mr. Kidney:** To ask the Secretary of State for the Home Department what contribution he expects neighbourhood watch schemes to make to the Government's Respect Action Plan. [41783]

Hazel Blears: I am pleased to be able to say that Neighbourhood Watch is thriving in Staffordshire. Neighbourhood Watch schemes have an important role to play in empowering local people to help reduce crime, tackle antisocial behaviour and reduce the fear of crime in communities throughout the country.

We would like to see Watch groups engage more with people living in higher-crime areas, with young people and with members of minority ethnic communities and ensuring the accountability of police and local authorities to the community.

Parliament (Protests)

16. **Mr. Carmichael:** To ask the Secretary of State for the Home Department how many people have been arrested for protesting within a mile of Parliament since 1 August 2005. [41784]

Paul Goggins: The Commissioner of the Metropolitan Police has informed me that there have been 28 arrests for taking part in an unauthorised demonstration in the designated area since 1 August 2005.

Probation (Private Sector)

18. **David Taylor:** To ask the Secretary of State for the Home Department if he will make a statement on his Department's plans to allow the private sector to bid for probation work. [41786]

Fiona Mactaggart: A consultation paper setting out the Government's proposals to restructure the probation service was published on 20 October 2005. We intend to publish a prospectus later this year which will outline our proposals for phasing contestability.

DNA Database

20. **Lynne Jones:** To ask the Secretary of State for the Home Department if he will make a statement on the inclusion of people on the police DNA database who have not been charged or convicted: [41788]

Andy Burnham: The Government believe firmly that the measures taken to retain the samples of persons who have been arrested, albeit not charged or convicted, are proportionate and justified in the interests of preventing and detecting crime. It is a fact that the police arrest more persons than they charge but for those who may go on to commit a crime it is important that the police have this information available. Law abiding citizens have nothing to fear from having their DNA retained on the national DNA database.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many requests under the Freedom of Information Act 2000 in relation to the national DNA database *(a)* he has received and *(b)* have been successful; and if he will make a statement. [35297]

Mr. Charles Clarke *[holding answer 6 December 2006]:* The Home Office has received one request for information under the Freedom of Information Act 2000 concerning the national DMA database. In responding to the request; information was released setting out who was operating the national DMA database, additional funding budget, and the number of suspect offender profiles stored. It also set out the powers that the police were given under the Criminal Justice Act 2003 to take, without consent, a non-intimate DMA sample. However, further information on how policy officials determined the guidelines on how a national DMA database would operate was withheld under Section 35(1)*(a)* of the Freedom of information Act 2000 as it would stifle future debate and damage the quality of advice provided.

Mr. Drew: To ask the Secretary of State for the Home Department how many records were held on the Police DNA Database in each of the last five years. [41471]

Andy Burnham: Records on the National DNA Database represent DNA profiles taken from individuals and from crime scenes. Profiles taken from individuals are usually retained whereas those taken from crime scenes are usually deleted when the crime has been solved. The number of profiles is not the same as the number of individuals, because 10 per cent. of the profiles are estimated to be duplicates. The figures for each of the last five years are shown in the following table.

	Number of profiles relating to:	
	individuals at end of financial year[1]	*crime scenes held at end of financial year*[1]
2000–01	1,186,000	103,000
2001–02	1,695,000	142,000
2002–03	2,102,000	193,000
2003–04	2,516,000	228,000
2004–05	3,086,000	240,000
2005–06 (at 10 January 2006)	3,596,000	264,000

[1] *nearest thousand, England, Wales and Scotland*

Mr. Gibb: To ask the Secretary of State for the Home Department how many complaints have been received by the Independent Police Complaints Commission regarding *(a)* the collection of DNA evidence from arrested persons and *(b)* the voluntary collection of DNA. [41668]

Hazel Blears: The Independent Police Complaints Commission (IPCC) is responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to you directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Mr. Gibb: To ask the Secretary of State for the Home Department how many and what proportion of people arrested in each year since 1995 had their DNA added to the National DNA Database. [41676]

Andy Burnham: The answer is shown in the following table.

Year (financial)	*Number arrested for notifiable offences in England and Wales (nearest 100)*	*Number of people added to database, England and Wales*	*Proportion (percentage)*
1995–96	[1]—	35,741	[2]—
1996–97	[1]—	77,365	[2]—
1997–98	[1]—	123,445	[2]—
1998–99	1,301,000	242,746	18.7
1999–2000	1,277,900	205,279	16.1
2000–01	1,264,200	419,900	33.2
2001–02	1,271,900	509,423	40.1
2002–03	1,313,100	439,667	33.5
2003–04	1,330,400	389,973	29.3
2004–05	1,353,800	469,005	34.6

[1] Not recorded
[2] Not available

Mr. Gibb: To ask the Secretary of State for the Home Department how many people voluntarily gave DNA samples to be kept in the national police DNA database in each year since 2000. [41677]

Andy Burnham: No volunteer records were loaded on the National DNA Database before 2004–05, for technical reasons. In that year 12,095 volunteer records were loaded. Some of these were given during previous years, but there is no record of the date they were given, as opposed to the date they were loaded. Between 1 April 2005 and 10 January 2006, a further 3,221 volunteer profiles have been loaded.

Mr. Gibb: To ask the Secretary of State for the Home Department how many entries on the National DNA Database were destroyed in each year since 1995. [41702]

Andy Burnham: The number of profiles relating to individuals deleted from the National DNA Database since 1995 is:

	Number
2006 (to 10 January)	1,232
2005	22,605
2004	19,126
2003	23,901
2002	18,499
2001	44,664
2000	66,149
1999	68,816
1998	45,170
1997	21,587
1996	12,564
1995	675

Mr. Gibb: To ask the Secretary of State for the Home Department how many people from whom DNA was taken following arrest for inclusion in the National DNA Database were arrested for *(a)* summary, *(b)* indictable including either-way and *(c)* indictable only offences. [41703]

Andy Burnham: It is not possible to provide the information requested as statistical data are not kept in this form.

When a person in police custody has a DNA sample taken, the sampling police officer completes a DNA form giving demographic details of the arrested person and details of the offence type by 12 broad offence categories. These are: Homicide, Rape, Robbery, Other violent crime, Other sex offences, Domestic Burglary, Other Burglary, Theft of Vehicle, theft from vehicle, Criminal damage, Drugs offences; and All other recordable offences. As the specific offence is not recorded, it is not possible to determine how many offences are summary, indictable or triable either way.

Cannabis

21. **John Robertson:** To ask the Secretary of State for the Home Department what steps his Department is taking to ensure teenagers are fully aware of the possible dangers associated with cannabis use. [41789]

Paul Goggins: The Government will continue to make it clear that all controlled drugs, including cannabis, are harmful and no one should take them. The FRANK campaign provides young people and their families with information about the risks from drugs and where to get further help. FRANK has distributed almost one million leaflets and promoted radio adverts about the risks associated with cannabis. In 2005 there were 300,000 visits to the cannabis section of the FRANK website.

Antisocial Behaviour Orders

22. **Mr. McFadden:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in Wolverhampton since their introduction; and if he will make a statement. [41791]

Hazel Blears: The number of ASBOs issued, as notified to the Home Office, from 1 June 2000 to 30 June 2005 (latest available), in the local government authority area of Wolverhampton city council, is 66.

Gregory Barker: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of antisocial behaviour orders. [41858]

Hazel Blears: In 2002 we published a research paper entitled "A review of anti-social behaviour orders" (commonly referred to as the Campbell Review) which followed a commitment made during the passage through Parliament of the Crime and Disorder Act 1998. Antisocial behavioural orders (ASBOs) have now reached sufficient numbers to necessitate further research.

The Home Office is conducting an evaluation of ASBOs, the findings of which will be available in spring 2006 and will provide information on the effectiveness of ASBOs in tackling anti-social behaviour within our neighbourhoods and communities. In addition, the Home Affairs Select Committee, in their report on antisocial behaviour published last year, recommended that research was necessary to establish the reasons for the inappropriate issuing of ASBOs or the issuing of ASBOs with inappropriate conditions. We are currently considering the best way to meet this recommendation.

People Trafficking (Sex Trade)

24. **Mr. MacShane:** To ask the Secretary of State for the Home Department if he will make a statement on the steps being taken to combat the trafficking of women from abroad to be forced to work in the sex trade. [41793]

Paul Goggins: The Government are committed to strong action against all forms of human trafficking. Our strategy includes comprehensive legislation, appropriate support for victims, co-operation with international partners, and enforcement action. An EU action plan on trafficking was adopted in December 2005.

The Government have also just published a consultation document on an action plan for the UK.

"Closing the Gap"

Mr. Oaten: To ask the Secretary of State for the Home Department if he will summarise the material which was redacted in the published version of the HM Inspectorate Constabulary report "Closing the Gap". [37940]

Hazel Blears: The preface to the public version of the "Closing the Gap" report addressed this issue and in particular stated that the redacted material in no way impacted either the substance, or the spirit of the original report and its conclusions. Furthermore please be assured that Her Majesty's Inspectorate of Constabulary (HMIC) made every effort to keep the redactions to an absolute minimum.

The only chapter that was affected by the decision to redact material was chapter five, the national assessment of police organisational fitness. 10 paragraphs were redacted from the section that presented HMIC's findings in relation to Counter-Terrorism and Domestic Extremism. These dealt with operational issues in relation to the command, control, deployment and resilience of existing resources in this critical, yet often covert area of policing. One sentence was redacted from the paragraphs that addressed Serious and Organised Crime, together with a composite map and the supporting narrative from the concluding section of the chapter, that identified risk in relation to specific operational issues, the release of which would be of interest to organised crime. It was HMIC's professional judgment that the publication of this material was not in the public interest.

I have raised the issue of producing the requested summary with HMIC and it is their view that, given the relative brevity and sensitivity of the material in question, it would not be possible to do so without exposing the issues at hand. I am, of course, sighted on this material and I agree with this assessment.

Acceptable Behaviour Contracts

David Davis: To ask the Secretary of State for the Home Department (1) how many acceptable behaviour contracts have led to an application for *(a)* an antisocial behaviour order and *(b)* a possession order; [42232]

(2) how many acceptable behaviour contracts have been issued in the past two years; and what proportion has been breached; [42234]

(3) how many acceptable behaviour contracts have contained a statement that the continuation of unacceptable behaviour may lead to an application for *(a)* an antisocial behaviour order and *(b)* a possession order. [42233]

Hazel Blears: Data on the number of acceptable behaviour contracts are not collected by the Home Office as they are voluntary agreements and therefore unsuitable for central data collection.

Aliens (Removal)

Dr. Evan Harris: To ask the Secretary of State for the Home Department what estimate he has made of the number of aliens in the country who are removable but are not required to sign on regularly at his Department or at police stations. [38500]

Mr. McNulty: No government has ever been able to produce a precise estimate for the number of people who remain who are in the country illegally. A number will have entered unlawfully and go to considerable lengths to remain undetected, others leave without informing the Immigration and Nationality Directorate (IND), and it is therefore impossible to quantify precisely how many people in this position are not required to report regularly.

Dr. Evan Harris: To ask the Secretary of State for the Home Department what assessment he has made of the feasibility of removing all those individuals in the country who do not have leave to remain but who have not yet had removal action taken against them. [38501]

Mr. McNulty: We have not carried out an assessment on whether it is feasible to remove all those individuals in the country who do not have leave to remain but who have not yet had removal action taken against them.

No Government have ever been able to produce an accurate estimate for the number of people who remain in the country illegally. A number will have entered unlawfully and go to considerable lengths to remain undetected, others leave without informing the Immigration and Nationality Directorate (IND), and it is therefore impossible to quantify accurately.

Appeals (Foreign Evidence)

Dr. Iddon: To ask the Secretary of State for the Home Department pursuant to the answer of 29 November 2005, *Official Report*, column 427W, on appeals (foreign evidence), if he will take steps to include the Criminal Cases Review Commission as an investigative body that could raise a letter of request to another European jurisdiction under section 9(2) of the Crime (International Co-operation) Act 2003. [35661]

Fiona Mactaggart: We have agreed in principle that we will seek to amend the Crime (International Co-operation) Act to allow the Criminal Cases Review Commission (CCRC) to issue letters of request for release of information to another European jurisdiction as soon as a suitable legislative vehicle becomes available.

Asylum/Immigration

Mr. MacNeil: To ask the Secretary of State for the Home Department what changes to the asylum system his Department has introduced as a result of representations from the Scottish Executive. [34009]

Mr. McNulty: Discussions are ongoing between the Home Office and Scottish Executive at ministerial and official level on the removal of failed asylum seeking families from Scotland and ways of promoting legal migration routes. Any improvements to the asylum system identified through these discussions will be implemented on a UK wide basis.

Greg Mulholland: To ask the Secretary of State for the Home Department how many failed asylum seekers in Leeds, North West have qualified for support under section 4 of the Immigration and Asylum Act 1999 in the last 12 months. [38214]

Mr. McNulty: Since January 2005 we have supported 2,151 people under section four in the Yorkshire and Humberside Region. The number in receipt of support as at 20 December is 1,105.

Mrs. James: To ask the Secretary of State for the Home Department what assessment he has made of the implications of the political situation in Iran for his policy of repatriation of Iranian asylum seekers; and if he will make a statement. [38321]

Mr. McNulty: We continue to monitor closely the political and human rights situation in Iran through key governmental, non-governmental and other human rights organisations. The asylum determination process assesses the protection needs of individual claimants and where the political situation in Iran impacts directly on the circumstances of an individual claimant then it is duly considered as part of that individual's claim.

All Iranian asylum and human rights applications are considered by the Home Office on their individual merits, in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Refugee status or other forms of leave are granted in appropriate cases. We enforce the return of an individual only where we are satisfied that the person concerned will not be at risk and has been unsuccessful in any appeals against the decision in their particular case.

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many removals to the Democratic Republic of the Congo have occurred in each of the last 24 months. [39615]

Mr. McNulty: Removals to the Democratic Republic of Congo are shown in the following table. Asylum removals are shown to September 2005 and non-asylum removals to December 2004. Asylum removals for the fourth quarter 2005 will be published in February 2006. Non-asylum removals for 2005 will be published in November 2006.

Information on the destination of asylum removals has been recorded since the start of 2004 and is routinely given out to answer queries. This is published on the Home Office Research and Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Removals and voluntary departures[1] to the Democratic Republic of Congo January 2004 to September 2005[2,3]

	2004 Asylum[5,6]	*2004 Non-asylum[7]*	*2005 Asylum[5,6]*	*2005[4] Non-asylum[7]*
January	—	•	5	n/a
February	•	—	5	n/a
March	•	—	•	n/a
April	5	—	•	n/a
May	•	•	5	n/a
June	—	•	—	n/a
July	•	—	•	n/a
August	—	5	5	n/a
September	•	5	5	n/a
October	•	•	n/a	n/a
November	5	5	n/a	n/a
December	•	•	n/a	n/a
Total	15	20	[8]25	n/a

n/a = Data not available.

[1] Includes persons departing 'Voluntarily' after enforcement action had been initiated against them.

[2] Figures rounded to the nearest five, with • = 1 or 2 and — = 0, may not sum due to rounding.

[3] Provisional figures.

[4] Non-asylum data for 2005 will be published in the Control of Immigration United Kingdom 2005 in November 2006.

[5] Includes persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration. May include some on-entry cases and some cases where enforcement action has been initiated.

[6] Persons who had sought asylum at some stage, excluding dependants.

[7] Includes a small number of people leaving under the Assisted Voluntary Return for Irregular Migrants Programme run by the International Organisation for Migration.

[8] Total January to September 2005.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what monitoring of UK removals of failed asylum seekers to the Democratic Republic of Congo is undertaken; and if he will make a statement. [39616]

Mr. McNulty: As with returns to all countries, the Home Office does not routinely monitor the treatment of individual Congolese nationals once removed from the UK. We would not remove them if we considered

that they were likely to suffer persecution on their return. If specific allegations are made that any returnee has experienced ill-treatment on return from the UK, then these are followed up through the Foreign and Commonwealth Office (FCO) and the British Embassy in Kinshasa as a matter of urgency.

Embassy staff are regularly in contact with a wide range of domestic and international sources in Kinshasa including local lawyers, press and human rights activists, Ministers from the Transitional National Government and other western embassies.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many people in Coventry, South are *(a)* registered as asylum seekers and *(b)* registered migrants awaiting a decision on the granting right to remain. [39740]

Mr. McNulty: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The number of asylum seekers supported by the National Asylum Support Service (NASS) is published on a quarterly and annual basis, broken down by local authority. The most recent publication covering the third quarter of 2005, and further historical publications are available on the Home Office Research Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Data on asylum seekers supported by NASS broken down by parliamentary constituency are also available from the Library of the House.

Statistics on the location of persons awaiting a decision on their application for leave to remain in the UK is not available and could be obtained only at disproportionate cost by the examination of individual case records

John Bercow: To ask the Secretary of State for the Home Department (1) what support is provided to Zimbabweans who have been refused asylum; [39754]

(2) what representations he has received regarding the situation of Zimbabweans living in the UK who have been refused asylum. [39755]

Mr. McNulty: We have received representations from the public and from Members of both Houses regarding the situation of Zimbabweans who have been refused asylum. Most have been concerned primarily with the issue of enforced return of failed asylum seekers to Zimbabwe, with a number of these proposing that failed Zimbabwean asylum seekers be allowed to work in the UK "until it is safe for them to return to Zimbabwe". We have also received representations from UK voluntary sector organisations about support for failed Zimbabwean asylum seekers under section four of the Immigration and Asylum Act 1999.

As I explained in my statement on 14 December 2005, *Official Report*, column 134WS, the recent Asylum and Immigration Tribunal determination did not find that Zimbabwe generally was unsafe for failed asylum seekers to return to or that voluntary returnees are at risk, only that the method by which we were at that time enforcing returns put enforced returnees at risk. As a consequence, we will not enforce the return of failed asylum seekers to Zimbabwe until we have addressed the concerns of the tribunal. In the meantime, voluntary returns to Zimbabwe are possible and are continuing. We therefore expect failed asylum seekers to return voluntarily to Zimbabwe and will assist them in doing so through the International Organisation for Migration (IOM).

Asylum seekers from Zimbabwe who have been refused asylum can apply for support under section four of the Immigration and Asylum Act 1999. Support is available under this provision to unsuccessful asylum seekers who are destitute and who satisfy one or more of a number of conditions, for example that the person is taking all reasonable steps to leave the UK, or to place himself in a position in which they are able to leave the UK.

Damian Green: To ask the Secretary of State for the Home Department what his current estimate is of the number of failed asylum seekers living in the UK. [40362]

Mr. McNulty: Information on the total number of asylum seekers currently in the UK, including failed asylum seekers, is not available.

As in other countries, the number of "unauthorised" or "illegal" migrants—including failed asylum seekers—in the UK is unknown. The Migration Research Unit (MRU) report published last year reviewed the methods used in other countries and assessed their viability for use in the UK. That report suggested that a method which could be applied in the UK is the "residual method" used in the United States. The new report details how that method has been applied in the UK.

It must be emphasised that, while this method is one that can be used with data available for the UK, over-reliance must not be placed on this result in the absence of the means to produce other estimates using different methods. The report can be found at http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

Damian Green: To ask the Secretary of State for the Home Department what progress he has made on introducing faster non-detained processes for new asylum claimants; and if he will make a statement. [40363]

Mr. McNulty: As mentioned in the immigration and nationality directorate (IND) five year strategy, "Controlling our borders: making migration work for Britain" [Cm 6472] published in February 2005, we have been testing a non- detained, tightly-managed approach in north-west England, where applicants are interviewed and receive decisions on their claims quickly and are closely managed either to removal or leave to remain in the UK.

This has been in place since December 2004 and is part of the new asylum model (NAM) which is designed to introduce:

- faster tightly-managed processes for all new asylum claimants, including those not detained;
- close contact management for all non-detained claimants with access to support dependent on compliance; and
- a specialist case owner responsible for managing each claimant from the start to either integration or removal.

Two segments of the new asylum model, dealing with potentially non- suspensive appeals cases and with late and opportunistic claims having low barriers to

removal, became operational in June 2005 via complete case management teams based at Liverpool and Croydon.

Under this system, claimants presenting at the asylum screening units at Liverpool and Croydon who do not go into the detained fast track are judged against objective criteria (which have been shared with external stakeholders) as to whether their claims are "late and opportunistic". If they are, or, based on their country of origin, their claims are potentially "non-suspensive appeal" cases and they require national asylum seeker support (NASS) accommodation, they are moved to Liverpool. Non- detained, non-NASS accommodated claimants in either segment are managed by a Croydon-based team using reporting centres as close as possible to where they are living.

This is the first phase of the proposed implementation which we expect to see all new asylum cases from the end of this year dealt with as part of the new asylum model.

For the next phase we are planning to introduce case management teams in West Midlands and Leeds to manage the asylum applicants in those regions. These are expected to be in operational form in May of this year. Decisions will be made later about locations of other teams.

Sarah Teather: To ask the Secretary of State for the Home Department what percentage of applications for leave to remain included correspondence from hon. Members in each of the last five years. [40379]

Mr. McNulty: Information about the percentage of leave to remain applications received by the Immigration and Nationality Directorate which included correspondence from hon. Members is not available. It could be obtained only by examination of individual case files at a disproportionate cost.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what his latest estimate is of the number of failed asylum seekers in the UK who are unable to *(a)* work and *(b)* claim benefit. [40387]

Mr. McNulty: All failed asylum seekers who have no leave to remain in the UK do not have the right to work and are expected to leave the country. Support under section four of the 1999 Act is available for those unsuccessful asylum seekers unable to leave the country immediately who are co-operating with the process for return. As at the end of September 2005 there were 7,630 applicants, excluding dependants, in receipt of section four support.

However, as in other countries, the number of "unauthorised" or "illegal" migrants—including failed asylum seekers—in the UK is unknown. The Home Office published on 30 June, the outcome of the assessment of the applicability to the UK of the methods used by researchers and government agencies in other countries to estimate the size of the illegal population. The methods had been identified in the report by the Migration Research Unit (MRU) of University College London on "Sizing the Illegally Resident Population in the UK".

A copy of the Research Development and Statistics (RDS) On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html

The MRU report published last year reviewed the methods used in other countries and assessed their viability for use in the UK. That report suggested that a method which could be applied in the UK is the "residual method" used in the United States. The new report details how that method has been applied in the UK.

It must be emphasised that, while this method is one that can be used with data available for the UK, over-reliance must not be placed on this result in the absence of the means to produce other estimates using different methods.

John Bercow: To ask the Secretary of State for the Home Department what recent assessment he has made of the safety and security of asylum seekers returned to the Democratic Republic of Congo. [40585]

Mr. McNulty: As with returns to all countries, the Home Office does not routinely monitor the treatment of individual Congolese nationals once removed from the UK. We would not remove them if we considered that they were likely to suffer persecution on their return. If specific allegations are made that any returnee has experienced ill-treatment on return from the UK, then these are followed up through the Foreign and Commonwealth Office and the British embassy in Kinshasa as a matter of urgency.

Embassy staff are regularly in contact with a wide range of domestic and international sources in Kinshasa including local lawyers, press and human rights activists, Ministers from the Transitional National Government and other western embassies.

Mr. Spellar: To ask the Secretary of State for the Home Department what action his Department takes against individuals who have obtained leave to remain in the United Kingdom by fraud. [40665]

Mr. McNulty: The Immigration and Asylum Act of 1999 gives the Secretary of State power to remove any individual who obtains leave to remain the UK by deception, section 10(8) of the Act automatically invalidates that leave.

Mr. Dismore: To ask the Secretary of State for the Home Department how much was paid to the London borough of Barnet for special circumstances claims for asylum support costs in 2004–05; and if he will make a statement. [41214]

Mr. McNulty: The National Asylum Support Service is responsible for administering the grant paid to local authorities supporting both adult and family asylum seekers under the Asylum Support (Interim Provisions) Regulations 1999, as amended and Unaccompanied Asylum Seeking Children (UASCs) under the Children Act 1989.

The grant is intended to meet direct costs incurred by local authorities. Where there is a shortfall an authority can seek a special circumstance payment. To qualify the authority must show that it has taken all reasonable steps to live within its grant ceiling.

For 2004–05 the London borough of Barnet was paid £29,770 to meet its bid for a special circumstance payment in respect of adults and families only. This met the authority's bid in full. The London borough of Barnet did not bid for a special circumstances payment for UASCs.

Ms Abbott: To ask the Secretary of State for the Home Department if he will review the refusal to grant Ms Hussaini Begum asylum in the UK. [41230]

Mr. McNulty: I have written to Ms Begum's constituency MP on this matter.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many people in Tamworth are *(a)* registered as asylum seekers and *(b)* registered migrants awaiting a decision on the granting of a right to remain. [42098]

Mr. McNulty: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The number of asylum seekers supported by the National Asylum Support Service (NASS) is published on a quarterly and annual basis, broken down by local authority. The most recent publication covering the third quarter of 2005, and further historical publications are available on the Home Office Research Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html. Data on asylum seekers supported by NASS broken down by parliamentary constituency are also available from the Library of the House.

Statistics on the location of persons awaiting a decision on their application for right to remain in the UK is not available and could be obtained only at disproportionate cost by the examination of individual case records.

Mr. Salmond: To ask the Secretary of State for the Home Department whether immigration officers dealing with removals of families of failed asylum seekers in Scotland have been given clearance to undertake work that involves contact with children under the Children (Scotland) Act 2005. [35098]

Mr. McNulty: All immigration officers, including those removing families of failed asylum seekers, are subject to a range of routine pre-employment checks, including checks against the Police National Computer. No additional checks are required by The Children (Scotland) Act 1995; the Protection of Children (Scotland) Act 2003 or the Protection of Children and Prevention of Sexual Offences (Scotland) Act 2005.

Mr. Lidington: To ask the Secretary of State for the Home Department what progress his Department has made with handling the immigration appeal submitted by Mr. M.A.S., husband of Mrs. N.N. of Aylesbury (reference 868672; passport KD701035); and if he will make a statement. [38951]

Bridget Prentice: I have been asked to reply.

The appeal papers for a Mr. M.A.S were received by the Appeals Processing Centre of the Immigration and Nationality Directorate (IND) on 25 May 2005.

Appeals arising from an application, refused by the entry clearance officer (ECO) prior to the commencement of the Asylum and Immigration Tribunal (AIT) on 4 April 2005, are forwarded to IND by the ECO before being sent to the AIT to be determined.

The AIT received the appeal papers on 22 December 2005, and a notice of hearing was sent to all parties on 29 December 2005. The appeal has been listed for hearing before an immigration judge on 20 March 2006.

Mr. Weir: To ask the Secretary of State for the Home Department what recent representations he has received from the Scottish Executive about attracting new immigrants to Scotland. [39936]

Mr. McNulty: I have been working closely with the Scottish Executive and am in regular discussions with colleagues there about a variety of issues surrounding their Fresh Talent Initiative, which seeks to counter Scotland's falling and ageing population.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many people are detained under Immigration Act powers; and how many of these are *(a)* asylum seekers whose asylum applications have yet to be determined and *(b)* asylum seekers whose asylum applications have been refused. [39518]

Mr. McNulty: Information on the number of persons detained solely under Immigration Act powers is available from a snapshot taken on the last Saturday of the quarter and is published in the Quarterly Asylum Statistics publications on the Home Office research development and statistics directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

It is not possible to say which stage of the asylum process people are at when they are detained. The decision to detain is made on a case by case basis and may be appropriate in one or more of the following circumstances: to effect removal; to establish a person's identity and claim; where a person presents a risk of absconding or where the application is capable of being considered quickly.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many children are detained under Immigration Act powers. [39519]

Mr. McNulty: The number of children detained with their families under Immigration Act powers will change from day to day. However, internal management information shows that, as at 4 January 2006, there were 31 children detained with their families under Immigration Act powers: 28 at Yarl's Wood Immigration Removal Centre and three at Tinsley House Immigration Removal Centre. These individuals were all detained as part of families whose detention, as a group was considered necessary. The figures provided do not constitute part of the national statistics and are based on management information.

Information on the number of persons detained, as at 24 September 2005, broken down by those who are under 18 years of age, are published in the Quarterly Asylum Bulletin, on the Home Office research development and statistics directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Cannabis

Paul Flynn: To ask the Secretary of State for the Home Department what estimate he has made of the change in the numbers of people who would be *(a)* arrested, *(b)* brought to court and *(c)* imprisoned if cannabis was re-classified as a class B drug. [41724]

Paul Goggins: The Home Secretary is currently considering the report of the Advisory Council on the Misuse of Drugs on the classification of cannabis. Any proposal to change the classification of a controlled drug would require a regulatory impact assessment to be drawn up which would include consideration of all relevant enforcement issues.

Children's Commissioners (Child Asylum Seekers)

Mr. Caton: To ask the Secretary of State for the Home Department what representations he has received from the Children's Commissioners in the United Kingdom on the impact of section nine of the Asylum and Immigration (Treatment of Claimants) Act 2004 on the welfare of children. [38762]

Mr. McNulty: There have been no written representations received from any of the four children's commissioners in the United Kingdom on the impact of section nine of the Asylum and Immigration (Treatment of Claimants) Act 2004 on the welfare of children. The director general of the Immigration and Nationality Directorate, hosted a meeting in December with all four Children's Commissioners at which a number of matters were discussed including section nine.

Cocaine

Mr. Bone: To ask the Secretary of State for the Home Department what steps he is taking to tackle the increased use of cocaine in the United Kingdom. [40443]

Paul Goggins: Since 2000, the British Crime Survey (BCS) shows that cocaine use has remained broadly stable both for those aged 16–59 and for young people aged 16–24. There is also some evidence of a more recent reduction in use. Data from the BCS show that, between 2003–04 and 2004–05, there was a fall from 2.4 per cent. to 2.0 per cent. in the proportion of respondents aged 16–59 reporting the use of cocaine on at least one occasion during the year preceding the survey. This equates to a 17 per cent. drop. However, the Government are not complacent about any of these figures and, through the Drug Strategy, are working to reduce the harms caused by all illicit drugs.

The Drug Interventions Programme (DIP) operates in the 97 areas with the highest levels of drug-related acquisitive crime. Individuals charged with certain offences are tested for class A drugs under the programme: one of several interventions to identify drug-misusing offenders and divert them into treatment and support services. From 1 December, three selected police forces have had powers to test for class A drugs on arrest. Those testing positive are required to attend an assessment with a drug worker. These new powers will be expanded further from 31 March.

Heroin misuse has historically been the main the focus of treatment provision. However, the number of stimulant users presenting for treatment is increasing. Flexible treatment packages are being adopted in line with the National Treatment Agency's Effectiveness Strategy.

For young people, the Government provide universal drugs education and targeted interventions for the vulnerable young people most likely to develop drug misuse problems.

Internationally, UK law enforcement agencies work with overseas partners and between April 2001 and December 2004, 52 tonnes of cocaine bound for the UK market were seized.

Community Service Sentences

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people have been given community service-based sentences on more than one occasion. [39592]

Fiona Mactaggart: Information on offenders given community sentences on more than one separate occasion is not routinely collated.

Correspondence

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* letters from hon. Members, *(b)* letters from members of the public and *(c)* Parliamentary Questions from (i) hon. Members and (ii) Lords were dealt with by his Department in each year since 1995 in respect of the percentage his Department took (A) more than one month and (B) more than three months to provide a substantive answer; and if he will make a statement. [37384]

Mr. Charles Clarke: The information requested is as follows.

(a) Correspondence from Members and Peers

The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/Peers correspondence.

The report for 2004 was published on 6 April 2005, *Official Report*, columns 137–40WS. Reports for earlier years are available in the Library of the House. (A) In the period 1 January to 31 October 2005 the department (including the Immigration and Nationality Directorate (IND) but excluding the agencies) received 41,299 letters from Members and Peers and responded to 56 per cent. of them within 20 working days.

The department, excluding IND, replied to 95 per cent. of the Members and Peer's letters received in October 2005 within the target of 15 working days.(B) The cost of establishing the proportion of letters that took over three months to answer would be disproportionate.

(b) Correspondence from the public

(A) The department holds correspondence performance data for two years only. The data relates to centrally received correspondence i.e. letters addressed to Ministers or 'the

Home Office' and e-mails addressed to public.enquiries @ homeoffice.gsi.gov.uk but excludes correspondence about IND and the agencies.

The department aims to reply to correspondence from the public within 20 working days. In the period one June to 31 December 2003 the department received 7,864 letters from the public and replied to 85 per cent. within target. In 2004 the department received 17,133 letters and replied to 87 per cent. within target. In the period 1 January to 31 October 2005 the department received 13,724 letters and replied to 90 per cent. within target. (B) The cost of establishing the proportion of letters that took over three months to answer would be disproportionate.

(c) Parliamentary Questions.

The information requested is not held in this format and to collate this would incur disproportionate costs. Ministers give serious attention and make every effort to answer questions substantively and in accordance with the performance guidelines set.

Lynne Featherstone: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter of 25 November 2005 from the hon. Member for Hornsey and Wood Green; when Mr. Independencio So (Home Office reference S668821) will be granted leave to remain in the United Kingdom in accordance with the ruling of the Asylum and Immigration Tribunal; and if he will make a statement. [37576]

Mr. McNulty: The immigration and nationality directorate replied to the hon. Members letter of 25 November addressed to the head of Member of Parliament's Correspondence Section on 6 December 2005. Mr. Independencio So was granted leave to remain in the United Kingdom on 9 January 2006.

Mr. Spellar: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter from the right hon. Member for Warley of 13 September on behalf of Jamail Singh of Shakespeare Road, Smethwick. [40536]

Mr. McNulty: The immigration and nationality directorate (IND) replied to the right hon. Member for Warley on 10 January 2006.

Crime Detection Rates

Mr. Hurd: To ask the Secretary of State for the Home Department what crime detection rates were recorded for offences of *(a)* violence against the person, *(b)* sexual offences, *(c)* robberies, *(d)* burglaries and *(e)* theft of a vehicle in (i) Greater London and (ii) Ruislip-Northwood constituency in the last year for which figures are available. [39959]

Hazel Blears: The information requested is not available centrally for the Ruislip-Northwood constituency. This constituency comes within the Hillingdon Basic Command Unit (BCD) and figures for that BCU and for Greater London are given in the table.

Detection rates for recorded crime—2004–05

Offence	Greater London[1]	Percentage Hillingdon Basic Command Unit
Violence against the person	43	50
Sexual offences	35	32
Robbery	19	17
Domestic burglary	14	14
Theft of a vehicle	9	6

[1] Covers the Metropolitan police force area.

Crime Statistics

Mr. Amess: To ask the Secretary of State for the Home Department how many and what percentage of *(a)* speeding cases and *(b)* reported violent crimes led to (i) prosecution and (ii) conviction in each of the last two years for which figures are available. [39713]

Hazel Blears: The information is not available in the form requested. Because recorded crime and speeding data refers to offences and court proceedings refers to defendants, the data are not directly comparable. In addition, recorded crime data is on a financial year basis and speeding offences and court proceedings data is on a calendar year basis.

The available information relating to speeding offences and violent crime is provided in the table.

Defendants[1] proceeded against at magistrates courts and found guilty at all courts for violent crime offences[2], England and Wales

	Proceeded against	Number Found guilty
2003	102,465	49,694
2004	93,735	51,415

[1] These data are on the principal offence basis.
[2] Violent crime includes violence against the person, sexual offences and robbery offences

Criminal Injuries Compensation

Mr. Boswell: To ask the Secretary of State for the Home Department what plans he has for transferring the cost of compensation for criminal injuries at work to employers. [37167]

Fiona Mactaggart: We are currently consulting on the issue of removing from the Criminal Injuries Compensation Scheme cases where someone is injured while at work. We are considering if employers, whether in the public or private sector, are best placed to protect their employees, minimise the risk to them and bear the risk of compensating them for their injuries if they fail to do so.

In our Green Paper "Rebuilding Lives; supporting victims of crime" we ask for views on this issue.

Mr. David Hamilton: To ask the Secretary of State for the Home Department how many employees of rail companies in England and Wales have claimed criminal injuries compensation in relation to incidents in the course of their employment in 2005. [35064]

Fiona Mactaggart: The Criminal Injuries Compensation Authority (CICA) record applications arising from injuries connected with the railway by type of incident rather than by occupation. The available

information is that in the period 1 January 2005 to 30 November 2005 CICA received 172 applications from England and Wales where the incident type was listed as suicide or trespass on the railway or the London underground. Without going through each file individually it is not possible for CICA to say definitively whether all such claimants were in fact employees of rail companies and whether the injuries were sustained in the course of their employment.

Departmental Assets

Mike Penning: To ask the Secretary of State for the Home Department if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27383]

Mr. Charles Clarke: The list of the 10 most valuable *(a)* movable and *(b)* immovable assets owned by the Home Department is in the following tables:

Moveable assets

Directorate	*Moveable asset name*	*Net book value @ 31 March 2005 (£)*
1. Criminal Justice	Snaresbrook Pilot Development and Set Up	11,583,568.46
2. Immigration & Nationality	Gloucester Data Centre	8,433,768.13
3. Crime Reduction & Community Services Group	Computer Systems Under Construction—Networks	7,748,133.01
4. Immigration & Nationality	System Development For Programme Plan	7,467,472.85
5. Criminal Justice	Snaresbrook Exchange Development and Set Up	5,582,251.87
6. Criminal Justice	Construction and Infrastructure of Snaresbrook Exchange	4,925,437.77
7. Immigration & Nationality	Computer Equipment Relating to Semaphore and E-borders	3,673,172.23
8. Crime Reduction & Community Services Group	Computer Systems Under Construction—Project	2,594,909.99
9. Crime Reduction & Community Services Group	Computer Systems Under Construction—Forensics	2,453,689.47
10. Criminal Justice	Snaresbrook Pilot Development and Set Up (2)	2,150,474.19

Notes:
1. The definition of a movable asset is taken as all assets that are not Land and Buildings.
2. Assets are shown at their individual asset values based on their Net Book Value at 31 March 2005.

Immoveable assets

Directorate	*Immoveable asset name*	*Net book value @ 31 March 2005 (£)*
1. Correctional Services	HMP Doncaster	92,617,364.60
2. Correctional Services	HMP Altcourse (Fazakerly)	67,266,506.38
3. Correctional Services	HMP Peterborough	64,292,666.67
4. Correctional Services	HMP Dovegate (Marchington)	61,766,013.55
5. Correctional Services	HMP Wolds	53,808,308.64
6. Correctional Services	HMP Ashford (Bronzefield)	46,445,833.33
7. Correctional Services	HMP Parc (Bridgend)	44,306,598.43
8. Correctional Services	HMP Agecroft (Forest Bank)	43,920,924.16
9. Correctional Services	HMP Rye Hill (Onley)	37,295,794.75
10. Immigration & Nationality	Harmondsworth Detention Centre	28,638,663.33

Note:
Assets are shown at their individual asset values based on their Net Book Value at 31 March 2005.

Departmental Finance

Mr. Weir: To ask the Secretary of State for the Home Department what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40076]

Mr. Charles Clarke: The Department generally self-insures its buildings and its staff liabilities. The remaining information is not held centrally and could be provided only at disproportionate cost.

Mr. Spellar: To ask the Secretary of State for the Home Department how much his Department spent on bottled water in 2004–05. [40333]

Mr. Charles Clarke: This information is not held centrally and could be obtained only at disproportionate cost. However I can confirm that on the Department's central London headquarters' estate the amount spent on bottled water dispensers for financial year 2004–05 was £46,665.34. Bottled water dispensers are provided in only a few selected areas in 2 Marsham Street and so this cost will reduce substantially for subsequent years.

Deportations

Mr. Holloway: To ask the Secretary of State for the Home Department how many members of extreme Islamic groups have been deported to *(a)* Jordan and *(b)* Libya since the Government signed memoranda of understanding with those countries. [28628]

Mr. McNulty: A memorandum of understanding was signed with Jordan on 10 August 2005, and a second memorandum was signed with Libya on 18 October 2005.

To date, no-one has been removed to either country in reliance on assurances obtained under those documents. There are several cases where we intend to deport on the strength of assurances, but removal cannot take place while an appeal against the decision to make the deportation order is pending.

Mr. Dismore: To ask the Secretary of State for the Home Department with which countries his Department is in negotiation concerning Memoranda of Understanding on deportation; and if he will make a statement. [41340]

Mr. McNulty: My right hon. Friend announced at the start of last year that we were seeking to negotiate Memoranda of Understanding (MoUs) with certain key middle-eastern and North African countries.

Since then we have signed MoUs concerning the provision of assurances in respect of persons subject to deportation with Jordan, with Libya and with the Lebanon. We are also negotiating with Algeria.

Our discussions with other countries are less advanced, and it would not be helpful to identify the countries concerned.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what medical checks are carried out before the removal of deportees from the UK; and what steps are taken to ensure their wellbeing *(a)* during and *(b)* following their journey home. [38813]

Mr. McNulty: If a person subject to removal is not detained prior to removal, it is the responsible of that individual to notify the Immigration Service (IS) of any medical conditions which might be a reason to delay or discontinue their removal from the UK.

Immigration staff will then (with the person's consent) get from the individual's doctor or hospital details of the specific medical condition, the treatment being prescribed, and the fitness of the person to travel. Immigration staff will also make checks to establish the availability of treatment in the person's country of origin and an assessment of any diminution of life expectancy if removal takes place.

If the person being removed is in detention they will receive a medical examination within 24 hours of their arrival at a removal centre. During detention individuals have access to the centre's healthcare team which includes a medical practitioner as well as nursing professionals. When there are concerns about an individual's health, the healthcare team will indicate to the Immigration Service whether or not an individual is fit to travel.

DNA Profiles

Grant Shapps: To ask the Secretary of State for the Home Department pursuant to the answer of 1 December 2005, *Official Report*, column 748W, on DNA profiles, when he expects technical changes to the link between the police national computer and the national DNA database to be made. [40773]

Andy Burnham: The changes to the police national computer (PNC) system and its link to the national DNA database are currently being considered by Police Information Technology Organisation (PITO) and an impact assessment is being made. A meeting is scheduled for 13 January between PITO, the database custodian and the Forensic Science Service (FSS) to discuss the prioritisation of this and several other technical changes. Until the impact assessment is complete it is not possible to say precisely when the work will be scheduled, but would anticipate completion by the end of the calendar year.

On 1 December the original question asked:

"How many people under 18 years have DNA profiles stored in the police national database without having been charged or cautioned for any offence?"

It was not then possible to provide the answer. A transitional solution provided by the police now enables this information to be compiled, though not as easily as the proposed PNC-national DNA database linkage would permit. On 1 December 2005 there were around 24,000 DNA person profiles on the DNA database which related to persons under 18 who had not been charged or cautioned for any offence.

Domestic Violence

Dr. Kumar: To ask the Secretary of State for the Home Department if he will ensure that the sex of persons prosecuted for domestic violence cases is recorded by the Crown Prosecution Service. [36990]

Fiona Mactaggart: The sex of persons prosecuted is recorded for all cases handled by the Crown Prosecution Service (CPS) including domestic violence cases. However, this data is not collated and reported centrally.

The hon. Gentleman has previously asked a question concerning the sex of persons prosecuted for domestic violence on 29 November 2005, official report, column 437W. The response to this question provided the total number of persons prosecuted (from a centralised performance management system) but concluded that:

"The gender of the persons prosecuted for domestic violence cases is not collected by the CPS".

This conclusion was incorrect and should have stated that:

"Regular flagging of all domestic violence cases has been monitored since April 2005. However, the gender of the persons prosecuted for domestic violence cases has not been collated and reported (centrally) by the CPS".

Snapshot surveys since 2002 have collected one month of more detailed data annually, in relation to domestic violence, including gender. In 2002, 94 per cent. of defendants were male, in 2003–95 per cent. and in 2004–93 per cent. For 2004, the overwhelming majority of offences were perpetrated by a male defendant (93 per cent.) on a female (89 per cent.).

Discussions are under way in relation to future possible systematic collation and reporting of such data.

Drunkenness (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many offenders have been found guilty of *(a)* drunkenness and *(b)* drunkenness with aggravation in Coventry, South since 1997. [40230]

Hazel Blears: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of offenders found guilty for drunkenness and drunkenness with aggravation in Coventry petty sessional area 1997 to 2004 is given in the following table. It is not possible to identify those convicted in Coventry, South as the data is not collected at this level of detail.

Court statistics for 2005 will be available in autumn 2006.

Number of offenders found guilty for drunkenness and drunkenness with aggravation in Coventry petty sessional area, 1997 to 2004[1]

	Drunkenness[2]	*Drunkenness with aggravation*[3]
1997	20	84
1998	6	65
1999	5	46
2000	13	64
2001	8	77
2002	11	62
2003	25	42
2004	20	66

[1] These data are on the principal offence basis

[2] Includes offences under S.12 Licensing Act 1872, Sporting Events (Control of Alcohol etc) Act 1985 SS.1(4), 1A(4), 2.(2) and S.12 Criminal Justice and Police Act 2001

[3] Includes offences under S.91 Criminal Justice Act 1967.S.12 Licensing Act 1872, S.174 Licensing Act 1964, S.9(4) Late Night Refreshment Houses Act 1969, S.28 London Hackney Carriage Act 1843, SS.101(1)*(a)*(*b*), (4) and (5) Merchant Shipping Act 1995, S.2 Licensing Act 1902 and S.61 Town Police Clauses Act 1847

e-Borders

David Davis: To ask the Secretary of State for the Home Department when he expects e-borders to be fully operational. [42052]

Andy Burnham: E-borders is expected to become fully operational by March 2014.

E-borders capabilities began to roll out to selected air routes through Project Semaphore in December 2004. They will roll out incrementally to major air sea and rail ports to ensure complete coverage of international services in and out of the UK by 2010. The remaining small air and sea ports will be covered in the last stage of the programme from 2010–14.

Damian Green: To ask the Secretary of State for the Home Department when he expects to publish the results of the pilot studies into the e-borders project. [40364]

Andy Burnham: The e-Borders programme is designed for delivery in three stages from 2004 to 2014.

Stage One (2004–05 to 2007–08) consists of two projects: Project Semaphore which de-risks and informs the e-Borders programme by testing services, while delivering operational benefits to the border agencies and project IRIS which trials automated entry controls using biometrics.

Key findings from the Project IRIS and Project Semaphore pilots will be reported to the House.

EU Migration

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what funding is available to *(a)* Peterborough city council and *(b)* other organisations in Greater Peterborough to meet the costs of the provision of extra services needed as a result of the migration of EU accession country migrants since May 2004; and if he will make a statement. [40991]

Mr. McNulty: There is no additional funding available exclusively for the provision of services for migrants from EU accession countries. But Peterborough currently benefits from Government investment of over £1.5 million over three years in the Peterborough Invest to Save Asylum and Migration Programme project which seeks to help new arrivals in the city to integrate successfully.

Damian Green: To ask the Secretary of State for the Home Department what progress has been made during the British presidency of the EU in implementing the action plan to deal with migration flows across the Mediterranean; and if he will make a statement. [40358]

Mr. McNulty: Substantial progress was made during the UK presidency to implement EU initiatives to tackle illegal migration across the Mediterranean.

The EU Border Agency (FRONTEX) became fully operational in October 2005 and identified the Mediterranean as a priority area for action. EU member states conducted various joint exercises to detect and intercept irregular migrants, and to reinforce controls in sea ports.

Important progress was made on strengthening co-operation with transit countries in North Africa. The 10th anniversary Euromed Summit in November 2005 adopted a five year work programme covering enhanced co-operation on all aspects of migration, including reducing illegal migration and trafficking in human beings. A ministerial meeting on migration will be held in 2006 to drive forward this agenda.

In addition, the UK presidency advanced work with Libya on an action plan on illegal migration, due to be adopted early in 2006. A European Commission mission made recommendations for practical co-operation with Morocco and Algeria following the tragic events in Ceuta and Melilla. Key Mediterranean transit countries were involved in ED sea operations.

On source countries in Africa, agreement was reached at the EU Economic Community of West African States (ECOWAS) Troika in November and the EU Africa Troika in December to enhance and strengthen dialogue and practical cooperation on migration between ECOWAS, African countries, Pan-African institutions and the EU.

At the end of the presidency, the December European Council adopted a paper "Global approach to migration: Priority actions focusing on Africa and the Mediterranean", drawing together all strands of EU migration work in the Mediterranean and Africa and setting priority actions for 2006.

Building on our presidency achievements, we will continue to encourage the EU to work in closer partnership with transit and source countries to tackle illegal migration across the Mediterranean and for improved migration management globally.

Forensic Science Service

Philip Davies: To ask the Secretary of State for the Home Department what role the Forensic Science Service (FSS) had in the decision to award the contract to supply drugs testing equipment to the police to Cozart Bioscience Ltd.; and what assessment he has made of the link between the privatised arm of the FSS and Cozart Bioscience. [40343]

Paul Goggins: The Forensic Science Service's (FSS) role in the decision to award the contract to supply drugs testing equipment to Cozart Bioscience Ltd. was limited to the provision of impartial, expert scientific and technical advice to the Home Office's Drug Interventions Programme (DIP). This was in order to evaluate the products from all companies arising from a tender issued by the DIP via an advertisement in the Official Journal of the European Union in 2003 for the supply of drugs testing equipment for police forces to use in custody suites.

The FSS does not have a privatised arm and, having been incorporated as a Government owned company on 5 December 2005, remains a public authority. However, it has a commercial collaboration arrangement in place with Cozart, which is managed by a distinct unit within the FSS that is completely separate and has no connection with any activities relating to the FSS' role in the provision of impartial expert and technical advice, performance testing, quality assurance and independent evaluation of test kits and equipment to the Home Office. The Department is satisfied that ethical walls have been established within the FSS to ensure that appropriate safeguards are in place to prevent the disclosure of any information relating to the DIP, and commercial or otherwise technical data between the different areas of the organisation concerned.

Homophobic Crime

Stephen Williams: To ask the Secretary of State for the Home Department (1) what research his Department has *(a)* commissioned and *(b)* evaluated relating to homophobic crime; [28328]

(2) what guidelines for police forces his Department has published on *(a)* homophobic-related crime and *(b)* racially motivated crime; [28329]

(3) what recent discussions he has had on homophobic crime; and if he will make a statement; [28330]

(4) what duty is placed on police forces to *(a)* collect and *(b)* publish statistics related to reported incidences of homophobic crime. [28331]

Paul Goggins: The Metropolitan Police Service conducted a six-month study "Understanding and Responding to Hate Crime" which analysed hate crime incidents, including homophobic crime reported in that period. However, the Home Office has not commissioned any research on homophobic crime. Similarly a number of discussions have been held with stakeholders. These are being used in developing policy to tackle hate crime more effectively including homophobic crimes.

In May this year the Association of Chief Police Officers (ACPO) and the Home Office jointly published a hate crime manual, 'Hate Crime: Delivering a Quality Service'. This builds on the code of practice on reporting and recording racists incidents published and distributed in 2000.

At present no duty is placed on police forces to collect or publish incidents of hate crime.

Humberside Police

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what assessment he has made of the burden of paperwork faced by Humberside police. [39417]

Hazel Blears: The National Bureaucracy Adviser provides practical assistance to all forces, including Humberside, in the timely and effective implementation of their work on reducing bureaucratic burdens on police officers. This includes visiting forces to spread good practice; challenging, where necessary, existing practices; and driving force-led reductions in bureaucracy. We have made good progress in reducing the bureaucratic burdens on police officers by cutting nearly 9,000 unnecessary forms; civilianising posts; rolling out the penalty notice for disorder scheme; and ensuring that forces have the best scientific and technological support like video identity parades and electronic fingerprinting so that officers spend more time in communities tackling crime and antisocial behaviour and reassuring the public.

Identity Cards

Jo Swinson: To ask the Secretary of State for the Home Department what his Department estimates the cost to public funds of introducing identity cards will be by 2012. [41785]

Andy Burnham: The average annual running costs are estimated as £584 million for issuing passports and identity cards to UK nationals.

We expect that any integration costs for other Government Departments will not be significant before 2012, as they will want to see the identity cards scheme achieve significant coverage before investing in readers and other equipment.

Identity Fraud

Dr. Strang: To ask the Secretary of State for the Home Department how many instances of identity fraud by applicants using a deceased person's details for a new passport have taken place in each of the last five years; and at what cost to his Department. [41049]

Andy Burnham: The figures for the number of passport applications detected by the UK Passport Service in which a deceased person's details have been used are as follows.

	Number of applications
2001	214
2002	288
2003	173
2004	171
2005	81

The cost to my Department of detecting these cases is contained within the overall cost of processing a passport application, through examination and fraud investigation techniques which are covered by the passport fee.

Dr. Strang: To ask the Secretary of State for the Home Department how many instances of identity fraud by applicants using false address details for a new passport have taken place in each of the last five years; and at what cost to his Department. [41050]

Andy Burnham: Figures relating to the number of fraudulent passport applications detected in which a false address is given are not routinely collated by the UK Passport Service and are not therefore available.

The cost to my Department of detecting these cases is contained within the overall cost of processing a passport application, through examination and fraud investigation techniques which are covered by the passport fee.

Immigration and Nationality Directorate

Sarah Teather: To ask the Secretary of State for the Home Department how many members of staff work on the hotline for hon. Members at the Immigration and Nationality Directorate. [40388]

Mr. McNulty: In 2005–06 the Immigration and Nationality Directorate's (IND) MPs' Hotline is funded for 20 posts. Four of these posts are currently vacant but should be filled early in 2006 through an internal selection process.

London Bombings

Mr. Frank Field: To ask the Secretary of State for the Home Department whether he plans to extend changes made to the criminal injuries compensation scheme to the victims of the 7 July bombings. [39532]

Fiona Mactaggart: The question of making any scheme changes retrospective was addressed in the Home Office consultation paper 'Rebuilding Lives: supporting victims of crime' published on 7 December 2005. The relevant passage, at page 19, reads:

"We recognise that changes to the scheme mean that some cases would be dealt with differently in future and that some applicants who have already received their compensation would have received more under a new scheme. However, we do not believe that it would be fair or workable to apply changes retrospectively. Changes also need to be approved by Parliament, which could mean that it could be at least a year before any changes could come into effect. We would welcome views on whether changes to the scheme should apply from the date of the incident or the date of the application.

Potential applicants to the scheme should not alter their decision on whether or when to apply to the scheme as a result of anything in this paper."

The full text of the consultation document can be found on the Home Office website through http://www.cjsonline.gov.uk/the_cjs/whats_new/news-3258.html.

London County Council (General Powers) Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted during 2004 of an offence under section 20(1) of the London County Council (General Powers) Act 1954. [40978]

Hazel Blears: Persons proceeded against and found guilty at the magistrates courts of offences under section 20(1) of the London County Council (General Powers) Act 1954 cannot be separately identified on the court proceedings database held by the Office for Criminal Justice Reform as they form part of a miscellaneous group which cannot be analysed.

Offences Against the Person Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females aged (i) under 16 years, (ii) 16 to 18 years, (iii) 19 to 24 years, (iv) 25 to 30 years, (v) 30 to 40 years and (vi) 40 years and over found guilty of an offence under section 20 of the Offences Against the Person Act 1861 were sentenced to (A) five years' imprisonment, (B) four years' imprisonment, (C) three years' imprisonment, (D) two years' imprisonment, (E) one year's imprisonment, (F) six months' imprisonment, (G) community service and (H) a fine only in (1) Essex, (2) the Metropolitan police part of London, (3) Hertfordshire and (4) England and Wales in each of the last five years for which figures are available. [37550]

Fiona Mactaggart: The information requested is contained in the following tables.

Source:
RDS NOMS 14 December 2005

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted in England and Wales of offences under sections (A) 4, (B) 5, (C) 9, (D) 17, (E) 22, (F) 24, (G) 29, (H) 30, (I) 32, (J) 33, (K) 34, (L) 35, (M) 36, (N) 57 and (O) 60 of the Offences Against the Person Act 1861 in 2004. [39745]

Hazel Blears: Information taken from the court proceedings database held by the Office for Criminal Justice Reform on the number of males and females proceeded against at magistrates courts and found guilty of the sections under the Offences Against the Person Act 1861 as mentioned in the question at all courts England and Wales, 2004 is contained in the following table.

Number of males and females proceeded against at magistrates courts and found guilty at all courts for certain sections under the Offences Against the Person Act 1861, England and Wales, 2004[1]

Offence description	*Principal statutes*	*Male Proceeded against*	*Found guilty*	*Female Proceeded against*	*Found guilty*
Conspiracy or soliciting, etc., to commit murder	Criminal Law Act 1977 S.1; Offences against the Person Act 1861 S.4	51	9	8	1
Manslaughter	Common Law; Offences against the Person Act 1861 SS.5, 9 & 10	119	239	18	26
Murder of persons aged one year or over	Common Law; Offences against the Person Act 1861 SS.1, 9 & 10	681	340	73	17
Murder of infants under one year of age	Common Law; Offences against the Person Act 1861 SS.1, 9 & 10	4	3	1	1
Impeding the saving of life from shipwreck	Offences against the Person Act 1861 S.17	—	—	—	—
Using Chloroform, etc., to commit or assist uncommitting an indictable offence	Offences against the Person Act 1861 S.22	8	1	1	—
Administering poison with intent to injure or annoy	Offences against the Person Act 1861 S.24	15	9	5	3
Causing, explosions or casting corrosive fluids with intent to do grievous bodily harm	Offences against the Person Act 1861 S.29	4	7	3	2
Placing, etc., explosives in or near ships or buildings with intent to do Offences against the Person Act bodily harm, etc.	Offences against the Person Act 1861 S.30	—	2	—	—
Endangering railway passengers by placing, etc., anything on railway, taking up rails, changing points and signals etc.	Offences against the Person Act 1861 S.32	9	1	—	—
Endangering railway passengers by throwing anything at railway carriages, etc.	Offences against the Person Act 1861 S.33	1	—	—	—
Endangering railway passengers by unlawful acts, or by omission or neglect	Offences against the Person Act 1861 S.34	41	21	1	1
Causing bodily harm by furious driving	Offences against the Person Act 1861 S.35	19	11	2	2
Obstructing, assaulting or arresting upon civil process clergymen performing service	Offences against the Person Act 1861 S.36	8	3	1	—
Concealment of birth	Offences against the Person Act 1861 S60	—	—	1	—
Bigamy	Offences against the Person Act 1861 S57	18	17	4	5

[1] These data are provided on the principal offence basis.

Organised Crime

Mr. Gauke: To ask the Secretary of State for the Home Department what assessment he has made of the geographical distribution of organised crime. [40965]

Paul Goggins: The UK Threat Assessment for 2004–05 to 2005–06, which is published by the National Criminal Intelligence Service, sets out the threat to the UK from organised crime. The assessment does not attempt to apportion the distribution of organised crime by region. It is, however, geographically widespread with major distribution hubs for criminal commodities found in areas of high population.

Press Releases

Mr. Oaten: To ask the Secretary of State for the Home Department if he will place copies of documents to which press releases relate on his Department's website at the same time that the press release is issued; and if he will ensure there is a full link to the document's URL as contained in the press release. [37752]

Mr. Charles Clarke: The Home Office always aims to publish press releases, and related documents, simultaneously on the Home Office website. Press Releases are located in the press office section of the website http://press.homeoffice.gov.uk/ and include in the 'Notes to Editors' links to related Home Office publications or statistics. Systems have been developed and implemented over the past three months since the launch of the new websites to enable the process of ensuring full URL links to documents are in the press releases.

Preventing Extremism Working Groups

Michael Gove: To ask the Secretary of State for the Home Department (1) how many people were considered for membership of the Preventing Extremism working groups; [39770]

(2) whether *(a)* he and *(b)* his officials had discussions with people considered for membership of the Preventing Extremism working groups concerning the criteria according to which candidates for membership of the Preventing Extremism working groups were assessed; [39771]

(3) what discussions *(a)* he and *(b)* his officials had with people considered for membership of the Preventing Extremism working groups concerning the suitability of other people considered for membership of the working groups; [39772]

(4) according to what criteria candidates for membership of the Preventing Extremism groups were assessed; [39773]

(5) on what dates the criteria for selecting members of the Preventing Extremism working groups were revised; [39774]

(6) on what date criteria were first drawn up for selecting the members of the Preventing Extremism working groups; [39775]

(7) what criteria were drawn up for selecting members of the Preventing Extremism working groups. [39776]

Paul Goggins: The Preventing Extremism Together working groups were created as part of an exercise which was carried out informally as part of our immediate response to the July bombings.

Suggestions as to possible members came both orally and in writing from Ministerial visits which took place over the summer, through a designated email account, from the Liberal Democrats and Conservatives, and following the Prime Minister's and my own meetings with key faith leaders and others.

Members of the working groups were invited to participate because of their expertise and experience. A key factor was to ensure that the groups had credibility with the Muslim communities. In selecting these individuals consideration was given to those who were both challenging voices and well established figures who have the support of their community. To ensure a broad spectrum of representation, high profile and internationally known individuals were invited alongside individuals who hold a variety of different views. They were invited in a personal, unpaid capacity, rather than as representatives of their organisations and held no official status. The result of this was seven working groups with a membership total of 104.

Prisoner Licences

Mr. Oaten: To ask the Secretary of State for the Home Department how many prisoners are being held beyond their licence expiry date following recall to prison; and how many times in the last two years prisons have failed to release recalled prisoners on time. [37764]

Fiona Mactaggart: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Oaten: To ask the Secretary of State for the Home Department whether the Early Release and Recall Section of the National Offender Management Service monitors the performance of individual prisons in releasing recalled prisoners before their licence expiry date (LED); and what action is taken where a prison is known to have held a prisoner beyond their LED. [37765]

Fiona Mactaggart: It is the responsibility of Prison Service senior managers to monitor the performance of individual prisons.

Recalled prisoners can only be re-released if their sentence has expired or the Parole Board has recommended release. In taking into account whether to re-release a recalled prisoner sentenced under the provisions of the Criminal Justice Act 1991, the Parole Board is required to have regard to the prisoner's licence expiry date.

If it comes to the attention of the Release and Recall Section or the Prison Service that a recalled prisoner is, for any reason, being held beyond the date of their re-release, staff are required to take immediate steps to facilitate the release process.

Prisons

Mr. Lancaster: To ask the Secretary of State for the Home Department whether the provisions of section 2.17 of the Prison Act 1952 covering location and accommodation applies to *(a)* Broadmoor and *(b)* other secure hospitals. [38255]

Fiona Mactaggart: The secure hospitals, including the high secure hospitals, are the responsibility of the Secretary of State for Health. The provisions of the National Health Service Act 1977 applies to them and not the Prisons Act 1952.

Probation Service

Mr. Hurd: To ask the Secretary of State for the Home Department how many people have been employed in the probation service in *(a)* Greater London and *(b)* the London borough of Hillingdon in each year since 1997. [40250]

Fiona Mactaggart: Comparative information on staffing numbers is not available for the full period requested. Data collected prior to 1 April 2003 is unreliable and is not directly comparable with the more accurate figures collected since that time. The figures presented below show full-time equivalent (FTE) figures at the close of each quarter from 1 April 2003 to 30 September 2005.

Staffing information is collected by probation area, and is not collected centrally in a format that allows figures for the London borough of Hillingdon to be presented separately. The staffing figures are provided for London probation area only.

London probation area

	FTE in post
30 June 2003	2,170.5
30 September 2003	2,238.0
31 December 2003	2,510.0
31 March 2004	2,538.0
30 June 2004	2,479.2
30 September 2004	2,458.5
31 December 2004	2,398.3
31 March 2005	2,377.3
30 June 2005	2,394.5
30 September 2005	2,394.3

Mr. Amess: To ask the Secretary of State for the Home Department who is the director of *(a)* the probation service, *(b)* the Southend probation service and *(c)* the Essex probation service; what relevant specialist qualifications each holds; and what the career of each has been to date. [37770]

Fiona Mactaggart: The director of probation is Roger Hill. Roger Hill holds a Certificate of Qualification in Social Work (CQSW) and an MBA.

He has served as a probation officer, senior probation officer, assistant chief probation officer and chief officer of two local probation areas.

Mary Archer is the chief officer of Essex probation area. She was appointed in 2003, having been an assistant chief officer in another area. She also holds a Certificate of Qualification in Social Work, and a Chartered Management qualification.

Essex probation area includes Southend.

Rates

Mr. MacNeil: To ask the Secretary of State for the Home Department how much was paid by the Prison Service in rates to each local authority in the UK in 2004–05; and how much was paid *(a)* in each (i) nation and (ii) region of the UK and *(b)* in London. [39161]

Fiona Mactaggart: The rates paid by the Prison Service in England and Wales in 2004–05 is shown in the following table by:

Overall Total

English Regions

Billing Authority

London figures are included under English Regions. Wales is not divided into regions.

South West of England	119,811
West Midlands	925,802
Yorkshire	308,330
Total England	9,418,396
Northern Ireland	15,114
Scotland	389,978
Wales	41,086

England—region	Amount (£)
Other payments with no regional classification	2,620,921
Total Rates	12,485,495
(b) London	
London Total	5,951,272

Rental Costs

Mr. MacNeil: To ask the Secretary of State for the Home Department how much was paid by the Immigration and Nationality Service in rent for properties *(a)* in total, *(b)* in each (i) region and (ii) nation of the UK and *(c)* in London in 2004–05. [39162]

Mr. McNulty: The information is as follows.

(a) In total

The total amount paid by the Immigration and Nationality Service in rent for properties was £34,666,400 broken down as follows:

England—region	Amount (£)
(b) (i) region (ii) nation	
East Midlands	326,880
East of England	386,105
London	24,022,220
North East of England	62,384
North West	2,362,629
South East	2,585,349
South West	579,351
West Midlands	1,246,578
Yorkshire	2,154,639
Total England	33,726,135
Northern Ireland	51,008
Scotland	803,595
Wales	85,662
Total	34,666,400
(c) in London	
London	24,922,220

Stewart Hosie: To ask the Secretary of State for the Home Department how much was paid in rent for properties by the *(a)* Forensic Science Service, *(b)* Criminal Records Bureau and *(c)* UK Passport Service in 2004–05; and how much was paid in (i) each (A) region and (B) nation of the UK and (ii) London. [39164]

Mr. Charles Clarke: Rental payments made by Forensic Science Service, Criminal Records Bureau and UK Passport Service during financial year 2004–05 are given in the following table:

£

	Forensic science service	Criminal records bureau	UK passport service
(A) region			
Scotland	—	—	444,792
Wales	—	—	307,578
Northern Ireland	—	—	163,450
North West	—	613,017	803,987
North East	26,100	—	1,048,986
Yorkshire and the Humber	—	—	—
East Midlands	—	—	—
West Midlands	1,688,700	—	—
East of England	—	—	687,388
South East	—	—	—
South West	—	—	—
London	2,050,000	—	2,985,000
Total paid	3,764,800	613,017	6,441,181
(B) nation			
England	3,764,800	613,017	5,525,361
Scotland	—	—	444,792
Wales	—	—	307,578
Northern Ireland	—	—	163,450
(ii) London	2,050,000	—	2,985,000

The FSS provide services to England and Wales, CRB to England, Wales and Northern Ireland, and UKPS provides services to the whole of the United Kingdom.

Pete Wishart: To ask the Secretary of State for the Home Department how much was paid by the Prisons Service in rent for properties in 2004–05; and how much was paid in *(a)* each (i) region and (ii) nation of the UK and *(b)* London. [39168]

Fiona Mactaggart: Rent paid by the public sector Prison Service in England and Wales on properties in 2004–05 was as follows:

	Amount (£)
West Midlands region	68,000
East Midlands region	615,000
East Anglia region	168,000
Northern region	78,000
South East region	38,000
North West region	563,000
South West region	1,408,000
Yorkshire and Humberside	368,000
London	651,000
Total England	3,957,000

The Prison Service does not pay rent on its London headquarters buildings, as these form part of the Home Office estate. Rent paid to other Government Departments has been excluded. Data for the South West region includes rent paid for the mooring of the floating facility Weare. The Prison Service does not rent property in Wales. Information about properties in Scotland and Northern Ireland may be obtained from the Scottish Executive and Northern Ireland Office respectively.

Rural Police Stations

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what percentage of rural police stations in England are permanently manned. [39735]

Hazel Blears: This information is not held centrally and could be obtained only at disproportionate cost.

Serious Organised Crime Agency

Mr. Gauke: To ask the Secretary of State for the Home Department what role the Serious and Organised Crime Agency plays in countering *(a)* terrorism and *(b)* domestic extremism. [40554]

Paul Goggins: The Serious Organised Crime Agency (SOCA) will have the function of preventing and detecting serious organised crime and contributing to the reduction of such crime and of the harm it causes.

Its main priorities will be those serious organised crime threats identified by the UK threat assessment, which are trafficking in Class A drugs, organised illegal immigration, fraud, money laundering, criminal use of firearms and e-crime. SOCA will not have a direct role in countering terrorism and domestic extremism, although it may provide support to those agencies which do have responsibility for these areas.

Mr. Gauke: To ask the Secretary of State for the Home Department what recent assessment he has made of the performance of the Serious and Organised Crime Agency. [40559]

Paul Goggins: The Serious Organised Crime Agency (SOCA) will not come into existence until 1 April 2006. The Serious Organised Crime and Police Act 2005 requires SOCA to produce an Annual Plan and an Annual Report.

Sex Abuse

Alison Seabeck: To ask the Secretary of State for the Home Department what discussions his Department *(a)* has had and *(b)* plans to have with (i) voluntary organisations and (ii) other departments on raising awareness in school age children of how to report incidents of sexual abuse. [38563]

Paul Goggins: As part of the stocktake on the Sexual Offences Act 2003, my officials have contacted a number of organisations and sought their views on the operation of the Act. Officials also hosted a number of meetings with representatives from the police, the Crown Prosecution Service and non-governmental organisations (NGO) representing people with learning difficulties and adult victims of sexual assault. The need to increase the reporting of offending was raised during these discussions. The specific issue of increasing reporting by child victims of sexual abuse has been raised during the stocktake and is something my officials will take forward with child protection NGOs and other Government Departments in the spring of this year.

Skilled Migrants

Mr. Clappison: To ask the Secretary of State for the Home Department what projections he has made of the number of immigrants likely to be admitted to the United Kingdom each year under the terms of his tier 2 (skilled migrants) category. [36944]

Mr. McNulty: The intention in designing the new system to ensure that those who can contribute most to the UK are selected for entry and that the country takes in the people our economy needs at any one time.

In a flexible and dynamic labour market like the UK it is impractical to forecast the number of people the UK will need. We want to design a system which is flexible enough to respond to the needs of the labour market and any changes to it. Tier two is an employer-led route, so the numbers of migrants who enter under that route will depend on how many skilled migrants employers want to sponsor, subject to ensuring where appropriate that the domestic UK and EU labour force is not displaced by migrant labour.

Firm proposals and a plan for implementation of the new system will be published later this year in response to the consultation exercise which ran from 19 July to 7 November.

Terrorism

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many people have been arrested under anti-terrorist legislation in each of the last 24 months; and for what period each was held before *(a)* being charged and *(b)* being released without charge. [40599]

Hazel Blears: Statistics on arrests and charges under the Terrorism Act 2000, from 11 September 2001 until 30 September 2005 are available on the Home Office website at www.homeoffice.gov.uk/security/terrorism-and-the-law/terrorism-act/. These are compiled from recent police records and are therefore subject to change as cases go through the system.

The statistics you have requested are not available in the format you have requested. The following table provides information on those held for a period in excess of seven days for 2004 and 2005. The maximum period of detention pre-charge following an arrest under the Terrorism Act 2000 was extended to 14 days with effect from 20 January 2004. Between that date and 4 September 2005, 357 people were arrested of whom 36 have been held for in excess of seven days. The breakdown of these cases is detailed in the following table.

Period	*Number held for this period*	*Charged*	*Released without charge*
2004			
7–8 days	3	1	2
8–9 days	0	—	—
9–10 days	11	6	5
10–11 days	1	0	1
11–12 days	0	—	—
12–13 days	0	—	—
13–14 days	9	9	0
2005			
7–8 days	1	1	0
8–9 days	0	—	—
9–10 days	5	4	1
10–11 days	1	1	0
11–12 days	1	1	0
12–13 days	2	1	1
13–14 days	2	2	0

Mr. Rob Wilson: To ask the Secretary of State for the Home Department how many people have been held under anti-terrorism legislation since 2001; and under which Act each was held. [40651]

Hazel Blears: Detention under anti-terrorism legislation is provided for following an arrest under section 41 of the Terrorism Act 2000. The latest figures for

arrests are published on the Home Office website: www.homeoffice.gov.uk/security/terrorism-and-the-law/terrorism-act.

These statistics have been supplied by the police. They are compiled from recent police records and are therefore subject to adjustment as cases go through the system. These statistics reflect the operation of specific terrorism legislation. It is important to remember that it is, and will continue to be the case, that terrorist suspects are dealt with by the most appropriate legal means. This could be the legislation for murder, grievous bodily harm or the use of firearms or explosives which are all outside the scope of the Terrorism Act.

In addition 17 people were certified under Part four of the Anti-Terrorism, Crime and Security Act (ATCSA) 2001. Of these, 16 were certified and detained, and one certified but detained under other powers. Sections 21–32 of the ATCSA 2001 were repealed on 11 March 2005 when the Prevention of Terrorism Act 2005 came into force.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what the average length of interrogation has been for suspects questioned under anti-terrorism legislation in each of the last 24 months. [40593]

Hazel Blears: The maximum period of detention pre-charge following an arrest under the Terrorism Act 2000 was extended to 14 days with effect from 20 January 2004. Between that date and 4 September 2005, 357 people were arrested of whom 36 have been held for in excess of seven days. The breakdown of these cases is detailed in the following table. Details of the length of time questioning took place for each of these cases is not collated centrally.

Period	*Number held for this period*	*Charged*	*Released without charge*
2004			
7–8 days	3	1	2
8–9 days	0	—	—
9–10 days	11	6	5
10–11 days	1	0	1
11–12 days	0	—	—
12–13 days	0	—	—
13–14 days	9	9	0
2005			
7–8 days	1	1	0
8–9 days	0	—	—
9–10 days	5	4	1
10–11 days	1	1	0
11–12 days	1	1	0
12–13 days	2	1	1
13–14 days	2	2	0

Torture

John Bercow: To ask the Secretary of State for the Home Department how many terrorist suspects have been deported to countries where they are at risk of torture. [39753]

Mr. McNulty: None. If we believe there is a real risk that a person would face torture or other inhuman or degrading treatment if deported, to remove them would be contrary to our obligations under Article three of the European Convention on Human Rights (ECHR).

The purpose of the Memoranda of Understanding we have negotiated, or are seeking to negotiate, is, where appropriate, to enable us to satisfy ourselves that a particular removal is consistent with our obligations under the ECHR.

Traffic Offences

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) found guilty in (A) Essex and (B) England and Wales an offence under (1) sections 22 and 22A, (2) section 27, (3) sections 28 and 29, (4) section 30 and (5) section 41A of the Road Traffic Act 1988 in 2004. [39746]

Hazel Blears: Information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the following table and gives the number of males and females proceeded against at the magistrates courts and found guilty at all courts of sections 22, 22A, 27, 28, 29, 30 and 41A Road Traffic Act 1988 in Essex and England and Wales, 2004.

Number of males and females proceeded against at the magistrates courts and found guilty at all courts of various offences under the Road Traffic Act 1988 in Essex and England and Wales, 2004

[1] These data are on the principal offence basis

UK Citizenship

Mr. Quentin Davies: To ask the Secretary of State for the Home Department how many people with convictions for indictable offences were granted UK citizenship in the last year for which figures are available. [42185]

Mr. McNulty: This information is not separately recorded and could be obtained only at disproportionate cost.

Under-age Drinking

Mr. Hurd: To ask the Secretary of State for the Home Department how many prosecutions have taken place for under-age drinking in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon in each year since 1990. [39955]

Hazel Blears: Under-age drinking is covered by a number of offences on the court proceedings database held by the Office for Criminal Justice Reform. Information on these offences is provided in the following table, which gives the number of defendants aged 10–17 years who were proceeded against at Hillingdon petty sessional area , for selected offences related to alcohol. It is not possible to identify those prosecutions for the Ruislip-Northwood constituency as the data is not collected at this level of detail.

Statistics for 2005 will be available in the autumn.

Number of defendants aged 10–17 years proceeded against at Hillingdon petty sessional area for offences relating to under-aged drinking, 1990 to 2004[1]

	Being found drunk in a highway or other public place[2]	*Being guilty while drunk of disorderly behaviour*[3]	*Drunk in, or when entering a designated sports event*[4]	*Person under 18 buying or attempting to buy or consuming intoxicating liquor in licensed premises*[5]

Under-age Tobacco Sales

Mr. Lansley: To ask the Secretary of State for the Home Department how many prosecutions for under-age tobacco sales there have been in each year since 1997; and how many convictions resulted from these prosecutions. [39342]

Fiona Mactaggart: Information taken from the court proceedings database held by the Office for Criminal Justice Reform on the number of prosecutions and convictions for the sale of tobacco etc. to persons under 16 under the Children and Young Persons Act 1933 S.7 as amended by Children and Young Persons (Protection from Tobacco) Act 1991 S.1, England and Wales 1997–2004 is provided in the following table.

Court statistics for 2005 will be available autumn 2006.

Number of defendants proceeded against at the magistrates' courts and found guilty for the sale of tobacco to persons under-age, England and Wales, 1997–2004[1]

Offence: Sale of tobacco etc. to persons under 16
Statute: Children and Young Persons Act 1933 S.7 as amended by Children and Young Persons (Protection from Tobacco) Act 1991 S.1

	Proceeded against	*Found guilty*
1997	130	112
1998	166	129
1999	127	102
2000	161	134
2001	117	90
2002	99	78
2003	117	93
2004	73	57

[1] These data are on the principal offence basis.

Visas

Damian Green: To ask the Secretary of State for the Home Department what information has been passed to the UK Government under the Schengen visa information system about the number of Schengen visas that have been *(a)* refused and *(b)* revoked. [40357]

Andy Burnham: The visa information system (VIS) will be a database that assists in the issuing of Schengen short stay visas. It is unlikely to be operational until 2007 and therefore no information from the VIS has been passed to the UK to date.

The UK, as do other member states, has access to information on Schengen visa applications including the number of visas issued and refused by member states.

Work Permits

Mr. Fallon: To ask the Secretary of State for the Home Department how many and what percentage of work permit applications were refused in the last 12 months for which figures are available. [40236]

Mr. McNulty: The number of applications that were refused in the last 12 months (January 2005 to December 2005) was 20,856 which was 12 per cent. of the total work permit applications decided.

Mr. Fallon: To ask the Secretary of State for the Home Department how many applications for work permits that were originally refused were subsequently granted after being resubmitted through a recognised agency in the last 12 months. [40237]

Mr. McNulty: Work permit applications can be submitted by an employer or their representative. The only information available relates to applications granted following a request for review of an initial refusal. There were 475 such applications granted on review in the last 12 months (January 2005 to December 2005).

Mr. Spellar: To ask the Secretary of State for the Home Department what steps his Department is taking to prevent abuse of the work permits scheme. [40279]

Mr. McNulty: Work Permits (UK) caseworkers carry out a risk assessment when the application is submitted. They can request further checks of an employer before a work permit is issued. Further checks, either random or intelligence-driven, can follow the issue of the work permit. These checks can result in revocation of permits, refusal of existing permit applications by the employers in question and the curtailment of leave of those who

have permits with the company. Where they believe that a work permit is forged or has been obtained using deception, Immigration Officers and Entry Clearance Officers can refuse entry.

On 27 April 2004, the Prime Minister announced a top-to-bottom review of managed migration routes, to assess the extent to which they were open to abuse or otherwise open to improvement. This has included an ongoing review of the work permit arrangements.

The Government have recently undertaken a consultation exercise on proposals to replace existing migration routes for work and study, including the work permit system, with a new points-based system. One of the objectives in introducing the new system is to ensure that it is robust against abuse. The Government's response to the consultation document will be published in due course.

Worker Registration Scheme

Damian Green: To ask the Secretary of State for the Home Department what estimate he has made of the number of workers from the EU accession states who have not registered under the Worker Registrations Scheme and are working in the UK. [40360]

Mr. McNulty: Responsibility for registering on the Worker Registration Scheme (WRS) lies with the individual worker from the EU Accession state, although their employer also has some responsibility to ensure that they have registered.

As nationals of the European Economic Area (EEA), Accession state workers are not subject to immigration control on arrival in the UK and do not therefore require a visa or entry clearance. As is the case with all EEA nationals they have a right of free movement and residence dependent on their activity in the United Kingdom. Registration on the WRS is not a condition for entry, but a requirement for nationals from Poland, Hungary, Czech Republic, Slovakia, Slovenia, Estonia, Lithuania and Latvia to be lawfully employed in a job if it continues for more than 30 days. There are therefore no figures or estimates available as to the numbers of accession nationals who have entered the United Kingdom and are working without registration.

Yarl's Wood Detention Centre

Alistair Burt: To ask the Secretary of State for the Home Department how many detainees at the Yarl's Wood Detention Centre on 1 January had been detained for *(a)* less than one month, *(b)* between one and three months, *(c)* between three and six months, *(d)* between six and 12 months and *(e)* over 12 months. [41483]

Mr. McNulty: The Home Office publishes a quarterly snapshot of people detained under Immigration Act powers on the last Saturday of each quarter. The latest published information pertains to people detained as at the 24 September 2005.

On 24 September 2005 there were 245 persons recorded as being held in the Immigration Removal Centre at Yarl's Wood. This figure is rounded to the nearest five, in accordance with National Statistics protocols. The following table gives the breakdown of this figure by the length of detention.

Published statistics on immigration and asylum are available on the Home Office's Research Development and Statistics website http://wwwhomeoffice.gov.uk/rds/immigration1.html.

The next quarterly snapshot is for 31 December 2005 and will be published at the end of February 2006.

Persons recorded as being held in the Immigration Service Removal Centre Yarl's Wood, in the United Kingdom solely under Immigration Act powers as at 24 September 2005, by length of detention[1]

Length of detention[2,3]	*Number of individuals*
14 days or less	120
15 to 29 days	45
1 month to less than 2 months	35
2 months to less than 3 months	15
3 months to less than 4 months	15
4 months to less than 6 months	15
6 months to less than 1 year	5
1 year or more	5
Total	245

[1] Figures rounded to the nearest 5; with * = 1 or 2, may not sum due to rounding and exclude persons detained in police cells and those detained under both criminal and immigration powers.

[2] Relates to current period of detention only.

[3] 2 months is defined as 61 days; 4 months is defined as 122 days; 6 months is defined as 182 days.

Young Offenders

Mr. Hurd: To ask the Secretary of State for the Home Department what *(a)* support services and *(b)* training are in place to help children of school age who have been convicted of a crime in (i) Ruislip-Northwood constituency, (ii) the London borough of Hillingdon, (iii) Greater London and (iv) England. [40248]

Fiona Mactaggart: Young people under 18 convicted of an offence throughout England and Wales, will, unless the court deems it unnecessary, receive a disposal which requires an active intervention from the Youth Offending Team. Depending on the young person's circumstances, the intervention will be designed to challenge those attitudes held by the young person which appear to have contributed to their offending behaviour, and incorporate a restorative justice element, where appropriate, either to the victim or the community at large. In addition, all youth offending teams have a target to ensure that 90 per cent. of young persons under their supervision are in full-time appropriate education training or employment by the end of their sentence, recognising the key role that this can play in reducing the risk of re-offending.

Mr. Laws: To ask the Secretary of State for the Home Department how many notifiable offences were committed by young people aged under *(a)* 21, *(b)* 18, *(c)* 16, *(d)* 15, *(e)* 14, *(f)* 13, *(g)* 12, *(h)* 11 and *(i)* 10 years in each year since 1980–81; and if he will make a statement. [41194]

Hazel Blears: The information requested is not collected centrally. It is not possible to identify the age of the offender in the 'notifiable' offences data series.

TREASURY

Alcohol-related Deaths

Mr. Lansley: To ask the Chancellor of the Exchequer how many alcohol-related deaths there have been in each year since 1997, *(a)* in total and *(b)* broken down by (i) sex and (ii) socio-economic group. [41959]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent question asking how many alcohol-related deaths there have been in each year since 1997, in total and broken down by *(a)* sex and *(b)* socio-economic group. (41959)

The latest year for which figures are available is 2004. The table below shows the number of deaths by sex and socio-economic group which were certified as due to alcohol abuse, dependence and poisoning, and diseases directly related to alcohol use from 1997 to 2004.

In 2001, National Statistics Socio-Economic Classification (NS SEC) replaced Social Class based on Occupation (SC) for coding socio-economic status. For this reason, figures for years prior to 2001 are not comparable to figures for subsequent years. Information on the deceased's own occupation is only requested at death registration for those aged between 16 and 74. The table below shows deaths at these ages by Social Class for the years 1997 to 2000 and by NS-SEC for the years 2001 to 2004.

Number of deaths in persons aged between 16 and 74 from alcohol-related causes[1], by (a) sex, and (b) socio-economic classification, England and Wales, 1997 to 2004[2]

	Men				Women

Other[3]	295	374	360	436	781	893	863	898
Total deaths	2,774	2,995	3,127	3,220	1,515	1,626	1,720	1,767

	Men				Women			
NS SEC	*2001*	*2002*	*2003*	*2004*	*2001*	*2002*	*2003*	*2004*
1. Managerial and professional occupations	701	724	798	765	261	213	262	281
2. Intermediate occupations	173	193	219	221	190	185	171	224
3. Small employers and own account workers	380	469	509	478	58	69	60	66
4. Lower supervisory and technical	484	439	502	507	53	60	59	59
5. Semi-routine and routine	1,218	1,156	1,396	1,314	378	376	419	426
Other[4]	477	460	510	563	866	946	968	964
Total deaths	2,774	2,995	3,127	3,220	1,515	1,626	1,720	1,767

[1] For the years 1997–2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes selected to define alcohol-related deaths are listed below:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–2004 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were selected:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.
Deaths were extracted using the original underlying cause of death.
[2] Data are for occurrences of death in each calendar year.
[3] Includes armed forces, inadequately described occupations, full time care/dependent relative, housewife/house husband, full time student, independent means, and sick.
[4] Includes never worked, long-term unemployed and not classified.

Arm's Length Management Organisations

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what assessment has been made of the impact on his targets for the public sector borrowing requirement of the additional funds made available to arm's length management organisations to improve council homes. [41151]

John Healey: Funding of arm's length management organisations is from within the department expenditure limits set for the Office of the Deputy Prime Minister and does not represent additional expenditure. As a result there is no impact on public sector net borrowing.

Common Agricultural Policy

Mr. Drew: To ask the Chancellor of the Exchequer what the planned level of expenditure on the common agricultural policy is for each of the next 10 years; and how much and what percentage each member state will contribute of the total. [41458]

John Healey: The EU budget agreed by the European Council on 17 December for the period 2007–13 will be €863 billion (in 2004 prices) on a commitments basis. The following amounts will be allocated to agriculture, including rural development (Heading 2).

	€ billion, 2004 prices
2007	55.0
2008	54.3
2009	53.7
2010	53.0
2011	52.4
2012	51.8
2013	51.1

Equivalent expenditure in 2006 is estimated at €55.5 billion in 2004 prices. Member states do not contribute to individual programmes within the EC budget. The UK's post abatement financing share for the EC budget as a whole was estimated at 11.97 per cent. in 2005.

Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Paymaster General will respond to the letter from the hon. Member for West Worcestershire of 31 October 2005, PO reference: 4/23543/2005. [41975]

Dawn Primarolo: The Paymaster General has already done so.

Council Tax

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of council tax as a percentage of gross income in each *(a)* decile and *(b)* quintile (i) before and (ii) after council tax benefit. [41574]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to asking what the latest estimate is of council tax as a percentage of gross income in each *(a)* decile and *(b)* quintile (i) before and (ii) after council tax benefit. (41574)

Estimates for taxes and benefits are based on the Office for National Statistics analyses 'The effects of taxes and benefits on household income' and the latest analysis for 2003–04 was published on the National Statistics website on 7th July 2005 at http://www.statistics.gov.uk/taxesbenefits. The analysis includes measures of income inequality for households in the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering approximately 7,000 households in the UK. The analysis for 2004–05 is due to be published on the National Statistics website in April 2006.

The following tables show estimates of council tax as a percentage of gross income for each income decile and quintile where households are ranked by equivalised disposable income. Council tax figures are shown both before and after the deduction of council tax benefit. Each table also shows the equivalised disposable income boundaries which separate deciles and quintiles.

Council tax as a percentage of gross income by equivalised disposable income decile, 2003–04 Great Britain

Departmental Equipment

Mrs. Villiers: To ask the Chancellor of the Exchequer how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41272]

John Healey: The number of laptops bought in 2005 was 115 and their cost was £108,350. Details for 1997–2004 can be found in the answer I gave to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 14 June 2005, *Official Report*, column 339W.

Figures for mobile phones are not available, as current Treasury records do not separate mobiles from other telecoms costs.

Departmental Estate

Mr. Amess: To ask the Chancellor of the Exchequer what *(a)* land and *(b)* property his Department owns in the Southend West constituency. [41755]

John Healey: The Treasury owns no land or property in the Southend West constituency.

Departmental Expenditure

Mrs. Villiers: To ask the Chancellor of the Exchequer how much was spent by his Department on refreshments in each year since 1997. [41257]

John Healey: I refer to the answers I gave to my right hon. Friend the Member for Warley (Mr. Spellar) on 9 January 2006, *Official Report*, column 302W, and to the hon. Member for Tatton (Mr. Osborne) on 24 February 2005, *Official Report*, column 761W.

Mr. Francois: To ask the Chancellor of the Exchequer how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41579]

John Healey: Since financial year 1999–2000, departments' annual resource accounts, which are available from the Library of the House, have disclosed the staff costs of civil servants. The Treasury's resource accounts for the years 2001–02 onwards are also available at:

http://www.hm-treasury.gov.uk/about/resourceaccounts/resourceaccounts_index.cfm.

Departmental IT Systems

Mrs. Villiers: To ask the Chancellor of the Exchequer how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41313]

John Healey: The information requested is set out as follows.

Reference	*Delivery (past and imminent)*	*System/purpose*	*Project cost £000*	*Running costs £000 × years*	*Overrun (£000 and months) Cost*	*Time*
1	Pre-1997	PANAGON—Document management system	—	50x9	—	—

15	2002	Improvements to the capacity, reliability, performance and ease-of-use of secure remote working facilities in HMT.	500	—	—	—
16	2005	COINS—Integration of three Government financial data systems to form a Single Data System (SDS). [Scope increased significantly and timetable adjusted].	4,560	104	2,160	24

Reference	Delivery (past and imminent)	System/purpose	Project cost £000	Running costs £000 × years	Overrun (£000 and months) Cost	Time
17	2005	JIGSAW—Enhancing Electronic Document and Records Management system (EDRMS). [Re-scoped and timetable lengthened].	2,166	86	366	6
18	2005	Replacement of the computer system 'TACSYS' which supports the operational accounting and cashflow forecasting work of the Treasury Exchequer Funds and Accounts team 'TRiP' [October 2002 budgeted at £1.1 million, soon thereafter, the project was stopped because of the opportunity to implement a cheaper solution and provide an opportunity to review the complex requirements.]	1,100	100x7	280	24

Notes:
1. Maintenance is quoted at current rates.
2. The costs shown for each of the IT systems cover externally-provided hardware, software and implementation costs and may, in addition, cover other costs such as training where this will be part of the initial contract to be placed with the external contractor. The costs of in-house development are not included.
3. IT systems with estimated or actual costs of over £100,000 or with running costs of over £20,000 p.a. are included in the table, as information on smaller systems has not been centrally held throughout this period, and so complete information is not readily available.

Departmental Publications

Mr. Amess: To ask the Chancellor of the Exchequer if he will make it his policy to publish, as an annex to his annual report, a list of all publications by his Department in the preceding year; and if he will make a statement. [41731]

John Healey: There are no plans to publish a list of publications in the departmental report. However, all major Treasury publications can be found on the websites of the Treasury Group (website addresses:

www.hm-treasury.gov.uk
www.dmo.gov.uk
www.ogc.gov.uk)

Diabetes

Mr. Lansley: To ask the Chancellor of the Exchequer how many deaths there have been from diabetes in each year since 1997. [42020]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician I have been asked to reply to your recent question asking how many deaths there have been from diabetes in each year since 1997. (42020)

The latest year for which data are available is 2004. Figures for deaths where diabetes was the underlying cause of death and where diabetes was mentioned on the death certificate as a contributory factor are shown in the table below for each year from 1997 to 2004.

Number of deaths from diabetes[1], England and Wales, 1997 to 2004[2]

Calendar year	Underlying cause	Mentioned on death certificate
1997	5,890	23,832
1998	5,938	24,116
1999	5,963	24,338
2000	5,773	24,193
2001	[3]6,119	25,002
2002	[3]6,192	25,929
2003	[3]6,316	27,027
2004	[3]5,837	26,638

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 onwards. The codes used are listed below:
Diabetes mellitus—ICD-9 250; ICD-10 E10-E14.
[2] Figures are based on deaths occurring in each calendar year.
[3] The introduction of ICD-10 for coding cause of death in 2001 means that data for diabetes as the underlying cause of death are not completely comparable with data for years before this date. The data should therefore be interpreted with caution.

Earnings

Mr. Laws: To ask the Chancellor of the Exchequer what proportion of the UK work force earned the *(a)* minimum wage, *(b)* less than £5.50 per hour, *(c)* less than £5.75 per hour, *(d)* less than £6.00 per hour, *(e)* less than £6.50 per hour, *(f)* less than £7.00 per hour and *(g)* less than £10 per hour in each year since 1997–98, broken down by region. [41290]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to ask what proportion of the UK workforce earned the *(a)* minimum wage, *(b)* less than £5.50 per hour *(c)* less than £5.75 per hour, *(d)* less than £6.00 per hour, *(e)* less than £6.50 per hour, *(f)* less than £7.00 per hour and *(g)* less than £10 per hour in each year since 1997–1998, broken down by region. (41290)

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I am placing a table in the House of Commons Library showing the proportion of the UK workforce with Average Gross Hourly Earnings by place of work from 1998 to 2005 below the stated hourly rates. Estimates of the proportion of the UK workforce earning at the Minimum Wage are not calculated, however proportions earning below this level have been given. The Minimum Wage was introduced from October 1998 so figures prior to April 1999 are not available.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Electoral Registration

Mr. Amess: To ask the Chancellor of the Exchequer what percentage of the population is registered to vote in each ward of each constituency in *(a)* Essex, *(b)* Hertfordshire and *(c)* Greater London in descending order of numbers registered for each constituency. [42330]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the population registered to vote in each ward of each constituency in *(a)* Essex, *(b)* Hertfordshire and *(c)* Greater London in descending order of numbers registered for each constituency. (42330)

The attached Table 1 gives a comparison between the number of registered electors and the estimated population for wards in each parliamentary constituency in Essex, Hertfordshire and Greater London. Ward figures for the Unitary Authority areas formerly in Essex (Southend-on-Sea and Thurrock) and Hertfordshire (Luton) are included. Because of the length of the table it has been provided in electronic format and will be placed in the House of Commons Library.

It should be borne in mind that the percentage of the *resident population* who are registered to vote does not provide a reliable estimate of the registration rate of the eligible population. This is mainly because there are definitional differences between "usually resident" and eligibility to vote and therefore the estimated resident population aged 18 and over is not the same as the number of people eligible to vote. For example, the resident population includes all those who usually live in an area irrespective of nationality whereas the parliamentary electorate excludes foreign nationals (but Commonwealth and Irish citizens are included) and may include some overseas electors who do not currently live in the area. Further, there is inevitably some double counting of the registered electorate and this can occur for a number of reasons. People who have more than one address, including students, may register in more than one place. Electoral registration officers may vary in how quickly they remove people from the registers after they have moved away from an area or after they have died.

The closest available geography to current electoral wards, for which population estimates are available, is Census Area Statistics (CAS) wards. This geography was created for outputs from the 2001 Census and is based mainly on 2003 electoral wards. The electorate counts are on current ward boundaries and it has been necessary to convert these to the CAS ward geography.

The latest population data available at ward level are for mid-2002, published in April 2005. The ward electorate counts are for December 2002 parliamentary electors, including attainers. The parliamentary electorate has been used rather than the local government electorate even though the latter is definitionally closer to the resident population because the local government electorate is not available at ward level. No adjustment has been made to reflect the difference between these two time points. There are a number of wards that are split by parliamentary constituency i.e. they fall within two or more parliamentary constituencies. These are shown by an asterisk * alongside their ward name, and appear under both constituencies. Electorate and population figures for the whole ward are shown. Some wards will therefore be double counted. It is not possible to split the data for these wards.

The population data are *estimates* and as such are subject to a margin of confidence. This margin of confidence is proportionately larger for ward level estimates than for local authority level estimates. The CAS ward level population estimates have been published with the status of "experimental statistics". Therefore, the estimates, and figures derived from them, should be treated with some care.

There are a relatively small number of wards (28) where the electorate counts are more than 5 per cent. greater than the population estimate. These cases are attributable to definitional differences between the estimates and electoral counts, the margin of confidence in the ward estimates, the accuracy of the electoral registers and limitations in the methodology used to convert electoral counts to the CAS ward geography.

Electors (London)

Mr. Hands: To ask the Chancellor of the Exchequer (1) how many electors of all categories there are in each London borough according to the electoral registers now in force; and how many there were in the previous year; [41606]

(2) what proportion of registered electors are *(a)* male and *(b)* female in each London borough according to the electoral registers now in force. [41608]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Questions regarding (1) the number of electors in each London borough according to the electoral registers now in force, and how many there were in the previous year and (2) what proportion of these currently registered electors are *(a)* male and *(b)* female (41606 & 41608).

The latest available electoral counts are for 1 December 2004. Therefore, the attached table provides data for each London borough (and the City of London) for 1 December 2004 and 1 December 2003. Figures are given for both the parliamentary electorate and the local/European electorate. Electoral counts for 1 December 2005 will be published on 23 February 2006 and will be available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=319&Pos=&ColRank=1&Rank=272

Data on sex is not collected on electoral returns. Therefore, I am unable to provide what proportion of registered electors are male and female.

Electoral registers, 1 December 2003 and 2004, Local Government and Parliamentary Electors

	Local Government Electors[1]		*Parliamentary Electors*[2]

Office for National Statistics

Employment (Beverley and Holderness)

Mr. Graham Stuart: To ask the Chancellor of the Exchequer (1) what proportion of all those in employment were employed by the *(a)* public and *(b)* private sectors in Beverley and Holderness in each year since 1996; [41367]

(2) what the *(a)* actual and *(b)* percentage annual changes in job levels for the (i) private and (ii) public sectors were in Beverley and Holderness in each of the last five calendar years. [41368]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about private and public sector employment. (41367 & 41368)

The Office for National Statistics (ONS) compiles statistics for the United Kingdom of public sector employment from a quarterly survey of public sector organisations. However, estimates at local area level are not available.

Information at local area level is available from the annual local area Labour Force Survey (LFS) of individual people in households. However, in this source, the categorization of employment in the public or private sector depends upon the responses from the individuals interviewed. As reported by ONS in October 2005 in the publication "Public Sector Employment Trends", some individuals tend to misreport private sector employment as being in the public sector hence leading to overestimates of the share of public sector employment.

With this reservation about the data quality, the attached table shows the proportions of public and private sector employment in the Beverley and Holderness constituency shown by the annual local area LFS for the 12 month periods ending February 1997 to February 2004.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Persons in employment resident in the Beverley and Holderness constituency by private-public sector split[1]

12 months ending	*Proportions (Percentage)*		*Levels (Thousand)*		*Changes in private sector*		*Changes in public sector*	
	Private sector	*Public sector*	*Private sector*	*Public sector*	*Thousand*	*Percentage*[2]	*Thousand*	*Percentage*[2]
February 1997	[3]	[3]	[3]	[3]	[3]	[3]	[3]	[3]
February 1998	[3]	[3]	[3]	[3]	[3]	[3]	[3]	[3]
February 1999	72	28	24	9	[3]	[3]	[3]	[3]
February 2000	75	25	26	9	2	7	-1	-8
February 2001	73	27	26	10	0	0	1	12
February 2002	74	26	28	10	2	9	0	2
February 2003	73	27	30	11	2	7	1	14
February 2004	73	27	31	12	1	2	0	3

[1] Public/private sector split based on responses from individuals responding to the annual local area Labour Force Survey generally overestimate public sector employment.
[2] Percentage changes are based on exact levels for each year and then rounded. They will not correspond to percentage changes based on rounded levels
[3] Not available.
Source:
Annual local area Labour Force Survey.

Environmental Projects

Gregory Barker: To ask the Chancellor of the Exchequer how much and what percentage of environmental taxes went to funding environmental projects in 2004–05. [41865]

John Healey: Environmental taxes are not directly hypothecated to environmental spending. Consistent with the principle of shifting the burden of tax from 'goods' to 'bads', environmental taxes such as the Climate Change Levy and Aggregates Levy were introduced with corresponding reductions in employers' national insurance contributions.

External Consultants

Mrs. Villiers: To ask the Chancellor of the Exchequer how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41209]

John Healey: The Treasury made payments totalling £99,561 in the calendar year 2005 to four consultants who are known to be former employees of the department. A central record is not maintained of consultants who are former employees, so this is not necessarily a comprehensive total.

Family Size

Mr. Laws: To ask the Chancellor of the Exchequer how many families there are with *(a)* one child, *(b)* two children, *(c)* three children, *(d)* four children, *(e)* five children, *(f)* six to 10 children and *(g)* more than 10 children. [41392]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many UK families there are with (a) one child, (b) two children, (c) three children, (d) four children, (e) five children, (f) six to 10 children and (g) more than 10 children. (41392)

Estimates of the numbers of families in the United Kingdom in 2004 by the number of dependent children in the family are shown in the table below. These estimates are based on a sample survey and it is not possible using this source to provide figures for six to ten and more than ten children in a family due to the insufficiently large sample size of these categories.

Number of families by family size (counting dependent children[1] *only), 2004, United Kingdom*

Thousands

Number of dependent children[1]	*Number of families*
1	3,211
2	3,009
3	865
4	210
5	44
6 or more	17
Total	7,356

Source:
2004 Labour Force Survey (United Kingdom)
[1] Dependent children are those aged under 16 or aged 16 to 18 who are never-married and in full-time education.

Gross Domestic Product

Mr. Crabb: To ask the Chancellor of the Exchequer what proportion of the UK gross domestic product was produced in *(a)* each English region, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in each year since 1997. [42407]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician I have been asked to reply to your question on the percentage of UK Gross Domestic Product (GDP) produced in the English regions, Wales, Scotland and Northern Ireland since 1997. (42407)

The attached table shows the proportion of Gross Value Added (GVA) for each region and country of the UK. The estimates are derived from the levels of regional GVA, which were published by the ONS in December 2005 and which are available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Productasp?vlnk = 7359

Gross Value Added is equal to Gross Domestic Product at market prices adjusted for taxes less subsidies on products. The figures in the table exclude that part of UK economic activity which cannot be allocated to a region

Regional gross value added as a percentage of UK total

Region	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
North East	4	3	3	3	3	3	3	3
North West	10	10	10	10	10	10	10	10
Yorkshire and the Humber	8	8	7	7	7	7	7	7
East Midlands	7	7	6	6	6	6	6	7
West Midlands	8	8	8	8	8	8	8	8
East	9	9	9	9	9	9	9	9
London	18	18	19	19	19	19	19	18
South East	14	14	15	15	15	15	15	15
South West	8	8	8	8	8	8	8	8
England	85	85	86	86	86	86	86	86
Wales	4	4	4	4	4	4	4	4
Scotland	9	8	8	8	8	8	8	8
Northern Ireland	2	2	2	2	2	2	2	2

Illegal Fuel Smuggling

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how many Revenue and Customs staff in Northern Ireland have been involved during 2005 in operations aimed at disrupting the smuggling of illegal fuel into the UK. [42132]

John Healey: In 2004–05 159 members of staff in Northern Ireland were involved in operations aimed at disrupting the smuggling of illegal fuel into the UK. These officers were deployed across Customs and Excise including Intelligence, Criminal Investigation, Assurance and Detection activity.

Landfill

Mr. Hurd: To ask the Chancellor of the Exchequer how much revenue has been generated from *(a)* the landfill tax and *(b)* landfill sites within the London borough of Hillingdon in each year since 1997. [41039]

John Healey: Information on revenue from landfill tax can be found in the HM Revenue and Customs 'Landfill Tax Bulletin', which can be found on the HM Revenue and Customs website: http://www.uktradeinfo.co.uk/index.cfm?task=landfill.

A breakdown of landfill tax by borough is not available.

Leaked Letter

Mr. Laws: To ask the Chancellor of the Exchequer what evidence the Prime Minister's Office has given to his Department's inquiry into the leaking of a letter from the Chancellor of the Exchequer to Lord Turner in November 2005; and if he will make a statement. [41344]

John Healey: I refer the hon. Gentleman to the answer I gave him on 10 January 2006, *Official Report*, column 543W.

Lone Parents

Mr. Laws: To ask the Chancellor of the Exchequer (1) what proportion of lone parents were in employment *(a)* in total, *(b)* where the youngest child is under 11 years and *(c)* where the youngest child is between 11 and 18 years in the last period for which figures are available; and if he will make a statement; [41220]

(2) what assessment he has made of the employment rate of lone parent families in the UK; and if he will make a statement. [41293]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Questions about lone parents in employment. (41293, 41220)

The attached table gives the levels and proportion of the number of lone parents who were in employment *(a)* in total, *(b)* where the youngest child is under 11 years and *(c)* between 11 and 18 years, also the lone parent employment rate, for the three months ending May 2005.

Estimates are taken from the Office for National Statistics's Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Number of lone parents[1] with dependent children in employment—United Kingdom—three months ending May 2005

	Number of lone parents (thousand)		
Total	*Total*	*In employment*	*Lone parent employment rate (percentage)[2,3]*
Total	1,881	1,043	55.8
of which:			
Age of youngest child under 11 years	1,192	571	48.2
Age of youngest child between11 and 18 years	689	472	69.0

[1] Refer to people who are not married or cohabiting and have dependent children, who are defined as 0 to 15 year olds, or 16 to 18 year olds in full-time education
[2] Includes lone parents aged under 16 who have been excluded from the employment rates.
[3] People in employment as a percentage of all persons.
Source:
ONS—Labour Force Survey

Lung Cancer (Doncaster and Barnsley)

Jeff Ennis: To ask the Chancellor of the Exchequer how many people in *(a)* Doncaster and *(b)* Barnsley were diagnosed with lung cancer in each of the last 10 years. [42117]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning how many people in *(a)* Doncaster and *(b)* Barnsley were diagnosed with lung cancer in each of the last 10 years. (42117)

The most recent available information on registration of newly diagnosed cases (incidence) are for the year 2003. Numbers of newly diagnosed cases registered in the county districts of Doncaster and Barnsley, are given in the table below.

Number of newly diagnosed cases of lung[1] cancer registered in the county districts of Doncaster and Barnsley, 1994–2003

	Doncaster	Barnsley
1994	241	198
1995	268	190
1996	235	184
1997	232	196
1998	242	208
1999	237	172
2000	260	204
2001	237	181
2002	271	169
2003	258	182

[1] For 1994, International Classification of Diseases, Ninth Revision (ICD-9) code 162; from 1995 to 2003, International Classification of Diseases, Tenth Revision (ICD-10) codes C33-C34.

Office for National Statistics

New Jobs (Wales)

Mr. Crabb: To ask the Chancellor of the Exchequer how many new jobs have been created in Wales in each year since 1997. [42389]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about jobs in Wales. (42389)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in numbers of jobs from year to year.

The attached table shows the information requested, relating to net change in jobs in Wales from June 1997 to June 2005; the latest period for which information is available.

These estimates are from the Workforce Jobs series and, as with any sample survey, are subject to a margin of uncertainty.

Net change in Workforce Jobs in Wales: June 1997 to June 2004; not seasonally adjusted

	Number of Workforce Jobs	Thousand Net change
1997	1,196	—
1998	1,205	9
1999	1,219	14
2000	1,248	28
2001	1,243	-5
2002	1,265	21
2003	1,289	24
2004	1,279	-9
2005	1,283	3

Source:
Workforce Jobs series

Older Workers

Mr. Laws: To ask the Chancellor of the Exchequer how many and what proportion of *(a)* men and *(b)* women, aged (i) 50 to 54, (ii) 55 to 59 and (iii) 60 to 64 years have been (A) in full-time work, (B) in part-time work, (C) in early retirement and (D) on out-of-work benefits in each of the last 20 years broken down by benefit. [40481]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about the numbers and proportions of men and women in specific age categories who are in full and part-time employment or have taken early retirement, also those who are on out of work by benefits for the last twenty years. (40481)

I am placing the information requested in the House of Commons Library.

Table 1 shows the numbers and proportions of people who are in full and part-time work and those who have taken early retirement for the three month period ending in May each year from 1984 to 2005. These estimates from the Labour Force Survey (LFS) are, as with any sample survey, subject to a margin of uncertainty.

Table 2a shows people claiming out of work benefits for the period ending in May each year from 1995 to 2005. This information is from the Information Directorate, Work and Pensions Longitudinal Study (WPLS). Table 2b shows proportions where the number claiming benefits represents the estimated population in each age group.

Pensioners (Cause of Death)

Andrew Rosindell: To ask the Chancellor of the Exchequer what estimate he has made of the number of pensioners in whose deaths cold or malnutrition have been cited as the primary cause in each of the last 10 years, broken down by county and London borough. [41694]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning the number of pensioners in whose deaths cold or malnutrition have been cited as the primary cause in each of the last 10 years, broken down by county and London borough. (41694)

The latest year for which figures are available is 2004.

Most routine mortality statistics are based on a single cause for each death, the underlying cause of death which is defined by the World Health Organisation as:

(a) the disease which initiated the train of events directly leading to death; or

(b) the circumstances of the accident or violence which produced the fatal injury.

Using this definition "cold" can never be an underlying cause of death. However subnormal body temperature, hypothermia, may be mentioned on the death certificate. Tables of deaths with any mention of hypothermia by county and London borough were placed in the library of the House of Commons, (Official Report Number 91, column 547).

In response to this parliamentary question ONS also placed in the library of the House of Commons tables of deaths from malnutrition, where this was defined as deaths with any mention of malnutrition or deprivation of food.

Deprivation of food can never be the underlying cause of death using the WHO definition. Numbers of deaths where malnutrition was the underlying cause of death have been extracted for deaths registered in each year from 1995 to 2004. As retirement age differs for males and females, tables are provided separately for deaths of women aged 60 and over and men aged 65 and over.

Counties in England and Wales have been subject to administrative changes which affected the structure of many of these areas in the mid-1990s. Figures are therefore provided using current county boundaries which exclude unitary authority areas created from 1995 onwards.

These tables have been placed in the library of the House of Commons.

Private Members' Bills

Mr. Amess: To ask the Chancellor of the Exchequer (1) if he will list those private Members' Bills introduced during the current session where policy responsibility rests with his Department; [41729]

(2) whether it is his policy to write to hon. Members presenting a private Member's Bill on a subject within his Department's responsibility to express his support, opposition or neutrality; and if he will make a statement. [41730]

John Healey: Treasury Ministers have lead responsibility within Government for two private Members' Bills which have been presented in the 2005–06 session: the Income Tax (Earnings Exemption for Persons Living in Poverty) Bill and the Registration Service Bill.

I and my ministerial colleagues are in direct contact with hon. Members sponsoring private Members' Bills concerning issues for which we have policy responsibility when it is appropriate to do so.

Public Bodies (Income from EU)

Mr. Willis: To ask the Chancellor of the Exchequer when he will implement the commitment in the 2005 pre-Budget report to reform the budgeting arrangements for income received by public bodies from the EU; and if he will make a statement on how such changes will be effected. [42273]

John Healey: The 2005 pre-Budget report (CM 6701) announced reforms to the budgeting arrangements for income received from the EU by public bodies (page 230, paragraph B76, bullet 2). The new arrangements will apply from the beginning of 2006–07, and will be effected by way of a classification change to departmental budgets. In common with all such changes, Departments' budgets will be restated to take account of the change.

Red Diesel

Mr. Drew: To ask the Chancellor of the Exchequer what the timetable is for the negotiations with the EU on the derogation for red diesel use by pleasure craft; whether the case being made will be put in the public domain; and whether the public will be consulted. [41459]

Mr. Carmichael: To ask the Chancellor of the Exchequer when his Department expects to conclude its assessment of the implications of not securing an extension to the UK's current derogation from the EU energy products directive which enables non-commercial boats to purchase red diesel; and if he will make a statement. [41948]

John Healey: I refer the hon. Members to what I said on the Floor of the House on 20 December 2005, *Official Report*, column 2804, and the written answer I gave the hon. Member to the hon. Member for Stroud on 20 December 2005, *Official Report*, column 2465W.

The Regulatory Impact Assessment will be drawn up in consultation with the main stakeholders such as the Royal Yachting Association and the British Marine Federation, and will be published at the time of the Chancellor's Budget.

Mr. David Hamilton: To ask the Chancellor of the Exchequer how many prosecutions by HM Revenue and Customs for the illegal use of red diesel took place in 2005. [42433]

John Healey: As set out in HMRC's Annual Report 2004/2005, there were 12 convictions for oils fraud. Prosecution is an important tool in tackling fraud and it is used where it is the most effective sanction in tacking fraudsters.

Mr. David Hamilton: To ask the Chancellor of the Exchequer what recent estimate HM Revenue and Customs has made of the amount of revenue lost in a year through the illegal use of red diesel in the UK. [42434]

John Healey: No estimate is available of the amount of revenue lost due to the illegal use of red diesel. However, an estimate of the total revenue lost due to all illicit activity relating to diesel and petrol is reported in 'Measuring Indirect Tax Losses-2005' which was published alongside the PBR and can be found in the House of Commons Library.

Registered Unemployed (Barnsley, East and Mexborough)

Jeff Ennis: To ask the Chancellor of the Exchequer what percentage of the registered unemployed in Barnsley East and Mexborough were *(a)* under 25 years, *(b)* 26 to 35 years, *(c)* 36 to 45 years, *(d)* 46 to 55 years and *(e)* over 55 years according to the latest figures. [42114]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (42114)

The Office for National Statistics (ONS) compiles unemployment statistics for small areas from the Annual Population Survey following International Labour Organisation definitions.

Table 1 shows the percentage of unemployed, by specified age groups, who were resident in the Barnsley East and Mexborough Parliamentary Constituency for the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2 shows the percentage of JSA claimants, by age bands, resident in the Barnsley East and Mexborough constituency for November 2005.

Table 1: Percentage of unemployed by age bands resident in the Barnsley East and Mexborough constituency—12 months ending March 2005

Age band	*Percentage*
25 and under	58
26 to 35	[1]
36 to 45	26
46 to 55	[1]
Over 55	[1]
Total number of unemployed	1,200

[1] Estimate not available; sample size less than three could be disclosive.

Source:
Annual Population Survey

Table 2: Percentage of claimants of jobseeker's allowance by age bands resident in the Barnsley East and Mexborough constituency—November 2005

Age band	*Percentage*
25 and under	41.7
26 to 35	22.0
36 to 45	16.1
46 to 55	14.4
Over 55	5.8
Total number of JSA claimants	1,250

Jobcentre Plus Administrative system.

Registrar Offices

Mr. Pelling: To ask the Chancellor of the Exchequer what the vacancy rates are in registrar offices in Greater London. [41120]

John Healey: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question concerning the vacancy rates in register offices in Greater London. (41120)

As at 11/1/06 there are 18 principal statutory registration officer posts[1] vacant out of 244 posts in the 33 register offices in Greater London (7.4 per cent.). No information is available on the number of vacancies that might exist in support staff posts (including deputy registration officers, clerical officers, receptionists, security staff, ushers).

[1] Principal statutory registration officers are Superintendent Registrars, Registrars of Births and Deaths and Additional Registrars for marriage.

Sustainable Development Action Plan

Mr. Llwyd: To ask the Chancellor of the Exchequer what arrangements he has made for the launch of the Treasury Sustainable Development Action Plan; and whether he intends to make an oral statement to the House on the contents of the plan. [41182]

John Healey: The Treasury intend to publish a sustainable development action plan shortly. We plan to publish this on the HM Treasury website.

Taxation

Mr. Paice: To ask the Chancellor of the Exchequer in what circumstances a taxpayer would be liable to a surcharge for non-payment of a January instalment if the completed forms were received by HM Revenue and Customs (HMRC) before 30 December but no calculation had been issued by HMRC. [41507]

Dawn Primarolo: A surcharge of 5 per cent. is added to tax payable but still unpaid 28 days after the due date for payment (31 January). A further surcharge of 5 per cent. is added to tax payable but still unpaid six months after the due date. 30 September is the filing deadline for paper self assessment tax returns if the taxpayer wants HMRC to calculate their tax and tell them how much to pay by 31 January of the following year. After 30 September HMRC will still calculate the tax but do not guarantee to do it in time for a calculation to go out to the taxpayer for the payment date of 31 January.

Where self assessment tax returns are filed online the tax is calculated automatically thereby informing the taxpayer how much to pay by 31 January.

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of the share of gross income paid in tax by *(a)* each income decile and *(b)* each major household type in each year from 1996–97 to 2005–06, broken down by each major tax; and if he will make a statement. [41398]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking for the lastest estimate of the share of gross income paid in tax by *(a)* each income decile and *(b)* each major household type, in each year from 1996–97 to 2005–06, broken down by each major tax. (41398)

Estimates of the share of gross household income which is paid in tax are based on the Office for National Statistics analyses *'The effects of taxes and benefits on household income'* which is published annually. The latest analysis for 2003–04 was published on the National Statistics website on 7th July 2005 at http://www.statistics.gov.uk/taxesbenefits. These analyses include measures of income inequality for households in the United Kingdom based on data from the Expenditure and Food Survey (the Family Expenditure Survey before 2001–02). This is a sample survey covering approximately 6,000 to 7,000 households in the UK. Estimates are currently available only up to 2003–04. The analysis for 2004–05 is due to be published on the National Statistics website in April 2006.

The samples on which the estimates are based are only sufficient to allow a breakdown to be given by quintile for the ratio of taxes to gross income, and not by decile. In addition it should be remembered that the annual analyses from which the figures are drawn are not designed primarily for direct comparison over time, and there have been some changes in methodology and definitions.

I am placing in the House of Commons Library, tables showing taxes as a proportion of gross income for each income quintile where households an non-retired households in the UK. The disposable income quintile point boundaries have been calculated separately for the retired and non retired households. For example, the 1st quintile point for the retired households is the income below which one fifth of all retired households are estimated to lie and similarly for all households and non-retired households.

A retired household in the analyses is defined as one where the combined income of 'retired' members amounts to at least half the total gross income of the household. A 'retired' person is defined as some one over minimum NI pension age who is 'unoccupied' or 'sick or injured but not intending to seek work,' or who describes themselves as 'retired.'

Estimates of indirect taxes are imputed based on household expenditure. When comparing the incidence of indirect taxes on households at different levels of income, it should be remembered that measured expenditure will not necessarily balance with measured income for the year. On average measured expenditure exceeds measured income for households in the lower half of the distribution. There are a number of possible explanations for this. Some households with low incomes may draw on their savings or borrow in order to finance their expenditure. In addition, the lower decile in particular includes some groups, who have, or report, very little income (for example, self-employed people starting a business or someone who has just been made redundant). In these cases, expenditure is not being met from current income. Some types of receipts are not included as income in the EFS e.g. inheritance and severance payments. In some cases, the information given on expenditure is not consistent with that on income received because of timing differences.

Mr. Hurd: To ask the Chancellor of the Exchequer what the average earnings of full-time employees in the constituency of Ruislip-Northwood were in April in each year since 2000. [41043]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to ask what the average earnings of full time employees in the constituency of Ruislip-Northwood are in April of each year since 2000 (41043)

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I attach a table showing the Average Gross Weekly Earnings for full time employees by parliamentary constituency by place of work from 2000 to 2005. These statistics are also available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13101

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Gross weekly pay for full-time employee jobs[1] by place of work

Ruislip-Northwood	*Average gross weekly earnings (£)*	
	Median	*Mean*
2000	[2]439	[2]477
2001	[3]391	[3]509
2002	[3]394	[2]484
2003	[3]446	[2]575
2004	[3]440	[2]539
2004[4]	[3]434	[2]534
2005	[3]446	[2]552

[1] Employees on adult rates whose pay for the survey pay-period was not affected by absence.
[2] CV > 5% and < = 10%
[3] CV > 10% and < = 20%
[4] 2004 including supplementary surveys designed to improve the coverage of ASHE.
Notes:
Guide to quality:
1. The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality.
2. The true value is likely to lie within + /- twice the CV e.g. for an average of 200 with a CV of 5%, we would expect the population average to be within the range 190 to 210.

Annual Survey of Hours and Earnings, Office for National Statistics

Mr. Hurd: To ask the Chancellor of the Exchequer how much revenue was raised from personal taxation in the constituency of Ruislip-Northwood in *(a)* 1997 and *(b)* the last financial year for which figures are available. [41044]

John Healey: Estimates of total income tax revenue at constituency level are unavailable. Published information on the number of taxpayers and their mean and median total income by constituency, can be found in table 3.15 "Total Income by Parliamentary Constituency" on the HM Revenue and Customs internet website http://www.hmrc.gov.uk/stats/income_distribution/3_15_nov05.xls.

Unemployed People (Gateshead, East and Washington, West)

Mrs. Hodgson: To ask the Chancellor of the Exchequer what percentage of the registered unemployed in Gateshead, East and Washington, West were *(a)* 25 years and under, *(b)* 26 to 35 years, *(c)* 36 to 45 years, *(d)* 46 to 55 years and *(e)* over 55 years of age in the most recent period for which figures are available. [41624]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Gateshead East and Washington West. (41624)

The Office for National Statistics (ONS) compiles unemployment statistics for small areas from the Annual Population Survey following International Labour Organisation definitions.

Table 1, attached, shows the percentage of unemployed, by specified age groups, who were resident in the Gateshead East and Washington West Parliamentary Constituency for the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, and shows the percentage of JSA claimants, by age bands, resident in the Gateshead East and Washington West constituency for November 2005.

Table 1: Percentage of unemployed by age bands resident in the Gateshead East and Washington West constituency 12 months ending March 2005

Age band	*Percentage*
25 and under	24.4
26 to 35	27.1
36 to 45	18.8
46 to 55	16.6
Over 55	13.1
Total unemployed	2,500

Source:
Annual Population Survey

Table 2: Percentage of claimants of jobseekers' allowance by age bands resident in the Gateshead East and Washington West constituency November 2005

Age band	*Percentage*
25 and under	38.4
26 to 35	21.1
36 to 45	18.4
46 to 55	15.5
Over 55	6.7
Total JSA claimants	1,360

Jobcentre Plus Administrative system

Untaxed Wine and Beer

Mr. David Hamilton: To ask the Chancellor of the Exchequer what estimate HM Revenue and Customs has made of lost revenue through the sale of untaxed wine and beer in the UK in 2005. [42432]

John Healey: No sound HM Revenue and Customs estimate is available on the loss of revenue through the sale of untaxed wine and beer in the UK in 2005.

Unclaimed Assets

Mark Lazarowicz: To ask the Chancellor of the Exchequer pursuant to the answer of 13 December 2005, *Official Report*, column 1839W, on unclaimed assets, how he intends to reinvest the sums to be raised by the Commission on Unclaimed Assets in communities within Scotland. [38437]

Mr. Ivan Lewis: I refer the right hon. Gentleman to the answer I gave him on 13 December 2005, *Official Report*, column 1839W. As announced in the pre-Budget report, the Commission on Unclaimed Assets is one of the stakeholders the Government will consult with in how best to reinvest money from unclaimed assets.

Written Answers to Questions

Tuesday 17 January 2006

CABINET OFFICE

Public Appointments

23. **Mr. Gordon Prentice:** To ask the Chancellor of the Duchy of Lancaster how many current public appointments are fixed term and non-renewable. [42337]

Mr. Jim Murphy: The information is not held centrally. Individual Departments are responsible for setting the terms and conditions for their own appointments. Ministerial appointments to public bodies within the Commissioner for Public Appointments' remit are subject to maximum period of appointment of 10 years to the same board. This is set out in the Commissioner's Code of Practice.

Civil Service

24. **Daniel Kawczynski:** To ask the Chancellor of the Duchy of Lancaster what steps the Government have taken to increase diversity in the civil service; and what progress has been made. [42338]

Mr. Jim Murphy: The civil service has made good progress towards increasing diversity, including at senior levels. But there is still more work to do: the Cabinet Office launched a new Diversity 10 Point Plan. Its aim is to build on progress so far to deliver a civil service truly representative of society.

Government Policy

25. **Hugh Bayley:** To ask the Chancellor of the Duchy of Lancaster what role his Department has in improving the strategic coherence of Government policy. [42339]

Mr. Jim Murphy: The Cabinet Office co-ordinates policy and operations across Government through the secretariats and the Government Communication Unit.

Under its objectives the Cabinet Office seeks to improve delivery by building capacity in Departments and the public services through the Delivery and Reform Group.

Special Advisers

26. **Philip Davies:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the number and role of special advisers in central Government Departments. [42340]

Mr. Jim Murphy: I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Regulations

27. **Mr. Prisk:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement about the progress his Department is making on reforming regulations. [42341]

Mr. Jim Murphy: We are on track to deliver the radical programme of regulatory reform set out in the March 2005 Budget.

The Legislative and Regulatory Reform Bill was introduced on 11 January. The Bill will make it quicker and easier to reform out-dated, unnecessary or over-complicated legislation and help bring about a risk-based approach to regulation. Both the administrative burdens measurement project and the simplification programmes are on track, as is the rationalisation of a number of regulators in the public and private sectors.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Subsidies

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs if she will consult hon. Members on agricultural subsidies before attending World Trade Organisation talks in Hong Kong. [35176]

Jim Knight: The European Commission has competency for trade negotiations and negotiates within a mandate given to them by the EU member states. The Commission therefore negotiated on behalf of the EU at the World Trade Organisation talks in Hong Kong.

My right hon. Friend the Secretary of State for Trade and Industry reported to hon. Members on the whole of the Doha Development Agenda (of which agricultural subsidies is one part) straight after the WTO ministerial conference.

The Government's overall, long-term approach to agricultural subsidies was published in December 2005 and copies have been deposited in the Libraries of both Houses. The aim of this vision paper is to stimulate a full debate with stakeholders within the UK and across Europe on the future of the CAP.

Catering/Entertainment Contracts

Mr. MacNeil: To ask the Secretary of State for Environment, Food and Rural Affairs what the total value is of *(a)* catering and *(b)* entertainment contracts let by her Department; and what value of such contracts has been let in each nation and region of the United Kingdom, including London. [37469]

Jim Knight: From information held centrally, the total value of expenditure by core-Defra on catering contracts in financial year 2004–05 was £281,413; on hospitality was £370,544; and on conference facilities was £1,105,762. The expenditure figures for catering contracts, hospitality and conference facilities for the first six months of financial year 2005–06 are £494,864, £208,394 and £354,162 respectively.

The Department would incur disproportionate costs in breaking down the figures above to each nation and region of the United Kingdom, and London, requested by the

hon. Member. The Department does not hold centrally the requested expenditure information pertaining to its executive agencies, non-departmental public bodies, independent statutory bodies, organisations and bodies financially sponsored by the Department.

Chimpanzee Shooting (Malton)

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what the circumstances were surrounding the shooting of a chimpanzee near Malton in December 2005; upon whose authority the animal was shot; by whom; for what reason; and if she will make a statement. [42365]

Jim Knight: My Department has no direct role in decisions regarding the shooting of escaped zoo animals. Zoos are regulated by means of a licensing and inspection regime administered by local authorities. Ryedale district council is responsible for licensing Flamingo Land Zoo where this incident took place. They have notified my Department that they are looking into this issue and considering whether to undertake a special inspection of the zoo.

Climate Change

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the outcome of the Montreal climate change talks. [40620]

Mr. Morley: There have been no representations to the Secretary of State on the outcomes of the Montreal climate talks. The outcomes of the conference were highly significant; Kyoto parties agreed to launch a process for agreeing new greenhouse gas targets beyond 2012; all parties agreed to review the framework convention with a view to ensuring a truly global effort to tackle climate change; the protocol was strengthened by the adoption of the Marrakech Accords, compliance mechanism and greater support for the Kyoto mechanisms; and progress was made on support for developing countries.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on external consultants and advisers by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39074]

Jim Knight: The Department came into being in July 2001 and the information could be provided only at disproportionate cost as Defra does not hold information centrally identifying expenditure on external consultants and advisers by the Department, and each of its non-departmental public bodies, executive agencies, independent statutory bodies, organisations and bodies financially sponsored by the Department in each year since 1997.

I refer the hon. Member to the answers given on 13 June 2005, *Official Report*, columns 36–37W, and on 21 July 2005, *Official Report*, columns 1962–63W to my hon. Friend the Member for Great Grimsby (Mr. Mitchell).

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs what the annual expenditure on training and development by *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [39968]

Jim Knight: The Department's central Learning and Development team arranges and centrally funds non-specialist corporate learning and development opportunities (including Management and Leadership courses, Departmental and personal development programmes and Communication skills,) for staff in the core Department and two of its executive Agencies—Pesticides Safety Directorate and Veterinary Medicines Directorate.

Each business area within the Department also holds its own devolved learning and development budget which it uses to fund locally arranged, mostly specialist training, for its staff. Similarly, each non-departmental public body and executive Agency for which the Department is responsible, holds an annual learning and development budget which it uses to fund both specialist and non-specialist training for its staff.

The Department does not currently hold central information on the annual expenditure on locally funded learning and development within the different business areas of the Department. Neither does it hold information on the annual expenditure on learning and development in the non-departmental public bodies or executive Agencies.

The figures in the following table refer only to the annual expenditure on centrally funded corporate courses, departmental and personal development schemes, for staff in the core Department, PSD and VMD, arranged by the Department's central Learning and Development team.

	Annual expenditure (£)
2002–03	1,458,674
2003–04	2,525,656
2004–05	3,578,222
2005–06 planned	2,813,000

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of jobs in *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which her Department is responsible are located in (A) England, excluding Greater London, (B) Greater London and (C) overseas. [39866]

Jim Knight: The figures requested for the department and its executive agencies are published in Civil Service Statistics. Table D covers permanent staff numbers on a full-time equivalent basis. Civil Service Statistics are available in the Library and at the following address on the Cabinet Office Statistics website: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

Regional information on non departmental public bodies is not collected centrally could be provided only at disproportionate cost.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EC-Canada Joint Committee have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if she will make a statement. [38781]

Mr. Douglas Alexander: I have been asked to reply.

The EC-Uruguay Joint Committee met on 10 November 2005. The UK was represented by officials from the British embassy in Montevideo. The EC-Canada Joint Co-operation Committee met on 25 October 2005. The presidency was represented by officials from London and the British high commission in Ottawa. There was no EC-Japan Joint Committee.

The Government take into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government) a copy of which is available at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf. Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

Farm Incomes

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs how many farming households in *(a)* England, *(b)* Northamptonshire and *(c)* Kettering constituency have household incomes below the Department's low income threshold. [38894]

Jim Knight: Defra does not have its own low-income threshold. A measure of low-income is specified by the Department for Work and Pensions who define the threshold as 60 per cent, of median household income. The latest data we were able to obtain for this threshold are taken from the 2005 Social Trends publications produced by the Office for National Statistics. This indicated that in 2002–03, the low income threshold was around £10,000 (£194 per week).

For the year ending February 2005, Farm Business Survey results showed that 16 per cent. of farming households[1] in England had a household income below £10,000 and 12 per cent. in the Government office region of East Midlands. Data for Northamptonshire and Kettering are not available due to insufficient farms in the survey.

In 2002–03, the proportion of all households in the UK below the threshold was 17 per cent. and this helps to put the figures for farming households into context with the wider population. No equivalent data are available for the East Midlands, Northamptonshire or Kettering.

[1] Sample based on farms greater than 0.5 Standard Labour Requirement

Peatbogs

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to protect the additional peatbogs designated as special areas of conservation in 2002, with particular reference to halting the commercial extraction of peat. [42651]

Jim Knight: The peatbogs at Thorne Moor, Hatfield Moor and Wedholme Flow, which have been accepted as Special Areas of Conservation (SACs), now have the highest levels of protection against disturbance or damage under the Habitats Regulations (1994). Where necessary, these Regulations also allow for a review of extraction licences in SACs.

Consultations on the remaining two sites, at Bolton Fell Moss and Solway Moss, are continuing because there are still some conflicting scientific views about their eligibility. They cannot be submitted to the European Commission or formally designated as SACs until this is resolved. If the conclusion is that they are eligible, we will take immediate steps to progress their formal designation.

Public Bodies/Agencies

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff were employed by non-departmental public bodies and agencies for which she has responsibility in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London in 2004–05. [35955]

Jim Knight: Total executive NDPB staff numbers by department as at 31 March 2005 are recorded in Table 2 of Public Bodies 2005, a copy of which is in the Library of the House, and which is available online at: http://www.civilservice.gov.uk/the-future-of-the-civil-service/agencies-and-public-bodies/publications/pdf/public-bodies/publicbodies2005.pdf.

The NDPB data do not detail the regional breakdowns requested, and this information could be obtained only at disproportionate cost.

The number of staff in individual executive agencies as at 1 April 2004, including a regional analysis, is available in Civil Service Statistics 2004 which was published in February 2005, a copy of which is in House Libraries. It is also available online at: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/contents_for_civil_service_statistics_2004_report/number_of_civil_servants/index.asp.

Snares

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will take steps to introduce a statutory code of practice on the use of snares; [42002]

(2) if she will seek to introduce a legal requirement to have a stop on snares; [42003]

(3) if she will commission further research into the use of animal snares, with particular reference to *(a)* the welfare impacts and *(b)* alternative methods of control. [42004]

Jim Knight: On 19 October 2005 Defra published the report of the independent snares working group, the Defra Snares Action Plan and the Defra Code of Good Practice on the use of Snares in Fox and Rabbit Control in England. These documents can be found on the Defra website: http://www.Defra.gov.uk/wildlife-countryside/vertebrates/snares/index.htm.

The action plan sets out our response to the recommendations of the snares working group and the action we will take over the next three years. This includes reviewing the Code of Practice and considering if it should be legally binding.

TRANSPORT

Road Congestion

9. **Siobhain McDonagh:** To ask the Secretary of State for Transport what plans he has for reducing congestion on the road network. [42351]

Dr. Ladyman: We are tackling congestion with targeted strategies developed with national and local agencies—investing more in the road network, including new capacity where it is justified, trialling innovative new traffic management systems, and exploring the benefits of new ways to manage demand for road space—including road pricing.

Bus Regulation

10. **Graham Stringer:** To ask the Secretary of State for Transport what plans he has to change the regulatory regime applying to buses. [42352]

Ms Buck: We have no plans to return to the regulatory regime of the 1980s. Current options available to local authorities include voluntary or statutory quality partnerships. There are a number of examples of good partnership working across the country, and quality contracts are available if other measures do not work. If local authorities are prepared to propose a comprehensive system for managing traffic demand, such as road pricing, we are prepared to consider introducing further measures to control bus services.

Crime (Public Transport)

12. **Ms Keeble:** To ask the Secretary of State for Transport what steps he is taking to combat crime on public transport. [42354]

Derek Twigg: The Department continues to support the work of the police, local authorities and transport operators to tackle crime on public transport. We are developing, evaluating and disseminating good practice on reducing crime and the fear of crime wherever it occurs in the transport system. We have also introduced the Secure Stations Scheme and launched the Safer Travel on Buses and Coaches Panel. As Sponsor Department for the British Transport police we have encouraged and assisted the force, through implementation of legislation and increased funding, to fulfil its responsibilities for policing the railways.

Urban Traffic

13. **Mr. Hollobone:** To ask the Secretary of State for Transport what his estimate is of the typical proportion of urban traffic between 8.00 am and 9.30 am during term time which is related to journeys to and from school. [42355]

Ms Buck: Data from the National Travel Survey suggest that in 2004 on weekdays in term time around 15 per cent. of car trips in progress between 8 am and 9.30 am were for the purpose of taking children to school.

Railways

14. **Daniel Kawczynski:** To ask the Secretary of State for Transport what estimate he has made of the number of passengers who will be using the UK's railways by 2014.

Derek Twigg: The Department's estimates for rail use in future years are for passenger kilometres rather than numbers of passengers. Our latest published projections show rail passenger kilometres increasing by 33 per cent. between 2000 and 2010 and by 1.3 per cent. a year from 2010 to 2025.

19. **Matthew Taylor:** To ask the Secretary of State for Transport what plans there are for replacing the high speed train fleet serving the Greater Western franchise. [42361]

Derek Twigg: The Department is leading a project to procure a high-quality, modern replacement for the very successful existing high speed train fleet. We anticipate the first replacement trains entering into service during the lifetime of the new Greater Western franchise.

John McDonnell: To ask the Secretary of State for Transport what total costs have been incurred by *(a)* the Government and Government agencies and *(b)* the Strategic Rail Authority in the franchising and tendering of passenger rail services since 1997. [33408]

Derek Twigg: The letting of franchises since 1997 has been undertaken by a number of successive agencies, namely the Office of Passenger Rail Franchising, the Shadow Strategic Rail Authority, the Strategic Rail Authority and since July 2005, the Department for Transport. Franchise tendering costs were part of the general business costs of such agencies and could be provided only at disproportionate cost.

Information is more readily available from April 2004 and costs incurred are £16.9 million. This represents 0.06 per cent. of the value of the five franchises let.

Greg Mulholland: To ask the Secretary of State for Transport what the rate of growth of use in *(a)* the regional rail network, *(b)* rail networks serving the passenger transport executive areas, *(c)* the London and South East heavy rail network and *(d)* Intercity rail services was over the last (i) 12 months, (ii) three years and (iii) five years. [38695]

Derek Twigg: With regard to Intercity rail services, in 2004–05, 85 million journeys were undertaken on long distance train services compared with 70 million journeys in 2000–01. Further information is held by the Office of Rail Regulation (ORR). I have asked the ORR to reply to the hon. Member directly.

Greg Mulholland: To ask the Secretary of State for Transport how many new passenger vehicles have been introduced on the *(a)* London and south east heavy rail network, *(b)* local regional rail network and *(c)* Northern Trains franchise area in each of the last 10 years; and how many are expected to be introduced in each area in each of the next three years. [38721]

Derek Twigg: The information requested is not held centrally for years before 1996. Details for subsequent years are set out in the following table. New trains for the integrated Kent franchise are not due to be introduced until 2009 and are therefore not shown in the table.

Information relating to Northern Trains (and the former Arriva Trains Northern and First North Western franchises) is included in column entitled regional network, as well as separately in the final column.

	L&SE Network[1]	*Regional Network*[2]	*Northern Trains area*[3]
1996	0	0	0
1997	0	0	0
1998	20	0	0
1999	60	59	0
2000	71	149	28
2001	268	191	90
2002	261	62	8
2003	375	11	8
2004	974	66	0
2005	631	21	0
2006	6	0	0
2007	0	0	0
2008	0	0	0

[1] L&SE comprises the routes served by the following operators South Eastern Trains, South West Trains, Southern, Thameslink, Great Northern, C2C, Silverlink, Chiltern, First Great Western Link and London Eastern Railway (One).
[2] Regional comprises the routes served by Wales and Borders, Wessex, Central Trains, Gatwick Express, Island Line, Merseyrail, Northern Trains and Scotrail.
[3] Formerly Arriva Trains Northern and First North Western.

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 14 November 2005, *Official Report*, column 895W, on railways, how much his Department *(a)* was legally entitled to recover and *(b)* recovered from the Connex South Eastern franchise in 2003 when it discharged its duty under section 30 of the Railways Act 1993. [39380]

Derek Twigg: A performance bond had been put in place to cover losses, liabilities, costs or expenses that the SRA, DfT or successor operator had suffered or was likely to incur as a result of the termination of the franchise agreement. The bond had a value of £19.5 million.

The NAO report into the South Eastern Passenger Rail Franchise published 2 December 2005 provides details of the amount recovered from Connex South Eastern of £2.6 million. It also states that additional recoverable costs of £3.8 million were incurred by the SRA but that it was decided not to recover these costs from Connex South Eastern.

In order for Connex to exit from the franchise earlier than the contract required them to, a negotiated solution had to be put in place that was outside the strict terms of the contract. The concession for Connex exiting the franchise (which the SRA considered of overriding importance) was relaxation of the amount that could have been claimed had the franchise run its full term and the claim made in accordance with the strict terms of the performance bond.

Stephen Hammond: To ask the Secretary of State for Transport whether the borrowings of Network Rail represent a contingent liability of his Department; what the level of this contingent liability is; and whether he acts as guarantor of these borrowings. [40862]

Derek Twigg: The credit support arrangements for Network Rail's borrowing provided by the Secretary of State are shown as contingent liabilities in the Department for Transport's resource accounts. Minutes describing the contingent liabilities were laid before Parliament when the various arrangements were first entered into, in June 2002, February 2004 and September 2004. As of 30 September 2005, £16.8 billion of Network Rail's borrowing is supported by these arrangements.

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, on train operating companies, what assessment he has made of the value for money of each re-letting of a franchise to a train operating company since 1997. [39375]

Derek Twigg: Each franchise re-letting undertaken since 1997 has, prior to award, been subject to a value for money analysis conducted by DfT economists and approval by HM Treasury in respect of affordability constraints.

Stephen Hammond: To ask the Secretary of State for Transport what the cost has been of *(a)* West Coast Main Line and *(b)* East Coast Main Line modernisation since 2000; what the cost overruns were against original estimates; and what the expected increase in capacity is for each line. [40854]

Derek Twigg: Network Rail are responsible for the maintenance and infrastructure of the rail network and I have asked them to write to the hon. Member directly. For the West Coast Main Line there is a targeted 80 per cent. Increase in passenger service capacity. No equivalent figure is available for the East Coast Main Line.

Stephen Hammond: To ask the Secretary of State for Transport what percentage of trains ran to timetable in the last period for which figures are available; and what the equivalent figure was in 2000. [40861]

Derek Twigg: Train punctuality is reported using the Rail Industry's 'Public Performance Measure' which records the percentage of trains arriving within 5 minutes (10 minutes for long distance trains) of their timetabled arrival time.

In the year to December 2005, 85.6 per cent. of trains achieved this standard. The corresponding figure in December 2000 was 83.1 per cent.

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on the operation of sections *(a)* 1 and *(b)* 2 of the Railways Act 2005. [41007]

Derek Twigg: Section 1 of the Railways Act 2005 provides for the abolition of the Strategic Rail Authority and for the reallocation of its functions, where they are not discontinued. Subsections (1)-(9) were brought into force in June and July 2005, and most of the SRA's functions and the related property, rights and liabilities have now been transferred. Section 1(10), which enables the Secretary of State to make an order abolishing the SRA, will be brought into force in due course.

Section 2 transfers safety functions from the Health and Safety Commission and the Health and Safety executive to the Office of Rail Regulation (ORR). We have consulted on draft regulations on where ORR will enforce the provisions of the Health and Safety at Work etc. Act 1974. We expect to make the regulations and to transfer safety responsibilities to ORR shortly.

Mr. Amess: To ask the Secretary of State for Transport when he expects each section of the Railways Act 2005 to come into force; and if he will make a statement. [41008]

Derek Twigg: Many of the provisions of the Railways Act 2005 have already been brought into force by the Railways Act 2005 (Commencement Nos 1–4) Orders 2005. The remaining provisions will be brought into effect in due course.

Clive Efford: To ask the Secretary of State for Transport what arrangements he has made to manage the transition of South East Trains to Govia; and if he will make a statement. [42238]

Derek Twigg: Work to ensure a smooth transition of South Eastern trains to the new IKF Franchisee commenced on 1 December. A plan to manage the transition has been agreed and officials from the Department regularly meet representatives of Govia and South Eastern trains to ensure that all regulatory and contractual requirements will be met to enable the new franchise to commence on 1 April 2006.

Speed Cameras

15. **Mr. Leigh:** To ask the Secretary of State for Transport if he will make a statement on the use of speed cameras on roads. [42357]

Mr. Amess: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of speed cameras on roads. [42347]

Dr. Ladyman: My right hon. Friend the Secretary of State made a written statement on 15 December last year, announcing the publication of the independent four year evaluation report on the national safety camera programme, and also announcing changes to the future funding and administration of safety cameras. The independent report confirms that safety cameras continue to be highly effective in reducing speeding, accidents and casualties at camera sites.

Ports

16. **Mr. Stewart Jackson:** To ask the Secretary of State for Transport if he will make a statement on the development of road and rail infrastructure to ports in England and Wales. [42358]

Dr. Ladyman: The current ports policy framework, "Modern Ports", acknowledges that the Government have an important role, alongside ports themselves, in ensuring that the best use is made of existing infrastructure, and that opportunities are sought to improve port access. We will be looking closely at this issue in the forthcoming review of ports policy.

Night Flights

17. **Mr. Pelling:** To ask the Secretary of State for Transport what his Department's policy is on the number of night flights over London. [42359]

Ms Buck: Noise from aircraft operations at night is widely regarded as the least acceptable aspect of aircraft operations. We believe in bearing down on night noise, striking a fair balance between local disturbance, the limits of social acceptability and the economic benefit of night flights. This should be done on a case by case basis.

Adam Afriyie: To ask the Secretary of State for Transport (1) whether he has notified the European Commission of the night flying restrictions that will apply at Heathrow when the present restrictions expire; [42242]

(2) when he expects to announce the night flying restrictions that will apply at Heathrow when the present restrictions expire. [42243]

Ms Buck *[holding answer 16 January 2006]:* The Government will announce their conclusions on future night flying restrictions to apply at Heathrow airport in due course.

Directive 2002/30/EC established rules and procedures with regard to the introduction of noise-related operating restrictions at certain EU airports. The Government must follow these rules and procedures in making decisions about night flying restrictions at Heathrow. The Directive does not impose any requirement for prior notification of new operating restrictions to the Commission. We have not submitted any information on future night flying restrictions at Heathrow to the Commission.

Adam Afriyie: To ask the Secretary of State for Transport (1) when he expects to announce the night flying restrictions that will apply at Heathrow on the expiry of the present restrictions; [43037]

(2) whether he has informed the European Commission of the night flying restrictions that will apply at Heathrow on the expiry of the present restrictions. [43040]

Ms Buck: I refer the hon. Member to the answer I have given him today (UIN 42242, 42243).

Justine Greening: To ask the Secretary of State for Transport pursuant to the answer to question 40915, on night flight restrictions, when he will announce his decisions in relation to the stage two consultation paper of the night flight restrictions at Heathrow, Gatwick and Stansted Airports. [43041]

Ms Buck: I refer the hon. Member to the answer I have given today to the hon. Member for Windsor (Adam Afriyie) (UIN 42243).

Regional Air Services

18. **Danny Alexander:** To ask the Secretary of State for Transport if he will make a statement on the protection of regional air services from London Gatwick and Heathrow airports. [42360]

Ms Buck: Government have recently published guidance on the protection of regional air access to London's five main airports, including Gatwick and Heathrow. The guidance clarifies how we will interpret the criteria for imposing public service obligations (PSOs) set out in the European Regulations. It seeks to guarantee a minimum of two daily return services on existing routes from London to regional airports, but recognises that in some cases more provision may be required.

It is for regional bodies to apply for and make the economic case for a PSO. Regional bodies will also be responsible for providing any subsidy required.

Cliff Mitchie

Mr. Malins: To ask the Secretary of State for Transport when he will reply to the letter from the hon. Member dated 7 October 2005 in relation to Cliff Mitchie. [42846]

Dr. Ladyman: I have replied to the hon. Member's letter today.

Concessionary Rail Travel

Mr. Willis: To ask the Secretary of State for Transport what plans he has to extend concessionary travel to the regional rail network. [42353]

Ms Buck: None. Free off-peak local bus travel in England for people 60 and over and disabled people will come into effect on 1 April 2006. Local authorities and the Passenger Transport Executives will have the discretion, as they do at present, to offer concessions on local rail services based on their judgment of local needs and their overall financial priorities.

Heathrow Airport

Adam Afriyie: To ask the Secretary of State for Transport (1) what the maximum number is of *(a)* arriving and *(b)* departing aircraft that Heathrow could handle between 6 am and 7 pm (i) at present and (ii) when Terminal 5 opens; [42240]

(2) how many aircraft movements took place at Heathrow between 6 am and 7 am in the *(a)* winter and *(b)* summer seasons in (i) 1993–94 and (ii) 2004–05. [42241]

Ms Buck *[holding answer 16 January 2006]:* The Government do not routinely monitor aircraft movements between 0600 and 0700 hours at Heathrow airport. The declared scheduling capacity at Heathrow—the maximum number of movements that can be scheduled per hour and still permit the schedule to remain below an average delay of 10 minutes—is currently 61 (35 arrivals, 26 departures). Actual numbers of arrivals and departures will vary depending on operating conditions and the weather. The scheduling capacity for future years is not determined in advance.

Adam Afriyie: To ask the Secretary of State for Transport (1) what the maximum capacity is of *(a)* arriving and *(b)* departing aircraft at Heathrow between 6.00 am and 7.00 am; and what the capacity is expected to be when Terminal 5 opens; [43038]

(2) port how many aircraft movements took place at Heathrow between 6.00 am and 7.00 am in the *(a)* winter and *(b)* summer in (i) 1993–94 and (ii) 2004–05. [43039]

Ms Buck: I refer the hon. Member to the answer I have given him today (UIN 42240,42241).

Heavy Goods Vehicles

Sir Michael Spicer: To ask the Secretary of State for Transport if he will make a statement on his policy on the movement of heavy goods vehicles in rural areas. [42847]

Dr. Ladyman: Heavy goods vehicles provide essential services in rural areas but can cause problems on unsuitable roads. Local authorities have powers to regulate what sorts of vehicles use local roads, balancing the needs of local people, HGV operators, those who depend on their services and other road users.

Ministerial Meetings

Gregory Barker: To ask the Secretary of State for Transport whether he plans to meet members of the public following the award of the Integrated Kent Franchise; and what discussions he has held with GoVia Ltd. [40619]

Derek Twigg: My right hon. Friend has no meetings planned with either members of the public or GoVia to discuss the award of the Integrated Kent Franchise nor has any such meetings been requested.

Motorway Repairs (M1)

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the barrier repairs being carried on the central reservation of the M1 motorway near junction 16 on 15 November 2005 were not carried out after midnight to avoid causing congestion. [42362]

Dr. Ladyman: At approximately 09.00 hrs on 15 November 2005 a vehicle travelling north on the M1 between Junctions 16 and 17 lost control and collided with the central reserve safety fencing. About 50 metres of safety fencing were left ineffective and needed repair.

The Northamptonshire police had primacy at this incident. The police directed the Highways Agency's maintenance contractor to close off lane 3 of the northbound M1 carriageway and the police's own contractors then recovered the vehicle. This work was

completed at 13.50 hrs. The police took the advice of the Highways Agency's maintenance contractor and decided that barrier repairs should be carried out at this time, rather than be left until later, for the safety of the travelling public. The barrier repairs were completed and the northbound lane 3 reopened by 15.10 hrs. Full running capacity on the motorway was restored in time for the afternoon/evening peak.

HOUSE OF COMMONS COMMISSION

Star Chamber Court

Anne Main: To ask the hon. Member for North Devon, representing the House of Commons Commission what discussions the House authorities had with *(a)* Westminster city council and *(b)* English Heritage on the recently installed covered walkway in Star Chamber Court; and what aspects of the final design are the results of those discussions. [41926]

Nick Harvey: English Heritage and Westminster council officers were consulted at all stages of the design process of the new covered walkway in Star Chamber Court, in full accordance with the DOE Circular 18/84 on listed building clearance procedure. The final design was a product of these consultations. English Heritage and Westminster council officials attended detailed briefing meetings on a regular basis at which the developing design was assessed and amendments proposed. The final design is a synthesis of this and it is not possible to attribute specific features to any particular source.

DEFENCE

Arms Regulations

Mr. Ellwood: To ask the Secretary of State for Defence if he will make a statement on the status of the UK's International Traffic in Arms Regulations waiver from the United States. [41653]

Mr. Ingram: Legislative provision for an International Traffic in Arms Regulations (ITAR) exemption for the United Kingdom was refused by Congress in 2003 and 2004, who called instead for expedited export licensing.

We are continuing to work with the US Administration to identify how best to improve arrangements for the transfer of military technology controlled by the ITAR. Such improvements need not be restricted to a single mechanism. The UK has already benefited from faster processing of US export licences for transfers to this country.

Civil Contingencies Reaction Force

Patrick Mercer: To ask the Secretary of State for Defence (1) what the *(a)* established and *(b)* actual strength is of the Civil Contingencies Reaction Force (CCRF); how many members of the CCRF are deployed with the regular forces; what recruiting schemes are in place for the CCRF; and what plans there are for the future size of the force; [42959]

(2) under what rules of engagement the Civil Contingencies Reaction Force will operate when it is deployed; [42960]

(3) which Civil Contingencies Reaction Force (CCRF) units are available to assist in the event of a terrorist attack in London; and at what notice to move CCRF units are required to be; [42961]

(4) under what criteria the Civil Contingencies Reaction Force will be *(a)* called out and *(b)* stood-to; [42962]

(5) at what point after the London underground attacks of 7 July 2005 the Civil Contingencies Reaction Force (CCRF) was called out; and how many members of the CCRF were deployed in response to the *(a)* 7 July 2005 and *(b)* 21 July 2005 incidents. [42963]

Mr. Ingram: Civil Contingency Reaction Forces (CCRFs) are based on the 14 TA Infantry battalions spread across the country. Each CCRF comprises a pool of around 500 personnel drawn from the Volunteer Reserve Forces, who have volunteered for the CCRF commitment in addition to their normal role. CCRF membership is dynamic and details of individual availability, including where volunteers have been deployed as part of their normal Reserve role, are not held centrally. It is, however, the case that when a CCRF member is mobilised to meet other commitments we aim to replace that individual immediately by another volunteer.

There are no specific recruitment schemes in place, nor are such schemes necessary given that the pool of potential volunteers consists of existing members of the Volunteer Reserves. The future size of the CCRFs is being considered as part of a wider review of the TA.

CCRFs would not be deployed in a situation which required the use of force so no question of rules of engagement would arise. Volunteers are not held at permanent readiness, although we aim to be able to deploy a CCRF within 24 hours. There are no specific criteria which would lead to a decision to mobilise a CCRF; they form part of the pool of resources upon which we could draw in the event of a request for military assistance.

While the supporting infrastructure is based on the army's regional structure, it is not the case that a CCRF would only be mobilised to undertake operations within its "home" region. Consequently, all CCRFs are available to undertake operations anywhere in the UK over an extended period, including in London.

No CCRF members were mobilised in response to the terrorist attacks in London on 7 and 21 July 2005. The civil authorities coped extremely well in the aftermath of the attacks and made no request for military assistance which would have required the sort of large scale general duties support which could be provided by a CCRF.

Credit Card Companies

Steve McCabe: To ask the Secretary of State for Defence what assessment he has made of the effect on armed forces' personnel of the policies of major credit card companies' failure to recognise the British Forces Post Office as a valid address. [37561]

Mr. Ingram: There is no failure by major credit card companies to recognise British Forces Post Office (BFPO) addresses as a valid address. Service personnel and their families can use a BFPO address as the registered (home) address for their credit cards where appropriate and many do. Some companies—for their own reasons—will not take orders from, or deliver to, BFPO addresses but the majority are happy to do so. Where this commercial decision is driven by practical factors such as "card not present" identity verification or credit checking requirements, the MOD is supporting the Association for Payment Clearing Services (APACS) in resolving any difficulties.

Steve McCabe: To ask the Secretary of State for Defence if he will take steps to ensure that all UK credit card companies recognise British Forces Post Office addresses as valid addresses for the purpose of making credit card transactions. [37562]

Mr. Ingram: UK credit card companies already recognise British Forces Post Office (BFPO) addresses as valid addresses for the purposes of making credit card transactions. Also, most companies providing goods and services via the internet and telephone—where "card not present" fraud control measures are necessary—do accept BFPO addresses. Ultimately it is a commercial decision for any company to determine how and where they will provide services. Even so, for the minority that choose not to deal with BFPO addresses, their issues are being explored further by the Association for Payment Clearing Services (APACS) with the assistance of the MOD.

Departmental IT Equipment

Mrs. Villiers: To ask the Secretary of State for Defence how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the outturn time for implementation against planned time was. [41318]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

Defence Export Services Organisation (Iraq)

Jim Cousins: To ask the Secretary of State for Defence when the Defence Export Services Organisation last visited Iraq; which agencies and companies they met; and what was the outcome of the visit. [42068]

Mr. Ingram: Officials from the Defence Export Services Organisation (DESO) visited Iraq from 1–4 August 2005 and met with representatives of the Iraq Ministry of Defence and the Multi-National Security and Transition Command-Iraq. The visit helped DESO identify opportunities for UK industry to assist the development of the Iraq Security Forces, in accordance with Government policy to improve security and stability in the region.

Joint Strike Fighter

Mr. Bone: To ask the Secretary of State for Defence what assessment he has made of the implications of the proposal by the US Congress to scrap the F35B version of the Joint Strike Fighter for UK defence procurement. [42375]

Mr. Ingram: I refer the hon. Member to the answer I gave on 6 December 2005, *Official Report*, column 1103W, to the hon. Member for New Forest East (Dr. Lewis).

Procurement Contracts

Angus Robertson: To ask the Secretary of State for Defence what his policy is on the opening up of the European defence procurement market; and if he will make a statement. [42071]

Mr. Ingram: We support the work of the European Commission and the European Defence Agency to improve the transparency and openness of European defence equipment markets. This work will contribute significantly to the development of a more efficient, cost-effective and competitive European defence industry better able to meet the equipment capability requirements of our armed forces. Industry will benefit from greater competitive opportunities and taxpayers will obtain better value for money.

Angus Robertson: To ask the Secretary of State for Defence what his policy is on the awarding of UK defence procurement contracts to non-UK companies; and if he will make a statement. [42072]

Mr. Ingram: We continue to define the UK defence industry as embracing all defence suppliers that create value, employment, technology or intellectual assets in the UK. This includes both UK and foreign-owned companies.

In many areas we can and do rely on overseas sources without compromising national security, and have made progress in recent years in developing increased assurances of security of supply. There are also some critical areas where we have to maintain national industrial capabilities to ensure our national security. The recently published Defence Industrial Strategy identifies those capabilities. Where a contract can be let to overseas suppliers without compromising these and the overseas bid represents the best long-term value for money, taking into account relevant wider factors, we will continue to procure from overseas, so that we can continue to access the equipment best suited to our needs from the widest range of suitable suppliers.

Territorial Army

Mr. Lancaster: To ask the Secretary of State for Defence how many members of the Territorial Army have been mobilised out of role in the last five years. [41656]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

Trident

Paul Flynn: To ask the Secretary of State for Defence what indications he has received from the United States Department of Defense of the future plans for the development and manufacture of Trident missiles. [42197]

John Reid: I refer the hon. Member to the reply I gave on 21 November 2005, *Official Report*, column 1566W, to the hon. Member for New Forest East (Dr. Lewis).

Welfare Services (Army Barracks)

Mrs. Humble: To ask the Secretary of State for Defence (1) what the hours of availability of welfare providers are at Catterick barracks; [38674]

(2) what steps he has taken to monitor the availability of welfare providers outside working hours on Army barracks. [38673]

Mr. Touhig: 24-hour welfare provision is available to all soldiers at both the unit level and through the Army Welfare Services. All soldiers, recruits and trainees are made aware of the provisions available to them and the responsibility of the Chain of Command, including their freedom to approach any civilian welfare agency direct if they prefer. A credit card size document is issued to every recruit and trainee, listing the contact details and hours of availability, of individuals and organisations that can be contacted.

No specific steps have been taken to monitor the availability of welfare providers as duty personnel are responsible for providing cover outside normal working hours, in addition to the out of hour support provided by external agencies.

CULTURE, MEDIA AND SPORT

Alcohol Licences

Mrs. James: To ask the Secretary of State for Culture, Media and Sport how many applications have been granted for 24 hour sale of alcohol licences in *(a)* Swansea East and *(b)* Wales; and if she will make a statement. [42043]

Jeff Ennis: To ask the Secretary of State for Culture, Media and Sport how many applications have been granted for licences for 24 hour sale of alcohol in *(a)* Doncaster, *(b)* Barnsley and *(c)* South Yorkshire. [42115]

James Purnell: This information is held by local licensing authorities.

Kerry McCarthy: To ask the Secretary of State for Culture, Media and Sport how many applications have been granted for licences for 24 hour sale of alcohol in *(a)* Bristol and *(b)* the constituency of Bristol East. [41600]

James Purnell: This information is normally available from local licensing authorities but, as announced in our Press Notice of 23 September 2005, Bristol is a scrutiny council with which DCMS is working closely to monitor how the Licensing Act 2003 is being implemented. According to Bristol city council, nine licences for 24-hour sale of alcohol have been granted in Bristol-to three supermarkets, one casino, two restaurants and three nightclubs. The Department does not hold details for Bristol East.

Departmental Expenditure

Norman Lamb: To ask the Secretary of State for Culture, Media and Sport how many widescreen televisions have been purchased by her Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39150]

Mr. Lammy: The Department purchased a (widescreen) plasma screen unit for £2,750.00 in 2004–05.

The Royal Parks Agency purchased a widescreen television in 2005–06 for the sum of £222.99.

Mr. Salmond: To ask the Secretary of State for Culture, Media and Sport what the administrative costs were of each non-departmental public body for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40065]

Mr. Lammy: The information requested is not held centrally and could be obtained only at disproportionate cost. The administration budgets regime overseen by Treasury does not cover non-departmental public bodies (NDPBs).

The split of total departmental spending between identifiable and non-identifiable expenditure is set out in the 'Public Expenditure Statistical Analysis', copies of which can be found in the House Library.

Digital Television (Northern Ireland)

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport how many and what percentage of households in Northern Ireland receive digital television via *(a)* satellite, *(b)* cable and *(c)* terrestrial provision. [42131]

James Purnell *[holding answer 16 January 2006]:* According to Ofcom, overall household digital TV penetration in Northern Ireland is 45 per cent. We do not have figures breaking this down by platform.

Elite Athletes (Funding)

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether UK Sport's submission to her Department on funding for elite athletes was endorsed by the British Olympic Association. [42964]

Mr. Caborn: UK Sport's submission to the Department was endorsed by the UK Sport Board. The British Olympic Association (BOA) played an important role in developing and agreeing the 'top line' position and funding presented in the submission. This included taking part in a series of meetings with UK Sport and representatives from 22 of the 26 summer Olympic sports.

The chair of the BOA wrote on 2 December to the Department expressing its broad support for one of the options contained in UK Sport's submission.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether she considered the letter from the chair of the British Olympic Association to her on 2 December 2005 about elite funding to be a funding submission. [42965]

Mr. Caborn: The chair of the British Olympic Association's letter of 2 December to the Secretary of State expressed broad support for one of the options contained in UK Sport's submission. It is not considered to be a funding submission.

Energy Efficiency

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what targets she has set for improving energy efficiency in her Department; and what steps she is taking to achieve these targets. [42794]

James Purnell: The Department, along with other Government Departments, is committed to achieve the targets under the Framework for Sustainable Development on the Government Estate Part E Energy. The targets include energy efficient measures and energy clauses in estate management contracts.

In order to achieve these targets the Department has developed an energy strategy. This involves identifying potential savings through effective procurement; monitoring and targeting our consumption by analysing data, carrying out energy surveys of usage; capital investment in energy saving measures such as time controls and an awareness campaign amongst staff led by the Department's team of environmental champions.

The Department is also taking advantage of the planned refurbishment of its Cockspur Street offices to incorporate energy efficient measures such as passive infrared lighting controls.

The Department is supplied by 100 per cent. renewable energy.

Licensing Act

Michael Gove: To ask the Secretary of State for Culture, Media and Sport what representations she has received from *(a)* church halls, *(b)* village halls and *(c)* users of other community buildings about the Licensing Act 2003. [41855]

James Purnell: The Department has received many representations about the 2003 Act from managers and users of church and village halls and other community buildings. In addition, as members of my High Level Group on Licensing, Action for Communities in Rural England raise issues of concern to village and other halls direct with me on a regular basis. These views are being fed into both our review of the statutory guidance and the Independence Review of Licensing Fees.

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what representations she received from the hospitality sector in Tamworth on the Licensing Act 2003; and if she will make a statement. [40683]

James Purnell: The Department has no record of representations from the hospitality industry in Tamworth about the Licensing Act 2003. Last year Ministers in the Department received representations about the Act from two addresses in Tamworth. One of these was from my hon. Friend the Member for Tamworth, enclosing correspondence from a constituent in the attractions sector, to which I replied on 15 July 2005.

London Olympics

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many businesses in Marshgate will need to be relocated for the 2012 Olympics; and how many have reached a settlement with the London Development Agency. [42706]

Mr. Caborn *[holding answer 16 January 2006]:* The London Development Agency (LDA) estimates that there are currently 91 businesses operating in or around Marshgate Lane.

Of these, one (the largest employer located in Marshgate Lane) has signed a legal contract; 11 have confirmed alternative relocation sites and a further 52 have appointed advisors in order to commence negotiations.

Additionally, two businesses have already moved out of the Marshgate Lane area after reaching agreements with the LDA.

Mobile Phone Masts

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of *(a)* one and *(b)* more than one mobile telephone masts on local television reception. [41881]

James Purnell *[holding answer 16 January 2006]:* Any kind of physical feature, be it man-made or natural has the potential to affect TV reception. However, Ofcom believe that in most cases the small towers or masts used by mobile phone companies cause negligible effects upon TV reception.

Rural Tourism

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of rural tourism in Staffordshire; and if she will make a statement. [42076]

James Purnell: Rural tourism is a vital element of the English and British tourism offer. At national level, my Department funds the work of VisitBritain and the England Marketing Advisory Board in promoting rural tourism to both the domestic and international markets. VisitBritain spent £1 million in directly promoting rural areas across England in 2004–05.

The regional development agencies have been responsible for supporting tourism at regional level since 2003. Advantage West Midlands includes tourism initiatives which take account of the region's rural areas in its Economic Strategy, and will be investing £900,000 in the promotion of local tourism across the county over the period from 2003 to 2006. Local authorities in Staffordshire also invest significantly in supporting rural tourism in the county.

TREASURY

Child Benefit

Mr. Laws: To ask the Chancellor of the Exchequer what the real terms level of child benefit for *(a)* the first child and *(b)* other children was in each year since 1976–77; and if he will make a statement. [41216]

Dawn Primarolo: The following table shows the weekly child benefit rates for since its introduction in 1977–78. The figures show the rate for the first child and subsequent children separately, and alongside these figures are the weekly rates in real terms at 2005–06 prices.

In addition to receiving child benefit, families in 2001–02 and 2002–03 were eligible for children's tax credit. From 2003–04 onwards families are able to claim child tax credit. Therefore the minimum that a family in receipt of the maximum child tax credit award would receive per week would be £59.90 for a family with one child, and £103.80 for a family with two children.

£

Year[1]	Child benefit weekly rate		Child benefit weekly rate at 2005–06 prices	
	1st child	2nd and subsequent children	1st child	2nd and subsequent children
1977–78	1.00	1.50	4.24	6.35
1978–79	2.57	2.57	9.80	9.80
1979–80	4.00	4.00	13.06	13.06
1980–81	4.27	4.27	11.80	11.80
1981–82	4.93	4.93	12.44	12.44
1982–83	5.47	5.47	12.89	12.89
1983–84	6.09	6.09	13.73	13.73
1984–85	6.63	6.63	14.20	14.20
1985–86	6.90	6.90	14.02	14.02

[1] Prior to 1987–88, the child benefit weekly rate was often increased in November and not April, so adjustments have been made to calculate the average weekly rate for the financial year

Child Care

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what role his Department has in the regulation of child care; and if he will make a statement. [42121]

Mr. Des Browne *[holding answer 17 January 2006]:* None. Ofsted regulates child care in England under the policy direction of the Department for Education and Skills.

Child Poverty

Mr. Laws: To ask the Chancellor of the Exchequer (1) what assessment he has made of the role of child benefit in reducing child poverty; and if he will make a statement; [41397]

(2) what assessment he has made of the impact of child tax credit on the number of children in relative poverty in each year since 2000–01; and if he will make a statement; [41288]

(3) what assessment he has made of the likely effects on child poverty in the UK of *(a)* increasing child benefit by £5 for each child and *(b)* raising the child element of child tax credit by £500 per year; and if he will make a statement; [41213]

(4) what estimate he has made of *(a)* total cost and *(b)* the effect on the proportion of children living in relative low income households of (i) increasing the rate of child benefit for all children to the rate for the first child and (ii) paying child benefit at the rate of £17.50 for all children aged up to 12 years and £12.00 for other eligible children; [41432]

(5) what estimate he has made of the cost of eradicating child poverty in the UK by 2007–08; and if he will make a statement. [41215]

Dawn Primarolo: Between the mid 1970s and mid 1990s, relative child poverty more than doubled. This Government have committed to halve child poverty by 2010–11 and to eradicate it by 2020.

Macro-economic stability, active labour market policies such as the new deal, policies to make work pay such as the national minimum wage and the working tax credit, and financial support for families, have all contributed to reducing child poverty since 1998–99. On an after-housing-cost basis, this approach has lifted 600,000 children out of relative poverty (60 per cent. of less of contemporary median income), and 1.8 million children out of absolute poverty (60 per cent. or less of median income in 1996–97, uprated by prices), between 1998–99 and 2003–04. Since 2000–01, 300,000 children have been lifted out of relative poverty and 800,000 children have been lifted out of absolute poverty.

Financial support for families has been based on the principle of progressive universalism, with support for all families and additional support for those who need it most. Child benefit provides universal support, and the Government have increased the rate of child benefit for the first child by more than 25 per cent. in real terms since 1997. The child tax credit (CTC) was introduced in April 2003, and targets additional financial support based on the needs and circumstances of the whole household. As a result of the Government's reforms to the tax and benefit system since 1997, by October 2007, in real terms, families with children will be, on average, £1,550 a year better off, while those in the poorest fifth of the income distribution will be, on average, £3,350 per year better off.

The Government have set out its spending plans to 2007–08, including a commitment to increase the child element of CTC in line with earnings. While it is possible to model the immediate effect of further changes, there are uncertainties in projecting the numbers of children in relative low income poverty. A further increase of £5 per week in the rate of child benefit would initially lift around 350,000 children out of poverty, at a cost of around £3.4 billion. A further increase of £500 per week in the child element of CTC would initially lift around 750,000 children out of poverty, at a cost of around £3.5 billion. Increasing the rate of child benefit for all children to the rate for the first child would lift around 250,000 children out of poverty, at a cost of around £1.7 billion.

The Family Resources Survey does not enable the Government to make an estimate of the cost or effect of reducing the rate of child benefit when a child reaches the age of 12. The Government have not made an estimate of the cost of eradicating child poverty by 2007–08, which would depend on the definition used, and would be subject to large uncertainties around future income growth, changes in the income distribution, and individual changes in behaviour in response to policy changes.

Dormant Accounts (Northern Ireland)

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how much money is estimated to have been in dormant accounts in financial institutions in Northern Ireland in 2005. [42279]

Mr. Des Browne: As announced in the pre-Budget report 2005, based on the definition that unclaimed assets should generally cover accounts where there has been no customer activity for a period of 15 years, initial record searches by the industry suggest that several hundred million pounds may currently lie unclaimed.

This figure is for the UK as a whole.

Drugs Seizures (Glasgow Airport)

Jim Sheridan: To ask the Chancellor of the Exchequer on how many occasions HM Revenue and Customs officers seized drugs at Glasgow Airport in 2005. [42034]

Dawn Primarolo: HM Revenue and Customs made 68 drug seizures at Glasgow Airport in 2005.

Freedom of Information

Mr. Laws: To ask the Chancellor of the Exchequer on how many occasions since May 2005 officials from his Department have consulted their Freedom of Information Officer on answers to parliamentary questions from *(a)* the hon. Member for Yeovil and *(b)* all hon. Members. [41854]

John Healey: Officials preparing draft answers to parliamentary questions consult colleagues, including the Freedom of Information Officer, as necessary. Records of such consultations are not maintained.

Health Expenditure

Mr. Lansley: To ask the Chancellor of the Exchequer pursuant to the answer of 1 March 2005, *Official Report*, column 1062W, on health expenditure, what percentage of the United Kingdom's gross domestic product he estimates has been spent on health in 2005–06; what percentage this will be in 2006–07, broken down by *(a)* public and *(b)* private expenditure; and what the most recent estimate is of the (i) EU-15 and (ii) EU-25 average health expenditure as a proportion of gross domestic product. [41999]

Mr. Des Browne: The information about UK health spending is in the following table. According to the latest figures from the Organisation for Economic Cooperation and Development (OECD), average total health expenditure in 2003 was (i) 8.7 per cent. of GDP for the EU-15 and (ii) 8.3 per cent. of GDP for the 19 members of the EU-25 that are also members of the OECD.

UK health expenditure as a percentage of GDP

	2005–06	*2006–07*
Public expenditure	7.3	7.6
Private expenditure	1.4	1.4
Total UK expenditure	8.7	9.0

Notes:

1. The public expenditure figures are taken from Public Expenditure Statistical Analyses 2005.
2. Private spending is calculated in a similar way as for ONS health accounts. From 2004–05, it is assumed to carry forward as a constant share of GDP.
3. The EU averages are simple averages of the figures for each country; they are not weighted by country population. For seven countries where 2003 figures were not available, 2002 figures were used instead.
4. The 19 members of the OECD within the EU-25 are the EU-15 plus the Czech Republic, Hungary, Poland and the Slovak Republic.

HM Revenue and Customs

Mr. Laws: To ask the Chancellor of the Exchequer (1) what percentage of telephone calls to HM Revenue and Customs contact centres were *(a)* answered on the first call, *(b)* answered on the same day and *(c)* unanswered or had their calls aborted in the last period for which figures are available; and if he will make a statement; [29703]

(2) how HM Revenue and Customs distinguishes in its telephone target performance between calls answered at the first attempt and calls answered on the same day. [29704]

Dawn Primarolo: The information is as follows.

1. No such distinction is made.

2. *(a)* This information is not available

(b) Callers to HMRC contact centres usually get through on the day they try though callers at the busiest times of the day may have to try more than once. HMRC estimate that in November 2005 the number of callers[1] to former Inland Revenue contact centres who spoke to an adviser on the day they called was around 99 per cent.

(c) HMRC estimate that in November 2005 the number of callers[2] to former Inland Revenue contact centres whose calls were unanswered on the day they called was around 1 per cent. HMRC does not generally abort calls from callers other than—exceptionally—where the caller is abusive.

Caller[2] level information is not available for former HM Customs & Excise contact centres.

1. Number of calls handled measured as a percentage of total unique telephone numbers calling within the day.

2. Excludes the St. Austell Orderline and the On line Services helpline where the information is not available.

Jim Sheridan: To ask the Chancellor of the Exchequer how many HM Revenue and Customs officers are permanently based at Glasgow Airport. [42036]

Dawn Primarolo: Five officers are permanently based at Glasgow Airport dealing with regulatory matters. A pool of 68 Anti Smuggling Officers are based at Falcon House, Paisley which is within one mile of the airport. They undertake operational anti smuggling work at Glasgow Airport according to identified risk. They are supplemented as necessary by anti smuggling staff based in Edinburgh and by officers on flexible anti smuggling strike forces.

Lone Parents

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many lone parent families there were in the UK in each year since 1976–77; and if he will make a statement; [41292]

(2) how many *(a)* workless households and *(b)* households with two or more earners there were in each year since 1978–79; and if he will make a statement. [41294]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Questions about lone parent families and households with either no-one or two people or more in employment, since 1976. (41292, 41294)

The Labour Force Survey household datasets have been used to reply to both questions, where information is given back to 1992, as that was when they were first produced on a comparable basis.

Table 1 gives the number of lone parent families for the three months ending in May each year from 1992 to 2005.

Table 2 gives the numbers of working age households with either no-one in employment, or with two or more people in employment.

Estimates are taken from the Office for National Statistics' Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Table 1: Lone parent families with dependent children, United Kingdom—Three months ending May each year, 1992 to 2005

	Thousand Lone parent families
1992	1,368
1993	1,396
1994	1,569
1995	1,685
1996	1,643
1997	1,605
1998	1,724
1999	1,737
2000	1,708
2001	1,741
2002	1,809
2003	1,820
2004	1,873
2005	1,881

Note:
Refers to people who are not married or cohabiting and have dependent children, who are defined as aged 0 to 15, or aged 16 to 18 and in full-time education.
Source:
ONS Labour Force Survey

Table 2: Working age workless households and working age households with more than two people in employment, United Kingdom—Three months ending May each year, 1992 to 2005

	Workless[1] households	*Thousand Households with at least two people in employment*
1992	3,032	8,271
1993	3,271	8,219
1994	3,373	8,236
1995	3,419	8,325
1996	3,437	8,503
1997	3,265	8,673
1998	3,235	8,754
1999	3,157	8,838
2000	3,075	9,032
2001	3,062	9,061
2002	3,126	8,996
2003	3,035	9,083
2004	3,008	9,117
2005	3,068	9,188

[1] A working age workless household is a household that includes at least one person of working age, and in which no one aged 16 or over is in employment.
Source:
ONS Labour Force Survey

Charles Hendry: To ask the Chancellor of the Exchequer what schemes to help lone parents into employment are funded by the Treasury. [42848]

Dawn Primarolo: A range of Government policies help lone parents move into work including active labour market policies, ensuring work pays through the tax credit system and the national minimum wage, and tackling barriers to work such as availability of child care. The Department for Work and Pensions, through Jobcentre Plus, is responsible for delivery of employment programmes and pilots, and funding is provided by the Treasury through the spending review process. The Treasury also funds the tax credit system which is administered by Her Majesty's Revenue and Customs.

Nuclear Power Stations (Insurance Liabilities)

Greg Clark: To ask the Chancellor of the Exchequer how public sector insurance liabilities relating to nuclear power stations are recorded in the national accounts; and whether there are special rules for this case that do not apply to other public sector insurance liabilities. [42014]

Mr. Des Browne: The framework for managing nuclear liabilities arising from damage to nuclear power stations or damage caused by nuclear power stations in the UK is set out at: http://www.dti.gov.uk/energy/nuclear/safety/liability.shtml.

Any contingent liabilities or provisions stemming from the implementation of this insurance framework will be included in the accounts of the relevant Government Department, NDPB or public corporation.

National accounts will include any payment required to meet a nuclear insurance liability in the year in which the payment falls due.

Public Sector Pension Schemes

Shona McIsaac: To ask the Chancellor of the Exchequer which public sector pension schemes *(a)* provide and *(b)* do not provide benefits for unmarried heterosexual partners. [42675]

Mr. Des Browne: Information is not held centrally on the benefits in all occupational pension schemes in the public sector. The Treasury is responsible for the general policy on the statutory public service pension schemes. All of these schemes provide survivor pensions for partners of scheme members where there is a legal partnership through marriage or civil registration in the case of same gender couples. Our policy is not to discriminate on the basis of sexual orientation in provision for partners who are not married or civilly-registered to the scheme member. Any scheme may modernise its benefits to provide survivor pensions for unmarried and unregistered partners provided this improvement is introduced in a way which does not add to costs falling on the taxpayer. Of the statutory public service schemes *(a)* the 2002 section of the Principal Civil Service Pension Scheme (premium) and the new armed forces scheme launched in 2005 have introduced provisions for unmarried and unregistered survivor pensions, as have the parliamentary pension scheme and the scheme for UK Members of the European Parliament with effect from 2004; and *(b)* none of the other public service schemes have yet done so. Many of the other schemes have proposals to do so as part of the restructuring of benefits associated with increases to normal pension ages and other changes which will overall reduce taxpayer costs, including the schemes for local government, the NHS, teachers, police, and firefighters.

Self-assessment Tax Returns

Anne Milton: To ask the Chancellor of the Exchequer how much was spent on advertising *(a)* on television and *(b)* in printed media for the HM Revenue and Customs self-assessment awareness campaign in the last 12 months. [42397]

Dawn Primarolo: I refer the hon. Member to the answer I gave the hon. Member for Twickenham (Dr. Cable) on 18 July 2005, *Official Report*, column 1334W. £3 million relates to television advertising and £4.5 million to press, radio, printed and ambient media.

Anne Milton: To ask the Chancellor of the Exchequer what criteria he will use to measure the effectiveness of the HM Revenue and Customs recent self assessment awareness campaign. [42398]

Dawn Primarolo: The Income Tax Self Assessment media campaign is evaluated through tracking research. An independent consultancy (Billetts) is employed by the Central Office of Information to audit the media buying agencies used by HMRC to ensure that they achieve value for money and provide levels of customer awareness. Analysts employed by HMRC will formally evaluate the direct mailing campaign trialled in 2005–06.

Mr. Drew: To ask the Chancellor of the Exchequer if he will make a statement on the plans to change the procedures for the processing of tax returns such that HM Revenue and Customs will no longer issue receipts for self assessment tax returns handed into tax offices; whether this change was agreed with the Institute of Chartered Accountants; and whether the Chartered Certificate Institute was informed of this change. [42226]

Dawn Primarolo: It has not been HMRC policy to provide receipts for self assessment tax returns handed in at tax offices although, in practice, some offices have provided receipts. The change in procedure this year simply standardises the approach across the UK. It was the subject of consultation with the main accountancy representative bodies-CIOT, ICAW, ICAS, ACCA AAT and ATT-and an announcement was published on the HMRC website on 9 December 2005 and in Tax Bulletin 80 on 19 December 2005.

Tax Credits

Jim Cousins: To ask the Chancellor of the Exchequer how many *(a)* terminations of tax credit notices and *(b)* new re-instatements of terminated tax credit notices have been issued in each month since 1 January 2004. [19262]

Dawn Primarolo: The information requested is not available.

Greg Clark: To ask the Chancellor of the Exchequer what target the Government have for minimising the overpayment of tax credits in 2004–05; and what targets have been set for *(a)* 2005–06 and *(b)* 2006–07. [38933]

Dawn Primarolo *[holding answer 20 December 2005]:* HM Revenue and Customs does not have targets for minimising the overpayment of tax credits.

I refer the hon. Gentleman to the written statement I gave to the House on 5 December 2005, *Official Report*, column 53WS for the factors from which overpayments result, for an update on improvements already made to the tax credit system, and the announcement of a package of further improvements. The measures announced strike a balance between providing more certainty and stability of financial support for families, while maintaining flexibility to respond to changes in their income and circumstances.

HMRC is committed to responding quickly and effectively to changes of circumstances and changes in income reported by claimants that impact on tax credits awards so that the likelihood and size of any overpayment is kept to a minimum. It is also committed to supporting claimants to report changes promptly and more regularly.

Jenny Willott: To ask the Chancellor of the Exchequer how many and what proportion of telephone calls for tax credits in Wales *(a)* received the engaged tone, *(b)* were disconnected during the IVR process and *(c)* were abandoned by the caller in each year since the tax credit system began; and if he will make a statement. [39474]

Dawn Primarolo: The technology behind the tax credits helpline telephone network distributes calls across the UK on the basis of the next available adviser, regardless of the area of origin of the call. Therefore we do not have the available information to answer this question.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how much has been lost in tax credit payments by those people who failed to renew their tax credit applications by the annual deadline in 2005. [42122]

Dawn Primarolo: Claimants awards are terminated if they fail to renew by the annual deadline. If a claimant appeals and HMRC accepts the reason for late renewal, their award is reinstated, with full back payments, and they incur no loss of tax credit payments. Claimants whose payments are terminated may wish to reapply for tax credits, in which case theirs will be treated as a new claim and normal arrangements apply including backdating of credits for up to three months.

The failure to return the annual declaration means that the information needed to establish entitlement, and hence any lost payment, for any period is not available.

Tax Investigations

Mr. Bone: To ask the Chancellor of the Exchequer what the cost of tax investigations by the Inland Revenue was in each year since 1997; and how many staff were employed to carry them out in each year. [40928]

Dawn Primarolo: The information requested is available only at a disproportionate cost.

Untaxed Spirits

Jim Sheridan: To ask the Chancellor of the Exchequer on how many occasions HM Revenue and Customs staff detected the illegal sale of untaxed spirits in Scotland in 2005. [42035]

Dawn Primarolo: There were 14 inland detections of non-UK duty paid spirits in Scotland in 2005. These would have been at or close to the point of sale.

Valuation Office Agency

Mr. Sanders: To ask the Chancellor of the Exchequer what the national targets are for the Valuation Office Agency; and what the performance of relevant offices in the South West Region has been against those targets. [41993]

Dawn Primarolo: Within the South West Region are the Valuation Office Agency's South Western and Western Groups, covering local taxation work, and the South West District Valuer Services Unit covering other work. The national targets for 2004–05 and audited results (which are also available on the Agency's website at www.voa.gov.uk) are shown as follows, with a division between those offices within South West Region where applicable. National targets are also shown for the current year—2005–06—for which results will be published in the Agency's Annual Report in due course.

Valuation office agency national targets and results—2004/05

Agency wide key targets	*Agency target*	*Agency result*
National result—apportionment to South West not applicable		
Value for money		
Improve productivity by 2.5% in 2004–05	2.5%	2.4%
And achieve improvements of at least 15%, on 2004–05 figures, by 2007–08	15% by 2007–08	'On course'
People satisfaction		
Improve staff satisfaction in working for the VOA in comparison with other places of work, based on annual survey results, by 1%	53%	58%
Financial "break even"		
Recover full resource costs within Parliamentary Approved Estimates, including a return on capital of £3.5 million from fees and charges		Achieved
Local taxation key targets		
Valuation accuracy		
Contain reductions in the 2000 local rating lists to less than 7.5% in respect of compiled list appeals settled in 2004–05	7.5%	9.7%
And to a maximum of 4.7% of the total compiled list rateable value over the entire life 2000 rating lists	4.7%	4.6%
Council tax revaluation		
Prepare for the forthcoming revaluation of domestic properties in England by digitising data for 97.5% of properties by 31 March 2005	97.5%	Achieved

Valuation office agency national targets and results—2004/05

Agency wide key targets	*Agency target*	*Agency result*
And, by 31 July 2004, evaluate whether the automated valuation model (AVM) can be utilised effectively for the banding of a minimum of 60% of dwellings	60%	Achieved
District valuer services key target		
Achieve an increased fee income of £19.2 million	£19.2 million	£19.4 million
And ensure that its share of VOA costs is covered		Achieved

Local taxation key targets	*Target*	*South West Group Result*	*Western Group Result*
Rating revaluation			
Prepare for the forthcoming revaluation of non-domestic properties in England and Wales by producing draft rating lists by 30 September 2004	Achieved	Achieved	
And compiled rating lists by 31 March 2005		Achieved	Achieved
Customer satisfaction			
Maintain customer satisfaction, based on annual surveys, at 86%	86%	72.16%	76.19%
Local taxation—other targets			
Rating			
Draft programmes for clearance of appeals available by 31 July 2004	31 July 2004	Achieved	Achieved
Publish final programmes by 1 October 2004	1 October 2004	Achieved	Achieved
And adhere to start date in 95% of cases	95%	98.85%	96.65%
Appeals settled—England	280,000	13,555	11,296
95% of reports cleared within three months of receipt	95%	92.91%	95.3%
And clear all those received within 2004–05 by the end of the year	100%	100%	100%
Council tax			
Clear council tax appeals within a maximum of 27,800 in England	27,800	3,015	1,554
Provide a considered view to taxpayers on whether an adjustment to their banding is justified within two months of receipt of their appeal	100%	46.67%	64.1%
Ensure that all appeals are ready for hearing within six months	100%	96.67%	96.61%
Clear 95% of all reports within three months of receipt	95%	96.3%	97.36%
And 95% of all reports, in respect of new properties, within two months of receipt	95%	91.55%	95.92%
Ensure that 95% of new bandings are "right first time"	95%	94.17%	94.58%
Customer service			
Answer all telephone calls within an overall average of 10 seconds	100%	100%	100%
Acknowledge all correspondence within five working days	100%	98%	99%
Reply to 90% of correspondence, based on information held, within 15 working days	90%	82.74%	94.8%
See all callers to our offices within five minutes	100%	100%	100%
Achieve specified standards for valuation accuracy	90%	93.33%	93.3%
Meet timeliness targets	90%	92.9%	92.5%

District valuer services—other targets	*Target*	*District valuer SW result*
Inheritance tax		
Clear all initial appraisal cases within 20 working days	100%	93%
Report agreed values for 75% of cases within three months	75%	83%
Report agreed values for 90% of cases within six months	90%	95%
Report agreed values for 95% of cases within nine months	95%	98%
Capital gains tax		
Clear 90% of initial appraisal/information valuation cases within 30 working days	90%	79%
And the remainder within three months	100%	95%
Clear 90% of negotiation cases within six months	90%	66%
And the remainder within 12 months	100%	90%

CONSTITUTIONAL AFFAIRS

Clinical Negligence

Mr. Baron: To ask the Minister of State, Department for Constitutional Affairs how many legally aided clinical negligence cases were closed in the last 12 months; and how many *(a)* proceeded beyond investigation and *(b)* resulted in (i) an award of damages and (ii) a settlement involving an agreement to pay damages. [43104]

Bridget Prentice: In the last year 6,217 cases were closed where an outcome was reported of which 2,574 went beyond the investigation stage. In these cases the solicitors reported a substantive benefit to the client in 56 per cent. of cases.

Departmental Expenditure

Pete Wishart: To ask the Minister of State, Department for Constitutional Affairs what has been the annual expenditure on training and development for *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [40004]

Bridget Prentice: Since April 2002 the Department for Constitutional Affairs (formerly the Lord Chancellor's Department) has provided a corporate HR service, including learning and development for the Department and it's executive agencies—Court Service (until 1 April 2005), Her Majesty's Courts Service (from 1 April 2005)

and Public Guardianship Office. The Legal Service Commission has its own HR department including learning and development.

Annual expenditure for central learning and development provision for the last three years in *(a)* The Department and *(b)* (ii) executive agencies is as follows.

	Annual expenditure (£)
2002–03	891,558
2003–04	1,636,831
2004–05	1,609,268

It is not possible to provide a breakdown across Department and agencies nor across countries/regions as expenditure is not recorded in this way and the information could be provided only at disproportionate expense.

These figures do not include local expenditure on learning and development activity. This information could be provided only at disproportionate expense.

In 2005–06 planned expenditure is as follows:

	Planned expenditure (£)
Central learning and development including SCS	3,577,000
HMCS Regions	
London	255,000
Midlands	195,000
North West	195,000
North East	270,000
South West	195,000
South East	240,000
Wales and Cheshire	150,000
Regional Total	1,500,000

The budget for learning and development has increased significantly in 2005–06 as the creation of HMCS increased the size of the organisation by approximately 10,000 staff, including approx 2,500 lawyers who need to meet their continuing professional development requirements.

Annual expenditure for central learning and development provision for the last three years in *(b)* (i) Legal Services Commission is as follows:

	2002–03	*2003–04*	*2004–05*	*2005–06*
Central training	912,418	1,203,801	454,207	987,614
Regional Offices				
London	5,249	33,831	123,161	52,652
Bristol	10,130	25,444	31,275	29,867
Cardiff	7,123	6,176	24,734	27,804
Birmingham	4,343	10,950	24,076	25,800
Manchester	17,124	46,157	20,675	11,067
Newcastle	6,685	8,872	31,624	453
Leeds	3,743	8,705	17,073	2,273
Nottingham	2,964	4,806	6,924	13,250
Cambridge	9,553	24,447	21,141	14,232
Chester/Liverpool	6,756	15,141	22,918	22,530
South East	8,707	6,991	25,941	45,294
Regional total	102,377	191,520	349,542	245,222

It is not possible to provide a breakdown for the central training budget across regions as expenditure is not recorded in this way and the information could be provided only at disproportionate expense

Office for Disability Issues

Danny Alexander: To ask the Minister of State, Department for Constitutional Affairs whether a Minister in her Department is planned to be nominated to take responsibility for liaison with the Office for Disability Issues; and if she will make a statement. [37069]

Ms Harman: My hon. Friend the Member for Stirling (Mrs. McGuire), the Minister for disabled people, has overall responsibility for the Office for Disability Issues (ODI). The Minister for disabled people chairs a cross-government steering group which includes ministerial representatives from the Department of Health, Department for Education and Skills, Office of the Deputy Prime Minister, Department for Transport, and Department for Trade and Industry. The Minister in this Department nominated to take responsibility for liaison with the ODI will be Baroness Catherine Ashton of Upholland.

Legal Services Commission

Mr. Pelling: To ask the Minister of State, Department for Constitutional Affairs if she will list the Legal Services Commissions' contracted suppliers in the London borough of Croydon for *(a)* criminal matters, *(b)* employment, *(c)* family matters, *(d)* housing, *(e)* immigration, *(f)* mental health and *(g)* social payments. [41125]

Bridget Prentice: The Legal Services Commission contracts with suppliers throughout England and Wales to provide a range of legal and advice services across different categories of law.

The contracted suppliers in the listed categories in the London borough of Croydon are as follows:

(a) Criminal matters

Amphlett Lissimore
Barnes Harrild & Dyer
Benedict Charles & Co.
Dexter Henry & Co.
DKLL
Hiace Solicitors
J A Mundy & Co.
Mansouri & Son Solicitors
Mccauley-Slowe Solicitors
McMillan Williams
Omezie & Co.
Ormerods
Robert Blackford & Co.
Roger Long & Co.

(b) Employment

Croydon & Sutton Law Centre

(c) Family matters

Amphlett Lissimore
Atkins Hope
Barnes Harrild & Dyer
Barrington C Edwards & Co.

Daniel Curry & Co.
DKLL
Grants Solicitors
Haider Kennedy Solicitors
McMillan Williams
Ormerods
Robert Blackford & Co.
Roger Long & Co.
Streeter Marshall
White & Sherwin

(d) Housing

Amphlett Lissimore
Daniel Curry & Co.
McMillan Williams
Ormerods
Streeter Marshall
Croydon & Sutton Law Centre

(e) Immigration

Barnes Harrild & Dyer
Hiace Solicitors
Simman Solicitors
Croydon & Sutton Law Centre

(f) Mental health

None

(g) Welfare Benefits[1]

Grants Solicitors
Croydon & Sutton Law Centre
Thornton Heath Citizens Advice Bureau

[1] The LSC does not have a 'social payments' category so has provided figures for welfare benefits'

Small Claims (Personal Injuries)

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs which organisations she plans to consult as part of the review of personal injuries limits for small claims. [31594]

Ms Harman: The consultation paper on case track limits will be sent to a wide range of stakeholders, including the legal profession, insurers, consumer organisations, trade unions, business and the judiciary.

INTERNATIONAL DEVELOPMENT

African Partnership Forum

Andrew George: To ask the Secretary of State for International Development what role his Department has given to African civil society groups in the African Partnership Forum. [42211]

Mr. Thomas: African civil society groups have an important part to play in supporting the Africa Partnership Forum's (APF) role as a high-level inter-governmental forum addressing strategic policy issues affecting Africa's development.

A key part of the APF's work is monitoring delivery of international and African commitments to support the continent, on the basis of a new Joint Action Plan. Civil society groups should hold governments to account for delivery of these commitments, and also for their results. DFID is supporting the Archbishop of Capetown's proposal for an 'African Monitor', which will bring together civil society groups across Africa for this purpose, complementing the APF's role.

The APF Support Unit being established in Paris will provide a central contact point for civil society groups, including in relation to the Plan. Civil society groups are not members of the APF, which is an inter-governmental forum. However, my co-chairs and I participated in a consultation with a broad range of civil society groups prior to the most recent meeting. It will be for Co-Chairs of future meetings to decide what form civil society input should take.

Anti-retroviral Medicines

Ms Keeble: To ask the Secretary of State for International Development what discussions his officials have had with UNICEF about the development of new anti-retroviral medicines for children suffering from HIV/AIDS in developing countries. [41940]

Mr. Thomas: DFID is in regular contact with UNICEF concerning children suffering from HIV/AIDS in developing countries.

In July 2004, DFID was one of the first bilateral development agencies, along with Danish International Development Agency (DANIDA) and the United States Agency for International Development (USAID), to endorse the UNAIDS/UNICEF Framework for the protection, care and support of orphans and vulnerable children living in a world with HIV/AIDS.

DFID is funding UNICEF programmes in Africa, totalling £44 million, as part of our commitment to spend £150 million on children affected by AIDS and supports the UNICEF Global Campaign which has an objective of increasing access to treatment for children.

We are also co-hosting the Global Partners Forum on children affected by AIDS which will consider how to address the blockages on treatment for children. This meeting will feed into the Global Steering Committee towards scaling up universal access to treatment by 2010, an assessment which will be reported to the UN General Assembly Special Session on AIDS (UNGASS) in June.

Commission for Africa

Andrew George: To ask the Secretary of State for International Development what steps his Department has taken to raise awareness of the Commission for Africa Report in Africa. [42209]

Mr. Thomas: The Commission for Africa report, 'Our Common Interest', was launched on 11 March in parallel events at the British Museum in London and at the headquarters of the African Union in Addis Ababa. The report was presented to the United Nations the same day in New York.

Following the launch, the Commission undertook a four month series of presentations leading up to the G8 Summit at Gleneagles. This included regional events in Africa as well as G8 countries. More than 45 presentations were made in over 20 countries. Audiences included the African Union New Partnership for Africa's development (AU-NEPAD), governments, private sector and civil society.

The full story of the Commission's work is told on the Commission website www.commissionforafrica.org which will remain as a permanent online archive. As well as the full report being published in English and French, Part One is available on the website in Arabic, Swahili and Portuguese, as well as Mandarin and Japanese.

The costs of the Commission for Africa, including these activities to raise awareness in Africa and other parts of the world, were met by the Department for International Development.

Andrew George: To ask the Secretary of State for International Development what procedures were used by his Department for the recruitment of staff for the secretariat for the Commission for Africa. [42212]

Mr. Thomas: Initial recruitment took place by trawling across Whitehall in February 2004. 14 staff, including the Head of the Secretariat, were in post by the end of March 2004 and came from six different Whitehall departments. Another six Whitehall staff joined the team by the end of May. The Commission's website editor was recruited in June 2004 through a recruitment agency.

Capacity was strengthened in August with external recruitment of nine policy analysts by open competition through the civil service gateway and public advertisement.

Subsequently and during the lifetime of the Secretariat, additional staff were brought in as demand required through public advertisement and secondments from the private sector, the British Council and Whitehall.

Democracy Projects

Mr. MacShane: To ask the Secretary of State for International Development if he will list the criteria used by his Department to assess the effectiveness of projects to promote democracy. [41951]

Mr. Thomas: DFID's aim is poverty reduction, as measured by the achievement of the millennium development goals (MDGs), and the eventual elimination of poverty.

Within this framework, the criteria used by DFID to assess the effectiveness of projects in support of better governance are defined by the scope of each individual project. Examples of criteria of effectiveness for governance projects might include the number of eligible citizens able to register and vote at elections, the election of representatives of disadvantaged or marginalised communities to decision-making arenas such as local government councils, or the establishment of channels for monitoring citizen satisfaction with key service sectors.

More generally, DFID uses the Organisation for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC) criteria to evaluate its own programmes. The criteria are: relevance; efficiency; effectiveness; impact; and sustainability:

Relevance: the extent to which the development assistance is consistent with the policies and priorities of the major stakeholders.

Efficiency: the relationship between the outputs achieved and the inputs used. Efficient development assistance uses the least costly approach to achieve its objectives.

Effectiveness: the extent to which development intervention achieves its objectives at the purpose and goal level.

Impact: all outcomes (positive or negative) attributable to the development intervention.

Sustainability: the extent to which the activities, outputs and impacts will continue after external support has ended.

Developing Countries (Agricultural Trade)

John Bercow: To ask the Secretary of State for International Development what steps have been taken by his Department to assist developing countries in reforming their agricultural trade policies. [40596]

Mr. Thomas: DFID, along with all Government Departments, is committed to see reform of developed country agriculture policies, including trade policies, which distort international markets, and which if reformed, could deliver real development gains to the world's poorest countries. In the assistance we provide to developing countries, we do not start from the premise that their agriculture trade policies specifically must be reformed. The assistance that DFID provides to developing countries under our trade related capacity building programme is designed to support their own priorities and development needs, as identified by the countries themselves, and falls into three broad categories; helping developing countries to determine their own trade policies; helping them to negotiate their priorities in both bilateral and multilateral fora; and helping them to capture the potential benefits from trade. Since 1998, we have committed £181 million to trade related capacity building, and are set to increase this Aid for Trade to £100 million per annum by 2010.

For the least developed countries (LDCs), we contribute to the reform of their trade policies, including agricultural trade policies, through our support to the integrated framework (IF). The IF is an international initiative which assists LDCs to take the steps necessary to improve their trading performance in a manner which supports economic growth and poverty reduction. A Diagnostic Trade Integration Study (DTIS) is carried out for each LDC participating in the IF which identifies constraints to the trading performance of LDCs, policies, infrastructure, institutional and private sector capacity. It also provides technical advice on how to address these constraints. Agriculture trade policies will be considered in participating LDCs with agricultural export sectors.

The IF is active in over 30 countries, 21 of them in Sub Saharan Africa including Angola, Benin, Burkina Faso, Burundi, Ethiopia, Lesotho, Mali, Malawi, Mozambique, Niger, Rwanda, Sierra Leone, Tanzania and Zambia. DFID has contributed a total of £4.5 million to the IF since 2001.

DFID has also contributed £850,000 to the Standards and Trade Development Facility (STDF), a multi-donor funded programme that assists developing countries in improving their expertise and capacity to analyse and implement international sanitary and phytosanitary (SPS) standards.

DFID has recently published an agriculture policy paper. This identifies the need to improve the benefits of agricultural trade to poor people and poor countries and reaffirms DFID's strong commitment to agriculture, which we recognise as fundamental to poverty reduction and to the livelihoods of poor people.

Falluja

Andrew George: To ask the Secretary of State for International Development (1) what the *(a)* birth rate, *(b)* death rate and *(c)* infant mortality rate in Falluja was in each year since 1990; [42206]

(2) what the population of Falluja was in each year since 1990; [42207]

(3) what recent assessment his officials have made of the humanitarian situation in Falluja; [42208]

(4) how many people *(a)* in total and *(b)* as a percentage of the total population in Falluja had access to (i) clean water and (ii) electricity in each year since 1990 for which records are available. [42235]

Mr. Thomas: DFID has not made any recent assessment of the humanitarian situation in Falluja.

Humanitarian assistance and reconstruction in Falluja is the responsibility of the Iraqi Government, with support from the United States. Significant progress has been made since military operations concluded, and further projects are under way to improve basic services. To date, Falluja has received US$100 million for reconstruction, and US$103 million in housing compensation. The Iraqi Prime Minister recently approved a further US$75 million housing compensation, so that Falluja will have received a total of $281 million. Power and water is currently estimated to be available to over 80 per cent. of the population as a rule; however, a recent fire at an electricity substation has restricted these services. Prior to April 2004, the population of Falluja was estimated at 300,000; today the population is around 239,000.

Statistics on birth rate, death rate and infant mortality in Fallujah since 1990 are unavailable. For Iraq as a whole, this data can be estimated from surveys. However, when information is required at a more local level, the only source of information in most developing countries, including Iraq, is a population census. The most recent census, conducted in 1997, only contains details at the Governorate or regional level. Town-level estimates of birth and death rates are unlikely to have been calculated at any stage.

South East Asia Tsunami

Mr. Quentin Davies: To ask the Secretary of State for International Development what conclusions were reached by the meeting in Brussels on 20 December 2005 to draw lessons from the emergency aid and relief effort for the victims of the South East Asia tsunami of 26 December 2004; and if he will make a statement. [42173]

Mr. Thomas: I have arranged for the document entitled 'UK Presidency Conclusions from the Tsunami Follow-up Event; 20th December 2005: Brussels' to be placed in the Libraries of the House.

Sudan

Mr. Drew: To ask the Secretary of State for International Development what steps his Department is taking to help reduce infant mortality in the Sudan; and what help is available to Sudan from Government reconstruction funds. [41832]

Mr. Thomas: As in any conflict or humanitarian emergency, child health has suffered hugely in Sudan. In 2004, UNICEF's figures showed that out of 1,000 live births in Sudan, an estimated 91 would die before the age of five. By way of comparison, the UK's under five mortality rate is six out of 1,000.

This financial year, DFID has allocated £112.75 million for our work in Sudan. We aim to contribute towards the most critical needs in Sudan, especially in Darfur, Southern Sudan and the East. Of this, we channelled £45 million through the UN Work plan and £25 million via NGOs for a wide range of assistance including water and sanitation, emergency health care, shelter, food and nutrition; all of which help to reduce mortality.

For example, DFID currently funds a project which provides bed nets to women and children in Southern Sudan where malaria, a large contributor to infant mortality, is endemic. This follows similar programmes in Kenya and Gambia where it has been found that impregnated bed nets can reduce overall mortality rates by up to 30 per cent. in malaria endemic areas.

Although only a snapshot of the situation over the last six months, the recent World Health Organisation (WHO) mortality survey in Darfur revealed that death rates have dropped by two thirds in some areas. This points to the effectiveness of the responses in stabilising and improving the humanitarian situation in Darfur. With raising levels of insecurity, however, this remains extremely fragile.

Tax Evasion/Avoidance

Andrew George: To ask the Secretary of State for International Development what assessment has been made by his Department of the impact of tax evasion and tax avoidance on government finances in developing countries; and if he will make a statement. [42210]

Mr. Thomas: DFID is working with developing country governments and their revenue authorities to improve collection of taxes and customs duties. Increasing tax revenue will increase funding available for essential services such as primary education and primary healthcare.

DFID has not made an assessment of the impact of tax evasion and tax avoidance on developing countries' finances. The high number of businesses not formally registered in many countries is a significant constraint on collecting taxes. DFID is undertaking a study looking at the impact of tax on business which will, among other matters, examine the impact on incentives for businesses to remain in the informal sector.

80 per cent. of taxes in developing countries are collected from formal companies, through VAT, corporate taxes, and taxes on labour. In contrast, the

collection of personal tax is very small, so the potential for tax avoidance and evasion is less significant in terms of proportion of tax revenue from individuals.

Through work on the investment and regulatory climate facing the private sector, and on building capacity through training in inland revenue and customs offices, DFID is contributing to reducing the avoidance and evasion of taxes in developing countries.

West Bank Barrier

Mr. Fabian Hamilton: To ask the Secretary of State for International Development what assessment he has made of the effect of the barrier dividing the West Bank from Israel on the Palestinian economy. [41932]

Mr. Thomas: A preliminary analysis of the barrier's route, published by the UN's Office for the Co-ordination of Humanitarian Affairs (OCHA) in March 2005, identified that some 142,640 acres (10 per cent.) of West Bank land will lie between the completed barrier and the Green Line. This is some of the most fertile land in the West Bank and is currently home to 49,400 Palestinians. Where the Barrier has been constructed, Palestinians face economic hardship from being restricted from or not being able to reach their land to harvest crops, graze animals or earn a living. Residents have also been cut off from schools, universities and specialized medical care by the constructed Barrier.

World Water Forum

Andrew George: To ask the Secretary of State for International Development pursuant to the answer of 20 December 2005, *Official Report*, column 2679W, on the World Water Forum, by what process national governments will *(a)* contribute to and *(b)* sign up to the Ministerial Declaration for the World Water Forum; and if he will make a statement. [42270]

Mr. Thomas: The Fourth World Water Forum Secretariat have invited all National Governments to contribute to the Ministerial Declaration by participating in inter-governmental negotiating sessions in Geneva over the coming months. EU member states have agreed to provide and co-ordinate appropriate input to these sessions via the Austrian presidency.

There is a time-tabled session within the Ministerial segment of the Fourth World Water Forum for Ministers who are present to sign the declaration.

Andrew George: To ask the Secretary of State for International Development pursuant to the answer of 20 December 2005, *Official Report*, column 2679W, on the World Water Forum, when the inter-governmental negotiating session on the Ministerial Declaration for the World Water Forum will take place; where it will be held; and which governments he expects to attend. [42271]

Mr. Thomas: The first inter-governmental negotiating session on the Ministerial Declaration for the Fourth World Water Forum will be held on Monday the 23rd of January in Geneva. EU member states will provide appropriate co-ordinated input through the Austrian presidency.

Andrew George: To ask the Secretary of State for International Development pursuant to the answer of 20 December 2005, *Official Report*, column 2679W, on the World Water Forum, whether the UK Government will be attending the inter-governmental negotiating session on the Ministerial Declaration for the World Water Forum; and what his aims and objectives are for UK contributions to the declaration. [42272]

Mr. Thomas: It is likely that environment officials from the Department for the Environment, Food and Agriculture (DEFRA) or the Foreign and Commonwealth Office (FCO) will attend this first negotiating session. However, UK inputs will be co-ordinated through the EU by the Austrian presidency.

The UK has not strongly supported the need for a ministerial statement, following so closely from the Commission for Sustainable Development (CSD) 13. Our key objective is therefore to work through the EU to ensure that outcomes from the CSD are consolidated in any new negotiated statement.

EDUCATION AND SKILLS

Adult Education and Training

Mr. Laws: To ask the Secretary of State for Education and Skills what the cost to public funds was of *(a)* adult education and *(b)* education and training for those aged over 22 years in each year from 1996–97; what allocation has been made for each year to 2008–09; and if she will make a statement. [41224]

Bill Rammell: In 2001–02 the Learning and Skills Council (LSC) spent £2,236 million on adult programmes including Further Education, Work Based Learning, Adult and Community Learning and other programmes. This increased to £2,427 million in 2002–03 and to £2,866 million in 2003–04. These figures are available from the LSC's published accounts. Figures for adult education for the years prior to 2001 are not comparable as the budget was split between a range of different organisations.

Since 1997 Government funding for further education and training has increased by around £2.5 billion or around 48 per cent. in real terms. In 2004/05 over £1,600 million of further education funding was spent on adults aged over 22. Information for earlier years is not available. The LSC has been allocated £8.5 billion for 2006–07 and £8.9 billion for 2007–08 for education and training for adults and young people. Allocations for 2008–09 have not yet been made.

On 21 October 2005 I set out the Government's priorities for the learning and skills sector and the impact on funding in 2006–07 and 2007–08, and full details can be found in 'Priorities for Success' on the LSC's website.

Mr. Hollobone: To ask the Secretary of State for Education and Skills what opportunities are made available by her Department in Kettering constituency to *(a)* retrain, *(b)* reskill and *(c)* educate local adult residents for paid employment. [39780]

Phil Hope: The Government's Skills Strategy, 21st Century Skills: Realising Our Potential (July 2003) and Skills: Getting on in business, getting on at work (March 2005), set out our plans for increasing opportunities for adults to develop their skills for paid employment.

Mark Haysom, the Council's chief executive of the LSC has written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 13 January 2005:

Further to your Parliamentary Question regarding opportunities available in your constituency to retrain, reskill or educate adults for paid employment, I have been asked to be respond with specific information on what provision is offered in Kettering.

Tresham Institute (FE College) is the main provider of training and skills in the town offering a range of full and part time courses at their St Mary's Road and Windmill Avenue campuses. A new £20 million campus (with a £6.93M contribution from the LSC) is due to open in Windmill Avenue in January 2007.

Curriculum areas offered by the college include:-

Art, Design, Media & Performance

Business, Administration & Professional

Computing & Information Communication Technology

Essential Skills for Employment (specifically designed for people with learning difficulties or disabilities)

Hairdressing, Beauty & Holistic Therapies,

Health Care and Child Education

Qualifications include NVQ's and BTEC as well as a wide range of A & AS level subjects and Access to Higher Education courses. At their nearby Corby and Wellingborough sites the college also offers courses in Engineering and Technology, Motor-sport and Motor Vehicle and Construction skills.

The LSC provide funding for:

All 16–18 year olds;

1st level 2 qualifications for those aged 19 + ;

Skills for Life qualifications;

Apprenticeships for age 16–25;

Sector Skill priorities training for Engineering, Logistics, Health and Social Care and Construction;

Other activities available in Kettering include first step programmes designed to engage more difficult to reach individuals in learning and to facilitate progression to further training and employment. Programmes in this category include Family Learning, Neighbourhood Learning in Deprived Communities and Skills for Life (literacy and numeracy). Courses and events are held at a variety of schools and community venues and are delivered through the Northamptonshire County Council Adult Learning Service.

A number of countywide European Social Fund projects do operate in the Kettering area these include Skills for Life, employability skills for individuals and workforce development projects.

There are three UFI/Learndirect learning centres in Kettering each offering supported on line training mainly in Information Communication Technology and Skills for Life

The Employer Skills project delivered countywide via Business Link offers support for workforce development including a grant of up to £1000 for workforce skills development.

To help individuals locate and choose the appropriate learning opportunities the Nextstep (Information Advice and Guidance) service operates two days a week in the town, currently using the Kettering Centre for the Unemployed premises.

I hope the above information sufficiently answers your question. If you require any further information, please contact our local Executive Director, Richard Greenwood at Learning & Skills Council, Royal Pavilion, Summerhouse Road, Northampton NN3 6BJ (email richard.greenwood@lsc.gov.uk).

Adult Learning Inspectorate

Mr. Sanders: To ask the Secretary of State for Education and Skills what the national targets are for the Adult Learning Inspectorate; and what the performance of relevant offices in South Devon has been in relation to those targets. [41994]

Bill Rammell: The Adult Learning Inspectorate (the ALI) is a national organisation operating from its single office in Coventry. The grant in aid is allocated to the ALI on the basis of targets for the number of inspections to be delivered. For 2005–06, the target for new inspections was 789 and for re-inspections 262. As a national organisation, local allocations are not made so no details are available for South Devon.

Aimhigher

Tim Farron: To ask the Secretary of State for Education and Skills which rural area has been chosen as one of the four area studies to be considered in the research report being conducted as part of the Aimhigher Strategy for Higher Education; and what criteria were considered when choosing the area. [40697]

Bill Rammell: The Aimhigher area studies are being carried out as part of strand 3 of the national Aimhigher evaluation. While we know which areas were shortlisted for interview, we do not know which four areas were actually interviewed by independent contractors EKOS for this forthcoming report, as all individuals and areas were guaranteed anonymity as part of the interview process. This was to ensure that the answers provided reflected the true opinions of the respondent.

The main objective of the area selection process was to identify a broad range of Aimhigher Partnership areas which are reflective of the various types of Aimhigher activity undertaken throughout the country. Rurality was not one of the formal selection criteria of the initial shortlisting process, but a spread of areas with regard to the level of rurality or urbanisation was ensured.

The contractors have informed us that all districts within the rural area selected are formally classified as rural in the ODPM user guide.

Certificate in Education

Dr. Cable: To ask the Secretary of State for Education and Skills (1) how many teachers working in *(a)* higher and *(b)* adult education will be affected by the requirement to take a Certificate in Education in order to continue to be eligible to teach; [42290]

(2) what financial support is available to teachers aged *(a)* under 55 and *(b)* over 55 years who are working in (i) adult and (ii) higher education and who are required to take a Certificate in Education in order to continue to be eligible to teach. [42291]

Phil Hope: Since September 2001, all teachers appointed in Further Education colleges have been required by law to obtain the Further Education Teachers' Certificate.

From September 2007, all new teachers within the 'whole' of the publicly funded FE learning and skills sector will be expected to undertake the new teaching

requirement, which is to obtain Qualified Teacher Learning and Skills status and a full Licence to Practise. This is set out in the Government's November 2004 reform document "Equipping our Teachers for the Future: Reforming Initial Teacher Training for the Learning and Skills Sector".

Higher Education teaching staff are not within the scope of the current and future regulations referred to above for FE. But, from 2006, it is expected that all new teaching staff in Higher Education will obtain a relevant teaching qualification accredited against national professional standards for teaching in Higher Education.

The Government expect to spend a total of approximately £18 million on incentives to recruit and retain FE teachers in 2005/06 and a similar amount in 2006/07. Three schemes available to eligible college teachers are Teacher Training Bursaries, Golden Hellos, and Key Worker Living. There are no age limits on these incentives.

The Department has also funded, through the Higher Education Funding Council for England, a Golden Hello programme to encourage new entrants into teaching shortage subjects within Higher Education, totalling £20 million from 2003–04 to 2005–06.

Departmental Expenditure

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the *(a)* public and *(b)* voluntary and private organisations to which her Department made payments through grants or contracts in excess of £20,000 excluding the Department's administrative expenditure in 2004–05. [38604]

Bill Rammell: The Department's accounting system does not separately identify private organisations who receive grants or contracts and the information could be provided only at disproportionate cost. A list of bodies identified as in the voluntary sector which received grants or contracts, excluding the Department's administrative expenditure in excess of £20,000 are as follows:

Voluntary Organisations who received over £20,000 in 2004–05

National Family Planning Institute
Parentline Plus
Young Minds
National Council for One Parent Families
ContinYou (CEDC)
Parent Education Support Forum
Advisory Centre for Education
Royal National Institute for the Blind
Trust for the Study of Adolescence
YMCA England
Race Equality Unit
Local NE Community Foundation
Children's Legal Centre
Lubavitch Youth
Family Rights Group
Barnardos (Babyfather and Wigton)
National Deaf Children's Society
The Warren
National Black Boys Can Association
Agency for Culture and Change Management
NACRO (Sheffield)
South London Tamil Welfare Group
Circles Network
BAPS Care 4 Children
Action for Prisoners Families
Positive Parenting Publications
Wai Yin Chinese Women Society
Film IT
Place to be
Change
British Refugee Council
Eating Disorders Association
One Plus One
Coram Family
Leeds Animation Workshop

Calderdale Womens Centre
Paces Sheffield
Care for the Family
ARC
Student Force for Sustainability
New Forest and Romsey Mobile Community Project
Crime Concern
Family Nurturing Network

Direct Grants

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 5 December 2005, *Official Report*, column 943W, on direct grants, how much grant was received in 2005–06 by each voluntary organisation listed. [38703]

Bill Rammell: Information on the grants paid to the voluntary organisations to date in 2005–06 are as follows. Updated figures for 2005–06 will be available in April 2006.

Voluntary Organisations 2005–06

Parentline Plus	2,307,833.00
National Association of Child Contact Centres	541,993.56
Local NE Community Foundation	406,055.43
OCC	214,000.00
Advisory Centre for Education	168,453.15

National Autistic Society	411.25
Forum on Prisoner Education	78.00
One Plus One	50.00
NCH	20.00

Early Years Education

Tim Farron: To ask the Secretary of State for Education and Skills what plans her Department has to improve *(a)* early years education and *(b)* after-school activities in Westmorland and Lonsdale. [43045]

Beverley Hughes: The Government have invested well over £17 billion on early years and childcare services since 1997 as part of an unprecedented expansion of provision for young children and families. The 2005 Foundation Stage Profile results for this local authority demonstrate that generally children are achieving good levels of development by the end of the Foundation Stage. Nonetheless, we want to continue to improve outcomes.

The Ten Year Childcare Strategy sets out ambitious plans to create a sustainable framework for high quality services for children and families. To support this, the Childcare Bill 2005 will take forward, and give statutory force to key commitments.

To raise the quality of early education the Bill provides for a new duty on local authorities to improve the outcomes of all children under 5, and close the gaps between groups with the poorest outcomes and children more generally, by ensuring early years services are integrated and accessible. The Bill also provides for a reformed and simplified regulatory framework for early years and childcare to reduce bureaucracy and raise quality.

Local authorities receive support on early education through the Foundation Stage strand of the Primary National Strategy (PNS). That support includes disseminating effective practice; supporting the transition from Foundation Stage to Key Stage 1; supporting integrated provision; ICT development in the early years; working with parents as partners; and helping to embed the Foundation Stage Profile.

All local authorities now have access to Key Elements of Effective Practice (KEEP), guidance developed through sector wide consultation by the Foundation Stage strand of the PNS. KEEP represents an agreed view across the sector about the knowledge; skills, understanding and attitudes practitioners need to effectively support young children's learning and thereby raise quality.

We have committed £790 million over 2005–08 to support the development of extended services in or through schools which includes after school activities. £110 million of this was allocated in 2005–06 and Lancashire local authority received £1,824,687. We are unable to break this information down to parliamentary constituency level.

Of the £680 million to be allocated across 2006–08, £250 million will go direct to schools through the School Standards Grant and the remaining £430 million will be distributed to local authorities through the Standards Fund and the General Sure Start Grant. Of this Lancashire local authority will receive £3,531,061 in 2006–07 and £4,515,291 in 2007–08. The funding is to 'kick start' extended services and can be used flexibly, for example, to support the development of childcare including the training of childcare workers. Many schools will choose to develop services in partnership with existing local private or voluntary sector providers.

We are also funding the National Remodelling Team (NRT), Continyou and 4Children to support local authorities and schools nationally as they implement extended services. This support includes guidance on developing and sustaining childcare and working with existing voluntary and private providers to improve the delivery of after school childcare.

Further and Higher Education Private Sponsorship

Mr. Hayes: To ask the Secretary of State for Education and Skills what her policy is on the role of private sponsorship in further and higher education. [43084]

Bill Rammell: We welcome both private and public sponsorship in further and higher education. Sponsorship can help build better links between employers and institutions and the additional income which it brings can help institutions in both sectors to identify and play to their individual strengths.

Fire Risk (Schools)

Rosie Cooper: To ask the Secretary of State for Education and Skills how many responses were received by her Department to the public consultation on the draft guidance Building Bulletin 100, "Designing and Managing Against the Risk of Fires in Schools". [41849]

Jacqui Smith: Public consultation on Building Bulletin 100 (BB 100), "Designing and Managing Against the Risk of Fire in Schools", concluded on 18 November 2005 and 68 responses were received. A number of these included comments, some extensive, and they are now being analysed. We expect to publish the final analysis on the Department's website by 31 March.

Foreign Students

Mr. Hayes: To ask the Secretary of State for Education and Skills how many foreign students are studying in the UK, broken down by country of origin. [43079]

Bill Rammell: The available information is given in the table.

Enrolments to UK HE institutions by non-UK domiciles, 2004/05

Medical Students

Greg Clark: To ask the Secretary of State for Education and Skills whether medical students with a first degree from a UK institution will be permitted to defer payment of up-front tuition fees. [41857]

Bill Rammell: Graduates with an honours degree undertaking a second undergraduate degree in medicine, or other subjects, will not be entitled to a government tuition fee loan when introduced in 2006/07. The Department of Health does pay the fees of undergraduate medical students, including those with a previous graduate qualification, in years 5 and 6. Medical students on four year fast track courses do not pay tuition fee contributions, except in their first year, because the Department of Health pays the fees in years 2 to 4. However, graduate medical students during their early years of study are eligible for subsidised maintenance loans, and in the latter years of study are

additionally eligible for bursaries and reduced rate maintenance loans when they access Department of Health support.

National Parenting Academy

Tim Loughton: To ask the Secretary of State for Education and Skills (1) where the National Parenting Academy will be based; [42108]

(2) what plans she has made to ensure country-wide access to the National Parenting Academy. [42109]

Beverley Hughes: We do not anticipate that the National Parenting Academy will have a single national base. We envisage that it will take the form of a network of educators who will be attached to existing educational organisations and institutions. The network of educators will be accessible country-wide.

Tim Loughton: To ask the Secretary of State for Education and Skills what powers the National Parenting Academy will have. [42110]

Beverley Hughes: The National Parenting Academy will not be a formally constituted public body and therefore will not have formal powers.

Tim Loughton: To ask the Secretary of State for Education and Skills what criteria will be used by the National Parenting Academy when it decides which parents its trained professionals should assist. [42111]

Beverley Hughes: Local authorities and children's trusts, together with their partners and local professionals who work with children and parents, will identify parents in their local area who are most likely to benefit from support.

Tim Loughton: To ask the Secretary of State for Education and Skills what methods will be used by the National Parenting Academy to assist professionals to help parents to bring up their children. [42112]

Beverley Hughes: The National Parenting Academy will use evidence-based parenting interventions which have a proven track record of success. The most effective parent support programmes have a clear theoretical underpinning, follow a programme manual and usually last 8–12 weeks.

Tim Loughton: To ask the Secretary of State for Education and Skills how it will be decided which professionals will attend the National Parenting Academy. [42113]

Beverley Hughes: Local authorities and children's trusts, together with their partners and local practitioners, will identify training needs within their area and decide which professionals are best placed to receive training in delivering evidence-based parenting interventions.

Pupil Enrolment

Mr. Wills: To ask the Secretary of State for Education and Skills what assessment she has made of the level of pupil enrolment for a school to remain viable. [41930]

Jacqui Smith: It is for local authorities to decide whether a school is viable as part of their role in providing sufficient school places and education provision in their area.

Authorities have considerable freedom in their funding of schools to construct factors in their local funding formulae, which take account of small schools by way of having lump sum curriculum or salary protection factors which can assist schools with a low number on roll (NOR).

Lone Parents

Charles Hendry: To ask the Secretary of State for Education and Skills what skills training her Department provides to help lone parents into employment. [42849]

Phil Hope: My Department is committed to helping people, including lone parents, gain the skills to help them into employment. Lone parents are identified as a priority disadvantaged group for the LSC, and FE colleges also provide financial assistance towards childcare costs from ring-fenced Learner Support Funds. The Government's Skills Strategy is focused on improving the employability of all adults with low skills, including lone parents. Many lone parents lack qualifications at or above level 2, are therefore a priority for support; including Information, Advice and Guidance and free tuition from 2006–07 for a first full Level 2 qualification.

DfES also has specific strategies to help teenage parents into learning. For example, through the Care to Learn programme, £22 million is being made available in 2005–06 to provide help with childcare costs for an estimated 4,700 young parents; and those aged 16 and 17 and caring for their child and in learning also receive the education maintenance allowance maximum of £30 per week, plus attendance and completion bonuses.

In addition, my Department works with Jobcentre Plus to support the new deal for lone parents which provides a package of advice and support to help and encourage lone parents not in work to improve their employment opportunities.

Student Finance

Tim Farron: To ask the Secretary of State for Education and Skills (1) how many and what percentage of part-time undergraduate students would be eligible for the financial support package announced in October 2005 if the threshold of access was *(a)* 50 credits, *(b)* 40 credits and *(c)* 30 credits; and what estimate her Department has made of the additional costs of extending eligibility in each case; [41162]

(2) how many and what percentage of part-time undergraduate students are likely to study at less then 60 credits per annum in the first three years of the operation of the financial support package announced in October 2005; [41163]

(3) how many and what percentage of part-time undergraduate students will be eligible for the financial support package announced in October 2005; and what the estimated cost is of this package for each of the first three years of its operation. [41164]

Bill Rammell *[holding answer 12 January 2006]:* From 2006/07 statutory fee support for part-time students with the lowest incomes will increase by more than a quarter, with 85,000 expected to receive fee support (approximately a third of eligible part-time undergraduate students).

The estimated cost of the new statutory part-time fee support package for 2006–07 and 2007–08 is approximately £40 million per year. Part-time students may also be eligible for a grant towards travel, books and other course costs; that is expected to cost approximately £20 million per year.

In addition, the discretionary funds available to institutions to help part-time students will quadruple: funds allocated for part-time students under the Access to Learning Fund will rise in 2006 from £3 million to £12 million, although the Fund may be used flexibly across full-time and part-time students. Institutions will be able to use this resource as an additional fee support on top of the grant or to increase help to students facing financial hardship.

Funding for 2008–09 will be considered as part of the 2007 Comprehensive Spending Review.

In 2003/04, 239,000 English-domiciled, part-time undergraduate students[1] studied at less than 50 per cent. of a full-time equivalent course at an English Higher Education Institution (HEI), representing 55 per cent. of all part-time undergraduate students at English HEIs. We have not made projections for students studying at less than 50 per cent. and have not made estimates of extending eligibility for statutory fee support below 50 per cent.

[1] Students with prior degrees are not normally eligible for statutory support.

Sarah Teather: To ask the Secretary of State for Education and Skills what estimate she has made of the number of undergraduate students who declared themselves bankrupt in London in each year since 1997. [40807]

Bill Rammell: The table shows student loan borrowers who have informed the Student Loans Company of their bankruptcy and whose awarding local authority is in London, by calendar year of bankruptcy, since 1997.

Calendar year	*Borrowers*[1]
1997	1
1998	0
1999	2
2000	2
2001	7
2002	6
2003	30
2004	70

[1] Figures cover loans with the Student Loans Company only.

Notes:

1. Figures separately identifying undergraduates are not available; students on postgraduate initial teacher training courses can be eligible for loans.
2. There may be delays between borrowers becoming bankrupt and notifying the Student Loans Company, therefore figures could increase in future.

Source:

Student Loans Company.

There are several possible reasons for the rise in bankruptcy figures. Media coverage of the issue of student loan borrowers declaring themselves bankrupt during the passage of the Enterprise Act 2002 may have contributed to the rise in bankruptcies in 2003 and 2004. In addition, one of the effects of the Enterprise Act itself was to reduce the period of discharge from bankruptcy from three years to one. As a result provisions were included in the Higher Education Act 2004 to prevent student loans being written off on discharge from bankruptcy.

Bankrupt student loan borrowers, though, continue to benefit from the same non-commercial terms as other borrowers, including income thresholds and repayment in line with income. Income-contingent loan borrowers are not required to repay if their annual income is below £15,000.

Sure Start

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme in Tamworth constituency. [42079]

Beverley Hughes: Sure Start Tamworth has 488 children aged four and under in its catchment area, which covers the wards of Glascote and Belgrave. During the last 12 month period for which data exists, it had delivered services to 448 of those children.

During the second phase of roll out of Sure Start Children's Centres from April 2006, Sure Start Tamworth is set to become a children's centre, and will continue to offer an expanded range of integrated services to these children and their families.

University Tuition Fees

Greg Clark: To ask the Secretary of State for Education and Skills what representations her Department has received from Russell Group universities regarding the adequacy of tuition fee levels. [40262]

Bill Rammell *[holding answer 9 January 2006]:* The Secretary of State, I, and our predecessors have regular discussions, formal and informal, with Higher Education institutions, including Russell Group Universities, on a wide range of issues, including tuition fee levels. We have had no formal representations on the adequacy of tuition fee levels since the levels were set in regulations following the Higher Education Act 2004.

Under that Act, tuition fees may not be increased by more than inflation until 1 January 2010 at the earliest. After that date, it could only happen if approval was given by both Houses of Parliament.

There will be an independent review of the effect of our higher education funding reforms. The review, to be conducted by a Commission, working with the Office for Fair Access, will report to Parliament on the new arrangements based on the first three years' operation of the policy.

WORK AND PENSIONS

Benefit Claimants

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of claimants moving into work in the last 12 months who are financially worse off. [41630]

Margaret Hodge *[holding answer 12 January 2006]:* The information requested is not available.

Through the introduction of the minimum wage, tax credits and changes to benefit rules we have made great strides to ensure that returning to work is more financially beneficial than staying on benefits. Employment is at record levels and this rising employment reflects people moving back into the jobs market who had not previously looked for a job, indicating that the Government's measures to make work pay are working.

Child Poverty

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions whether child poverty in Northern Ireland is included in assessments made in relation to child poverty targets. [41718]

Margaret Hodge *[holding answer 12 January 2006]:* Our current child poverty targets are for Great Britain only and therefore do not include Northern Ireland at this time.

Child Support

Jo Swinson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of Child Support Agency cases which are being handled where the non-resident parent has been assessed as nil liability. [21105]

Mr. Plaskitt: The administration of the Child Support Agency is matter for the chief executive Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Mr. Stephen Geraghty, dated 17 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what estimate he has made of the number of Child Support Agency cases which are being handled where the non-resident parent has been assessed as nil liability.

The table below shows the number of cases with a calculation or assessment in September 2005 broken down by whether or not they had a nil liability. Overall, 41% of cases had a nil liability, with the equivalent figures for new and old schemes being 12% and 51% respectively.

Cases with a maintenance assessment or calculation by scheme and type of liability—September 2005

	Old scheme		*New scheme*		*Overall*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
Cases with a positive liability	407,000	49	244,000	88	651,000	59
Cases with a nil liability	428,000	51	33,000	12	461,000	41
Calculations/assessments performed	835,000	—	277,000	—	1,113,000	—

Notes:

1. The above figures exclude an additional 30,000 old scheme cases which had a positive liability, but due to the non-cooperation of the non-resident parent a punitive interim assessment was imposed.
2. Figures are rounded to the nearest 1,000.
3. Cases which can result in a nil liability under the old scheme are:

People whose net income is less than the minimum amount of maintenance (2005–06 £5.70 a week)
People in receipt of sickness or disability benefit or award.
People who are looking after a child, so that their protected income calculation includes an amount equal to the family premium or income support.
Prisoners
People aged under 18 who are receiving income support or income-based jobseeker's allowance.
A non-resident parent (NRP) aged under 16, or aged 16–18 and in full time non advanced education (that is, up to A level, NVQ level 3 or equivalent).
An NRP receiving income support or income-based jobseeker's allowance, who satisfies the conditions for award of a family premium and who cares for a resident child for at least 104 nights a year.

4. Cases which can result in a nil liability under the new scheme are:

People whose net weekly income (including income from benefits) is less than £5 a week.
Students in full-time education (full-time means a course at a recognised school or college where there is at least 12 hours a week tuition).
An NRP aged under 16, or aged 16–18 and in full-time non-advanced education (that is, up to A level, NVQ level 3 or equivalent).
Prisoners.
16 or 17 year olds—in receipt of income support or income based jobseekers allowance or a member of a couple in receipt of income support or income-based jobseekers allowance.
People engaged in work-based training, or in Scotland, skillseekers training.
People living in a care home or independent hospital who get a benefit, pension or allowance which would otherwise result in flat-rate liability of £5, or who are getting help from a local authority with the cost of accommodation.
People in hospital who get a benefit, pension or allowance, which has been reduced to 'hospital pocket money' rate because of an extended stay in hospital (NB With the Government's announcement that reductions in benefit as a result of hospitalisation will cease from April 2006, it is intended that this category of nil rate will no longer apply from that date)
An NRP who gets a benefit, pension or allowance, which would otherwise result in flat-rate liability of £5, and who shares the care of a qualifying child for at least 52 nights a year.

I hope you find this information helpful.

Mr. Byers: To ask the Secretary of State for Work and Pensions when he expects to move onto the new Child Support Agency scheme those who are paying under the old scheme. [42926]

Mr. Plaskitt: The remaining old scheme cases will transfer to the new scheme when Ministers are satisfied that it is working well. We are not willing to risk that flow of money and put at risk these cases by bringing them across before we are sure that the new system and operations are robust.

Mr. Byers: To ask the Secretary of State for Work and Pensions what steps are taken to ensure that those resident in the Isle of Man meet obligations placed on them by the Child Support Agency. [42927]

Mr. Plaskitt: The Child Support Agency does not have jurisdiction to make a maintenance calculation unless the parent with care, non-resident parent and qualifying child are habitually resident in the United Kingdom. The United Kingdom does not include the Isle of Man or the Channel Islands.

Immigration

Mr. Drew: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of immigration on long-term unemployment. [41509]

Margaret Hodge: While there has not been a specific study focused on the impact of immigration on long term unemployment, research on the labour market effects of migration into the UK has shown that migration appears to have little effect on the labour market outcomes of the existing work force.

Incapacity Benefit

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on the reform of incapacity benefit. [41504]

Margaret Hodge *[holding answer 12 January 2006]:* We will set out proposals for the reform of incapacity benefit in a Green Paper to be published later this month.

Pathways to Work

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the Pathways to Work pilots in getting existing incapacity benefit claimants into work; and if he will make a statement. [41691]

Margaret Hodge: The early evidence from our pathways pilots is positive. Nearly 150,000 people have started on a pilot, including 11,200 existing claimants and there have been 19,500 job queries. As a result there has been an 8 percentage point increase in people leaving incapacity benefits after six months in pathways areas compared to the rest of the country.

Andrew Rosindell: To ask the Secretary of State for Work and Pensions pursuant to the answer to the right hon. Member for Birkenhead (Mr. Field) of 12 December 2005, *Official Report*, column 1764W, on incapacity benefit, whether cost-benefit analysis has been carried out in relation to the Pathways to Work pilot scheme. [41692]

Margaret Hodge: The information requested is in Working Paper "Incapacity Benefit Reforms—Pathways to Work Pilots performance and analysis" a copy of which has been placed in the Library.

The Pathways to Work districts are piloting new measures and innovative approaches to helping people with long-term illnesses or a disability to return to work. As pilot schemes, they are designed to test whether alternative approaches may be more effective than existing measures.

Early results show off-flows from incapacity benefit at six months of around 48 per cent. in the pilot areas compared with around 40 per cent. nationally, an improvement of 8 percentage points, resulting in a reduction in the incapacity benefit case load which more than pays for the additional costs of the pilots.

Andrew Rosindell: To ask the Secretary of State for Work and Pensions pursuant to the answer to the right hon. Member for Birkenhead (Mr. Field) of 12 December 2005, *Official Report*, column 1764W, on incapacity benefit, what assessment he has made of the percentage of new incapacity benefit claimants eligible for mandatory entry into the Pathways to Work who entered jobs; and if he will make a statement. [41693]

Margaret Hodge: I refer the hon. Member to the answer I gave to my right hon. Friend the Member for Birkenhead (Mr. Field) of 12 December 2005, *Official Report*, columns 1764–1765W.

Pension Credit

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of how much will be spent on the *(a)* guarantee credit and *(b)* savings credit, assuming income taken into account for pension credit purposes rises in line with (i) inflation, (ii) earnings and (iii) at a mid-point between earnings and prices and assuming (A) 80 per cent. take up of the guarantee credit and 50 per cent. take up of the savings credit, (B) 80 per cent. take up of the guarantee credit and 60 per cent. take up of the savings credit and (C) 100 per cent. take up of both guarantee and savings credit, in (1) 2005–06, (2) 2010–11, (3) 2020–21, (4) 2030–31, (5) 2040–41 and (6) 2050–51. [40485]

Mr. Timms: The information is not available in the form requested. Such information as is available is given in the table.

Projections of pension credit entitlement, and hence costs under alternative take-up scenarios, are not available at present, as they are dependent on National Statistics estimates of take-up; once these are available the projections will be updated. In addition, the cost of alternative levels of take-up, other than 100 per cent. also depends critically on the size of entitlements newly taken up under the alternative scenarios; it is not possible to estimate this realistically.

The table shows expenditure under the three scenarios where income brought to account for pension credit is

uprated in line with (i) prices, (ii) average earnings, (iii) midway between earnings and prices. All scenarios effectively assume a constant overall take-up rate beyond 2007–08, the end of the current planning period, and are based on the continuation of the current uprating policy.

Table 1: Projections of pension credit expenditure in 2005–06 prices (£ billion) assuming constant overall take-up from 2007–08

Income growth/credit type	2005–06	2010–11	2020–21	2030–31	2040–41	2050–51
Prices						
Guarantee	5.4	6.9	8.9	14.5	21.1	26.5
Savings	1.1	1.5	3.0	4.9	6.4	7.0
Total	6.5	8.4	12.0	19.4	27.5	33.5
Earnings						
Guarantee	5.4	6.1	5.1	6.0	6.9	7.5
Savings	1.1	1.6	3.4	5.8	8.5	10.6
Total	6.5	7.7	8.5	11.8	15.4	18.1
Midway						
Guarantee	5.4	6.6	7.1	10.3	14.0	17.5
Savings	1.1	1.6	3.5	6.0	8.7	10.4
Total	6.5	8.2	10.6	16.3	22.7	27.9

Notes

1. Figures are for Great Britain. They are in 2005–06 prices and rounded to the nearest £100 million.
2. Pension credit projections assume the continuation of the current uprating of the guarantee element of pension credit by earnings, although the Government are not committed to this beyond 2008.
3. Projections of expenditure for pension credit in the future are based on a long-term version of the Department's policy simulation model, which uses Family Resources Survey data for 2003–04 projected forward into the future to estimate the extent of eligibility and average award for each pensioner household on the survey.
3. Expenditure figures for 2005–06 are consistent with the latest available forecasts from the pre-Budget report 2005.

Pensioners (Hendon)

Mr. Dismore: To ask the Secretary of State for Work and Pensions how many pensioners in Hendon have received *(a)* winter fuel payments, *(b)* winter fuel payments for over 80s, *(c)* council tax help and *(d)* extra living costs help for over 70s in 2005; and if he will make a statement. [41619]

Mr. Timms: Figures for this winter's payments are not yet available.

In winter 2004–05 there were 17,660 people in the Hendon constituency who received a winter fuel payment and of these 4,075 received the extra payment for those aged 80 or over. We expect the numbers to be similar for this winter.

We estimate that in the Hendon constituency around 11,000 people will receive the £200 aged related payment for help with council tax and around 2,500 people aged 70 or over will receive the £50 aged related payment to help with living expenses.

Notes:

1. Actual figures for the number of winter fuel payments made are rounded to the nearest five, estimates for the council tax and living expenses payments are rounded to the nearest 500.

2. Local authorities and parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

Source:

Information Directorate, 100 per cent. Sample.

Winter Fuel Payments

Chris Ruane: To ask the Secretary of State for Work and Pensions (1) what the total amount of winter fuel payments to each constituency in the UK has been since the introduction of the payments; and what the overall total was in each year; [41632]

(2) how many people received winter fuel payments in each ward in each constituency in the UK in 2004–05, broken down by region; and what the value was of these payments in each case. [41633]

Mr. Timms *[holding answer 12 January 2006]:* The information requested is not available. Total expenditure on winter fuel payments in Great Britain, and total number of recipients in each year, are as follows:

	Winter fuel payment expenditure (£ million)	Total recipients (Thousand)
1997–98	191	–
1998–99	194	–
1999–2000	759	10,084
2000–01	1,749	11,106
2001–02	1,681	11,202
2002–03	1,705	11,348
2003–04	1,916	11,468
2004–05	1,954	11,401

Notes:

1 Figures are for Great Britain.

2 Expenditure figures are rounded to the nearest £ million and are given in cash prices.

3 Recipient figures are rounded to the nearest thousand.

4 Includes £100 over-80s payment from 2003–04.

Source:

DWP benefit expenditure tables, consistent with PER 2005. These can be found on the internet at http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Breakdowns at constituency and ward level are available from 1999–2000. This information has been placed in the Library. For 2004–05, a comprehensive breakdown at these levels includes age-related payments for people aged 70 or over, which cannot be separated from winter fuel payments, so the total figure is higher than that given above for Great Britain.

Women's Pensions

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what representations he has received about improving the pension provision of women who have stayed at home to bring up their children; and if he will make a statement. [34433]

Mr. Timms: The Department for Work and Pensions has received representations from a range of stakeholders such as the Equal Opportunities Commission, the Trades Union Congress, Age Concern and the Fawcett Society on ways to improve the pension position of women.

Ministers have also met with hon. and learned Members with a specific interest in the subject of women's pensions.

We will be assessing all proposals against our five key tests to ensure they are fair, affordable, simple, sustainable and promote personal responsibility. We will keep an open mind, not ruling anything in or out at this time and then come back to the House in the spring with our proposals.

TRADE AND INDUSTRY

Administrative Costs

Stewart Hosie: To ask the Secretary of State for Trade and Industry what the total administration costs of his core Department were in the last period for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39842]

Alan Johnson: Total administrative costs for the core Department for 2004-05 were £308 million. Of these £306.6 million are regarded as non-identifiable, and £1.4 million as identifiable, for the purposes of the country and regional analysis exercise, which is published in chapter 8 of the public expenditure statistical analyses.

Bus Services

Tom Brake: To ask the Secretary of State for Trade and Industry if he will ask the Office of Fair Trading to investigate bus service provision at district council level in metropolitan districts and larger unitary district councils. [41845]

Mr. Sutcliffe: It is for the Office of Fair Trading (OFT), as the UK's independent competition authority, to decide whether to investigate competition issues. If anyone has any evidence of anti-competitive behaviour or market failure in bus service provision they should inform the OFT directly.

Civil Servants

Stewart Hosie: To ask the Secretary of State for Trade and Industry how many and what proportion of each civil service grade in his Department is located in each *(a)* region and *(b)* nation of the UK; what the average salary is for each grade; and if he will make a statement. [35924]

Alan Johnson: My hon. Friend the Parliamentary Under-Secretary at the Cabinet Office will write to the hon. Member with details for the civil service of the percentage of staff in post by region and grade responsibility and the median salary of staff in post by region and grade responsibility as at 1 April 2004. Copies of his letter will be placed in the Libraries of the House.

Correspondence

Mr. Winnick: To ask the Secretary of State for Trade and Industry when the hon. Member for Walsall North will receive a reply to his letter of 2 November sent to the Department for Environment, Food and Rural Affairs and transferred to his Department. [36229]

Alan Johnson *[holding answer 12 December 2005]*: The letter from my hon. Friend was not a matter for the DTI and was transferred to the Department for Transport for reply on 6 December.

Credit Card Charges

Mr. Bone: To ask the Secretary of State for Trade and Industry if the Government will introduce legislation preventing credit card companies sending out credit card statements which are received by customers too late for customers to avoid incurring late penalty charges and interest; and if he will make a statement. [41176]

Mr. Sutcliffe: The Government have no plans to legislate on this matter. However, in 2004 the Department made regulations that require lenders to give consumers clear information about the key features of credit products before and at the time the agreement is made, including the way in which interest is treated and on default charges. This will help consumers to understand credit products better, shop around for better products and increase competition among UK credit providers.

The Consumer Credit Bill will further improve consumer rights by giving them more effective options to challenge unfairness in credit relationships and to resolve disputes with lenders. It will also improve the powers of the Office of Fair Trading to take action against lenders who exploit or harm consumers.

Damages

Mr. Hayes: To ask the Secretary of State for Trade and Industry pursuant to the answer of 5 December 2005, *Official Report*, column 1006W, on damages, if he will make a statement on each case to which he refers. [37353]

Alan Johnson: All of the cases listed in my answer of 5 December 2005, *Official Report*, column 1006W, involved settlements with individual members of staff. It is not my Department's policy to provide confidential information relating to the circumstances of each claim from which employees are or might be identified.

Departmental Conferences

Anne Main: To ask the Secretary of State for Trade and Industry what financial provision his Department has made for branded *(a)* conference bags, *(b)* plastic carrier bags and *(c)* pens for distribution at conferences held by his Department in each of the last three years. [38877]

Alan Johnson: The purchase of promotional items of this nature is done on an individual basis for each particular campaign or conference. Therefore, no budgetary provisions are made exclusively for these specific items but they are considered as part of the wider marketing mix.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Trade and Industry if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40144]

Alan Johnson: There have been no sales of land or buildings on the DTI HQ estate since 1997 based on our office records. Such information on non departmental public bodies and other public bodies is not held centrally and could be provided only at disproportionate cost.

Mr. Amess: To ask the Secretary of State for Trade and Industry what *(a)* land and *(b)* property his Department owns in Southend West constituency. [41758]

Alan Johnson: The DTI administrative estate does not include any land or property in the Southend West constituency.

Departmental Expenditure

Martin Horwood: To ask the Secretary of State for Trade and Industry how much the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. [33224]

Alan Johnson: A comprehensive list of all projects is not held centrally and to do so could be done only at disproportionate cost. However, we can supply the following:

(a) Design and production of new logos

On identity development and design guidelines towards the rationalisation around the single DTI logo:

	£
2002–03	450,000
2003–04	100,000
2004–05	10,000

	£
The re-branding of British Trade International (BTI) to UK Trade and Investment (UKTI):	
2003	600,000
The proposal to change the name of the DTI:	
2005	30,000

(b) Employing external:

(i) public relations agencies

Information provided from COI shows that the DTI spent the following amounts on:

	£
2002	
UKO4B	661,606.84
Invest UK	126,282.39
SBS	178,696.26
Trade Partners	247,651.65
	£
2003	
Trade Partners	546,312.99
UKO4B	443,767.40
Invest UK	447,412.30
SBS	295,607.01
2004	
Dispute Resolution	68,405.05
Renewable Energy	516,490.60
Best Business Practice	338,443.29
Best Practice	151,827.51
Renewable Energy	548,703.98
2005 (to date)	
Consumer Direct	138,560.25
UKTI	121,840.54
SBS	19,406.95
Consumer Direct	22,975.59
Consumer Direct—event	6,902.50

(ii) graphic design agencies:

Accurate figures are not able to be supplied as budgets for this type of expenditure are not held centrally. To do so would exceed disproportionate costs.

Letter from Claire Clancy, dated 17 January 2006:

I am responding to your recently tabled Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

(a) Spend on the design and production of new logos is as follows:

	£	
2000	0	
2001	0	
2002	5,000	Re-branding project
2003	0	
2004	530	Icon for "PROOF" (new product)
2005	6,500	Icons for "My Companies House"

(b) Companies House does not employ any external agencies for public relations.

External agencies have provided graphic design for our Annual Report and Accounts as follows:

	£
2000	n/a
2001	n/a
2002	8,000
2003	9,000
2004	9,912
2005	9,963

n/a – not available

Letter from Jeanne Spinks, dated 17 January 2006:

You asked the Secretary of State for Trade and Industry, what the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. I have been asked to reply in respect of the Employment Tribunals Service (ETS) which is an executive agency of the DTI.

The Employment Tribunals Service has spent the following:

(a) On designing and production of new logos since 2000 the Agency has spent—£10,407

2000–01: £5,000 for design of Corporate Identity and new ETS logo.

2001–02: £4,982 for design of Corporate Identity.

2002–03: £425 for design of 'DTI Service' logo and boilerplate.

(b) (i) There has been no external expenditure on public relations since 2000.

(b) (ii) Since 2000 the Employment Tribunals Service have spent the following employing external graphic design agencies—£44,328

	£
2000–01	15,514
2001–02	4,560
2002–03	4,358
2003–04	5,396
2004–05	7,970
2005–06	6,530

Letter from Ron Marchant, dated 17 January 2006:

I am responding to this parliamentary question, tabled on 25 November 2005, regarding what the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project.

£

The Patent Office	*2002–03*	*2003–04*	*2004–05*	*2005–06 to end October*
The design and production of new logos	0	0	0	0
Public Relations	101,398	111,963	102,125	59,755

Figures for 2000–01 and 2001–02 are not readily available and could not be prepared within the deadline set.

Letter from Desmond Flynn, dated 17 January 2006:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2054/2005) asking what the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project.

The Insolvency Service has not spent any money on the design and production of new logos or employing external public relations companies each financial year from 2000 to date.

Letter from Martin Birdseye, dated 17 January 2006:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding what the Department and its Agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project.

NWML total spend in year:	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*£000 2005–06*
On						
(a) Design and production of new logos	0	0	0	0	0	0.3[1]
(b) (i) Employing external public relations	0	0	0	7	8k	0
(c) (ii) graphic design agencies[2]	n/a	n/a	n/a	6	11	3

n/a = not available.

[1] NWML spent £300 in July 2005 developing a logo for a new service in respect of the enforcement of the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS) Regulations.

[2] These costs include design for posters for exhibitions, exhibition panels, a biannual corporate newsletter sent to customers, design for leaflets and brochures, design for a CD cover for the NWML video, and design for the Annual Report and Accounts. In 2005–06, NWML has spent £3k YTD.

Pete Wishart: To ask the Secretary of State for Trade and Industry what the annual expenditure on training and development by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [39992]

Alan Johnson: The following table shows the core DTFs expenditure on training and development in each of the last three financial years.

	Amount (£ million)
2004–05	5
2003–04	4.5
2002–03	5.04

The Department of Trade and Industry is expected to spend £5 million on training and development in period 2005–06. This figure is for core DTI only. The other organisations—NDPBs, executive agencies etc.—have devolved training and development budgets and the cost of collecting this information would be disproportionate.

Mr. Weir: To ask the Secretary of State for Trade and Industry what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each of the English regions and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40108]

Alan Johnson: Information on these expenditure items within the DTI HQ estate is not available by location and could be provided only at disproportionate cost. Such information on non departmental public bodies and other public bodies is not held centrally and again could be provided only at disproportionate cost.

Mr. Spellar: To ask the Secretary of State for Trade and Industry how much his Department spent on bottled water in 2004–05. [40325]

Alan Johnson: Any costs associated with the provision of bottled water are not separately identified but such facilities are not standard within the DTI HQ buildings.

Departmental Staff

Stewart Hosie: To ask the Secretary of State for Trade and Industry what the value is of *(a)* pay supplements, *(b)* bonuses and *(c)* other incentive packages that are payable in his Department on the basis of geographic location; how many people are in receipt of each payment; and what the total cost to his Department of each payment was in 2004–05. [35925]

Alan Johnson: There are no pay supplements, bonuses or other incentive packages that are payable to DTI staff on the basis of geographical location in the UK. Pay rates for staff below the senior civil service in DTI are set on London and National scales. Staff paid according to the London pay scales receive £3,500 more per annum on a full-time basis than those on the National scales.

Mr. Spellar: To ask the Secretary of State for Trade and Industry how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40284]

Alan Johnson: The Department does not centrally monitor the number of staff who work from home, since flexible working patterns, including working from home, are negotiated locally. However, in our recent staff survey 8 per cent. of staff reported that they worked from home regularly, at least one day a week.

In 2002 the Department introduced a flexible working policy, including full guidance for managers and staff to ensure that new ways of working (including home working) are available to all individuals in all directorates and all grades, and that the benefits to stakeholders, customers, managers and staff are maximised.

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for Trade and Industry how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41358]

Alan Johnson: The information requested is as follows.

(a) The Department does not own any vehicles.

(b) The fuel efficiency and type of petrol required of each make and model of vehicle leased by staff for business use in the Department is:

Vehicle	*CO_2 emissions (g/km)*	*Petrol type*
Citroen C3 1.4i LX	148	Unleaded
Renault Clio 1.2	143	Unleaded
Ford Focus 1.8TDi	143	Diesel
Ford KA 1.3i	154	Unleaded
Vauxhall Vectra 1.8LS	183	Unleaded

The following vehicles are provided by the Government Car Service for use by the DTI:

Vehicle	*CO_2 emissions (g/km)*	*Petrol type*
4 Toyota Prius	104	Petrol/electric hybrid
1 Ford Mondeo	218	Unleaded
1 Ford Mondeo Zetec	218	Unleaded
1 Rover 75	249	Unleaded

EU Employment Directive

Dr. Cable: To ask the Secretary of State for Trade and Industry when the EU Employment Directive will be incorporated into United Kingdom law. [42289]

Mr. Sutcliffe: The majority of the provisions of the EU Employment Directive 2000/78/EC have already been incorporated into United Kingdom law. The remaining requirements—relating to age and certain provisions for disability discrimination—are scheduled to come into force by 1 October 2006, in compliance with Article 18 of the Directive.

Food Retail Sector

Mr. Drew: To ask the Secretary of State for Trade and Industry what recent research his Department has conducted into independent food retailing in the UK; and if he will make a statement. [41429]

Mr. Sutcliffe: The Department have not conducted any recent research into independent food retailing in the UK.

Mr. Drew: To ask the Secretary of State for Trade and Industry what meetings he has had with the Office of Fair Trading on structures in the grocery market; and if he will make a statement. [41430]

Mr. Sutcliffe: My right hon. Friend the Secretary of State and Ministers meet with the Office of Fair Trading (OFT) on a regular basis to discuss topics of mutual interest.

Competition in the supermarket and grocery sectors is a matter for the independent competition authorities, in this instance the OFT.

Interest Charges

David Simpson: To ask the Secretary of State for Trade and Industry if he will place a cap on the level of interest money lending organisations can charge; and if he will make a statement. [38603]

Mr. Sutcliffe: I have no plans to introduce an interest rate ceiling in the United Kingdom. In the light of research, published by the Department in August 2004, the Government are not convinced that legislating for interest rate ceilings would help consumers.

Rate ceilings could cause lenders to exit parts of the market and reduce the supply of certain credit products. This in turn could force many vulnerable consumers to use products inappropriate to their circumstances or even to go outside of the regulated market and borrow from illegal lenders.

We will, however, be keeping the matter under review.

Lyons Inquiry

Mrs. Spelman: To ask the Secretary of State for Trade and Industry whether his Department has made a written submission to the Lyons inquiry on local government finance. [31807]

Alan Johnson: I refer to the reply previously given by the Minister for Local Government on 12 September 2005, *Official Report*, column 2431W.

Miners' Compensation

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many Chronic Obstructive Pulmonary Disease claimants have gone through the full medical assessment process to date; how many of those have been found to be suffering from an additional lung disease; and how many have *(a)* pneumoconiosis, *(b)* asbestosis or asbestos particles in the lung and *(c)* asthma. [38958]

Malcolm Wicks *[holding answer 11 January 2006]:* As at 30 November 2005, 274,599 medical assessments had been completed. Detailed figures of the incidence of other conditions found alongside Chronic Obstructive Pulmonary Disease (COPD) are not kept but our claims handlers estimate that there are co-morbid conditions found in around two thirds of cases where COPD is diagnosed (about 100,000 cases so far).

Nuclear Decommissioning

Mr. Drew: To ask the Secretary of State for Trade and Industry what plans he has to speed up the decommissioning of Magnox stations. [41552]

Malcolm Wicks: The Nuclear Decommissioning Authority (NDA) has set out its proposed approach to the decommissioning and clean up of its sites in its draft strategy and has confirmed that the closure dates for the remaining four operational Magnox power stations as those previously announced by BNFL. The NDA has indicated in the draft strategy its intention to speed up the decommissioning and clean up of Magnox and other reactor sites and to achieve final site clearance within 25 years, subject to the long term management arrangements for Intermediate Level Waste being available within the same time scale. The Scottish Ministers and I have until 31 March 2006 to consider and approve the NDA's proposed strategy.

Paternity Benefits

Mr. Laws: To ask the Secretary of State for Trade and Industry what estimate he has made of the costs of paternity benefits arising from measures in the Government's Work and Families Bill for each year from 2005–06 to 2010–11; and if he will make a statement. [41310]

Mr. Sutcliffe: The new paternity leave measures in the Work and Families Bill will be subject to further consultation and the date when they will come into effect has yet to be decided. The regulatory impact assessment for the Bill, which was published in October 2005, gives an initial cost estimate of £29.6—£59.4 million in the first year of implementation. This will fall to £24.6—£50.9 million in subsequent years.

£19.1–28.0 million of the costs in the first year will fall to the Exchequer, and £15.1–24.0 million in subsequent years. The remainder will fall to employers. The range of figures reflects the fact that the Government are still consulting on the detail of the scheme for additional paternity leave and pay there is some uncertainty about how many fathers will choose to take advantage of the new entitlements.

Post Office (Teynham)

Hugh Robertson: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of Teynham post office. [41888]

Barry Gardiner *[holding answer 16 January 2006]:* This is an operational matter for Post Office Ltd. (POL) and the chief executive has been asked to reply direct to the hon. Member.

Royal Mail

Gregory Barker: To ask the Secretary of State for Trade and Industry if he will list the board members of Royal Mail; and what the date of appointment was of each one. [41911]

Barry Gardiner: The Board Members of Royal Mail Holdings plc currently are:

	Date of appointment
Non-executive Directors	
Allan Leighton (Chairman)	25 March 2002 (Director from 2 Apr 2001)
Sir Mike Hodgkinson	1 January 2003
David Fish	1 January 2003
Richard Handover	1 January 2003
John Neill	1 January 2003
Bob Wigley	1 April 2003
Baroness Margaret Prosser	1 November 2004
Helen Weir	1 January 2006
Executive Directors1	
Adam Crozier (CEO)	1 February 2003
Tony McCarthy (HR)	6 January 2003
David Burden (IT)	1 July 2004

[1] A new finance director (currently being recruited), Ian Griffiths (as MD Letters) and Alan Cook (as MD Post Office Ltd.) are due to join the Board in early 2006.

School Holidays (Price Rises)

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what investigations have been undertaken by *(a)* the Office of Fair Trading and *(b)* the Competition Commission into the practice of travel companies raising prices during school holidays. [42374]

Mr. Sutcliffe *[holding answer 2006]:* While neither body has undertaken a formal inquiry into the practice the OFT did consider similar issues in the course of an investigation into the cost of flight supplements for package holidays from Scottish airports in 2001. The subsequent report concluded that there were no grounds for action under competition law.

The OFT's view is that in a competitive market it is inevitable that prices adjust based on supply and demand and one would therefore expect to see higher prices during school holidays when demand is greater relative to supply.

Sick Leave

David T.C. Davies: To ask the Secretary of State for Trade and Industry how many of his Department's employees who are within one year of the official retirement age are on extended sick leave. [32589]

Alan Johnson: There are two employees in DTI HQ who have been on sick leave for at least three months and who are within a year, or later, of the normal retirement age. (normal retirement age is 60.)

The DTI remains committed to managing sickness absence effectively and, where appropriate, to putting in place the recommendations of the 2004 "Managing Sickness Absence in the Public Sector" report to reduce long-term absence.

Sunday Trading

Mr. Jenkins: To ask the Secretary of State for Trade and Industry pursuant to the answer of 12 December 2005, *Official Report*, column 1675W, on Sunday trading hours, how many personal meetings he had with representatives of *(a)* trade unions, *(b)* supermarkets and *(c)* other large retail organisations in 2005 on Sunday trading. [40684]

Mr. Sutcliffe: The only meeting my right hon. Friend the Secretary of State has held specifically on Sunday Trading to date was with USDAW (Union of Shop, Distributive and Allied Workers) on 16 November 2005.

Mr. Andy Reed: To ask the Secretary of State for Trade and Industry (1) what recent written representations he has received on the *(a)* economic and *(b)* social implications of liberalised Sunday trading hours; [41035]

(2) what representations he has received from business stakeholders concerning the proposed review of Sunday trading laws. [41036]

Mr. Sutcliffe: We have received representations from a range of stakeholders on the issue and welcome further views.

DTI officials have commissioned an independent cost-benefit analysis of the case for further liberalisation of the Sunday trading laws.

Mr. Andy Reed: To ask the Secretary of State for Trade and Industry whether the planned cost-benefit analysis of liberalisation of Sunday trading hours will invite representations from groups interested in the social cost of longer trading hours; and if he will make a statement. [41047]

Mr. Sutcliffe: We are very happy to receive representations from stakeholders on all issues relevant to Sunday trading. The DTI website gives details of how to submit views and evidence.

Sunday Trading Laws

Mr. Drew: To ask the Secretary of State for Trade and Industry whether a change in Sunday opening would require primary legislation; and if he will make a statement. [41517]

Mr. Sutcliffe: I anticipate that primary legislation would be used to bring about any further liberalisation of Sunday Trading laws.

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will strengthen the measures that protect those who for religious reasons do not wish to work on Sunday; and if he will include such proposals in the forthcoming consultation on changes to Sunday trading laws. [41519]

Mr. Sutcliffe: The right to opt-out of Sunday working under the ERA 1996 applies regardless of the individual's religion.

We are happy to receive representations from stakeholders on all issues relevant to Sunday trading.

NORTHERN IRELAND

Animal Welfare Bill

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with relevant Ministers about the extension of the Animal Welfare Bill to Northern Ireland. [42688]

Angela E. Smith: When consideration was given to extending the powers of the Animal Welfare Bill to Northern Ireland, it was viewed that this was inappropriate, as England and Wales legislation is different from Northern Ireland where animal welfare legislation dating back to 1911 has already been consolidated by the Welfare of Animals Act (Northern Ireland) 1972.

However, the Department of Agriculture and Rural Development is finalising a review of Northern Ireland animal welfare legislation in order to identify measures, which are necessary to strengthen existing powers, by Easter.

My right hon. Friend the Secretary of State for Northern Ireland has had no-discussions with relevant Ministers about the extension of the Animal Welfare Bill to Northern Ireland.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether he plans to take steps to amend legislation on penalties for those found to be responsible for cruelty to animals in the light of recent cases in Northern Ireland. [42133]

Angela E. Smith: Unlike in the rest of the United Kingdom, where animal welfare legislation is at present spread over 23 Acts of Parliament going back to the Protection of Animals Act 1911, animal welfare legislation in Northern Ireland has already been simplified and consolidated by the Welfare of Animals Act (Northern Ireland) 1972.

However, a review of animal welfare policy is currently being finalised with a view to identifying new measures that may be necessary to strengthen powers to deal with abuses of animal welfare, including illegal puppy farms, puppy trafficking and dog fighting. Following consultation with stakeholders, steps will be taken to consolidate current legislation and to introduce new powers and penalties to deal with new types of offences.

Antisocial Behaviour

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* interim and *(b)* full antisocial behaviour orders have been made in each Police Service of Northern Ireland district command unit since their introduction in Northern Ireland. [42685]

Mr. Hanson: The relevant authorities have notified the Northern Ireland Office of two antisocial behaviour orders in Larne district council area, one interim antisocial behaviour order in Belfast city council area, two interim antisocial behaviour orders in Coleraine borough council area, one antisocial behaviour order on conviction in Dungannon district council area, and one interim antisocial behaviour order in Magherafelt district council area. The NIO does not collect data by police DCU.

Bovine Tuberculosis

Mr. Drew: To ask the Secretary of State for Northern Ireland pursuant to the answer of 9 January 2006, to question 39669, on bovine tuberculosis, what compensation package is available for farmers who have cattle diagnosed as positive when tested for bovine tuberculosis; and what impact this has on their ability to move cattle *(a)* within the country, *(b)* to the mainland and *(c)* to the Republic of Ireland. [41891]

Angela E. Smith: Under the Tuberculosis Control Order (Northern Ireland) 1999 (as amended), where the Department of Agriculture and Rural Development (DARD) causes an animal to be slaughtered as a reactor the compensation payable by DARD for the animal is the market value of the animal. The market value is defined by the legislation as the price which might reasonably have been obtained for it at the time of valuation from a purchaser in the market if it had been free from disease.

In relation to the impact on movement of cattle, where TB is identified in a herd in Northern Ireland the movement of animals out of the herd is prohibited except to slaughter. Also, subject to the veterinary assessment the movement of animals onto the farm may be prohibited.

Only cattle from officially TB free herds are allowed to be moved to Great Britain and cattle from herds restricted for TB are not eligible to move there.

In accordance with the relevant EU rules (Council Directive 64/432/EEC), only cattle from officially TB free herds can be exported to the Republic of Ireland, and other member states. However, at present, live cattle cannot be exported from the UK due to BSE restrictions.

Bulimia/Anorexia

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many specialist staff are available for the treatment of bulimia and anorexia in Northern Ireland; what facilities are available; and if he will make a statement. [42269]

Mr. Woodward: Community-based specialist eating disorders teams, which will be managed within a regional care network, are currently being established in South and East Belfast Health and Social Services (HSS) Trust, Causeway HSS Trust, Craigavon HSS Trust and Foyle HSS Trust. Nine appointments have been made and it is expected that the remaining 11 will be made by end of May.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Secretary of State for Northern Ireland how many and what percentage of jobs in *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) public body for which his Department is responsible are located in (A) each English region, (B) Northern Ireland and (C) overseas. [40035]

Mr. Woodward: The information is as follows.

(a) Northern Ireland Office

Core and legal staff	*Number of staff*	*Northern Ireland*	*London*	*Northern Ireland percentage*	*London percentage*
NIO Core	763	673	90	88	12
Public Prosecution Service	348	348	0	100	0
Crown Solicitor's Office	74	74	0	100	0

This figure excludes temporary staff.

(B)(i) Non-departmental public bodies

(B)(iii) Other public bodies

Name	Number of staff	Northern Ireland	London	Northern Ireland percentage	London percentage
Chief Electoral Office	46	46	0	100	0

Disabled Parking

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much revenue was collected through fines incurred by *(a)* parking in a disabled person's parking space and *(b)* the wrongful use of a disabled person's badge in Northern Ireland in 2004–05. [24180]

Mr. Woodward: The following table provides details of the amount of revenue collected through fines issued by police and traffic wardens for disabled parking offences in 2004–05.

£

Type of offence	2004	2005
Illegal parking in a disabled person's bay	53,520.00	52,770.00
Wrongful use of a disabled person's badge	270.00	330.00

Executive Programme Funds

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will reinstate the Executive Programme funds which were abolished by the Direct Rule administration in 2002; and if he will make a statement. [42402]

Angela E. Smith: I refer the hon. Gentleman to the reply I gave on 23 November 2005, *Official Report*, column 1980W.

Gabion Wall (Killyleagh)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on progress on reaching a decision on the Gabion wall at Killyleagh. [42259]

Angela E. Smith: The Planning Service remains committed to pursuing the necessary actions to ensure a satisfactory resolution to this matter.

An Enforcement Order, requiring the removal of the unauthorised wall, was served on 2 August 2005. The applicant lodged an appeal against the enforcement notice, and the Planning Appeals Commission is expected to set a date for the hearing in due course.

Separately, consideration of the current planning application is continuing and additional information has been requested from the agent.

These parallel processes will continue to be pursued until a satisfactory outcome is achieved.

Hip Replacements

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the waiting time was for hip replacements in each health board area in Northern Ireland on the last date for which figures are available; and if he will make a statement. [42268]

Mr. Woodward: The number of patients waiting for a hip replacement in each Health and Social Services Board area in Northern Ireland at 31 December 2005 by length of time waiting is shown in the following table:

	Number waiting			
	Less than 6 months	*6–12 months*	*12–17 months*	*Total*
Eastern	250	193	3	446
Northern	185	132	12	329
Southern	104	81	4	189
Western	140	90	16	246
Northern Ireland	679	496	35	1,210

Source:
Altnagelvin Group and Green Park Healthcare HSS Trusts.

In July I announced a target to ensure that no-one is waiting more than nine months for hip replacement surgery by March 2006. The Department of Health is working very closely with Trusts to ensure that this target is achieved through further increases in hospital activity and use of the independent sector.

Hospital Beds

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many single rooms are provided to patients at each hospital in the Province. [18422]

Mr. Woodward: The number of single rooms available to patients at each hospital in Northern Ireland is shown in the following table:

Hospital	*Single rooms available*
Altnagelvin Area[1]	[2]100
Longstone	31
Mullinure	4
Oaklands	1
St. Lukes	30
Belfast City	103
Belvoir Park NICCO	20

Northern Ireland HSS Trusts.

Illegal Waste

Lady Hermon: To ask the Secretary of State for Northern Ireland how many prosecutions have been initiated against the illegal dumping of waste originating from the Republic of Ireland in each of the last five years; and how many of those prosecutions have been successful. [42686]

Angela E. Smith: The Environment and Heritage Service [EHS] acquired powers for prosecution in December 2002; EHS does not hold figures for 2001 and 2002 when district councils were the regulators. With regard to cases of illegal dumping of waste from ROL in 2003—seven prosecutions were initiated; in 2004—12 prosecutions were initiated and in 2005—11 prosecutions were initiated. To date, eight successful prosecutions have been completed with fines totalling £33,070 plus costs imposed.

A further 16 cases are pending submission to the Public Prosecution Service.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many illegal landfill sites with waste from the Republic of Ireland have been detected in Northern Ireland in each of the last five years; and if he will make a statement. [42687]

Angela E. Smith: I refer the hon. Gentleman to the response given to the hon. Member for East Antrim on Friday 28 October 2005, *Official Report*, column 650W. Since that date, an additional site of significance has been detected and will be subject to prosecution. Four others are also under investigation.

Medical Treatment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients in Northern Ireland had to travel to other parts of the UK or further afield to receive treatment on the NHS in each of the last five years; which procedures such patients received; what the cost of such treatment has been over the last five years for which figures are available; and if he will make a statement. [42258]

Mr. Woodward: The table sets out details of the number of patients who had treatment outside Northern Ireland as part of waiting list initiatives in each of the last five years; the specialties concerned; and the resultant costs.

	Procedures	Number of patients treated elsewhere in UK or further afield	Cost (£)
2000–01	Cardiac Surgery, MRI, Orthopaedic Surgery	208	1,042,749
2001–02	Cardiac Surgery, MRI, Orthopaedic Surgery	1,467	2,724,418
2002–03	Cardiac Surgery, General Surgery, Orthopaedic Surgery	457	4,607,826
2003–04	Cardiac Surgery, MRI, Neurosurgery, Orthopaedic Surgery	388	5,287,420
2004–05	Cardiac Surgery, Cardiology, Neurology, Neurosurgery, Ophthalmology, Orthopaedic Surgery, Plastic Surgery	407	4,152,632
Total		2,927	17,815,045

I have set targets for this year to ensure that no-one is waiting more than 12 months for in-patient or day case treatment by March 2006, with shorter waiting times for cardiac surgery (six months), cataract surgery (six months), and major joint replacement (nine months). This is just a first step, and waiting times must be further reduced over the coming years.

In bringing about these improvements, I have introduced an Alternative Offer Scheme whereby patients will be made an offer of treatment by an alternative provider, including outside Northern Ireland where necessary. While every effort is made to treat people at their local hospital, where this is not possible I believe it is more important to get people the treatment they require and end the anxiety and frustration caused by long waiting times.

Review of Public Administration

Mr. McGrady: To ask the Secretary of State for Northern Ireland what discussions his Department has had with representatives of the Irish government since the publication of the Review of Public Administration on 22 November 2005. [40781]

Angela E. Smith: There have been no discussions with representatives of the Irish Government since the publication of the Review of Public Administration on 22 November 2005.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what discussions have been held between *(a)* the Prime Minister and the Prime Minister of the Republic of Ireland and *(b)* the Secretary of State for Northern Ireland and Ministers in the Northern Ireland Office and the Minister for Foreign Affairs in Dublin and officials on the Review of Public Administration. [40787]

Angela E. Smith: There has been no discussion at Prime Minister/Taoiseach level. However, my right hon. Friend the Secretary of State and Dermot Ahern discussed the review of RPA briefly at a stocktake meeting held in Hillsborough on 14 November.

Statutory Off Road Notices

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many motorists in Northern Ireland should have completed the Statutory Off Road Notice during 2005, but did not; and how many were subsequently prosecuted. [42276]

Angela E. Smith: Figures for Statutory Off the Road Notification (SORN) are not recorded separately but incorporated into a range of offences under the Continuous Registration Regulations. For the calendar year ended 31 December 2005, 60,779 out of court settlement offers were issued to vehicle keepers who had failed to comply with Continuous Registration Regulations. Of those who did not respond to the offer 146 have been prosecuted.

Unauthorised Encampments

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the implementation of the Unauthorised Encampments (Northern Ireland) Order 2005. [42719]

Mr. Hanson: The Unauthorised Encampments (Northern Ireland) Order 2005, was made at Privy Council on 19 July 2005. However, as the order cannot be fully effective until sufficient sites for Travellers are available, I have decided to defer bringing the substantive provisions of the order into effect until I am satisfied that an adequate number of transit sites is operational in Northern Ireland.

Responsibility for providing such sites falls to the Housing Executive and I am pressing it to ensure the necessary sites are available as soon as possible. I anticipate that five sites will be operational by the summer by which time I will review the situation with a view to enabling the necessary provisions. I believe this represents a fair and balanced approach.

HOME DEPARTMENT

Public Order

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued by courts in Coventry, South since the penalty was introduced; and how many have been breached. [39742]

Hazel Blears: Data held centrally on the number of antisocial behaviour orders (ASBOs) issued by court in Coventry are only available for the whole of the city by type of court.

From commencement up to 31 May 2000 data were collected on aggregate numbers only by police force area. Since 1 June 2000 up to 30 June 2005 (latest available) the number of ASBOs issued at all courts in Coventry, as reported to the Home Office, is 64.

The Home Office Court Proceedings Database holds breach proceedings only where there has been a conviction and are available at Criminal Justice System area level only. ASBO breach data are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since one June 2000. During this period, of those ASBOs issued in the West Midlands, 81 were breached on one or more occasions.

Shona McIsaac: To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders have been issued by courts in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in each quarter since the penalty was introduced; [42428]

(2) what percentage of antisocial behaviour orders issued in *(a)* North East Lincolnshire and *(b)* North Lincolnshire have been issued to people under the age of 21. [42584]

Hazel Blears: The available information is given in the table.

Number of antisocial behaviour orders issued by the courts, as reported to the Home Office where restrictions are imposed within North East Lincolnshire and North Lincolnshire local government authority areas, by period and age, 1 June 2000[1,2] to 30 June 2005 (latest available)

April–June 2005	5	3	8	63
Total	18	8	26	69

[1] Between 1 April 1999–31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period no ASBOs were issued, as reported, within Humberside pfa (in which the North East Lincolnshire and North Lincolnshire local government authority areas are located).

[2] As from 1 June 2000 data collected centrally by magistrates courts committee (MCC) area by quarter. For the month of June 2000 no ASBOS were reported as being issued.

Judy Mallaber: To ask the Secretary of State for the Home Department how many people in *(a)* Derbyshire and *(b)* Amber Valley have entered into acceptable behaviour contracts since their introduction. [42939]

Hazel Blears: The number of acceptable behaviour contracts (ABCs) made in Derbyshire and the Amber Valley is not known as this information is not collected centrally. ABCs are voluntary agreements with no statutory basis and can be entered into by various local services such as local authority social services or housing

departments, youth inclusion and support panels or the police. They are therefore unsuitable for central data collection.

A recent survey carried out by the Home Office and sent to all crime and disorder reduction partnerships estimated that over 13,000 ABCs were issued between October 2003 and September 2005.

Asylum Seekers

Mr. Marshall-Andrews: To ask the Secretary of State for the Home Department how many failed asylum seekers were held in custody at the latest date for which figures are available; and how many were families with children below the age of 18. [40633]

Mr. McNulty: Information on the number of persons detained solely under Immigration Act powers is available from a snapshot taken on the last Saturday of the quarter and is published in the Quarterly Asylum Statistics publications.

This information is available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Gerrard: To ask the Secretary of State for the Home Department how many women are detained under Immigration Act powers; and how many of them are known to be pregnant. [39520]

Mr. McNulty: Pregnant women are not normally considered for detention under the Immigration Acts unless there is a clear prospect of early removal from the United Kingdom and medical advice suggests no question of confinement prior to this. In addition, women in the early stages of pregnancy may be detained briefly at Oakington Reception Centre as part of the fast-track asylum process and Yarl's Wood Immigration Removal Centre.

The latest available information on persons detained solely under Immigration Act powers relates to 24 September 2005. As at that date, there were less than five women in detention who were known to be pregnant, all of whom were at the Yarl's Wood immigration Removal Centre.

Information on the number of persons detained, as at 24 September 2005 are published in the Quarterly Asylum Bulletin, on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Automatic Number Plate Recognition

Lynne Featherstone: To ask the Secretary of State for the Home Department if he will list the purposes for which his Department uses automatic number plate recognition; and how many convictions have resulted from its use in each of the last five years. [40600]

Hazel Blears: The Home Office is developing automatic number plate recognition (ANPR) to target terrorism, serious and organised crime and 'volume' crimes such as burglary and theft of, and from, vehicles. Evaluation of the technology, which is currently being used by all 43 forces in England and Wales, shows that officers engaged in ANPR operations made over nine times more arrests and brought, on average, three times more offences to justice than general patrol officers.

This facility will enable the Police and intelligence services to track vehicle movements throughout the United Kingdom, specifically for the purposes of detection and preventing of serious crime.

The number of convictions resulting from the use of ANPR in the last five years is not collected centrally, however police forces that have participated in the three stages of the ANPR pilot have recorded nearly 30,000 arrests in a 32 month period.

Burglar Alarms

Andrew Rosindell: To ask the Secretary of State for the Home Department what discussions he has had regarding the provision of burglar alarms to the elderly at a reduced cost. [41690]

Hazel Blears: I have had no specific discussions on this issue. Decisions about funding interventions that help reduce crime and the fear of crime such as such as the provision of burglar alarms are taken by crime and disorder reduction partnerships (CDRPs) in the light of local assessments of priorities.

During 2005–06, CDRPs have received £74 million in funding for crime reduction and community safety programmes through the Building Safer Communities Fund (BSCF). This has been the primary source of funding to CDRPs for a number of interventions, including amongst others, tackling burglary and vehicle crime, violent crime, drug-related crime and youth crime.

In addition, we have provided £50 million for police Basic Command Unit Commanders to allow them to work with CDRPs on complementary crime prevention initiatives.

Closing the Gap

Mr. Harper: To ask the Secretary of State for the Home Department whether he received a draft copy of the document Closing the Gap before 13 September 2005. [42430]

Hazel Blears: The report was published on 16 September 2005. Ministers and officials had been briefed on the report prior to that date.

Community Safety Partnerships

Mr. David Jones: To ask the Secretary of State for the Home Department what mechanisms he has put in place for the monitoring of community safety partnerships. [41154]

Hazel Blears: The Home Office has in place performance management arrangements to ensure the effectiveness of Community Safety Partnerships (CSPs) in Wales and Crime and Disorder Reduction Partnerships (CDRPs) in England.

Under these arrangements challenging targets for crime reduction have been agreed with each CSP and CDRP and progress against them is regularly monitored. Under-performing partnerships are offered support and assistance to improve delivery. Our

approach to performance management is to work with local partners to bring the performance of all CSPs and CDRPs, to the level of the best.

Consultants/Special Advisers

Mike Penning: To ask the Secretary of State for the Home Department how many *(a)* consultants and *(b)* special advisers were employed by his Department in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27419]

Mr. Charles Clarke: Information on individual consultants employed by the Department is not held centrally and to obtain this information would incur disproportionate cost.

The information held by the Home Office on its spend on consultants is as follows:

We do not hold information on the Department's total expenditure on consultants for 2002–03 and to obtain this information would incur disproportionate cost.

The best information available for the financial year 2003–04 from interrogation of the Business and Accounting Strategic System (BASS), indicates that the cost of external consultants to the department in 2003–04 was £106.8 million.

The best information available for the financial year 2004–05 from the interrogation of the Adelphi Enterprise Resource Planning (ERP) system Accounts Payable Module indicates that the cost of external consultants to the department was £46.9 million.

The Department awards contracts in open competition according to the EU procurement regulations based on best value for money. The use of external consultants in the Home Office provides the Department with specialist knowledge, skill, capacity and technical expertise that is not otherwise available in house.

Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2006, *Official Report*, Columns 158–162WS. Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

	£
1997–98	7,627,016
1998–99	4,588,445
1999–2000	10,302,672
2000–01	27,877,286
2001–02	21,147,058
2002–03	[1]—
2003–04	106,800,000
2004–05	46,900,000

[1] Not held.

Correspondence

Mike Penning: To ask the Secretary of State for the Home Department what steps he is taking to improve the Department's performance in replying to correspondence from members of the public. [21923]

Mr. Charles Clarke: Every effort is made to handle all correspondence effectively and efficiently. All correspondence from hon. Members and Peers is handled in accordance with the principles set out in 'Handling Correspondence from Members of Parliament, Members of the House of Lords, MEPs and Members of Devolved Assemblies: Guidance for Departments'. The same principles apply when handling correspondence from members of the public.

The department aims to respond to correspondence from the public within 20 working days. The Home Office responded to 92 per cent. of 9,788 items of centrally received public correspondence received in the period June to September of this year within target. Not all correspondence received from the public is tracked, for example correspondence relating to casework is not monitored.

A number of initiatives are in place to encourage improved correspondence performance:

the development of factsheets

promotion of the use of centralised drafting facilities

forums for the sharing of good practice

relevant training is available in subjects including the use of Plain English

Management information is gathered across the group and used to monitor performance and focus attention on areas where improvements are required.

The computerised correspondence tracking system has now been operational since 2003. The department has reviewed processes for the handling of correspondence and introduced measures that mean cases reach the appropriate drafting officer promptly.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 28 November 2005 from the right hon. Member for Manchester, Gorton with regard to Miss Sabrina Williams. [41844]

Mr. Charles Clarke: Baroness Scotland replied to my right hon. Friend's letter as duty Minister on behalf of the Secretary of State for the Home Department on 9 January.

Crime Statistics

Mr. Amess: To ask the Secretary of State for the Home Department how many persons convicted of *(a)* murder and *(b)* manslaughter in England and Wales were subsequently (i) charged with and (ii) convicted of murder or manslaughter following their release on licence in 2004. [39747]

Hazel Blears: In 2004, there were two persons in England and Wales known to have been killed by persons who had been previously convicted of homicide in England and Wales.

Mr. Gibb: To ask the Secretary of State for the Home Department how many people were *(a)* arrested for and *(b)* charged with a recordable offence in each year since 1995. [41675]

Hazel Blears: Statistics are collected on arrests for recorded crime (notifiable offences) by offence group, age, gender and ethnicity. Data available on the number of persons arrested for a notifiable offence can be found in Table AA of the HOSB "Arrests for Recorded crime (notifiable offences) and the Operation of Certain Powers under PACE", http://www.homeoffice.gov.uk/rds/pdfs05/hosb2105.pdf

Information prior to 1999–2000 is not available.

The statistics do not record what action followed the arrest and would only include arrests for a recordable offence if the offence was both recordable (on the Police National Computer) and notifiable to the Home Office. No separate statistics are collected by the Home Office on persons charged.

Criminal Records Checks

Peter Bottomley: To ask the Secretary of State for the Home Department what the *(a)* average and *(b)* longest time taken was for Criminal Records Bureau checks to be made when a doctor in training changed (i) rotation and (ii) NHS trust in the last period for which figures are available. [43170]

Andy Burnham: Information is not available to answer the hon. Gentleman's question; such data are not collated centrally by the Criminal Records Bureau.

Departmental Correspondence

Dr. Strang: To ask the Secretary of State for the Home Department how much departmental correspondence was addressed to people who had *(a)* died and *(b)* moved house in each of the last five years. [41051]

Mr. Charles Clarke: This information is not held centrally and could only be obtained at disproportionate cost.

Departmental Resources

Mr. Hancock: To ask the Secretary of State for the Home Department what the real terms percentage increase in allocated resources for his Department *(a)* was for the period 1997–98 to 2004–05 and *(b)* is estimated to be between 2005–06 and 2007–08 (i) for each period and (ii) for each year. [31031]

Mr. Charles Clarke: The real terms increase in allocated resources[1] for each period and year are shown in the following table:

[1] Allocated resources for 1997–98 and 1998–99 are based on the old system of cash accounting which was replaced by resource accounting in 1999–2000. From 1999–2000 onwards, the total allocated resources shown are the current and capital elements of the department's departmental expenditure limit (DEL).

Period		*Total (stated in 2004–05 values) £000*	*Year on year real terms increase (percentage)*	*Period increase in real terms (percentage)*
1	1997–98	7,906,545		
	1998–99	8,367,815	5.83	
	1999–2000	8,780,662	4.93	2004–05 total is 64.69 higher than 1997–98 total
	2000–01	10,211,327	16.29	
	2001–02	12,009,479	17.61	
	2002–03	12,425,142	3.46	
	2003–04	12,877,937	3.64	
	2004–05	13,021,404	1.11	
2	2005–06	13,565,023	4.17	2007–08 total is 4.21 higher than 2005–06 total
	2006–07	13,804,366	1.76	
	2007–08	14,136,242	2.40	

Equality Bill

Mr. Leigh: To ask the Secretary of State for the Home Department what criteria were used to make the decision *(a)* to grant an exception from the religious discrimination provisions in clause 47 of the Equality Bill to landlords who let part of a house in which they live and *(b)* not to grant an exception from clause 46 to owners of bed and breakfast accommodation who rent out part of a house in which they live. [41922]

Paul Goggins: There is a fundamental difference between someone who rents out a room in their own home and someone who provides a bed and breakfast service to the general public.

When a person rents a room in a house the arrangement is usually of a long-term nature and involves the paying of rent on a weekly or monthly basis. The person renting the room becomes a tenant and the house becomes their home. As a tenant they are entitled to certain legal rights of occupancy and it will be classed as their residence for the purposes of, for example, the census and electoral register. Such arrangements may involve a close relationship between the landlord and tenant. For example, they may include sharing washing and cooking facilities as well as other communal areas in the house. We believe it is right that when someone offers to take someone into their home on this basis that they should be allowed to discriminate on who they accept as tenants. That is why we have provided an exemption for the letting out of rooms in small dwellings at clause 48 of the Equality Bill.

The situation with bed and breakfast accommodation is different. This involves a service that is provided to the general public on a commercial basis. People often stay in bed and breakfast accommodation for only a brief period of time and the service is often paid for on a daily

basis. The person staying in such accommodation does not become a tenant and has no legal rights of occupancy. We do not believe that there is any justification for an owner of a bed and breakfast to discriminate on the grounds of religion or belief in the way they provide their services. Clause 46 of the Equality Bill would not make it unlawful to provide a service which reflected the religious beliefs of the owner, for example, to offer a Christian bed and breakfast service where grace was said at mealtimes or where rooms included objects associated with the Christian faith.

Humberside Police

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what the average response time to an emergency call to the police was in Humberside in each year since 1997. [39416]

Hazel Blears: Data on time taken to respond to emergency calls are not collected centrally. This is essentially an operational matter for the chief constable and this query could therefore be directed to Humberside Police.

Identity Cards

Mr. Heald: To ask the Secretary of State for the Home Department which public sector body will levy the proposed fines outlined in the planned identity card scheme. [41240]

Andy Burnham: Fines will be levied under the proposed Identity Cards Scheme in connection with the criminal offences of possession of false identity documents, tampering with the Register, provision of false information and unauthorised disclosure of information from the Register which the Bill introduces. These will be levied by the Courts on conviction in the usual way.

The Scheme will set up a system of civil penalties, which are not fines, for failure to register when the scheme is compulsory, failure to renew ID cards when the scheme is compulsory and failure to notify changes affecting accuracy of the Register. This will be administered by the Secretary of State by means of the new executive agency which will be responsible for issuing identity cards and passports.

Immigration and Nationality Directorate (Correspondence)

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps he is taking to improve the Immigration and Nationality Directorate's performance in replying to correspondence from *(a)* members of the general public and *(b)* hon. Members; and if he will make a statement. [34332]

Mr. McNulty: The Immigration and Nationality Directorate (IND) receives well over 1 million pieces of correspondence each year. The IND's policy is to acknowledge the receipt of all immigration, asylum, asylum support and citizenship applications either by sending a letter or issuing a form.

Other casework-related correspondence is not at present routinely acknowledged.

Our published target is to reply to 95 per cent. of correspondence—including Members' letters—within 20 working days. Some of the IND's business areas already achieve this target but we are considering how to meet it more consistently across all areas without adversely affecting decision-making capability. Our strategy to achieve that, however, cannot simply focus on answering letters more quickly. We must also improve the way we communicate with Members and constituents so that they do not feel compelled to write so often. I shall shortly be writing to all Members setting out how we intend to move forward on this.

Intercept Evidence

David Davis: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* police chief constables and *(b)* the Commissioner of Police for the Metropolis about using intercept evidence in court; and if he will make a statement. [29372]

Mr. Charles Clarke: I have not discussed the matter personally with police Chief Constables or the Commissioner of Police for the Metropolis nor have they sought to raise it with me. However, I am kept well informed of police views through the discussions officials regularly have with the police and others on this issue.

LT 12020 Speed Measuring Device

Mr. Marshall-Andrews: To ask the Secretary of State for the Home Department if he will make a statement on the accuracy of the LT 12020 speed measuring device. [40451]

Paul Goggins: All speed measuring devices type approved for use by the police, including the LT 12020, are subject to laboratory and field testing before they receive type approval. I am satisfied as to the accuracy and reliability of the LT 12020.

Metropolitan Police Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted during 2004 of an offence under paragraph 10 of section 54 of the Metropolitan Police Act 1839. [40977]

Hazel Blears: Persons proceeded against and found guilty at the magistrates courts of offences under section 54(10) of the Metropolitan Police Act 1839 cannot be separately identified on the court proceedings database held by the Office for Criminal Justice Reform as they form part of a miscellaneous group which cannot be analysed.

Misuse of Drugs Advisory Committee

Greg Clark: To ask the Secretary of State for the Home Department how many scientists who have conducted research into the association between drug misuse and mental illness *(a)* serve and *(b)* have served since 1997 on the Advisory Committee on the Misuse of Drugs. [42013]

Paul Goggins: Under the terms of the Misuse of Drugs Act 1971, the membership of the Advisory Council on the Misuse of Drugs must include representatives of the practices of medicine, dentistry, veterinary medicine and pharmacy, the pharmaceutical industry and chemistry other than the pharmaceutical industry and people who have a wide range of experience of social problems connected with the misuse of drugs.

There are four present members and six past members (who were members since 1997, including two members that retired from the Advisory Council at the end of 2005) who have conducted research into drug misuse and mental illness. The Advisory Council's committees and working groups also include co-opted members, some of whom have also conducted research in this area.

Mobile Phone Location Data

Bob Spink: To ask the Secretary of State for the Home Department what use the police made of public mobile communications networks during the response operation to the incidents on the London underground and bus network on 7 July 2005. [42715]

Hazel Blears: The primary method of communication for the police are secure radio systems. Individual officers do make use of mobile telephones for communication both to other officers and to outside agencies, but emergency plans are designed around the use of radios. As part of the Government's lessons learned exercise we are reviewing the communication by emergency responders, Government and others on 7 July.

Bob Spink: To ask the Secretary of State for the Home Department how many instances there have been of the police using data from UK mobile phone operators to locate a missing person. [42716]

Hazel Blears: This information is not centrally held.

Motoring Offences

Mr. Jenkins: To ask the Secretary of State for the Home Department how many motorists stopped for breaking the speed limit in *(a)* Tamworth, *(b)* Staffordshire and *(c)* England and Wales received a (i) warning and (ii) caution in each of the last five years for which figures are available. [42096]

Paul Goggins: The annual Home Office publication 'Offences relating to motor vehicles, England and Wales, Supplementary tables' 1999 to 2003 (latest available), Table 18 gives data by police force area on written warnings (which includes formal cautions) issued by motoring offence groups. Copies of the above publications are available in the Library. The publications can also be accessed on the Home Office Research Development and Statistics (RDS) website at: www.homeoffice.gov.uk/rds/index.htm

It is not possible from the data collected centrally to identify Tamworth within the geographical area covered by the Staffordshire police force. 2004 data will be available at the end of March 2006.

Offender Rehabilitation

Mr. Hurd: To ask the Secretary of State for the Home Department what non-charitable premises are available in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon for the provision of (i) treatment testing and (ii) rehabilitation of offenders by his Department. [40716]

Fiona Mactaggart: The non-charitable premises available for the provision of drug treatment and testing and the rehabilitation of offenders residing in the London borough of Hillingdon, including those living in the Ruislip-Northwood constituency, are as set out in the following table:

Name of provider	*Address of premises*	*Description of what is delivered at premises*
DRR/DTTO Probation Team	Uxbridge Probation Office The Court House Harefield Road Uxbridge Middlesex UB8 1PQ	Supervision of offenders on drug treatment and testing orders (DTTOs) and drug rehabilitation requirements (DRRs) of the community order who have not been designated as prolific and other priority offenders (PPOs)
PPO team	Main address: Uxbridge Probation Office The Court House Harefield Road Uxbridge Middlesex UB8 1PQ	Supervision of offenders on DTTOs/DRRs who have been designated as PPOs. Drug testing of PPOs on licence, which is in the process of being implemented across the borough
Criminal Justice Interventions Team (CJIT)	Old Bank House 64 High Street Uxbridge Middlesex UB8 1JP	Assessments, drug treatment and/or testing as part of the arrest referral scheme in Hillingdon, DTTOs/DRRs, as part of the CARATs service and for PPOs
Probation staff from the Offender Programme Unit, Hendon Probation Office	Harrow Probation Office Rosslyn Crescent Harrow Middlesex	Addressing substance related offending (ASRO), a substance misuse accredited offending behaviour programme, to offenders on DTTOs/DRRs or as a stand-alone requirement of a community order where no other drug work is being undertaken
Hillingdon Drug and Alcohol Service (HDAS)	Old Bank House 64 High Street Uxbridge Middlesex UB8 1JP	Treatment of drug interventions programme (DIP) clients transferred from CJIT after 12–16 weeks and prescribing and assessments for residential rehab./detoxification for young offenders

Name of provider	Address of premises	Description of what is delivered at premises
Hillingdon Youth Offending Service	Darren House 65 High Street Uxbridge Middlesex UB8 1LQ	Supervision of young offenders, assessment and delivery of interventions e.g. targeted educational programme or counselling through substance misuse worker
Sorted	Sterling House 276a High Street Uxbridge Middlesex UB8 1LQ	Provision of tier 2 3 treatment e.g. counselling to young offenders

Operation Crackdown

Kerry McCarthy: To ask the Secretary of State for the Home Department whether there are plans to repeat Operation Crackdown in 2006; and if he will make a statement on the Government's plans to reduce the supply of Class A drugs in the UK. [41571]

Paul Goggins: The objective of our National Strategy is to have a sustained impact on the supply of Class A drugs to the UK and availability within its communities.

While there are no immediate plans to repeat Operation Crackdown in 2006, we are bearing down on each part of the supply chain, both in this country and overseas, and have put in place strong powers to seize the assets of drug dealers, and strengthened the ability to bring dealers to justice, through the Drug Act 2005.

Operation Crackdown, the concerted campaign by 33 police forces in England and Wales between January and March 2005 achieved its objective of promoting the use of powers to close crack houses and these powers continue to be widely used by the police.

Parenting Programmes

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what mechanisms are to be put in place to ensure that there is a lead organisation in every locality to deal with the most challenging families; and if he will make a statement. [41938]

Hazel Blears: The Respect Action Plan sets out the Government's plans for tackling the most challenging families. Initially the lead will be achieved by a dedicated Family Support Project which will be created in areas where they are needed. These projects assign a key worker to each family who coordinates the range of services and agencies that are involved with the household. Over time the effective approaches from these projects need to be mainstreamed and a local body (such as the crime and disorder reduction partnership) made clearly accountable for leading the local response to the most challenging households.

Police

Mr. Harper: To ask the Secretary of State for the Home Department what estimate he has made of the likely cost of the proposed police force restructuring *(a)* in England and Wales and *(b)* in Gloucestershire. [34265]

Hazel Blears: The business cases submitted by forces and authorities include information on financing and costs. The Home Office has provided considerable advice and guidance, including involving the independent Chartered Institute of Public Finance and Accountancy (CIPFA) to ensure that this financial information is provided on a consistent and equal basis.

A variety of estimates of costs of change have been advanced which are progressively being refined as business cases are analysed.

The Home Office has established a finance working group with the policing community and other Government Departments to take forward work on financial issues arising from restructuring.

Mr. Harper: To ask the Secretary of State for the Home Department how the police force restructuring will be funded. [34266]

Hazel Blears: I have decided to set aside £50 million of police capital funding for 2006–07 and up to a maximum of £75 million of police capital funding for 2007–08 to support authorities and forces committing to early i.e. voluntary mergers and will consider applying this to authorities and forces which I decide can deliver acceptable levels of protective services if they remain stand-alone, since they too will need to reconfigure their organisations to achieve this.

Mr. Harper: To ask the Secretary of State for the Home Department what estimate he has made of the financial payback period for the police force restructuring. [34267]

Hazel Blears: The business cases submitted by forces and authorities include information on financing and costs. The Home Office has provided considerable advice and guidance, including involving the independent Chartered Institute of Public Finance and Accountancy (CIPFA) to ensure that this financial information is provided on a consistent and equal basis.

There are a variety of estimates of the financial payback period identified in business cases, which are being progressively refined, and this quality assurance will form a central part of the analysis produced by the Home Office.

Mr. Harper: To ask the Secretary of State for the Home Department what guidance his Department has issued to chief constables on the distribution of *(a)* police officers and *(b)* resources. [34268]

Hazel Blears: It is an operational matter for the chief constable of each area to decide how he or she wishes to deploy the available resources to best serve their communities. However, in doing so, chief constables must take account of nationally set targets on reduction of crime and service delivery.

We are introducing national standards setting out the quality of service which members of the public can expect whenever they have contact with the police. Public satisfaction with the police has now become a part of how police performance is measured.

We will give individuals and communities a voice in determining local policing priorities, engage communities in finding solutions to problems, and, where people are dissatisfied with the response to persistent problems, they will be able to secure a response from councils and the police. We want people to know who their local police officers are, and how to contact them. I have also pointed to the fact that every area will have a dedicated neighbourhood policing team by 2008.

It is also the case that some resources are allocated directly to the local level, for example the BCU Fund, worth £50 million in 2005–06. This is aimed at BCU Commanders and is intended to help the police play a full and active role in the delivery of crime and disorder reduction partnership strategies. BCU Commanders may spend the money on a wide range of crime and disorder interventions, including target hardening activity focusing on repeat victims, tackling antisocial behaviour through interventions such as pub watch schemes, youth inclusion work including support programmes for young people and CCTV. The interventions might also include anti-drugs work.

Philip Davies: To ask the Secretary of State for the Home Department what assessment he has made of the conclusions of the Walsh Group evaluation in November 2003 in relation to the drug testing equipment supplied to the police by Cozart Bioscience Ltd. [40318]

Paul Goggins: The Department received the research report "An Evaluation of Oral Fluid Point of Collection Testing Devices" by the Walsh Group (November 2003) which assessed the accuracy of drug testing equipment supplied by a range of manufacturers, including that supplied by Cozart Bioscience Ltd. to the police under contract from the Department. This report initially indicated that the Cozart equipment was not accurate.

However, the authors of this report published an erratum in the July/August 2004 edition of the *Journal of Analytical Toxicology* where they stated errors in the reporting of opiates and cocaine results arising from the Cozart technology. Separate studies undertaken by the National Institute of Drug Abuse in the USA indicate that the Cozart technology is accurate.

Mr. Gibb: To ask the Secretary of State for the Home Department how many police officers were *(a)* accused of, *(b)* arrested for and *(c)* charged with corruption-related offences in each year since 2000. [41670]

Hazel Blears: The level of detail in the information you require is not held centrally and could be obtained only at a disproportionate cost. However, more generalised information on police complaints and discipline can be found in Home Office Statistical Bulletins on the Home Office website (www.homeoffice.gov.uk/rds/pdfs04/hosb1704.pdf)

Mr. Prisk: To ask the Secretary of State for the Home Department (1) what estimate his Department has made of the costs of the initial study into police force mergers undertaken by the Police Information Technology Organisation; [39706]

(2) what estimate his Department has made of the costs of implementing new IT systems arising from the options under consideration for the merger of police forces *(a)* within the East of England region and *(b)* in each of the other regions. [39712]

Hazel Blears: A study initiated and sponsored by the Police Information Technology Organisation commenced in November 2005 to examine the impact on IT of potential mergers within the eastern region. The original estimate for the cost of the study was £110,000 and funding has been capped at £120,000. The study is due to be completed at the end of January with the findings expected to be reviewed, approved and published in February 2006.

As part of the work flowing from the recent report on police structures "Closing the Gap" which was published by Her Majesty's Inspectorate of Constabulary, the Home Office is examining the matter of cost of implementation of force restructuring on police IT and the eastern region study will assist in that evaluation.

Mr. Greg Knight: To ask the Secretary of State for the Home Department if he will amend the guidance given to police officers in relation to the shooting of animals being kept in captivity under licence which have escaped, so that such an animal is only shot when it is an immediate danger to the public. [42376]

Hazel Blears: This is an operational matter for individual chief officers of police. If police officers encounter any animal which could be considered dangerous to the public, they will deal with it in an appropriate manner and in accordance with the Association of Chief Police Officers Manual of Guidance on the Police Use of Firearms.

The manual states that the humane destruction of an animal is a duty which may fall to the police service if the animal represents a danger to lives or property, or if it is in such a condition that it must be killed to avoid unnecessary suffering and no veterinary surgeon or licensed slaughterer is available to perform the task or they are otherwise unable to do so.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many police officers have been allocated to each London borough since 1997; and if he will make a statement. [42631]

Hazel Blears: Information on the number of police officers in each of the Operational Command Units for each London borough in the Metropolitan Police district was not collected before March 2002. Data on police numbers in the Metropolitan Police Service's Operational Command Units for 2002 to 2005 was set out in my reply of 2 November 2005, *Official Report*, column 1117–20W, to the hon. Member for Hornsey and Wood Green .

Racist Attacks (Prosecutions)

John Mann: To ask the Secretary of State for the Home Department how many prosecutions there have been for *(a)* anti-Semitic attacks and *(b)* other racist attacks in each of the last three years. [40736]

Paul Goggins: The available information from the court proceedings database held by the Office for Criminal Justice Reform provides the number of defendants proceeded against at magistrates courts for racially aggravated, religiously aggravated and racially or religiously aggravated offences of grievous bodily harm, actual bodily harm and common assault, England and Wales 2002–04.

It is not possible to identify those assaults which are anti-Semitic as the data are not collected at this level of detail.

Court statistics for 2005 will be available in the autumn

Number of defendants proceeded against at the magistrates courts for racially and religiously aggravated assaults, England and Wales, 2002–04[1]

Offence description	*Principal statute*	*Proceeded against* 2002	2003	2004
Racially aggravated wounding or inflicting grievous bodily harm (inflicting bodily injury with or without weapon)	Offences against the Person Act 1861 s.20 as amended by the Crime and Disorder Act 1998 s.29(1)*(a)* and (2)	83	62	43
Racially aggravated actual bodily harm (assaults occasioning ABH)	Offences against the Person Act 1861 s.47 as amended by the Crime and Disorder Act 1998 s.29(1)*(b)* and (2)	475	482	372
Racially aggravated common assaults	Crime and Disorder Act 1998 s.29(1)*(c)* and (3)	694	750	908
Religiously aggravated wounding or GBH[2]	Offences against the Person Act 1861 s.20 as amended by the Crime and Disorder Act 1998 s.29(1)*(a)* and (2)	1	1	5
Religiously aggravated ABH[2]	Offences against the Person Act 1861 s.47 as amended by the Crime and Disorder Act 1998 s.29(1)*(b)* and (2)	6	22	13
Religiously aggravated common assault[2]	Common Law and Crime and Disorder Act 1998 s.29(1)*(c)* and (3)	2	4	17
Racially or religiously aggravated wounding or GBH[2]	Offences against the Person Act 1861 s.20 as amended by the Crime and Disorder Act 1998 s.29(1)*(a)* and (2)	1	20	17
Racially or religiously aggravated ABH[2]	Offences against the Person Act 1861 s.47 as amended by the Crime and Disorder Act 1998 s.29(1)*(b)* and (2)	7	40	39
Racially or religiously aggravated common assault[2]	Common Law and Crime and Disorder Act 1998 s.29(1)*(c)* and (3)	5	62	77

[1] These data are provided on the principal offence basis.
[2] Codes for these offences were introduced to the court proceedings database in late 2002.

Reoffending

Mr. Hurd: To ask the Secretary of State for the Home Department how many people who had been placed in custody have re-offended in *(a)* Ruislip-Northwood constituency, *(b)* the London borough of Hillingdon, *(c)* Greater London and *(d)* England in each year since 1997. [40711]

Fiona Mactaggart: Re-offending rates, which are measured through convictions, are only currently available for England and Wales.

The most recent re-offending data for adults were published in 'Re-offending of adults: results from the 2002 cohort' which is available through the Home Office's website (http://www.homeoffice.gov.uk/rds/index.htm). The report shows the proportion of offenders who re-offended within two years and were subsequently convicted. The conviction for the offence is counted even if it occurred beyond the two year follow-up period. Results are given for 2000 and 2002.

Reconviction data for 1997 through 2000 were published in 'Prison statistics England and Wales 2002' and data for 2001 were published in 'Offender Management Caseload Statistics 2003'. Both of these are publications are available on the Home Office website. These series count only those convictions that were secured within the two year follow-up period.

Reconviction rates should be used with caution as a number of different factors can influence them. Reconviction rates can be adjusted to take account of the changing characteristics of offenders and these adjusted rates are published on the Home Office's website. The most recent data show that there has been a reduction in re-offending for all offenders of 0.2 per cent. against the 2000 baseline. The Home Office Public Service Agreement target is to reduce re-offending by 5 per cent. by 2006.

Respect Action Plan Booklet

Peter Bottomley: To ask the Secretary of State for the Home Department how many Ministers' photographs are included in the booklet Respect Action Plan; and which Ministers wrote their own words. [42082]

Hazel Blears: There are 13 photographs of Ministers' in the Respect Action Plan and a short personal statement of the Ministers commitment to the plans set out in the document.

The Respect Action Plan is a cross-government agenda and as such Ministers from a number of departments contributed towards the wording of the action plan.

Road Traffic Act

Mr. Amess: To ask the Secretary of State for the Home Department if he will increase the fixed penalty for offences under section 14(3) of the Road Traffic Act 1988 to £80; and if he will make a statement. [41750]

Paul Goggins: We have no current plans to increase the fixed penalty level for seat belt offences. However, the penalty levels associated with all fixed penalty offences are kept under continual review by the Home Office chaired Fixed Penalty Procedures Working Group, with representatives from relevant Government Departments and criminal justice agencies.

Secure Training Centres

Ms Keeble: To ask the Secretary of State for the Home Department what the staff to trainee ratio is at *(a)* Rainsbrook, *(b)* Oakhill, *(c)* Hassockfield and *(d)* Medway secure training centres. [40418]

Fiona Mactaggart: In each centre, the ratio of staff to trainees in each unit varies with the size of the unit. In all four centres, there is one member of staff in a directly supervisory role to between 2.5 and 3.5 trainees. In addition, there are custody officers on site to cover admissions, movements and supervision of visits..

Shellfish Toxins (Use of Animals)

Mr. Drew: To ask the Secretary of State for the Home Department how many project licences authorising the use of live animals to detect toxins in shellfish were extant on 31 December 2004; what severity banding was assigned to the licences; and how many animals were used in these procedures in 2004. [38317]

Andy Burnham: Home Office records show that three project licences authorising the use of live animals to detect toxins in shellfish under the Animals (Scientific Procedures) Act 1986 were extant on 31 December 2004. Two of the licences have been assigned a moderate severity banding and the other has been assigned a substantial severity banding. A total of 6,468 animals were used in the relevant procedures during 2004.

Tagging

Andrew Rosindell: To ask the Secretary of State for the Home Department what sanctions apply to tagged offenders who remove their tags; and what discussions he has had on the effectiveness of such sanctions. [40757]

Fiona Mactaggart: Removal of a tag is regarded as a serious failure to comply with the requirements of electronic monitoring. The sanction depends upon the type and age of the offender. Those released from custody may be recalled. Adults subject to a community order will be returned to court. If a breach of the order is proved and the original offence was committed on or after 4 April 2005 the court must either make the requirements of the order more onerous or re-sentence. Juveniles subject to a community sentence will be returned to court. It is for the courts to decide how to deal with a failure to comply. Defendants on bail who remove their tags can expect to be detained.

Compliance with electronically monitored requirements is generally good. For those made subject to electronic monitoring between April and November 2005, 94 per cent. completed their requirements within the period, 69 per cent. without breach and a further 25 per cent. following breach.

Traffic Offences

Mr. Amess: To ask the Secretary of State for the Home Department how many motorists stopped for breaking the speed limit in *(a)* Southend, *(b)* Essex, *(c)* Hertfordshire, *(d)* the Metropolitan Police area of London and *(e)* England and Wales received a (i) warning and (ii) caution in each of the last five years for which figures are available. [39714]

Hazel Blears: The annual Home Office publication 'Offences relating to motor vehicles, England and Wales, Supplementary tables' 1999 to 2003 (latest available), Table 18 gives data by police force area on written warnings (which includes formal cautions) issued by motoring offence groups. Copies of the publications are available in the Library. The publications can also be accessed on the Home Office Research Development and Statistics (RDS) website at:

www.homeoffice.gov.uk/rds/index.htm

It is not possible from the data collected centrally to identify Southend within the geographical area covered by the Essex police force. 2004 data will be available end of March 2006.

Under-age Drinking

Mr. Pelling: To ask the Secretary of State for the Home Department (1) how many fixed penalty notices were issued for the consumption of alcohol by under-18s in licensed premises in *(a)* England and Wales, *(b)* Greater London and *(c)* Croydon in (i) 2004 and (ii) 2005; [41129]

(2) how many fixed penalty notices were issued for selling alcohol to under-18s in *(a)* England and Wales, *(b)* Greater London and *(c)* Croydon in (i) 2004 and (ii) 2005. [41130]

Paul Goggins: The penalty notice for disorder (PND) scheme was brought into effect in England and Wales during 2003–04 to provide the police with a quick and effective means of dealing with minor offences. Under the scheme an offender is issued with a fixed penalty notice and has 21 days in which to pay the penalty or request a court hearing.

The offences of sale of alcohol to a person under 18 and consumption of alcohol by a person under 18 were added to the scheme with effect from 1 November 2004. The latest available figures showing the number of penalty notices issued for these offences from November 2004 to September 2005, are provided in the table.

Penalty notices for disorder issued for selected alcohol offences, Greater London and England and Wales, 2004 and 2005[1]

Number

Offence code	*Offence description*	*November to December 2004*		*January to September 2005*[1]	
		Greater London	*England and Wales*	*Greater London*	*England and Wales*
DA07	Sale of alcohol to person under 18	21	113	39	818
DB09	Consumption of alcohol by under 18 in licensed premises	—	7	2	40

[1] Provisional data.

Source:
RDS—Office for Criminal Justice Reform.

It is not possible to identify penalty notices for disorder issued in Croydon as the data is not broken down to that level of detail.

Vulnerable Witnesses

Jenny Willott: To ask the Secretary of State for the Home Department how many vulnerable witnesses were interviewed by police in each year since 2000; and if he will make a statement. [29340]

Hazel Blears: This information is not collected centrally.

War Crimes

Sarah Teather: To ask the Secretary of State for the Home Department how many arrests for war crimes under the Geneva conventions have been made by the Metropolitan police since 1997. [40801]

Andy Burnham: The Metropolitan police unit responsible for war crimes has no record of any arrests under the provisions of the Geneva Conventions Act 1957 since 1997.

Young Offenders

Stephen Hammond: To ask the Secretary of State for the Home Department how many young people of school age *(a)* found guilty of a crime and *(b)* placed in custody had a previous history of being in care in (i) Wimbledon and (ii) the London Borough of Merton in each year since 1997. [41707]

Fiona Mactaggart: This information is not collected centrally.

David Davis: To ask the Secretary of State for the Home Department how many crimes were committed by young offenders in each of the last eight years. [42167]

Hazel Blears: The information requested is not collected centrally. It is not possible to identify the age of the offender in the recorded crime data series.

Youth Crime

James Duddridge: To ask the Secretary of State for the Home Department what steps he is taking to tackle youth crime in Southend; and if he will make a statement. [34027]

Hazel Blears: The Youth Justice Board has recently awarded a grant of £217,000 to Southend Youth Offending Team for services to prevent youth crime and antisocial behaviour between 2006 and 2008. The Youth Offending Service in Southend provides a range of services aimed at preventing offending and re-offending, including Youth Inclusion and Support Panels, a Family Support Project, Positive Action for Young People and drug treatment programmes. As part of the Government's Prolific and other Priority Offenders programme, Southend Youth Offending Team, in partnership with other agencies, is currently targeting 20 young offenders who have been identified as being most at risk of becoming future prolific offenders. The focus is on working intensively with these young offenders to address all the risks associated with their re-offending through a multi-agency response.

FOREIGN AND COMMONWEALTH AFFAIRS

BBC World Service

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the role of the BBC World Service in Central Asia. [41682]

Mr. Straw: The role of the BBC World Service is to deliver high quality international news coverage to a global audience through radio, TV and new media, thereby bringing benefit to Britain. Vernacular radio services targeted towards the Central Asia region include Azeri, Kyrgyz, Pashto, Mandarin, Russian and Uzbek. World Service English language broadcasts are also available as are websites in English, Mandarin and Russian. Recently the World Service closed its dedicated Kazakh service because of low reach and impact.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how funding for the proposed BBC World Service Arabic TV channel will be sourced. [41683]

Mr. Straw: The new channel will be funded from the existing grant in aid to BBC World Service which is currently £239 million per annum. Following a review of its output and input, the World Service has decided to close a number of low impact vernacular services. These closures, together with efficiency measures, will release resources to launch 12-hour Arabic TV.

Burma

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs how much investment in Burma has been made through UK dependent territories in each of the past five years. [42247]

Ian Pearson *[holding answer 16 January 2006]:* We do not hold any statistics on investment being channelled through the British Overseas Territories into Burma.

Democratic Republic of the Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* problems facing the oil industry in Muanda, in the Democratic Republic of the Congo and *(b)* the impact of Angolese soldiers in that region; and if he will make a statement. [41426]

Ian Pearson: We are not aware of any reports of problems facing the oil industry in Muanda, nor of the presence of Angolan troops in Muanda. However, Angolan troops are conducting a bilateral training programme at Kitona in the Democratic Republic of the Congo, at the request of the Congolese Government.

Departmental Equipment

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41262]

Mr. Straw: While core IT equipment is centrally provided, the Foreign and Commonwealth Office (FCO) operates a devolved system of budgeting under which directorates and overseas posts have the freedom to buy a range of IT and other equipment to support their work. Laptop computers, in particular, are frequently bought from such devolved budgets and no central figures exist for the numbers used within the FCO. To obtain this information would incur disproportionate costs.

Since 2003, officially supplied mobile telephones for use by the FCO in the UK are obtained under the central Government GTM contract owned by the Office of Government Commerce. Records available show that in the financial year 2004–05 the Department bought 269 mobile phones and 18 "Blackberries" at the prices specified under that contract. Prior to 2003, mobile phones were obtained under a variety of contracts, but there was generally no charge for the equipment supplied. Responsibility for contracts for mobile phones used by staff overseas is devolved to our overseas missions and to obtain the relevant figures would incur disproportionate costs.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40084]

Mr. Straw: All the buildings in the United Kingdom for which the Foreign and Commonwealth Office is responsible and for which the hon. Member has requested information about expenditure, including Wilton Park Executive Agency, and the non-departmental public bodies, are in London and the South East of England. The hon. Member will wish to bear in mind that my Department's principal activities are overseas, in 218 missions and posts. However, the specific details for fixtures and fittings, general office expenses and office equipment cannot easily be separated from the overall expenditure records and could only be obtained at disproportionate cost.

Departmental IT Systems

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41321]

Mr. Straw: The Foreign and Commonwealth Office operates a devolved system of financial responsibility under which directorates and overseas posts have the freedom to invest in non strategic IT systems designed to meet specific needs. To compile a comprehensive answer to the hon. Member's question would require exhaustive searches of records in the UK and overseas, and would incur disproportionate costs.

EU Budget

Mr. Bone: To ask the Secretary of State for Foreign and Commonwealth Affairs what the net contribution per head of population in the United Kingdom will be under the next EU budget. [41572]

Mr. Douglas Alexander: Over the next financial perspective of 2007–13, the per capita net contribution will be £88 per annum on a payments basis. This reflects the deal agreed at the December European Council and will leave us paying, for the first time since we joined the EU, roughly the same as France and Italy.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the EU *(a)* Joint Committee (EEC-Macao), *(b)* Joint Committee (EEC-Nepal), *(c)* Joint Committee (EEC-Pakistan) and *(d)* Joint Committee (EEC-Sri Lanka) have taken place during the UK Presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38794]

Mr. Douglas Alexander: There were no meetings of the EC Joint Committees on Macao, Nepal, Pakistan or Sri Lanka during the UK presidency.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the EU *(a)* Joint Council (EEC-Countries of the Gulf Cooperation Council), *(b)* Joint Committee (ECC-Yemen), *(c)* Joint Committee Cooperation Committee (EEC-ASEAN) and *(d)* Joint Committee (EEC-Bangladesh) have taken place during the UK presidency of the EU; who was presiding over each meeting; what

other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38798]

Mr. Douglas Alexander: There were no meetings of the EC-Yemen Joint Committee, EC-Countries of the Gulf Joint Co-operation Council or the EC-Bangladesh Joint Committee during the UK presidency. There are no meetings between the EC and ASEAN.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* Joint Committee (EEC-Uruguay), *(b)* Joint Cooperation Committee (EEC-Canada) and *(c)* Joint Committee (EC-Japan) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39046]

Mr. Douglas Alexander: The EC-Uruguay Joint Committee met on 10 November 2005. The UK was represented by officials from the British embassy in Montevideo. The EC-Canada Joint Co-operation Committee met on 25 October 2005. The presidency was represented by officials from London and the British high commission in Ottawa. There was no EC-Japan Joint Committee. The Government take into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government) a copy of which is available at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

EU Council

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the steps proposed on the reform of the European Council put forward in the Prime Minister and Chancellor Schroeder's joint letter of 25 February 2002 to the President of the Council have since been adopted. [42023]

Mr. Douglas Alexander: The European Council in Seville in June 2002 agreed a number of practical changes to improve the effectiveness and transparency of the Council, in line with proposals made in my right hon. Friend the Prime Minister's and Chancellor Schroeder's joint letter of 25 February 2002. These measures did not require Treaty amendment.

Further reforms of the Council are proposed in the European Union Constitutional Treaty. However, as my right hon. Friend the Prime Minister said to the House of Commons on 20 June 2005, under the current circumstances, the Treaty cannot proceed.

The UK will continue to advocate positive reforms of the EU institutions where these are practical and make sense.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals his Department supports to improve the decision-making process of the European Council. [42024]

Mr. Douglas Alexander: Now that the UK presidency is complete, the Government will be giving further consideration to issues related to the period of reflection agreed at the June European Council. We have made clear that we support a wide debate on the future direction of the EU and how best to respond to the challenge of globalisation, rather than simply a narrow focus on institutional architecture.

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* technical committees and *(b)* working parties of the EU Council of Ministers have been held since 1 July 1999; and how many were (i) attended and (ii) led by Scottish Executive officials in a UK capacity. [39217]

Mr. Douglas Alexander: In accordance with Council Decision 1999/468/EC (the "Comitology decision"), the Commission publishes an annual report on the workings of committees operating in accordance with arrangements set out in that decision. The report for 2004 (reference 14850/05, COM(2005)554) was published on 11 November 2005 and was deposited in Parliament on 1 December 2005 in accordance with the arrangements for the scrutiny of EU documents.

We estimate that there have been nearly 5,000 working group meetings during the UK's presidency of the EU, many of which relate exclusively to reserved matters. We do not have figures for earlier periods and it would incur disproportionate cost to attempt to quantify how many have been held since 1 July 1999.

The Scottish Executive do not keep records of attendance at working group or committee level, although where the subject matter of such groups is of sufficient relevance to the Scottish Executive then officials from either the Scottish Executive's EU Office in Brussels or visiting officials from Scotland will attend. Attendance is at the discretion of lead departments, the Scottish Executive being consulted where the matter is of devolved interest.

EU Documents

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of EU documents have been classed as restricted and therefore not available to the European Scrutiny Committee in each year since 1997. [40944]

Mr. Douglas Alexander: The Government does not keep figures on this issue. Documents subject to scrutiny by the European Scrutiny Committee are defined by the Committee's Standing Order, SO 143, and the vast majority are publicly available texts. In a very small number of cases, for example, negotiating mandates with third parties, the documents are classed as restricted. In these cases, the Government makes

unclassified summaries of the decisions available to the European Scrutiny Committee and provides a full explanatory memorandum at the concluding stage.

EU Legislation

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs how many pieces and what proportion of EU legislation has been passed during periods when the House has been in recess in each year since 1997. [40945]

Mr. Douglas Alexander: There are periods during the year when the Council of Ministers meets but when Parliament is in recess. However, the Government works closely with the European Scrutiny Committee so that business is planned in a way which limits the occasions when legislation is agreed before the Committee has completed its scrutiny. There are, however, occasions when this is not possible. In the years since figures have been available, there were 20 occasions in 2003, and five in 2004.

Parliamentary figures show that in 2005 there were 68 occasions when the Council adopted uncleared proposals when the House was in recess. Figures for 2005 included 51 occasions when there were overrides when the House was in dissolution, and 17 occasions during summer recess. Final confirmed figures for the second half of the year will be provided by the Government to the European Scrutiny Committee in line with the commitment to provide twice-yearly reports on scrutiny overrides.

External Consultants

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41201]

Mr. Straw: To answer this question each transaction paid to a consultancy supplier, either in the UK or at posts, would need to be checked against the employment information of each individual contractor whose services the payment covered. This information could only be provided at disproportionate cost.

Scrutiny Reserve

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions on which the scrutiny reserve was overridden in *(a)* 2004 and *(b)* 2005; and what the reason was in each case. [40946]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave on 22 November 2005, *Official Report*, column 1900W about the number of occasions the Government has overridden the scrutiny reserve resolution since 1980. That answer provided statistics from 2001 until June 2005, the period for which figures were available.

Final figures for the last six months of 2005 are still being collated but preliminary information suggests a figure of about 36. Details of these occasions will be sent to the European Scrutiny Committee once the figures have been confirmed in line with the Government's commitment to provide the Committee with twice yearly reports on scrutiny overrides. Ministers override the scrutiny reserve resolution they account for their action in doing so by writing to the Chairman of the European Scrutiny Committee.

HEALTH

A and E Services

John Cummings: To ask the Secretary of State for Health what improvements have been made to the accident and emergency services in *(a)* the Sunderland Royal general hospital, *(b)* Hartlepool university hospital and *(c)* Durham university hospital since 2002; and if she will make a statement. [34064]

Mr. Byrne: As at September 2005, over 99 per cent. of patients spent less than four hours in the accident and emergency (A and E) departments of the County Durham and Darlington acute hospitals national health service trust and the North Tees and Hartlepool NHS.

Both NHS trusts have benefited from improvements to their A and E departments since 2002. Initiatives include:

a new discharge unit at the university hospital of North Durham to help smooth the discharge of patients from hospital;

a local primary care trust initiative to provide extra support to local nursing homes with high rates of A and E attendances;

additional staff recruitment for the A and E department at the university hospital of North Durham; extension of resuscitation facilities at the university hospital of Hartlepool;

provision of secure paediatric facilities at the university hospital of Hartlepool together with an increase in the number of staff with specific paediatric nursing qualification; and

additional patient monitoring equipment both for adults and children at the university hospital Hartlepool.

The information relating to the City Hospitals NHS Foundation Trusts is a matter for Monitor, the statutory name of which is the Independent Regulator of NHS Foundation Trusts. The Chairman of Monitor will write to my hon. Friend and a copy of his reply will be placed in the Library.

Administrative Costs

Stewart Hosie: To ask the Secretary of State for Health what the total administration costs of her core Department were in the last period for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39831]

Mr. MacNeil: To ask the Secretary of State for Health what the administrative costs were of each agency for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39847]

Angus Robertson: To ask the Secretary of State for Health which functions of her core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last year. [39824]

Mr. Salmond: To ask the Secretary of State for Health what the administrative costs were of each non-departmental public body for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40055]

Jane Kennedy: The administration budgets regime which HM Treasury oversee applies to Whitehall Departments only. The Department's non-departmental public bodies are not covered by this regime.

Information on the Department's administration costs, including the Department's executive agencies, is given in the Departmental Annual Report 2005 (Cm 6524, tables 8.1 and 8.2). The most recent Public Expenditure Outturn White Paper (Cm 6639) gives some provisional information on the 2004–05 outturn for departmental administration costs.

The latest information on gross expenditure of the Department's executive non-departmental public bodies for 2004–05 is given as follows:

Commission for Patient and Public Involvement in Health—£33,300,000

Health Care Commission—£62,863,000

Commission for Social Care Inspection—£156,603,000

Human Fertilisation and Embryology Authority—£8,568,056

Health Protection Agency—£204,255,000

Human Tissue Authority—nil: not in existence in 2004–05. 2005–06 budget is £1 million

Independent Regulator of NHS Foundation Trusts (Monitor)—£16,011,000

National Institute for Biological Standards and Control—£22,752,000

The core Department's functions are all carried out within England. The Department operates from two main sites, in London and Leeds, and has smaller numbers of staff at a number of other sites within England.

All this expenditure is regarded as identifiable for the purposes of public expenditure statistical analyses.

Arrowe Park Hospital

Andrew Miller: To ask the Secretary of State for Health (1) what percentage of patients treated in Arrowe Park Hospital in the last 12 months were resident *(a)* in the borough of Ellesmere Port and Neston and *(b)* within the area of Chester city council; [38367]

(2) how many patients have been treated in Arrowe Park Hospital in 2005 who were resident in *(a)* in the borough of Ellesmere Port and Neston and *(b)* within the area of Chester city council. [38753]

Mr. Byrne: The information is not available in the format requested. The table shows the number of patients living in the local authority of Chester and the Ellesmere Port and Neston primary care trust (PCT) area who were treated at the Wirral hospital national health service trust in 2004–05.

Count of patients for Wirral hospital NHS Trust; detail of patients in residence in Ellesmere Port and Neston PCT and Chester local authority, data for all NHS hospitals in England, data year 2004–05

	Patients	*Percentage of total*
Total patients for Wirral Hospital NHS Trust	50,612	—
Patients treated who live in the local authority of Chester	253	0.5
Patients treated who live in the area covered by Ellesmere Port and Neston PCT	2,795	5.5

Notes:
Patient counts:
Patient counts are based on the hospital episode statistics unique patient identifier (HESID). This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.
Data Quality:
Hospital episode statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The Health and Social Care Information Centre liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Ungrossed data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre.

Audiology Services

Mr. Davey: To ask the Secretary of State for Health (1) whether treatment will be defined as the fitting of a hearing aid if one is required in relation to the target due to be introduced in 2008 that no one will wait more than 18 weeks for treatment in audiology services; [35571]

(2) what assessment she has made of the effects of the new 18-week target on NHS hearing aid users who are waiting to switch from analogue to digital hearing aids; [35572]

(3) whether the 18-week target for treatment in audiology to be introduced in 2008 will be limited in its application to those patients accessing audiology services by consultant referral. [35826]

Mr. Byrne: Proposed principles and definitions to underpin the 18 weeks target are available at www.18weeks.nhs.uk The Department is currently collating the responses of a service-wide listening exercise on these proposals and will publish the outcome in 2006.

Capio Healthcare UK

Lynne Jones: To ask the Secretary of State for Health on what date Dr. Thomas Mann, chief executive of Capio Healthcare UK, left the employment of the NHS as director of the NHS national implementation team for Independent Sector Treatment Centres (ISTCs); on what dates the process for selection of Capio Healthcare

UK to operate a group of ISTCs *(a)* started and *(b)* finished; and on what date her Department signed contracts with Capio Healthcare UK for ISTCs across England. [38278]

Mr. Byrne: Dr. Thomas Mann left the post of director of the national implementation team in October 2003 and left the employment of the civil service on 29 February 2004.

The procurement for independent sector treatment centres was launched in December 2002, when a series of advertisements were published in the then titled, "Official Journal of the European Union", and is still ongoing. To date, Capio Healthcare UK has been awarded one contract in the programme for the provision of a national chain of treatment centres, signed on 13 May 2004. In addition to this procurement, Capio Healthcare UK were awarded a one-year contract for the provision of supplementary surgical activity on 25 May 2004.

Carers Special Grant

Dr. Francis: To ask the Secretary of State for Health how much was allocated to each county in Carers Special Grant in each year since 2000. [38342]

Mr. Byrne: The data requested have been placed in the Library.

Chelmsford PCT

Mr. Burns: To ask the Secretary of State for Health pursuant to her oral answer of 20 December 2005, *Official Report*, column 1700, when she expects the turnaround team to conclude its work in investigating the financial situation at Chelmsford primary care trust. [40742]

Ms Rosie Winterton: The Secretary of State announced the formation of turnaround teams at the beginning of December 2005. The aim of these teams is to restore financial balance to the national health service organisations concerned.

Chelmsford primary care trust (PCT) is subject to the first phase of the work, which is an initial assessment to establish the position of the PCTs financial control and actions to restore financial balance.

This assessment has now finished and the strategic health authority is currently reviewing the results with the aim of forming a tailored package of turnaround support.

Child Health and Social Services

Andrew Rosindell: To ask the Secretary of State for Health pursuant to the answer of 22 November 2005, *Official Report*, column 1802W, on child health and social services, if she will make a statement on the increases in *(a)* high cholesterol, *(b)* heart failure and *(c)* diabetes in the last 10 years. [37857]

Caroline Flint: Information on the number of episodes of heart failure, diabetes and high cholesterol is shown in the table. Data prior to 1998–99 are not available and are therefore not included in the table.

Count of finished consultant episodes for heart failure, diabetes and high cholesterol. Data for all national health service hospitals in England from 1998 to 2005

	Finished consultant episodes		
	Heart failure	*Diabetes*	*High cholesterol*
1998–99	111,722	71,877	1,145
1999–2000	110,367	72,241	1,977
2000–01	106,080	72,352	2,831
2001–02	104,694	69,120	4,455
2002–03	107,471	68,232	5,546
2003–04	105,569	68,099	6,640
2004–05	106,567	71,195	9,772

Source:
Hospital episode statistics (HES), Health and Social Care Information Centre.

Counsellors

Mr. Drew: To ask the Secretary of State for Health if she will make a statement on plans to regulate counsellors; whether this will include voluntary counsellors; and if she will make a statement. [41498]

Jane Kennedy: The Government intend to regulate counsellors in the interests of patient and client safety. Consideration will be given to the most appropriate and proportionate form of regulation for voluntary practitioners once agreement has been reached on the roles, competences and training for their safe practice.

Dentistry

Mr. Graham Stuart: To ask the Secretary of State for Health what steps she is taking to ensure adequate provision of NHS dentistry in East Yorkshire. [41228]

Ms Rosie Winterton: The East Yorkshire and Yorkshire Wolds and Coast primary care trusts are working together to improve access to NHS dentistry in East Yorkshire. A national health service dental access centre opened in Withernsea in 2001. In 2004–05, the dental access centre, and associated clinics in Hornsea and Beverley, provided treatment to 5,250 patients.

A new dental practice opened in Beverley in January 2005, which will provide NHS dental care for 5,500 patients, and a further new practice will be opening soon in Beverley with an agreement to provide a dental care for an additional 3,000 NHS patients.

Mr. Graham Stuart: To ask the Secretary of State for Health how many dentists serve the *(a)* Yorkshire Wolds and Coast primary care trust and *(b)* East Yorkshire primary care trust. [41378]

Ms Rosie Winterton: As at 30 September 2005, there were 51 national health service dentists with a general dental services or personal dental services contract within Yorkshire Wolds and Coast primary care trust (PCT). The equivalent figure for East Yorkshire PCT is 63.

Data on private dentists is not held centrally.

Mr. Graham Stuart: To ask the Secretary of State for Health how many dentists in the Beverley and Holderness constituency *(a)* operate fully within the NHS and *(b)* offer NHS treatment only for children. [41379]

Ms Rosie Winterton: As at 30 September 2005, there were 31 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Beverley and Holderness parliamentary constituency.

Dentists are independent contractors and those with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the primary care trust (PCT). The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists.

Information about who dentists offer to treat is not collected centrally. However, an analysis of NHS patient registrations data as at 1 June 2005 show that within East Yorkshire PCT there was one dentist having only children registered and none in the Yorkshire Wolds and Coast PCT area.

Notes:

This figure has been provided by the NHS Health and Social Care Information Centre. The data source is the Dental Practice Board.

Mr. Lansley: To ask the Secretary of State for Health whether an individual primary care trust will be permitted to vary the value of a unit of dental activity between different dentists with whom it holds contracts from April 2006. [41968]

Ms Rosie Winterton: From April 2006, general dental services contracts and personal dental services agreements are a matter for local agreement between primary care trusts and dentists, subject to the provisions set out in the General Dental Services and Personal Dental Services Transitional Provisions Order 2005 (SI2005/3435). The value of a unit of dental activity may vary between dentists depending on a range of factors. These include the relationship between national health service earnings and dental activity during the reference period October 2004 to September 2005, which in turn will reflect the average treatment needs of a dentist's patients.

Departmental Correspondence

Dr. Strang: To ask the Secretary of State for Health how much departmental correspondence was addressed to people who had *(a)* died and *(b)* moved house in each of the last five years. [41053]

Jane Kennedy: The Department does not hold customer information for the purpose of proactively writing to customers. We only ever reply to correspondence directly sent to us.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Health what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) her Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40152]

Jane Kennedy: The information requested is not available and can only be obtained at disproportionate cost. The Department does not collect information on such categories of expenditure made by its executive agencies and executive non-departmental public bodies but details of their financial position can be found in their published annual reports.

Departmental Funding

Mr. Weir: To ask the Secretary of State for Health what funding her Department has granted to the *(a)* General Chiropractic Council, *(b)* General Dental Council, *(c)* General Medical Council, *(d)* General Optical Council, *(e)* General Osteopathic Council, *(f)* Health Professions Council, *(g)* Nursing and Midwifery Council and *(h)* Royal Pharmaceutical Society of Great Britain in each of the last three years. [39810]

Jane Kennedy: The Department granted the following amounts to the following organisations over the past three years, which is shown in the table.

Departmental funding to regulatory bodies, 2003–04 to 2005–06

Regulatory body	*2003–04*	*2004–05*	*2005–06*
General Chiropractic Council	0	0	0
General Osteopathic Council	0	0	0
General Dental Council	2,321.10	378,351.44	234,982.40
General Medical Council	212,753.65	20,759.24	0
General Optical Council	0	0	0
Health Professions Council	1,330,000.00	0	0
Nursing and Midwifery Council	1,962,749.67	937.04	762.14
Royal Pharmaceutical Society of Great Britain	4,254,502.93	3,231,191.85	5,413,614.20

Emergency Contraception

Mr. Binley: To ask the Secretary of State for Health how many prescriptions of the morning after pill were given in the Leicestershire, Northamptonshire and Rutland strategic health authority in the last 10 years, broken down by age of the patient. [36418]

Ms Rosie Winterton: Prescription data for strategic health authorities (SHAs) is only available from 2001.

It is not possible to provide an age breakdown for this data.

Prescriptions for morning after pill, 2001–04

	Number
2001	12,685
2002	12,682
2003	12,646
2004	11,856

Emergency contraception is also available through community contraception clinics, and can be purchased over the counter by those aged over 16. The Department does not hold data centrally on the latter.

Two national health service trusts provide community contraception clinic services in this SHA. The data for 2001–02, when the SHA came into being, to 2004–05 is shown in the table.

Occasions on which hormonal post-coital contraceptives dispensed at family planning clinics in Leicestershire, Northamptonshire and Rutland SHA, by age, 2001–02 to 2004–05

Age group	2001–02	2002–03	2003–04	2004–05
Under 15	198	251	130	74
15	306	321	269	186
16–19	1,192	937	970	738
20–24	779	602	555	510
25–34	434	355	359	304
35 and over	144	124	118	119
Total	3,053	2,590	2,401	1,931

Source:
Health and Social Care Information Centre KT31 return.

Free Eye Tests

Mr. Dismore: To ask the Secretary of State for Health how many pensioners in Hendon received free eye tests in 2005; and if she will make a statement. [41617]

Jane Kennedy: Information on the number of sight tests by constituency or by pensioners is not collected or held centrally. The Department does not count the number of pensioners receiving free sight tests, but does count the number of free sight tests given to persons aged 60 or over.

The Hendon constituency lies solely within the Barnet primary care trust (PCT). The estimated number of free national health service sight tests for persons aged 60 or over, paid by Barnet PCT for the year ending March 31 2005 is 24,477.

Greater Peterborough Primary Care Partnership Area

Mr. Stewart Jackson: To ask the Secretary of State for Health what steps she is taking to tackle health inequalities in the Greater Peterborough primary care partnership area. [40988]

Ms Rosie Winterton: The national health service is in receipt of record resources as a result of the Government's policy on funding the NHS. Funding of the NHS has increased from £34.7 billion in 1997–98 to £69.7 billion in 2004–05. By 2007–08, spending on the NHS will have increased to over £92 billion.

This means that compared to the £84.6 million it received in 2003–04, North Peterborough primary care trust (PCT) will receive a funding allocation of £153.2 million in 2007–08. Over the same period, South Peterborough PCTs funding allocation will rise from £64.8 million to £114.2 million in 2007–08.

The responsibility for local health services lies with the local NHS. It is for PCTs in conjunction with strategic health authorities and other local stakeholders to plan and develop services to meet the needs of their populations using the funding allocated.

Group B Streptococcus Screening

Mr. Todd: To ask the Secretary of State for Health (1) what analysis her Department has made of research and experience in other countries of Group B streptococcus screening during pregnancy; [39245]

(2) what guidance is given on when a patient should be advised that Group B streptococcus has been detected in a test. [39247]

Mr. Byrne: It is for clinicians, in partnership with their patients, to decide on when and how to advise patients of test results. The Royal College of Obstetricians and Gynaecologists' guideline number 36, "Prevention of Early Onset Neonatal Group B Streptococcal Disease" and the National Institute for Health and Clinical Excellence's clinical guideline, "Antenatal Care: Routine care for the healthy pregnant women" give guidance based on research evidence.

The NHS Health Technology Programme has commissioned a study of different approaches to the management of Group B Streptococcus in pregnancy. A review of the international evidence forms part of this work.

Havering Primary Care Trust

James Brokenshire: To ask the Secretary of State for Health whether the Havering primary care trust was successful in obtaining a share of the £95 million which was offered to those PCTs which had successfully implemented the new 'Choose and Book' system within the Government's deadline of 31 December 2005. [40882]

Ms Rosie Winterton: Havering primary care trust (PCT) was successful in obtaining £312,000, from stage one of the incentive scheme. This was awarded to the PCT in December 2005.

Health Committee Evidence

Mr. Lansley: To ask the Secretary of State for Health pursuant to the oral evidence from Mr. John Bacon to the Health Committee on 1 December 2005, HC736-i, on public expenditure on health and personal social services 2005, if she will place in the Library the details of diagnostic waiting times referred to in answer to question 188. [36479]

Mr. Byrne: The Department will respond to the Health Select Committee in due course.

Health Services (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Health what the *(a)* average and *(b)* target waiting time to see a (i) psychiatrist and (ii) psychologist was for (A) adults and (B) children in the West Lancashire constituency in each of the last five years. [38372]

Mr. Byrne: The Department does not routinely collect information on waiting times for appointments with psychologists as waiting times targets apply to consultant-led services only.

The maximum waiting time for a first out-patient appointment with a psychiatry consultant is 17 weeks.

From the end of 2005, the target will reduce to 13 weeks. The maximum waiting time for in-patient treatment under the care of a psychiatry consultant is nine months. From the end of 2005, the target will reduce to six months.

Information on the estimated average waiting from general practitioner written referral to first out-patient appointment with a psychiatry consultant working in national health services organisations covering the West Lancashire constituency is shown in the table.

Estimated average waiting time from GP written referral to first out-patient appointment, September 2001 to September 2005

	Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)				
North Sefton and West Lancashire Community NHS trust (provider based)					
Quarter September:	*0 to <4*	*4 to <13*	*13 to <26*	*26 plus*	*Median wait*
2001	65	91	0	0	5.3

2004	4	4	0	0	0	5.1
2005	15	32	0	0	0	6.5

Notes:
Data for specialties:
710: Mental Illness
711: Child and Adolescent Psychiatry
712: Forensic Psychiatry
713: Psychotherapy
715: Old Age Psychiatry
Due to small numbers, the calculation of the median wait is prone to fluctuation at primary care trust (PCT) and strategic health authority level. Care should be taken when interpreting these figures.
Waiting times apply to consultant-led appointments only. Services in many areas are now run by multi disciplinary teams.
Lancashire Care NHS Trust was formed in an April 2002 merger of the following organisations:
RMB—Blackburn, Hyndburn and Ribble Valley Healthcare NHS Trust (mental health services)
RML—Blackpool, Wyre and Fyde Community Health NHS trust (mental health services)
REU—Burnley Health Care NHS Trust (mental health services)
RJU—Chorley and South Ribble NHS Trust (mental health services)
RME—Communicare NHS Trust (psychology and drugs services)
RMG—Guild Community Healthcare NHS Trust
RVT—North Sefton and West Lancashire Community NHS Trust
PCTs have been in existence since April 2002.
Source:
Department of Health form QM08 and QM08R

Rosie Cooper: To ask the Secretary of State for Health what funding was allocated for mental health services in *(a)* West Lancashire and *(b)* Lancashire in each of the last three years. [38376]

Mr. Byrne: The information requested is not collected centrally. Current funding arrangements mean that primary care trusts are allocated resources on the basis of the relative needs of their populations. It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities.

Rosie Cooper: To ask the Secretary of State for Health what the waiting time is for people to be taken on by an NHS dentist in *(a)* West Lancashire constituency and *(b)* Lancashire; and if she will make a statement. [38377]

Ms Rosie Winterton: Information on waiting times is not collected centrally.

Primary care trusts (PCTs) across Lancashire received some £1.9 million in access funding in 2004–05 to improve access to dentistry. The Cumbria and Lancashire strategic health authority (SHA) advise that from this money, the equivalent of 16.1 whole-time additional dentists are now working within the Lancashire area. PCTs across Lancashire have been

working with dental practices to support them in moving over to the new personal dental service (PDS) contract. As at the beginning of December 2005, 37 per cent. of practices had converted to PDS. The SHA advises that all PDS contracts have growth included in them for extra national health service registrations and practices have been increasing their registrations on a steady basis.

Health Visiting Services

Mr. Bacon: To ask the Secretary of State for Health what guidance she has issued to primary care trusts on the minimum level of funding that should be provided for health visiting services. [37985]

Mr. Byrne: It is for primary care trusts in partnership with strategic health authorities, local authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. This process provides the means for addressing local needs within the health community including the provision of health visiting services. All primary care trusts will commission these services to meet the needs of their local population.

Infertility Treatment

Mr. Hancock: To ask the Secretary of State for Health what action she is taking to ensure that the social eligibility criteria applied by primary care trusts to couples seeking infertility treatment is the same throughout the country. [29840]

Caroline Flint: The primary responsibility for the implementation of the clinical guideline on the assessment and treatment of people with fertility problems produced in February 2004 by the National Institute for Health and Clinical Excellence rests with the national health service at local level, in discussion with patients' groups and local health bodies. Local policies will reflect local needs and priorities.

Influenza

Andrew Rosindell: To ask the Secretary of State for Health how many pensioners have been unable to obtain influenza vaccines in each London borough in 2005; and if she will make a statement. [41697]

Jane Kennedy: This information is not collected centrally.

Mr. Spellar: To ask the Secretary of State for Health pursuant to the answer of 7 December 2005, *Official Report*, column 1406W, on influenza vaccines, what steps she is taking *(a)* to expand and *(b)* to diversify production capacity for production of influenza vaccine. [40822]

Caroline Flint: We have invited manufacturers to tender for a contract to supply pandemic flu vaccine once the pandemic strain is known. The United Kingdom will need approximately 120 million doses to be available as soon as possible. This proposal to purchase in advance the capacity needed to make pandemic flu vaccine will make sure that an effective vaccine is available for use in the UK as quickly as possible after a flu pandemic starts.

We are finalising a contract for the purchase of two to three million doses of vaccine against the H5N1 strain currently circulating in South East Asia and other areas. This vaccine can be used for research and for possible use for healthcare workers in an emergency, and may provide some limited protection against a pandemic emerging from that source. We hope to award this contract shortly and should receive some stocks in the next few months. Award of these contracts will provide manufacturers with resource to develop vaccines and increase production capacity.

We have already met with several manufacturers to discuss a range of vaccine production technologies, in addition to the standard egg based technology, such as DNA and cell-culture vaccines which may allow production capacity to be increased.

Ms Abbott: To ask the Secretary of State for Health what progress is being made towards ensuring that an adequate vaccine against the human form of avian influenza is available in the UK. [41232]

Caroline Flint: On 19 October 2005, the Chief Medical Officer announced that the Department is inviting manufacturers to tender for a contract to supply pandemic flu vaccine once the pandemic strain is known. The United Kingdom will need approximately 120 million doses to be available as soon as possible. The proposal to purchase in advance the capacity needed to make pandemic flu vaccine will make sure that an effective vaccine is available for use in the UK as quickly as possible after a flu pandemic starts.

On 20 July 2005, the Department invited manufacturers to tender for a limited supply of H5N1 vaccine. The move is part of the work to prepare for and reduce the impact of a possible flu pandemic. We hope to award this contract shortly.

Lymphoedema

Mr. Jenkins: To ask the Secretary of State for Health how many people have been diagnosed with lymphoedema in *(a)* Tamworth constituency, *(b)* Staffordshire, *(c)* the West Midlands and *(d)* England in each year since 1997. [22154]

Ms Rosie Winterton: Data on the incidence of lymphoedema are not available centrally.

Macular Degeneration

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to make photodynamic therapy available on the NHS to treat age-related macular degeneration. [40605]

Ms Rosie Winterton: The National Institute for Clinical Excellence (NICE) issued their guidance on photodynamic therapy on 24 September 2003. Implementation of the NICE guidance was co-ordinated by local specialist commissioning groups. All primary care trusts are funding photodynamic therapy treatment for patients with both the wholly classic and predominantly classic forms of age-related macular degeneration.

Media Monitoring

Steve Webb: To ask the Secretary of State for Health if she will place in the Library copies of *(a)* print and *(b)* broadcast media monitoring undertaken for her Department since 2002. [36975]

Jane Kennedy: The current arrangements for regular national and regional media monitoring and analysis started in late 2004. The Department monitors the print media only in the regional media. A small proportion of the national broadcast media is monitored but the large majority of media monitoring covers the print media only.

Over the summer of 2005, a summary of media coverage for December 2004 was published as part of the Department's communications research publication scheme under the freedom of information (FOI). Officers considered the merits of different methods of publication for all the research, including the Department's Library and its website. The Department's website was chosen as the most cost-effective method and the best fit with FOI requirements.

The Department has committed to publishing summaries of its communications research every six months. The next publication date is February 2006. This will include summaries of media analysis from January to June 2005. Copies of the December 2004 analysis has been placed in the Library.

Nappies

Julia Goldsworthy: To ask the Secretary of State for Health (1) how much the NHS spent on disposable nappies in each year since 1997; [40972]

(2) what recent discussions she has had with ministerial colleagues in the Department for the Environment, Food and Rural Affairs with regard to the use of reusable nappies in NHS hospitals; [40973]

(3) what estimate she has made of the effect on costs to NHS hospitals of supplying reusable nappies on maternity wards in place of disposable nappies. [40974]

Mr. Byrne: Information on national health service expenditure on disposable nappies is not collected centrally.

I have had no recent discussions with ministerial colleagues in the Department for Environment, Food and Rural Affairs about the use of reusable nappies in national health service hospitals. It is for individual NHS trusts to decide on the practicalities, including the effect on costs, of promoting the use of reusable nappies in their own maternity units.

NHS Central Registration System

Adam Afriyie: To ask the Secretary of State for Health what estimate she has made of the number of new registrants with general practitioners who had previously been resident outside the UK in each of the last three years for which information is available, broken down by local authority area. [38507]

Mr. Byrne: The Department does not hold this information centrally.

NHS Gift Card Scheme

Steve Webb: To ask the Secretary of State for Health what involvement her Department has had in the NHS Gift Card Scheme; and if she will make a statement. [40376]

Jane Kennedy *[holding answer 9 January 2006]:* The Department has had no involvement in the NHS gift card scheme.

NHS Tariff Uplift

Mr. Lansley: To ask the Secretary of State for Health what the size of the NHS tariff uplift *(a)* will be between 2005–06 and 2006–07 and *(b)* was between 2004–05 and 2005–06. [39283]

Mr. Byrne: Details on the 2006–07 tariff will be published in January 2006.

NICE Guidance

Tim Loughton: To ask the Secretary of State for Health what direction her Department has given to the NHS regarding the implementation of clinical guidelines emanating from the National Institute for Health and Clinical Excellence. [40234]

Jane Kennedy: Clinical guidelines issued by the National Institute for Health and Clinical Excellence (NICE) are included within the national standards set out in "Standards for Better Health" (2004). NICE'S clinical guidelines are part of the developmental standards which national health service bodies are required to take into account in discharging their functions. The Healthcare Commission also takes these standards into consideration when undertaking their annual review of NHS bodies.

Nurses

David T.C. Davies: To ask the Secretary of State for Health how many qualified nurses are on maternity leave from the NHS; and how many of these nurses qualified in the last 12 months. [39303]

Mr. Byrne: This information is not collected centrally.

Nursing and Midwifery Council

Susan Kramer: To ask the Secretary of State for Health how many complaints were referred to the Fitness to Practice Department of the Nursing and Midwifery Council in each of the last five years. [41105]

Jane Kennedy: This information is not held centrally. Data about fitness to practice cases can be obtained directly from the Nursing and Midwifery Council.

Osteoporosis

Mr. Lansley: To ask the Secretary of State for Health what representations she has received advocating the incorporation of osteoporosis in the new Quality and Outcomes Framework of the General Medical Services contract from April 2006. [39327]

Mr. Byrne: The quality and outcomes framework is a national agreement as part of the general medical services contract. Negotiations have just concluded for the 2006–07 contract and were held between NHS

Employers (NHSE) and the General Practice Committee of the British Medical Association. As part of the review process NHSE secured an independent review panel at the University of Birmingham to receive submissions and representations from interested parties.

Payment-by-results

Mr. Lansley: To ask the Secretary of State for Health whether any NHS organisations which have suspended the operation of payment by results for elective activity; whether suspension of payment by results has been sanctioned by her Department; and if she will make a statement. [39368]

Mr. Byrne: 2005–06 is the first year of transition from locally negotiated prices to a national tariff. The use of risk-sharing mechanisms by a few health authorities is reasonable in this context. This is a mature and sensible approach and amounts to a minor modification of the planned roll out of payment by results rather than its suspension.

Pesticide Residue

Norman Baker: To ask the Secretary of State for Health what recent *(a)* assessment she has made of and *(b)* reports she has commissioned into the health implications arising from the presence in food of a combination of (i) additives and (ii) pesticide residues. [41920]

Caroline Flint *[holding answer 16 January 2006]:* The independent Committee on Toxicity of Chemicals in Food, Consumer Products and the Environment (COT) considered the health implications of mixtures of pesticides in 2002 and mixtures of additives in 2004. They advised that the health hazard due to mixtures of such chemicals at levels found in food is likely to be small. The COT report can be found on the Food Standard Agency's (FSA) website at: www.food.gov.uk/science/research/researchinfo/foodcomponentsresearch/mixturesresearch/t10prog/

The FSA advises that it is funding research to meet the COT recommendations to investigate possible health effects of mixtures of chemicals, including a project on food additives and a programme on mixtures of pesticides. Details of this research can be found on the FSA's website at: www.food.gov.uk/science/research/researchinfo/foodcomponentsresearch/mixturesresearch/t10prog/

Prescribing Practice (Budget Overruns)

Mr. Lansley: To ask the Secretary of State for Health what representations she has received regarding occurrences of the prescribing practice where patients are denied access to certain treatments at times of the year or month when budgets are likely to over-run; and what assessment she has made of how widespread this practice is. [39397]

Jane Kennedy: I have received a number of representations on the potential impact of local national health service deficits on patients.

Psychology

Mr. Gibb: To ask the Secretary of State for Health what proportion of *(a)* chartered psychologists and *(b)* chartered educational psychologists currently have a doctorate in psychology. [39506]

Mr. Byrne: The information requested is not collected centrally.

Respiratory Syncytial Virus

John Mann: To ask the Secretary of State for Health how the revised advice from the Joint Committee on Vaccination and Immunisation on preventative treatment for respiratory syncytial virus will be disseminated to trusts; and whether additional funds will be available to trusts to allow the implementation of such guidance. [30159]

Caroline Flint: The recommendations from the Joint Committee on Vaccination and Immunisation are made available on the website. It is a matter for clinical governance on how these recommendations are implemented.

Scanning Services

Mr. Burstow: To ask the Secretary of State for Health when she expects to make a decision concerning a new data collection procedure for waiting times for scans and tests. [34614]

Mr. Byrne: I refer the hon. Member to the reply I gave to the hon. Member for South Cambridgeshire (Mr. Lansley) on 8 December 2005, *Official Report*, column 1579W.

School Fruit and Vegetable Scheme

Mr. Chope: To ask the Secretary of State for Health what the total cost of the School Fruit and Vegetable Scheme in 2005–06 is expected to be; what the cost was in 2004–05; and what has been the unit cost per item of fruit supplied and distributed. [42409]

Caroline Flint *[holding answer 16 January 2006]:* The total cost of the school fruit and vegetable scheme in 2005–06 is expected to be £37,354,000.

The cost of the scheme in 2004–05 was £28,840,000. The lower costs in 2004–05 are due to the roll out of the scheme to schools in all the English regions which was not complete until November 2004.

The unit cost per piece of fruit and vegetable supplied is 10p.

Smoking

Tim Loughton: To ask the Secretary of State for Health how bingo halls will be treated under the proposed ban on smoking in public places. [28653]

Caroline Flint: The smoke free provisions of the Health Bill do not single out bingo halls for any special treatment. Bingo halls will be covered by the Bill in the same way as other premises.

Mr. Burstow: To ask the Secretary of State for Health what assessment her Department has made of the reduction in smoking prevalence rates that would be achieved by implementing option four in the regulatory impact assessment for the Health Improvement and Protection Bill. [29751]

Caroline Flint: A regulatory impact assessment (RIA) has been published alongside the Health Bill. The RIA contains estimates of costs and benefits of legislation to

end smoking in enclosed public places and workplaces, including potential impact on smoking prevalence rates. A copy is available in the Library.

Mr. Lansley: To ask the Secretary of State for Health whether smoking on stage in theatres as part of the presentation will be permitted under the Government's proposed ban on smoking in public places. [41970]

Caroline Flint: As part of the public consultation on the smoke-free parts of the Health Bill, we received representations from the theatre industry to exempt theatrical performances. We are considering the points made and will take them into account in drafting regulations.

Andrew Mackinlay: To ask the Secretary of State for Health if she will publish her response to the Health Select Committee's report advocating a wider ban on smoking than that contained in the Health Bill prior to that Bill's report stage; and if she will make a statement. [39597]

Caroline Flint: The Government will publish their response to the Health Select Committee's report in due course.

John Bercow: To ask the Secretary of State for Health (1) what steps she is taking to improve access to smoking cessation services for hard-to-reach groups; [39432]

(2) if she will take steps to increase referral from the NHS and partner agencies to smoking cessation services; [39433]

(3) if she will expand the current capacity of NHS smoking cessation services. [39434]

Caroline Flint: The Department funded an evaluation of the national health service stop smoking services in England. The evaluation included an analysis of how well the services were doing in enabling access to the services of smokers from hard-to-reach groups. Results from the evaluation show that the NHS stop smoking services in England are successfully reaching smokers living in the most disadvantaged areas. The evaluation was published in a special supplement of the journal, "Addiction" in April 2005. A copy is available in the Library.

The Department has also asked the National Institute for Health and Clinical Excellence (NICE) to look at two areas of smoking cessation: the first is for brief interventions and referral, the second is for optimal provision of services for smokers. The scopes for these two pieces of work are available on NICE'S website. In both cases the scopes place particular emphasis on looking at groups where smoking rates are high including manual working groups, pregnant women, low income/lone parents and homeless people.

The Department ran a major marketing campaign during 2005 to raise awareness of local NHS stop smoking services. This campaign included television, press, radio and ambient advertising. As with all tobacco education campaigns, the campaign had a strong focus on the routine and manual audience. In February 2006, a new major campaign, promoting local NHS stop smoking services will be launched. This will again focus on the routine and manual group audience.

To build on the continued good progress of the NHS stop smoking services in reaching and exceeding previous targets for helping smokers to quit, the Department set from April 2003 a more demanding national target of helping 800,000 smokers to quit by March 2006. To help meet this increased target, the services have expanded substantially, supported by extra investment of £138 million over the three years. The table shows the substantial and continued increase in capacity in NHS stop smoking services.

NHS stop smoking service results 1999—June 2005

	People setting a quit date through NHS stop smoking service[1]	*Number who remained quit at the four week follow up with NHS stop smoking service*
1999–2000	14,598	5,761
2000–2001	132,544	64,554
2001–2002	227,335	119,834
2002–2003	234,858	124,082
2003–2004	361,224	204,876
2004–2005	529,567	298,124
1 April—June 2005	140,177	73,396
Total 1999—June 2005	1,640,303	890,627

Health and Social Care Information Centre.

Southport and Ormskirk NHS Trust

Rosie Cooper: To ask the Secretary of State for Health (1) what assessment she has made of the reasons for Southport and Ormskirk NHS Trust's budget deficit; [38375]

(2) when the turnround team sent into Southport and Ormskirk Hospital is expected to report its findings; and whether the findings will be made public. [38671]

Mr. Byrne: Turnaround teams, comprising financial and management specialists, are to be sent into a small number of national health service organisations to help them provide more cost-effective services for patients.

An initial piece of work, the baseline assessment, is under way to identify the NHS organisations that will most benefit from the support of the turnaround teams. Southport and Ormskirk Hospital NHS Trust is one of the organisations involved in the baseline assessment and was chosen because of the financial challenges it faces.

The baseline assessment is planned to be concluded before Christmas. No decision has been made as to whether the findings will be made public.

The turnaround teams will support the chief executives of each of the organisations identified as needing their support. The type and length of engagement will be tailored to the needs of specific organisations but the programme is expected to be of an 18-month duration.

Rosie Cooper: To ask the Secretary of State for Health what the future capital investment programme is for Southport and Ormskirk NHS Trust. [38378]

Mr. Byrne: The information requested can be obtained from the Southport and Ormskirk hospital national health service trust and the Cheshire and Merseyside strategic health authority.

Strategic Health Authorities

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the performance management abilities of strategic health authorities in managing NHS trusts and primary care trusts which are failing in their duties to break even year-on-year. [39346]

Mr. Byrne: It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. The Department works with SHAs to support them in this task.

To strengthen the ability of SHAs to deal with organisations with financial challenges we recently announced the creation of turnaround teams. These teams will support the national health service in identifying opportunities to deliver services with greater cost-effectiveness and to make financial savings. They will help the local NHS ensure that it delivers both its key targets and financial balance.

We have re-emphasised to all SHAs the importance of sound financial management, and the key role that system reform will play to achieve this goal, and we have also increased the level of monitoring and analysis, and have developed a more active way of challenging SHAs about the financial performance of their health economy.

Therapy Providers

Danny Alexander: To ask the Secretary of State for Health with which organisations she has held discussions on professional accreditation of therapy providers; and if she will make a statement. [40896]

Jane Kennedy: Departmental officials have held discussions with over 30 organisations in the fields of psychotherapy and counselling over the last five years with a view to establishing agreed roles and the competences and training necessary for their safe practice. These will form the basis of regulation which would include accreditation of training and registration of practitioners who are fit to practise.

Tobacco Control Alliance

Damian Green: To ask the Secretary of State for Health (1) how much her Department has spent supporting local tobacco control alliances since 1997; [39409]

(2) how much public funding has been provided to the Kent Alliance on Smoking and Health since 1997; and if she will make a statement. [39410]

Caroline Flint: The NHS Cancer Plan published in September 2000, announced the establishment of local tobacco control alliances, with funding of up to £1 million a year.

After the initial three years, decision making on local tobacco control was devolved to the nine Government office regions (GOR). The tobacco control budget was increased to £2 million a year for the three years 2003 to 2006, to provide funding for regional tobacco control work together with funding of local tobacco control alliances.

According to the GOR for the South East, the Kent Alliance on Smoking and Health has received funding of £43,040 in 2003–04, £30,706 in 2004–05 and £30,706 in 2005–06.

Tuberculosis

Mr. Drew: To ask the Secretary of State for Health how many reported cases of tuberculosis there were in Gloucestershire in each of the last 10 years. [41502]

Caroline Flint: The number of tuberculosis notifications for Gloucestershire for the years 1995 to 2004 is shown in the following table. These are the latest figures available.

Tuberculosis notifications, Gloucestershire, 1995 to 2004

	Number
1995	37
1996	38
1997	26
1998	30
1999	27
2000	35
2001	22
2002	21
2003	22
2004	31

Notes:

Statutory Notifications of Infectious Diseases (NOIDs)

Waiting Times

Steve Webb: To ask the Secretary of State for Health pursuant to paragraph 67 of the document "Commissioning an 18 week patient pathway:" Proposed principles and definitions: A discussion document, what steps she is taking to ensure that the decision that subsequent treatment courses will not fall within the initial 18 week waiting target does not create an incentive for NHS trusts to make patients wait longer for subsequent treatment; and if she will publish information on these waiting times. [38006]

Mr. Byrne: The Department is currently collating responses to the listening exercise on the proposed principles and definitions for 18 weeks, which closed on 8 December 2005. The conclusions drawn from the listening exercise will help inform the final principles and definitions, and will be published in 2006. As the principles and definitions are still under constant review until the time that they are published, we cannot presently give any further information about their content.

While 18 weeks will be the maximum, most patient journeys will be much shorter than this. In particular 18 weeks does not replace other waiting times targets or standards where these are tighter than 18 weeks, for example, rapid access chest pain clinics. There will be other mechanisms to reduce the patient pathway in areas not included in 18 weeks, as outlined in the NHS improvement plan, and the 18 weeks maximum wait may be extended to other areas in the future.

Greg Clark: To ask the Secretary of State for Health what the *(a)* maximum and *(b)* average waiting times for outpatient appointments subsequent to an initial appointment were for each strategic health authority in England in each quarter of the last eight years. [40266]

Mr. Byrne: Waiting times for outpatient appointments subsequent to initial appointments are not collected centrally.

DEPUTY PRIME MINISTER

Avon Fire Authority

Stephen Williams: To ask the Deputy Prime Minister what discussions his Department has had with *(a)* the Avon fire authority, *(b)* the chief fire officer of Avon and *(c)* fire servicemen and women working in the Avon fire authority about proposals to move fire appliances from Temple Back station, Bristol to Patchway, Bristol as part of the integrated risk management plan. [42284]

Jim Fitzpatrick: No representations have been made. It is not the role of Ministers to agree the operational proposals in an authority's plan; that is for elected members of the authority concerned. They are best placed to act on the professional advice of principal officers and to balance the competing local demands on available resources for the benefits of the communities they serve. Furthermore, Avon fire authority's proposals will, of course, be subject to consultation with the local community, as required under the integrated risk management plan (IRMP).

Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many local authorities have indicated that they do not wish to transfer their council housing. [41158]

Yvette Cooper: Of the 354 local housing authorities, 185 have selected large scale voluntary transfer. The remainder have opted not to transfer but rather have decided to: set up an Arms Length Management Organisation (59), implement a mixed solution of more than one option (nine), or opt for local authority retention (98). Three local authorities have still to finalise their option.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what assessment he has made of the number of local authorities which will be able to meet the local demand for affordable rented housing by 2007. [40846]

Yvette Cooper: The Government are investing increased resources made available through the Spending Review 2004 to provide 75,000 social rented homes by the year 2007–08. With the advice of the Regional Housing Boards, set out in their regional housing strategies, resources are being targeted at those areas in greatest need.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what impact he expects the *(a)* Thames Gateway, *(b)* Olympic facilities and *(c)* Kings Cross development to have on building cost inflation in London; and what assessment he has made of the adequacy of the allowances for London local authority housing revenue accounts. [40850]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not forecast building cost inflation. The Office of Government Commerce is currently assessing public sector construction procurement demand, capacity, supply and performance. This will include a particular project to examine the construction industry's capacity to deliver planned national capital construction programmes, including the provision of Olympics infrastructure, in the period 2005–15.

The Major Repairs Allowance (MRA) in the Housing Revenue Account is designed to meet the average annual costs of major repairs. It is up-rated each year in line with general inflation. A local authority can react to high building costs by putting some or all of its MRA into a Major Repairs Reserve.

Mr. Austin Mitchell: To ask the Deputy Prime Minister from which budget the additional resources made available to arm's length management organisations (ALMOs) to improve council homes comes; what level of funding is available from applications from new ALMOs; and what the total cost was in each year since 1997. [40876]

Yvette Cooper: The arm's length management organisation (ALMO) programme has its own separate budget created from increased resources from Treasury. A total of £3.7 billion has been allocated to the ALMO programme under the two most recent spending reviews for the five years up to 2007–08. Funding beyond 2007–08 will be considered in the context of the next spending review, CSR 07. The ALMO programme has only been running since 2002. Total expenditure was £56 million in 2002–03, £321 million in 2003–04, £577 million in 2004–05 and is projected to be £846 million in 2005–06.

Fire Services

Mr. Lancaster: To ask the Deputy Prime Minister what financial help will be offered to Buckinghamshire and Milton Keynes Fire Authority in relation to the expansion of Milton Keynes. [42064]

Jim Fitzpatrick: The provisional Local Government Finance Settlement for 2006–07 and 2007–08 that was announced on the 5 December 2005 by my hon. Friend the Minister for Local Government included the use of population projections as the dominant data drivers of population in the settlements.

Government Bills

Mr. Amess: To ask the Deputy Prime Minister if he will list the Government Bills sponsored by his Department that are expected to be introduced during the current session; what the proposed date of presentation is of each; and into which House each will be introduced. [41024]

Jim Fitzpatrick: The Council Tax (New Valuation Lists for England) Bill, (Bill 57 2005/06) was introduced into the House of Commons on 13 October 2005. There are no plans for the Office of the Deputy Prime Minister to introduce further Bills this session.

Government Papers

Mr. Amess: To ask the Deputy Prime Minister how many copies of Cm 6526 were produced; how many copies were supplied free by his Department; and to whom such copies were supplied. [41016]

Jim Fitzpatrick: The Office of the Deputy Prime Minister's Annual Report, Cm 6526, was published on 20 June 2005 and is freely available on the ODPM's website.

The commercial decision as to the number of copies printed was made by The Stationery Office Ltd, who advise that 1,000 copies of the report were printed. Of these, approximately 500 copies were provided free of charge to the Libraries of the House, the Vote Office, the ODPM Select Committee, Ministers and officials in the ODPM, and to other Government Departments.

Homelessness

Nick Harvey: To ask the Deputy Prime Minister what steps his Department is taking to address rural homelessness. [40638]

Yvette Cooper: Earlier this year, the Office of the Deputy Prime Minister published our future strategy on homelessness "Sustainable Communities: settled homes; changing lives". The strategy contains our commitment to continue working to ensure that the needs of rural communities are met.

The Office of the Deputy Prime Minister will continue to support all local authorities with additional resources to help them implement requirements of the Homelessness Act and tackle and prevent homelessness in their area. Rural authorities have received around £7 million in each year since 2003–04 and as confirmed last month over £7.5 million has been allocated to rural authorities for 2006–07 and 2007–08. In addition, the Homelessness and Housing Support Directorate in ODPM has appointed a specialist adviser from a local authority who is tasked specifically with promoting good practice in tackling homelessness in rural areas.

The Office of the Deputy Prime Minister will continue to promote approaches that work in a rural context, where access to affordable housing can be more limited, where remoteness can act as a barrier to accessing relevant services and where there may be less developed partnerships.

Through regional workshops and training the Office of the Deputy Prime Minister will help the preparation of sub-regional homelessness strategies that link into the Regional Housing and county Supporting People strategies, and draw on the strengths of the Local Strategic Partnerships, to tackle the causes of homelessness in rural areas.

The number of households accepted as owed a main homelessness duty in rural authorities during 2004–05 fell by 6 per cent. compared with 2003–04.

Housing Performance Indicators

Anne Main: To ask the Deputy Prime Minister pursuant to the answer of 9 January 2006, *Official Report*, columns 260–61W, if he will provide the figures for best value performance indicator 64 for *(a)* 2002–03 and *(b)* 2003–04 expressed as a percentage of the number of dwellings returned to occupation or demolished in those years. [41893]

Jim Fitzpatrick: The information requested is not held centrally and could be provided only at disproportionate cost.

Kent County Council

Mr. Byers: To ask the Deputy Prime Minister if he will raise with Kent county council its requirement that *(a)* small businesses submit full accounts rather than abbreviated ones and *(b)* all potential suppliers of goods and services have public liability insurance of at least £5 million. [42928]

Jim Fitzpatrick: I have raised these issues with Kent county council and am awaiting a response. I will write to my right hon. Friend once the relevant information is received, and a copy will be published in the *Official Report*.

Mr. Byers: To ask the Deputy Prime Minister if he will take steps to ensure that the standard terms of contract adopted by Kent county council do not *(a)* discriminate against and *(b)* place an undue burden of regulation on small businesses. [42929]

Mr. Woolas: I have raised these issues with Kent county council and am awaiting a response. I will write to my right hon. Friend once the relevant information is received, and a copy will be published in the *Official Report*.

Land Development

Mrs. Spelman: To ask the Deputy Prime Minister what steps the Government is taking to tackle speculative and misleading sales and marketing of land without planning permission as land with development opportunities; and what advice the Government has given to trading standards officials on this issue. [42589]

Mr. Sutcliffe: I have been asked to reply.

The Property Misdescriptions Act 1991 makes it a criminal offence to make false or misleading statements about specified aspects of land (which includes buildings) offered for sale by those in the estate agency or property development business. The categories of information which fall into those controls include the existence or nature of any planning permission or proposals for development, construction or change of use. There is no general requirement to disclose information, but where information is given it must be accurate and must not be misleading.

Trading Standards Officers can, where they have reasonable cause to suspect that an offence has been committed, require the production of books, documents or hard copy of information held on computers and can take copies of them. Where they have reasonable grounds to believe that an offence has been committed they can seize and retain such material. On summary conviction, the penalty under the Act is a fine not exceeding the statutory maximum (currently £5,000). For conviction on indictment, e.g. before a Crown court, this is an unlimited fine. These provisions follow the standard pattern for legislation of this kind.

Local Authority Accrued Liabilities

Mr. Pelling: To ask the Deputy Prime Minister what percentage of each local authority's assets were accrued liabilities according to the most recent actuarial valuation. [42463]

Jim Fitzpatrick: The 89 funds that comprise the local government pension scheme are valued by actuaries every three years, most recently in 2004. The results for English and Welsh local authorities participating in the scheme are given at:
www.xoq83.dial.pipex.com/actvale.pdf and
www.xoq83.dial.pipex.com/valwal.pdf respectively.

Local Authority Mergers

Mr. Bone: To ask the Deputy Prime Minister if the Government will assess the merits of mergers of local authorities across county boundaries. [41175]

Mr. Woolas: The Office of the Deputy Prime Minister has launched a public debate about the governance arrangements for local areas and are interested to hear views on the merits of change and how it might be made. We plan to publish a White Paper on the future of local government in the middle of next year.

Local Government Finance

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the ranking was for each local authority which undertook a *(a)* full or *(b)* partial transfer under (i) the 1998 Index of Local Deprivation, (ii) the Indices of Deprivation 2000 and (iii) the Indices of Deprivation 2004 for each year in which transfers took place since 1997. [40872]

Yvette Cooper: A table presenting the rank for each local authority which undertook *(a)* a full or *(b)* partial transfer under (i) the 1998 Index of Local Deprivation, (ii) the Indices of Deprivation 2000 and (iii) the Indices of Deprivation 2004 has been made available in the Library of the House.

Please note that these Indices are not strictly comparable as they are made up of different indicators and domains, and the methodology was fundamentally changed between the 1998 and 2000 Indices.

Mr. Jenkins: To ask the Deputy Prime Minister what the annual per capita allocation of revenue support grant was in Tamworth borough council in each of the last eight years; what the annual percentage increase was; and what the average per capita allocation was for English local authorities in each of the last eight years. [42103]

Mr. Woolas: The following table shows formula grant per head for Tamworth, and all English local authorities for 1998–99 to 2005–06. Formula grant comprises revenue support grant, redistributed business rates and principal formula police grant.

It should be noted that Tamworth only provides some services within their area; for example education, social services, highway maintenance, police and fire services are provided by other authorities. The "all English local authorities" column covers all services.

	Tamworth	*All English local authorities*
1998–99	59.87	721.89
1999–2000	60.37	753.00
2000–01	61.98	778.19
2001–02	64.85	804.47
2002–03	66.77	806.51
2003–04	72.54	892.49
2004–05	70.26	930.64
2005–06	74.52	983.15

The following table shows the percentage increase in formula grant per head year-on-year on a like-for-like basis for Tamworth, and all English local authorities for 1998–99 to 2005–06.

Please note that the figures provided in the first table cannot be compared directly as there have been a number of changes in the funding and functions covered by formula grant over this period.

Percentage

	Tamworth	*All English local authorities*
1998–99	-6.1	1.4
1999–2000	0.8	4.3
2000–01	2.7	3.3
2001–02	3.8	3.8
2002–03	4.4	4.5
2003–04	11.2	7.7
2004–05	5.1	4.7
2005–06	5.7	4.9

Please note that all of these figures are based on the respective year's settlement. In some years these figures have subsequently been subject to an amending report.

Mr. David Anderson: To ask the Deputy Prime Minister if he will, as part of the review of local government finance, take account of the additional spending needs of authorities with a disproportionately high number of un-adopted, privately owned, roads, walls and bridges in need of repair. [42172]

Mr. Woolas: Routine road maintenance is financed partly by the local government finance settlement and partly by council tax. The maintenance of un-adopted, privately owned, roads, walls and bridges is not a matter for the local highway authority instead this is the responsibility of the owners.

Bob Spink: To ask the Deputy Prime Minister when the Lyons Inquiry into council tax is expected to finish taking evidence. [42218]

Mr. Woolas: On 20 September, the Government extended Sir Michael Lyons' independent inquiry into local government funding so that he can consider issues relating to the wider functions of local government and its future role. It is for Sir Michael to decide when the Inquiry will stop taking evidence, before producing his final report at the end of 2006.

Meanwhile, Sir Michael published an interim report and consultation paper on 15 December 2005. That report welcomed views on the proposals and issues outlined in it by 13 March 2006.

London Borough of Hammersmith and Fulham

Mr. Hands: To ask the Deputy Prime Minister how much public money has been provided to the London borough of Hammersmith and Fulham in *(a)* revenue and *(b)* capital grants in each year since 1996–97. [41609]

Mr. Woolas: The amount of central government funding provided to the London borough of Hammersmith and Fulham in each year since 1996–97 is tabled as follows.

	£000
1996–97	135,002
1997–98	136,577
1998–99	142,640
1999–2000	152,034
2000–01	165,320
2001–02	180,845
2002–03	190,898
2003–04	213,397
2004–05	223,648

The data are taken from Revenue Summary (RS) returns for 1996–97 to 2004–05.

Central government funding is defined here as the sum of Specific grants inside Aggregate External Finance (AEF) and Formula grant (Revenue Support Grant, Redistributed business rates and Police Grant).

Specific grants inside Aggregate External Finance are those revenue grants paid for councils' core services (such as waste collection), excluding funding for local authorities' housing management.

Comparisons across years may not be valid due to changing local authority responsibilities.

The information excludes those grant programmes, such as European funding, where authorities are simply one of the recipients of funding paid towards an area.

The information requested on capital grants is not held centrally and could be provided only at disproportionate cost.

Neighbourhood Wardens (Haringey)

Lynne Featherstone: To ask the Deputy Prime Minister if he will increase funding for neighbourhood wardens in the London borough of Haringey; and if he will make a statement. [42634]

Jim Fitzpatrick: There are no plans to increase funding for neighbourhood wardens schemes in Haringey.

North-East Lincolnshire Council

Shona McIsaac: To ask the Deputy Prime Minister how many findings of maladministration there have been against North East Lincolnshire council since 2003; and if he will provide a summary for each case. [42972]

Jim Fitzpatrick: Since 2003, the local government ombudsman has issued two formal public reports setting out findings of maladministration. The local government ombudsman's summaries are set out as follows:

1. North East Lincolnshire council (03/C604) social services for children (report issued 11 March 2004).

'John Swift' (not his real name for legal reasons) is a young person whose care is the responsibility of the council. He complains about the standard of care he received in a foster placement and that the council failed to consider his complaints properly.

The ombudsman found that there was inadequate preparation before and during the early part of the John's placement with his foster parents. She was also critical of the council's failure to have guidance for foster carers about whether and when it might be appropriate to ask fostered young people to be out of the house when the foster carer was not present.

The Ombudsman recommended that the council should:

Pay John £100 in compensation;

Complete its current review of the issue of requiring young people in foster care to vacate the foster home in certain circumstances and issue guidance to foster parents on the subject.

The council has agreed, and the ombudsman considers this will remedy the injustice caused by the maladministration identified.

2. North East Lincolnshire council (03/C/4267 and 7084) public rights of way (report issued 15 December 2005).

Mr Jennings' and 'Mr Crosby' (not their real names) complained about the obstruction of a footpath near their homes. The footpath had been inaccessible for its whole length for a number of years despite complaints and representations from a number of people and the Ramblers Association. The ombudsman had been critical of Humberside county council, by public report, for its failure to take action to reopen this footpath.

This problem was one inherited by the council from its predecessor, Humberside county council. The council was aware of this problem at the time, and indeed considered the matter at committee level in October 1996. Nothing more was done though until 2005 when another committee took action which is likely to re-establish this footpath.

The ombudsman acknowledged the financial difficulties which had confronted the council and made prioritising work and expenditure difficult, but she had to remind the council that Parliament had placed upon the council a statutory duty to assert and protect the rights of the public to use and enjoy public footpaths. The failure here to respond to this statutory duty was, in the ombudsman's view, maladministration. The ombudsman felt this was aggravated by the failures of both the council and its predecessor to comply with recommendations contained in the previous report issued about this matter.

Although the ombudsman commended the council for the action it is taking now, she was critical of the time taken to reach this point. The ombudsman felt that the council's failure to respond to the previous report, and the failure over many years to take any effective action, reflected very poorly on the council.

The council has now instigated action which should resolve this matter and re-establish the footpath. However the ombudsman felt that the complainants had

been put to great trouble in being forced to pursue their complaints as they did and, commending their patience, felt that the council should pay each of them £500 to compensate them for their time and trouble.

Planning Applications

Bob Spink: To ask the Deputy Prime Minister how many planning applications were appealed in respect of proposals to replace houses and bungalows with flats in each of the last five years. [42216]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

Lynne Jones: To ask the Deputy Prime Minister what measures are in place to ensure that planning applications that are in the eight-week target category, but which are not processed by a local planning authority within eight weeks, are not then given a lower priority than other applications where the target is achievable. [41567]

Yvette Cooper: The Government has set a target for all local authorities to determine 65 per cent. of 'minor' applications, and 80 per cent. of 'other' applications, within eight weeks, by 31 March 2007. These figures are set in recognition that not all such applications may be capable of being decided within the eight-week period. However, the Government also provides incentives, through Planning Delivery Grant, for authorities to decide a higher proportion within time scales. As announced in December some of the Planning Delivery Grant would be used to reward authorities for effective management of their application processes, including ensuring that they do not have unacceptable backlogs.

Gregory Barker: To ask the Deputy Prime Minister whether his Department consults the Department for Environment, Food and Rural Affairs before it publishes new *(a)* planning regulations and *(b)* housing plans. [39902]

Yvette Cooper: Yes. The Office of the Deputy Prime Minister consults all other interested Government Departments including the Department for Environment, Food and Rural Affairs before publishing or consulting on new planning regulations, or new housing planning policy statements.

Primary Care Trusts

Dr. Stoate: To ask the Deputy Prime Minister what discussions Ministers and officials in his Department had with their counterparts in the Department of Health on the reorganisation of primary care trusts in Kent and Medway prior to the publication on 14 December 2005 by Kent and Medway strategic health authority of the consultation on new strategic health authority and primary care trust arrangements in Kent and Medway. [42200]

Mr. Woolas: Ministers and officials in the Office of the Deputy Prime Minister have had a number of discussions with their Department of Health counterparts about the potential interaction with local government of the proposals for reorganising Primary Care Trusts (PCTs) across England, including Kent and Medway.

Private Members' Bills

Mr. Amess: To ask the Deputy Prime Minister whether it is his policy to write to hon. Members presenting a Private Members' Bill on a subject within his Department's responsibility to express his support, opposition or neutrality; and if he will make a statement. [41017]

Jim Fitzpatrick: The Office of the Deputy Prime Minister's response to Private Members' Bills is normally set out by Ministers during the Second Reading debate.

Mr. Amess: To ask the Deputy Prime Minister if he will list those Private Members' Bills introduced during the current session where policy responsibility rests with his Department. [41020]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has policy interests in a number of Private Members' Bills introduced by hon. Members during the current session.

Mr. Amess: To ask the Deputy Prime Minister (1) if he will list those Private Members' handout Bills prepared by his Department that are expected to be introduced during the current session; what the proposed date of presentation is of each; and into which House each will be introduced; [41021]

(2) if he will list the Private Members' handout Bills put forward by his Department in each session since 1997; and which such Bills received Royal Assent. [41023]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was formed on 29 May 2002. Since that time two Private Members' handout Bills where policy responsibility rests with the Office of the Deputy Prime Minister have been introduced. None are planned for the current session.

High Hedges (No.2) Bill was introduced on 11 December 2002.

Sustainable and Secure Buildings Bill was introduced on 7 January 2004, it received Royal Assent on 16 September 2004.

Public Relations Companies

Mr. Weir: To ask the Deputy Prime Minister if he will list the public relations companies that have had contracts with *(a)* his Department and previous Departments with his Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department since May 1997. [39111]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was formed in May 2002. This information is not held centrally and can be provided only at disproportionate cost.

Supporting People Services

Mr. Burstow: To ask the Deputy Prime Minister what account his Department takes of the single assessment process in the guidance for the Supporting People assessment; and how the resulting support plan operates in relation to the single assessment care plan. [41902]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member on 14 December 2005, *Official Report*, columns 1970–1W. As that explained, there is currently no standard approach to Supporting People assessments, but our Supporting People strategy development work commits us to working towards one and to integrating that with those for care and other relevant services. As such, arrangements, and the links between support plans and care plans, will currently vary between local authorities and between providers.

Mr. Burstow: To ask the Deputy Prime Minister to what assessment a person applying for access to an Extra Care scheme under Supporting People is subject. [41904]

Mr. Woolas: There is no standardised approach to assessments for Supporting People services, and arrangements will vary between authorities and between providers. It is, however, usual for an assessment to be made of an individual's personal circumstances in order to obtain housing-related support. This could take account of things like physical and mental health, social, family, domestic and financial circumstances. The basic aim will be to determine eligibility, so a decision can be made on who is entitled to a service funded through Supporting People and in accordance with grant conditions applying to the programme; and why, and what, if any, charges for the service should be made.

Assessments governing access to Extra Care schemes are not governed or determined by the Supporting People programme.

Standards Board for England

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government has to *(a)* move the location of and *(b)* abolish the Standards Board for England. [39479]

Mr. Woolas: As is clear from the Government's Discussion Paper, 'Standards of Conduct in English Local Government: The Future', published on 15 December 2005, we have no plans to abolish the board. We consider that the new style strategic board as proposed in the paper, if Parliament legislates to establish it, should be re-located out of London. In advance of this, I have given approval for the board to re-locate a small number of posts to Manchester in 2006, provided this can be achieved without the need for any extra grant funding from the Office of the Deputy Prime Minister.

Written Answers to Questions

Wednesday 18 January 2006

WALES

Offshore Wind Farms

8. **Mr. David Jones:** To ask the Secretary of State for Wales if he will make a statement on the future development of offshore wind farms in Wales. [41801]

9. **Mr. Ellwood:** To ask the Secretary of State for Wales if he will make a statement on the future development of offshore wind farms in Wales. [41802]

Mr. Hain: The Government are deeply concerned about the extent of climate change and the future security of energy supply. Offshore wind and other forms of renewables will be vital to meeting the UK's energy needs.

National Health Service (Capital Investment)

10. **Mrs. Betty Williams:** To ask the Secretary of State for Wales what discussions he has had with National Assembly for Wales colleagues on capital investment in the NHS in Wales over the next three years. [41803]

Nick Ainger: I have regular discussions with the Assembly Minister for Health and Social Services on a range of issued including the capital investment programme in Wales.

The Welsh Assembly Government is overseeing significant new capital expenditure in the NHS which will increase from £120 million in 2005–06 to £309 million in 2007–08.

Employment Levels

11. **Paul Flynn:** To ask the Secretary of State for Wales what change has occurred in the level of employment in Wales since 1997. [41804]

Mr. Hain: There are over 100,000 more people in employment in Wales today than there were in 1997. This represents an increase in the employment rate of almost 4 percentage points.

12. **Mark Tami:** To ask the Secretary of State for Wales if he will make a statement on employment levels in *(a)* Alyn and Deeside and *(b)* Wales. [41805]

Mr. Hain: Over the past year, employment levels in Wales have been historically high-over 1.3 million peple in Wales are in employment. Alyn and Deeside also enjoys high employment, with an employment rate that is higher than the Wales average.

Wylfa Nuclear Power Station

13. **Mr. Goodwill:** To ask the Secretary of State for Wales if he will make a statement on the future of the Wylfa nuclear power station. [41806]

Nick Ainger: The Nuclear Decommissioning Authority (NDA) assumed responsibility for the decommissioning and clean up of the UK's civil nuclear legacy on 1 April 2005. The NDA has set out its plans for the decommissioning and clean up of its sites including Wylfa in its draft Strategy. The draft indicates that Wylfa will cease generation by 2010.

Anglesey Aluminium Metal Ltd, which is a significant employer to the area, currently takes most of its energy from Wylfa, is reviewing its future energy supply beyond 2010, in conjunction with the Welsh Assembly Government.

Homelessness

14. **Jenny Willott:** To ask the Secretary of State for Wales if he will make a statement on the take-up of benefits available to tackle homelessness in Wales. [41807]

Nick Ainger: In 2004–05 housing benefit payments in Wales totalled £560 million.

An additional £900,000 was provided in discretionary housing payments to claimants who needed further assistance in meeting rent or council tax payments.

This year, the Welsh Assembly Government have provided £76.4 million in social housing grant. This is an increase of £17 million over last year and will rise to £96.4 million in 2007–08.

National Police Force

15. **Mr. Hollobone:** To ask the Secretary of State for Wales what estimate he has made of the proportion of the Welsh electorate which supports the establishment of a national police force for Wales. [41808]

Mr. Hain: I have not made such an estimate. Police authorities in Wales have led on consultation with the public and stakeholders in developing their proposals for restructuring. I expect that this consultation will continue throughout January.

However, having discussed the issue with a wide-range of interested parties, I can see no realistic alternative to a single strategic force for Wales.

Anti-poverty Strategies

Mr. Crabb: To ask the Secretary of State for Wales pursuant to the answer to the hon. Member for Aberavon of 15 December 2005, *Official Report*, columns 2275–6W, on anti-poverty strategies, under what section of the Government of Wales Act 1998 the National Assembly is empowered to formulate an international development strategy. [42282]

Mr. Hain *[holding answer 16 January 2006]:* The draft Welsh international sustainable development framework covers a broad range of activity some of which will fall within the Assembly's duty to promote sustainable development under s 121 of the Government of Wales Act 1998.

The National Assembly for Wales will have additional powers from April 2006 under the International Development Act 2002. These powers are subject to the approval of the Secretary of State for International Development.

CHURCH COMMISSIONERS

Audible Fire Alarms

Bob Spink: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what proportion of the premises occupied by the Church Commissioners is fitted with audible fire alarms. [42887]

Sir Stuart Bell: All the offices occupied by Church Commissioners' staff (at 1 Millbank and Elizabeth House, Waterloo) are fitted with audible fire alarms.

LEADER OF THE HOUSE

Audible Fire Alarms

Bob Spink: To ask the Leader of the House what proportion of the premises occupied by his Office is fitted with audible fire alarms. [42876]

Mr. Hoon: All space occupied by the Office of the Leader of the House of Commons at 2 Carlton Gardens is fitted with an audible fire alarm.

My Office also occupies office space in the House of Commons. Fire alarms are the responsibility of the Serjeant at Arms.

DEFENCE

Afghanistan

Mr. Ancram: To ask the Secretary of State for Defence when he expects to make a definitive statement about the deployment of troops into Helmand Province in Afghanistan; and what their role will be. [42047]

John Reid: I refer the right hon. and learned Member to the statement made on 14 November 2005, *Official Report*, column 41WS by my right hon. Friend the Minister for the Armed Forces.

As he said then, and as I previously informed the House on 7 July 2005, *Official Report*, column 479, the United Kingdom has preliminary plans to support the expansion of the NATO-led ISAF mission in Afghanistan by establishing a British-led Provincial Reconstruction Team in the province of Helmand.

Work continues within NATO on the configuration of the international force package for ISAF expansion in southern Afghanistan. We will take decisions in light of this work, and will inform the House at the earliest opportunity.

Atomic Weapons Establishment (Aldermaston)

Mr. Hancock: To ask the Secretary of State for Defence whether Crown immunity applies in the case of the AWE planning application for a new laser facility at Aldermaston; and if he will make a statement. [41945]

Mr. Touhig: The normal planning process cannot be used for the proposed Atomic Weapons Establishment Orion Laser Development at Aldermaston because the Ministry of Defence (MOD), as a Crown Department, is not subject to the statutory planning process and is therefore not legally able to submit formal planning applications.

I refer the hon. Member to my answer of 7 December 2005, *Official Report*, column 1348W. It explained that the MOD follows a consultation process with the local planning authority under DoE Circular 18/84 which largely mirrors the statutory planning system. It is this Department's policy to support any development proposals with the same level of background information that would be required under the statutory planning system.

The MOD works closely with local authorities to address any concerns raised in connection with any development proposals. The Local Planning Authority can also stipulate conditions when responding. While the perception may be that my Department claims "Crown Immunity" from planning regulation, it does in fact follow the practice of the normal planning process and also strives to follow its principles.

Defence Export Services Organisation

Malcolm Bruce: To ask the Secretary of State for Defence what commercial services the Defence Export Services Organisation provides to companies in relation to identifying potential agents in export markets. [10677]

Mr. Ingram *[pursuant to the reply, 13 July 2005, Official Report, c. 1076W]:* This should have read, I refer the hon. Member to the answer I gave on 5 July 2005, *Official Report*, column 259W. Any information provided to United Kingdom companies by the Defence Export Services Organisation is concerned only with the selection of suitable agents. It is our policy not to advise on agents' commission.

Malcolm Bruce: To ask the Secretary of State for Defence, (1) on how many occasions the Defence Export Services Organisation has provided advice to UK companies on the selection of agents in the last 12 months; [15340]

(2) what mechanisms the Defence Export Services Organisation uses to record the advice given by its *(a)* British-based and *(b)* overseas staff to companies on the selection of agents; [15341]

(3) whether the Defence Export Services Organisation provides *(a)* off the shelf lists and *(b)* bespoke lists of companies in relation to the selection of agents. [15342]

Mr. Ingram *[pursuant to the reply, 10 October 2005, Official Report, c. 10W]:* I regret that in referring the hon. Member to an earlier answer, I gave inaccurate details. I should have referred to the answer I gave him on 5 July 2005, *Official Report*, column 259W.

Project Coast

Andrew Mackinlay: To ask the Secretary of State for Defence when the Government became aware of the South African Government's Project Coast. [39802]

Dr. Howells: I have been asked to reply.

The Government was aware of the existence of legitimate South African chemical and biological defence programmes from the 1980s. Initial reports indicating offensive chemical biological weapons activities (later known as "Project Coast") were not received until 1993, but they were inconclusive, although there were unsubstantiated claims of chemical weapon use by South African forces in Angola, Mozambique and Zimbabwe in the 1980–90s. More detailed evidence of previous offensive activities was received in the years leading up to the Truth and Reconciliation Commission hearings in 1998, when further details of the offensive activities emerged. In 1994, we understood that the South African Government had terminated offensive chemical and biological weapon activities.

UK Nuclear Deterrent

Dr. Fox: To ask the Secretary of State for Defence what recent discussions his Department has had with his US counterparts about bilateral co-operation on stockpile stewardship and maintenance of Trident. [43004]

John Reid: Discussion and co-operation involving MOD officials, AWE personnel, and their US counterparts, on issues relating to stockpile stewardship and the maintenance of Trident, takes places regularly under the auspices of the 1958 US/UK Mutual Defence Agreement and the Polaris Sales Agreement (amended for Trident). The principal purpose of this co-operation is to help us to ensure the continued safety, availability, and reliability of the deterrent.

Dr. Fox: To ask the Secretary of State for Defence (1) what discussions his Department has had with his US counterpart about the Government's policy that decisions on Trident's replacement will be taken in this Parliament; [43005]

(2) what recent discussions his Department has had with his US counterparts about the next generation of the UK nuclear deterrent; and if he will make a statement. [43003]

John Reid: I refer the hon. Member to the answers I gave to the hon. Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore) on 21 July 2005, *Official Report*, column 2120W, and the hon. Member for New Forest, East (Dr. Lewis) on 9 November 2005, *Official Report*, column 560W.

White Phosphorus

Angus Robertson: To ask the Secretary of State for Defence what guidelines *(a)* he and *(b)* his predecessor has set out for UK armed forces on the use of white phosphorus; when these guidelines were last (i) reviewed and (ii) amended; and if he will make a statement. [30719]

John Reid *[holding answer 21 November 2005]:* British Forces possess white phosphorus munitions in Iraq for the purpose of producing a smoke screen to provide cover and thus protection for our soldiers on the battlefield. Guidelines for its use emphasise that it should not be deployed as an anti-personnel weapon. The relevant infantry training guidelines were last reviewed and training literature subsequently amended in 2003 in order to reinforce the prohibition of the use of white phosphorus against personnel.

INTERNATIONAL DEVELOPMENT

Anti-retroviral Medicines

Ms Keeble: To ask the Secretary of State for International Development what progress is being made in developing new anti-retroviral medicines for children suffering from HIV/AIDS in developing countries; and if he will make a statement. [41941]

Mr. Thomas: DFID has been working with the international pharmaceutical industry in a number of ways to increase access to medicines, including for the treatment of HIV and AIDS, and for children.

In March 2005 DFID, the Department of Trade and Industry and the Department of Health, launched a framework encouraging 'good practice' in the pharmaceutical industry to increase access to medicines. The framework contained a number of recommendations on how companies could increase access to medicines in developing countries, including through making medicines more affordable and through more research on diseases affecting developing countries. The framework encourages investment into new medicines for children among other areas.

The UK also provides support to increase research into treatments and vaccines for diseases affecting developing countries, including for HIV and AIDS. This includes tax credits and direct support to product development public private partnerships. DFID has funded research on the use of existing medicines in developing country settings, such as a trial of co-trimoxazole that significantly reduced mortality among children living with HIV.

DFID will continue to ensure the needs of children and other vulnerable groups are addressed as we work towards scaling up to universal access to treatment by 2010, as agreed by the G8 and by the millennium review summit. The Joint United Nations Programme on HIV/AIDS (UNAIDS), has established a Global Steering Committee, which the UK will co-chair. Plans will be based on the principle of country ownership—recognising the need to work through existing national structures and processes and focus on mobilising countries to scale up in line with the 2010 target.

In addition the Global Steering Committee will encourage countries to identify obstacles and develop solutions, including addressing the development of appropriate treatments for key groups, such as children.

Departmental Equipment

Mr. Weir: To ask the Secretary of State for International Development how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland owned in (x) 2003–04 and *(y)* 2004–05. [40095]

Mr. Thomas: I refer the Member to the reply given by my right. hon. Friend, the Secretary of State for International Development, to the hon. Member for

Tatton, on 24 January 2005, *Official Report*, column 21W, for the total figures for each asset type in DFID for 2004–05.

DFID maintains a database of current assets, and records of purchases made in each year. Neither provides breakdowns of specific types of equipment owned in previous financial years, to obtain this information would incur a disproportionate cost.

HIV/AIDS (Paediatric Care)

Lynne Featherstone: To ask the Secretary of State for International Development (1) if he will list the countries in which his Department has funded projects which aim to improve access to paediatric anti-retroviral therapy; [43194]

(2) if he will list the *(a)* organisations and *(b)* countries his Department is working with on paediatric HIV/AIDS projects; [43200]

(3) how much of the £150 million the UK has committed to spend on children living with HIV will be spent on paediatric treatment programmes; [43181]

(4) what measures his Department has in place to monitor the proportion of child beneficiaries of the treatment programmes it funds; [43196]

(5) what further work has been undertaken to ensure HIV-positive children receive co-trimoxazole since the funding by his Department of Medical Research Council research into its benefits in 2004. [43199]

Mr. Thomas: Taking Action, the UK's strategy for tackling HIV and AIDS in the developing world, published in 2004, states that, our support for children affected by AIDS is reflected in all of DFID's country assistance plans in all affected countries. This comprehensive approach includes prevention, care and treatment as well as recognising the impact AIDS has on society, including increasing orphan rates. DFID's expenditure reporting reflects this comprehensive approach and given the aid instruments we use, it is not possible to disaggregate between moneys spent on treatment and those used for other AIDS related activities.

The UK funds AIDS programmes in nearly 40 countries and works with a variety of organisations in respect of children affected by AIDS. DFID's spend on AIDS is not solely through bilateral programmes. A significant proportion is spent through multilateral instruments including the Global Fund to fight AIDS, TB and Malaria, the World Bank, UNICEF and the World Health Organisation (WHO); these play a role in funding paediatric treatment and care. The UK also finances a wide range of Civil Society organisations, including local NGOs such as the Dananai and Mavambo Trust in Zimbabwe, who are ensuring over 4,000 vulnerable children are able to attend school and that traumatised children receive appropriate counselling.

In Malawi, for example, as part of DFIDs support to the National AIDS programmes, there are now over 60 facilities in Malawi delivering anti retroviral therapy for HIV and over 37,000 people on treatment. The numbers are increasing, around 4,500 people starting on therapy in the first three months of last year. 95 per cent. are over 13 years old and 81 per cent. of people who have ever taken treatment are alive. The UK will continue to advocate for comprehensive AIDS programmes that meet the needs of children as well as adults.

The WHO reports[1] that access to HIV care and anti-retroviral therapy has not been extended widely to children. However, data is incomplete and the UK has urged the WHO, the Joint United Nations Programme on HIV/AIDS (UNAIDS) and others to track the extent to which treatment and care programmes are meeting the needs of the poor, women and children.

The Global Partners Forum on Children Affected by HIV and AIDS, which the UK is hosting in early February, will explore the current obstacles to treatment of children with HIV and AIDS, as well as other services and needs. In addition, the Global Steering Committee on Scaling up Towards Universal Access, which in turn is due to report to the UN General Assembly High Level meeting in June 2006, is considering the obstacles to scaling up access to treatment for children, including the lack of appropriate and effective diagnostic tools and treatments.

Following publication of the DFID-funded Medical Research Council research findings, the WHO, UNAIDS and UNICEF issued a joint statement in November 2004 on the use of cotrimoxazole as a prophylaxis in HIV exposed and HIV affected children.

The joint statement advocates that prophylactic dosing with Cotrimoxazole for HIV infected children with any sign or symptoms suggestive of HIV is a key intervention that should be offered as part of a basic package of care to reduce morbidity and mortality.

The document further states that Cotrimoxazole prophylaxis is also a crucial potentially life saving intervention that should be given to all HIV exposed children born to HIV- infected mothers, in settings where HIV infection status cannot be reliably confirmed in the first 18 months of life.

Following the joint statement, Cotrimoxazole is now universally accepted as a standard treatment package for all children exposed to HIV and on treatment and it is advocated for all children with HIV, regardless of whether they are receiving treatment.

As a follow on to the Cotrimoxazole study DFID is providing funding support for a further trial through the Medical Research Council to examine the best use of anti-retrovirals for children.

[1] Progress on Global Access to HIV Antiretroviral Therapy—an update on "3 by 5" June 2005

Terminator Seeds

John Hemming: To ask the Secretary of State for International Development what his policy is on proposals for changes to the United Nations convention on biological diversity to legalise an international market in terminator seeds. [41100]

Mr. Morley: I have been asked to reply.

Terminator seeds are plants bred using genetic use restriction technologies known as GURTs. The parties to the United Nations convention on biological diversity decided, in 2000, that there should be a

precautionary approach to the use of GURTs while research into the possible impacts of these technologies was carried out. Parties at the meeting in March, this year, will consider a recommendation by the convention's subsidiary body for scientific technical and technological advice to reaffirm the previous decision. The subsidiary body's recommendation also encourages parties to continue to undertake further research on the impacts of GURTs and to share information from these studies and addresses capacity building for decision making in developing countries. Parties at the meeting will also consider a report on related matters from one of the convention's inter-sessional working groups before deciding what further decision is appropriate.

Our position at the meeting will take full account of these reports, as well as the EU's own regulatory regime which requires that no GM seed may be marketed in the EU unless it has been specifically approved by the member states. Decisions on applications to market GMOs are made on a case-by-case basis taking full account of a scientific assessment of the particular GMO and the risks associated with its use against the criteria in the EU legislation. An application for a GMO incorporating GURTs would be dealt with in the same way as any other GMO. Approval would only be granted if the evidence showed that a deliberate release of the GMO would not pose an unacceptable risk to human health or the environment.

World Trade Organisation

Peter Law: To ask the Secretary of State for International Development if he will *(a)* place in the Library and *(b)* post on his Department's website documents prepared by his Department for the trade negotiations meeting in Hong Kong; which departmental officials accompanied him to the meeting; and what carbon offset measures were established to cover the Department's delegation. [41570]

Mr. Thomas: My right hon. Friend, the Secretary of State for International Development, attended part of the conference; he was accompanied by his principal private secretary. DFID officials who attended all or part of the conference with my right hon. Friend, the Secretary of State, as part of the UK delegation, were: the Director of Europe, Trade and International Financial Institutions Departments, the Head of the International Trade Department and other departmental officials.

No carbon offset measures specific to this conference were established, but DFID is committed to reducing carbon emissions from official air travel and, together with the Department for Environment, Food and Rural Affairs, has developed a pilot programme to help neutralise greenhouse gases. Under this pilot Programme, DFID staff can exchange air miles earned on official travel for "earth miles" at an agreed conversion value. Our aim is for partner airlines to return some of the revenue from flights sold to DFID to pay for a portfolio of 'carbon offset' projects. Carbon offsets, for example, clean energy technology or sustainable land use would neutralise carbon dioxide emissions and contribute to sustainable development in developing countries. We have set up agreements on this with three major airlines. In addition to this pilot programme, the Prime Minister has announced that offsetting would apply to all central Government Departments from April 2006.

I have arranged for the document entitled 'trade and development package for G90' which was prepared by DFID for the World Trade Organisation (WTO) ministerial in Hong Kong to be deposited in the Libraries of the House. It sets out our view of a package of measures to assist the least developed and other poor and vulnerable WTO member countries—a 'development package'. The UK has been working to build international support for these measures, on which some progress was made in Hong Kong. Other documents produced in the run up to the ministerial will not be made public, since to do so may prejudice the Government's ability to negotiate in the UK's interests and would be likely to prejudice our relations with other states.

Additionally, for further information, I have also arranged for the document entitled 'trade matters' to be deposited in the Libraries of the House.

TRADE AND INDUSTRY

Electricity Consumption

Peter Law: To ask the Secretary of State for Trade and Industry what estimate has been made by his Department of the amount of electricity used by *(a)* television sets, *(b)* video recorders, *(c)* DVD player recorders, *(d)* microwave ovens, *(e)* modems and *(f)* answerphones in stand-by mode. [41532]

Mr. Morley: I have been asked to reply.

While we do not collect detailed information available about all appliances that have a stand-by function the Government's Market Transformation Programme (MTP) does have information relating to the energy consumed in stand-by for those appliances that account for the large majority of energy consumed in UK households. This information is set out in MTP Briefing Note BNXS36 (available via www.mtprog.com).

Estimates of the electricity used in stand-by mode in 2004 for those appliances listed in the question is set out as follows:

	GWh
(a) Television sets	1,113
(b) Video recorders	2,282
(c) DVD Player recorders	[1]238
(d) Microwave ovens	415
(e) Modems	[2]19 to 456
(f) Answerphones	[3]c140

[1] Information only available for all DVD's including players and recorders.

[2] The actual figure will depend on determining more exact usage patterns. At present MTP has only limited information on usage.

[3] This figure is a best estimate based on limited information.

Exports (Poland)

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what the value of UK exports to Poland was in *(a)* 2003 and *(b)* 2004. [41375]

Ian Pearson: In 2003, the UK's exports of goods and services to Poland amounted to £1,861 million. In 2004 this increased to £1,889 million.

Food Retail Sector

Mr. Drew: To ask the Secretary of State for Trade and Industry what assessment he has made of current trends in food retailing in the UK; and if he will make a statement. [41428]

Mr. Bradshaw: I have been asked to reply.

The Department's economists keep abreast of the considerable body of research that is publicly available on food retailing trends in the UK. The Department itself also commissions and publishes relevant food and drink research from time to time, such as AEA Technology's report on 'food miles' published in July 2005 and work currently under way regarding productivity levels.

Imports (Burma)

John Bercow: To ask the Secretary of State for Trade and Industry what the value was of imports from Burma into the United Kingdom in 2005, broken down by type of product. [41592]

Ian Pearson: Information on the UK's imports of goods from Burma are not yet available for the whole of 2005. The latest data available is for the period January to October 2005. This is provided in the following table:

UK imports of goods from Burma January to October 2005: At 2 digit Standard International Trade Classification (SITC) level

SITC	Description	£000
84	Articles of apparel and clothing accessories	17,209
03	Fish, crustaceans, molluscs, etc. (not marine mammals)	4,514
82	Furniture, bedding, mattresses, cushions and similar stuffed furnishing	3,711
63	Cork and wood manufactures (excluding furniture)	1,073
69	Manufactures of metal nes	820
85	Footwear	804
24	Cork and wood	783
05	Vegetables and fruit	531
89	Miscellaneous manufactured articles nes	313
71	Power generating machinery and equipment	203
07	Coffee, tea, cocoa, spices and manufactures thereof	181
76	Telecoms and sound recording and reproducing apparatus	180
9-	Low value and other goods not classified elsewhere	169
77	Electrical machinery, appliances, nes and parts thereof	121
66	Non-metallic mineral manufactures	74
83	Travel goods, handbags and similar containers	42
81	Prefabricated buildings; sanitary, plumbing, heating, lighting	30
62	Rubber manufactures nes	26
75	Office machines and ADP equipment	21
88	Photographic apparatus, supplies & optical goods, watches and clocks	21
65	Textile yarn, fabrics, made-up articles, nes	17
64	Paper, paperboard, and articles of paper pulp, etc.	5
12	Tobacco and tobacco manufactures	3
87	Professional, scientific and control instruments (and apparatus nes)	3
67	Iron and steel	2
74	General industrial machinery and equipment, nes	1
79	Other transport equipment	1
	Total UK imports of goods from Burma	30,857

nes = Not elsewhere specified.

Source:

HM Revenue and Customs Overseas Trade Statistics (OTS 1).

Namibia

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what steps he is taking to promote trade with Namibia; and what the value of UK exports to Namibia was in *(a)* 2004 and *(b)* 2003. [41374]

Ian Pearson: UK Trade and Investment is the lead UK Government organisation that supports UK companies trading internationally and overseas companies seeking to locate in the UK. UK companies can access the UKTI website for information and contact the Southern Africa Desk for general advice on exporting to Namibia. There is no UKTI commercial representation in Namibia itself. However, our high commissioner in Windhoek can provide lobbying support for UK companies pursuing major contacts in Namibia. UK exports to Namibia totalled £10.1 million in 2003 and increased to £17.4 million in 2004.

Nuclear Industry

Colin Challen: To ask the Secretary of State for Trade and Industry what representations he has received from the nuclear power industry on pre-licensing agreements. [42127]

Malcolm Wicks *[holding answer 16 January 2006]:* In the course of the Department's normal work, I regularly meet with companies with interests in the nuclear power industry, where we discuss a wide-range of issues relating to energy policy. I have not had any specific representations on pre-licensing arrangements from the nuclear power industry.

QDF Castings Ltd.

Mr. Todd: To ask the Secretary of State for Trade and Industry what representations his Department has received about the *(a)* acquisition, *(b)* administration, *(c)* closure and *(d)* liquidation of QDF Castings Limited of Derby. [42285]

Mr. Sutcliffe: My right hon. Friend the Secretary of State has not received any representations about the acquisition of this company's assets.

The company went into administration on 1 August 2005 and I have dealt with correspondence concerning the subsequent effect on the employees of this company. The administrators have a duty to provide a report to creditors within eight weeks of the company going into administration and further reports covering periods of six months, from the date of the administration, are also provided to creditors; the Secretary of State does not receive such reports. The administrators are required to report to the Secretary of State on the conduct of the directors but the report is confidential and is not yet due.

The legislation provides that the administration should be concluded within a year unless either the court or the creditors consent to an extension of that time limit. Upon conclusion of the administration a company may not necessarily go into liquidation. If there are no assets left to distribute to creditors it may be dissolved.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Dr. Stoate: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were removed and destroyed in each local authority area in Kent in each of the last five years. [42199]

Mr. Bradshaw: Estimates for abandoned vehicles removed and destroyed in England have been compiled in the Defra municipal waste management survey since 2001. The figures for the last five years for local authorities in Kent are shown in the table. The figures from 2004–05 are collated through waste dataflow survey. At present we do not have a full return for 2004–05 but have received the figures for Kent, which are included in the table with the exception of Medway for which 2004–05 data is not yet available.

Local authority	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Ashford	612	686	774	1,071	214
Canterbury	809	974	1,052	625	305
Dartford	483	706	598	200	121
Dover	469	683	524	358	171
Gravesham	884	942	1,035	790	390
Maidstone	1,015	1,386	1,647	648	184
Medway	1,157	2,512	2,618	1,999	—
Sevenoaks	498	532	1,057	338	163
Shepway	733	859	815	643	179
Swale	738	976	882	524	260
Thanet	950	1,271	2,327	1,776	452
Tonbridge and Malling	557	632	607	597	133
Tunbridge Wells	688	695	734	450	168

Air Quality

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what studies her Department has *(a)* conducted and *(b)* funded into air quality in the UK since 2001. [42563]

Mr. Bradshaw: The Department funds an extensive programme of research into the causes, effects and control of air pollution and air quality. Since 2001, the Department has operated between 50 (in 2000–01) and 65 (in 2003–04 and 2004–05) individual research and non-research contracts. These are spread across five research programmes—strategic policy analysis; eutrophication and acidification; photochemical pollution; toxic air pollutants; and ambient air—with a total value of around £10 million per year. Details of the individual contracts, including total value, lead contractor and final reports (where applicable), can be accessed via the UK National Air Quality Information Archive: http://www.airquality.co.uk/archive/contracts/index.php; the majority of contracts span between three and five years.

In 2005, Defra developed a draft Evidence and Innovation strategy, in order to ensure that research programme continued to support and inform departmental priorities. The Department has undertaken a consultation process on its draft strategy, which closed on 12 January. The consultation document can be accessed via the internet (http://defraweb/science/how/strategy.htm). The strategy splits also the air pollution research programme into five categories:

- quantifying the exposure of human populations and/or ecosystems to pollutants through measurement and modelling
- assessing the relative contributions to these exposures from source sectors both in the UK and elsewhere
- assessing the impact of air pollution
- assessing policy options and their delivery
- effective strategies and communication to positively impact on behaviour in order to improve air quality.

The following table lists all of the contracts currently in operation, broken down by Evidence and Innovation category and research need. The total budget for these contracts for 2005–06 is £9.7 million.

Current AEQ projects: Arranged by E and I category and research need

E and I category	*Research need/Project title*	*Current projects*
Quantifying exposure	1. Monitoring—Automatic Urban and Rural Networks	CMCU of the automatic urban and rural networks
		QA/QC services for the Automatic Urban and Rural Monitoring Networks
		To provide standard gases to sites in the UK national automatic air quality monitoring networks
		CMCU of the London automatic air quality monitoring network
	2. Monitoring—hydrocarbon networks	Non-automatic Hydrocarbon network (2004–07)
		Automatic Hydrocarbon network (2004–07)
	3. Monitoring—toxic air pollutants	TOMPs Network
		PAH monitoring in the UK
		Heavy metals monitoring network

Current AEQ projects: Arranged by E and I category and research need

E and I category	*Research need/Project title*	*Current projects*
	4. Monitoring—Smoke, SO_2, NO_2 non-automatic network	NO_2 Smoke and SO_2 Non-Automatic Monitoring
	5. Monitoring—Particle concentrations and numbers	Monitoring airborne particulate concentrations and numbers in the UK—Phase II
	6. Monitoring—Deposition networks	Management and operation of the UK acid deposition monitoring network Ammonia monitoring in the UK Management and Operation of EMEP Supersite (am)
Source attribution	7. Emission Inventories	National Atmospheric Emission Inventory and Greenhouse Gas Inventory EA Fuel Analysis-SCLF
	8. Modelling of atmospheric processes and pollutant concentrations	Global Modelling of Transboundary Air Pollution Acid deposition processes in the UK UK Application of Eulerian Models at Fine Spatial Resolution Modelling concentrations and deposition of long range air pollutants UK Pollution Climate Mapping—Phase II The UK Application of the EMEP Model Modelling of tropospheric ozone Dispersion modelling of air pollutants in urban areas in the UK—Phase II
	9. Research on the characterisation of particles	Non Exhaust Particulate Matter Emissions from Road Traffic Characterization of Particulate matter in the UK
	10. Research on source attribution of particles	How to estimate the benefits to health that might follow reductions in roadside concentrations of pollutants Links between urban ambient particulate matter and health—particle metrics
Assessing impacts	11. Monitoring—Acid Waters Monitoring Network	UK Acid Waters Monitoring Network
	12. Environmental effects of acidification, eutrophication and ozone	Critical Loads and Dynamic Modelling for Acidity and Nitrogen Terrestrial umbrella—eutrophication and acidification of terrestrial ecosystems in the UK—new contract

Avian Influenza

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to improve surveillance to try to prevent avian influenza in the United Kingdom. [42251]

Mr. Bradshaw: We have introduced new surveillance arrangements on certain species of migratory water birds with our European partners, and we are working closely with a range of industry groups. Poultry keepers in the UK have also been advised on improved biosecurity and surveillance measures.

Biodiesel

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the proportion of crops grown for biodiesel production which were used in the production of biodiesel in the last period for which figures are available; and if she will make a statement; [40543]

(2) how much land was used to produce crops for biodiesel production in the last period for which figures are available. [40544]

Mr. Morley: In 2005, 39,000 hectares of oilseed rape were grown on non set-aside land in England under the Energy Aid Scheme for use in the production of biodiesel. A further 26,000 hectares were grown on non set-aside land for industrial use but further details of the end-use are not available. 67,000 hectares of oilseed rape were grown on set-aside land for industrial use. Further details of the end-use are not available, but most is likely to be for biodiesel production.

Chemicals (Safety Investigations)

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Environment Agency report 'Better Environment, Healthier People', (1) which categories of chemicals she will prioritise for health and safety investigation after flame retardants and pharmaceuticals; [40879]

(2) what plans she has to accelerate further research to establish the health and safety implications of the 30,000 untested industrial chemicals in commercial use. [41172]

Mr. Morley: The Government have set up a UK Co-ordinated Chemical Risk Management Programme, led by DEFRA and the Environment Agency. The Programme has been put in place to take forward the hazard and risk assessment, and risk management, of chemicals in the period leading up to the first assessments under REACH (Registration, Evaluation and Authorisation of Chemicals), which is the main vehicle for assessing the large number of chemicals in use about which we currently have insufficient data.

The following criteria will be used to help select chemicals for inclusion in the programme:

their potential persistence, bioaccumulation and toxicity;

chemicals being considered as substitutes for a restricted substance;

chemicals that have been nominated by industry and which meet the criteria for inclusion in the International Council of Chemical Associations (ICCA) programme;

chemicals manufactured or widely used in the UK.

The UK Chemicals Stakeholder Forum also continues to investigate groups of chemicals based on their potential persistence, bioaccumulation and toxicity and to make recommendations to the Government based on this work. The categories of chemicals currently being addressed by the UK Chemicals Stakeholder Forum include phenols and cresols, plastic additives and aromatic amines.

Energy Efficiency (Swindon)

Anne Snelgrove: To ask the Secretary of State for Environment, Food and Rural Affairs what funding is available to promote energy efficiency among households in Swindon. [42171]

Mr. Morley: Support for energy efficiency among households is available through a number of routes. Details of grants and offers for energy efficiency measures in a particular area are available, by postcode, on the website of the Energy Saving Trust, which is funded by my Department to promote and support energy efficiency in the household sector. This includes grants under the Government's Warm Front programme—to increase the energy efficiency of vulnerable households, contributing heavily to the eradication of fuel poverty in the UK. The Trust also runs a network of Energy Efficiency Advice Centres (EEACs) which provide free, impartial and locally relevant advice to householders. The Swindon area is covered by the Dorset and Wiltshire EEAC.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committee for the implementation of legislation on ambient air quality assessment and management, *(b)* Committee for the adaptation to technical and scientific progress of the air quality limit values and guide values for sulphur dioxide and suspended particulates and *(c)* Committee for the adaptation to technical progress of the directive on air quality standards for nitrogen dioxide have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [38787]

Mr. Bradshaw: There were no meetings of the three air quality Committees during the UK presidency.

European Council

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what information her Department has obtained from the European Commission on the action plan on energy efficiency to which reference was made at paragraph 17 of the conclusions of the European Council meeting on 17 December 2005. [41541]

Mr. Morley: The European Commission published its Green Paper on Energy Efficiency, "Doing More With Less" in June last year. Consultation on the proposals in the Green Paper for improving energy efficiency within the EU closes on 31 March 2006. Following the close of consultation, the Commission have announced their intention to produce in 2006 an Energy Efficiency Action Plan which will set out those concrete actions that the Commission intend to take forward from the Green Paper, accompanied by the necessary cost-benefit analyses.

Microgeneration

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what work her Department undertakes on the promotion of microgeneration, with particular reference to the promotion of crops for microgeneration; and how many civil servants in her Department are dedicated full-time to such work. [42017]

Mr. Morley *[holding answer 16 January 2006]:* The Department of Trade and Industry leads for the Government on microgeneration. DEFRA works closely with them in the identification and development of cost effective measures to help new and existing microgeneration technologies make a significant contribution to our energy policy goals. DEFRA has a particular interest in micro-combined heat and power (CHP) and is supporting the Carbon Trust in its assessment of the carbon saving potential of this technology.

DEFRA is keen to promote the use of biomass for heat and power generation. Grants are available to establish energy crops and to set up producer groups and supply chains for biomass. Farmers can receive the Single Payment for energy crops grown on set-aside or where the €45/ha energy aid payment is claimed for crops on non set-aside land. Research to improve disease resistance and crop yields is being undertaken. A cross-departmental team is looking carefully at the recommendations from the Biomass Task Force on ways to overcome the barriers to developing biomass energy. The Government will publish a full response by April.

A number of officials work on the promotion of CHP and biomass energy, which includes issues relevant to microgeneration.

Milk Sales

Mr. Hollobone: To ask the Secretary of State Environment, Food and Rural Affairs how much milk was sold through retail outlets in each year since 1990; and what proportion of this was imported. [38973]

Mr. Bradshaw: The following table shows the relevant figures:

Estimated UK household purchases and imports of drinking milk (million litres)

	UK household purchases[1]	*Imports*[2]	*Imports as a percentage of purchases*
1990	5,854	20	0.3
1991	5,697	36	0.6
1992	5,952	65	1.1

Estimated UK household purchases and imports of drinking milk (million litres)

	UK household purchases[1]	*Imports*[2]	*Imports as a percentage of purchases*
1993	5,876	52	0.9
1994	5,925	66	1.1
1995	5,867	86	1.5
1996	5,680	66	1.2
1997	5,714	62	1.1
1998	5,593	55	1.0
1999	5,482	37	0.7
2000	5,630	35	0.6
2001[3]	5,193	30	0.6
2002[3]	5,059	26	0.5
2003[3]	5,157	22	0.4
2004[3]	5,034	33	0.6

[1] Estimated by Defra using the Expenditure and Food Survey and ONS figures for the resident UK population.
[2] Source HM Revenue and Customs.
[3] From 2001 onwards estimated purchases are for the financial years 2001–02, 2002–03 etc.

Moles

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department issues on allowable products for exterminating moles following the removal of the authorisation for the use of strychnine. [40628]

Mr. Morley: In August 2005 the Pesticides Safety Directorate (PSD), an Executive Agency of DEFRA, wrote to relevant stakeholders explaining the implications of the removal of the authorisation for the use of strychnine and advising on alternative methods of control. This information is available on the PSD website (www.pesticides.gov.uk/approvals.asp?id = 1475) and includes details of two aluminium phosphide fumigant products currently approved for use (Luxan Talunex and Phostoxin).

Other methods of control are available including traps, repellents, habitat modification and fencing. In 2004, recognising the difficulties that removal of the strychnine authorisation could cause we commissioned the Central Science Laboratory to undertake a review of the range of controls. A copy of the report is available on the DEFRA website (http://www.defra.gov.uk/wildlife-countryside/vertebrates/reports/mole-review.pdf).

DEFRA's Rural Development Service has also published a Technical Advice Note (No.3) on mole control, including use of the two fumigant products. This is available on the DEFRA website at http://www.defra.gov.uk/rds/publications/technical/TAN_03.pdf

Operation of Legislation

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the operation of the Slaughter of Poultry Act 1967; [42304]

(2) if she will make a statement on the operation of the Slaughterhouses Act 1974. [42311]

Mr. Bradshaw: The Government are satisfied with the operation of the Slaughter of Poultry Act 1967 and the Slaughterhouse Act 1974. Sections of these Acts were repealed by the Welfare of Animals (Slaughter or Killing) Regulations 1995.

Packaging Waste

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to encourage manufacturers and retailers to reduce packaging waste, with particular reference to supermarkets. [41988]

Mr. Bradshaw: Last year the Government launched the Courtauld Commitment, a voluntary agreement between 13 major retailers and WRAP to reduce packaging waste. There are three broad objectives to meet, which are:

i. to design out packaging waste growth by 2008;

ii. to deliver absolute reductions in packaging waste by March 2010; and

iii. to identify ways to tackle the problem of food waste.

The are also two sets of Regulations which cover packaging in the UK both of which encourage producers (including retailers) to minimise packaging. The Producer Responsibility Obligations (Packaging Waste) Regulations 2005 are intended to increase the recovery and recycling of packaging waste. The amount of packaging waste producers have to recover and recycle is determined, in part, by the amount of packaging they handle. Therefore businesses can save money if they reduce the amount of packaging they use around their products. The Packaging (Essential Requirements) Regulations 2003 (as amended) place a number of requirements on all packaging placed on the market in the UK, including a requirement that packaging should be manufactured so that the packaging volume and weight are limited to the minimum adequate amount to maintain the necessary level of safety, hygiene and acceptance for the packed product and for the consumer.

Although legislation is one way of reducing packaging consumers also have a part to play. For example, if consumers made a point of choosing goods that are not heavily packaged, or bought 'loose' food rather than pre-packaged, or used their own shopping bags or boxes, manufacturers would be more inclined to reduce the quantity of packaging on their products.

Pesticides

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place to monitor the impact of pesticides on biodiversity. [40511]

Mr. Morley: The pesticides forum, and the industry-led voluntary initiative for pesticides, have produced and published biodiversity indicators. These include monitoring populations of indicator bird species such as the grey partridge, corn bunting and yellowhammer and are in line with the Government's overall biodiversity action plan process.

In addition the voluntary initiative's indicator farms project is looking, on an experimental basis, at possible impacts on a wide range of species on individual farms within the project.

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of reducing the volume of pesticide on the impacts of pesticides on the environment. [40512]

Mr. Morley: It is Government policy to focus on reducing the environmental impacts of pesticides rather than the total amount of pesticide used. This is because impact depends on a variety of factors of which the volume used is only one. Different pesticides can be active at very different rates and replacing a pesticide used at high volume with a more active one used at lower volume would reduce the volume used but may have no environmental benefit or could even be counter-productive.

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms she will use to assess the effectiveness of the national pesticides strategy in reducing *(a)* pesticide use and *(b)* the environmental impact of pesticides. [40513]

Mr. Morley: The action plans to deliver the strategy for the sustainable use of plant protection products will contain indicators against which to assess the impact of specific actions. These indicators will include a measure of the quantities of pesticide used which will be monitored through the department's pesticide usage survey. Indicators of environmental impact will include measures of water quality and impacts on biodiversity.

The development of environmental indicators is an active area of research and we envisage that new indicators will be introduced as the strategy is taken forward.

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the amenity sector's use of pesticides on biodiversity; and what steps she plans to take to minimise the use of diuron. [40514]

Mr. Morley: The Environment Agency's monitoring data shows that the impact of amenity use of herbicides is mainly on surface water. The herbicide diuron, which is quite widely used in the amenity sector, is the principal pesticide found.

Diuron is currently under review as part of a wider EC programme under of Directive 91/414 /EEC. We expect a decision on its future authorisation within the next few months.

The new statutory code of practice for the safe use of pesticides, which will be published this month, sets out in detail best environmental practice to minimise the entry of diuron into surface water.

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs whether the regulatory system for the approvals of pesticides will include an assessment of the indirect effects of pesticides on biodiversity. [40515]

Mr. Morley: The regulatory system under the EC Authorisations Directive (91/414/EEC) on the marketing of plant protection products requires an assessment of the direct effects of pesticides on various non-target plants and animals. It does not require an assessment of the indirect effects of pesticides on biodiversity.

Directive 91/414/EEC is due to be replaced by a new EC regulation and we expect a proposal from the European Commission later this year. We will be considering whether the regulatory system should be extended to include an assessment of indirect effects and, if so, how that might be done, in the context of that proposal.

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects research into the development of a banded pesticides tax will be completed. [40516]

Mr. Morley: A study of key design issues for potential economic instruments carried out by Risk and Policy Analysts Limited (RPA) for the Department was published in September 2004. The review by RPA built on the work by ECOTEC Research and Consulting Limited in 1999 (reference ISBN 1 851121 60 9, price £50.00). The RPA report is available on the Defra website (www.defra.gov.uk/environment/chemicals/pesticides).

Michael Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for developing a model to evaluate the effectiveness of the voluntary initiative on the environmental impact of pesticide use. [40517]

Mr. Morley: A project has been carried out by Enviresearch Ltd and the University of Newcastle upon Tyne to develop a framework to inform subsequent assessment of the performance of the Voluntary Initiative (VI) in delivering environmental benefits. This project is now being peer reviewed prior to publication, and will be available for use as a basis for the assessment of the current VI programme which runs to the end of March 2006.

We will appoint consultants to carry out an assessment of the initiative in the next few months with a view to the assessment being completed by the end of 2006.

Pigeons (London)

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of London's pigeon population in each year since 2000. [42447]

Mr. Bradshaw: We do not hold information on London's pigeon population.

Racehorses

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many racehorses were reported as *(a)* being poorly treated, *(b)* lost and *(c)* stolen in each of the last seven years. [43711]

Mr. Bradshaw: We do not hold information on the number racehorses being poorly treated, lost or stolen.

Recovered Fuel Oil

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the environmental consequences of a switch from recovered fuel oil to virgin fuels in those industries that use recovered fuel oil; [39340]

(2) what assessment she has made of the alternatives to recovered fuel oil that will be used in *(a)* the manufacture of coated road stone and *(b)* other industrial processes after the Waste Incineration Directive is implemented in domestic law; [39389]

(3) what recent studies she has *(a)* commissioned and *(b)* evaluated to compare the carbon dioxide and other emissions from burning (i) recovered fuel oil and (ii) gas oil. [39390]

Mr. Bradshaw: The Department has not made these assessments and studies. That is because industries switching from the use of recovered fuel oil to virgin fuels will remain subject to environmental regulation under the Pollution Prevention and Control (England and Wales) Regulations 2000. It is therefore for the regulator to set emission limits and other permit conditions according to the general principles of those Regulations that installations should be operated in such a way that *(a)* all the appropriate preventative measures are taken against pollution, in particular through application of the best available techniques; and *(b)* no significant pollution is caused. Those principles apply irrespective of the type of fuel and provide a high level of protection for the environment. However, where oil is waste as defined under the EU Waste Framework Directive, the regulator is obliged to set emission limits at least as stringent as those set out in the Waste Incineration Directive.

Recycling

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are per 1,000 population in *(a)* the constituency of Ruislip-Northwood, *(b)* the London borough of Hillingdon, *(c)* Greater London and *(d)* England. [41826]

Mr. Bradshaw: Requested figures, based on the 2003–04 Defra Municipal Waste Management Survey and 2003 mid-year population estimates are shown as follows:

	recycling points per 1,000 population
London borough of Hillingdon	0.29
Greater London	0.55
England	0.41

Recycling points are considered as both civic amenity and recycling sites within the area.

Data at constituency level are not available.

Renewable Transport Fuels Obligation

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department is the lead department drafting the Renewable Transport Fuels Obligation. [39915]

Mr. Morley: The Department for Transport leads on the Renewable Transport Fuels Obligation. They consult closely with the other Departments, including DEFRA, which have an interest in this issue.

River Thames (Raw Sewage)

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs how many cubic feet of raw sewage has been discharged into the River Thames in London in each of the last three years. [41613]

Mr. Morley: The current estimates, from the supplementary report by the Thames Tideway Strategic Study, of average annual volumes of overflow discharges (sewage mixed with collected rainwater) from the London system is 32 million cubic metres from the sewer overflows and 20 million cubic metres from treatment works. A combined average annual total of about 52 million cubic metres.

Work is now in hand to increase the capacity of the treatment works at Beckton, Crossness and Mogden to reduce the frequency and volumes of overflows connected with these works. And I, along with Ofwat, am considering what further actions may be required in the light of the two latest reports on the sewage overflow discharges, received in December 2005, from the Thames Tideway Strategic Study and from the independent review commissioned by Ofwat.

Scrapie (North Ronaldsay)

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many instances of scrapie have occurred in North Ronaldsay sheep in each of the last five years. [42063]

Mr. Bradshaw: Three instances of scrapie have occurred in North Ronaldsay sheep in the last five years. Two cases occurred in 2004 (although one of these was a North Ronaldsay crossbred sheep). One case occurred in 2005.

Sustainable Development

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the report, Leading by Example? Not Exactly, published by the Sustainable Development Commission on 16 December 2005. [41536]

Mr. Morley: The Sustainable Development in Government (SDIG) Report 2005 published by the Sustainable Development Commission demonstrated that there had been some improvement in departmental performance against the operational targets in the Framework for Sustainable Development on the Government Estate. However, it also clearly signalled that there was much more to be done to improve the way that the Government manages sustainably its land and buildings.

The Government accepts that more needs to be done to improve its operational performance. In order to address this issue, the UK Sustainable Development Strategy (Securing the future, March 2005) included a commitment to review the framework and deliver a significant improvement in its operational performance.

The SDC's report was the first SDIG report to be published wholly independently of Government.

The UK SD strategy commits all Government Departments and their Executive agencies to produce focused sustainable development action plans (which cover both policy and operational issues) based on the strategy by December 2005. Departments are then expected to report on their actions by December 2006, for example in their departmental annual reports and regularly thereafter. The Sustainable Development Commission will be commenting on these plans during 2006.

Turkey

Mr. Gale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make representations to the Turkish Government requesting that the slaughter of birds in that country necessitated by the spread of avian influenza is carried out humanely. [42798]

Mr. Bradshaw: The Chief Veterinary Officer has already discussed this issue with the European Commission. In addition the State Veterinary Service Director of Operations is travelling to Turkey shortly to lead a UN Food and Agriculture Organisation mission explicitly discussing disease control and animal welfare issues. We have also been asked to provide specific expertise in animal disease emergency work to help with the control of avian influenza in Turkey. We will continue to engage practically and positively on these issues.

UK National Allocation Plan

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what action the EU is taking concerning the UK National Allocation Plan. [41925]

Mr. Morley: Following the judgment of the Court of First Instance the European Commission must consider the UK's amendment to its National Allocation Plan. It does not direct the Commission to accept our proposed increase in the total cap to 756m allowances. The UK awaits the Commission's considered decision before taking further steps.

Wildlife

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the veterinary profession on veterinarians' responsibilities for the treatment of wildlife. [42252]

Mr. Bradshaw: There have been no specific discussions on this issue with the veterinary profession, although general guidance issued by the British Veterinary Association reminds veterinary surgeons of the need to bear in mind their professional and ethical obligations.

There are, of course, a number of animal diseases where wildlife may act as a reservoir or a source of infection. The veterinary profession is closely consulted on the control of such diseases and is aware of legislative controls relating to animal welfare and the taking, treatment and release of wildlife specimens.

TREASURY

Breast Cancer

Lynne Featherstone: To ask the Chancellor of the Exchequer when he expects the figures for the number of women who *(a)* were diagnosed and *(b)* died from breast cancer in 2004 to become available; and if he will make a statement. [42947]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning when the figures for the number of women who *(a)* were diagnosed and *(b)* died from breast cancer in 2004 are expected to become available. (42947)

The most recent available information on registration of newly diagnosed cases of breast cancer are for the year 2003. Figures for 2004 are due to be published in September 2006.

Figures on the number of women who died from breast cancer in 2004 were published in December 2005 in the volume Mortality Statistics Series DH2 no.31, which is available on the National Statistics website at: http://www.statistics.gov.uk/downloads/theme_health/Dh2_31/DH2No31.pdf

Child Trust Fund

Mr. Davey: To ask the Chancellor of the Exchequer pursuant to the answer of 1 December 2005, *Official Report*, column 658W on the child trust fund, what estimate he has made of the cost of providing this information. [42280]

Dawn Primarolo: The cost of providing the information would have greatly exceeded the disproportionate cost threshold of £600.

Bob Spink: To ask the Chancellor of the Exchequer how many Child Trust fund vouchers have been issued to families in Castle Point to date. [42802]

Dawn Primarolo: I refer the hon. Member to the answer given to the my hon. Friend the Member for Paisley and Renfrewshire, North (Jim Sheridan) on 1 December 2005, *Official Report*, column 658W.

Economic Inactivity

Shona McIsaac: To ask the Chancellor of the Exchequer how many people were classed as economically inactive in each of the last 10 years in *(a)* Great Grimsby, *(b)* Cleethorpes, *(c)* Brigg and Goole and *(d)* Scunthorpe. [42673]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question concerning economic inactivity. (42673)

The Office for National Statistics compiles statistics of inactivity for local areas from the Annual Population Survey (APS) and the annual local area Labour Force Survey (LFS) following International Labour Organisation definitions. The attached table shows the numbers of inactive people of working age, resident in Great Grimsby, Cleethorpes, Brigg and Goole and Scunthorpe constituencies, for the 12 month periods ending February 1997 to February 2004 from the annual local area LFS and for the 12 months ending March 2005 from the APS. The table also shows the number of inactive people as a percentage of the total working age population resident in each constituency.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Numbers and rates of working age persons resident in Great Grimsby, Cleethorpes, Brigg and Goole, and Scunthorpe parliamentary constituencies who are economically inactive

	Great Grimsby		Cleethorpes	
12 Months ending	*Economically inactive (£000)*	*Economic inactivity rate[1] (percentage)*	*Economically inactive (£000)*	*Economic inactivity rate[1] (percentage)*
February 1997	15	27	9	18
February 1998	11	25	8	16
February 1999	14	27	14	25
February 2000	12	23	14	25
February 2001	12	23	10	18
February 2002	13	24	10	19
February 2003	12	23	12	21
February 2004	11	20	11	22
March 2005	12	23	11	20

	Brigg and Goole		Scunthorpe	
12 Months ending	*Economically inactive (£000)*	*Economic inactivity rate[1] (percentage)*	*Economically inactive (£000)*	*Economic inactivity rate[1] (percentage)*
February 1997	7	14	8	14
February 1998	12	21	10	20
February 1999	10	21	10	21

February 2001	13	24	11	26
February 2002	10	21	12	26
February 2003	10	20	12	27
February 2004	10	19	13	26
March 2005	9	19	12	24

[1] Rate as a percentage of the resident population of working age (men aged 16 to 64, women aged 16 to 59).

Source:
Annual local are labour force survey; annual population survey

Mr. Ruffley: To ask the Chancellor of the Exchequer how many working-age people not in full-time education were economically inactive in each year since 1997. [42762]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about economic inactivity.

The attached table gives the estimated numbers of economically inactive people of working age, who were not in full-time education, for the three month periods ending in August from 1991 to 2005.

Estimates are taken from the Office for National Statistics's Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Inactive people of working age[1] who are not in full-time education—United Kingdom

Three month periods ending August	*Thousands*
1997	6,376
1998	6,360
1999	6,254
2000	6,273
2001	6,369
2002	6,361
2003	6,346
2004	6,412
2005	6,311

[1] Includes men aged 16–64 and women aged 16–59.

ONS, labour force survey

Employment (Castle Point)

Bob Spink: To ask the Chancellor of the Exchequer what proportion of those in employment in Castle Point were employed in *(a)* the public sector and *(b)* the private sector in each year since 1996. [42829]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Questions about private and public sector employment. (42829)

The Office for National Statistics (ONS) compiles statistics for the United Kingdom of public sector employment from a quarterly survey of public sector organizations. However, estimates at local area level are not available.

Information at local area level is available from the Annual Population Survey (APS)/annual local area Labour Force Survey (LFS) of individual people in households. However, in this source, the categorization of employment in the public or private sector depends upon the responses from the individuals interviewed. As reported by ONS in October 2005 in the publication "Public Sector Employment Trends", some individuals tend to misreport private sector employment as being in the public sector hence leading to overestimates of the share of public sector employment.

With this reservation about the data quality, the attached table shows the proportions of public and private sector employment in the Castle Point constituency shown by the annual local area LFS for the 12 month periods ending February 1997 to February 2004 and by the APS for the 12 month period to March 2005.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Persons in employment resident in the Castle Point constituency by private-public sector split[1]

	Proportions (per cent.)		
12 months ending February:	*Private sector*	*Public sector*	*Total in employment (000)*
1997	n/a	n/a	37
1998	n/a	n/a	40
1999	84	16	41
2000	83	17	41
2001	83	17	45
2002	84	16	43
2003	86	14	42
2004	83	17	41
March 2005	79	21	44

[1] Public/private sector split based on responses from individuals responding to the annual local area Labour Force Survey and the Annual Population survey—generally overestimate public sector employment.

Note:
Percentages are based on exact levels for each year and then rounded
n/a—not available.

Annual local area Labour Force Survey; Annual Population Survey.

Employment Rates

Danny Alexander: To ask the Chancellor of the Exchequer what the percentage employment rate was for the working age population in *(a)* the 12 months to June 1997 or closest equivalent period and *(b)* the last 12 month period for which figures are available in each parliamentary constituency, listed in descending order according to the difference between the two rates. [41026]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about employment rates by parliamentary constituency. (41026)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the annual local area Labour Force Survey and the Annual Population Survey following International Labour Organisation definitions. Table 1, attached, shows employment rates for persons of working age, resident in each parliamentary constituency in Great Britain, including the former Scottish constituencies superseded in May 2005, for the 12 months ending February 1997 and for the 12 months ending December 2004, listed in descending order of the difference between the two rates.

Estimates for the new Scottish constituencies introduced in May 2005 are not available for the 12 month period ending February 1997. Table two, attached, shows the employment rate for persons of working age, resident in these constituencies, for the 12 months ending December 2004.

These estimates, as with any from sample surveys, are subject to sampling variability. Changes in the estimates from year to year should be treated with particular caution.

Since the information is so extensive, copies of these tables have been placed in the House of Commons Library.

G7 Presidency

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what progress has been made during the UK's presidency of the G7 on *(a)* the international finance facility, *(b)* proposals for debt relief, *(c)* access to medicine for women in developing countries and *(d)* increasing development aid; and if he will make a statement. [35651]

John Healey: Substantial progress was made in 2005 under the UK presidencies of the EU and the G7/8. The international community has committed to raise an additional $50 billion of aid by 2010, to cancel 100 per cent. of the multilateral debts of the world's poorest countries, and to launch the 'International Finance Facility for Immunisation'.

G8 leaders have also agreed to achieve, as close as possible, universal access to AIDS treatment for all those who need it by 2010, and work on advance purchase commitments for vaccines for malaria, HIV/AIDS and other diseases of poverty.

Government Expenditure

Mr. Hague: To ask the Chancellor of the Exchequer (1) what provision was made in the Government's spending plans contained in the pre-Budget report, in advance of the meeting of the European Council on 15 and 16 December 2005 for *(a)* an increase in UK contributions to the EU budget owing to changes to the rebate and *(b)* an increase in UK contributions to the EU budget due to an increase in the EU budget's share of EU gross national income; and if he will make a statement; [43157]

(2) what provision *(a)* has been and *(b)* will be made to meet the increase in UK contributions arising from (i) the reduction in the EU rebate and (ii) the increase in the EU budget's share of EU gross national income; and whether such provision (A) has been and (B) will be met from (1) a rise in tax revenue and (2) a reduction in expenditure. [43165]

John Healey: I refer the right hon. Gentleman to the reply the Chancellor of the Exchequer gave to my right hon. Friend the Member for West Dunbartonshire on 20 December 2005, *Official Report*, column 2796W.

Income Levels (Castle Point)

Bob Spink: To ask the Chancellor of the Exchequer what proportion of Castle Point residents were in *(a)* the top 10 per cent. and *(b)* the bottom 10 per cent. of income earners in (i) 1991 and (ii) 2001. [42830]

Dawn Primarolo: The information requested is not available at constituency level.

Marine Bill

Julia Goldsworthy: To ask the Chancellor of the Exchequer what discussions his Department has had with the Department for Environment, Food and Rural Affairs on the Marine Bill. [43180]

John Healey: The Treasury is in regular and frequent contact with other departments about legislation falling within their spheres of responsibility.

Middle East

Kerry McCarthy: To ask the Chancellor of the Exchequer if he will make a statement on the *(a)* Government's support for the Palestinian Authority's medium-term development plan and *(b)* the outcome of the conference on private sector investment in the West Bank and Gaza held in London on 13 December 2005. [42978]

John Healey: The Quartet Special Envoy for Disengagement, Mr. James Wolfensohn, has identified several key issues for Israeli disengagement from Gaza to be judged a success. While these mostly concern improved movement and access for Palestinians, the development of a credible Palestinian medium-term development plan is one of the issues where a small amount of support could have a transformative impact. At the request of the Palestinian Authority, the Department for International Development, together with the World Bank, is providing technical assistance with the preparation of such a plan. It will be important that the plan is effectively implemented and that the international community lends its full support. A key outcome from the conference held in London to promote economic growth in the West Bank and Gaza through the private sector was the Joint Declaration from Israeli and Palestinian business leaders on the steps required for promoting Palestinian economic growth and their expectations from the Palestinian Authority, Government of Israel and the international community. The Declaration (available in PN109/05 on the HM Treasury's website) includes an action plan to overcome obstacles to private sector led investment and growth with the establishment of a Private Sector Working Group. The first meeting of the Private Sector Working Group is expected to take place this month, at which the parties will agree their forward work plan. The Government will work with the World Bank to support the Group.

Plastic Bags

Mr. Vaizey: To ask the Chancellor of the Exchequer what recent discussions he has had about introducing a tax on plastic bags. [43314]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for Wimbledon on 7 November 2005, *Official Report*, column 93W.

Population Statistics

Mrs. Spelman: To ask Mr Chancellor of the Exchequer what estimate the *(a)* Government and *(b)* Office for National Statistics has made of the proportion of the population aged 45 years or older in (i) England, (ii) the United Kingdom, (iii) outer London, (iv) inner London and (v) each Government Office Region in (A) 1997 and (B) the most recent year for which figures are available. [42844]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician I have been asked to reply to your question concerning the estimated proportion of the population aged 45 years or older in *(a)* England, *(b)* the United Kingdom, *(c)* outer London, *(d)* inner London and *(e)* each Government Office Region, in 1997 and for the most recent year for which figures are available. (42844)

The table below shows the total population, the population of those aged 45 years or older and the percentage of those aged 45 years or older for the above mentioned areas in 1997 and 2004.

Mid-year population estimates for 1997 and 2004 and percentage of the population aged 45 and over

Thousand

Area	*Persons all ages*		*Persons age 45+*		*Percentage population age 45+*	
	1997	*2004*	*1997*	*2004*	*1997*	*2004*
United Kingdom	58,314.2	59,834.3	22,701.0	24,118.3	38.9	40.3
England	48,664.8	50,093.1	18,966.0	20,105.7	39.0	40.1

Outer-London	4,342.5	4,497.5	1,540.0	1,580.9	35.5	35.1

Note:
Figures may not add exactly due to rounding.

Source:
Office for National Statistics

Mrs. Spelman: To ask the Chancellor of the Exchequer what estimate he has made of the predicted net change in *(a)* population and *(b)* number of households, in (i) Merseyside, (ii) Newcastle-upon-Tyne, (iii) Stoke on Trent, (iv) Kingston upon Hull, (v) the North East government office region and (vi) the North West government office region, over the next 20 years. [42889]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2005:

As National Statistician I have been asked to reply to your question concerning the projected change in population and household numbers over the next 20 years. (42889)

The Office for National Statistics produces official subnational population projections for England. The most recent set of population projections are 2003-based and use local trends in births, deaths and migration over the reference period 1999 to 2003 to formulate assumptions on levels of fertility, mortality and migration for future years.

The attached table shows the projected population of the areas of Merseyside, Newcastle-upon-Tyne, Stoke on Trent, Kingston upon Hull, the North East government office region and the North West government office region from the 2003-based subnational population projections.

Household projections are the responsibility of the Office of the Deputy Prime Minister. Interim 2002 based household projections for the Government Regions are published on the ODPM web site at: http://www.odpm.gov.uk/pub/104/Table405Excel30KbIdll56104.xls.

Updated projections for districts are currently in production.

Table 1: Projected population and year-on-year net change for selected areas in England 2003-based subnational population projections

Pre-Budget Statement

Mr. Laws: To ask the Chancellor of the Exchequer whether he spoke to journalists on 5 December 2005 before delivering his pre-Budget statement in the House. [36162]

John Healey: On 5 December 2005, before his pre-Budget report statement, the Chancellor visited a shared equity housing scheme in London with the Prime Minister, attended Cabinet and also attended a memorial service for Robin Cook, the former Foreign Secretary and Leader of the House of Commons. There was no briefing to journalists by the Chancellor.

Red Diesel

Mr. Lancaster: To ask the Chancellor of the Exchequer if he will be seeking to renew the derogation of the Red Diesel Rules. [42807]

John Healey: I refer the hon. Member to my reply to the hon. Member for Stroud on 20 December 2005, *Official Report*, column 2465W.

Tax Credits/Fraud

Mr. Laws: To ask the Chancellor of the Exchequer, how many fraudulent tax credit claims have been identified since April 2003; what the combined value is of fraudulent claims identified; and if he will make a statement. [35696]

Dawn Primarolo: The Home Secretary is today making a statement on the measures the Government are taking to address identity fraud.

But I want to inform the House of the detailed action HMRC is taking to identify and root out identity fraud and to work with banks to address a problem HMRC investigations have identified and about which they are in discussion with banks-that is, the use of stolen identities to set up bank accounts under false pretences.

As a result of investigations by HMRC and DWP, DWP was alerted to the false use of the names of a number of DWP staff in setting up bank accounts under false pretences and then making fraudulent claims. On 2 December 2005 DWP and HMRC announced that a criminal investigation had been launched. At the same time, HMRC suspended the internet service with immediate effect.

Over the past six weeks DWP investigators and HMRC compliance officers have undertaken detailed inquiries. While one initial estimate was that up to 13,000 staff might have been affected by the identity theft, it is now established that some 8,800 staff identities may have been stolen in 2003–04 and that of these 6,800 have been used in an attempt to defraud the tax credits system in autumn 2005. Of the 6,800 fraudulent claims, around 4,100 were fully intercepted by HMRC before any payment, so that no payment was made. Of the remaining 2,700 claims where tax credit payments were made into multiple bank accounts using the stolen identities payments were suspended immediately they were discovered, and all payments were suspended by 16 December 2005. Swift action addressed the risk of higher losses, limiting the loss from this fraud to an estimated £2.7 million.

In a statement issued alongside National Statistics published on 23 December 2005, HMRC stated that a number of criminal investigations were under way. As a result of these investigations, which are ongoing, HMRC have uncovered evidence that banks have been the victims of multiple bank accounts opened under false pretences-using the names of individuals whose identities were stolen. With HMRC informing the banks of this fraud, the banks concerned will be addressing the issues we are raising with them.

As previously announced on 23 December 2005 we are subjecting around 30,000 claims to detailed further investigation, although not all of these are likely to be fraudulent. This includes the use of staff information stolen from Network Rail and which then led to bank accounts created for Network Rail employees under false pretences. Our detailed investigations have so far resulted in at least 16,000 claims being stopped, with information being referred to the National Criminal Intelligence Service, which will form part of the Serious Organised Crime Agency (SOCA) on 1 April 2006. I will keep the House informed in a manner consistent with the ongoing criminal investigation.

New measures already announced in the pre-Budget report will result in a doubling of the number of pre-payment checks carried out on new claims. In addition, I have offered the banking sector and other financial institutions the help and expertise of HMRC in detecting such identity fraud, and ensuring that sufficient checks are in place to prevent fraudsters from opening bank accounts using stolen identities. We will continue to work with them to help tackle the problem. HMRC will also, seek to contact companies or individuals where it finds evidence that they might have been targeted by such fraudsters and work with them to assist in the investigation.

Dr. McCrea: To ask the Chancellor of the Exchequer what his estimate is of the value of tax credit overpayments *(a)* made and *(b)* written off by Her Majesty's Revenue and Customs to people in Northern Ireland in 2004–05. [21622]

Dawn Primarolo: Estimates of numbers and values of overpayments or underpayments for 2004–05 awards at 5 April 2005 will be published in spring 2006, after all the awards are finalised.

HM Revenue and Customs wrote off around £85,000 for families in Northern Ireland following its disputed overpayments procedures during 2004–05.

Unemployment (London)

Lynne Featherstone: To ask the Chancellor of the Exchequer how many people in each London borough had been unemployed for two years o; more in the last period for which figures are available; and if he will make a statement. [42946]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (42946)

The Office for National Statistics (ONS) compiles unemployment statistics for small areas from the Annual Population Survey following International Labour Organisation definitions.

Table 1 shows the numbers of people aged 16 and over who have been unemployed for two years or more, who were resident in the London Boroughs for the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (ISA). Table 2 shows the numbers of JSA claimants, resident in the London Boroughs who have been claiming for more than two years in November 2005.

Table 1: Number of people aged 16 and over resident in each London borough who have been unemployed for two years or more; 12 months ending March 2005.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer what discussions the Valuation Office Agency has had with the EU Permanent Committee on Cadastre; and if he will make a statement. [42833]

Dawn Primarolo: The Valuation Office Agency was invited to participate in the Plenary Meeting of the EU Permanent Committee on Cadastre held on 26 October 2005 at the Southampton offices of Ordnance Survey.

The main objective of the EU Permanent Committee on Cadastre is to facilitate the exchange of information, expertise, and best practices among member states.

In England and Wales, the bodies that contribute to the cadastre are Land Registry, Ordnance Survey and the Valuation Office Agency. That is why these three bodies were represented at the Plenary Meeting of the EU Permanent Committee on Cadastre.

The Valuation Office Agency was invited to make a presentation to the Plenary Meeting of the EU Permanent Committee on Cadastre to explain how its valuation work contributed to the "cadastre" in England and Wales.

Mrs. Spelman: To ask the Chancellor of the Exchequer how many cases the Parliamentary and Health Service Ombudsman has considered in relation to the Valuation Office Agency and council tax since May 1997; and if he will place in the Library a copy of the ruling in each case. [42834]

Dawn Primarolo: The Parliamentary Ombudsman, Ann Abraham, is an independent office-holder. She operates under the provisions of the Parliamentary Commissioner Act 1967 (as amended). The Parliamentary Ombudsman publishes information about the number of investigable complaints she has received in her annual report to Parliament. Her 2004–05 Annual Report, HC 348, was published on 20 July. Copies of the Parliamentary Ombudsman's annual reports are available in the Library of the House.

Mrs. Spelman: To ask the Chancellor of the Exchequer how many appeals the Valuation Office Agency has processed to date in relation to the council tax revaluation in Wales; and how many appeals are outstanding. [42835]

Dawn Primarolo: As at 31 December 2005 the Valuation Office had received 12,406 formal appeals of which 5,386 have been processed and 7,020 are still outstanding.

Mrs. Spelman: To ask the Chancellor of the Exchequer how many cases the Adjudicator's Office has considered in relation to the Valuation Office Agency and council tax since May 1997; and if he will place in the Library a copy of the ruling on each case. [42837]

Dawn Primarolo: The Adjudicator has considered 6[illegible] cases in relation to the Valuation Office Agency and council tax since 1 April 1997.

The rulings relate to an individual taxpayer's affairs and are, therefore, confidential.

Westmorland and Lonsdale

Tim Farron: To ask the Chancellor of the Exchequer how many *(a)* private sector jobs broken down by (i) agricultural, (ii) manufacturing and (iii) service sector and *(b)* public sector jobs there were in Westmorland and Lonsdale in each year since 1997. [43148]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Questions about private and public sector employment. (43148)

The Office for National Statistics (ONS) compiles statistics for the United Kingdom of public sector employment from a quarterly survey of public sector organizations. However, estimates at local area level are not available.

Information at local area level is available from the annual local area Labour Force Survey (LFS) of individual people in households. However, in this source, the categorization of employment in the public or private sector depends upon the responses from the individuals interviewed. As reported by ONS in October 2005 in the publication "Public Sector Employment Trends", some individuals tend to misreport private sector employment as being in the public sector hence leading to overestimates of the share of public sector employment.

With this reservation about the data quality, the attached table shows the number of persons in private sector employment, by the specified splits, and for the public sector, for people resident in the Westmorland and Lonsdale constituency as shown by the annual local area LFS for the 12 month periods ending February 1998 to February 2004.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Persons in employment resident in the Westmorland and Lonsdale constituency by private-public sector split[1]

Thousand

	Private sector				*Public sector*	*Total*
Twelve months ending February	*Agriculture*	*Manufacturing*	*Services*[2]	*Other industries*[3]		
1998	n/a	n/a	n/a	n/a	n/a	39
1999	1	5	24	3	7	41

Annual local area labour force survey.

Tim Farron: To ask the Chancellor of the Exchequer how many people in *(a)* the North West and *(b)* the Westmorland and Lonsdale constituency earn (i) £3.60 per hour, (ii) £3.61 to £3.80 per hour, (iii) £3.81 to £4 per hour and (iv) £4 to £4.50 per hour; and what percentage of total employees this constitutes in each case. [43149]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to ask how many people in *(a)* the North West and *(b)* the Westmorland and Lonsdale constituency earn (i) £3.60 per hour (ii) £3.61 to £3.80 per hour, (iii) £3.81 to £4.00 per hour and (iv) £4.00 to £4.50 per hour; and what percentage of total employees this constitutes in each case. (43149)

We cannot provide data for Westmorland and Lonsdale as the sample count for this area was too small to carry out the required proportion analysis.

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Hourly pay—gross (£) for all employee jobs[a]

		Proportions earning between			
2005	*Number of jobs (thousand)*	*£3.60 and under*	*£3.60-£3.80*	*£3.81-£4.00*	*£4.00-£4.50*
North West	2,578	**0.4	X	**0.3	*1.2

[a] Employees on adult rates whose pay for the survey pay-period was not affected by absence.
Source: Annual Survey of Hours and Earnings, Office for National Statistics.
* *Guide to quality:*
The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality.
The true value is likely to lie within +/- twice the CV eg for an average of 200 with a CV of 5 per cent., we would expect the population average to be within the range 180 to 220.
Key:
CV < = 5 per cent.
* CV > 5 per cent. and < = 10 per cent.
** CV > 10 per cent. and < = 20 per cent.
X unreliable—CV > 20 per cent. or unavailable
Background notes:
(a) The Annual Survey of Hours and Earnings, (ASHE), carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees.
(b) Average gross hourly earnings for All Employees whose pay for the survey period was not affected by absence.
(c) The median replaces the mean as the headline statistic. The weighted mean is the sum of the weighted values divided by the sum of the weights. The median is the value below which 50 per cent. of employees fall. It is preferred over the mean for earnings data as it is influenced less by extreme values and because of the skewed distribution of earnings data.

Tim Farron: To ask the Chancellor of the Exchequer how much council tax was paid as a proportion of gross income by households in each income quintile group in Westmorland and Lonsdale in the latest year for which data are available. [43151]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how much council tax was paid as a proportion of gross income for households in each income quintile group in Westmorland and Lonsdale in the latest year for which data is available. (43151)

Unfortunately, the information requested is not available.

WORK AND PENSIONS

Child Support Agency

Jo Swinson: To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the Child Support Agency's computer systems. [21107]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions if he will make a statement on the state of the Child Support Agency's computer systems.

The new Child Support computer system (CS2) is now more stable technically and performance has improved to the point where service levels are generally being met. A number of defects do remain but EDS has agreed to resolve these as a part of an agreed forward programme of enhancement.

Yours sincerely

Mr. Laws: To ask the Secretary of State for Work and Pensions what the annual *(a)* sickness and *(b)* absenteeism rate has been for staff at the Child Support Agency in each year since 1995–96; and if he will make a statement. [21445]

Mr. Plaskitt: The administration of the Child Support Agency is matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 18 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what the annual *(a)* sickness and *(b)* absenteeism rate has been for staff at the Child Support Agency in each year since 1995–96 and if he will make a statement.

I am unable to provide the annual sickness absence rate for the years 1995 to 1998 as the Agency does not have records for this period.

The table below shows the available sickness absence rates.

Year ending	*Annual sickness rate (average working days lost per member of staff, expressed in full-time equivalent terms)*
December 1999	12.5
December 2000	11.9
December 2001	12.3
December 2002	12.9
March 2003	13.7
March 2004	15.6
March 2005	15.9
Current year to date (April to October 2005)	11.7

In response to your second question, 'absenteeism' is a term that is not used by the Department for Work and Pensions or the Child Support Agency. In line with Departmental Human Resources policy the Agency treats all sickness absence as genuine since it is self-certificated for periods of up to 7 days and certificated by a doctor beyond that period.

The reduction in days lost to sickness this year has been achieved by a combination of measures. Line managers have been given training in new procedures, introduced across the Department, which aim to promote an understanding that our employees are valued, that the Department wants them to be at work and if they are absent to understand why and to assist if it can. Increased support has been provided through the services of the Occupational Health Provider and Employee Assistance Programme. In return the department expects its employees to attend regularly and a warning is given when attendance falls below the level which can be sustained by the business.

I hope you find this response helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many penalties the Child Support Agency has issued for *(a)* failure to provide information and *(b)* providing false information in each of the last eight years. [30064]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions how many penalties the Child Support Agency has issued for *(a)* failure to provide information and *(b)* providing false information in each of the last eight years.

Since the launch of the Agency in April 1993 it has been a criminal offence (section 15(9) of the Child Support Act 1991) to intentionally delay or obstruct an Inspector exercising his powers or to refuse or neglect to answer any question or furnish information or documents when required to do so. I can confirm there have been no prosecutions under this section of the Child Support Act.

Three new criminal sanctions were introduced from 31 January 2001 (under section 13 of the Child Support, Pensions and Social Security Act 2000).

Failing to comply with a request for information without reasonable excuse (section 14A(3) of the Child Support Act 1991);

Pursuant to a request for information, making a statement or representation knowing it to be false (section 14A(2)*(a)*); and

Providing or knowingly causing or knowingly allowing to be provided a document or other information which is known to be false in a material particular (section 14A(2)*(b)*).

Figures for the section 14 information offences are provided from 2001 onwards as this piece of legislation was not introduced until 31 January 2001.

The table below provides the figures requested;

	Section 14A(2) offences (making false statements)		*Section 14A(3) offences (failing to provide information)*		*Total section 14A offences*	
	Prosecuted	*Convicted*	*Prosecuted*	*Convicted*	*Prosecuted*	*Convicted*
January to December 2001	0	0	0	0	0	0
January to December 2002	10	10	6	6	16	16
January to December 2003	6	6	227	225	233	231
January to December 2004	1	1	195	194	196	195
January to October 2005	4	4	309	302	313	306
Total to 31 October 20	21	21	737	727	758	748

You will note that the Agency has achieved an approximate 50 per cent. increase in prosecutions and convictions under the section 14A offences over the first ten months of the 2005 calendar year.

I hope you find this response helpful.

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how many parents who wish to migrate to the new calculation system for child support have been advised by the Child Support Agency to contact their Member of Parliament so that their concerns can be passed to Ministers; how many hon. Members have raised concerns on behalf of their constituents with Ministers about the new and old calculation systems running concurrently; and what assessment he has made of the effect of representations made by hon. Members on behalf of their constituents on Government policy on migrating existing child support cases to the new system. [30461]

Mr. Plaskitt: It is not Agency policy to advise clients whether they should contact their Member of Parliament with their concerns. Since March 2003, 777 letters have been received from hon. and right hon. Members about migration, conversion and/or transitional arrangements.

The Child Support Agency's chief executive, Stephen Geraghty, is currently undertaking a root and branch review of the Agency. He will report to Ministers and we will make announcements shortly.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the compliance rate was for Child Support Agency claims made by claimants resident in Scotland for each quarter since 2000–01. [31632]

Mr. Plaskitt *[holding answer 28 November 2006]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested

Letter from Stephen Geraghty, dated 18 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what the compliance rate was for Child Support Agency claims made by claimants resident in Scotland for each quarter since 2000–01.

I am sorry I cannot provide precisely the information requested for Scotland. The available information is attached in an annex to this letter.

I hope you find this useful.

Case and cash compliance rates for Child Support Agency collection service cases in Scotland in each quarter from February 2000 to February 2003

	Case compliance rate	Percentage Cash compliance rate
February 2000	70	72
May 2000	71	73
August 2000	71	72
November 2000	72	72
February 2001	72	72
May 2001	72	72
August 2001	73	71
November 2001	73	70
February 2002	73	71
May 2002	75	73
August 2002	76	72
November 2002	76	76
February 2003	76	73

Notes:

1. Due to limitations with currently available management information, we are not able to disaggregate the information to the required geographical level following the introduction of the new child support IT system.
2. The table only includes old scheme cases with a full maintenance assessment. Those with a punitive interim maintenance assessment are excluded from this analysis, in line with the Agency's target definition.
3. Case compliance is defined as all those cases which are open and have paid money via the collection service in Scotland over the preceding quarter, expressed as a percentage of all those (currently open) cases which are charged maintenance via the CSA collection service in Scotland (either regular maintenance and/or arrears) over the same quarter.
4. Cash compliance is defined as the total sum of maintenance received via the CSA collection service in the preceding quarter expressed as a percentage of the total amount of maintenance due over the same period.

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) what definition of net income is used by the Child Support Agency for assessing maintenance liabilities; and if he will make a statement; [37928]

(2) what assessment is made of income from capital in Child Support Agency maintenance calculations; and if he will make a statement. [37929]

Mr. Plaskitt: The rules in the old child support scheme for determining the net income of absent parents and parents with care are contained in Regulations 7 and 8 and Schedules 1 and 2 of the Child Support (Maintenance Assessment and Special Cases) Regulations 1992 (SI 1992/1815).

In the new scheme, when a maintenance calculation is first calculated, the net weekly income of a non-resident parent consists only of the types of income specified in the Schedule to the Child Support (Maintenance Calculations and Special Cases) Regulations 2000 (SI 2001/155). These are an employee's or self-employed person's earnings, tax credits and payments from occupational or personal pension schemes.

However, income from capital can be taken into account as a result of Regulations 18 and 19 of the Child Support (Variations) Regulations 2000 (SI 2001/156). Under Regulation 18, where a non-resident parent has significant assets, a parent with care can apply to have them taken into account. This applies where the assets are worth more than £65,000.

In addition, from April 2005, Regulation 19 has been amended, so that in certain circumstances a variation can be made where a non-resident parent receives income from a business or company in a form which is normally ignored in the maintenance calculation. This applies where the non-resident parent receives such income of more than £100 a week and has the ability to control their income, for example, as a company director receiving income in the form of dividends. So payments from such capital resources can be taken into account.

Ben Chapman: To ask the Secretary of State for Work and Pensions what procedures are in place for cases mishandled by the Child Support Agency to be independently reviewed and compensated. [40669]

Mr. Plaskitt: The Independent Case Examiner (ICE) provides a free and impartial complaints review and resolution service to customers of the Child Support Agency. The service provided is independent from the Child Support Agency and aims to make a positive difference to the service clients receive.

The ICE service is available to customers who have exhausted the Agency's own complaints procedure but remain dissatisfied with the response and/or redress provided. This excludes complaints:

- which have not been referred within six months of the Agency's final response;
- which have not received the Agency's final response;
- concerning matters of law or Government policy; or
- which have been or are being investigated by the Parliamentary Ombudsman.

The ICE may recommend to the Agency whether a compensation payment to the client should be considered.

Further information on the ICE can be found at:

http://www.ind-case-exam.org.uk/

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many software and management information system IT updates agreed with Electronic Data Systems (EDS) have been made to the CS2 computer system since March 2003; what future

planned IT software releases have been agreed between the Child Support Agency and EDS; and on what date each is expected to be released. [41715]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 18 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many software and management information system IT updates agreed with Electronic Data Systems (EDS) have been made to the CS2 computer system since March 2003; and if he will give the dates and details of any future planned IT software releases agreed between the Child Support Agency and EDS.

Since March 2003 there have been 13 system releases on the new CS2 Computer System, 10 system releases on the Management Information System and 11 Telephony related IT releases.

Under a general realignment of DWP contracts, which came into effect from 15 August 2005, EDS are contracted to undertake a number of releases agreed with the Child Support Agency between now and the end of 2007, designed to remove the large majority of existing defects.

Crisis Loans

Chris Ruane: To ask the Secretary of State for Work and Pensions how many crisis loans were made in each of the last 24 months. [41824]

Mr. Plaskitt: The information is the table.

Initial crisis loan awards in Great Britain

Month	*Number*
January 2004	94,100
February 2004	86,900
March 2004	96,000
April 2004	81,700
May 2004	79,600
June 2004	87,300
July 2004	80,900
August 2004	83,800
September 2004	84,900
October 2004	79,800
November 2004	81,100
December 2004	75,500
January 2005	91,900
February 2005	85,700
March 2005	88,200
April 2005	85,100
May 2005	80,500
June 2005	86,300
July 2005	81,700
August 2005	84,400
September 2005	87,200
October 2005	81,800
November 2005	87,200
December 2005	76,300

Notes:

1. Initial awards do not include awards made after review.
2. Figures are rounded to the nearest 100.

DWP Social Fund Policy, Budget and Management Information System.

Data Protection

Mr. Crabb: To ask the Secretary of State for Work and Pensions (1) how many of his Department's staff have had their personal details stolen for fraudulent tax credit applications; [39317]

(2) if he will make a statement on the recent theft of data relating to staff in his Department for use in fraudulent tax credit applications. [39318]

Margaret Hodge *[holding answers 9 January 2006]:* The joint DWP and HMRC investigation conducted into the identity theft of DWP staff details and the subsequent use of some of these details to fraudulently claim tax credit has completed its analysis of the numbers of staff affected. The initial estimate of those potentially affected was around 13,000. However, the investigation has now established that the number of stolen identities was around 8,800. All the 8,800 people concerned worked in Jobcentre Plus London region (including the linked benefit processing and contact centres) in 2003–04.

All the records have been analysed and the joint DWP and HMRC investigation has now confirmed that:

around 6,800 fraudulent tax credit claims were made using the stolen data, of which:

around 4,100 were intercepted by HMRC before any payment had been made.

around 2,700 were successful and went into payment but are now stopped

There is no evidence to suggest the security of DWP's IT systems has been breached. None of our customers appear to have been affected by this in any way.

Our internal records are completely separate from systems used to manage customer information.

The HMRC E-portal used to make fraudulent tax credit claims remains closed. A criminal investigation into the circumstances which led to this fraud was instituted as soon as the fraud was discovered and is still in progress.

DWP and HMRC are working urgently to ensure the records concerned are corrected. They will ensure that staff are not disadvantaged as a result of this incident and arrangements are in place to contact individually all those affected.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the EU *(a)* Technical Adaptation Committee on the minimum safety and health requirements for improved medical treatment on board vessels, *(b)* Technical Adaptation Committee on the protection of workers from the risks related to exposure to chemical, physical and biological agents at work and *(c)* Committee on the European Communities statistics programme have taken place during the UK Presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38802]

Mr. Plaskitt: I understand from the Maritime and Coastguard Agency that the Technical Adaptation Committee on the minimum safety and health requirements for improved medical treatment on board vessels has not met during the UK Presidency. Similarly, there were no meetings of Technical Adaptation Committee on the protection of workers from the risks related to exposure to chemical physical and biological agents at work.

I understand from the Office for National Statistics that the Statistical Programme Committee (SPC) met on 29–30 November 2005. The meeting was presided over by the Commission (Eurostat) and the UK was represented by ONS officials who consulted devolved Administrations as appropriate.

Free Movement of Persons Directive

Michael Gove: To ask the Secretary of State for Work and Pensions if he will make a statement on the potential costs of social security provision for non-UK nationals resident in the UK as a result of Directive 2004/58/EC on free movement of persons. [40952]

Mr. Plaskitt: Directive 2004/38/EC[1] brings together into one Directive nine existing Directives on rights of residence and free movement, and part of Regulation 1612/68 on free movement of workers, as well as the relevant case law of the European Court of Justice. It is intended to reduce complexity and bureaucracy.

The Directive maintains the requirement that EU citizens need to exercise an economic activity or have sufficient resources in order to take up residence in another member state.

Member states must transpose the Directive into their national law before 30 April 2006.

The Government are bringing forward Regulations to ensure that the new Directive will not result in any significant additional costs for the UK social security system.

[1] The correct reference is to Directive 2004/38/EC

Sick Leave

David T.C. Davies: To ask the Secretary of State for Work and Pensions how many of his Department's employees who are within one year of the official retirement age are on extended sick leave. [32588]

Mrs. McGuire: There are currently 175 staff who are on long-term sick absence (28 days or more) and who are within one year of the official retirement age.

Winter Fuel Payment

Daniel Kawczynski: To ask the Secretary of State for Work and Pensions whether receipt of pension guarantee credit affects the level of winter fuel payment. [41159]

Mr. Timms: Most people in receipt of pension credit receive the full winter fuel payment. However, people in receipt of pension credit who live in a care home and have done so for 13 weeks or more at the end of the September qualifying week do not receive a winter fuel payment. This is because the majority receive public funding for their care costs including heating.

HOUSE OF COMMONS COMMISSION

Audible Fire Alarms

Bob Spink: To ask the hon. Member for North Devon, representing the House of Commons Commission what proportion of the House is fitted with audible fire alarms. [42877]

Nick Harvey: With the exception of both chambers and the immediate surrounding areas, all parts of the parliamentary estate are fitted with audible fire alarms. In the Palace of Westminster, Portcullis House, 1 Parliament Street, 1 Derby Gate, Norman Shaw South and 7 Millbank this is supplemented by a voice alarm system. The remaining buildings on the estate will be upgraded to voice alarm standard as each building is refurbished.

CONSTITUTIONAL AFFAIRS

Legal Aid

Mr. Baron: To ask the Minister of State, Department for Constitutional Affairs (1) if she will list the 10 barristers who received the highest legal aid fees for clinical negligence work in the last 12 months, indicating in each case *(a)* the amount received, *(b)* the number of cases taken, *(c)* the number of cases taken which proceeded beyond investigation, *(d)* the number of cases taken which resulted in (i) an award of damages and (ii) a settlement involving an agreement to pay damages and *(e)* whether each barrister was Queen's counsel or junior counsel; [43087]

(2) if she will list the 10 firms of solicitors which received the highest legal aid fees for clinical negligence work in the last 12 months, indicating in each case *(a)* the amount received, *(b)* the number of cases taken, *(c)* the number of cases taken which proceeded beyond investigation and *(d)* the number cases taken which resulted in (i) an award of damages and (ii) a settlement involving an agreement to pay damages. [43088]

Bridget Prentice: The information requested is not readily available and can be provided only at disproportionate cost.

TRANSPORT

A1 Dualling Schemes

Mr. Beith: To ask the Secretary of State for Transport when he expects work to begin on the A1 dualling schemes proposed by the Highways Agency *(a)* between Morpeth and Felton and *(b)* South of Belford; and if he will make a statement. [42506]

Dr. Ladyman: The Government announced in December 2004 that it would seek the Regions' advice on their priorities for housing, regeneration and transport expenditure. Indicative allocations for the next 10 years were given to each region. In the North East a Regional Transport Board was set up to determine the Region's Transport priorities. These two A1 dualling schemes are being considered as part of that process.

We are expecting to receive the North East Region's advice on their priorities across the three funding streams at the end of January. Once these have been fully assessed there will be a further announcement of the Department's initial response to the Proposals.

Administration Costs

Angus Robertson: To ask the Secretary of State for Transport which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39826]

Ms Buck: Following the Treasury/ONS Public Expenditure Statistical Analyses (PESA) methodology for country and regional analysis of spending by functions of Government Departments, administration costs are attributed to areas in the same proportions as the spending that they support. The allocation of benefits of the Department's identifiable expenditure is estimated for 2004–05 as *(a)* England 91 per cent., and within that *(b)* London 28 per cent., as reflected in table A7 of the Department's Annual Report 2005 (Cm 6527).

Mr. Weir: To ask the Secretary of State for Transport which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administrative costs were associated with these functions for each area in the last year. [39949]

Ms Buck: Following the Treasury/ONS Public Expenditure Statistical Analyses (PESA) methodology for country and regional analysis of spending by functions of Government Departments, administration costs are attributed to areas in the same proportions as the spending that they support. The allocation of benefits of the Department's identifiable expenditure is estimated for 2004–05 as *(a)* Northern Ireland 0.2 per cent., and *(b)* Wales 1.8 per cent., as reflected in table A7 of the Department's Annual Report 2005 (Cm 6527).

Mr. Salmond: To ask the Secretary of State for Transport what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40053]

Ms Buck: For 2004–05 the Department's executive non-departmental public bodies (NDPBs) comprised the Strategic Rail Authority and the British Transport Police. Detailed financial information is available in their Annual Report and Accounts, but the Treasury's administration budgets regime does not apply to these bodies. All of their expenditure is included, but not shown separately, in the tables of identifiable expenditure in chapter 8 of the Public Expenditure Statistical Analyses (PESA) published by the Treasury.

Airport Security

Mrs. Dorries: To ask the Secretary of State for Transport what alternative options for the current system of designation will be considered during the independent review of policing at airports; and if he will make a statement. [42417]

Ms Buck: The independent review will consider the appropriateness of the current system of designation and in the light of that consideration, possible alternative options.

Bicycle Use

Tom Brake: To ask the Secretary of State for Transport what recent survey his Department has made of bicycle use. [41836]

Derek Twigg: The National Travel Survey is used to monitor bicycle use in Great Britain. In 2004, the average number of bicycle trips made was 15 per person per year.

Buses

Paul Rowen: To ask the Secretary of State for Transport if he will make a statement on his plans to regulate bus services outside the London area. [34638]

Ms Buck: We have no such plans. However, if local authorities are prepared to propose a comprehensive system for managing traffic, which may well include road pricing, we are prepared in turn to consider allowing greater control of bus services. This follows the policy set out in the 2004 White Paper "The Future of Transport: A Network for2030"(Cm6234).

Departmental Estate

Mr. Weir: To ask the Secretary of State for Transport what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales and (3) each of the English regions in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40126]

Ms Buck: The Department for Transport and Executive Agencies comprise over 1,150 buildings, excluding those of our sponsored bodies. Information is not available in the requested format and can only be provided at disproportionate cost.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Transport what the cost was of pension contributions incurred by *(a)* his Department, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [40008]

Ms Buck: For 2005–06,employers' contributions are payable to the principal civil service pension scheme (PCSPS) at one of four rates in the ranges 16.2 to 24.6 percent. of pensionable pay, based on salary bands. The scheme actuary reviews employer contributions every four years following a full scheme valuation; last carried out as at 31 March 2003. The contribution rates reflect the cost of benefits as they accrue (net of employee

contributions), not the costs as they are actually incurred, and reflect past experience of the scheme. This applies to all of the employer contributions detailed in the following table except for Trinity House Lighthouse Service and Northern Lighthouse Board who operate pensions schemes other than the PCSPS.

(a) The pension contributions for the Department are as follows:

£000

2002–03	*2003–04*	*2004–05*	[1]*2005–06*
7,043	8,514	9,524	13,180

[1] Estimate

(b) (ii) The pension contributions for the Executive Agencies are as follows:

£000

	2002–03	*2003–04*	*2004–05*	[1]*2005–06*
Maritime and Coastguard Agency	3,254	3,860	3,958	5,563
Highways Agency	6,668	7,306	8,229	13,107
Driver and Vehicle Licensing Agency	10,408	11,621	13,487	12,707
Driving Standards Agency	4,181	5,141	6,167	9,496
Vehicle Operator Services Agency	5,782	7,014	8,029	11,829
Vehicle Certification Agency	368	391	413	582
Government Car and Delivery Service	900	910	912	1,406

[1] Estimate

(b) (iii) The pension contributions for other sponsored bodies are as follows:

£000

	2002–03	*2003–04*	*2004–05*	[1]*2005–06*
Trinity House Lighthouse Service	5,100	8,519	6,616	5,702
Northern Lighthouse Board	16	20	20	107
Strategic Rail Authority	5,125	5,966	5,148	2,688
Rail Passenger Council	n/a	n/a	n/a	177

n/a = not available
[1] Estimate

Apart from those costs relating to the Northern Lighthouse Board which all relate to Scotland, the costs are not held in a way that they can be attributed to Scotland, Wales, the English regions or Northern Ireland.

DVLA

Mr. Quentin Davies: To ask the Secretary of State for Transport on what criteria the Driver and Vehicle Licensing Agency selects those customers who qualify to be sold the names and addresses of vehicle owners. [42177]

Dr. Ladyman: Regulations allow for information to be released from the Agency's vehicle register to the police, to local authorities for investigation of an offence or for decriminalised parking, and to anyone who can demonstrate 'reasonable cause' for having the particulars made available to him.

'Reasonable cause' is not defined in the legislation, but in the recent past circumstances that have been judged to meet reasonable cause include safety recalls by the motor industry, minor hit and run incidents not warranting a full police investigation, housing associations dealing with abandoned vehicles and private car parking companies enforcing landlords rights over private land.

DVLA do not sell the data. A charge is made to cover the cost of the service.

I have announced a review of the regulations governing the release of information which will take place shortly.

Mr. Quentin Davies: To ask the Secretary of State for Transport when the Driver and Vehicle Licensing Agency began the practice of selling the names and addresses of vehicle owners. [42192]

Dr. Ladyman: Regulations governing the release of information from the vehicle register predate DVLA's existence, as similar powers were available to local authorities when they had responsibility for registering and licensing vehicles. Today, release is made under the Road Vehicles (Registration and Licensing) Regulations of 2002. These regulations consolidate the 1971 regulations of the same name, and the 1994 amendments. DVLA does not sell the data for profit, but a charge is made to cover the administrative cost of the service.

European Aviation Safety Agency

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) what the governance arrangements for the European Aviation Safety Agency are; [42739]

(2) what arrangements are in place to monitor the effectiveness of the governance of the European Aviation Safety Agency. [42740]

Ms Buck: The structure of governance of the European Aviation Safety Agency is set out in Regulation (EC) No. 1592/2002 as subsequently amended by Regulation (EC) No. 1643/2003. In general, the structure reflects the governance of Community Agencies as a whole, in that various financial and administrative matters are subject to approval and review by the Community institutions.

The Regulation establishes a Management Board composed of one representative of each member state and one representative from the European Commission.

The Board is assigned various governance tasks, such as appointing the Agency's Directors and adopting its work programme.

The Community institutions monitor the governance of the Agency through consideration or audit of its annual general report, work programme, budget and accounts. In addition, the Regulation requires that by September 2006 the Board shall commission an independent evaluation of the implementation of the Regulation which established the Agency, including an evaluation of how effectively the Agency fulfils its mission. The UK representative on the Management Board will insist that the terms of this evaluation allow examination of all governance matters.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) if he will make a statement on the administrative impact of the introduction of the European Aviation Safety Agency's Fees and Charges Regulation on *(a)* the work of the European Aviation Safety Agency and *(b)* UK industry; [42741]

(2) how many representations he has received from UK industry about the impact of the European Aviation Safety Agency's Fees and Charges Regulation; and how many of these claimed an adverse impact; [42742]

(3) whether he has been informed of delays to aviation projects resulting from the introduction of the European Aviation Safety Agency's Fees and Charges Regulation. [42743]

Ms Buck: The Fees and Charges Regulation, which came into force on 1 June 2005, requires that applications for a number of approvals and certificates can only be made to the European Civil Aviation Agency and that only the Agency can charge for the technical investigations needed to support the grant of such applications, even when a national authority carries out the work on its behalf. In such cases, the work is set up and paid for under the terms of agency/authority contracts. The manner of implementation of these processes has affected the Agency's ability to undertake their certification tasks in a timely and efficient way. There has also been some knock-on effect on other Agency activities as staff have been allocated to help deal with the demands of the fees and charges system.

The Secretary of State has not received any specific representations from UK industry on the impact of the Agency's Fees and Charges Regulation. But UK industry ahs alerted the Department for Transport to the adverse impact of this Regulation at regular consultation meetings. The Department has asked the Civil Aviation Authority to monitor and report on problems that industry has drawn to its attention.

UK companies have also reported difficulties in getting applications handled in a timely fashion and this has impacted adversely on their work including delays to several aviation projects. The Department, in conjunction with the Civil Aviation Authority, is working energetically on these problems with the Agency, the European Commission and other member states so as to ensure that the situation improves.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) what assessment he has made of whether income generated by the European Aviation Safety Agency's Fees and Charges Regulation will cover the cost of the European Aviation Safety Agency certification functions during 2006; [42744]

(2) what measures are in place to keep the budget of the European Aviation Safety Agency under review. [42745]

Ms Buck: The financial and budgetary requirements governing the European Aviation Safety Agency (EASA) follow general Community principles as applied to Community Agencies. EASA's requirements are set down in Regulation (EC) No. 1592/2002 as subsequently amended by Regulation (EC) No. 1643/2003.

The Regulation provides that Agency revenues will comprise a contribution from Community funds, fees paid by certificate applicants and holders and charges for publications, training and any other services provided by the Agency. In principle the fees revenue should cover the full costs of delivering EASA's certification functions. However, the Regulation provided that until 31 December 2006 the contribution from Community funds might be used to cover expenditure related to the initial running phase of the Agency, including some of the cost of the Agency's certification functions.

The Agency presented to its management board on 13 December 2006 its assessment of whether income generated by the Fees and Charges Regulation, together with the transitional use of some of the agreed contribution from Community funds, would cover the cost of delivering the Agency's certification functions during 2006. The Agency concluded that its estimated income would fail to cover costs unless remedial measures were put in place. The Agency proposed cutting back and prioritising its certification tasks in line with the estimated income. The UK Civil Aviation Authority prepared for the UK member of the management board a detailed analysis of the Agency's assessment and proposals which agreed that the estimated income would not cover all the certification tasks which the Agency should carry out in 2006. The Authority advised that cutting back the certification tasks would cause major problems for industry and be unacceptable.

The management board agreed that the Agency should not prioritise its certification tasks despite the anticipated shortfall in income. The consequences of this decision on the Agency's budget will be revisited at the next meeting of the board in March in the light of urgent work commissioned by the Board. Consultants have been contracted to analyse the financial situation of the Agency and to report in time for the March meeting. In the meantime the Agency is continuing its own review of options to improve the situation, including possible amendments to the Fees and Charges Regulation.

The management board's review of the 2006 budget reflects requirements placed on the Board in the Regulation (EC) 1592/2002 as amended. The budget is adopted by the Board following final adoption of the general budget of the European Union. This is a process which involves additional examination and review of the budget by the Community institutions.

Mrs. Dunwoody: To ask the Secretary of State for Transport how the European Aviation Safety Agency *(a)* identifies and *(b)* distributes airworthiness directives to the aviation industry. [42747]

Ms Buck: The European Aviation Safety Agency (the Agency) publishes on its website a list of the titles and reference numbers of the airworthiness directives that it has approved since it came into being on 29 September 2003. To identify airworthiness directives for European products issued prior to that date industry must continue to refer to information published by the National Aviation Authorities of the EU member states, as the Agency has not yet gathered and collated that information.

The Agency does not yet have an airworthiness directive distribution service to make available the detailed content of its airworthiness directives. The full texts of a small minority of its airworthiness directives can be accessed through the Agency's website but, in general, the industry must rely upon the airworthiness directive publication services of the National Aviation Authorities of the EU member states to obtain such directives. The UK CAA is continuing to maintain and update its own publication services and will continue to do so until such time as the Agency has put in place a comprehensive and effective system.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) if he will make a statement on the *(a)* resources and *(b)* data available to the European Aviation Safety Agency to carry out the full range of its responsibilities; [42748]

(2) what measures will be used to ensure that the European Aviation Safety Authority is qualified to carry out the certification of aircraft and aircraft components, [42750]

Ms Buck: The Regulation establishing the European Aviation Safety Agency came into force in September 2002 and the Agency assumed responsibility for its tasks 12 months thereafter. At that time the Agency relied almost entirely on the Commission and the aviation authorities of member states for the resources and data it needed to execute those responsibilities. Initially, the national aviation authorities carried out all the Agency's certification tasks on its behalf.

The Agency has been steadily recruiting the staff and building up the infrastructure it needs to perform its tasks in-house, however it is still reliant on national aviation authority support, delivered under contract. The Agency is recruiting staff mainly from the Commission, industry and national authorities; this pool of European technical experts must also serve the continuing needs of the national authorities and the aviation community more widely. It is a major challenge for everyone concerned to ensure that neither the Agency nor the national authorities run short of skilled manpower during this period of transition.

The Agency's manpower plans and their effect on national authorities is being monitored by the Management Board. The Board has established a small group of high-level technical experts from national administrations, plus representatives of the Agency and the Commission, to examine rigorously whether the Agency's strategies are successfully ensuring the necessary qualified staff and to monitor the associated risks. As a result the Agency has established a risk register which it is required to present at each meeting of the management Board.

The working group has stressed the importance of the Agency and the national aviation authorities working together to plan and manage technical resources, recommending that the Agency hold detailed discussions with each authority. Such discussions should be comprehensive and broader than the formal contractual arrangements under which the authorities currently carry out certification tasks for the Agency.

Fuel Duty Rebate

Chris Grayling: To ask the Secretary of State for Transport if he will list community transport services which were covered by the extension of the fuel duty rebate in the last five years. [40561]

Ms Buck: Eligibility to receive Bus Service Operators Grant (formerly called fuel duty rebate) was extended to a wide range of community transport services in May 2002. A total of about 800 community transport organisations now currently receive this grant; total expenditure was £4.5 million in 2004–05.

Glasgow Airport (Security)

Jim Sheridan: To ask the Secretary of State for Transport when the last review took place of security arrangements at Glasgow airport. [42032]

Ms Buck: The Department carries out an extensive programme of aviation security compliance monitoring activity. This includes announced and unannounced inspections. We also provide appropriate advice and guidance to industry. The security arrangements at Glasgow airport are covered by this ongoing programme.

We do not, for obvious reasons, provide information about the frequency of visits to individual locations or details of our compliance monitoring regime.

Government Papers

Mr. Amess: To ask the Secretary of State for Transport how many copies of Cm 6527 were produced; how many copies were supplied free; to whom they were so supplied; and if he will make a statement. [41006]

Ms Buck: The Department's annual report, Cm 6527, was published on 15 June 2005 and is freely available on the DfT website under corporate publications.

1000 copies of the report were printed. To date approximately 300 copies have been provided free of charge to the House Libraries, the Transport Select Committee, Department for Transport Ministers and officials, and to other Government Departments.

The stationery office (TSO) has taken 700 copies for sale.

Humber Bridge

Mr. Austin Mitchell: To ask the Secretary of State for Transport how many *(a)* cars and *(b)* public service vehicles used the Humber bridge in each of the last three years for which figures are available; and what the total tax revenue was from each category of vehicle. [43063]

Dr. Ladyman: We do not hold figures specifically for cars and public service vehicles. Both types of vehicle fall within toll classifications grouped with other vehicles:

		Number of vehicles		
Class	*Vehicle type*	*2002–03*	*2003–04*	*2004–05*
2	Motor Car Motor Caravan Goods Vehicle having a maximum weight not exceeding 3.5 tonnes	5,310,783	5,391,743	5,476,259
3	Goods Vehicle having a maximum weight exceeding 3.5 tonnes but not exceeding 7.5 tonnes Vehicle in class 2 above with trailer Small bus (up to 16 passengers excluding driver)	164,520	164,571	167,960
4	Goods Vehicle exceeding 7.5 tonnes maximum weight with 2 axles Large bus	128,568	121,891	117,430

Based on current bus timetables, the bridge operator, the Humber Bridge Board, estimates that scheduled bus services made approximately 16,000 journeys across the bridge in each of the three years in question.

The taxation of vehicles is a matter for the Chancellor of the Exchequer. The total amount of revenue from different forms of motoring taxation is set out in the Chancellor's Budget report every year. Copies of these reports are available via HM Treasury's website.

Mr. Austin Mitchell: To ask the Secretary of State for Transport what the interest rate charged on the Humber bridge debt is; what the remaining debt is; and when it will be paid off. [43102]

Dr. Ladyman: Under the agreement between the Humber Bridge Board and the Secretary of State signed in July 1998 the interest rate is 7.75 per cent. with the debt to be paid off by 2038. Current total debt stands at £334,436,987.

Mr. Austin Mitchell: To ask the Secretary of State for Transport what discussions the Humber Bridge Board has had with the Treasury about its proposed increase in charges; and what freedom the Board has to vary the charges between categories of vehicle. [43103]

Dr. Ladyman: As far as I am aware there have been no discussions between the Humber Bridge Board and the Treasury with regard to the current proposal to revise toll charges.

The Board must apply to the Secretary of State for approval if it wishes to revise the maximum tolls chargeable of all or any category of vehicle or any classification of vehicle. Below the maximum toll levels, the Board is free to decide the tolls to be charged for each category of vehicle.

Light Rail Schemes

Mr. Hancock: To ask the Secretary of State for Transport what *(a)* technical and *(b)* financial criteria he intends to use in the evaluation of future proposals for light rail schemes. [43866]

Derek Twigg: On 1 April 2005, the Department published, for consultation, draft guidance to local authorities seeking DFT funding for local transport major schemes. This set out the framework which the Department will use to assess all major scheme bids, including light rail schemes.

The draft guidance is available on the Department for Transport's website.

Local Transport Plan (Gloucestershire)

Mr. Drew: To ask the Secretary of State for Transport when he expects to decide on the acceptability of the Gloucestershire Local Transport Plan. [41523]

Ms Buck: The Department for Transport does assess the quality of local transport plans but does not decide on the acceptability of local transport plans. In December 2005 it published its assessments of the provisional second local transport plans, completed by local authorities in July 2005. The final second local transport plans are being completed by local authorities by March 2006. The Department intends to complete its assessments of these plans before the end of this year.

Luton Airport

Mrs. Dorries: To ask the Secretary of State for Transport whether his Department plans to designate London Luton airport under section 25 of the Aviation Security Act 1982; what representations he has received on this issue; and if he will make a statement. [42413]

Ms Buck: Designation of airports for policing purposes is currently undergoing independent review. The Chief Constable of Bedfordshire has been asked to consider deferring any application for designation of Luton airport until after the review has reported.

Motorway Service Areas

Mr. Drew: To ask the Secretary of State for Transport what plans he has to examine the potential of motorway service areas for use as interchange points for inter-city coach travel. [42622]

Dr. Ladyman: There are no current plans to examine the potential of motorway service areas for use as interchange points for inter-city coach travel. Motorway service areas are intended to offer road users opportunities to stop and take a break in the course of their journey but should not become destinations in

their own right. It is considered that their use as inter-city coach interchanges could breach this long-standing principle and also affect their ability to fulfil their primary function.

Office Equipment

Mr. Weir: To ask the Secretary of State for Transport what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales and (3) each of the English regions in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40125]

Ms Buck: The Department for Transport and Executive Agencies comprise over 1,150 buildings, excluding those of our sponsored bodies. Information is not available in the requested format and can be provided only at disproportionate cost.

Parking Meters

Mr. Hands: To ask the Secretary of State for Transport what guidelines his Department has issued to local authorities concerning parking in individual metered bays when the parking meter is temporarily inoperable. [42448]

Ms Buck: The Department's "Guidance on Decriminalised Parking Enforcement Outside London"—a copy of which is available in the Libraries of the House—says that the duties of a parking attendant include inspecting parking meters and pay-and-display machines to ensure that they are working prior to penalty charge notice issue. It adds that where there is a minor fault, the attendant may be able to rectify it, otherwise an "out of order" notice must be put on the meter or machine and the fault must be reported. Similar guidance has been issued to the capital's local authorities by the Association of London Government.

Railways

Adam Afriyie: To ask the Secretary of State for Transport what steps his Department is taking to ensure that railway ticket prices represent value for money for passengers. [41042]

Derek Twigg: The Department for Transport is investing around £87 million per week to improve the service that passengers receive when travelling by train. Improvements include improved reliability, new trains and faster journeys on many routes.

In addition, the Department regulates the price of certain fares, including commuter fares around London and other urban areas. In real terms these fares are now 3 percent. lower than in 1995, and the average annual increase in regulated fares is now limited to inflation + 1 percent. On other routes, train operators compete with cars, coach companies and airlines and train operators will set fares on a commercial basis to attract passengers onto their services.

Chris Grayling: To ask the Secretary of State for Transport what the change in rail freight's share of domestic freight traffic was in each year since 2000–01. [40565]

Derek Twigg: The information requested is set out as follows.

	Billion tonne kilometres	*Percentage of all freight traffic*
2000	18.1	7
2001	19.4	8
2002	18.7	7
2003	18.9	8
2004	20.7	8

Stephen Hammond: To ask the Secretary of State for Transport whether he expects the peak in public investment in rail to be in 2005–06 as set out in Transport 2010—the Ten Year Plan. [40866]

Derek Twigg: The Government's spending plans for rail were originally set out in Transport Ten Year Plan document published in July 2000. These spending plans were updated in the Department for Transport Progress Report published December 2002.

My right hon. Friend the Secretary of State's statement to the House of 10 February 2005, *Official Report*, columns 93–96WS, set out how the Department for Transport intends to allocate money on railways until April 2009.

Chris Grayling: To ask the Secretary of State for Transport how many operational passenger rail carriages there were on the rail network in each of the past 10 years. [39281]

Derek Twigg: The information is not held in the form requested. The number of vehicles on lease at the sale of the Rolling Stock Leasing Companies recorded in the invitation to tender in March 1995, was 10,401 vehicles. The number of vehicles on lease now is approximately 11,000 vehicles.

Chris Grayling: To ask the Secretary of State for Transport on how many occasions railway officials have been required to refuse passengers access to a train because of overcrowding in each of the past three years. [39279]

Derek Twigg: The Department for Transport does not hold this information.

Chris Grayling: To ask the Secretary of State for Transport which railway stations have had security measures fitted in each of the last five years. [40574]

Derek Twigg: The Government places a requirement on rail operators to implement a range of security measures across the UK rail network. Following the attacks on 7 July the security response level across the UK rail network increased to its highest level resulting in a tightening of the existing security requirements. For security reasons it would be inappropriate to go into detail. We continue to look at what further practical security measures can be taken to protect transport targets.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) pursuant to the answer of 14 November 2005, *Official Report*, column 895W, on railways, how

much was paid to each train operating company for each management only contract; and with which company each contract was made; [39378]

(2) pursuant to the answer of 14 November 2005, *Official Report*, column 895W, on railways, how many franchises he expects his Department to operate under management-only contracts in each year between 2005 and 2008. [39379]

Derek Twigg: Management only contracts are those where the DfT Rail Group takes the full risk for the operation and pays the train operating company a management fee.

The following table shows the companies and franchise values for each year requested.

£ million

	First North Western	*Anglia Railways*
2001	146.7	n/a
2002	173.3	[1]-2.3
2003	179.6	[1]-6.4
2004	185.5	[1]-1.5
2005	103.4	0.8
2006	n/a	n/a
2007	n/a	n/a
2008	n/a	n/a

n/a = Not available.

[1] Net payment back to the SRA after management fee payment to Anglia positive.

Notes:

1. Positive numbers indicate a payment to the company.
2. Negative numbers indicate a receipt from the company.

Source:

All figures are sourced from the SRA 2005 annual report.

For the years 2006–08, no management only contracts are expected to be let.

Chris Grayling: To ask the Secretary of State for Transport what estimate he has made of the change in passenger numbers on the railways in each year between 2006 and 2014. [39280]

Derek Twigg: The Department for Transport's latest published central projections for rail usage can be found in the paper the "The Future of Transport: Modelling and Analysis" published on 21 March 2005, which is available on the Department's website. This shows rail passenger kilometres increasing by 33 percent. between 2000 and 2010, implying growth of around 3.5 percent. a year for the rest of the decade. From 2010 to 2025 the projection shows growth of 1.3 percent. a year.

Rapid Transport Lines

Chris Grayling: To ask the Secretary of State for Transport if he will list rapid transport lines built in the last five years. [40580]

Derek Twigg: There are six new rapid transport lines which have been built in the last five years. These are:

East Leeds—York Road—guided bus (2001)

Bradford—Manchester Road—guided bus (2002)

Metro Sunderland extension (2002)

Crawley 'Fastway' guided bus (2003)

Nottingham Express Transit Line 1 (2004)

Docklands Light Railway extension to London City Airport (2005)

Croydon Tramlink and the Manchester Metrolink Phase II extension to Eccles both opened in 2000.

Road User Pricing Schemes

Tom Brake: To ask the Secretary of State for Transport what assessment he has made of the implications of the EU requirement that from 2010 EU member states must vary charges for lorries using the trans-European road network according to their Euro emissions class for plans for road user pricing schemes in Britain. [42713]

Dr. Ladyman: The agreement on amending Directive 1999/62 on toll charges for goods vehicles will require that, where member states choose to apply tolls for heavy goods vehicles on the Trans-European Road Network, they must be differentiated according to their Euro emissions class.

The UK was able to accept this requirement as we consider that it can be readily assimilated into any road pricing arrangements that might be applied in the UK, and would have the benefit of providing an incentive for cleaner vehicles.

Rural Bus Subsidy Grant

Chris Grayling: To ask the Secretary of State for Transport what schemes have been put in place under the Rural Bus Subsidy Grant; and if he will list the towns which have received funding. [40560]

Ms Buck: Rural Bus Subsidy Grant (RBSG) is allocated to Local Transport Authorities in England on the basis of population numbers living in rural areas. The grant is used by authorities to provide new and enhanced rural bus services and other services to improve rural accessibility, for example demand responsive transport or taxibus services. Decisions on which services to support are a matter for each authority. The Department does not collect information on the particular towns served as a result of these decisions. However, monitoring returns for 2003–04 show that in that year RBSG was used to support a total of about 2,200 services on which over 29 million passenger journeys were made (data for 2004–05 is currently being collected).

Segregated Cycleways

Tom Brake: To ask the Secretary of State for Transport what research his Department has undertaken into the *(a)* cost and *(b)* feasibility of providing a comprehensive network of segregated cycleways. [42659]

Derek Twigg: The Department has not undertaken any research into the cost or feasibility of providing a national comprehensive system of segregated cycleways.

The responsibility for the planning, design and construction of cycle facilities rest with individual local highway authorities and we encourage them to them develop a cycling strategy within their Local Transport Plans, the main mechanism of central government funding for local transport. Local cycling strategies will need to consider whether cycle networks need to be physically segregated from other traffic, depending on local conditions.

Transport Infrastructure

Chris Grayling: To ask the Secretary of State for Transport how much was spent on transport infrastructure in each year since 2000–01 from *(a)* public funds and *(b)* private investment. [40572]

Ms Buck: Investment in transport infrastructure in Great Britain since 2000–01 is as follows:

£ million (outturn prices)

	2000–01	*2001–02*	*2002–03*	*2003–04*
Road infrastructure				
Public	3,344	3,643	4,108	4,191
Private	47	45	39	40
Total	3,391	3,688	4,147	4,231
Airports and air traffic control				
Public[1]	163	57	71	70
Private[1]	566	630	784	1,384
Total	729	687	854	1,454
Rail infrastructure	2,790	3,652	4,241	5,186
Ports infrastructure	205	233	236	307
All infrastructure	7,114	8,260	9,479	11,177

[1] Investment in NATS switched from public to private funding between 2000–01 and 2001–02

A split by public and private funding is not available for rail and ports infrastructure. The Government made direct grants to Railtrack plc./Network Rail and London and Continental Railways relating to investment on infrastructure undertaken by those companies as follows:

£ million (outturn prices)

	2000–01	*2001–02*	*2002–03*	*2003–04*
Railtrack plc./Network Rail	0	499	792	1,448
London and Continental Railways	0	185	374	222

Investment in ports infrastructure is mainly from private investment. Further information on transport investment in infrastructure and rolling stock can be found in Tables 1.14 and 1.15 in Transport Statistics Great Britain on the DfT website.

Urban Bus Challenge Fund

Chris Grayling: To ask the Secretary of State for Transport what schemes have been put in place under the Urban Bus Challenge Fund. [40582]

Ms Buck: The Department's Urban Bus Challenge competitions were held each year for three years between 2001 and 2003. A total of 106 projects were awarded funding as a result of these competitions. Lists of the particular projects involved in each year were placed in the Library of the House. They are also available on the Department's website.

Vehicle Licensing

Mr. Drew: To ask the Secretary of State for Transport what plans he has to offer individual motorists the right to opt out from having their details passed on to third parties by the Driver and Vehicle Licensing Agency. [41521]

Dr. Ladyman: The Data Protection Act exempts from its non-disclosure provisions the release of personal data where the law allows it. The provisions governing release of information from DVLA's vehicle register to persons who demonstrate reasonable cause have been in place and worked effectively for over 40 years. However, when these provisions were originally introduced they did not anticipate the introduction of electronic databases, the large number of vehicles on the roads, or the range of bodies now requesting access. Concerns have also recently been raised about the breadth of organisations that have access to the register.

Whilst it is not possible to allow motorists to opt out of having their details released, I have announced a review of the regulations governing the release of information. This review will take place shortly.

Vehicle Testing

Mr. Greg Knight: To ask the Secretary of State for Transport what studies he has made of the vehicle testing regimes in force in other EU countries. [41980]

Dr. Ladyman *[holding answer 16 January 2006]:* The Department for Transport is represented on the technical committee which has responsibility in the EU for vehicle roadworthiness testing, and we are therefore aware of the nature of the testing regimes which operate in other member states. We have not made any recent specific studies of them.

CULTURE, MEDIA AND SPORT

Paralympics

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to support the 2012 Paralympics; and if she will make a statement. [41473]

Tessa Jowell: Hosting the Paralympic Games is of great importance to the Government, particularly as the origins of the Paralympic movement lie in the competition held in 1948 at Stoke Mandeville.

The Department for Culture, Media and Sport, as lead Government Department for the 2012 Olympic Games and Paralympic Games, is determined that the 2012 Paralympic Games will be a showcase for Paralympic sport, strengthening the Paralympic movement and setting new standards for services, facilities and opportunities for disabled people.

The London Organising Committee for the Olympic Games (LOCOG) which is responsible for organising, publicising and staging the 2012 Games, has announced that for the first time planning for the Paralympic Games will be fully integrated with the Olympic Games.

LOCOG is committed to providing a compact and inclusive Paralympic Games, with high quality accessible venues and transport services and excellent village facilities for athletes, as well as team and technical officials.

Casinos

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what definition her Department uses of *(a)* B1, *(b)* B2, *(c)* B3 and *(d)* B4 gambling machines. [42517]

Mr. Caborn: Under section 236 of the Gambling Act 2005, the Secretary of State is required to make regulations defining four classes of gaming machine for the purposes of the Act (to be known as categories A, B, C and D), and to divide category B into sub-categories.

The Government set out their intentions in this respect in the regulatory impact assessment that accompanied the 2005 Act, published on 21 April 2005, and this remains Government policy. The information requested is set out in the table.

Category	*Maximum stake (£)*	*Maximum prize (£)*	*Location(s)*	*Maximum number (per premises)*
B1	2	4,000	All casinos	20 in existing casinos 80 in small casinos 150 in large casinos
B2	100 per game; 15 per chip	500	Premises licensed for betting	4
B3	1	500	Bingo clubs and adult gaming centres	4
B4	1	250	Clubs and miners' welfare institutes	3

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what guidance *(a)* she and *(b)* the Gambling Commission have produced on whether a licensing authority may (i) object to a casino premises licence and (ii) introduce a policy not to issue casino licences on (A) moral grounds and (B) on the grounds that it considers gambling to be indesirable. [42518]

Mr. Caborn: It is the function of the Gambling Commission to issue guidance to licensing authorities, and draft guidance was published by the Commission on 10 December 2005. This includes guidance on the exercise of licensing authority functions with respect to casino premises licences.

Under section 166 of the 2005 Act, licensing authorities have the power to pass a resolution not to issue casino premises licences and, in passing such a resolution, they are allowed to have regard to any principle or matter. However, where a licensing authority has the power to issue casino premises licences, and it has not made a resolution under section 166, it must exercise its functions in accordance with the requirements of the Act. Section 153 sets out the principles to be applied by licensing authorities in considering premises licence applications. That section requires licensing authorities to aim to permit the use of premises for gambling in so far as they think that accords with any relevant Commission code of practice or guidance and with their own policy statement, and in so far as they think that to do so would be reasonably consistent with the licensing objectives of the Act.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what guidance *(a)* she and *(b)* the Gambling Commission have produced on the (i) minimum and (ii) maximum floor size of a betting section of a (A) small, (B) large and (C) regional casino. [42519]

Mr. Caborn: Section 7(5) of the Gambling Act 2005 requires the Secretary of State to make regulations by reference to which any casino may be classified as a regional, large or small casino. Regulations under this subsection may make provision by reference to the floor area used or designated for a specified purpose. We set out our intentions in this respect in the Government's response to the first report of the Joint Committee on the draft Gambling Bill (Cm 6253). This information was also reproduced in my answer to the right hon. Member for Maidenhead (Mrs. May) of 17 October 2005, *Official Report*, column 711W.

The Government and the Gambling Commission do not intend to set maximum or minimum areas that must be dedicated specifically to betting within any category of casino.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what the timetable for the Casino Advisory Panel to receive expressions of interest is from *(a)* local authorities and *(b)* other interested parties in relation to the allocation of casino licences to different parts of the country. [42520]

Mr. Caborn: The Casino Advisory Panel has published the broad timetable for its work on its website (www.culture.gov.uk/cap). The panel is still developing the detailed process it will follow in developing its recommendations. However, it expects that the closing date for proposals from local authorities will be by the end of March 2006. Other interested parties may write to the panel at any time.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport whether the Casino Advisory Panel will be designating *(a)* regions, *(b)* sub-regions and *(c)* specific local authority areas as locations for the new gambling licences. [42521]

Mr. Caborn: It is the responsibility of the Secretary of State to specify which licensing authorities should be able to issue the one regional, eight large and eight small casino premises licences permitted by the Gambling Act 2005. The role of the Casino Advisory Panel is to make recommendations to the Secretary of State to assist her in this function, and it has been asked to recommend specific licensing authorities.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport whether *(a)* she and *(b)* the Gambling Commission are required to follow the advice of the Casino Advisory Panel in designating the locations for the new gambling licences. [42522]

Mr. Caborn: The Casino Advisory Panel is a non-statutory body, and the Secretary of State is not formally bound by its recommendations. However, the panel has been established by the Secretary of State to assist her with her order making power under section 175 (4) of the Gambling Act 2005 to determine the geographical distribution of the new casino premises licences.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what the timetable is for the designation of locations for new gambling licences; and *(a)* how and *(b)* when Parliament will be consulted. [42523]

Mr. Caborn: The Casino Advisory Panel has been asked to make its recommendations by the end of 2006. The intention is that the Secretary of State will lay a draft order specifying the licensing authorities which are to have the power to issue casino premises licences before both Houses of Parliament during the spring of 2007. This order is subject to the affirmative resolution procedure, requiring the approval of both before it can be made.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport if she will list the former *(a)* buildings and *(b)* land of (i) her Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which her Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by her Department and *(y)* claimed by the Treasury. [40145]

Mr. Lammy: The Department for Culture, Media and Sport sold the freehold of the North East Corner of the Royal Garden Hotel, London in 2005 for the sum of £2.5 million.

In addition, in 2003 the Department sold the freehold of 33 Park Street, Windsor for £30,000; and in 2005 it sold the freeholds of 30, 31 and 32 Park Street for a total of £110,000.

The Department sold 10 Chantry Close, Windsor in 2003 for £232,000.

The Royal Parks sold 183 Kidbrooke Park Road, London in March 1999 for £120,000.

In each case the money was retained by the Department or The Royal Parks as an "appropriation in aid".

Information about the current value of property or land, or about sales of property or land, could be provided only at disproportionate cost.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what the cost was of pension contributions incurred by *(a)* her Department, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39996]

Mr. Lammy: Details of the cost of pension contributions are published annually in the Department for Culture, Media and Sport Resource Accounts and the Royal Parks Agency's Resource Accounts. Copies are placed in the Libraries of the House.

For 2005–06, employers' contributions are payable to the Principal Civil Service Pension Scheme (PCSPS) at one of four rates in the ranges 16.2 to 24.6 per cent. of pensionable pay, based on salary bands. The Scheme Actuary reviews employer contributions every four years following a full scheme valuation; last carried out as at 31 March 2003. The contribution rates reflect the cost of benefits as they accrue (net of employee contributions), not the costs as they are actually incurred, and reflect past experience of the scheme.

The information requested for non-departmental public bodies and other public bodies for which the Secretary of State is responsible is not collected centrally and could be provided only at disproportionate cost.

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport how much was spent by her Department on refreshments in each year since 1997. [41254]

Mr. Lammy: All expenditure on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government Accounting.

The following table shows expenditure on refreshments, including working breakfasts or lunches, refreshment at meetings and official entertainment by the Department since 1997–98. In 2002–03 changes were made in the way refreshment expenditure was captured to include associated staff costs following the contracting out of the hospitality service.

Financial year	*Expenditure (£)*
1997–98	15,269.81
1998–99	24,496.51
1999–2000	33,359.78
2000–01	51,666.75
2001–02	32,586.56
2002–03	87,150.29
2003–04	90,007.37
2004–05	97,803.39
2005–06 (to December 2005)	37,823.40

Digital Television (Wales)

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport what meetings the Department has held with representatives of the BBC

relating to Freeview coverage in *(a)* Monmouthshire and *(b)* Wales in the last 12 months; and if she will make a statement. [42452]

James Purnell: Officials meet regularly with Ofcom, spectrum planners and broadcasters about detailed plans for digital terrestrial coverage at digital switchover. These discussions often include the BBC and cover a wide range of issues including digital terrestrial coverage in Wales.

Energy Efficiency

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what proportion of electricity used by buildings in *(a)* her Department and *(b)* its agencies came from renewable sources in each year from 1997. [42795]

James Purnell: The information requested is as follows.

(a) The proportion of electricity used by the Department that was from renewable sources was as follows:

	Percentage
2004–05	86
2003–04	83

The Department was not supplied with renewable energy prior to 2003, but is now supplied with 100 per cent. renewable energy.

(b) The proportion of electricity used by The Royal Parks that was from renewable sources was as follows:

	Percentage
2004–05	100
2003–04	100
2002–03	100

The Royal Parks do not hold data for periods prior to 2002.

Gaming Act

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport how many applications to the Gaming Board were *(a)* submitted and *(b)* approved for gambling licences under the Gaming Act 1968 in each year since 1996–97, including 2005–06 to date. [42590]

Mr. Caborn: The tables set out the number of applications by sector that the Gambling Commission (previously the Gaming Board for Great Britain) received and approved for gambling licences during the period requested.

	Bingo Consent	
	Applications received	*Applications issued*[1]
1996–97	86	90
1997–98	83	48
1998–99	43	43
1999–2000	56	48
2000–01	41	25
2001–02	56	46

Total	56,892	51,834

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport if a date has been determined for when applications for a casino licence under the Gaming Act 1968 will cease to be considered or issued. [42591]

Mr. Caborn: A draft order was published on the DCMS website for consultation on 23 December 2005. This proposes setting a final date of 28 April 2006 for applications under the Gaming Act 1968 for certificates of consent in respect of new casinos.

Grand Prix Motor Racing

Mr. Jack: To ask the Secretary of State for Culture, Media and Sport what information her Department holds on the amounts of public funding made available to support Grand Prix motor racing in other EU member states. [42318]

Mr. Caborn: The Department for Culture, Media and Sport does not currently hold any current information on the amounts of public funding made available to support Grand Prix motor racing in other EU member states.

Heritage Lottery Fund

Mark Fisher: To ask the Secretary of State for Culture, Media and Sport how much the Heritage Lottery Fund has spent on *(a)* works of art and *(b)* other artefacts in each year since the Fund was established; and what proportion of its expenditure this represented in each case in each year. [40375]

Mr. Lammy: The Heritage Lottery Fund only holds acquisitions data broken down by art and artefacts for those acquisitions made with its funds by museums and galleries. This information is summarised as follows:

Financial year	HLF total annual spend (£)	HLF spend on acquisition of works of art for museums and galleries (£)	Acquisition of artwork as percentage of total HLF spend	HLF spend on acquisition of artefacts/ other objects for museums and galleries (£)	Acquisition of other objects as percentage of total HLF spend
1994-95	24,607,922	0	0.0	0	0.0
1995-96	183,572,167	18,457,374	10.1	352,700	0.2

EDUCATION AND SKILLS

Apprenticeships

Mr. Davey: To ask the Secretary of State for Education and Skills how much is allocated to spending on Adult Apprenticeship pilots at *(a)* Level 2, *(b)* Level 3 and *(c)* graduate apprenticeships funded by the Learning and Skills Council; and whether these funds are included in the (i) work-based learning and (ii) NETP budget allocations. [43086]

Phil Hope: The Learning and Skills Council National Office have allocated £2 million to the Apprenticeships for Adult entry trials, from their Workforce Development budget. This is not part of either the work based learning or NETP funding lines. The trials include programmes at Level 2 and Level 3. It is not possible at this stage to identify the proportion of that funding allocated at each level. Graduate Apprenticeships are not part of this trial.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many and what percentage of *(a)* apprenticeships and *(b)* advanced apprenticeships supported by the Learning and Skills Council which commenced in 2002 have been successfully completed. [43127]

Phil Hope: The following table shows completion rates for apprenticeship programmes from 2002/03 to 2004/05.

Programme type	Numbers completing frameworks	Framework completion rate (x percentage)
2002/03		
Advanced apprenticeships	18,624	32
Apprenticeships	24,336	24
All apprenticeships	42,960	27
2003/04		
Advanced apprenticeships	16,448	32
Apprenticeships	32,040	30
All apprenticeships	48,488	31
2004/05		
Advanced apprenticeships	19,068	38
Apprenticeships	47,677	40
All apprenticeships	66,745	40

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Education and Skills when the Minister of State for Children will reply to the letter dated 30 November 2005 from the right hon. Member for Manchester, Gorton, with regard to Mrs. Nazia Parvega. [41838]

Beverley Hughes: My right hon. Friend the Minister for Children, Young People and Families replied to my right hon. Friend's letter of 30 November on 11 January.

Departmental Estate

Bob Spink: To ask the Secretary of State for Education and Skills what *(a)* land and *(b)* property is owned by her Department in Castle Point. [42896]

Maria Eagle: The Department does not own any *(a)* land and *(b)* property in Castle Point.

Departmental Targets

Mr. Hayes: To ask the Secretary of State for Education and Skills which departmental targets for 2005 were not met. [43072]

Bill Rammell: The Department for Education and Skills publishes progress against PSA targets through its Departmental Annual Report and Autumn Performance Report. Progress was reported most recently in the 2005 Autumn Performance Report (CM 6719), which was published in December 2005 and is available in the House of Commons Library.

Education Costs

Mr. Laws: To ask the Secretary of State for Education and Skills what her latest estimate is of the total average cost to public funds per student of attending higher education in England, including maintenance costs and student tuition; and if she will make a statement. [41439]

Bill Rammell: The planned level of public funding for higher education institutions in the financial year 2005–06 is £4,630[1] per full-time equivalent fundable student[2], excluding income from tuition fees. This represents the DfES grant per student for teaching and research.

The provisional average fee expenditure per English domiciled student support scheme student in academic year 2005/06 is £540[1] per student (based on fee support eligible students). The provisional average cost of maintenance expenditure (allowances and grants[3]) in AY 2005/06 is £280 per student (based on students eligible for support).

The provisional average amount[1] of student loan taken out by English domiciled student support scheme students taking out a loan in AY 2005/06 is estimated to be £3,490. This represents the average cash value of maintenance loans advanced. In resource cost terms this would be around £770 (based on a RAB[4] charge of 22 per cent. under a 2.2 per cent. discount rate).

The different components of the total average cost to public funds given cannot be sensibly aggregated to give an overall cost per student as they relate to different student populations.

[1] Figure rounded to the nearest £10.

[2] Includes full time and part time undergraduate and postgraduate students.

[3] These allowances and HE Grants are available to eligible students for extra help depending on their circumstances, (e.g. students with disabilities, students with dependents, single parent students, those incurring certain travel costs and those who have recently left care).

[4] The RAB (Resource Accounting and Budgeting) charge is an estimate of the cost to Government of the percentage of the face value of loans issued in a given year which reflects the resource cost over the expected life of the loan to the Government of making loans.

Mr. Laws: To ask the Secretary of State for Education and Skills what proportion of the total costs of higher education were paid by *(a)* tuition fees and *(b)* public subsidy in each year from 1992–93; what the estimate is for each year to 2007–08; and if she will make a statement. [41445]

Bill Rammell: The following table shows the proportion of total income to English HE institutions from tuition fees and public funding, for years for which data is available. Figures for years beyond 2003/04 are not available because we do not estimate future income to institutions.

Percentage

	1994/95	1995/96	1996/97	1997/98	1998/99
Proportion of income from public funding[1]	71	70	68	67	63
Proportion of income from tuition fees[1]	21	21	22	22	23

Percentage

	1999/2000	2000/01	2001/02	2002/03	2003/04
Proportion of income from public funding[1]	61	60	60	60	60
Proportion of income from tuition fees[1]	23	23	24	25	25

[1] Both proportions will include tuition fee income from public sources, which accounted for around 9 per cent. of total income in 2003/04. Total income to institutions will also include (non-tuition fee) income from private sources.

Source:
Higher Education Statistics Agency Finance Record

Estimates of the fee income to higher education providers under the variable fees policy are contained in my written statement of 10 November 2005, *Official Report*, column 22WS.

Education Working Groups

Mr. Hayes: To ask the Secretary of State for Education and Skills what EU working groups deal with education. [43083]

Bill Rammell: There is one formal working group of the Council of the EU dealing with education, the Education Committee, which prepares for the Education Council. DfES officials attend this committee along with an official from the UK Permanent Representation to the EU in Brussels.

In addition to this there are a number of ad hoc expert groups set up by the European Commission as part of the Open Method of Co-ordination (a means of spreading best practice first set out in the Lisbon Council Conclusions of March 2002), principally under 'Education and Training 2010', the education strand of the Lisbon strategy. These groups are not formal Council working groups, are voluntary and assist the Commission to develop initiatives. Experts in this context may be expert officials from the particular government department or non-governmental experts appointed by Ministries or the Commission, depending on the remit of the group.

There is also an Advisory Committee on Vocational Training, attended by officials, which has a statutory basis: to advise the European Commission on any initiatives it takes in the field of vocational education and training. Directors General for both Vocational Training and Higher Education from the EU member states meet usually twice a year to discuss priorities in education and training.

Gershon Review

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will make a statement on progress towards Gershon Review cost-cutting targets in her Department. [43085]

Bill Rammell: My Department reported progress towards our Gershon Review target in the Department's Autumn Performance Report. It will report further progress in the Departmental Annual Report which we expect to publish in April.

Graduation Statistics

Mr. Wills: To ask the Secretary of State for Education and Skills what percentage of those *(a)* enrolling in and *(b)* obtaining (i) post-graduate and (ii) doctoral degrees in (A) 1995 and (B) 2005 attended (1) fee-paying secondary schools and (2) state-funded secondary schools. [41915]

Bill Rammell: The available information on the previous school type of students is published by the Higher Education Statistics Agency (HESA) in Performance Indicators in Higher Education in the UK[1]. However, these figures cover undergraduate entrants only and corresponding information for postgraduates is not available.

The latest available information on the school background of higher education students covers young (aged under 21) first degree entrants, and is shown in the following table.

Proportion of UK domiciled young full-time first degree entrants to English Institutions from state schools and colleges

Academic year	*Proportion from state schools and colleges*
1997/98	81.0
1998/99	84.4
1999/2000	84.1
2000/01	85.0
2001/02	85.2
2002/03	86.4
2003/04	86.1

Source:
"Performance Indicators in Higher Education" published by the Higher Education Statistics Agency (HESA).

Higher Education

Mr. Hayes: To ask the Secretary of State for Education and Skills what proportion of adults in England have completed higher education courses. [43078]

Bill Rammell: This data is not available precisely in the form requested.

In summer 2005 the Labour Force Survey estimates that 26.6 per cent. of working age people in England were qualified to level 4 or higher (higher education level). This equates to 8.2 million people of working age.

In the last academic year, 2004/05, 427,825 English domiciled students obtained higher education level qualifications at UK Higher Education institutions.

Respite Breaks

Harry Cohen: To ask the Secretary of State for Education and Skills what information she collects on the *(a)* availability and *(b)* demand for respite breaks for parents of disabled children; and if she will make a statement. [42775]

Maria Eagle: The Department for Education and Skills does not collect this information directly. The Department uses the Shared Care Network National Survey.

(a) The 2006 Shared Care Network survey (to be published later this year) identifies 128 short break schemes in the UK, with over 6,500 children using these services.

(b) The 1999 Shared Care Network survey found that 89 per cent. of schemes had a waiting list, with 3,736 children waiting for a service.

Schools (Broadband Internet Access)

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of *(a)* primary schools and *(b)* secondary schools has broadband internet access (i) in England and (ii) local education authority. [39515]

Phil Hope: A list of broadband internet connections to (i) primary and (ii) secondary schools within each local authority in England is attached at annex 1.

As at November 2005, 85 per cent. of schools (99 per cent. of secondary schools and 83 per cent. of primary schools) had access to broadband.

Annex 1: Broadband connections by local authority as at 30 November 2005

Special Education Needs

Ms Angela C. Smith: To ask the Secretary of State for Education and Skills what *(a)* proportion of the Budget and *(b)* amount per pupil was spent by each local education authority in the Yorkshire and Humber region on special education needs. [43089]

Maria Eagle: The information requested for each local education authority in the Yorkshire and Humber region can be found in the following table and is for the financial year 2005–06:

Local authority name	*Total planned expenditure on the education of children with SEN1,2 (£)* *(a)*	*Total planned expenditure on SEN transport1 (£)* *(b)*	*Total planned education revenue expenditure (£)* *(c)*	*Total planned expenditure on the education of children with SEN (excluding SEN transport) as a percentage of total education spending* *(a/c)*
Yorkshire and the Humber	382,531,000	42,858,000	3,173,505,000	12.1
Barnsley	14,700,000	1,315,000	131,550,000	11.2
Bradford	43,949,000	4,836,000	351,110,000	12.5
Calderdale	15,728,000	1,667,000	137,501,000	11.4
City of Kingston-upon-Hull	22,823,000	2,661,000	166,771,000	13.7
Doncaster	18,491,000	2,789,000	194,361,000	9.5
East Riding of Yorkshire	20,982,000	3,736,000	189,343,000	11.1
Kirklees	25,619,000	3,278,000	247,896,000	10.3
Leeds	53,623,000	5,934,000	440,686,000	12.2
North East Lincolnshire	13,955,000	939,000	105,811,000	13.2
North Lincolnshire	14,645,000	1,531,000	95,511,000	15.3
North Yorkshire	44,326,000	3,911,000	348,999,000	12.7
Rotherham	23,492,000	1,912,000	177,677,000	13.2
Sheffield	35,692,000	4,382,000	298,942,000	11.9
Wakefield	22,217,000	2,924,000	195,547,000	11.4
York	12,288,000	1,045,000	91,799,000	13.4

Local authority name	*Total planned expenditure on the education of children with SEN (including SEN transport) as a percentage of total education spending* *((a + b)/c)*	*Total number of pupils with special educational needs as at January 2005*[3] *(d)*	*Total planned expenditure on the education of children with SEN (excluding SEN transport) per SEN pupil*[4,5,6] *(a/d)*	*Total planned expenditure on the education of children with SEN (including SEN transport) per SEN pupil*[4,5,6] *((a + b)/d)*
Yorkshire and the Humber	13.4	143,870	2,660	2,960
Barnsley	12.2	6,170	2,380	2,600
Bradford	13.9	17,070	2,570	2,860
Calderdale	12.7	5,670	2,770	3,070
City of Kingston-upon-Hull	15.3	8,060	2,830	3,160
Doncaster	10.9	7,830	2,360	2,720
East Riding of Yorkshire	13.1	7,560	2,780	3,270
Kirklees	11.7	11,330	2,260	2,550
Leeds	13.5	16,790	3,190	3,550
North East Lincolnshire	14.1	6,670	2,090	2,230
North Lincolnshire	16.9	5,800	2,530	2,790
North Yorkshire	13.8	13,100	3,380	3,680
Rotherham	14.3	9,460	2,480	2,690
Sheffield	13.4	15,500	2,300	2,590
Wakefield	12.9	8,510	2,610	2,950
York	14.5	4,360	2,820	3,060

[1] Figures are reported using cash terms as submitted by the LEA on 13 January 2006.

[2] Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter authority recoupment, fees for pupils at independent special schools and abroad, educational psychology service, LA functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to local authority maintained nursery, primary and secondary schools identified as "notional SEN" and the individual schools budget for special schools. The figures recorded against "notional SEN" are only indicative of the amount that might by spent by schools on SEN. Not included is any budgeted SEN transport expenditure.

[3] The total number of pupils with SEN as at January 2005 is calculated as the combination of all pupils in special schools (maintained and non-maintained), all pupils in maintained schools with statements, SEN pupils without statements in maintained schools and pupils in independent schools and academies with statements. These figures are drawn from the DfES Annual Schools Census and Form 8B and are rounded to the nearest 10 pupils.

[4] The latest financial data available are Budget data for financial year 2005–06 while the pupil numbers are as at January 2005. Consequently there is a mismatch between academic and financial year pupils with the denominator for the unit cost being the number of pupils with SEN on the census date in January of the 2005–06 financial year.

[5] The unit cost calculated by dividing planned expenditure on SEN by the number of pupils with SEN obscures a much larger range of costs and is a mixture of all the education costs for children in maintained special schools and just the SEN part of the education of children in other settings.

[6] Figures are rounded to the nearest £10 and may not sum due to rounding.

Note:

Financial data are taken from local authorities' 2005–06 Section 52 Budget Statements submitted to the DfES while pupil numbers are drawn from the January 2005 DfES Annual Schools Census and Form 8b.

Mr. Gibb: To ask the Secretary of State for Education and Skills what guidance she has issued to local authorities in 2005 on *(a)* the issuing of statements of educational need and *(b)* statemented provision. [40724]

Maria Eagle: The statutory guidance on these matters, to which local authorities and others must have regard, is contained in the special educational needs (SEN) code of practice which was published in 2001. On 15 November 2005 the Department wrote to all chief education officers/directors of children's services in England giving advice on SEN procedures. The letter included advice on the Department's understanding of the law in respect of local authorities adopting blanket policies on carrying out statutory assessments and on specifying and quantifying provision in statements. The full text of the letter is available at www.teachernet.gov.uk/sen

Staying-on Rates (Westmorland and Lonsdale)

Tim Farron: To ask the Secretary of State for Education and Skills what the average staying-on rate in post-16 education was in Westmorland and Lonsdale constituency in each year since 1997. [43152]

Bill Rammell: The percentage of 16-year-olds in full-time education in England at the end of 2004 was estimated to be 74.2 per cent.—the highest ever rate. Percentage figures on participation in education by young people are not available for parliamentary constituencies, but are available for local authorities—including Cumbria LEA. These were published in the Statistical First Release "Participation in education and training by 16 and 17-year-olds in each local area in England"—SFR11/2005 on 31 March 2005.

The publication is accessible on the DfES website via the link, http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/index.shtml.

The specific figures are available through the following link: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/SFR11-2005tables_lea.xls.

Train to Gain Programme

Mr. Davey: To ask the Secretary of State for Education and Skills what estimate she has made of the level of spending on adult Level 3 training within the NETP Train to Gain programme in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [42654]

Phil Hope: The National Employer Training Programme is due to be rolled out from April 2006 under the title "Train to Gain". Within the programme we shall be trialling, initially in two regions North West and West Midlands, a subsidy to support those undertaking a Level 3 qualification. We have allocated £20 million in each of 2006–07 and 2007–08 for the trials.

In addition, employers in all regions will be able to obtain support through Train to Gain for employees without a first Level 2 qualification and who wish to go straight onto a Level 3 qualification. The support provided to these employees will be equivalent to what they would have received, had the learner been undertaking a Level 2 qualification in the same area. The cost of supporting those doing Level 3 rather than Level 2 will come out of the overall Train to Gain budget, rather than from a separate budget.

HEALTH

Cancer Treatment (GP Referrals)

Mr. Baron: To ask the Secretary of State for Health what progress the national health service has made towards meeting its target of a maximum two-month wait from urgent GP referral to first treatment for all cancers. [41170]

Ms Rosie Winterton *[holding answer 12 January 2006]:* The standard of a maximum wait of two months from urgent general practitioner referral to first treatment was introduced at the end of December 2005. The latest data on progress towards achievement of the standard are for quarter two, 2005–06 (July to September 2005) where 80.5 per cent. of patients received their first treatment for cancer within two months of urgent referral by their general practitioner. Progress data towards the one month (31 day) and two month (62 day) targets are available on the Department's website since quarter four, 2004–5, at:

www.performance.doh.gov.uk/cancerwaits/index.htm.

Consultants

Mr. Oaten: To ask the Secretary of State for Health if she will list the consultants which are being used by the commercial directorate in her Department; what the value is of those contracts; and whether payments are based on identified cost savings. [33610]

Jane Kennedy *[holding answer 1 December 2005]:* The commercial directorate functions as the central point in securing best value as well as achieving greater levels of effectiveness for the Department and the national health service through the use of best commercial practices and better commercial relationships. It is also responsible for the procurement of independent sector treatment centres and the implementation of the NHS supply chain excellence programme.

The independent sector treatment centre programme has involved procuring circa £2 billion of activity across a range of projects including treatment centres, mobile magnetic resonance imaging scan units, and commuter walk-in centres. The next phase of procurements are currently planned to involve over £3.5 billion of activity. In addition, the implementation of the NHS supply chain excellence programme will deliver potential annualised savings of £500 million by 2007–08.

In the financial year 2004–05, the directorate used the following consultancy and legal firms at a cost of £38.4 million, including £12.8 million on legal advice, from the department's programmes' budget. These were: Accenture Plc., Addelshaw Goddard, Ashurst and Co., Atos Origin IT, Augmentis, Avail/Yale/Tribal Consulting, Currie and Brown, Deloitte, AT Kearney, Eversheds, Freshfields Bruckhaus Deringer, Gardiner and Theobald, HOK International, KPMG, Marsh UK Ltd., Morgan Cole, National Economic Research, NDY Consulting, NHS Professionals, OVE Arup and Partners, Precept, PriceWaterhouse Coopers, Translucency Ltd., Willis Ltd., Wragge and Co.. Individual contracts vary, but payments are made for work completed against a set of contractual deliverables.

In addition, in the financial year 2004–05 the directorate had 125 contracts with independent contractors and agencies at a cost of £28.6 million from the Department's programmes' budget.

Dentistry

Mr. Lansley: To ask the Secretary of State for Health what representations she has recently received on the effectiveness of personal dental services contracts; and what assessment she has made of *(a)* treatment incentives for dentists and *(b)* the cost-effectiveness of contracts. [26003]

Ms Rosie Winterton: The Department has not received any formal representations on the effectiveness of personal dental services (PDS) agreements. The evidence of pilot PDS agreements, now covering 35 per cent. of dentists, is that when a dentist's national health service earnings are no longer directly related to individual treatments, he or she are able to plan simpler and more appropriate courses of treatment. This frees up time and capacity that can be used to spend more time with patients, adopt a more preventive approach to dentistry, and improve management of workload.

Assessing cost-effectiveness depends on what criteria are used to measure outputs or outcomes. Any assessment based on measuring individual items of treatment would not take into account the benefits for patients of simpler and more appropriate courses of treatment and a greater focus on oral health promotion. In the future, the cost effectiveness of contracts could be assessed by comparing expenditure with courses of treatment, numbers of patients accessing services and improvements in oral health.

IVF Treatment

Mr. Drew: To ask the Secretary of State for Health what the basis is for the policy that it is *(a)* clinically effective and *(b)* cost effective to restrict NHS funding for IVF treatment to women aged 30 years and over. [42257]

Caroline Flint: We do not have such a policy. At our request, the National Institute for Health and Clinical Excellence issued a guideline, in 2004, on the most appropriate clinical treatment for people with fertility problems. That guideline did not refer to restricting in vitro fertilisation treatment to women aged 30 and over. The primary responsibility for the provision of infertility services rests with the national health service at local level. We are discussing with Infertility Network UK, the leading voluntary organisation representing the interests of fertility patients, ways in which they can work with primary care trusts to help ensure that the patient's voice is heard when decisions about the provision of services are made at local level.

Medical Student Debts

Mr. Jim Cunningham: To ask the Secretary of State for Health what financial assistance her Department makes available for medical student debts. [39738]

Mr. Byrne: The Department makes student support available from the fifth year of undergraduate medical education and for postgraduate students on four-year courses in years two to four.

Details are available in the documents, "A guide to financial support for higher education students in 2005/2006" and "Financial Help for Health Care Students (eighth edition)", copies of which are available in the Library. We make no special provision for financial assistance for medical student debts.

Mental Health

Danny Alexander: To ask the Secretary of State for Health what assessment she has made of the relationship between different childcare environments and mental health outcomes in *(a)* infancy and *(b)* adulthood; and if she will make a statement. [40898]

Beverley Hughes: I have been asked to reply.

DfES has commissioned a specific study investigating the effects of different types of childcare and early education settings (the Effective Provision of Pre-School Education (EPPE) study). This and other evidence suggests high quality integrated childcare and education settings are the most effective environments in improving outcomes for children. Childcare can also reduce stress among parents with young children.

No studies have yet investigated the relationship between different childcare environments and adult mental health.

NHS Finance Data

Mr. Burstow: To ask the Secretary of State for Health how much financial support has been committed to each NHS organisation from *(a)* strategic health authorities and *(b)* the NHS Bank in (i) 2004–05 and (ii) 2005–06. [35368]

Mr. Byrne: The latest year for which audited data is available on the financial support given to national health service organisations by strategic health authorities (SHAs), and the NHS Bank is 2004–05.

Tables have been placed in the Library, which set out the financial support reported by primary care trusts and NHS trusts. Some of this support is internally generated by other organisations within the SHA, and some of the support is provided by the NHS Bank.

Private Finance Initiative

Mr. Burstow: To ask the Secretary of State for Health what the capital cost was of each private finance initiative scheme over £25 million for which her Department is responsible *(a)* at the outline business case stage, *(b)* as reported in the 2004–05 financial year and *(c)* in the 2005–06 financial year; and what the percentage change in capital costs (i) has been since the outline business case stage and (ii) is in the last 12 months. [35147]

Mr. Byrne: This information is collected from national health service trusts and is included in the tables to the Health Select Committee as part of the Department's evidence for the annual public expenditure inquiry. This shows the requested information for all schemes over £10 million. A copy of this year's table 5.3.4 has been placed in the Library.

Smoking

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 4 March 2005, *Official Report*, column 1472W, on smoking, how weighted data differs from unweighted data; and if she will provide the unweighted data for the percentage of adults over 16 years who were smokers, broken down by sex in each year since 1998. [41953]

Caroline Flint: Data on smoking for those aged 16 and over are available from the Office for National Statistics (ONS) general household surveys (GHS). Questions on smoking have been included in the GHS biannually since 1974 and annually since 2000 in order to monitor trends in patterns of consumption.

The weighting of data was introduced on the GHS in 2000. The general household survey 2000 specifies that the introduction of weighted data uses a two-step approach: "The data is weighted to compensate for non-response in the survey (sample-based weighting). The second step weights the sample distribution so that it matches the population in terms of region, age group and sex (population-based weighting)".

The general household survey 2000 report presents weighted and unweighted data for 1998 to give an indication of the effect of weighting. Consequently, from 1998 there is discontinuity in the time trend with previous years.

The ONS general household survey 2004 specifies that "the effect of weighting on the smoking data is slight, increasing the overall prevalence of cigarette smoking by one percentage point each year".

Unweighted data for the percentage of adults over 16 years who were smokers since 1998 is unavailable. From 1998, date is only available on a weighted basis.

A further explanation regarding the introduction of weighting into the GHS can be found electronically at: http:///www.statistics.gov.uk/lib2000/.

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the likely effect of increasing the rate of tax on tobacco on the levels of smoking in the population. [42934]

John Healey: I have been asked to reply.

The rate of tax on tobacco is just one of many factors that influence the levels of smoking in the population. HM Revenue and Customs and LSE academics have developed an economic model of the tobacco market, designed to evaluate the impact of tax and prices on the consumption of tobacco in the UK. The model is published in GES Working Paper No 150 "The Demand for Tobacco Products in the UK" December 2004 and is available on HMRC's website.

John Bercow: To ask the Secretary of State for Health how many people are taking part in smoking cessation programmes in each primary care trust area in England and Wales. [39662]

Caroline Flint: Data on the number of people who set a quit date through the national health service stop smoking services and of those, how many had successfully quit, based on self report, by primary care trust in England, is published in table 18 in the statistical bulletin, "Statistics on NHS Stop Smoking Services in England, April 2004 to March 2005". A copy is available in the Library.

Thrombosis

John Smith: To ask the Secretary of State for Health what changes to undergraduate medical training have been put in place since the Government response to the Health Committee's report on prevention of venous thromboembolism in hospitalised patients. [41493]

Caroline Flint: At the same time that the Government published its response on 21 July 2005 to the Health Committee's report, "Guidelines on the Prevention of Venous Thromboembolism in Hospitalised Patients", the chief medical officer (CMO) issued a letter drawing the Committee's report to the attention of the General Medical Council, the Specialist Training Authority of the Medical Royal Colleges and the Postgraduate Medical Education and Training Board.

The venous thromboembolism (VTE) independent expert working group, established by Government to make recommendations on the prevention and treatment of VTE in hospitalised patients to the CMO

by summer 2006, is looking at the issue of including the appropriate use of thromboprophylaxis in both undergraduate and postgraduate medical training.

John Smith: To ask the Secretary of State for Health how many hospitals *(a)* have thrombosis committees and *(b)* undertake risk assessment on new patients for thrombosis. [41494]

Caroline Flint: We are aware that there are a number of hospitals that have thrombosis committees and undertake risk assessments on new patients for thrombosis. As part of its work, the venous thromboembolism independent expert working group is currently identifying where this good practice exists around the country.

John Smith: To ask the Secretary of State for Health what representations she has received on implementing the Health Select Committee's recommendations on the prevention of venous thromboembolism in hospitalised patients; and if she will make a statement. [41495]

Caroline Flint: The Government responded to the Health Committee's report on 21 July 2005. In our response, we announced that we would establish an independent expert working group on the prevention of venous thromboembolism in hospitalised patients. We have asked the VTE expert group to submit its report and recommendations to the chief medical officer by summer 2006. The first meeting of the group took place on 7 November 2005.

John Smith: To ask the Secretary of State for Health what the *(a)* remit and *(b)* composition is of the expert panel on venous thromboembolism (VTE) she has established to review the Health Select Committee's recommendations on the prevention of VTEs in hospitalised patients; and when she expects it to report. [41496]

Caroline Flint: The venous thromboembolism (VTE) independent expert working group has been asked to:

Consider how current best practice and guidance can be promoted and implemented and what resources might be needed to support delivery of any strategy through existing structures. This includes consideration of the need to promote or clarify existing guidance on the use of:

mechanical devices (foot-pumps)

aspirin

other pharmacological preparations (heparin or other anti - Xa agent);

Recommend action for implementation pending publication of the National Institute for Health and Clinical Excellence venous thromboembolism clinical guidelines in summer 2007; and

Report to the chief medical officer by summer 2006.

The VTE independent expert working group comprises 22 members. The expert group is chaired by Dr. Anita Thomas and includes representatives from all areas of expertise in venous thromboembolism including primary and secondary care, patient legal representation, education, nurses and victims. The group also has representatives from professional bodies representing the Academy of Medical and Royal Colleges and Faculties, British Cardiac Society, British Orthopaedic Society, British Thoracic Society, Citizens Advice Bureau, Healthcare Commission, National Patient Safety Agency, NHS Confederation and NICE.

Details of the work of the VTE independent expert working group including its terms and reference and membership can be found on the Department's website at:
www.dh.gov.uk/vte.

CABINET OFFICE

Audible Fire Alarms

Bob Spink: To ask the Chancellor of the Duchy of Lancaster what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42888]

Mr. Jim Murphy: All premises occupied by the Cabinet Office are fitted with audible fire alarms.

Departmental Estate (Castle Point)

Bob Spink: To ask the Chancellor of the Duchy of Lancaster what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42902]

Mr. Jim Murphy: The Cabinet Office does not own any land or property in Castle Point.

Public Appointments (Pensions)

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster how many and what percentage of the total public appointments for which he is responsible carry entitlement to a pension. [41936]

Mr. Jim Murphy: The Chancellor of the Duchy of Lancaster is responsible for making appointments to five advisory non-departmental public bodies. None of the appointments carry entitlement to a pension.

NORTHERN IRELAND

Aerial Photographs

Mrs. Spelman: To ask the Secretary of State for Northern Ireland how many aerial photographs Ordnance Survey of Northern Ireland *(a)* took and *(b)* purchased from external suppliers in each of the last five years. [42910]

Mr. Hanson: The information is as follows:

(a) In each of the last five years Ordnance Survey of Northern Ireland (OSNI) has taken the following numbers of aerial photographs.

	Number
2001	1,315
2002	1,950
2003	2,720
2004	2,368
2005	2,825
Total	11,178

(b) In each of the last five years Ordnance Survey of Northern Ireland has not purchased any photographs from external suppliers to support its mapping programmes.

However, between 2003 and 2005 OSNI has procured, via Government Purchasing Agency, the following numbers of aerial photographs as part of a project to create Orthophotography[1] coverage of Northern Ireland.

[1] Digital imagery in which distortion from the camera angle, perspective and ground slope has been removed, thus equalizing the scale across the entire image.

	Number
2001	0
2002	0
2003	4,539
2004	1,798
2005	2,263
Total	8,600

Brooklands Primary School

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when a decision will be made on the future provision of *(a)* a school crossing person at Brooklands Primary School at Dundonald in Strangford and *(b)* the retention of the toy and book library at the school. [42261]

Angela E. Smith: The South-Eastern Education and Library Board has confirmed that the employment of a temporary school crossing patrol at Brooklands Primary School will continue until such time as a review of the policy on school crossing patrols has been completed. This review is ongoing. A paper was recently submitted to the General Purposes Committee, which has requested additional information. This will be provided for the next meeting of the Committee in February.

With regard to the retention of a toy and book library, the board has advised that this is a matter of the board of governors of Brooklands Primary School. While the board previously provided funding it has now determined that it can no longer provide such assistance in any of its schools.

Eastern Health Board

Mr. McGrady: To ask the Secretary of State for Northern Ireland what assessment he has made of the funding deficit of the Eastern Health Board; what steps he will take to address the funding deficit; and if he will make a statement. [42392]

Mr. Woodward: The Eastern Health and Social Services Board is reporting a £511,000 surplus for the financial year to November 2005 and is forecasting a breakeven position for the year to March 2006.

Employment Statistics

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many and what percentage of adults aged over 25 years were seeking paid work in each region in the last year for which figures are available ranked in descending order by region. [21172]

Angela E. Smith: The following table provides relevant estimates from the 2004 NI Annual Labour Force Survey database.

Adults aged over 25 who were seeking paid work by NUTS3 region

NUTS3 region	*Number of adults aged over25 seeking paid work*	*Total number of adults aged over 25*	*Number of over 25s seeking paid work as a percentage of all over 25s*
North of NI	7,000	166,000	4
West and South of NI	7,000	229,000	3
Belfast	[1]5,000	163,000	[1]3
East of NI	[1]4,000	250,000	[1]1
Outer Belfast	[1]3,000	252,000	[1]1
Northern Ireland	25,000	1,060,000	2

[1] These estimates are based on small sample sizes and are therefore subject to a higher than usual degree of sampling variability. They should therefore be treated with caution.

Source:
2004 NI Annual Labour Force Survey Database

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many and what percentage of young adults aged 16 to 18 years in each region were not in education, training or work in the most recent year in which figures are available, ranked in descending order. [21185]

Angela E. Smith: The following table provides relevant estimates from the 2004 Annual Labour Force Survey database.

Persons aged 16 to 18 who are not in education, training or work by NUTS3 region

NUTS3 region	*Number of 16 to 18-year-olds not in education, training or work*	*Total number of 16 to 18-year-olds*	*Number of 16 to 18-year-olds not in education, training or work as a percentage of all those aged 16–18*
Belfast	[1]3,000	13,000	[1]21
Outer Belfast	[1]3,000	16,000	[1]16
North of NI	[1]2,000	15,000	[1]12
East of NI	[1]1,000	18,000	[1]6
West and South of NI	[2]	18,000	[2]
Northern Ireland	8,000	80,000	10

[1] These estimates are based on small sample sizes and are therefore subject to a higher than usual degree of sampling variability. They should therefore be treated with caution.
[2] Estimates are not shown as they are potentially disclosive.

2004 NI Annual Labour Force Survey Database.

High School (Saintfield)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when a decision will be made on whether the proposed integrated high school in Saintfield will be approved; and if he will make a statement. [42262]

Angela E. Smith: A decision will be made on this proposal within the next few weeks.

IT Projects

Dr. Cable: To ask the Secretary of State for Northern Ireland how many of the IT projects costing over £1 million in use in his Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if he will list them. [26604]

Mr. Woodward: There have been five IT projects developed for the NIO since 1997, none of these were subject to scrutiny by the Public Accounts Committee.

Dr. Cable: To ask the Secretary of State for Northern Ireland how many IT projects which cost over £1 million and were introduced since 1997 are in use in his Department. [26605]

Mr. Woodward: The following table refers to the Northern Ireland Office. It does not include figures for the 11 departments of the Northern Ireland Administration.

	Project	*Purpose*
1997	—	
1998	—	
1999	OASIS Y2K Refresh	To upgrade NIO Departmental infrastructure and make it Y2K compliant.
1999	COMPASS (to 2002)	To provide an e-human resources system for the Northern Ireland Prison Service.
1998	Bloody Sunday Inquiry—Londonderry (to 2000)	Implementation of IT systems to support the work of the Inquiry.
2000	TARIFF (to 2004)	To provide office automation and an electronic claim process in system for criminal injuries compensation in Northern Ireland
2001	PRISM (to spring 2006)	To provide a prisoner record system for the Northern Ireland Prison Service
2002	Causeway (PPP project to 2013)	A joint enterprise by criminal justice organisations in Northern Ireland to share information electronically.
2002	Bloody Sunday Inquiry—London	Implementation of IT systems to support the work of the Inquiry.
2003	DPP INFRASTRUCTURE	To implement a modern ICT infrastructure for the DPP NI.
2003	FLAX (to 2004)	Replace NIO IT infrastructure, provide Internet and intranet an meet electronic document and records management targets.

Laptop computers

Lynne Featherstone: To ask the Secretary of State for Northern Ireland how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in his Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if he will make a statement. [4118]

Mr. Woodward: The following table gives information on laptops purchased by the Northern Ireland Office.

	Number
1996–97	25
1997–98	28
1998–99	34
1999–00	55
2000–01	30
2001–02	22
2002–03	34
2003–04	37
2004–05	34

Neither the current Secretary of State nor Ministers have laptops.

In the period from 1999 to date private offices were provided with a total of seven laptops. Detailed information prior to 1999 is not available. There are two laptops currently with Ministers' special advisers.

No laptops have been reported lost. Three laptops have been reported as stolen. Each cost in the region of £1,500.

MRSA

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients in each hospital in Northern Ireland *(a)* contracted MRSA and *(b)* died of MRSA in the last two years; how many of each were senior citizens; and what assessment he has made of the effect of the guidelines for greater hygiene practice have had on the number of incidents. [42263]

Mr. Woodward: Except in the case of the mandatory returns on patient episodes of MRSA bacteraemias, hospital Trusts are not required to record or collate the numbers of patients who are colonised or infected with MRSA, or their age. MRSA bacteraemia tables derived from data supplied by acute hospital Trusts are published annually by the Communicable Disease Surveillance Centre (CDSC) Northern Ireland. The

fourth and latest annual report on this indicator for MRSA infection in hospitals is available on the CDSC website at www.cdscni.org.uk.

Causes of death are classified by International Classification of Diseases (ICD), but the current version does not have a specific code for MRSA. Statistics on deaths where MRSA was a contributing factor can be obtained by identifying deaths registered with specific conditions likely to be linked with MRSA and then manually checking the death certificate to identify whether MRSA was recorded. The following table gives the number of deaths registered in Northern Ireland in the two-year period 2003–04, where MRSA was mentioned on the death certificate, by place of death and pensionable age. The figures relate to all deaths where MRSA was mentioned on the certificate, regardless of whether it was the primary cause of death or not.

	MRSA mentions on death certificates in the period 2003 to 2004	
Place of death (HSS Trust)	*All ages*	*Pensionable age*[2]
Hospital		
Altnagelvin Group HSS Trust	5	4
Belfast City Hospital HSS Trust	11	10
Causeway HSS Trust	1	1
Craigavon area Hospital Group HSS Trust	7	4
Down Lisburn HSS Trust	4	4
Mater Infirmorum Hospital HSS Trust	4	4
Newry and Mourne HSS Trust	1	0
Royal Group of Hospitals HSS Trust	6	6
Sperrin Lakeland HSS Trust	7	7
Ulster Community and Hospitals HSS Trust	3	3
United Hospitals Group HSS Trust	8	8
Other[1]	17	16
Total	74	67

[1] Other' place of death includes deaths in nursing homes or in the home.

[2] 'Pensionable age' is defined as males aged 65 and over and females aged 60 and over.

Individual hospitals are working to effect improved hygiene among staff, patients and visitors through guidelines, controls assurance standards and other means. The Department of Health, Social Services and Public Safety ran an extensive TV advertising campaign last year on hand hygiene and antibiotic resistance. There was a 4.25 per cent. reduction in GP prescriptions of antibiotics in 2004–05 over the previous year (from 1.81m to 1.74m), at a time when overall numbers of prescriptions continue to rise.

Planning Applications

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will provide the necessary financial resources to Planning Service in order that they can *(a)* process area plans and *(b)* accelerate the processing of outstanding planning applications. [42388]

Angela E. Smith: My right hon. Friend the Minister of the Environment is content that the Planning Service has the necessary resources to enable it to deliver its programme of up-to-date area plan coverage for Northern Ireland and to improve the performance in processing planning applications.

In relation to both area plans and the processing of planning applications, there are many other parties involved such as, consultees, developers, agents and others, all of whom have a key role to play in ensuring a timely and efficient planning system.

The Planning Service is now in the third year of a three-year modernisation programme to deliver fundamental reforms to the planning system. Indeed as part of the Northern Ireland Priorities and Budget 2005–08, Planning Service secured an additional £5.5 million of funding to deliver the programme. Key elements involve the streamlining, strengthening and comprehensive reform of development control, development planning and planning policy processes.

Rates Revaluation

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what information the Ordnance Survey of Northern Ireland is providing to the Valuation and Lands Agency to assist the rates revaluation in Northern Ireland. [42913]

Mr. Hanson: The Ordnance Survey of Northern Ireland (OSNI) provides the following information to the Valuation and Lands Agency, as part of an ongoing service agreement. This information is provided for use within VLA's own office, for its own internal business use.

Large Scale 1:1250 and 1:2500 Vector Digital Data full Northern Ireland coverage

POINTER Address Data

1:10,000 Raster Colour Digital Data 44 per cent. coverage in ECW format

1:10,000 Raster Monochrome Digital Data full Northern Ireland coverage in TIFF format

1:12,000 Belfast Street Map Colour Digital Data in TIFF format

Discoverer Series 1:50,000 Raster Colour Digital Data full Northern Ireland coverage

1:50,000 Vector Digital Data (Ward Townland LGD) in Mapinfo format

1:210,000 Raster Colour Digital Data full Northern Ireland coverage in TIFF format

Coverage Diagram in DXF format

34.47 per cent. Orthophotography coverage of Northern Ireland (101 IG Sheets)—ECW format

Of the aforementioned products, the following are used by VLA to assist the rates revaluation in Northern Ireland.

Large Scale 1:1250 and 1:2500 Vector Digital Data full Northern Ireland coverage

POINTER Address Data

Discoverer Series 1:50,000 Raster Colour Digital Data full Northern Ireland coverage

Restorative Justice

Mr. Graham Stuart: To ask the Secretary of State for Northern Ireland what his policy is on the participation of people known to be associated with a paramilitary organisation in community-based restorative justice schemes. [41383]

Mr. Hanson: The draft guidelines for community based restorative justice, which are currently the subject of public consultation, make clear that it is unacceptable for anyone involved in paramilitary activity or criminality to work in schemes.

The consultation paper specifically seeks the views of respondents on the impact which the existence of past convictions should have on the assessment of an individual's suitability. Government will carefully consider the views of all respondents before coming to a final decision on the way forward.

Telecare Scheme

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will bring funding for the Telecare Scheme in Northern Ireland into line with provision in other parts of the country. [42390]

Mr. Woodward: I refer the hon. Gentleman to my answer of 5 December 2005, *Official Report*, column 1077W.

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will appoint a lead provider for the Telecare Scheme. [42408]

Mr. Woodward: I do not intend to appoint a lead provider for the Telecare Scheme in Northern Ireland. That is a matter for local service commissioners subject to value for money and procurement guidelines.

HOME DEPARTMENT

Asylum Seekers

Mr. Spellar: To ask the Secretary of State for the Home Department how many asylum seekers are resident in *(a)* Sandwell, *(b)* Dudley, *(c)* Wolverhampton, *(d)* Walsall, *(e)* Birmingham, *(f)* Solihull and *(g)* Coventry borough. [42456]

Mr. McNulty: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The number of asylum seekers supported by the National Asylum Support Service (NASS) are published on a quarterly and annual basis, broken down by local authority. The most recent publication covering the third quarter of 2005, and further historical publications are available on the Home Office Research Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1 .html.

Data on asylum seekers supported by NASS broken down by parliamentary constituency are also available from the Library of the House.

Greg Mulholland: To ask the Secretary of State for the Home Department pursuant to the Answer of 9 January 2006, to Question 38216, how long each of the 11 people who had their National Asylum Support Service support stopped in Leeds, North West following a final negative decision on their claim for asylum waited before they were deported. [42729]

Mr. McNulty: Of the 11 people referred to in my earlier reply one has been removed from the United Kingdom. The removal took place four months 27 days after their most recent asylum claim was fully determined.

Cash-in-transit Crime

Mr. McGovern: To ask the Secretary of State for the Home Department whether the Serious Organised Crime Agency will be involved in the combating of cash-in-transit crime. [42645]

Paul Goggins: The Serious Organised Crime (SOCA), as the National Criminal Intelligence Service (NCIS) did before it, will continue to gather and analyse intelligence at a strategic level. SOCA will be targeting criminals based on an assessment of the harm they cause and the impact that can be achieved. This may result in SOCA taking action; or action may be taken by local police forces who will be able to seek assistance from SOCA if they judge they require it.

Child Support Agency

Mr. Lancaster: To ask the Secretary of State for the Home Department whether it is Government policy that the IT company who designed and maintains the Child Support Agency (CSA) Case Management System is responsible for determining whether an individual's case is eligible for a manual calculation if their case cannot be logged onto the CSA computer system. [23174]

Mr. Plaskitt: I have been asked to reply.

The administration of the Child Support Agency is a matter for the Chief Executive Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds, dated 30 December 2005:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for the Home Office, whether it is Government policy that the IT company who designed and maintains the Child Support Agency (CSA) Case Management system is responsible for determining whether an individual's case if eligible for a manual calculation if their case cannot be logged onto the CSA computer system.

It is not Government policy to allow the IT company who designed and maintains the Agency's Case Management system to determine whether an individual's case is managed 'clerically'. Technical expertise from the supplier will be used to inform a decision, but the decision itself is made by the Agency.

I hope you find this helpful.

Closure Orders

David Davis: To ask the Secretary of State for the Home Department how many closure orders have been issued in each of the past two years. [42152]

Paul Goggins: From January 2004, when the powers to close premises under Section two of the Antisocial Behaviour Act 2003 commenced, until September 2004, 176 premises were closed.

From October 2004 to September 2005, 338 premises were closed.

Correspondence

Mr. Spellar: To ask the Secretary of State for the Home Department (1) when his Department will reply to the letter of 5 July 2005 from the right hon. Member for Warley regarding Mr. and Mrs. Ergonul of Siwell Road, Smethwick; [42416]

(2) when his Department will reply to the letter of 5 October from the right hon. Member for Warley regarding Ms Beckford of Queens Close, Smethwick. [42455]

Mr. McNulty: I replied to my right hon. Friend for Warley, on 17 January 2006.

Departmental Data

Dr. Strang: To ask the Secretary of State for the Home Department what methods his Department employs to ensure that its data is up-to-date, with particular reference to information on people who have *(a)* moved house and *(b)* died. [37794]

Andy Burnham: A variety of means are used to ensure that the Home Office keeps the personal data it holds up to date including:

Internal cross checking across business units;

Customer helpdesk;

Proactive communications with clients;

Website facilities; and

Where it is appropriate and lawful, sharing personal data between Government Departments and other parts of the public sector.

Disorder Offences

David Davis: To ask the Secretary of State for the Home Department how many people have been imprisoned for defaulting on the payment of a fixed penalty notice given for a disorder offence in each of the last two years. [42229]

Fiona Mactaggart: The information requested is not available.

DNA Database

Mr. Gibb: To ask the Secretary of State for the Home Department how many police officers were investigated in each year since 1995 for improperly adding samples to the National DNA Database. [41700]

Andy Burnham: Neither the Home Office nor the Independent Police Complaints Commission (IPCC) are aware of any police officers having been investigated for improperly taking DNA samples for adding to the National DNA Database. The IPCC has not investigated any such incidents to date. Nor are we aware of any police force in England and Wales having carried out an internal investigation into such a case.

Forensic Science Service

Lynne Jones: To ask the Secretary of State for the Home Department what measures he is taking to increase the capacity of the Forensic Science Service. [31516]

Andy Burnham: The recent establishment of the Forensic Science Service (FSS) as a Government owned company, undertaken at the direction of the Secretary of State, was designed to provide the FSS with the freedoms, flexibility, structures and resources to better respond to customer needs in terms of balancing capacity and demand and in addressing timeliness of service requirements in support of the Criminal Justice System.

Haroon Rashid Aswat

Mr. Meacher: To ask the Secretary of State for the Home Department when he expects to reach a decision on whether to extradite Haroon Rashid Aswat to the US; what the considerations are on which his decision will be based; and whether Mr. Aswat has been questioned regarding any information he might have about the London bombings of 7 and 21 July 2005. [43197]

Andy Burnham: Under the terms of the Extradition Act 2003 ("The 2003 Act"), this case was sent by a District Judge to the Secretary of State, on 5 January 2006, for the latter's decision as to whether Mr. Aswat is to be extradited. Under section 93 of the 2003 Act, Mr. Aswat has six weeks, starting with 5 January 2006, within which to make representations against his extradition. The Secretary of State will make his decision as soon as possible after that time has passed. The exact date is likely to depend upon the time needed for due consideration of any representations that may be received.

While the case remains before the Secretary of State for decision, I cannot comment upon it. In all cases heard under part two of the 2003 Act the law requires the Secretary of State to decide whether he is prohibited from ordering a person's extradition under any of the following sections of the 2003 Act: *(a)* section 94 (death penalty); *(b)* section 95 (speciality); or *(c)* s.96 (earlier extradition to the UK from another territory). The full text of the 2003 Act may be obtained from HMSO (Her Majesty's Stationary Office) or found at:

http://www.opsi.gov.uk/acts/acts2003/20030041.htm

As to whether Mr. Aswat has been questioned, regarding any information he might have about the London bombings of 7 July 2005 and the failed bombings of 21 July 2005, it is not appropriate to comment on ongoing investigations.

Identity Cards

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the answer of 13 December 2005, *Official Report*, column 1915W, on identity cards, whether mechanisms are planned to be put in place to ensure that radio frequency identification tags will not be used in the identity card scheme at some future date without this matter being decided by primary legislation; and if he will make a statement. [39119]

Andy Burnham: There are no plans to use radio frequency identification tags, as they would serve no purpose which is relevant to the identity cards scheme. The Identity Cards Bill which is currently before Parliament provides a power for Parliament to approve regulations prescribing the form in which information is to be recorded in or on an ID card. The Government believes that this is the appropriate level of Parliamentary scrutiny which is consistent with the report on the Bill of the House of Lords Delegated Powers Committee.

Mr. Heald: To ask the Secretary of State for the Home Department whether the planned identity card database will use council tax information held by *(a)* local authorities and *(b)* the Valuation Office Agency. [41238]

Andy Burnham: Currently, the identity cards programme does not anticipate that any council tax information held by either local authorities or the Valuation Office Agency will be used as part of the identity cards scheme.

Clause 11 of the Identity Cards Bill does provide for the ability of the Identity Cards scheme to check information provided by an individual for the purpose of being recorded on the National Identity Register against records held on other public sector databases. However, use of such information would require the specific approval of Parliament by affirmative order.

Identity Databases

Mr. Drew: To ask the Secretary of State for the Home Department what international standards the Government will be expected to meet by 2010 as part of its treaty obligations to ensure that it is compliant with controls of passports and data exchange. [42805]

Andy Burnham: International standards for passports including more recent specifications for the protection of data held on e-passports are laid down by the International Civil Aviation Organisation (ICAO). United Kingdom passports are compliant with those standards.

Khat Report

Kerry McCarthy: To ask the Secretary of State for the Home Department when he intends to publish the Home Office report commissioned by his Department on 'Khat (Qat): Assessment of Risk to the Individual and Communities in the UK' by Dr. T. M. Williams of the University of Bristol. [42979]

Paul Goggins: The Advisory Council on the Misuse of Drugs was asked by the Home Office to undertake a comprehensive review of Khat and report back to the Home Secretary by the end of 2005. The Advisory Council's report, is currently with the Home Secretary and will be published in due course, together with the Home Secretary's response.

Dr. T. M. Williams was commissioned by the Advisory Council, not the Home Office, to contribute to the Advisory Council's report and his contribution has been subsumed into its report.

Parenting Programmes

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how much investment is earmarked for parenting programmes in 2006; and if he will make a statement. [41937]

Beverley Hughes: I have been asked to reply.

The recently launched Respect action plan outlines our commitment to invest up to £52 million over the next two years to enable a change in the way public services offer support to parents and families. This investment will facilitate delivery of evidence based good quality parenting programmes in main stream settings such as children's centres and extended schools. As part of the action plan over the next three years a further £45 million will be made available to the Youth Justice Board to fund early intervention preventative programmes including new resources for parenting interventions.

In addition over £28 million will be available in 2006 for the support of parents, carers and their families. This money which will be allocated to the voluntary and community sector through five grant programmes. These will contribute to our continued investment in the direct delivery of parenting programmes, research, evaluation, consultation and training of parenting support practitioners.

Proceeds of Crime Act

Mr. Jenkins: To ask the Secretary of State for the Home Department how much money seized as a result of the Proceeds of Crime Act 2002 was allocated to *(a)* Tamworth and *(b)* Staffordshire in each year of the Act's operation; and if he will make a statement. [42100]

Paul Goggins: Information is not available in the form requested. Receipts from recovered criminal assets are allocated to a range of initiatives. The Recovered Assets Incentive Fund was set up in 2003–04 with £15.5 million a year for three years to incentivise asset recovery agencies. From the Fund, the West Midlands Regional Asset Recovery Team, which covers Staffordshire, was allocated £4.4 million over three years to disrupt criminal groups, confiscate more criminal assets and to tackle money laundering.

A new police incentivisation scheme introduced in 2004–05 has enabled police forces in England and Wales, and the Police Service of Northern Ireland, to receive a share of the criminal assets they recover locally. Under the scheme Staffordshire police received £39,690 this financial year based on its performance in 2004–05.

From 2006–07 a new incentive scheme will operate under which all agencies involved in asset recovery will get back 50 per cent. of the assets they recover.

David Davis: To ask the Secretary of State for the Home Department how much money has been successfully claimed back under the Proceeds of Crime Act 2002 in each of the past two years. [42153]

Paul Goggins: The total value of assets recovered under the Proceeds of Crime Act 2002 and earlier legislation, in England, Wales and Northern Ireland was £54.5 million in 2003–04 and £84.4 million in 2004–05.

Terrorism (UK Airports)

Mrs. Dorries: To ask the Secretary of State for the Home Department what assessment his Department has made of the potential terrorist threat to *(a)* London Luton Airport and *(b)* civil airports in the UK generally; and if he will make a statement. [42412]

Ms Buck: I have been asked to reply

The Department for Transport communicates the potential terrorist threat to aviation in the UK, and any changes to it to all UK airports within the National Aviation Security Programme. At a local level airports

and their stakeholders undertake a multi agency threat and risk assessment process. It would not be appropriate to publicise details.

Traffic Offences

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) prosecuted for and (ii) convicted of ignoring a no entry sign in (A) Southend, (B) the Metropolitan police area of London and (C) England and Wales in each of the last five years for which information is available. [39716]

Paul Goggins: The Research Development and Statistics—Office for Criminal Justice Reform (RDS-OCJR) Court Proceedings Database does not separately identify offences of ignoring 'no entry' signs within the categories of offences grouped together as neglect of traffic directions.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were convicted of motoring offences in (i) Tamworth, (ii) Staffordshire and (iii) England and Wales in 2004, broken down by offence. [42097]

Paul Goggins: The information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the table and gives the number of males and females found guilty of motoring offences by offence class in Staffordshire police force area, and England and Wales 2004. It is not possible to identify those found guilty in Tamworth, as the data is not collected at this level of detail.

Number of offenders found guilty of motoring offences by gender and offence class at all courts in Staffordshire, and England and Wales, 2004 [1]

	Staffordshire		*England and Wales*	
Offence class	*Males*	*Females*	*Males*	*Females*
Dangerous driving	61	4	5169	191
Driving etc. after consuming alcohol or taking drugs	1,323	210	76,428	10,169
Careless driving	580	151	17,845	3,201
Accident offences	168	24	5,246	911
Driving Licence related offences	954	68	52,550	4,087
Vehicle Insurance Offences	3,827	411	195,155	22,932
Vehicle Registration and Excise Licence offences	66	14	17,708	4,495
Work record or employment offences	15	0	2,267	37
Operator's Licence offences	1	0	510	21
Vehicle Test offences	95	6	12,986	1,495

[1] These data are based on the principal offence basis

Worker Registration Scheme

Damian Green: To ask the Secretary of State for the Home Department how many people from the accession states had registered under the Worker Registration Scheme by 1 October. [40359]

Mr. McNulty: The Accession Monitoring report for May 2004 to September 2005 sets out the number of citizens from the eight Accession Countries of the EU (Accession State nationals) who have applied to register with the Worker Registration Scheme during this period. This report is available on the Home Office website via:

http://www.ind.homeoffice.gov.uk/ind/en/home/0/reports/accession_monitoring.html

Yarl's Wood Detention Centre

Alistair Burt: To ask the Secretary of State for the Home Department whether he has received a report from the Children's Commissioner on the condition of children detained in Yarl's Wood; and if he will make a statement. [41484]

Mr. McNulty: We have received the report of the Children Commissioner's visit to Yarl's Wood. We are currently giving this report careful consideration and will respond to the Commissioner's recommendations in due course.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the proposal to promote the licensing of Afghan poppy farmers to produce the raw materials for the manufacture of diamorphine and codeine. [42321]

Dr. Howells: The proposal to promote the licensing of Afghan poppy farmers to produce the raw materials for the manufacture of diamorphine and codeine was put forward in the Senlis Council's "Feasibility Study on Opium Licensing in Afghanistan for the Production of Morphine and Other Essential Medicines". We are

following the work of the Senlis Council and have considered the findings from their study. However, we do not believe that such licensing is a realistic solution to the problems of opium cultivation in Afghanistan, not least because it risks a high level of diversion of licit opium into illegal channels. It is clear from the feasibility study, as well as expert opinion, that Afghanistan currently does not meet the prerequisites necessary to control licit cultivation. There is also a risk that prices would rise, attracting new entrants into the illicit market.

The production of opium is also contrary to the Constitution of the Islamic Republic of Afghanistan. The Afghan Government has expressed its opposition to licit cultivation in Afghanistan. When the Senlis Council presented its study in Afghanistan in September 2005, the Afghan Minister for Counter Narcotics, Habibullah Qaderi, said,

> "The poor security situation in the country means there can simply be no guarantee that opium will not be smuggled out of the country for the illicit narcotics trade abroad. Without an effective control mechanism, a lot of opium will still be refined into heroin for illicit markets in the West and elsewhere. We could not accept this."

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs what the percentage change has been in opium production in Afghanistan in the last six months; and if he will make a statement. [42998]

Dr. Howells: The figures for opium production in the last six months in Afghanistan are not yet available. The UN Office on Drugs and Crime (UNODC) will provide an early indication of this season's (2005–06) production figures in their Rapid Assessment Survey, which is due to be published in the next couple of weeks. In November 2005, the UNODC confirmed the poppy cultivation and production figures for the 2004–05 season from their annual survey. They estimated that opium production was around 4,100 metric tonnes, a decrease of only 100 tonnes (2.4 per cent.) compared to 2004, despite a significant 21 per cent. reduction in poppy cultivation from 131,000 hectares (ha) in 2003–04 to 104,000 ha in 2004–05. Good weather and an absence of crop disease were responsible for a significant increase in yield in 2004–05.

Airspace (Extraordinary Rendition)

Peter Law: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has asked the United States Administration to provide documented evidence to support the assurances provided by Dr. Rice on the condition under which rendition of detainees has taken place in instances when United States aircraft have used United Kingdom airports for re-fuelling. [41486]

Dr. Howells: I refer the hon. Member to my right hon. Friend the Foreign Secretary's answer to the right hon. Member for North East Fife (Sir Menzies Campbell) on 12 December 2005, *Official Report*, column 1652–53W. As noted in that answer, in the two cases where the Government gave permission for the rendition of a detainee via UK territory and airspace, the detainees were en route to criminal trial in the United States.

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 20 December 2005, *Official Report*, column 2840–1W on airspace (extraordinary rendition), whether there must be 'substantial grounds' or 'grounds' to suspect that a person would face a real risk of torture, for the transfer of an individual from or through the UK to another state not to be permitted. [42529]

Dr. Howells: The European Convention on Human Rights prohibits the United Kingdom from removing someone where there are substantial grounds for believing that they face a real risk of torture.

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42880]

Mr. Straw: Approximately 91 per cent. of the Foreign and Commonwealth Office's UK Estate is covered by Audible Fire Alarms.

Cherie Booth

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs whether assistance was offered by the Government to facilitate a meeting in Turkey between Cherie Booth QC, Mr. and Mrs. Orams and Mr. Hassan Vahib; whether accommodation within the Department's premises was made available to Cherie Booth during this visit; and if he will make a statement. [42799]

Mr. Douglas Alexander: Cherie Booth QC visited Turkey last year in her professional capacity as a barrister. The Government did not facilitate any of the meetings held, nor did it offer to do so. Nor was she offered or provided with accommodation by the Government. Her representation of David and Linda Orams is entirely independent of Government.

Cherie Booth is subject to security considerations at all times, even when she is travelling—as in this instance—as a private citizen. Consequently, she was accompanied to Turkey by her close protection team and given no more consular assistance than was commensurate with her security requirements.

Cuba

Mr. Kemp: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Cuba. [42441]

Mr. Douglas Alexander: We continue to be concerned about the political situation in Cuba. Cuba is a one-party state with considerable restrictions on fundamental human rights. The situation has deteriorated in recent months, notably through further crackdowns on dissidents and curtailment of political and economic liberties. The UK and EU policy in Cuba is to encourage a process of peaceful transition to pluralist democracy. We continue to press the Cuban authorities to respect human rights and political freedoms and issued several statements under our EU presidency expressing our concern at the Cuban authorities' harsh treatment of the peaceful opposition. These views were put to the outgoing Cuban ambassador and, to the incoming ambassador, at a meeting of the All Party Parliamentary Group Cuba on 8 November 2005.

Departmental Staff (Castle Point)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff employed by his Department live in Castle Point. [42816]

Mr. Straw: The Foreign and Commonwealth Office does not hold staff records in a form that would enable this information to be provided without incurring disproportionate costs.

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41356]

Mr. Straw: The Foreign and Commonwealth Office (FCO) vehicle fleet is split between the home fleet, operated by FCO Services, and the overseas fleet operated by overseas posts. The overseas fleet comprises 1400 vehicles, most of which are owned by the FCO. Approximately 15 are leased locally. The fleet comprises a mixture of protected and soft skin vehicles. 225 vehicles in the overseas fleet are designated as 'flag' cars for use by heads of posts.

Forty percent. of the overseas fleet vehicles are manufactured by Land Rover, Jaguar or Ford. The remaining vehicles, which were purchased on the basis of being best suited to local climatic conditions, were obtained from a variety of manufacturers.

The type of fuel used overseas is based upon local availability and local conditions in the region concerned. However, this is primarily unleaded petrol, unless diesel is easily available and cheaper.

Each overseas post is responsible for monitoring fuel consumption and efficiency.

Since the acquisition and running of vehicles in the overseas fleet is the responsibility of individual posts and detailed records are not held centrally, to obtain the detailed information requested would incur disproportionate costs.

The FCO's home fleet comprises 12 vehicles, which are based in King Charles Street, London, and at Hanslope Park, near Milton Keynes, Buckinghamshire. These vehicles were purchased by the FCO outright. The Hanslope Park fleet of four Ford Galaxies are all diesel (1.9cc) and achieve 42mpg. The Central London fleet comprises two Ford Galaxies of which one is a petrol vehicle (2.3cc) achieving 28mpg, and one diesel (1.9cc) achieving 42mpg;

Four Vauxhall Omegas—of which two are petrol/dual fuel (2.2cc) vehicles achieving 29mpg, and two petrol (2.0cc) achieving 31 mpg; and two Rover 75 V6 petrol (2.0cc) achieving 29mpg.

Dr. Vanunu

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Israel regarding *(a)* nuclear weapons and *(b)* Dr. Vanunu.[41927]

Dr. Howells: The Government take appropriate opportunities to discuss all aspects of non-proliferation with representatives of the Israeli Government. We have, on a number of occasions, called on Israel to accede to the Nuclear Non Proliferation Treaty, and to conclude a full scope safeguards agreement and Additional Protocol with the International Atomic Energy Agency.

The United Kingdom strongly supports the establishment of a zone free from all Weapons of Mass Destruction in the Middle East, including through the EU Barcelona Process. The Barcelona Declaration of 1995 includes a call on all states in the region to pursue a mutually and effectively verifiable Middle East Zone free of weapons of mass destruction and their delivery systems.

Our Ambassador in Tel Aviv last raised the restrictions on Mr. Vanunu on 6 September 2005 to note our concern that the restrictions imposed on Mr. Vanunu had been extended. My noble Friend the then Foreign and Commonwealth Office Minister responsible for our relations with the Middle East, Baroness Symons of Vernham Dean, initially raised our concerns about the restrictions imposed upon Mr. Vanunu with the Israeli Charge following his release in April 2004. We recognise that Israel has a right to protect its national security but we are concerned that the restrictions may be excessive. Our Embassy in Tel Aviv have since been in contact with the Ministry of Foreign Affairs following the decision to extend the length of time these restrictions will apply for Mr. Vanunu.

Embassies and Consulates

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the potential savings which would result from combining UK embassies and consulates with those of other English speaking countries. [41408]

Mr. Straw: None. Nor could any such estimate be produced without incurring disproportionate costs.

Eritrea

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place to ensure that part of the UN peacekeeping force is allowed to remain in Eritrea. [43066]

Dr. Howells: The UN Mission in Ethiopia and Eritrea (UNMEE) provides a vital stabilising factor in the border dispute between the two countries. The restrictions placed on UNMEE by Eritrea are wholly unacceptable. We have worked with United Nations Security Council partners to press Eritrea to reverse these restrictions. In particular, we supported the adoption of Security Council resolution 1640 (2005) demanding that all restrictions be lifted and that both Eritrea and Ethiopia take action to reduce tension by returning troops to previous positions. The resolution repeated the Security Council's call on both parties to ensure the implementation of the decision of the Ethiopia/Eritrea Boundary Commission. Most recently, the Security Council met on 9 January to review compliance with UNSCR 1640 and UNMEE's

continued ability to operate. The Council has agreed that UNMEE should retain its present functions and configuration while concerted efforts are made to address the wider border dispute. We are working closely with the United States and other interested parties to engage Eritrea and Ethiopia in these efforts. We continue to keep the situation under close review.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the EU *(a)* Joint Committee (EEC-Vietnam), *(b)* Joint Committee (EEC-Central America), *(c)* Joint Committee (EEC-Mexico) and *(d)* EEC-Mercosur Joint Advisory Committee have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38795]

Mr. Douglas Alexander: The EC-Vietnam Joint Commission met on 5 October 2005. The presidency was represented by officials from the British Embassy in Hanoi. There have been no meetings of the EC Joint Committees on Central America, Mexico and Mercosur during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues part of the Memorandum of Understanding between devolved Ministers and the UK Government. A copy of which is available at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf. Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* formal and *(b)* informal EU Council of Minister meetings attended by UK Government delegations there have been since 1 July 1999; how many were led by Scottish Government Ministers; and what the (i) date and (ii) subjects of each meeting was. [39219]

Mr. Douglas Alexander: To find the date and subject of every formal or informal EU Council of Ministers meeting held since 1 July 1999 which a UK delegation attended would incur disproportionate costs. I refer the hon. Member to the website of the Council of Ministers at http://ue.eu.int where he should find much of the information he seeks.

Scottish interests are represented at all EU Council meetings by the UK delegation. On certain occasions Scottish Executive Ministers also attend EU Council meetings, as part of the UK delegation, at the discretion of the lead UK Minister. This happened most recently at the Agriculture and Fisheries Council in December, which Scottish Executive Minister Ross Finnie attended. The Scottish Executive is also consulted on any matters of devolved interest likely to be raised at Council meetings.

Scottish Executive Ministers have attended EU Council meetings on 74 occasions since 1999. Detailed attendance can be found at:
http://www.Scotland.gov.uk/Topics/Government/International-Relations/Europe/Page6.

During this time Scottish Executive Ministers have led the UK delegation on three occasions:

Date	*Council*	*Minister*
8 June 2000	Education	Nicol Stephen
12 February 2001	Education	Nicol Stephen
4 June 2001	Health	Susan Deacon

EU Staff

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* full-time and *(b)* part-time staff are employed by the (i) European Commission, (ii) Council of Ministers, (iii) European Parliament and (iv) agencies of the EU. [40954]

Mr. Douglas Alexander: I am placing in the Library of the House a table from the Bulletin Statistique, Le Personnel de la Commission, Commission Européenne, Direction Générale du Personnel et de l'Administration, Direction Personnel et Carrière, January 2006, p. 4 giving the number of full-time employees of the European Commission, the Council of Ministers, the European Parliament and agencies of the European Union as at January 2006. The figures for part-time employees of these institutions were not available at the time of answering this question. They have been requested and will be sent to the hon. Member separately, and placed in the Library of the House.

EU-Morocco Fishing Agreement

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made in relation to the EU-Morocco fishing agreement; and what discussions he has had with representatives of the Saharawi people on the agreement. [41425]

Dr. Howells: My right hon. Friend the Foreign Secretary has made no representations about the EU/Morocco fishing agreement. Nor has he met with representatives of the Saharawi people. Foreign and Commonwealth Office officials have, however, met representatives of the Frente Polisario and discussed this issue with them.

Global Opportunities Fund

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 14 December 2005, *Official Report*, columns 2064–66W, on the Global Opportunities Fund, if he will list the countries where his Department has supported democracy building projects under the Global Opportunities Fund in each of the last three years; and how much financial support was provided to each country. [41809]

Dr. Howells: We support a broad range of projects that underpin the development of democracy, including addressing issues such as freedom of expression and the development of civil society. Details of projects under the Global Opportunities Fund (GOF) programmes in 2003–04 and 2004–05 are set out in the GOF Annual Reports (Command Papers 6413 and 6665 published in December 2004 and October 2005 respectively).

In 2005–06, GOF projects relating to these areas are being undertaken in the following countries: Albania, Argentina, Armenia, Bahrain, Belarus, China, Colombia, Georgia, India, Indonesia, Iran, Jordan, Kuwait, Latvia, Lebanon, Malaysia, Mexico, Morocco, Pakistan, Qatar, Russia, Saudi Arabia, Serbia and Montenegro, South Africa, Thailand, Ukraine, Vietnam and Yemen. Financial out-turns for the projects in these countries are not yet available.

In addition, the Foreign and Commonwealth Office makes a grant-in-aid through the GOF to the Westminster Foundation for Democracy (WFD) to support work on these issues. Details of the countries in which they undertook projects in 2003–04 and 2004–05 are set out in WFD's Annual Reviews, copies of which have been placed in the Library of the House. In 2005–06, WFD is supporting projects in the following countries: Albania, Azerbaijan, Bosnia and Herzegovina, Bulgaria, Burma, Balkans, Belarus, Caucasus, Central Eastern Europe, Congo, Ivory Coast, Cameroon, Cyprus, Egypt, Georgia, Ghana, Israel, Kenya, Kosovo, Lesotho, Lithuania, Morocco, Moldova, Middle East and North Africa, Macedonia, Mongolia, Mozambique, Nigeria, Peru, Palestine, Romania, Russia, St. Kitts and Nevis, Serbia and Montenegro, Slovenia, Sierra Leone, South Africa, Turkey, Tanzania, Ukraine, Uganda, Zambia and Zimbabwe. Financial out-turns for projects in these countries are also not yet available.

International Whaling Commission

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps have been taken by the Government since the 2005 International Whaling Commission (IWC) to secure a debt amnesty in the IWC which would permit the participation of Costa Rica, Kenya and Uruguay. [41812]

Mr. Bradshaw: I have been asked to reply.

The UK initiated the recommendation adopted at last years International Whaling Commission (IWC) annual meeting (IWC57), which asked the IWC Secretariat to explore the financial implications for the IWC of a debt amnesty and to produce proposals. Any document which the Secretariat produces in respect of this Recommendation will have to be considered by the next meeting of the IWC. Proposals for changes to the IWC's Financial Regulation would (if made) not come into effect until after they had been agreed by IWC58 and cannot therefore affect the position of those countries who, but for outstanding debt, might attend IWC58 and seek to exercise voting rights at that meeting.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the United Kingdom Government are taking to check Japan's progress towards obtaining a majority bloc at the International Whaling Commission; and if he will make a statement. [41813]

Mr. Bradshaw: I have been asked to reply.

The UK Government continues to urge other conservation minded countries to join the International Whaling Commission (IWC). I have recently written to seven conservation minded countries urging them to join the IWC in time for this years annual IWC meeting. I and my fellow Ministers also raise the issue of the IWC with our international counterparts at every suitable opportunity.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the release of *(a)* Dr. Huda Ammash, *(b)* Mrs. Rihab Taha and *(c)* other high-ranking Iraqi detainees in Iraq in December 2005; whether each remains free; and for what reasons each was initially detained. [42950]

Dr. Howells: Certain individuals detained as a threat to security under UN Security Council Resolution 1546, including Dr. Huda Ammash and Mrs. Rihab Taha, were released from custody in December 2005. Any further action against them is a matter for the Iraqi authorities.

Jordan

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding his Department has provided for projects in Jordan in each of the last five years; and how much such funding is planned for the 2005–06 financial year. [41179]

Dr. Howells: The funding below was for projects funded by the Global Opportunities Fund, the Global Conflict Prevention Pool and the Directorate Programme Budget. In addition we contributed towards EU funding for Jordan of which €243 million was provided between 2003–04. Under the EU's National Indicative Programme for the period 2005–06, €110 million of new commitments is foreseen for Jordan. €60 million have been already committed in 2005. The priorities include assisting Jordan to take forward its political, social and economic commitments in its European Neighbourhood Policy Action Plan.

The Department for International Development have also contributed funding for Jordan in the time period requested in the question.

	Amount (£)
2001–02	53,000
2002–03	167,716
2003–04	564,830
2004–05	555,688
2005–06	804,153

Kazakhstan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights in Kazakhstan. [42718]

Mr. Douglas Alexander: We welcome the progress that the Government of Kazakhstan has made on human rights and democratic reform since independence. This includes a moratorium on the death penalty, progress on prison reform including reduction of the number of persons in detention and the introduction of public monitoring of places of detention, and, most recently in December 2005, ratification of the UN International Covenant on Civil and Political Rights (ICCPR) and the International Covenant on Economic, Social and Cultural Rights (ICESCR).

But there is still some way to go. Political pluralism has been affected negatively by legislation, which restricts freedom of expression, association and assembly. The powers of the Parliament and Government and the independence of the judiciary could be further enhanced to introduce checks and balances into the system of administration. In December 2005, the Organisation for Security and Cooperation in Europe's Office for Democratic Institutions and Human Rights International Observation Mission noted that despite some administrative improvements, the presidential elections did not meet international standards.

Wherever possible we look to work with the Kazakh authorities to improve the human rights situation. We have funded projects aimed at improving the conditions in prisons, preventing torture in places of detention and encouraging the abolition of the death penalty. We have an on-going dialogue with the Government of Kazakhstan on transparency issues and are working closely with non-governmental organisations on this too. We also stand ready to work with President Nazarbayev on his programme of democratic reforms.

When he met Foreign Minister Tokayev following the presentation of his credentials on 9 January, our newly accredited ambassador to Kazakhstan, Paul Brummell, assured the Foreign Minister of the readiness of the British Government to work with Kazakhstan across this agenda.

We will continue to raise, both bilaterally and with our EU partners, the importance of respect for human rights and good governance in Kazakhstan and look for opportunities to provide suitable assistance.

Middle East

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what support his Department provided for good governance and democracy within the Arab world in each of the last five years, broken down by country; and what support is planned for each country for the 2005–06 financial year. [41180]

Dr. Howells: As part of the Global Opportunities Fund (GOF) launched by my right hon. Friend the Foreign Secretary in May 2003, the engaging with the Islamic World programme is designed to promote the rule of law, increased participation of women, economic reform and good governance initiatives in the Islamic World. The following table shows funding allocated in support of good governance and democracy projects within the Arab world in 2003–04, 2004–05 and 2005–06. Examples of projects supported can be found in the Global Opportunities Fund annual report which is available in the Library of the House.

Prior to the launching of GOF, a significant proportion of the Foreign and Commonwealth Office's Middle East and North Africa directorate (MENAD) programme budget was used to support good governance and democracy in the region. MENAD's directorate programme budget was £1,017,176 in 2001–02, £1,304,100 in 2002–03, £1,147,505 in 2003–04, £1,363,505 in £2004–05, and £1,099,884 in 2005–06.

More widely, through our membership of the EU we contribute towards the EU Mediterranean Partnership which since 1995 has provided southern Mediterranean countries with financial support—around £1 billion Euros a year in grants and another £2 billion Euros a year in loans. Details of EU assistance per country and per project can be found at http://europa.eu.int/comm/europeaid/projects/med/bilateral_en.htm

The Euromed summit in Barcelona in November, which the UK chaired as EU presidency, agreed to establish a substantial governance facility to help Southern Mediterranean countries which make progress on good governance.

Moldova

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is towards Moldova joining the European Union. [41810]

Mr. Douglas Alexander: Moldova has not applied for membership of the European Union. We continue to encourage Moldova to implement the reforms set out in the jointly agreed European Neighbourhood Policy Action Plan, which was launched in February 2005. In this context, the Government welcome Moldova's European aspirations and strongly supports efforts to promote economic and political reforms, aimed at bringing Moldova closer to EU standards.

Written Answers to Questions

Thursday 19 January 2006

HOUSE OF COMMONS COMMISSION

Cutlery Thefts

Mr. Evans: To ask the hon. Member for North Devon, representing the House of Commons Commission how much cutlery went missing from the House of Commons Refreshment Department in 2005. [43284]

Nick Harvey: No separate record is kept of cutlery missing from the restaurants and bars of the House of Commons. In 2005, the Refreshment Department spent £10,630 to replace cutlery lost or damaged through general wear and tear, or to meet changes in the demand for catering services.

Departmental Staff

Bob Spink: To ask the hon. Member for North Devon, representing the House of Commons Commission how many disciplinary actions against employees of the House of Commons *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43502]

Nick Harvey: The information requested is as follows:

	Disciplinary actions commenced	*Number of actions resulting in sanction*
2002	9	8
2003	15	15
2004	6	6
2005	15	15

Note:
Figures for earlier years were not centrally collated.

Public Gallery (Security Screen)

Mr. Kemp: To ask the hon. Member for North Devon, representing the House of Commons Commission what assessment the Commission has made of the impact of the new security screen on visitor numbers to the Public Gallery in the Chamber. [43520]

Nick Harvey: I refer the hon. Member to the answer I gave on 9 January 2006, *Official Report*, columns 1-2W.

INTERNATIONAL DEVELOPMENT

Birth Control

Mr. Amess: To ask the Secretary of State for International Development how much EU aid was given to *(a)* the United Nations Population Fund, *(b)* the International Planned Parenthood Federation and *(c)* Marie Stopes International in each year since 1999. [41760]

Mr. Thomas: EU aid, provided by the European Commission, to the United Nations Population Fund (UNFPA), the International Planned Parenthood Foundation (IPPF) and Marie Stopes International (MSI) since 1999 is as follows:

(a) The United Nations Population Fund (UNFPA)

	Thousand ($) [1]
1999	9,314
2000	7,090
2001	4,924
2002	4,917
2003	16,962
2004	8,124
2005	13,915

(b) The International Planned Parenthood Foundation (IPPF)

	Thousand (£)
1999	950
2000	453
2001	241
2002	222
2003	2,162

Cape Verde Islands

Hugh Robertson: To ask the Secretary of State for International Development (1) what representations he has received from the government of the Cape Verde islands about illegal drugs; [43639]

(2) what measures the UK Government are taking to combat drug running in the Cape Verde islands. [43640]

Dr. Howells: I have been asked to reply.

UK law enforcement agencies have reported a recent growth in the trafficking of illicit drugs through West Africa, including Cape Verde. We welcome the Cape Verdian Government's strong commitment to enforcing the rule of law and taking action against international organised crime. As a result of a short-term assessment of the increased use of Cape Verde as a drugs transit route, we are engaged with the Cape Verdian Government and other international partners in the region to identify both the nature of this development and how shared resources might be deployed to the region to best effect.

Our Ambassador to Senegal, who has responsibility for the Islands of Cape Verde, met with Cape Verdian Ministers and officials in December 2005 to discuss a range of issues affecting the islands. In addition, my right hon. Friend the Secretary of State for the

Department for International Development (Hilary Benn) is writing to the Cape Verdian Minister of Foreign Affairs about our work, with EU partners, to help the Cape Verde authorities tackle the growing problem of illicit drug trafficking through the region.

Climate Change

Colin Challen: To ask the Secretary of State for International Development what financial contribution the UK has made to the *(a)* UN framework convention on climate change least developed countries fund, *(b)* special climate change fund and *(c)* adaptation fund under the Kyoto protocol. [41303]

Mr. Thomas: The UN framework convention on climate change least developed countries fund will support national adaptation programmes in the poorest developing countries. Operational guidance for the fund was recently adopted by parties at the climate change conference in Montreal, December 2005. When the programming document for the fund is agreed by the Council of the Global Environment Facility, who will oversee the operation of the fund, the UK will consider providing finance. We recognise the fund's importance in helping Governments of the poorest developing countries manage the effects of climate change.

As of April 2005, nine donors, including the UK, pledged approximately £19 million to the special climate change fund. The UK contribution amounts to over half of this;—£10 million over three years: 2005–06, 2006–07 and 2007–08. This will be available to support any developing country in managing the effects of climate change.

Parties to the UN convention on climate change deferred a decision on activating the adaptation fund until management arrangements have been agreed, which should take place this year. The principle revenue stream to the fund will come from a 2 per cent. levy on emissions trading under the clean development mechanism.

Democracy Projects

Mr. MacShane: To ask the Secretary of State for International Development if he will list the projects being supported by his Department for the promotion of democracy in *(a)* China, *(b)* the Balkans region, *(c)* Kenya, *(d)* Uganda, *(e)* Eritrea, *(f)* the Russian Federation, *(g)* Pakistan and *(h)* Burma; what the nature of the support is in each case; and how much funding has been allocated to each project. [41950]

Mr. Thomas: In China, DFID supports the promotion of grassroots democracy across its projects, through promoting the participation of poor people in decision making. Such participation is institutionalised in some projects through the creation of community based organisations such as water user associations.

In the Balkans, DFID currently has a £900,000 programme of support to 'Standards for Kosovo'. About £150,000 is earmarked for support to functioning democratic institutions.

In Kenya, DFID has provided £5,140,000 over five years for the Political Empowerment Programme. The programme is meant to build demand to ensure a fair, inclusive, consultative and sustainable democratic process in the country. The support consists of: £900,000 to civic education, £150,000 to the Electoral Commission of Kenya, £250,000 to support a resource centre for Parliament, £300,000 for political parties to monitor the recent constitutional referendum, £450,000 spent on domestic observation of the 2002 elections and £500,000 reserved for the same in the 2007 elections. DFID has also provided £5,377,918 over six years to support participatory local governance and democratisation at the grassroots level.

In Uganda, DFID has provided £600,000 to the donor funded Election Support Programme, which is designed to improve the prospects for free and fair elections. It includes support for the Uganda Electoral Commission, domestic election observers, increasing women's participation in the political process and strengthening independent media coverage of the elections. DFID has also committed £400,000 to the national civic education programme, which aims to empower Ugandans to participate effectively in promoting accountability and transparency in national and local politics. A further £50,000 has been contributed to a donor basket fund supporting the Parliament of Uganda with the aim of improving democratic governance.

In Eritrea, DFID does not have any projects to support the promotion of democracy.

In Pakistan, DFID has provided £525,000 to build the capacity of parliamentarians at the federal and provincial levels; £326,000 to strengthen the capacity of local political party branches and £208,531 for election monitoring to develop an understanding of the processes and outcomes of the 2005 local elections. DFID is also supporting the promotion of grassroots democracy across its projects by providing: £2.8 million for a Gender Equality Project through the British Council to strengthen the capacity of local organisations to achieve access for women to political and economic decision making, protection from violence, and equal treatment in law; £18 million through the Asian Development Bank to strengthen the ability of civil society to demand improved delivery of services and access to justice and approximately £5 million for a Citizen Empowerment Initiative to strengthen the capacity of civil society organisations to engage government on issues of social exclusion, human rights and poverty reduction.

In Russia, DFID has promoted democracy by addressing issues of community participation, voice and accountability across the technical cooperation programmes. The ongoing projects include: a £3,800,000 Public Administration and Civil Service Reform Project to ensure greater transparency of the civil service, to promote freedom of information and to encourage civilian participation in the public administration reform process; £4,980,000 Support to Poverty Reduction in Leningrad Region (Oblast) Programme to strengthen the capacity of the region and municipal authorities to develop community-based alternatives to service delivery and alternative approaches to income earning for young people of mixed abilities.

In Burma, DFID does not fund any projects solely focused on promoting democracy. DFID works with a range of partners including the Foreign and Commonwealth Office (FCO), the UN and international

NGOs across health, education and livelihoods issues in a way that empowers civil society and communities. For example, DFID is providing £4 million to the United Nations Development Programme (UNDP) over four years to help improve livelihoods for poor rural people through participatory local-level decision making.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for International Development what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of his (i) Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40096]

Hilary Benn: DFID spent the amounts detailed in the UK as per the following table:

£

Financial year	*Fixtures and fittings*	*Office equipment*	*General office expenses*
2002–03	23,798	44,216	2,370,312
2003–04	30,744	109,568	2,784,152
2004–05	64,123	92,832	3,033,851
2005–06 (Forecast)	25,000	100,000	3,107,000

Information on these items of expenditure in overseas offices is not held centrally and cannot be obtained without incurring a disproportionate cost.

DFID is responsible for CDC (formerly Commonwealth Development Corporation), a self-financing public corporation, based in London. The relevant figures for CDC are:

£

	Fixtures and fittings	*Office equipment*	*General office expenses*
2003	219,400	5,400	301,900
2004	123,100	2,400	164,300
2005 (Forecast)	99,000	7,000	58,000
2006 (Budget)	100,000	8,000	69,000

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for International Development how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41360]

Mr. Thomas: DFID leases two ministerial cars from the Government Car Service. For vehicles provided to Government Departments by the Government Car and Despatch Agency (GCDA), my hon. Friend the Parliamentary Under-Secretary of State for Transport, has asked the chief executive of the GCDA to write to the hon. Member with the information requested.

The permanent secretary's car is leased, details as follows:

Model: Volvo S80

Fuel: LPG (liquified petroleum gas)

Fuel efficiency: Approx. 18 mpg on average.

Information on vehicles held in overseas offices is not held centrally and cannot be obtained without incurring a disproportionate cost.

Zimbabwe

Ms Keeble: To ask the Secretary of State for International Development (1) what discussions his Department has had with UN Habitat about temporary housing schemes for people whose homes were destroyed in land clearance in Zimbabwe; and if he will make a statement; [41942]

(2) what progress is being made in providing emergency shelter for people whose homes were lost in land clearance in Zimbabwe. [41943]

Mr. Thomas: DFID is in constant dialogue with the United Nations Country Team on the response to the land clearance (Operation Murambatsvina). DFID stands ready to support the efforts of the United Nations Human Settlement Programme (UN Habitat) to provide shelter for those affected by land clearance (Operation Murambatsvina) in Zimbabwe, should that organisation be able to implement transparent, equitable and cost-effective ways of doing so.

The Government of Zimbabwe has declared that the transitional shelter prototype designed by UN Habitat is sub-standard and has ordered that these shelters be demolished. UN Habitat is now involved in discussions with the Government of Zimbabwe over an acceptable form of shelter.

Meanwhile, there are serious concerns over the allocation of shelter. It is feared that the Government of Zimbabwe will prioritise civil servants, government supporters or those who can afford to pay for shelter over those who are in greatest need.

DFID has provided more than £1 million to the humanitarian response to Operation Murambatsvina. Further funds are being channelled through non-governmental organisations that are seeking creative ways to respond to the resulting problems of homelessness and overcrowding.

CULTURE, MEDIA AND SPORT

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what proportion of the premises occupied by her Department is fitted with audible fire alarms. [42885]

Mr. Lammy: All buildings occupied by the Department for Culture, Media and Sport are fitted with audible fire alarms.

Departmental Estate (Castle Point)

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what *(a)* land and *(b)* property is owned by her Department in Castle Point. [42903]

Mr. Lammy: The Department for Culture, Media and Sport does not own *(a)* land or *(b)* property in Castle Point.

Departmental IT Equipment

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport how many *(a)* laptops and *(b)* mobile phones her Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41275]

Mr. Lammy: My Department does not record this information on a year-by-year basis.

(a) Since 1999, my Department has purchased 178 laptops.

(b) Since 1999, my Department has purchased 113 mobile phones.

The cost of each category in each year could be collated only at disproportionate cost.

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport how much her Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the out-turn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41316]

Mr. Lammy: My Department does not hold the information in the format requested. The question could be answered only at disproportionate costs.

Departmental Targets

Anne Main: To ask the Secretary of State for Culture, Media and Sport what *(a)* targets, *(b)* advice and *(c)* guidance her Department has given to Executive agencies that fall under the remit of her Department on the reorganisation of their administrative functions on a regional basis; and if she will make a statement. [41645]

Mr. Lammy: None, since the eight parks managed by the Department's only agency, the Royal Parks, are all in London.

Digital Television (Wales)

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport (1) what percentage of television viewers in *(a)* Monmouthshire and *(b)* Wales have access to freeview signals; and what steps her Department is taking to ensure that freeview access will be available in each area immediately following analogue switch-off; [42451]

(2) what steps are being taken to widen access to freeview in *(a)* Monmouth and *(b)* Monmouthshire. [42453]

James Purnell: Digital Switchover will enable digital terrestrial coverage to match the current 98.5 per cent. analogue level. Switchover for the HTV Wales region will happen in the second half of 2009.

Freeview signals are currently available to an estimated 35.7 per cent. of households in the Monmouth constituency. No equivalent figures are available for counties, although for Wales as a whole, 57 per cent. of households are predicted to be in areas served by the full range of digital terrestrial services.

The Government have confirmed the regional timetable for the switchover to digital television and announced details of a support scheme to help the most vulnerable households to make the switch.

Digital UK, an independent, not-for-profit company set up by the broadcasters, commercial multiplex operators and involving the supply chain digital switchover will co-ordinate the implementation of digital switchover and ensure that consumers have timely and accurate information about the switch.

Gambling

Mr. Holloway: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to ensure that problem gambling is addressed by proposed gambling reforms. [43256]

Mr. Caborn: The Gambling Act 2005 includes important new safeguards to protect children and vulnerable adults from the harmful effects of gambling.

We plan to bring the Act fully into force with effect from September 2007.

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 12 January 2006, *Official Report*, columns 783–84W, on the 2012 Olympics, for what reason UK Sport has not set an aspirational target for Olympic medals at the 2012 Olympic Games. [43638]

Mr. Caborn: It would not be appropriate for UK Sport, the Government's lead agency on elite sport, to set a target for Olympic medals at the 2012 Olympic Games in advance of agreeing a funding package for elite sport.

The Government are not in a position at this stage to indicate when a decision will be taken on a funding package for elite sport. Funding is currently in place for the Beijing Olympic and Paralympic cycle, which concludes in 2009.

CONSTITUTIONAL AFFAIRS

Audible Fire Alarms

Bob Spink: To ask the Minister of State, Department for Constitutional Affairs what proportion of the premises occupied by her Department is fitted with audible fire alarms. [42886]

Ms Harman: The proportion of premises that have an audible fire alarm fitted in my Department is 99.09 percent. This answer is based upon the number of buildings in the Department of Constitutional Affairs Headquarters estate and Her Majesty's Courts Service. It does not include related agencies and NDPBs, as to gather this information would incur a disproportionate cost.

Constitutional Reform Act

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs when she expects each section of the Constitutional Reform Act 2005 to come into force; and if she will make a statement. [41743]

Ms Harman: Some provisions of the Constitutional Reform Act have already been implemented. The majority of the remaining provisions—including those related to the rule of law, the role of the Lord Chancellor, the Judicial Appointments Commission and its oversight body, a judicial disciplinary system and general judiciary-related provisions—are expected to be brought into force on 3 April 2006.

Part 3 of the Act, which relates to the establishment of a Supreme Court is expected to be implemented in 2008. Certain provisions in the Act relating to Northern Ireland will not be commenced until after the restoration of devolution to the Northern Ireland Assembly.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs how many and what percentage of jobs in *(a)* her Department, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which her Department is responsible are located in (A) each of the English regions, (B) Wales and (C) Northern Ireland. [39870]

Ms Harman: The figures are published in Civil Service Statistics. Departments should refer to Table D which covers permanent staff numbers (FTE basis) in each department and agency. This information is available at the following address on the Cabinet Office Statistics website:

http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

Information for non-departmental public bodies is not collected centrally on a regional basis. (Departments will have to supply their own figures based on the groupings in Table D of Civil Service Statistics bearing in mind the disproportionate cost threshold).

Departmental Objectives

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what discussions she has had with stakeholders about the progress of each target in her Department's Objective *(a)* I, *(b)* II and *(c)* IV. [41740]

Ms Harman: I have held discussions with a number of key stakeholders including the judiciary, legal professions, court users, consumers and private sector organisations, about the progress of the PSA targets falling under the Strategic Objectives in SR 2004.

Departmental Staff (Chronic Back Pain)

Mr. Pelling: To ask the Minister of State, Department for Constitutional Affairs what initiatives are being taken in her Department to help civil servants with chronic back pain. [34971]

Ms Harman: DCA offices and equipment are set out to meet the requirements of the Health and Safety at Work Act 1974 and other general health and safety legislation such as Management of Health and Safety at Work Regulations1999. Where an assessment of ergonomic risk is necessary, in such cases all assessments are conducted in accordance with the Health and Safety (Display Screen Equipment) Regulations 1992 as amended by the Health and Safety (Miscellaneous Amendments) Regulations 2002.

Health and Safety audits and Display Screen Equipment (DSE) assessments are conducted on work stations as a matter of course, but should a member of staff feel that their 'work station' is not comfortable or their chair, desk or position of their computer terminal is causing discomfort to their back, they can request a DSE risk assessment. These assessments are conducted by trained assessors, who look to aid or prevent chronic back pain by ensuring that:

- the chair allows easy freedom of movement and a comfortable work position
- The chair has a definite lumbar curve, well padded seat. A seat which supports most of the thighs but turns downwards before it reaches the back of the knees
- If the individual has neck or shoulder tension, a long chair back is recommended—if the small of the back does not have sufficient support a lumbar roll will be obtained. Gliders or braked castors are needed on smooth floors.
- The armrests are height adjustable so they can support the elbows.
- the workstation provides sufficient space to find a comfortable position and allow for changes in position
- They advise the user to avoid awkward reaches, twisting to use the phoné etc. Ensure there is enough legroom (at least 600 mm deep) and that the work surface should be at least 69 cm high and a maximum of 3 cm thick
- They advise the user on the guidelines of body posture, the most comfortable/correct height of the PC terminal and the recommended frequency of work breaks.

Apart from office based staff, Court based staff (such as Solicitors, Barristers and Ushers) are cared for in the same way as set out above . . . as are the independent Judiciary. In addition to our Office and Court personnel, the DCA also employs people who deal with the more physical aspects of the Departments remit, such as Bailiffs, Security personnel and Enforcement/ Fines Officers.

Staff who have roles that may potentially have a detrimental effect on their back are given training on Manual Handling (including lifting, bending, twisting) and, for Bailiffs and Enforcement teams who go out into the community, training on Driving Skills (including posture), Control and Restraint, Arrest Techniques, Conflict Handling and any other training that will aid them in their role and reduce the risk of injury to their back is provided.

In addition to explaining the Health and Safety requirements at Induction, delivering training to minimise the risk of causing or aggravating back pain and providing a robust Occupational Health provision (including a telephone Helpline) that can identify, reduce and then deal with 'back conditions', the DCA also proactively looks to reduce incidents and accidents that may cause chronic back pain by having:

- A dedicated Health and Safety unit that aims to ensure the DCA meets all of it's legal requirements
- Union (PCS) appointed Health and Safety Representatives that raise any possible issues that could have detrimental consequences on staff health
- Clearly visible posters, in offices, on the correct lifting and handling techniques' and the 'correct sitting posture'

Notice Boards containing information and general tips on keeping the workplace clear of obstructions that can cause trip and slip accidents . . . which in turn can result in back pain.

Work-Life Balance Policies that help staff deal with any back problems they may have by acknowledging that individuals, at all stages of their lives, work best when they are able to achieve a appropriate balance between work and all other aspects of their lives

The option of joining the Beneden Healthcare Society, for the sum of £1.10 per week per person, staff can seek assistance in organising or paying for any medical treatment, including chronic back pain.

The ability to access the Civil Service Benevolent Fund to help with any financial costs arising from any back condition

The option of joining the CSSC Sports & Leisure Limited at a low monthly Subscription (£2.75 per month for 'Membership' and £5.50 per month for 'Membership Plus'), in order to get and stay fit and in turn reduce the risk of developing chronic back pain and/or alleviate some of the symptoms

A dedicated DCA Welfare Service that supports and advises staff both during any absence from work and following their return.

My Department aims to ensure that all staff are aware of their own personal responsibilities in taking care of their back, but should a member staff develop chronic back pain, as a Department, we aim to make sure the individual(s) concerned are supported and cared for.

Domestic Violence

Mike Penning: To ask the Minister of State, Department for Constitutional Affairs how many defendants to allegations of domestic violence in the criminal courts were allowed personally to cross-examine the complainant in *(a)* England and Wales, *(b)* Hemel Hempstead magistrates court, *(c)* Watford magistrates court and *(d)* St. Albans Crown court in 2005. [40970]

Ms Harman: This information is not collected so cannot be provided without incurring disproportionate cost.

Electoral Administration

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs whether the right hon. Member for Makerfield made comments on pre-publication drafts of the Electoral Administration Bill; and if she will make a statement. [39577]

Ms Harman: I can confirm that the right hon. Member for Makerfield was not shown pre-publication drafts of the Electoral Administration Bill. I refer the hon. Gentleman to my answer to his previous question on this issue for further detail.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the potential role on the internet and email in the process of *(a)* registering to vote and *(b)* voting in general elections. [39596]

Ms Harman: The electoral process needs to fit with modern lifestyles and allow better access for those who find the voting process difficult. To this end, the Government are exploring options to improve the process of electoral registration and voting process. Any improvements to the system would however need to take into account security considerations; being at least as secure, if not more secure, than arrangements currently in place.

When the Co-ordinated Online Record of Electors (CORE) project is fully implemented we are proposing that electors may be able to access their information securely online and notify an ERO of any changes via the CORE system. Some EROs already use email and the internet to improve efficiency in parts of the registration process. However the law does not permit the use of email or internet for all electoral registration functions. In additional to this, we will also look at how email and the internet might play a role in increasing access to and participation in voting.

Electoral Registration

Mr. Crausby: To ask the Minister of State, Department for Constitutional Affairs what steps she will take to encourage people to complete and return electoral registration forms. [43095]

Ms Harman: The Electoral Administration Bill, introduced on 11 October, includes a new duty on electoral registration officers to take all necessary steps to ensure comprehensive registers including sending the canvass form more than once to any address and making house to house inquires on more than one occasion. The Department for Constitutional Affairs (DCA), as part of its ongoing programme of democratic engagement, is actively working with committed organisations to promote awareness of voter registration at the national and local levels and in particular to deliver a pan-London campaign ("Get London Registered") directed at London's 'urban youth'. DCA is also working with the Department for Education and Skills, student unions, universities and colleges and local authorities to encourage London's eligible student population to register to vote.

Mr. Crausby: To ask the Minister of State, Department for Constitutional Affairs what plans she has to change the electoral registration system. [43096]

Ms Harman: The Electoral Administration Bill, currently before Parliament, includes a number of provisions that make changes to the electoral registration system. These include provisions to allow people to register to vote nearer the date of election; a new system of anonymous registration for vulnerable people; provisions allowing the piloting of the use of personal identifiers; the creation of a new duty on electoral registration officers to take certain steps in maintaining their registers; and the creation of a framework for the development of a consolidated central record of electors.

The Bill was introduced into Parliament on 11 October 2005. The Bill has completed its House of Commons stages and was introduced into the House of Lords on 11 January 2006.

Separate to the Bill, draft Representation of the People (England and Wales) (Amendment) Regulations 2006 were laid in Parliament on 19 December 2005. This set of regulations includes changes to the rules governing access to, and the supply and sale of, electoral registers.

Fine Defaulting

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress of Operation Payback Two. [41741]

Ms Harman: Operation Payback Two, the second in a series of nationally co-ordinated fine enforcement exercises, was undertaken by Magistrates' courts across England and Wales in November 2004. The initiative resulted in an increase in the payment of over £1.7 million.

In October 2005 Operation Payback Three took place resulting in an increase in the payment of over £2 million.

Freedom of Information

Mr. Roger Williams: To ask the Minister of State, Department for Constitutional Affairs how many freedom of information applications her Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31228]

Ms Harman: My Department has received 394 freedom of information requests in the period 1 January 2005 to 30 June 2005. Of these, 99 took longer than 20 days to process. In the same period the Department received eight requests for internal review which included complaints about the time taken.

My Department is committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcomes of requests. The bulletin for the second quarter was published on 30 September 2005 and can be found on the DCA website at http:/www.foi.gov.uk/statsapr-jun05.htm and in the Libraries of the both Houses. The next bulletin will be published before Christmas, whilst an annual report will be published in early 2006.

House of Lords Appellate Committees

Peter Bottomley: To ask the Minister of State, Department for Constitutional Affairs on what occasions the Government have *(a)* sought and *(b)* obtained an alteration in the composition of an Appellate Committee of the House of Lords; and what the reason for each was. [42728]

Ms Harman: On 4 March 2004 the Treasury Solicitor, acting for the Secretary of State for the Home Department in an appeal to the House of Lords in A and others *v.* Secretary of State for the Home Department, wrote to the Senior Law Lord drawing attention to a view expressed by a Law Lord in a published lecture in November 2001. She suggested that this view related to a central issue in the appeal and that it would not in the circumstances be appropriate for that Law Lord to sit on the enlarged Committee which would hear the appeal. The Senior Law Lord replied on 25 March 2004 stating that he had been informed by the Law Lord concerned (to whom the Treasury Solicitor had copied her letter) that in view of the position taken by the Secretary of State he would not wish to take part in the hearing of the appeal. He did not do so.

As far as can be ascertained, this is the only occasion in recent times on which such a representation has been made on behalf of the Government.

Mental Health

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs (1) when she expects to produce a revised edition of the code of practice issued under section 42 of the Mental Capacity Act 2005; and if she will make a statement; [41738]

(2) if she will make a statement on the operation of sections *(a)* 57 and *(b)* 58 of the Mental Capacity Act 2005; [41739]

(3) if she will make a statement on the operation of Part 1 of the Mental Capacity Act 2005; [41744]

(4) if she will make a statement on the operation of sections 15 to 21 of the Mental Capacity Act 2005. [41745]

Ms Harman: The Mental Capacity Act gained Royal Assent on 7 April 2005.

All sections of the Act are due to be implemented by 1 April 2007.

A revised draft code of practice (under section 42) will be published for consultation in March 2006.

Sections 57 and 58 create the office of Public Guardian. Richard Brook was appointed as the Public Guardian designate and CEO of the Public Guardianship Office. He will take up his post from early February 2006. Work is underway on the design of the structure and detailed processes of the Office of the Public Guardian. This is the office that will support the Public Guardian in the discharge of his functions.

Part 1 of the Mental Capacity Act covers 44 sections (including sections 15 to 21) and two schedules and deals with, amongst other things, Lasting Powers of Attorney, the Court of Protection and the Independent Mental Capacity Advocate Service.

The Lord Chancellor appointed Sir Mark Potter as president designate and Sir Andrew Morritt as vice-president designate of the Court of Protection, with effect from 1 October 2005. A public consultation on the Independent Mental Capacity Advocacy Service was held by the Department of Health. This closed on 30 September 2005 and responses are currently being analysed. There will be further consultations on Lasting Powers of Attorney this month and Court of Protection rules and fees in the summer.

Small Claims Court (Tamworth)

Mr. Jenkins: To ask the Minister of State, Department for Constitutional Affairs what the current waiting time is from allocation to hearing for small claims at Tamworth county court. [42074]

Ms Harman: The latest figures available are those at the end of November 2005 the average waiting time for small claims is 14.8 weeks against a target of 15 weeks

Spoilt Ballot Papers

Shona McIsaac: To ask the Minister of State, Department for Constitutional Affairs how many spoilt ballot papers there were in each electoral ward in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in the most recent local elections in each of those wards. [42679]

Ms Harman: This information is not held centrally. The Returning officer at a local election, has a duty to publish the results of that election, including the names of the candidate(s) elected, the number of votes each candidate received and the number of rejected ballot papers under each head shown in the statement of rejected ballot papers (Rule 44(1)*(c)* of the Local Elections (Principle Areas) Rules 1983). There is no duty, however, to inform the Government of the result of a local election. The local authority in question should hold this information.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Administration Costs

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs what the total administrative costs for her core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39833]

Jim Knight: DEFRA's provisional administration costs outturn for the core Department for 2004–05 is shown in table 4 in the Public Expenditure Outturn White Paper (CMD 6639). All the administration costs, with the exception of administrative costs associated with departmental pay costs, are identifiable for the purposes of Public Expenditure Statistical Analyses.

Animal Health and Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce a regime whereby single farm payments can be made to farmers who develop an animal health and welfare strategy in conjunction with a veterinary surgeon. [42254]

Jim Knight: From 1 January 2007, farmers receiving payments under the single payment scheme will have to fulfil the requirements of three animal welfare directives under the cross compliance regime. We do not intend to make payments to farmers through the money available through the Rural Development Programme for farm health planning, but we do intend to pump prime with £6 million of money from elsewhere.

Animal Movement Licences

Hywel Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what discretion is allowed to applicants on complying with time limits when applying to the British Cattle Movement Service for animal movement licences. [43043]

Jim Knight *[holding answer 17 January 2006]:* The British Cattle Movement Service (BCMS) may issue a movement licence to allow a bovine animal without a passport, aged under two years, to be moved to a hunt kennel or knacker's yard. This licence may be applied for at any time but is valid for only two weeks from the date of issue. It must accompany the animal when it is moved. There is no discretion as to the time limit.

This is the only type of movement licence issued by BCMS.

Avian Influenza

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 16 January 2006, *Official Report*, column 892W, on Avian influenza, on what date the testing of the 3,179 wild birds for avian influenza commenced; and on what dates the mallard and shelduck were *(a)* found or captured and *(b)* tested. [43615]

Mr. Bradshaw: Testing of the 3,179 wild birds, referred to in the answer of 16 January 2006, *Official Report*, column 892W, commenced on 7 October 2005.

Samples from the mallard were taken on 14 November 2005 and first tested on 25 November 2005. Samples from the shelduck were also taken on 14 November 2005 and first tested on 6 December 2005.

Biofuels

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what incentives the Government are making available for the development of refining and processing capacity for *(a)* biomass and *(b)* other biofuels. [41511]

Mr. Morley: The Government are keen to promote the production of biomass heat and electricity, and transport biofuels. Electricity suppliers are required to source 15 per cent. of their electricity from renewables, including biomass, by 2015–16. The co-firing of biomass with coal in conventional power stations is permitted. £66 million of funding has been allocated to develop dedicated biomass power stations, combined heat and power schemes, and heating boilers. £12.5 million is available for household and community renewable energy projects, including biomass heating.

Support is available to process biomass into a form suitable for use by energy end-users. A cross-departmental team is looking at the recommendations from the Biomass Task Force on ways to overcome the barriers to developing biomass energy. The Government will publish a full response by April. Support for the production of transport biofuels is through the 20 pence per litre cut in the duty rate for biodiesel and bioethanol. Last November, the Government announced that a Renewable Transport Fuels Obligation will be introduced to require 5 per cent. of road fuel to come from a renewable source by 2010. Other measures being considered include duty incentives to encourage the mixing of biomass with hydrocarbons in the conventional refinery process, and an enhanced capital allowance scheme for the cleanest biofuels processing plants. The latter scheme would allow the cost of capital assets to be written off against taxable profits. Regional support grants for capital investment in production plants are already available.

Cattle Passports

Mr. Quentin Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle passport applications were refused because the application was received late over the last 12 month period for which figures are available. [42193]

Jim Knight: In the calendar year 2005, the Rural Payments Agency refused to issue passports for 13,298 animals born in or imported into Great Britain, because their passport applications were received outside the

legal time limit. This amounts to 0.49 per cent. of all applications. All these animals have been registered on the Cattle Tracing System database and issued with a notice of registration.

4,443 passports initially refused have subsequently been issued following successful appeals.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter dated 14 November from the right hon. Member for Manchester, Gorton with regard to Mr. Alexander Scott-Marlow. [41847]

Jim Knight: I apologise for the delay in responding to this letter, a reply will be sent out shortly.

Stephen Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many letters longer than one sheet of A4 paper were sent by her Department in 2005 in answer to inquiries from *(a)* hon. Members and *(b)* the public. [42731]

Jim Knight: That information is not held by this Department.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the former *(a)* buildings and *(b)* land of (i) her Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which her Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by her Department and *(y)* claimed by the Treasury. [40138]

Jim Knight: The information on sales of freehold land and buildings since June 2001 when DEFRA was created is set out in the following table. The Department does not hold information on current values and these could be provided only at disproportionate cost. The sales proceeds have been retained within the departmental limits agreed by the Treasury and therefore no excess funds have been claimed by the Treasury.

Department/NDPB/ Agency/ISB	*Year*	*Building*	*Land*	*Sale price (£)*
DEFRA	2001–02[1, 2]	Torry Laboratory Aberdeenshire	—	750,000

[1] From 8 June 2001.
[2] The Department for Environment, Food and Rural Affairs was created on 8 June 2001.
[3] Part payment in respect of PFI deal.
[4] Payment under clawback clause from original sale in 1999–2000.

Departmental Expenditure

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. [33217]

Jim Knight: The Department for Environment, Food and Rural Affairs was formed in June 2001 and all costs provided are from this organisation from that date.

(a) The costs of design and production of new logos since 2001:

The cost of producing the DEFRA departmental logo was £24,000 (2002)

Four other logos have been produced:

State Veterinary Service—new agency logo cost £14,387 (2005)

Marine Fisheries Agency—new agency logo cost £4,000 (2005)

Rural Development Service—new logo cost £1,000 (2004)

Government Decontamination Service—new agency logo cost £1,000 (2005)

(b) Since 2001 DEFRA's Communications Directorate has commissioned the following external media relations services:

Agency	*Project*	*Date*	*Cost (£)*
Good Relations	Sustainable Food and Farming	2002	5,900
Biss Lancaster	Your countryside your welcome	2002	189,366.67
Red	Illegal Imports	2002	121,848.93
Country Porter Novelli	Sustainable Development	2002	16,243
Forster Company	Darwin Initiative	2003	11,170
Media Moguls	Illegal Food Imports Campaign Phase 1	July 2004 to March 2005	261,558.70
Media Moguls	Illegal Food Imports Campaign Phase 2	August 2005 to present	22,362.31
Amazon Public Relations	Launch of the Sustainable Development Strategy	January 2005 to May 2005	55,904.84
Amazon Public Relations	Sustainable Development case studies	August 2005 to date	18,750
Weber Shandwick	Climate Change	October 2005 to March 2006	60,000

All agencies provided specialist skills and services not currently available within DEFRA's Communications Directorate.

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs what the annual expenditure on vehicles by *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [39967]

Jim Knight: Details of annual expenditure on vehicles are not held centrally for DEFRA and the bodies for which it is responsible, and could be provided only at disproportionate cost.

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department spent on bottled water in 2004–05. [40336]

Jim Knight: For the financial year 2004–05 my Department spent a total of £20,400 on bottled water at its HQ offices in London, Guildford and York. Costs for the remainder of the estate would be very difficult to separately identify and are therefore not included. Similarly, the figure does not include the provision of bottled water for hospitality that is paid for from decentralised budgets.

Energy Efficiency

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage change was in energy efficiency in *(a)* domestic buildings, *(b)* commercial buildings and *(c)* Government buildings between 2000 and 2005 (i) in total and (ii) in each year. [39914]

Mr. Morley: The tables give our best estimates of energy efficiency changes at the present time.

However, only those for households represent proper energy efficiency improvements, based on summing the contributions made by individual technical measures such as insulation and high efficiency boilers and lights. The Government are extending this approach to the industrial and services sectors, but will require much more detailed data to produce reliable indicators.

Historically, they have used change in energy intensity (i.e. energy per unit output—usually gross value added (GVA)) as a proxy for change in efficiency, while recognising that intensity change also includes structural change in business as well as change in demand for the underlying services provided by energy such as thermal comfort and illumination. Accordingly, comparisons at the moment between indicators for housing and for larger buildings are not meaningful.

No data are available yet for 2005, nor GVA figures separately for the commercial and government subsectors for 2004.

Percentage improvement in energy efficiency

	Domestic
2000–04	7.6
2000–01	2.3
2001–02	1.8
2002–03	1.8
2003–04	1.9

Percentage improvement in energy intensity

	Commercial	*Government*
2000–03	11	20
2000–01	2	2
2001–02	9	12
2002–03	0	6

Entry Level Scheme Criteria

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will amend the Entry Level Scheme criteria to give greater reward for activities in upland areas, with particular reference to *(a)* maintenance of stone walls and *(b)* mixed stocking options. [41917]

Jim Knight *[holding answer 16 January 2006]:* We will be considering all Entry Level Scheme options available for upland farmers, including stone wall maintenance, as part of our current evaluation of Environmental Stewardship. The initial results from this will be available in the spring. Decisions on the inclusion of mixed stocking options will depend on the outcome of the Hill Farming Allowance review.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committee on the Community action programme in the field of civil protection, *(b)* Committee on the control of major accident hazards involving dangerous substances (Seveso II) and *(c)* Committee for the implementation of the Community framework for cooperation in the field of accidental or deliberate marine pollution have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [38785]

Mr. Morley: During the UK presidency the Committee of the Community action programme in the field of civil protection met on 20–21 October. The Committee was chaired by the European Commission and the UK was represented by a Cabinet Office official.

The Committee on the control of major accident hazards involving dangerous substances (Seveso II) met on 13 October. The Committee was chaired by a representative from the Health and Safety Executive (HSE) which, together with the Environment Agency (EA) and the Scottish Environment Protection Agency, comprises the UK Competent Authority for the Seveso directive. Officials from the HSE and the EA attended and represented the UK.

There was also one meeting of the Committee for the implementation of the Community framework for co-operation in the field of accidental or deliberate marine pollution. The meeting was chaired by the European Commission. The UK representative was from the Maritime and Coastguard Agency, which is the competent authority for dealing with marine pollution.

The devolved Administrations are routinely asked to represent their views.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committee for the adaptation to scientific and technical progress of the directive on protection of water against pollution caused by nitrates from agricultural sources, *(b)* Management Committee on application of the directive on the standardisation and rationalisation of reports on the implementation of certain directives relating to the environment and *(c)* Committee for adaptation to technical and scientific progress of the directive on conservation of wild birds have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38823]

Mr. Morley: During the UK presidency there was one meeting of the committee for the adaptation to scientific and technical progress of the directive on protection of water against pollution caused by nitrates from agricultural sources, which was held on 12 December and was chaired by the European Commission. Officials from DEFRA, SEERAD and DOENI represented the UK.

On 3 November, the Management Committee on the application of the directive on the standardisation and rationalisation of reports on the implementation of certain directives relating to the environment, discussed, on this occasion, a questionnaire on the implementation of the integrated pollution prevention and control (IPPC) directive, and was chaired by the European Commission. There was no representative from the UK at this particular meeting.

No committees were held during this period for the adaptation to technical and scientific progress of the directive on conservation of wild birds.

The devolved Administrations are routinely asked to represent their views.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* management committees of the common organisation of agricultural markets for poultrymeat and eggs, *(b)* management committees of the common organisation of agricultural markets for fresh fruit and vegetables and *(c)* management committees of the common organisation of agricultural markets for products processed from fruit and vegetables have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [39002]

Jim Knight: The Eggs and Poultrymeat Management Committee met during the UK presidency on 13 July, 20 September, 19 October, 16 November and 7 December 2005. Meetings were chaired by European Commission officials. The UK was represented by one official from DEFRA. The devolved authorities were consulted on agenda items prior to each meeting, and receive reports and papers shortly after each meeting.

Meetings of the Management Committee for Fresh Fruit and Vegetables were held on 12 July, 13 September, 18 October, 22 November and 13 December. The Management Committee for Processed Fruit and Vegetables also met on all of these dates with the exception of 13 December. The Fresh Fruit and Vegetables Management Committee also met in the margins of the Wine Management Committee on 7 July and in the margins of the Cereals Management Committee on 25 August. All meetings were held in Brussels, chaired by officials of the European Commission and attended by DEFRA officials.

The UK Government take into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government).

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* management committees of the common organisation of agricultural markets for wines, *(b)* management committees of the common

organisation of agricultural markets for raw tobacco and *(c)* management committees of the common organisation for agricultural markets for hops have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [39010]

Jim Knight: The Wine Management Committee met seven times during the UK presidency of the European Union with the UK being represented by DEFRA. All of these meetings were presided over by European Commission officials.

The Tobacco Management Committee met twice during the UK presidency, on 19 September and 22 November. Both meetings were held in Brussels, chaired by officials of the European Commission and attended by DEFRA officials.

There were no management committees held for hops under the UK presidency.

The UK Government take into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs B4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government, available on the internet at www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_ 600629.pdf).

Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Standing Forestry Committee and *(b)* Committee on the conservations, characterisation, collection and utilisation of genetic resources in agriculture have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [39020]

Jim Knight: The Standing Forestry Committee met three times during the UK presidency of the EU. All three meetings were presided over by officials from the European Commission (DG Agriculture and Rural Development, and DG Environment) and were attended by officials from the Forestry Commission. Provision for representation of the devolved Governments is made through the EU Forestry Group, which is an informal group created by the Forestry Commission to consult with the devolved Administrations and other Government Departments to agree a UK line to take to the EU negotiations.

The Committee on the conservation, characterisation, collection and utilisation of genetic resources in agriculture did not meet during the UK presidency of the EU. However the Committee's Management Committee (ManCom) did meet once to consider the details of a Community programme established under Council Regulation (EC) 870/2004 to encourage the achievement of these aims. The meeting was chaired by EC officials (DG Agriculture) and was attended by DEFRA officials. DEFRA officials take account of views expressed by experts of the devolved governments who sit on the advisory bodies of the National Steering Committee for Farm Animal Genetic Resources and the United Kingdom Plant Genetic Resources Group.

Projects for funding under the first call for proposals under EC 870/2004 are currently being considered. A call for a second round of proposals is expected to be issued shortly.

Hill Farm Allowances

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will extend the current hill farm allowance scheme for a further 12 months. [41919]

Jim Knight *[holding answer 16 January 2006]:* In autumn 2004 DEFRA officials began reviewing how best to protect the upland landscape from 2007. Decisions on rural funding for the next programme period (2007–13) will be taken following consultation in early 2006.

Kyoto Protocol

Mr. Forth: To ask the Secretary of State for Environment, Food and Rural Affairs by how much carbon dioxide emissions have changed in each of the EU member states which were signatories to the Kyoto protocol since 1990. [41413]

Mr. Morley: The table shows carbon dioxide (CO_2) emissions in million tonnes of CO_2 ($MtCO_2$) for the 25 EU member states which are all signatories to the Kyoto Protocol and the percentage change in CO_2 emissions between 1990 to 2003. The emissions figures are those reported by parties in 2005 to the United Nations framework Convention on Climate Change (UNFCCC) which is the parent treaty for the Kyoto Protocol. Cyprus and Malta are non-Annex I Parties to the Convention, and as such are not required to submit emissions inventories annually.

These figures include emissions and removals from land-use, land-use change and forestry which provides the most complete coverage of carbon dioxide. The figures are not an indicator of progress with commitments under the Kyoto Protocol because the latter take account of emissions of methane, nitrous oxide and the fluorinated gases as well as carbon dioxide, and include only some activities in the land-use, land use change and forestry sector.

	CO_2 emissions ($MtCO_2$)		
Country	*1990*	*2003*	*Percentage change 1990 to 2003*
Austria	52.25	63.44	+21.4
Belgium	115.91	122.84	+6.0
Cyprus	n/a	n/a	n/a

n/a = not available.

Leisure Boating

Mr. Lancaster: To ask the Secretary of State for Environment, Food and Rural Affairs what actions the Government have taken to help promote leisure boating on Britain's canals. [42808]

Jim Knight: The Department provides financial support for the three major navigation authorities to enable them to maintain their waterways in a suitable condition for recreational use such as boating. The Government's policy document on the inland waterways, "Waterways for Tomorrow" makes it clear that the Government wants to encourage people to use the waterways for leisure and that it will encourage their use for this purpose.

Media Monitoring

Philip Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department and its predecessors spent on media monitoring activities in each of the last eight financial years. [35629]

Jim Knight: The Department's Press Office spent the following on media monitoring:

Media monitoring costs DEFRA Press Office

Financial year	Total (£)
2001–02	183,266
2002–03	283,085
2003–04	298,695
2004–05	340,471
April to November 2005–06 (YTD)	312,498

These figures include the Department's subscription to the Cabinet Office's Media Monitoring Unit and the cost of DEFRA's press cuttings service.

DEFRA was created following the General Election in June 2001, retrospective information before this date of the detail requested, incurred by the merged government bodies brought together to create DEFRA, could not be made available without incurring a disproportionate cost.

Official Overseas Visits

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list all official overseas visits undertaken by officials in her Department, broken down by directorate, in each year since May 2001; what the cost in cash and real terms was; how many official engagements and meetings were undertaken on each visit; how many officials took part in each visit, broken down by grades; and if she will make a statement. [34750]

Jim Knight: The costs (cash) incurred in relation to overseas travel is as follows:

Financial year	Costs incurred (£)
2001–02	1,328,461
2002–03	1,642,238
2003–04	1,558,319
2004–05	1,551,340

Unfortunately we are unable to provide the additional information requested as this information is not maintained centrally nor is it collated within business areas of DEFRA and it would not be economically viable to attempt to collate it.

Pheasant Shooting

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints her Department has received in the last 12 months on the effects on *(a)* residential amenities and *(b)* the environment of the rearing and release of pheasants for shooting. [44215]

Jim Knight: We have not received any complaints on these issues.

Rural Development Funding

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely impact on UK environmental schemes of the recent reduction in pillar II rural development funding. [41864]

Jim Knight: Programmes within pillar II of the CAP are designed, in part, to encourage farmers to adopt environmentally beneficial land management practices, and progress is being made. The UK's position is that such targeted programmes need to be continued, and perhaps strengthened with reform. The overall budget for the Rural Development Regulation was agreed as part of the financial perspective (2007–13) negotiations and has been set at €69.75 billion for the whole EU. This is in line with existing expenditure, although the precise allocation of funding is still to be proposed by the Commission. We will continue to argue that this should be based on the need for rural development and not on historical expenditure.

In addition, as part of the 2003 reforms it was agreed to move some funds from pillar I to pillar II, a process called 'compulsory modulation'. This will increase pillar II funding from the original budget allocation by around €1 billion a year by 2008.

The UK has also chosen to undertake significant voluntary modulation from pillar I to ensure that sufficient funds are available for domestic rural development. It is possible to transfer up to 20 per cent. of pillar I funds in this way to agreements made after 2006. It is vital to the UK and in England will fund our new Environmental Stewardship Scheme. However, Ministers are still to decide what level may be needed and on the likely size of the new rural development programme to operate from 1 January 2007. In England, we are currently planning to launch a public consultation concerning the content of the new England Rural Development Programme for 2007–13 in February 2006.

Snares

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will meet *(a)* Professor Stephen Harris and *(b)* Les Stocker MBE to discuss the findings of her Department's working group on snares. [42001]

Jim Knight: I have asked my officials to contact Professor Harris and Les Stocker to discuss the working group's report.

Sustainable Development

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been conducted by her Department of the *(a)* energy, *(b)* economic and *(c)* environmental effects of the production of biofuels from (i) energy crops and (ii) waste straw. [41533]

Mr. Morley: The effects of biofuels have been assessed under studies commissioned by DEFRA and DTI from Sheffield Hallam University and the Central Science Laboratory. These found that:

(a) Biodiesel and bioethanol from energy crops can deliver greenhouse gas savings of at least 55 per cent. compared to fossil fuels. This can be increased to 80 per cent. if the energy used in production is from renewable sources. The technology to convert straw into bioethanol is at an early development stage but offers the potential for greenhouse gas savings of around 85 per cent. compared to conventional diesel.

(b) The production of biofuels from UK biomass has a net beneficial impact on the UK economy due to the incomes that are generated in the agricultural, manufacturing, engineering construction, retail distribution and transport haulage sectors. There is additional employment where energy crops are grown on set-aside land as more labour is invested in crop production than in maintenance of set-aside. For oilseed rape, about two farming jobs are created (or sustained where crops substitute for other cultivation) for each 1,000 tonnes of biodiesel produced. Bioethanol production from wheat and sugar beet would generate around 5.5 jobs/1,000 tonnes of bioethanol production. For both energy crops and straw feedstocks, additional jobs would be created in biofuel processing. A 100,000 tonne biodiesel plant would employ around 62 staff in processing and blending industries. A similar sized bioethanol plant would employ 50–55 staff, plus a further 16–28 in fuel blending and transport. Cambridge University is currently carrying out a review of the farm level economic impacts of energy crop production, including the use of oilseed rape, sugar beet, wheat and straw for biofuel production.

(c) The crop management of energy crops for biofuel use is broadly the same as that for food crops. Biofuels production from a mix of feedstocks and replacing crops for food would have a neutral effect on biodiversity.

Any replacement of spring sown break crops with winter oilseed rape would have negative effect on crop diversity and farmland birds. If arable crops replaced natural-regeneration set-aside, this would reduce habitat diversity. The use of straw as a biofuel feedstock would not affect the environment significantly.

WTO (Hong Kong)

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs if she will *(a)* place in the Library and *(b)* post on her Department's website documents prepared by her Department for the trade negotiations meeting in Hong Kong; which departmental officials accompanied her to the meeting; and what carbon offset measures were established to cover the Department's delegation. [41568]

Jim Knight: My right hon. Friend the Secretary of State's briefing for the WTO ministerial conference in December contains a number of items of personal information which it would not be appropriate to reveal. It also contains sensitive information which it would not be in UK interests to divulge more widely. The Secretary of State therefore does not plan to make it publicly available.

Six DEFRA officials were included in the UK Government's delegation to the WTO Ministerial conference in Hong Kong.

Defra is offsetting carbon emissions that arise from department official and Ministerial air travel in 2005–06 including emissions associated with DEFRA's WTO delegation. Carbon offsets will be purchased through the Government Carbon Offsetting Fund, which is being set up to meet the Government commitment to offset all departmental air travel emissions from April 2006

TRANSPORT

A21

Gregory Barker: To ask the Secretary of State for Transport how much the Highways Agency has spent on renovating properties purchased under compulsory purchase order along the A21 in East Sussex. [43107]

Dr. Ladyman: Draft Orders for the A21 schemes have not yet been published, so no properties are currently subject to compulsory purchase. Three properties in East Sussex were acquired by discretionary purchase under sections 246/248 of the Highways Act 1980, and

two were acquired under the statutory blight provisions of the Town and Country Planning Act 1990. A total of £90,542.00 plus vat has been spent on refurbishing these properties.

Gregory Barker: To ask the Secretary of State for Transport what plans he has to hold further public consultations on the proposed A21 Upgrade in East Sussex; and whether he has received a report on previous public consultations. [43110]

Dr. Ladyman: The Highways Agency will continue to meet and have discussions with those individuals or groups, as requested. The details of the meeting held in December 2005 will be reported back to me shortly and I will write to the hon. Member with further information.

Gregory Barker: To ask the Secretary of State for Transport what representations he has received following the public consultation held in Hurst Green, East Sussex, in 2005 on the proposed A21 upgrade. [43059]

Dr. Ladyman: The details of the meeting held in December 2005 will be reported back to me shortly and I will write to the hon. Member with further information.

Aircraft (Contaminated Air)

Paul Flynn: To ask the Secretary of State for Transport if his Department will work with the United States' Federal Aviation Administration on its research into *(a)* possible contaminants present in aircraft cabin air and *(b)* the medical effects on passengers and cabin crew of exposure to contaminated air. [41982]

Ms Buck: We are in touch with the research team and will monitor their progress. We have requested an evidence review of documentation submitted by BALPA on this matter by the independent Committee on Toxicity; and this is in hand. The Committee's conclusions should help us to identify future research needs.

Aviation Policy/Safety

Lynne Featherstone: To ask the Secretary of State for Transport what assessment the Government have made of the effect of its aviation policy; and if he will make a statement. [42652]

Ms Buck: The Government are committed to the monitoring and evaluation of the effectiveness and impact of the policies of the White Paper. We will report by the end of 2006 on progress.

Lynne Featherstone: To ask the Secretary of State for Transport what assessment the Government have made of the effect of its aviation policy on the welfare of people who live *(a)* under and *(b)* close to flight paths; and if he will make a statement. [42653]

Ms Buck: The main impact on people living under or close to flight paths around airports relates to aircraft noise. There can also be impacts on local air quality around major airports as a result of air traffic and associated activities, such as road traffic travelling to and from the airport.

A noise level of 57 dBA Leq (equivalent continuous noise level) over a 16 hour period is regarded as the threshold for the approximate onset of significant community annoyance. This figure was derived from government sponsored research in the 1980s, in particular "The United Kingdom Aircraft Noise Index Study" published by the Civil Aviation Authority in 1985.

The Department publishes annual daytime noise contours covering 57 to 72 dBA Leq for Heathrow, Gatwick and Stansted airports. These show the geographical area and estimated population numbers affected by this range of noise levels. Elsewhere it is the responsibility of individual airports to produce aircraft noise contours and a number of major airports do so.

The Government have also sponsored research into the impact of aircraft noise on sleep. The former Department of Transport published in 1992, the "Report of a Field Study of Aircraft Noise and Sleep Disturbance". This study was and remains to date the largest survey of its kind in the United Kingdom. It was found that noise events below 90 dBA SEL (equivalent to about 80 dBA Lmax) were unlikely to affect average sleep disturbance rates, while events noisier than this gave a mean probability of disturbance of about 1 in 75, with a range of individual sensitivities around this average.

Subsequent government sponsored research resulted in three reports concerning aircraft noise and sleep:

"Adverse Effects of Night-Time Aircraft Noise", CAA, March 2000;

"Aircraft Noise and Sleep 1999 UK Trial Methodology Study", Ian Flindell *et al*, November 2000;

"Perceptions of Aircraft Noise, Sleep and Health", Ian Diamond *et al*, December 2000.

Having considered these reports the Government decided—in 2001—to commission a major new study that would concentrate on subjective responses to annoyance to aircraft noise. This study is reassessing attitudes to aircraft noise—including re-assessment of the association between the Leq index and reported annoyance—as well as attempting to examine subjective valuation of the nuisance from aircraft noise. It is due to report later this year.

The "Future of Air Transport" also sets out the impact of the Government's policies on air quality standards around airports, with further information contained in one of the supporting documents, "Air Quality Assessments Supporting the Government's White Paper". Although on a national scale the contribution of air transport and associated activities to local air quality problems are small, locally their effect can be significant. This is especially so at Heathrow and the reason why the Department has set up technical panels to review air quality issues at the airport as part of the Project for the Sustainable Development of Heathrow.

Copies of reports referred to are available in the House Library and many can be accessed electronically on the Department's website at www.dft.gov.uk.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) if he will make a statement on the progress of standardisation of aviation safety standards across the EU; [42753]

(2) when he expects that the European Aviation Safety Agency Standardisation Regulation will be implemented. [42754]

Ms Buck: Regulation (EC) No. 1592/2002 provides for the Agency to assist the Commission in monitoring the application of the Regulation by conducting standardisation inspections of member states national aviation authorities. This provides for a more effective standardisation of aviation safety standards across Europe than was possible under the mechanisms put in place by the Joint Aviation Authorities which had no legal force.

However, the Agency cannot put in place its standardisation processes until the European Commission has adopted the necessary implementing measures. The draft text of the Standardisation Regulation was agreed in December 2005 by the committee of member states representatives which assists the Commission in drawing up the various implementing regulations it is required to develop. The draft has to complete formal Commission processes before its adoption which we expect within the next month.

We consider the effective monitoring and standardisation of standards in member states to be one of the most important aspects of the new EASA system. We hope that the Standardisation Regulation can be adopted soon, so that the Agency can devote the necessary resources yet to this work.

Bus Services (Lincolnshire)

Shona McIsaac: To ask the Secretary of State for Transport how much Government financial assistance has been provided to *(a)* North East Lincolnshire and *(b)* North Lincolnshire for the provision of bus services in each of the five most recent years for which figures are available. [42587]

Ms Buck: Local transport authorities make their own decisions on the level of support for bus services in their area. The Government's Revenue Support Grant is a major element in the resources available to them for this purpose. The following tables show expenditure by the two local authorities concerned on bus support and concessionary fares on local bus services:

North East Lincolnshire

£000

	Bus support	*Concessionary fare reimbursement*
2000–01	128	452
2001–02	75	497
2002–03	76	710
2003–04	334	786
2004–05	350	647

North Lincolnshire

£000

	Bus support	*Concessionary fare reimbursement*
2000–01	705	403
2001–02	789	556
2002–03	725	579
2003–04	783	478
2004–05	616	588

Included in the figures for bus support is funding provided by this Department's bus grant schemes. The following table shows the total bus grant scheme funding allocated to both authorities since the introduction of the schemes in 1998:

£000

	North Lincolnshire	*North East Lincolnshire*
Rural Bus Subsidy Grant	2,669	459
Rural Bus Challenge	686	345
Urban Bus Challenge	—	376
Kickstart	—	523

In addition, all bus operators receive Bus Service Operators Grant, reimbursing the major part (currently 80 per cent.) of the fuel duty paid in operating local services.

Child Seats

Ms Barlow: To ask the Secretary of State for Transport what conclusions have been drawn from his Department's consultation on child seats in cars; and when the European Directive 2003/20/EC3 on child seats will be implemented. [43125]

Dr. Ladyman: The Department expects to be able to announce the conclusions of the consultation soon. The directive requires implementation by 8 May 2006, and regulations are in preparation.

Cycling England

Dr. Kumar: To ask the Secretary of State for Transport how much funding Cycling England plans to allocate to improving the cycling network in *(a)* the Tees Valley and *(b)* Middlesbrough, South and East Cleveland constituency area; and what measures will be funded in each case. [43295]

Derek Twigg: Cycling England has allocated £2.5 million to Darlington borough council in the Tees Valley as one of the six successful bidders in the Cycle Demonstration Towns project. £2 million is for capital investment to improve cycle facilities, including new and improved cycle routes. A further £35,000 and £40,000 has been allocated respectively to Darlington BC and Stockton-on-Tees BC as part of the 'Links to Schools' programme which Cycling England fund through Sustrans, the promoters of the National Cycle Network.

Cycling England have made no specific allocation of funding to Middlesbrough, South or East Cleveland, though they will be able to bid for a share of the £1 million Cycling England investment in cycle training. Authorities in those areas can also receive free expert advice on cycling from the advisory services funded by Cycling England.

Drink Driving

Mr. Harper: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* serious road accidents there were in each of the past five years for which figures are available; and how many in each year involved drivers with blood alcohol levels (i) above the legal limit, (ii) below the legal limit but above 50mg per 100ml and (iii) below 50mg per 100ml. [42980]

Dr. Ladyman: The number of fatal and serious personal injury road accidents between 2000 and 2004 (the last five years for which figures are available) are shown in table A.

Table A: Fatal and serious personal injury road accidents: 2000 to 2004

	Fatal accidents	*Serious accidents*
2000	3,108	32,499
2001	3,176	31,588
2002	3,124	30,521
2003	3,247	28,913
2004	2,978	26,748

Information on the blood alcohol level of drivers involved in personal injury road accidents is not collected.

The estimated number of fatal and serious personal injury road accidents involving illegal alcohol levels between 2000 and 2004 are shown in table B.

Table B: Fatal and serious personal injury road accidents involving illegal alcohol levels: 2000 to 2004

	Fatal accidents	*Serious accidents*
2000	450	1,950
2001	470	2,020
2002	480	2,050
2003	500	1,970
2004[1]	530	1,790

[1] Provisional estimate

European Aviation Safety Agency

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) how the quality and consistency of advice provided by the European Aviation Safety Agency is monitored; [42738]

(2) how he plans to keep under review the effectiveness of the European Aviation Safety Agency's methods of regulation. [42746]

Ms Buck: The European Aviation Safety Agency provides a range of advice to various parties. It issues opinions to the Commission, which will be concerned with the quality and consistency of the advice it receives from the Agency.

The Agency also issues specifications and guidance material to be used in the certification process. There is no specific process for monitoring the quality and consistency of this advice. However there is an appeal process against the decisions of the Agency and it is possible that appellants could refer to any weaknesses in the advice. In addition an advisory body of interested parties has been set up which may monitor matters of this kind.

The Management Board has a key role. It is empowered to advise the executive director at any time on any matter related to the strategic development of aviation safety, such as the quality and consistency of advice provided by the Agency or the effectiveness of its methods of regulation. The board may consult the advisory body of interested parties before raising such concerns with the director.

Also, by September 2006 the board must commission an independent evaluation of the implementation of the regulation which established the Agency. The evaluation will include an examination of how effectively the Agency fulfils its mission, and will thus need to examine both the quality and consistency of its advice and the effectiveness of its methods of regulation.

The Civil Aviation Authority is keeping under review all aspects of the performance of the Agency and reporting its findings to the Secretary of State. This advice also informs the positions taken in the Management Board by the UK representative, who is the deputy chairman of the board.

The Secretary of State has written to Jacques Barrot, vice-president of the European Commission to stress the Government's concern about the Agency's performance in the areas covered by this and the hon. Member's related parliamentary questions on the subject. The Secretary of State has sought the commissioner's proposals for resolving these problems as soon as possible and an early meeting at the highest official level.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether the European Aviation Safety Agency has published a corporate plan strategy for achieving its objectives. [42749]

Ms Buck: Regulation (EC) No. 1592/2002 assigns the Agency various functions for the purposes of the proper functioning and development of civil aviation safety. The Agency is required to publish annually a programme of work for the coming year setting out how it intends to achieve this objective, which contains some of the elements normally expected in a corporate plan.

Mrs. Dunwoody: To ask the Secretary of State for Transport what measures are in place to improve working relationships between the European Aviation Safety Agency and national aviation authorities in EU member states. [42751]

Ms Buck: The European Aviation Safety Agency's Management Board has placed considerable emphasis on the importance of developing better working relationships between the Agency and national aviation authorities. The board has agreed that the joint Agency/national aviation authority group it set up to monitor the Agencies manpower planning should also address other issues affecting the Agency/national aviation authority interface as they arise.

One of the recommendations of this group is that the Agency should hold discussions with each national authority on certain aspects of manpower planning and it is hoped that these discussions will provide an opportunity to build up working relationships more generally. Initial discussions have already been held with the UK Civil Aviation Authority.

Mrs. Dunwoody: To ask the Secretary of State for Transport what formal contractual arrangements are in place between the European Aviation Safety Agency and national aviation authorities in EU member states to plan and manage technical resources. [42752]

Ms Buck: The European Aviation Safety Agency (EASA) have established framework contracts under a common format with the majority of national aviation authorities, the object of which is, for a period of three years following signature, to:

"assist the European Aviation Safety Agency in the execution of its tasks in the fields of certification, as specified in article 15 of Regulation (EC) No 1592/2002."

The framework goes on to make clear that:

"Signature of the contract imposes no obligation on the parties to purchase or provide services. Only implementation of the contract through order forms and specific contracts is binding on the parties."

The framework contract between EASA and the United Kingdom Civil Aviation Authority (CAA) was signed on 1 June 2005. Subsequently EASA have issued order forms for the provision of technical assistance for limited periods of up to three months. The CAA currently has an order covering January and February 2006.

The framework contract does not provide for the planning or management of technical resources, other than to meet regularly in a review capacity. In practice EASA and the CAA meet monthly to exchange information pertaining to these issues.

Inter-ministerial Meetings (Scottish Executive)

Mr. Weir: To ask the Secretary of State for Transport how many inter-ministerial meetings his Department has held with the Scottish Executive since May 1999, broken down by *(a)* Scottish Executive department, *(b)* subject and *(c)* date. [39636]

Ms Buck: Ministers have regular dialogues with Ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Leeds Supertram

Colin Challen: To ask the Secretary of State for Transport what representations he has received following his announcement regarding Leeds Supertram. [42952]

Derek Twigg: Following the Secretary of State for Transport's announcement on 3 November 2005 regarding Leeds Supertram, 50 letters have been received concerning the scheme, including three from hon. Members. Five parliamentary questions have been asked which refer to Leeds Supertram.

Low-speed Zones

Chris Grayling: To ask the Secretary of State for Transport how many home zones areas have been established in each of the last five years; and what the total cost was in each of those years. [40564]

Derek Twigg: Through the one-off Home Zones Challenge programme, a total of £30 million funding was allocated to individual schemes in England for the period 2001–05. This fund was not based on yearly allocations. Of the 61 schemes selected for funding, 59 have been implemented while, as a result of public votes, two were not taken beyond the public consultation stage.

Local authorities also implemented a number of other home zones using their own resources or single capital pot resources supported by Government. The Department does not have a comprehensive return listing the number of schemes or their total cost. However, local authority returns indicate that £12.6 million of the capital allocations, made available by the Department for authorities to implement small schemes according to their priorities and policies, has been spent on home zones. The breakdown is £1.9 million in 2001–02, £2.8 million in 2002–03, £2.5 million in 2003–04, £3.6 million in 2004–05 and an estimated £1.8 million in 2005–06.

Office Equipment

Mr. Weir: To ask the Secretary of State for Transport how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines *(i)* his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales and (3) each of the English regions owned in (x) 2003–04 and *(y)* 2004–05. [40124]

Ms Buck: The information for the Department, its agencies, NDPBs and related bodies is as follows:

DfT HQ

The requested information is not held centrally and could be obtained only at disproportionate cost. The following figures are estimates based on the available information.

	2003–04	*2004–05*
Personal computers	2,279	2,113
Laptops	427	778
Servers	102	105
Printers	n/a	506
Scanners	33	28
Photocopiers[1]	209	233
Fax machines	n/a	n/a

[1] The vast majority of photocopiers are leased.

British Transport Police Authority

The British Transport Police Authority was established as an NDPB on 1 July 2004. Therefore, the requested figures, as provided by the BTP, are only applicable for the year 2004–05.

	2004–05
Personal computers	1,809
Laptops	451
Servers	70
Printers	419
Scanners	30
Photocopiers	117
Fax machines	165

Civil Aviation Authority

	2003–04[1]	*2004–05*
Personal computers	880	850
Laptops	570	550
Servers	100	100
Printers	510	560

Civil Aviation Authority

	2003–04[1]	2004–05
Scanners	75	02
Photocopiers	48	48
Fax machines	60	60

[1] Figures for 2003–04 are estimates.

Driving Standards Agency

	2003–04	2004–05
Personal computers	807	1,457
Laptops	100	135
Servers	43	46
Printers	147	540
Scanners	4	11
Photocopiers[1]	14	14
Fax machines	415	417

[1] 13 of the 14 photocopiers are leased.

Driver Vehicle and Licensing Agency

	2003–04	2004–05
Personal computers	9,963	9,089
Laptops	324	381
Servers	341	482
Printers	2,630	3,226
Scanners	173	203
Photocopiers[1]	210	210
Fax machines	371	384

[1] All photocopying machines are leased not owned.

Government Car and Despatch Agency

	2003–04	2004–05
Personal computers	88	94
Laptops	9	13
Servers	6	5
Printers	38	41
Scanners	1	3

Vehicle and Operator Services Agency

	2003–04	2004–05
Personal computers[1]	1,061	607
Laptops	1,083	1,066
Servers	49	49
Printers	930	1,025
Scanners	29	32
Photocopiers	176	176
Fax machines[2]	n/a	n/a

[1] During 2004 many of the personal computers were replaced with desktop terminals that link to a central server.

[2] Figures for fax machines are unavailable because they are sourced locally. Therefore, this information is not held centrally and cannot be obtained without disproportionate cost.

Note:
The number of information technology assets is constantly changing. There is therefore a 10 per cent. margin of error for any figures shown in this table. A more accurate inventory could not be obtained without disproportionate cost.

Operator Licensing System

Greg Mulholland: To ask the Secretary of State for Transport pursuant to the answer of 15 December 2005, *Official Report*, column 226W, on the Transport Commissioners, when he plans to make a statement on the consultation paper on proposals for modernising and streamlining the operator licensing system. [43951]

Dr. Ladyman: I refer the hon. Member to my written statement on 19 December 2005, *Official Report*, column 188WS.

Pensioners (Hendon)

Mr. Dismore: To ask the Secretary of State for Transport how many pensioners in Hendon have *(a)* received discounted driving licences and *(b)* qualified for free bus travel in 2005; and if he will make a statement. [41616]

Ms Buck: *(a)* The Driver and Vehicle Licensing Agency issued 1,020,328 free driving licences to those aged 70 and over during 2005. It is not known how many of these licences were issued to residents of Hendon.

(b) In the parliamentary constituency of Hendon, over 17,000 people aged 60 or over were eligible for concessionary travel on London's buses in 2005 In the whole of the London borough of Barnet, 58,300 older people were eligible. However, the take-up of concessionary travel in the constituency of the borough is not known. In London as a whole the take-up rate of concessionary travel permits in 2004 was 85 per cent.

Railways

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, on train operating companies, what the criteria are for the evaluation of costs and benefits of propositions from train operating company franchise bidders. [39376]

Derek Twigg: The Department carries out bid evaluation in accordance with HM Treasury-approved standard methodologies for cost benefit analysis.

Adam Afriyie: To ask the Secretary of State for Transport what estimate he has made of the number of passengers who will be using railways in Great Britain by 2014. [41040]

Derek Twigg: The Department's published projections for rail use are expressed as passenger kilometres rather than numbers of passengers. Current projections are set out in the paper "The Future of Transport: Modelling and Analysis" published on 21 March 2005 which is available on the Department's website. The central projection shows rail passenger kilometres increasing by 33 per cent. between 2000 and 2010 and by 1.3 per cent. a year from 2010 to 2025.

Stephen Hammond: To ask the Secretary of State for Transport how many rail passenger kilometres were travelled in each of the last five years. [40855]

Derek Twigg: The information is as follows:

	Total passenger kilometres (billion)
April 2000-March 2001	38.2
April 2001-March 2002	39.1
April 2002-March 2003	39.7
April 2003-March 2004	40.9
April 2004-March 2005	42.4

Stephen Hammond: To ask the Secretary of State for Transport what his Department's target is for an increase in rail use. [40867]

Derek Twigg: The Department does not have a current target for an increase in rail use. It has a public service agreement (PSA) to achieve 85 per cent. reliability by March 2006 as reliability was deemed to be the major limiting factor in increasing rail use.

Stephen Hammond: To ask the Secretary of State for Transport what the cost was of closing the Strategic Rail Authority. [41710]

Derek Twigg: The Strategic Rail Authority has not yet been fully closed. The Authority's 2005 annual report estimated that final cost expected to be incurred is £13.9 million. This relates to staff costs including redundancy.

Stephen Hammond: To ask the Secretary of State for Transport how many people previously employed by the Strategic Rail Authority in technical and advisory roles have been retained in similar roles elsewhere within the rail industry. [41712]

Derek Twigg: The Strategic Rail Authority employed seven technical specialists on 1 April 2005. Of these, six have been retained in the rail industry, three of which transferred to the Department for Transport.

Road Deaths (Lancashire)

Mr. Evans: To ask the Secretary of State for Transport how many road deaths there have been in the Lancashire county council area in each of the last five years. [43145]

Dr. Ladyman: The number of fatalities in personal injury road accidents in Lancashire county council (excluding the unitary authorities of Blackburn with Darwen and Blackpool) for the last five years for which data is available, are given in table.

Year of accident	*Number of fatalities*[1]
2000	53
2001	62
2002	53
2003	75
2004	54

[1] Deaths within 30 days of the accident. Excludes confirmed suicides, death from natural causes and injuries to pedestrians with no vehicle involvement (e.g. a fall on the pavement).

South East Trains

Clive Efford: To ask the Secretary of State for Transport if he will ensure that all staff are transferred from South East Trains to Govia without any loss of benefits in their terms and conditions of employment and pension rights. [42239]

Derek Twigg: All staff currently employed by South Eastern Trains will be transferred to the new Franchisee on the 1 April 2006. Their transfer to the new employer will be in accordance with the Transfer of Undertakings (Protection of Employment) Regulations 1981 (TUPE).

Stage Cottage (East Sussex)

Gregory Barker: To ask the Secretary of State for Transport what renovation work has been carried out by contractors working for the Highways Agency on Stage Cottage, Hurst Green, East Sussex; and how much they have been paid. [43108]

Dr. Ladyman: Stage Cottage has undergone substantial re-decoration and refurbishment at a cost of £22,000.00 plus vat.

Gregory Barker: To ask the Secretary of State for Transport what plans the Highways Agency has to rent out Stage Cottage, Hurst Green, East Sussex following its purchase under a compulsory purchase order in 2005. [43109]

Dr. Ladyman: A compulsory purchase order has not yet been published for this scheme. This was a discretionary purchase at the owner's request. The Highways Agency is making arrangements through its managing agent to rent out this property as soon as possible.

Gregory Barker: To ask the Secretary of State for Transport how much the Highways Agency has spent on Stage Cottage, Hurst Green, East Sussex since it was purchased under a compulsory purchase order. [43111]

Dr. Ladyman: A compulsory purchase order has not yet been published for this scheme. This was a discretionary purchase at the owner's request. A total of £24,481 plus VAT has been spent on Stage Cottage, which includes the refurbishment and management, maintenance and security costs.

Traffic Accidents (Ribble Valley)

Mr. Evans: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* serious road traffic accidents occurred in Ribble Valley constituency in each year since 1997. [43146]

Dr. Ladyman: The number of fatal and serious personal injury accidents that occurred in the parliamentary constituency of Ribble Valley for each year since 1997, is given in table.

	Accident severity	
Year of accident	*Fatal*	*Serious*
1997	11	84
1998	16	93
1999	8	73
2000	6	68
2001	10	76
2002	7	73
2003	7	62
2004	3	51

The accidents in the table are those which occurred within the 2004 boundary of Ribble Valley constituency.

Transport Strategy Documents

Chris Grayling: To ask the Secretary of State for Transport if he will list the transport strategy documents published by his Department and its agencies since 1997. [43187]

Ms Buck: Since 1997, the Department for Transport, and its predecessors, have published the following documents relating to overarching transport strategy:

'A New Deal for Transport: Better for Everyone The Government's White Paper on the Future of Transport (July 1998)

Transport 2010—The 10 Year Plan (July 2000)

'Delivering Better Transport: Progress report' (December 2002)

'The Future of Transport: a network for 2030' (July 2004).

Unlicensed Taxis

Greg Mulholland: To ask the Secretary of State for Transport what recent estimate his Department has made of the number of unlicensed taxis operating in *(a)* England and *(b)* Leeds North West. [43376]

Ms Buck: We have made no estimate of the extent of unlicensed taxi operation either in England as a whole or in particular local areas. However, relevant data is held by the Court Proceedings Database of the Office for Criminal Justice Reform.

Taxis in England must be licensed by the relevant local authority under the Town Police Clauses Act 1847. Individuals who attempt to provide a taxi service without being properly licensed normally do so by contravening section 45 of the 1847 Act by illegally plying for hire or section 167 of the Criminal Justice and Public Order Act 1994 by touting.

The Court Proceedings Database shows the numbers of offenders found guilty of offences under the Town Police Clauses Act 1847 (wider than just illegal plying for hire) and s167 of the 1994 Act are as follows; these data are provided on the principal offence basis.

In 2004, 215 people were found guilty of offences under sections 40–68 of the 1847 Act in England; 16 people were found guilty of these offences in the West Yorkshire Police Force Area.

In 2004, 311 people were found guilty of offences under s167 of the 1994 Act in England; none of these offences were in the West Yorkshire Police Force Area.

Vehicle Testing

Mr. Greg Knight: To ask the Secretary of State for Transport on what basis he deems it necessary for private motor vehicles to be tested annually once they are over three-years-old; if he will assess the merits of extending the period between tests beyond 12 months; and if he will make a statement. [41979]

Dr. Ladyman *[holding answer 16 January 2006]:* The primary purpose of the MOT test is to help safeguard against unroadworthy vehicles being used on the road. The average failure rate at annual test is, and has been for many years, around 30 per cent. for cars (equating to 6,752,700 cars), 35 per cent. for light goods (about 173,250 light goods vehicles between 3 and 3.5 tonnes) and 20 per cent. for motorcycles (about 149,000 motorcycles). The failure rate for cars undergoing their first MOT since their initial registration is around 16 per cent. (and equates to 375,000 vehicles). This reflects mainly items prone to wearing such as brake pads and tyres, which high mileage drivers who fail to check their vehicles regularly can easily overlook.

The current frequency of the test represents a reasonable balance between the cost to the motoring public and the risk to road safety of allowing defective vehicles to go undetected. However Ministers keep this under review.

TREASURY

Audible Fire Alarms

Bob Spink: To ask the Chancellor of the Exchequer what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42869]

John Healey: 100 per cent.

Carers

Danny Alexander: To ask the Chancellor of the Exchequer if he will estimate the cost of the inclusion of carers allowance recipients in the tax credit system. [41227]

Dawn Primarolo: Carer's allowance recipients are not excluded from the tax credits system. Carer's allowance recipients who meet the appropriate qualifying conditions are eligible for child tax credit and working tax credit. Information on the current cost of paying tax credits to carer's allowance recipients is not available because we do not separately collect information on tax credits paid to recipients of carer's allowance.

Charities

Dr. Starkey: To ask the Chancellor of the Exchequer how many times HM Revenue and Customs audited the accounts of charitable organisations in each of the last five years. [43669]

Dawn Primarolo: The number of audits and enquiries in relation to Gift Aid tax repayment claims and charity tax returns is shown in the table as follows. Information is only available from 2001–02.

	Number of audits/inquiries
2001–02	[1]828
2002–03	813
2003–04	884
2004–05	908

[1] This does not include inquiries made in relation to Scottish charities, for which no record is available for 2001–02.

Note:
Figures do not include inquiries raised in respect of any subsidiary trading companies.

Child Care Costs (Tax Exemption)

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many firms have claimed a tax exemption on the first £50 a week of child care costs since the introduction of the exemption. [43766]

Dawn Primarolo: The information requested is not currently available; Her Majesty's Revenue and Customs are currently assessing and monitoring the impact of the tax and national insurance contributions exemptions for employer supported child care.

Child Trust Fund

Mr. Jenkins: To ask the Chancellor of the Exchequer how many Child Trust Fund vouchers have been issued to families in Tamworth constituency to date. [43460]

Dawn Primarolo: I refer the hon. Member to the answer given on 1 December 2005, *Official Report*, column 658W, to the hon. Member for Paisley and Renfrewshire, North (Jim Sheridan).

Mrs. Spelman: To ask the Chancellor of the Exchequer how many staff *(a)* from the Valuation Office Agency, *(b)* HM Revenue and Customs and *(c)* his Department will attend the (i) Mass Appraisal Valuation Symposium in Vancouver on 6–7 February, (ii) Integrating GIS and CAMA Conference in Orlando, Florida on 19 to 22 February and (iii) International Property Tax Institute International Conference in Kuala Lumpur, Malaysia, in August; and what the total estimated cost to the public purse will be of attendance at each of the events. [42841]

Dawn Primarolo: The information requested is as follows:

	Number of staff attending			
	VOA	*HMRC*	*HMT*	*Estimated cost (£)*
Event				
Valuation Symposium Vancouver February 2006	1	0	0	1,000
GIS/CAMA Conference Florida February 2006	1	0	0	1,000
IPTI Conference Kuala Lumpur August 2006	1	0	0	1,000

Departmental Staff (Castle Point)

Bob Spink: To ask the Chancellor of the Exchequer how many staff employed by his Department live in Castle Point. [42821]

John Healey: None of the staff of the Treasury are known to live in Castle Point.

Economic Activity

Lynne Featherstone: To ask the Chancellor of the Exchequer how many people were economically inactive in each London borough in each of the last five years; and if he will make a statement. [42948]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question concerning economic inactivity. (42948)

The Office for National Statistics (ONS) compiles statistics of inactivity for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The attached table shows the numbers of inactive people of working age, resident in each London Borough, for the 12 month periods ending February 2001 to February 2004 from the annual local area LFS, and for the 12 months ending March 2005 from the APS. The table also shows the number of inactive people as a percentage of the total working age population resident in each Borough.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Number of persons of working age resident in each London borough who are economically inactive, and working age inactivity rates

	12 months ending February 2001		*12 months ending February 2002*		*12 months ending February 2003*

Electoral Administration/Registers

Chris Ruane: To ask the Chancellor of the Exchequer what the registration rate is in each ward of each constituency in *(a)* England, *(b)* Northern Ireland and *(c)* Scotland, listed in descending order and grouped according to region. [41187]

John Healey *[holding answer 12 January 2006]:* The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the registration rate in each ward of each constituency in *(a)* England, *(b)* Northern Ireland and *(c)* Scotland listed in descending order and grouped according to region.(41187)

I attach tables giving a comparison between the number of registered electors and the estimated population for wards in each parliamentary constituency in England and Northern Ireland. Data for Scotland are not currently available. Because of the length of the tables they have been provided in electronic format and will be placed in the House of Commons Library.

It should be borne in mind that the percentage of the resident population who are registered to vote does not provide a reliable estimate of the registration rate of the eligible population. This is mainly because there are definitional differences between "usually resident" and eligibility to vote and therefore the estimated resident population aged 18 and over is not the same as the number of people eligible to vote. For example, the resident population includes all those who usually live in an area irrespective of nationality whereas the parliamentary electorate excludes foreign nationals (but Commonwealth and Irish citizens are included) and may include some overseas electors who do not currently live in the area. Further, there is inevitably some double counting of the registered electorate and this can occur for a number of reasons. People who have more than one address, including students, may register in more than one place. Electoral

registration officers may vary in how quickly they remove people from the registers after they have moved away from an area or after they have died.

Table 1 contains data for England. The closest available geography to current electoral wards, for which population estimates are available, is Census Area Statistics (CAS) wards. This geography was created for outputs from the 2001 Census and is based mainly on 2003 electoral wards. The electorate counts are on electoral ward boundaries and it has been necessary to convert these to the CAS ward geography.

The latest available population data available at ward level are for mid-2002, published in April 2005. The ward electorate counts are for December 2002 parliamentary electors, including attainers. The parliamentary electorate has been used rather than the local government electorate even though the latter is definition ally closer to the resident population because the local government electorate is not available at ward level. No adjustment has been made to reflect the difference between these two time points. There are a number of wards that are split by parliamentary constituency i.e. they fall within two or more parliamentary constituencies. These are shown by an asterisk * alongside their ward name, and appear under both constituencies. Electorate and population figures for the whole ward are shown. Some wards will therefore be double counted. It is not possible to split the data for these wards.

The population data are estimates and as such are subject to a margin of. confidence. This margin of confidence is proportionately larger for ward level estimates than for local authority level estimates. The GAS ward level population estimates have been published with the status of "experimental statistics". Therefore, the estimates, and figures derived from them, should be treated with some care.

There are a relatively small number of wards (19) where the electorate counts are more than 10 per cent. greater than the population estimate. These cases are attributable to definitional differences between the estimates and electoral counts, the margin of confidence in the ward estimates, the accuracy of the electoral registers and limitations in the methodology used to convert electoral counts to the GAS ward geography.

Table 2 contains data for total electorate for electoral wards in Northern Ireland. The latest available population data available at ward level are from the 2001 Census, taken on 29 April 2001. The ward electorate counts are for 15 October 2001 and include all those registered to vote in any election. These counts do not exclude foreign nationals but do include electors. No adjustment has been made to reflect the difference between these two time points.

Mr. Evans: To ask the Chancellor of the Exchequer how many electors there are in each category in each Lancashire constituency according to the current electoral registers; and how many there were in 2005. [43155]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Equitable Life

Mr. Holloway: To ask the Chancellor of the Exchequer what additional funding his Department has provided to the Parliamentary Ombudsman in relation to her investigation into the prudential regulation of Equitable Life. [43270]

Mr. Des Browne: The Treasury has provided £1.2 million to fund the Parliamentary Ombudsman's investigation into the prudential regulation of Equitable Life and a proportion of £150,000 to cover related legal costs.

European Bank for Reconstruction and Development

Mr. Hurd: To ask the Chancellor of the Exchequer further to the answer of 20 December 2005, *Official Report*, column 2797W, on the European Bank for Reconstruction and Development, whether the bank has approached shareholders since Statutory Instrument 1991 No 757 was made to ask permission to increase payment to employees and retirees for the specific purpose of paying income tax; whether UK nationals are obligated to use pension payments made to them by the bank to buy a taxable investment; what the value has been of pension payments made to employees and retirees by the bank since its inception; and what the most recent valuation is of the assets held in both schemes. [43061]

Dawn Primarolo: The European Bank of Reconstruction and Development provides for retirement by making lump sum payments to employees to be invested by them to provide retirement income. As stated in the answer of 20 December 2005, *Official Report*, column 2797W, a payment made by the bank from the bank's funds to enable an employee to purchase retirement income is, as an emolument of his employment, exempted from UK income tax by paragraph 14 of Statutory Instrument 1991 no 757.

The emolument paid to staff is determined in accordance with the rules of the bank's retirement plans. At the creation of the bank, its consulting actuaries advised that, based on a range of actuarial assumptions, the lump sum benefits under the plans would enable a married participant with 30 years service to purchase a single life annuity, with contingent spouse pension and indexation, equivalent to 70 per cent. of final EBRD gross base salary. This 70 per cent. figure was purely indicative and was not a commitment to provide a retirement income of such amount. Any income would depend upon the rate of return of the investment. However, this gross salary was initially calculated as the employees' net salary grossed up by the bank's own internal income tax. In 1992 a report by the bank's consulting actuaries found that this approach led to a level of benefits lower than in comparable organisations. Following this report the board of directors—as representatives of the bank's shareholders—on 15 December 1992 decided that the appropriate measure of gross salary for pension purposes would be one that took account of average UK tax rates. Since UK tax rates were, and are, higher than the bank's internal tax, the level of lump sum necessary to generate the same potential level of income, using the original actuarial assumptions, was greater.

As a result, both bank and employee contributions to the retirement plans which provide the lump sum payments were increased. The tax position of these lump sum payments remains as set out earlier in this answer. As stated in the answer of 20 December 2005, *Official Report*, column 2797W, retirement income arising from the investment of the payment is liable to income tax in the normal way.

The EBRD does not make pension payments, it provides a lump sum which is intended for individuals to make investments to provide income in retirement. The form of these investments is for individuals to determine.

The bank has two plans which support the payment of lump sums at retirement: the Final Salary Plan and the Money Purchase Plan. The payments made since the inception of the plans to end March 2005—the latest date for which audited figures are available—are £50,993,820 and £47,683, 290 respectively. As at 31 March 2005, the value of assets held by the bank in respect of the Money Purchase Plan is £77,628,896 and the value of the assets held by the bank in respect of the Final Salary Plan is £73,810,750.

Family Size

Bob Spink: To ask the Chancellor of the Exchequer how many families in the United Kingdom there are with *(a)* one child, *(b)* two children and *(c)* five or more children, broken down by ethnic group. [42905]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your recent question asking how many families in the United Kingdom there are with *(a)* one child, *(b)* two children and *(c)* five or more children, broken down by ethnic group in the UK. (42905)

Specially commissioned table C0613 has been run to identify the number of families in the United Kingdom with *(a)* one child, *(b)* two children and *(c)* five or more children, broken down by ethnic group. This table can also be obtained via a request to: Census.customerservices@ons.gsi.gov.uk

The table counts all families with children (dependent and non dependent) and the ethnic group is that of the family reference person.

For definitions of variables used to create the counts, see the footnotes appended to the table.

Table C0613: Count of families by number of children in families by ethnic group of family reference person

Population: families

United Kingdom	*White*	*Mixed*	*Indian*	*Pakistani*	*Bangladeshi*	*Other Asian*
One child	5,282,575	39,559	115,892	62,885	22,769	26,071
Two children	3,197,289	23,501	86,314	48,177	18,283	19,086
Five or more children	53,139	896	1,585	7,914	3,906	847

Population: families

United Kingdom	*Black Caribbean*	*Black African*	*Other Black*	*Chinese*	*Other Ethnic group*	*Total family reference persons*
One child	86,929	46,956	9,925	22,671	20,686	5,736,918
Two children	41,817	30,934	5,349	14,935	14,537	3,500,222
Five or more children	948	2,327	226	238	594	72,620

Notes:

1. Cells in this table have been randomly adjusted to avoid release of confidential data.
2. The table counts all families with children (dependent and non-dependent) and the ethnic group is that of the family reference person.

5.43 Family

A family comprises a group of people consisting of a married or cohabiting couple with or without child(ren), or a lone parent with child(ren). It also includes a married or cohabiting couple with their grandchild(ren) or a lone grandparent with his or her grandchild(ren) where there are no children in the intervening generation in the household. Cohabiting couples include same sex couples. Children in couple families need not belong to both members of the couple.

5.44 Family Reference Person (FRP)

In a Lone parent family, the family reference person (FRP) is taken to be the lone parent in a lone-parent family. In a couple family, the FRP is chosen from the two people in the couple on the basis of their economic activity (in the priority order; full-time job, part-time job, unemployed, retired, other). If both people have the same economic activity, the FRP is identified as the elder of the two or, if they are the same age, the first member of the couple on the form.

5.18 Child

There is no age limit on the term child. For example, a married couple living with their son aged 40 would be classified as a family consisting of a married couple and their child unless the son has a spouse, partner or child living in the household.

5.31 Dependent child

A dependent child is a person aged 0–15 in a household (whether or not in a family) or aged 16–18 in full-time education and living in a family with his or her parent(s). This is a change from the 1991 definition which was a person aged 0–15 in a household or a person aged 16–18, never married, in full-time education and economically inactive. The revised 2001 definition has been agreed following consultation with users. An 'adult' in a household is any person who is not a dependent child.

2001 Census.

Film Industry

Mr. Hoban: To ask the Chancellor of the Exchequer what tax reliefs were available for the film industry in each year since 1997; what the cost was in each year; and what assessment he has made of the contribution made by the film industry to the economy in each year. [42646]

Dawn Primarolo *[holding answer 17 January 2006]:* With regard to tax relief available to the film industry, I refer the hon. Gentleman to the answer given on 8 December 2005, *Official Report*, column 1823.

The information is not available to assess the overall contribution to the economy of the UK film industry, however the UK Film Council publishes statistics including the value of British film productions. These can be found in the UK Film Council's "Statistical Yearbook 2004–05", at Chapter 12.

Golden Rule

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what the impact on the golden rule is of *(a)* writing off local authority debt and *(b)* providing gap funding on stock transfers. [40835]

Mr. Des Browne: Performance against the golden rule is measured using fiscal aggregates that cover the entire public sector: central Government plus local authorities plus public corporations. Transfers between the different levels of Government have no effect on the overall public sector fiscal aggregates.

As such, the impact on the golden rule is:

(a) None. Writing off debt owed by local authorities to central Government has no effect on the financial position of the public sector as a whole, or on any of the fiscal aggregates.

(b) None. Most transactions within the public sector associated with the transfer of housing stock from local authorities to housing associations and the writing off of associated local authority debt where necessary have no effect on the fiscal aggregates for the public sector as a whole. It is only with 'negative value' stock transfers, where the receiving association requires a dowry payment in order to take on the stock and associated liabilities, that there is a requirement for public expenditure. However, as this is a capital grant there is no consequent impact on the golden rule, which only includes current expenditure.

Local Tax Offices

Dr. Cable: To ask the Chancellor of the Exchequer how many local tax offices there are; how many have closed in each of the last five years for which information is available; and if he will make a statement. [38349]

Dawn Primarolo: HMRC currently operates from 661 sites, of which 242 were former HM Customs and Excise offices and 419 former Inland Revenue offices.

The number of offices closed since 2001 is shown in the table. Many of these closures arose as Inland Revenue or HM Customs and Excise moved work to other existing buildings within the same location. Information prior to 1 April 2001 is not readily available.

Period	*HM Customs and Excise*	*Inland Revenue*
1 April 2001 to 31 December 2001	2	15
1 January 2002 to 31 December 2002	12	26
1 January 2003 to 31 December 2003	11	19
1 January 2004 to 31 December 2004	17	16
1 January 2005 to 16 December 2005	10	23

Pool Re

Sarah Teather: To ask the Chancellor of the Exchequer how much Pool Re has *(a)* paid out as a result of the recent London tube and bus bombings, *(b)* paid out overall during its lifetime and *(c)* in reserves; and what income has been derived by HM Treasury from Pool Re since it was established. [43952]

Mr. Des Browne: Pool Re provides reinsurance cover for commercial property damage and consequent business interruption resulting from an act of terrorism on mainland Great Britain (excluding war and cyber terrorism risks).

(a) Pool Re, and several of its members, are currently dealing with claims arising from the tube and bus bombings of 7 July 2005. However none of the claims has yet progressed to the point where Pool Re has been called upon to make actual payments. This is consistent with Pool Re's claims payment patterns for previous terrorist events.

(b) Pool Re has paid out £609 million in respect of all incidents it has dealt with to date.

(c) Pool Re had reserves of £1.664 billion, as shown in its audited accounts at 31 December 2004. This figure has increased since that date.

Since Pool Re was established £243 million has been paid to HM Treasury in respect of amounts due under the Retrocession Agreement.

Stamp Duty

Mrs. Spelman: To ask the Chancellor of the Exchequer what the average stamp duty paid by first-time buyers was in *(a)* England and *(b)* the United Kingdom in each year since 1996. [42823]

Dawn Primarolo: This information is not available as there is no requirement for taxpayers to provide information to HMRC as to whether they are a first-time buyer.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit overpayments were *(a)* disputed and *(b)* successfully disputed in each month from January to December 2005; and if he will make a statement. [41466]

Dawn Primarolo: The number of overpayments disputed, and successfully disputed, between 1 January 2005 and 30 November 2005:

Year 2005	*Number of overpayments disputed*	*Successfully disputed*[1]
January	18,500	3,000
February	23,500	2,500
March	42,000	2,500
April	34,500	1,000
May	21,500	26,500
June	28,000	47,500
July	35,000	20,000
August	30,000	24,500
September	30,000	18,000
October	33,000	11,500
November	32,000	4,000

[1] Figures are the number of overpayments remitted in the corresponding month and is not a count of the number of claimants that successfully disputed an overpayment. The figures do not directly relate to the disputes that were received in the same month.

Notes:

1. Figures rounded to the nearest 500.
2. Figures for December 2005 are not yet available.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many possible cases of tax credit fraud were passed to HM Revenue and Customs Special Compliance Office in each month from April 2004 to April 2005; and if he will make a statement; [24506]

(2) how many cases of possible fraudulent tax credit claims of over £1,500 have been *(a)* referred to HM Revenue and Customs Special Compliance Office and *(b)* passed to local compliance teams to investigate; and if he will make a statement; [24547]

(3) how many referrals were made to HM Revenue and Customs' Special Compliance Office in each of the last eight years; and what proportion of these referrals were about tax credits for each relevant year. [25248]

Dawn Primarolo: The following table shows the total number of referrals received by Inland Revenue's Special Compliance Office and Criminal Investigations, which took over responsibility for prosecuting tax credit claims following the creation of HMRC in April 2005.

	Number of referrals
1998–99	2,480
1999–2000	2,194
2000–01	1,830
20001–02	1,701
2002–03	2,157
2003–04	3,939
2004–05	5,197
2005-October 2005	3,165

Figures for the number of cases involving claims over £1,500 and for the number of referrals made specifically in relation to tax credits before 2005–06 could be provided only at disproportionate cost. In the period 1 April to 30 September 2005, Criminal Investigations received 1,286 referrals relating to tax credits.

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the cost to his Department had the tax credit disregard been set at *(a)* £3,000, *(b)* £3,500 and *(c)* £5,000 in 2003–04. [29984]

Dawn Primarolo: The cost of different levels of income disregard depends on a number of factors, including the behaviour of tax credits claimants. Varying the disregard is likely to affect the reporting of changes in incomes by claimants, which would affect the Exchequer cost of tax credits. It is therefore not possible to produce a robust estimate of changes in the disregard in 2003–04.

Mr. Laws: To ask the Chancellor of the Exchequer whether in every case where a tax credit overpayment has been disputed and then written off since June 2005, the overpayment already recovered was to be returned to the claimant; in how many cases where overpayments were written off the amount already recovered has not been reimbursed; and what estimate he has made of the average amount not reimbursed. [40457]

Dawn Primarolo: This information is not available. I refer the hon. Member to the answer I gave the hon. Member for Tunbridge Wells (Mr. Clark) on 8 November 2005, *Official Report*, column 332W.

Anne Milton: To ask the Chancellor of the Exchequer how much was spent on advertising *(a)* on television and *(b)* in printed media for HM Revenue and Customs tax credit campaigns in the last 12 months. [42399]

Dawn Primarolo: Advertising expenditure on tax credits for the 2004–05 tax year was as follows:

£2.3 million on TV advertising

£1.5 million on press advertising

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what request changes have been made by HM Revenue and Customs to companies responsible for the IT systems which administer the tax credit system in each year for which information is available. [43750]

Dawn Primarolo: The information is not available in the form requested.

Tax Receipts

Mr. Todd: To ask the Chancellor of the Exchequer whether data relating to tax receipts is available broken down by category of economic activity. [43067]

Dawn Primarolo: Data on tax receipts are published annually in the National Accounts Blue Book by the Office for National Statistics (http://www.statistics.gov.uk/statbase/Produrt.asp?vlnk=1143&More=N). Table 11.1 shows taxes paid by UK residents to general Government and the European Union and "The Supply and Use Tables" (Table 2.1) show taxes less subsidies on production by industry group. Monthly figures for central Government taxes on production, taxes on income and wealth, and other taxes are shown in the Public Sector Finances release (http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=805&Pos=&ColRank=1&Rank=422).

Teenage Pregnancies

Mr. Holloway: To ask the Chancellor of the Exchequer how many teenage pregnancies there were in the Dartford, Gravesham and Swanley primary care trust area in each year since 1997. [43264]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your recent question asking how many teenage pregnancies there were in the Dartford, Gravesham and Swanley Primary Care Trust (PCT) in each year since 1997. (43264)

Teenage conception figures by PCT are not available where there is risk of disclosure of information about individuals due to differences in boundaries between PCT and local authorities.

Information on conceptions is routinely published by local authorities and strategic health authorities. The most recent year for which estimates are available is 2003 Figures for the Dartford, Gravesham and Sevenoaks local authorities are given in the table.

Number of teenage conceptions: Dartford, Gravesham and Sevenoaks local authorities, 1997 to 2003

Area of usual residence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Dartford	54	56	60	72	69	76	75
Gravesham	74	76	67	92	66	63	74
Sevenoaks	57	65	53	50	41	48	50

Wage Inflation

Mrs. Spelman: To ask the Chancellor of the Exchequer what the average increase in wage inflation was in each year since 1996–97. [42843]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to ask what the average increase in wage inflation was in each year since 1996–97. (42843)

Growth in earnings is estimated from the Annual Earnings Index (AEI) which is the National Statistic for short term economic earnings indicators. The AEI figures for Great Britain are collected and published monthly. The AEI does not collect data on the self employed and people who do unpaid work.

I attach a table showing the growth in average earnings in Great Britain from 1996 to 2004. The annual growth figure for 2005 will not be available until 15 February 2006 when the December 2005 figures are published.

The monthly changes to the index and growth are published on the National Statistics website at: http://www.statistics.gov.uk/statbase/tsdtablesl.asp?vlnk=emp. Calendar year comparisons are available on request.

The AEI is the most comprehensive source of earnings information in Great Britain. Each month it surveys 8600 companies, covering 12 million employees.

Annual Earnings Index

Including bonuses, excluding arrears

2000 = 100	*Index*	*Annual growth percentage*
1996	83.3	3.6
1997	86.8	4.3
1998	91.3	5.1
1999	95.7	4.8
2000	100.0	4.5
2001	104.5	4.5
2002	108.2	3.6
2003	111.9	3.5
2004	116.7	4.3

Note:

All figures based upon the calendar year.

Annual Earnings Index, Office for National Statistics.

Unemployment

Bob Spink: To ask the Chancellor of the Exchequer what proportion of the registered unemployed in Castle Point were aged *(a)* 25 years and under, *(b)* 26 to 35 years, *(c)* 36 to 45 years, *(d)* 46 to 55 years and *(e)* over 55 years in the last year for which figures are available. [42890]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Castle Point. (42890)

The Office for National Statistics (ONS) compiles unemployment statistics for small areas from the Annual Population Survey following International Labour Organisation definitions. Because of the small number of people in the sample, it is not possible to provide figures for all of the age groups specified in the question. However, Table 1 attached, shows the percentage of unemployed, by age groups for which information is available, who were resident in the Castle Point Parliamentary Constituency for the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, and shows the average percentage of JSA claimants, by age bands, resident in the Castle Point constituency for the 12 months ending November 2005.

Age band	*Percentage*
25 and under	49
Over 25	51
Base—total unemployed	1,300

Source:

Annual Population Survey

Table 2: Percentage of claimants of jobseekers allowance by age bands resident in the Castle Point constituency: 12 month average for December 2004 to November 2005

Age band	*Percentage*
25 and under	35
26 to 35	20
36 to 45	18
46 to 55	18
Over 55	10
Base—total JSA claimants	705

Source:

Jobcentre Plus Administrative system

Tim Farron: To ask the Chancellor of the Exchequer what the rate of *(a)* unemployment, *(b)* long-term unemployment and *(c)* youth unemployment was in Westmorland and Lonsdale in each year since 1997; and how many individuals this represented in each case. [43385]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 19 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment, (43385)

The Office for National Statistics (ONS) compiles statistics of unemployment for local areas from the annual local area Labour Force Survey following International Labour Organisation definitions.

Table 1 shows unemployment rates for people resident in the Westmorland and Lonsdale Parliamentary Constituency. The table covers the 12 month periods ending in February each year from 1998 to 2004. These estimates, as with any from sample surveys, are subject to sampling variability. Changes in the estimates from year to year should be treated with particular caution. Sample sizes in this Constituency are too small to produce a time series of estimates for either long-term or youth unemployment.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (ISA). Table 2 shows the annual average number and proportion of resident working age population of all JSA claimants, those claiming for over 12 months and those aged 18 to 24, resident in the Westmorland and Lonsdale constituency since 1997.

Table 1: Unemployed persons resident in the Westmorland and Lonsdale constituency

	All	
12 months ending February:	*Level (Thousand)*	*Rate (Percentage)*
1998	[1]	[1]
1999	1	3
2000	1	3
2001	2	5
2002	2	5
2003	[1]	[1]
2004	2	4

[1] Estimate not available, sample size less than three could be disclosive.
Source:
Annual local area Labour Force Survey.

Table 2: JSA claimants resident in the Westmorland and Lonsdale constituency

	All		Long-term (claiming over 12 months)		Youth (aged 18 to 24)[1]	
Annual averages	*Level*	*Proportion[2] (Percentage)*	*Level*	*Proportion[2] (Percentage)*	*Level*	*Proportion[2] (Percentage)*
1997	957	1.9	165	n/a	245	n/a
1998	753	1.5	90	n/a	190	n/a
1999	679	1.3	75	n/a	155	n/a
2000	569	1.1	55	n/a	130	n/a
2001	463	0.9	20	n/a	115	n/a
2002	372	0.7	15	n/a	90	n/a

Jobcentre Plus Administrative system.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer how many requests have been made to the Valuation Office Agency under the Freedom of Information Act since the Act's commencement. [42825]

Dawn Primarolo: As at 30 September 2005, the date at which the last full set of statistics was collated by the Department for Constitutional Affairs, the Valuation Office Agency had received 175 requests under the Freedom of Information Act.

Mrs. Spelman: To ask the Chancellor of the Exchequer if he will place in the Library copies of the *(a)* software manual, *(b)* external guidance and *(c)* internal guidance for the digital mapping software purchased by the Valuation Office Agency from the company Tenet. [42838]

Dawn Primarolo: I refer the hon. Lady to the answer she received from the Minister of State (Local Government) on 9 January 2006, *Official Report*, column 250W.

Mrs. Spelman: To ask the Chancellor of the Exchequer how much the Valuation Office Agency spent on *(a)* foreign travel, *(b)* subsistence and *(c)* hospitality in each year since 1997–98. [42842]

Dawn Primarolo: The Valuation Office Agency spent the following amounts on foreign travel, subsistence and hospitality in the years 2000–01 to 2004–05.

£000

	Foreign Travel	*Subsistence*	*Hospitality*
2000–01	n/a	1,050	5
2001–02	n/a	1,041	4
2002–03	3	1,040	7
2003–04	20	1,164	6
2004–05	4	1,255	6

Records prior to 2000–01 are not readily available.

MINISTER FOR WOMEN

Private Members' Clubs

21. **Ms Keeble:** To ask the Minister for Women and Equality if she will introduce measures to end discrimination against women in private members' clubs. [43248]

Meg Munn: Discrimination in mixed-sex private members' clubs will be considered under the Government's current review of discrimination legislation. This review will lead to a Single Equality Bill, which the Government have made a manifesto commitment to introduce in the lifetime of this Parliament.

Licensing Act (Domestic Violence)

22. **Mr. Andrew Turner:** To ask the Minister for Women and Equality whether she has discussed with her Home Office and Department for Culture, Media and Sport colleagues the impact on domestic violence of the Licensing Act 2003. [43249]

Meg Munn: My right hon. Friend the Minister for Women has discussed this issue with Home Office colleagues in the context of the Alcohol Harm Reduction Strategy. She does not anticipate an increase in domestic violence as a direct result of the Act, though it is too early for an impact assessment. Indeed its extra powers and review mechanisms may reduce excessive drinking outside the home.

Gender Pay Gap

24. **Mr. Khan:** To ask the Minister for Women and Equality what steps the Government are taking to address the gender pay gap. [43251]

Meg Munn: Government have taken various measures to tackle the gender pay gap, including the creation of the Women and Work Commission, and I look forward to their final report within the next few weeks containing their findings and recommendations to close the gender pay gap.

We have also introduced and raised the national minimum wage, which has helped increase the pay of women. In October we increased the national minimum wage to £5.05. Around 70 per cent. of the beneficiaries of the uprating of the national minimum wage in October 2004 were women.

Other measures we have introduced to reduce the gender pay gap include the DTI Strategic Partnership initiative supporting a team of Equal Pay Panel of Experts, led by the TUC. The experts will offer free advice/guidance sessions to organisations looking to investigate or undertake an equal pay review. This initiative builds on the TUC Equal Pay project, which has trained over 400 union equal pay reps.

Breastfeeding

25. **Jo Swinson:** To ask the Minister for Women and Equality if she will make a statement on Government policy on breastfeeding in public places. [43252]

Meg Munn: Breastfeeding is the best form of nutrition for infants and we are aware of the important contribution it can make to the health of mothers and infants. The Government are collecting data through the National Infant Feeding Survey 2005 on women's experiences of breastfeeding in public.

Equality

Ms Butler: To ask the Minister for Women and Equality what steps the Government are taking to ensure that *(a)* queries and *(b)* representations on all four strands of equality are dealt with consistently; and, where different procedures apply, what the reasons are for such differences. [42984]

Meg Munn: The Government are committed to the advancement of equality for all and to encouraging a society where people have an equal chance to achieve their potential. The CEHR will bring a more coherent approach to the provision of advice and information across all areas of discrimination, so that for the first time they are delivered from one place.

The Government attach great importance to the communities the CEHR serves being effectively represented in its governance and operations. The provisions in the Equality Bill make clear that the CEHR Board must include members who have knowledge and experience in the fields of discrimination the CEHR will address, as well as human rights, and provides mechanisms such as committees to facilitate further representation and involvement. Where necessary, these reflect the specific circumstances of the groups concerned, for example the CEHR's Disability Committee provides continuity with the requirements in the Disability Rights Commission Act that ensure that disabled people steer the DRC's work.

Women MPs

Julie Morgan: To ask the Minister for Women and Equality what steps the Government are taking to increase the number of women in Parliament. [43250]

Meg Munn: In 2002 we introduced the Sex Discrimination (Election Candidates) Act allowing positive measures towards women's increased participation. 20 per cent. of MPs are now women compared with 9 per cent. before 1997.

We are committed to working towards gender equality throughout society, including in political life, and continue to monitor progress in this area.

TRADE AND INDUSTRY

Workplace Rights

9. **Mr. MacDougall:** To ask the Secretary of State for Trade and Industry what changes to workplace rights since 1997 will be in place by 2007. [43233]

Mr. Sutcliffe: In addition to creating record levels of employment, we have also introduced a safety net of protections for the most vulnerable employees. The most significant include, paid holidays, measures to support working parents, age discrimination regulations and the national minimum wage.

In addition my right hon. Friend the Secretary of State for Trade and Industry has today announced the appointment of Paul Myners as Chair at the Low Pay Commission, who is replacing Lord Turner of Ecchinswell.

Regulation has its place, but of key importance is to encourage cultural change to make working smarter, not harder. We will continue to build on our achievements so that people at work can develop their skills and have the opportunity to maximise their potential, and will ensure that flexibility works for both employees and businesses.

Gas Supply/Storage

10. **Mr. Bailey:** To ask the Secretary of State for Trade and Industry what measures are in place to increase capacity for gas supply and storage in the UK. [43234]

Malcolm Wicks: The market based framework in place has already brought forward investment in major new gas storage and import infrastructure. In addition, last Thursday the Secretary of State announced the introduction of a new legal regime which covers new offshore gas storage and offshore gas unloading. This will enable the development of new offshore gas storage facilities.

Company Law Reform Bill

11. **Sarah McCarthy-Fry:** To ask the Secretary of State for Trade and Industry what progress has been made on drafting the Company Law Reform Bill; and if he will make a statement. [43235]

Alun Michael: The Company Law Reform Bill was introduced in the House of Lords on 1 November 2005. It received its Second Reading in that House on 11 January 2006.

Footwear Manufacturing (Northamptonshire)

12. **Mr. Hollobone:** To ask the Secretary of State for Trade and Industry if he will make an economic assessment of the Northamptonshire footwear manufacturing industry. [43237]

Alun Michael: We have no plans to make a separate economic assessment of the Northamptonshire footwear sector. The hon. Member raised this issue in the House on 21 July 2005 when he was invited to write to my right hon. Friend the Secretary of State for Trade and Industry setting out the case for such an assessment.

Employment Tribunal Awards

13. **Mr. McGovern:** To ask the Secretary of State for Trade and Industry what steps his Department is taking to ensure that employment tribunal awards are paid. [43238]

Mr. Sutcliffe: The enforcement of awards is through the county courts and is the responsibility of the Department for Constitutional Affairs. DTI fully supports and has contributed to the provisions of the Tribunals, Courts and Enforcement Bill that will streamline the process. Within the existing legal framework, the Employment Tribunal Service and the Courts Service are seeking ways to enhance enforcement.

Energy Supply

14. **Mr. Hands:** To ask the Secretary of State for Trade and Industry if he will make a statement on the current and future diversity of the UK's energy supply. [43240]

Malcolm Wicks: With declining reserves of oil and gas in the North sea, and as we become a net importer, Britain faces a new energy challenge. Diversity of energy supply is one of a number of complex issues that must be considered in the Energy Review. Our consultation document will be published on Monday.

UK Manufacturing

15. **David T.C. Davies:** To ask the Secretary of State for Trade and Industry what steps he is taking to promote manufacturing industry in the UK. [43241]

Alun Michael: Government are promoting the development of a successful dynamic manufacturing sector working in partnership with industry. Through the Manufacturing Strategy we are helping more and more companies move to high added value production through the application of science and innovation, world class practice and skills development.

Premium Rate Services

16. **Jo Swinson:** To ask the Secretary of State for Trade and Industry on what date the extension of Ofcom's premium rate services regulations will be implemented by the Independent Committee for the Supervision of Standards of Telephone Information Services; and if he will make a statement. [43243]

Alun Michael: Many of the most important recommendations from the Ofcom report into premium rate service regulation have already been implemented. For example, from 15 September network operators have been obliged to withhold payments to services providers for 30 days after a call has been made thus enabling repayment or the payment of penalties to be guarantees. This is a powerful discouragement to fraudulent or exploitative activities. Other measures have also been implemented by DTI. For instance we have increased the maximum penalty for breaching the ICSTIS code of practice from £100,000 to £250,000. I expect the remaining recommendations to be implemented in the spring. It is important to get these regulatory changes right for the future and we have to meet requirements for extensive consultation of the industry and the public.

British Nuclear Fuels (Westinghouse)

17. **Mr. Jack:** To ask the Secretary of State for Trade and Industry if he will make a statement on the status of the proposed sale of British Nuclear Fuels Ltd.'s Westinghouse interest. [43244]

Malcolm Wicks: BNFL is in discussion with parties interested in acquiring the Westinghouse business. Discussions between the parties are subject to confidentiality agreements. The company will make an announcement in the event that these discussions lead to a sale of the business.

Artists' Resale Right

Chris Bryant: To ask the Secretary of State for Trade and Industry how many British artists he expects will benefit from the artists' resale right. [38081]

Alan Johnson *[holding answer 19 December 2005]:* Based on figures from the Art Sales Index for the period March 2003 to February 2004, the most recent we have available, 1,259 works by living British artists were sold at auction which would have attracted a royalty payment. The auction houses represent approximately half of the UK art market and a similar number of sales is expected to have taken place through dealers.

Biomass (Funding)

Mr. Peter Robinson: To ask the Secretary of State for Trade and Industry how much funding has been made available to develop markets for biomass in *(a)* heat, *(b)* combined heat and power and *(c)* power generation in each of the last 10 years. [37603]

Malcolm Wicks: Market development for biomass is supported in a variety of ways, not all of which involve direct funding e.g. bioenergy projects have been developed on the basis of the Non-Fossil Fuel Obligation and the Renewables Obligation.

The most relevant direct funding has been through projects under the DTI New and Renewable Energy [Research and Development] and the DTI/Big Lottery Fund Bioenergy Capital Grants Scheme. The following table gives the combined spend directly addressing the requested categories to December 2005.

New and Renewable Energy / Capital Grants Scheme

£

	CHP	*Heat*	*Power*	*Total*
All years	4,330,485	1,699,505	5,666,471	11,696,462
1995–96	230,852	70,273	179,264	480,389
1996–97	223,211	127,885	365,556	716,652
1997–98	176,162	254,989	232,509	663,659
1998–99	196,264	193,568	115,330	505,163
1999–2000	139,831	147,174	414,073	701,078
2000–01	235,995	164,947	228,088	629,030
2001–02	124,377	107,556	460,795	692,728
2002–03	303,979	23,598	353,318	680,895
2003–04	582,576	99,618	332,694	1,014,888
2004–05	1,862,276	293,204	151,640	2,307,120
2005–06	254,964	216,691	3,058,205	3,529,861

There has also been spend on biomass heat under the DTFs Clear Skies Initiative, which has been running since 2003. The total spend since the programme began is £1,499,390 [breakdown into individual years could have been achieved only at disproportionate cost.]

Additionally there has been funding of £60,000 during year 2004–05 from Defra's Community Energy Programme on biomass/CHP schemes. This programme started in year 2001–02, but there was no spend on biomass CHP before 2004–05.

The above figures do not include any support from the Devolved Administrations or the Regional Development Agencies—which could have been reported only at disproportionate cost.

Cape Town Treaty

Peter Luff: To ask the Secretary of State for Trade and Industry what assessment he has made of the effects of the Cape Town treaty on the purchase of more efficient and less environmentally damaging new aircraft in developing nations. [42029]

Alun Michael: The convention and protocol may help to facilitate the financing of new aircraft in developing nations which ratify these instruments but no such specific assessment has been made. It is for each lending institution to make its own assessment of the likely impact of the convention and protocol in arriving at any decision to finance new aircraft.

Peter Luff: To ask the Secretary of State for Trade and Industry whether any UK companies have registered with the registry that will be overseeing the operation of the Cape Town treaty. [42030]

Alun Michael: No registrations can be made in the registry established under the convention and protocol until it comes into operation on 1 March 2006.

Peter Luff: To ask the Secretary of State for Trade and Industry what assessment he has made of the economic effects of the Cape Town treaty. [42031]

Alun Michael: We will produce a regulatory impact assessment prior to taking forward ratification of the convention and protocol. In 1998 an economic impact assessment was commissioned by the Aviation Working Group (set up as an ad hoc industry group to contribute to the development of the convention) and IATA on the potential economic benefits of the proposed convention and protocol. The study was prepared under the auspices of the INSEAD Business School and the New York University Salomon Center.

Coal-fired Power

Jim Sheridan: To ask the Secretary of State for Trade and Industry what steps the Department plans to take to promote the sale of carbon capture equipment for coal-fired power stations to other countries in 2006. [42033]

Malcolm Wicks: The Department presently has no plans at present to promote the sale of Carbon Capture equipment for coal-fired power stations to other countries. Currently Carbon Capture and Storage technologies are not yet commercially viable and therefore not in a position to be sold for export abroad. However, we are working with China and the United States of America on R&D into Carbon Capture and Storage technologies. In addition with DEFRA we are supporting a £3.5 million feasibility study to assess the possibility of Carbon Capture and Storage in China as part of a EU project.

CREST Scheme

Mr. Davey: To ask the Secretary of State for Trade and Industry how many pupils have taken part in the British Association's CREST scheme for gifted and talented young people, broken down by local education authority; what other national schemes for gifted and talented young people are supported by his Department; and if he will make a statement. [42066]

Barry Gardiner: The CREST scheme is delivered through SETNET's sub regional network of SETPOINTS. The number of awards presented since the inception of the scheme in 2001 has been broken down by region and is presented in the following table.

Region	*Number of awards*
North-West	17,016
North-East	2,932
Yorkshire and Humber	921
Greater Merseyside	25,954
West midlands	18,726

Region	Number of awards
East Midlands	5,408
Eastern	7,833
London	3,246
South East	5,144
South West	8,289
Wales	8,722
Scotland	2,869
Northern Ireland	10,433
Total	117,493

Information on uptake of the BA CREST awards by local education authority is not collected. The CREST scheme is not specifically targeted at gifted and talented young people, although many gifted and talented young people participate. There are a number of other schemes that fit into this category delivered through organisations supported by core funding from the Department.

The Royal Academy of Engineering runs the Best programme, which includes four schemes which provide personalized learning opportunities for gifted and talented students: the Engineering Education Scheme, Headstart, Year in Industry and the Engineering Leadership Award. In addition to these schemes the Academy also collaborates with the National Academy for Gifted and Talented Youth.

The Research Councils support BA CREST and Nuffield Science Bursaries. Nuffield Science Bursaries give post-16 students science based projects lasting 4 to 6 weeks during the summer holidays. These projects are carried out in universities, industry and research institutions and students work alongside researchers.

SETNET delivers 32 key national schemes, including those already discussed, comprehensive details are available on their website at http://www.setnet.org.uk/cgi-bin/go.pl/resources/index.html

Departmental Estate

Bob Spink: To ask the Secretary of State for Trade and Industry what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42891]

Alan Johnson: The DTI administrative estate does not include any land or property in the Castle Point constituency.

Energy Imports

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what percentage of the UK's energy requirements for 2004–05 came from *(a)* Germany and *(b)* Poland; and what the cost of energy imported from each country was. [40747]

Malcolm Wicks: Imports of energy products from Germany and Poland during the calendar year 2004 are shown in the following table. It is possible that some of the energy products were produced outside Germany and Poland, with German or Polish companies acting as intermediaries.

	Thousand tonnes		£ million	
	Quantity imported from Germany	Quantity imported from Poland	Value of energy imported from Germany	Value of energy imported from Poland
Steam coal	8	1,142	0.2	41.0
Anthracite	5	3	0.3	0.2
Other solid fuel	39	8	5.1	1.3
Petroleum products	1,288	80	270.8	15.4

Overall, energy imports from Germany and Poland each accounted for less than one per cent. of UK primary energy demand.

EU Budget

Mr. Iain Wright: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of the recent EU budget settlement for the period 2007 to 2013 for future EU funding in Durham and Tees Valley. [43092]

Alun Michael: I set out the impact of the EU budget settlement for the UK's future Structural Funds allocations in my written statement to Parliament on 20 December 2005. Durham and Tees Valley will be eligible to receive funding under the competitiveness objective during the 2007 to 2013 financial perspective. However, the methodology for allocating competitiveness funding to individual regions has still to be decided. This will form part of the consultation on the UK's National Strategic Reference Framework for future Structural Funds spending, which the Government plan to take forward over the coming months.

EU Emissions Trading Scheme

Colin Challen: To ask the Secretary of State for Trade and Industry what assessment he has made of the effect of the implementation of the UK National Allocation Plan for Phase 1 of the EU Emissions Trading Scheme on the profitability of the UK power generation sector. [43516]

Malcolm Wicks: The Department commissioned independent research to assess the potential impact of the EU Emissions Trading Scheme on the UK power generation sector: 'Implications of the EU Emissions Trading Scheme for the UK Power Generation Sector' in July 2005. A report by IPA Energy Consulting was published in January 2005 on the DTI website. This follows an earlier report commissioned from Ilex Consulting to assess the potential impact of the scheme, 'Implications of the EU ETS for the UK Power Sector', published in September 2003. Both reports have considered different scenarios for the operation of the scheme and the potential impact on profitability among other issues. Phase I started in January 2005 running to December 2007 and it is therefore too early to assess the actual impact of the phase on the generation sector. Copies of the reports are available on the DTI website—http://www.dti.gov.uk/energy/sepn/ipa_euets_report.pdf (IPA) and http://www.dti.gov.uk/energy/sepn/ilex_report.pdf(Ilex)

EU Toys Directive

Mr. Drew: To ask the Secretary of State for Trade and Industry what assessment he made of the EU Directive on the safety of toys; and if he will include consideration of hybrid products that increase the risk of children choking in the assessment. [43858]

Mr. Sutcliffe: The Toys Directive, implemented in the UK in the Toys (Safety) Regulations 1995, has been very effective in ensuring that toys sold in the UK comply with essential safety requirements.

The Toys Directive is currently being revised and DTI officials are actively involved in the discussions with European colleagues. The issue of safety of toys in food is a live issue in these discussions.

Felindre-Tirley Gas Pipeline

Adam Price: To ask the Secretary of State for Trade and Industry which alternative routes were explored before the 1km corridor for the liquid gas pipeline proposed by the National Grid from Felindre to Tirley was chosen; on what basis these alternative routes were not chosen; what consultation there has been between National Grid, Carmarthen county council and the general public on the pipeline; and whether a compulsory purchase order will be granted for the land owned by those who refuse to accept the terms offered by the National Grid. [43171]

Malcolm Wicks: National Grid have not applied for consent to lay a pipeline from Filindre to Tirley. If and when they do then an explanation of the alternative routes considered, the reasons for the preferred route and justification for the discounting of others will have to be given. Any such application will be advertised and an opportunity given for representations to be made to the Secretary of State.

In view of my right hon. Friend the Secretary of State's quasi-judicial responsibilities for confirming compulsory purchase orders, I cannot give an indication as to whether or not such an order would be confirmed.

Fuel Poverty

Mr. Malik: To ask the Secretary of State for Trade and Industry how many households in *(a)* Dewsbury constituency and *(b)* the Yorkshire and Humber region were in fuel poverty in each of the last 10 years. [43179]

Malcolm Wicks: Figures for the number of households in fuel poverty in England are produced from analysis of the English House Condition Survey. The most recent data on the level of fuel poverty in England corresponds to 2003 and was published in July 2005 in the UK Fuel Poverty Strategy Third Annual Progress Report. This showed that the number of fuel poor households in England in 2003 was around 1.2 million.

Prior to 2003, however, this survey was conducted on a five-yearly basis. Therefore, the number of households in fuel poverty in England is not available for all of the last 10 years. Regional figures for England are available from the English House Condition Survey for 1996, 2001 and 2003, when the respective figures for England were 5.1 million, 1.7 million and 1.2 million.

Government office region

Yorkshire and the Humber	*Number of households in fuel poverty*
1996	678,000
2001	238,000
2003	180,000

It is not possible to break down figures to constituency level.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry how many households in *(a)* Tamworth constituency and *(b)* Staffordshire were in fuel poverty in each of the last 10 years. [43466]

Malcolm Wicks: Figures for the number of households in fuel poverty in England are produced from analysis of the English House Condition Survey. The most recent data on the level of fuel poverty in England corresponds to 2003 and was published in July 2005 in the UK Fuel Poverty Strategy Third Annual Progress report. This showed that the number of fuel poor households in England in 2003 was around 1.2 million.

Prior to 2003, however, this survey was conducted on a five-yearly basis. Therefore, the number of households in fuel poverty in England is not available for all of the last 10 years. Regional figures for England are available from the English House Condition Survey for 1996, 2001 and 2003, when the respective figures for England were 5.1 million, 1.7 million and 1.2 million.

Number of households in fuel poverty

	Government office region—West Midlands
1996	660,000
2001	228,000
2003	146,000

It is not possible to break down figures to constituency or county level.

Gas Prices

John Hemming: To ask the Secretary of State for Trade and Industry what assessment he has made of the economic impact of the level of gas prices in the UK since November 2005. [42676]

Malcolm Wicks: The Government takes the recent increases in gas prices very seriously, and particularly their impact on the competitiveness of UK industry. We understand that this creates tough trading conditions, especially for energy intensive users, and we are aware of a few companies having reduced production in response to the very high prices since November. This will, of course, have a negative impact on UK industrial output, but in terms of overall GDP this will be relatively minor.

I have visited a number of major industrial gas users and am continuing to meet with companies, business representatives and gas suppliers to discuss gas prices and security of supply. Energywatch and DTI held a seminar with smaller gas users and the public sector on 30 November 2005 to discuss energy purchasing strategies. We are also undertaking some research into the capability of UK industry to reduce their gas demand.

The impact on UK businesses of increases in gas prices will depend on a variety of factors, including how much gas a particular company uses, the degree of their exposure to spot and forward prices and the duration of high prices. It will also be affected by the energy prices paid by their competitors. A further sector-specific issue is whether they are in a competitive market where international trade sets the price or in a sector where prices are determined more locally and rising energy costs could be passed

Provisional data for October 2005 shows that UK retail gas prices for small, medium and large industrial users were below the EU15 median. However, individual companies will have agreed commercially confidential contract terms and prices that might differ from these averages. I am also aware, from my industry visits and meetings, that, there is some evidence that gas prices in the UK for some of our very large industrial users is above those on the continent, and I recognise the risk that this presents to UK competitiveness. Officials are working closely with industry and OFGEM, with a view to help, wherever possible, to mitigate the situation and reduce these impacts.

John Hemming: To ask the Secretary of State for Trade and Industry what assessment he has made of the environmental impact of energy companies choosing to use their coal fired power stations rather than their gas fired power stations because of high gas prices. [42677]

Malcolm Wicks: Any increase in overall annual CO_2 emissions from coal fired power stations running at a higher rate than usual will need to be covered by allowances under the EU Emissions Trading Scheme. There is a fixed number of allowances which are allocated directly to installations, such as power stations. If an installation wants to increase emissions above its allowance, it will need to buy extra allowances from other holders of allowances who are able to abate emissions and therefore have allowances to sell. Allowances can also be bought through Kyoto protocol mechanisms whereby credits can be bought for emissions reductions in mainly developing countries. The Emissions Trading Scheme therefore works to ensure that those responsible for increased CO_2 emissions on an annual basis have to pay for offsetting reductions in emissions elsewhere.

Other environmental impacts from coal fired electricity generation are subject to controls which are monitored and enforced by the Environment Agency. These controls are designed to offer sufficient flexibility to respond to changing commercial circumstances without compromising overall environmental objectives.

Gas Supplies Agreement

Mrs. Moon: To ask the Secretary of State for Trade and Industry if he will make a statement on the implications for the UK of the recent agreement on gas supplies between Russia and the Ukraine. [42621]

Malcolm Wicks: The dispute reinforces the importance of progressing a EU energy policy, as agreed at the EU informal Heads of Government meeting at Hampton Court in October; and of developing bilateral relations with gas exporting countries, to ensure an appropriate framework for importing gas into Great Britain. The current review of energy policy will consider policy options to ensure that the UK is on track to meet the medium and long-term goals in the Energy White Paper, against the background of developments since 2003, including our increasing dependence on imported gas.

Gas Turbines

Dr. Stoate: To ask the Secretary of State for Trade and Industry what research his Department has *(a)* commissioned and *(b)* evaluated into the feasibility of running gas turbine engines on renewable biofuel; and if he will make a statement. [42198]

Malcolm Wicks: Work was commissioned on the use of gas from the anaerobic digestion of biomass in small gas turbines or micro-turbines, in 2001. The reports can be found on the DTI website under the title DTI/Pub URN 02/1345—Distributed Power Generation Using Biogas Fuelled Micro-turbines Advantica Technologies Limited, January 2002.

Work has also been supported on the use of gas from the thermal gasification of biomass and waste in micro-turbines and is reported in URN 04/1804 Development of a Micro-Turbine to Run on Gasifier Producer Gas, Biomass Engineering Limited, May 2004. Further work in this area is being supported through Rural Generation Ltd. and Queens University Belfast and should report later this year.

The DTI is also supporting Talbots Heating, who are using wood combustion to provide the energy to drive a micro-turbine. The latest report here is Bio-mass Fuelled Indirect Fired Micro Turbine, DTI/Pub URN 05/698.

At Siemens Industrial Gas Turbines in Lincoln, we are supporting work to investigate the use of gas from the pyrolysis and gasification of biomass and wastes in larger gas turbines. This should also be reporting at the end of this year.

No work has been supported or evaluated on the use of liquid bio-fuels derived from vegetable and animal oils and fats in gas turbines. Industry has shown very little interest in this application. We understand that commercial alternatives are available, using reciprocating engines that are currently generating under the renewables obligation.

Elsewhere, we understand from the International Energy Agency—of which the UK is a member—that some work is ongoing in Canada on the use of liquids derived from the pyrolysis of wood in gas turbines.

Home Accident Safety Survey

Mr. Drew: To ask the Secretary of State for Trade and Industry what arrangements he plans to put in place to replace the Home Accident Safety Survey; and when an announcement is expected to be made. [43857]

Mr. Sutcliffe: DTI has no plans to replace the Home Accident Surveillance System.

Hydroelectric Power (Wales)

Jenny Willott: To ask the Secretary of State for Trade and Industry (1) how much and what proportion of

electricity supplied to consumers in Wales was produced from hydroelectric power in each year since 1997; and if he will make a statement; [43323]

(2) how much and what proportion of electricity supplied to consumers in Wales was produced from *(a)* renewable energy sources and *(b)* wind power in each year since 1997; and if he will make a statement. [43329]

Malcolm Wicks: The majority of the electricity generated in Wales is supplied to the national grid system that covers England, Wales and (since 2005) Scotland. Since there is a two way movement of electricity between England and Wales using the grid it is not possible to say how much and what proportion of electricity supplied to consumers in Wales is produced from a particular source.

However, information on generation by country is available and has been published by this Department in "Energy Trends". Data for Wales for the years 2001 to 2004 are shown in the following tables. Data are not available before 2001.

GWh

	2001	*2002*	*2003*	*2004*
Hydro	259	273	201	305
Wind, wave and solar	337	376	378	547
Other renewable sources	113	132	201	192
Total renewables	709	782	780	1,044
Total generation in Wales	28,986	32,067	30,054	35,235

Percentage

	2001	*2002*	*2003*	*2004*
Hydro	0.9	0.9	0.7	0.9
Wind, wave and solar	1.1	1.2	1.3	1.6
Other renewable sources	0.4	0.4	0.7	0.5
Total renewables	2.4	2.4	2.6	3.0
Total generation in Wales	100.0	100.0	100.0	100.0

Knowledge Partnerships

Linda Gilroy: To ask the Secretary of State for Trade and Industry if he will make a statement on the interface between universities and small and medium-sized enterprises through knowledge partnerships. [43236]

Barry Gardiner: During the course of 2004–05 over £32 million of government grant support was committed to Knowledge Transfer Partnerships to help businesses improve their competitiveness and productivity through the better use of knowledge, technology and skills that reside within UK universities. This was augmented by £53 million from participating firms, 87 per cent. of which were SMEs.

In addition, the Government have has increased the funding available to Universities under the Higher Education Innovation Fund—which is rising to £110 million per year. This supports a wide range of activities including support for SMEs. Interaction with SMEs is on the rise—for example, the Higher Education Business Interaction survey shows an increase in HE research contracts with SMEs from 3,510 in 2001–02 to 4,148 in 2002–03. My noble Friend the Parliamentary Under-Secretary of State for Science and Innovation is endeavouring to arrange a convenient time to discuss these matters further with my hon. Friend.

Nuclear Decommissioning

Mr. Drew: To ask the Secretary of State for Trade and Industry how many participants submitted evidence to the recent Nuclear Decommissioning Authority Draft Strategic Plan. [41431]

Malcolm Wicks: The Nuclear Decommissioning Authority (NDA) has completed its consultation with stakeholders on its first Strategy. In total, the NDA received over 270 sets of comments from a wide variety of organisations and individuals. The NDA has acknowledged all comments and has sought the permission of respondents to publish their comments on the NDA website, and intends to reply to respondents on points raised.

Petroleum Products

Mr. Crabb: To ask the Secretary of State for Trade and Industry (1) how many times the UK has failed to meet its stock obligations of Category 2 petroleum products; [40677]

(2) what plans he has to replace the Compulsory Stocking Obligation in respect of petroleum products; [40706]

(3) what representations he has received about the establishment of a privately-funded stockholding agency to replace the Compulsory Stocking Obligation; [40707]

(4) what assessment he has made of the effectiveness of the Compulsory Stocking Obligation in maintaining adequate stocks of petroleum products. [40709]

Malcolm Wicks: The UK meets its international obligations to hold stocks of oil for use in the event of disruption of supplies by imposing obligations on companies. We believe that stocks held by companies are, in the event of an emergency, likely to be where they will be needed and capable of being quickly processed into the supply chain. The release of stocks following Hurricane Katrina has shown that the UK system was able to respond well to the disruption which occurred.

The UK is currently required to hold stock equivalent to 67.5 days annual consumption, both in total and also in each of the three categories into which the total is divided. Obligations are based on sales. Changes in the market, with small companies below the threshold for the obligation entering a supply chain previously dominated by oil companies, meant that between March 2000 and October 2004, although the UK met the total obligation in all but two months, in 41 of the 56 months we did not hold the full level of stocks necessary to meet that part of the obligation relating to category 2 (gas oil, diesel oil, kerosene and kerosene based aviation fuels). In order to return to full compliance with the UK obligations the Government agreed increases in company obligations with industry, and the UK has been fully compliant with the obligations since November 2004.

We must, however, consider future needs. The UK's obligation will increase as our domestic production of oil declines. We have, therefore, consulted the oil industry and others about a new system which will ensure that the UK can continue to meet its obligations in future. We propose that this system should be based on products from refineries or entering the UK as imports. As we work with the industry to establish the system, we have agreed to explore the long-term potential of establishing an agency to ensure that stocking obligations are met.

Predictive Diallers

John Hemming: To ask the Secretary of State for Trade and Industry how many calls were made from call centres in his Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment he has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28165]

Alun Michael: The Department of Trade and Industry does not use predictive dialling in any of its call centres.

Regional Development Agencies

Mrs. Spelman: To ask the Secretary of State for Trade and Industry what proportion of Regional Development Agency expenditure is from his Department's funding streams. [42827]

Alun Michael: In 2005–06 the Department of Trade and Industry is contributing £590 million (27 per cent.) of the Regional Development Agencies' total funding.

Restriction of Hazardous Waste Substances Directive

Gregory Barker: To ask the Secretary of State for Trade and Industry when the Government plan to implement the EU restriction of hazardous waste substances directive; and what the EU response has been to the UK's timescale. [41924]

Malcolm Wicks *[holding answer 18 January 2006]:* The Government transposed the requirements of the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) directive on 7 October 2005, (SI 2005 no. 2748). These regulations will come into force on 1 July this year, in line with the implementation timetable specified within the directive.

Sakhalin Energy Investment Company

Mr. Llwyd: To ask the Secretary of State for Trade and Industry whether a copy of the report on revised SEIC (Sakhalin Energy Investment Company) river crossings strategy document has been submitted to his Department. [41226]

Ian Pearson: The Export Credits Guarantee Department has received a number of Reports on this subject.

A copy of the latest river crossings strategy can be found on the Sakhalin Energy website at:

www.sakhalinenergy.com/documents/doc_lender_eia_sr1.pdf

Reports on the river crossings carried out to date can be found at:

http://www.sakhalinenergy.com/environment/rivers/riv_main.asp

Small Business Research Initiative

Mr. Byers: To ask the Secretary of State for Trade and Industry how much each Science Council has awarded under the Small Business Research Initiative; what percentage this represents of its overall Research and Development budget; and when further allocations will be made. [42930]

Barry Gardiner *[holding answer 17 January 2006]:* Historically, Research Councils (which are not Government Departments) have voluntarily contributed to SBRI targets but did not collect accurate data during 2003–04 and 2004–05 on the proportion allocated to small businesses.

Following the announcement in the Budget by my right hon. Friend the Chancellor of the Exchequer that the SBRI would now be mandatory, the Research Councils will promote a Small Business Research scheme (similar to, but distinct from, SBRI). They are committed to spending at least 2.5 per cent. of a baseline of £815 million in 2005–06 on university/SME collaborations and directly with SME's.

Allocations have been, and will continue to be, made throughout the year with Councils advertising funding opportunities on their individual websites.

Waste Electrical and Electronic Equipment Directive

Richard Ottaway: To ask the Secretary of State for Trade and Industry when he plans to implement the waste electrical and electronic equipment directive. [43239]

Malcolm Wicks: On 14 December Government announced review of proposals for implementing the WEEE directive in the UK. This decision reflected the continuing concerns expressed by businesses and stakeholders. It also reflected the Government's commitment to implementing the directive in the UK in a way, which maximises the environmental benefits associated with the directive and minimises the costs to business.

The review will be undertaken by a cross departmental team and will be followed by a full consultation exercise in the spring before we proceed to transpose the main provisions of the directive into UK law. A new timetable for implementation will not be set until the review is concluded.

Wave Power

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what research his Department has conducted on the effectiveness of the *(a)* oscillating water column and *(b)* superbuoy wave power installations. [43304]

Malcolm Wicks: Since 1976 the DTI and its predecessor the Department of Energy has supported the following oscillating water column research projects:

File number	Project title	Contractor	Start date	End date	DTI/DEn Spend (£)
V/01/00004/00/00	Development of Oscillating Water Columns	National Engineering Laboratory	1 April 1976	31 March 1978	1,898,645
V/01/00045/00/00	Feasibility Study of the Wells Oscillator	Queens University of Belfast	1 January 1979	31 October 1979	50,150
V/04/00147/00/00	Consultancy on Review of NEL Oscillating Water Column Device (OWC)	National Engineering Laboratory	22 August 1990	22 July 1991	17,500
V/03/00157/00/00	Wave Tank Testing of Wave Power Collectors	Wavegen	1 September 1991	31 May 1992	49,324
V/03/00162/00/00	Costing and Assessment of Art OWC	Advanced Mechanics and Engineering Limited	3 August 1992	30 April 1993	23,260
V/02/00174/00/00	Assessment of Art Ospres, Tow-Out and Turbine	Wavegen	1 December 1993	31 March 1994	11,850
V/06/00180/00/00	Wave Energy Conversion: Wavegen Project Development Conversion	Wavegen	1 February 2000	31 January 2002	34,500
V/06/00183/00/00	Research into the Further Development of the Limpet Shoreline Wave Energy Plant	Wavegen	12 June 2000	11 June 2002	231,703
V/06/00190/00/00	Prolongation of Deployment and Monitoring of 'SPERBOY' Wave Energy Device	University of Plymouth	1 April 2001	31 March 2002	49,803
V/06/00196/00/00	The Potential for Using Disused Coastal Mineshafts to Exploit Wave Energy	Wardell Armstrong International Ltd	1 August 2001	31 July 2004	114,479
V/06/00201/00/00	Near Shore Floating OWC—Prototype Development and Evaluation	Wavegen	1 January 2003	31 July 2004	67,820
V/06/00202/00/00	Near Shore Floating OWC—Power Take—Off System	Wavegen	1 January 2003	30 June 2005	131,500
V/06/00201/00/00	Near Shore Floating OWC—Prototype Development and Evaluation	Wavegen	1 January 2003	31 July 2004	67,820
V/06/00202/00/00	Near Shore Floating OWC—Power Take—Off System	Wavegen	1 January 2003	30 June 2005	131,500

DTI is not aware of any wave power device called "superbouy". However, DTI has funded a project concerning a device called "Sperboy" carried out by the University of Plymouth. This was: V/06/00190/00/00, Prolongation of Deployment and Monitoring of 'SPERBOY' Wave Energy Device. Details of this project are included in the table.

Wind Turbines

Mr. Greenway: To ask the Secretary of State for Trade and Industry what assessment procedures he has established for applications for grant-aided wind turbine projects to ensure their viability in terms of electricity generation. [42325]

Malcolm Wicks: Grants given under the Clear Skies Programme stipulate that approved products are used and that these meet relevant product regulation guidelines. Further details can be obtained from the Clear Skies website at www.clear-skies.org.

Applications are assessed on their technical merit but it is for the customer to decide whether evidence of performance and payback period is acceptable.

Many customers install renewable technologies as their individual environmental commitment and although concerned with economic viability this is not their overriding driver when choosing to install a renewable technology.

Stringent criteria were used to assess all project applications made under the offshore wind capital grants programme.

Mr. Greenway: To ask the Secretary of State for Trade and Industry what criteria in terms of minimum electricity generation are set by his Department for grant-aided wind turbine projects on domestic properties. [42326]

Malcolm Wicks: Under the Clear Skies Programme, which offers grants for the installation of domestic wind turbines, the turbines must have a minimum output of 500w at a wind speed of 12m per second.

WTO Meeting (Hong Kong)

Ms Barlow: To ask the Secretary of State for Trade and Industry what progress has been made following the roadmap for a final agreement to the Doha development round agreed to in Hong Kong; what steps the Government are taking to promote a pro-development agenda within the negotiations; and if he will make a statement. [42512]

Ian Pearson: The World Trade Organisation ministerial in December set a deadline of the end of April for modalities, and the end of July for tariff schedules. Strong political will and hard work will be needed to achieve these deadlines. The World Economic Forum in Davos, later this month, and the associated trade meetings, will provide the first opportunity for the major players to define their ambitions for the year and to set out a path to April.

The UK Government are strongly committed to a pro-development outcome and will continue to push hard for an ambitious development package.

HEALTH

Animal Testing

Susan Kramer: To ask the Secretary of State for Health what plans there are to carry out an independent assessment of the use of animals in *(a)* drug safety testing and *(b)* medical research; and if she will make a statement. [41103]

Jane Kennedy: There are no plans for an independent assessment of the use of animals as surrogate humans in either drug safety testing or medicinal research.

Aspartame

Mr. Ancram: To ask the Secretary of State for Health what studies have been *(a)* commissioned and *(b)* evaluated by her Department on the potential dangers to health from the inclusion of aspartame in foodstuffs; and if she will list make a statement. [42625]

Caroline Flint: Aspartame was first reviewed in 1982 by the United Kingdom's Committee on toxicity, consumer products and the environment (COT), a committee of independent experts who advise the Government on the safety of food chemicals. New data on aspartame was reviewed by COT in 1992 and the UK Committee on the carcinogenicity of chemicals in food, consumer products and the environment (COC) in 1996. The COT was satisfied that aspartame was acceptable for use in food and the COC considered there was no link between brain tumors and aspartame.

In 2001, the European Commission's Scientific Committee on food (SCF) revisited its previous safety assessment of aspartame and concluded that there is no evidence to suggest a need to revise the outcome of their earlier risk assessment.

In July 2005, the COC considered the findings of a study published by the Ramazzini Institute on the potential carcinogenicity of aspartame. The Committee made initial observations on the data and noted the data will be fully evaluated by the European Food Safety Authority. The Food Standards Agency will consider its position on aspartame in light of the advice from EFSA, when this is received.

Blood Type

Keith Vaz: To ask the Secretary of State for Health what steps her Department takes to ensure that individuals are aware of their blood type. [42027]

Caroline Flint: The Department has no plans to ensure that individuals are made aware of their blood type.

Breastfeeding

Mr. Kidney: To ask the Secretary of State for Health what research her Department has *(a)* commissioned and *(b)* evaluated on the health effects of food additional to breast milk on babies aged between four and six months. [29594]

Caroline Flint: The Department recommends breast milk as the best form of nutrition for infants and recommends exclusive breastfeeding for the first six months of an infant's life. If a mother is unable to, or chooses not to breastfeed, a breast milk substitute should be used.

The Scientific Advisory Committee on Nutrition stated in 2003 that there is sufficient evidence that exclusive breastfeeding for six months is nutritionally adequate. The Department has not commissioned further research into the health effects of food additional to breast milk between four and six months.

BT10 Contamination Incident

Alan Simpson: To ask the Secretary of State for Health what the gross cost to public funds was of the recent BT10 contamination incident; and what proportion of costs incurred have been refunded by Syngenta. [42405]

Caroline Flint: The Food Standards Agency has not estimated the total cost to public funds associated with the recent BT10 contamination incident. No costs have been refunded by Syngenta.

Community Health Services

Helen Jones: To ask the Secretary of State for Health what arrangements she proposes to put in place for *(a)* reviewing and *(b)* managing clinical governance in areas where a variety of providers deliver community health services. [41890]

Jane Kennedy *[holding answer 16 January 2006]:* Primary care trusts (PCTs) are responsible for ensuring that community health services have satisfactory arrangements for clinical governance, whether they are provided by the PCT or commissioned from alternative providers. The Healthcare Commission's annual health check of PCTs will among other things assess how well they are discharging this responsibility.

Cosmetic Surgery

Mr. Lansley: To ask the Secretary of State for Health what estimate has been made of the total cost of the website providing information for people considering cosmetic surgery, as announced by her Department's Chief Medical Officer on 22 December 2005, broken down by cost area; and what her latest estimate is of the website's annual running costs. [41966]

Jane Kennedy: The Department wishes to promote patient safety by ensuring that people who are considering cosmetic surgery have access to reliable, evidence-based information to help them to make properly informed decisions. The Department therefore launched its information resource for patients considering cosmetic surgery on 22 December 2005.

The Department spent £5,000 on developing the text of this resource, which is not hosted as a separate website but is held in a dedicated section comprising of 58 pages within the main Departmental website. It is not possible to provide a breakdown of maintenance or development costs by section or page.

Mrs. James: To ask the Secretary of State for Health if she will make a statement on the regulation of the cosmetic surgery industry. [42045]

Jane Kennedy: Cosmetic surgery is currently regulated as a listed service under the Care Standards Act. Providers must adhere to the provisions of the Private and Voluntary Healthcare Regulations 2001 and are inspected by the Healthcare Commission.

The Department accepted the recommendations made in the report of the expert group on the Regulation of Cosmetic Surgery, published on 28 January 2005, and plans to regulate to improve patient safety for people receiving non-surgical cosmetic treatments involving botulinum toxin and dermal fillers.

Diamorphine

Ian Lucas: To ask the Secretary of State for Health what recent assessment she has made of the availability of diamorphine to the NHS. [41899]

Jane Kennedy: The Department is in close contact with both suppliers of diamorphine to the national health service and is continuing to monitor the supply situation carefully. The product is available from both Wockhardt UK and Chiron, but supplies are limited and are likely to remain so for the coming months.

Femara

Mr. Pelling: To ask the Secretary of State for Health which health authorities allow for the prescription of Femara. [41122]

Jane Kennedy: Femara (letrozole) is licensed for the treatment of early invasive breast cancer in postmenopausal women who have received prior standard adjuvant tamoxifen therapy. Prescribing of Femara is a matter for local decision; there are no national restrictions on the prescribing of this drug.

The National Institute for Health and Clinical Excellence (NICE) is currently undertaking an appraisal of Femara as part of a wider appraisal of hormonal therapies for the treatment of early breast cancer. Information about NICE'S current work programme is available on the NICE'S website at www.nice.org.uk

In 1999, the Department issued Health Service Circular (HSC) 1999/176, which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE has not yet been issued. These arrangements should include an assessment of the available evidence.

Hammersmith Hospitals NHS Trust

Mr. Hands: To ask the Secretary of State for Health how many staff there were in the Hammersmith Hospitals NHS Trust in each year since its creation. [41604]

Jane Kennedy: The latest figures available for national health service staff in the Hammersmith Hospitals NHS Trust by main staff group for the years 1994 to 2004 are shown in the table.

NHS staff in the Hammersmith hospitals NHS Trust by main staff group as at 30 September each specified year

Headcount

	1994[1]	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Hammersmith Hospitals NHS Trust total	4,791	4,609	4,209	4,316	4,242	5,322	5,404	5,804	5,805	5,726	6,146

Health and Social Care Information Centre Non-Medical Workforce Census
Health and Social Care Information Centre Medical and Dental Workforce Census

Herceptin

Mr. Paterson: To ask the Secretary of State for Health whether the Department holds data from the process of licensing Herceptin for late stage breast cancer that could be made available to expedite the licensing of the drug for early stage breast cancer. [25362]

Jane Kennedy: When the marketing authorisation holder, Roche, submits a licence variation application for the use of Herceptin in early stage breast cancer, new clinical data will be required to support this indication. The Medicines and Healthcare products Regulatory Agency already holds the quality, pre-clinical and clinical data which it assessed for Herceptin for the indication of late stage breast cancer and these will be available if required. However, it is very unlikely there will be a need to reassess previously submitted data.

Influenza Vaccine

Mr. Lansley: To ask the Secretary of State for Health what her estimate is of the take-up of winter influenza vaccine in *(a)* at-risk groups and *(b)* all other groups since September. [31912]

Caroline Flint: Information on influenza uptake since 2005 in at risk groups and those aged 65 and over is available on the Department's website at:

www.dh.gov.uk/AboutUs/MinistersAndDepartmetLeaders/ChiefMedicalOfficer/Features/FeaturesArticle/fs/en?CONTENT_ID=4103271&chk=2ijGJ5.

Bill Wiggin: To ask the Secretary of State for Health what steps she is taking to ensure provision of free influenza vaccinations for people who qualify in areas where supplies of the vaccine have been exhausted. [26151]

Caroline Flint: Having been alerted that some general practitioners may be facing a shortage of vaccine, the Department wrote to all primary care trust flu immunisation co-ordinators with details of how to order additional vaccine from our contingency stock, should extra be required by practices in their area. This vaccine has now been distributed to those affected practices. In addition to this, we have also secured an extra 800,000 doses of vaccine which will be delivered this month.

Mental Illness

Ms Abbott: To ask the Secretary of State for Health what information the Department collects on the ethnic origin of patients treated for mental ill-health in Hackney North and Stoke Newington. [41229]

Jane Kennedy: The information requested is shown in the table.

Number of discharges from national health service hospitals with a primary psychiatric diagnosis, by ethnic origin, East London and the City Mental Health Trust, 2004-05

Ethnic origin	*Male*	*Female*	*Total*
British (White)	600	490	1,090
Irish (White)	60	40	90
Any other White background	160	140	300
White and Black Caribbean (Mixed)	20	30	50
White and Black African (Mixed)	20	10	30
White and Asian (Mixed)	0	10	10
Any other Mixed background	10	10	10
Indian (Asian or Asian British)	50	40	90
Pakistani (Asian or Asian British)	40	20	70
Bangladeshi (Asian or Asian British)	130	70	190
Any other Asian background	30	20	50
Caribbean (Black or Black British)	150	160	310
African (Black or Black British)	170	130	300
Any other Black background	140	80	220
Chinese	10	10	20
Any other ethnic group	40	20	50
Not stated	100	50	140
Total	1,710	1,310	3,020

Notes:

1. Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.
2. Figures have been rounded to the nearest 10.
3. Figures may not add up due to rounding.

Source:

Hospital Episode Statistics, NHS Health and Social Care Information Centre.

Minibuses

Mr. Pelling: To ask the Secretary of State for Health whether the pilot use in Croydon of minibuses instead of ambulances to ferry inebriated patients to hospital has been considered for introduction in other parts of the country. [41121]

Jane Kennedy: The Government is always interested in new initiatives to tackle alcohol harms. We are aware that London Ambulance Service is currently piloting the use of minibuses instead of ambulances to ferry patients involved in minor alcohol-related incidents to hospital. This trial will be reviewed in January and we will be interested to see the outcome of the evaluation.

This would ultimately be a local matter for health, social care, police and other agencies to determine how best to meet the needs in their area.

Pharmaceuticals (Adverse Reactions)

Susan Kramer: To ask the Secretary of State for Health (1) how many people have died as a result of adverse reactions to pharmaceuticals in each of the last five years; [41102]

(2) what estimate she has made of the cost to the NHS of treating people who have suffered adverse reactions to pharmaceuticals in each of the last five years. [41104]

Jane Kennedy: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Commission for Human Medicines (CHM) through the spontaneous reporting scheme, the yellow card scheme. Approximately 19,000 reports of suspected ADRs are sent to the MHRA/CHM through this scheme each year. It is not possible to estimate from the yellow card scheme the number of people who suffer adverse reactions to medicines since the scheme is associated with an unknown level of under-reporting.

It is important to note that the submission of a suspected ADR report does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships, including temporal association, the possible contribution of concomitant medication and the underlying disease.

The table shows the total number of suspected ADR reports and ADR reports with a fatal outcome received via the yellow card scheme from 2001 to 2005 inclusive.

Total number of suspected ADR reports and reports with a fatal outcome received by the MHRA.

	Total number of reports	*Number of reports with a fatal outcome*
2001	21,460	648
2002	17,511	667
2003	18,621	738
2004	18,977	857
2005	19,927	1,013

A study funded by the MHRA and published in the *British Medical Journal* on 2 July 2004, was conducted in two large hospitals in Merseyside in order to ascertain the current burden of ADRs in the national health service. The study found that of 18,820 patients aged over 16 years admitted to hospital over a six-month

period, there were 1,225 admissions judged to be related to an ADR, giving a prevalence of 6.5 per cent. Of these 1,225, the ADR was judged to lead directly to the admission in 80 per cent. of cases. The median bed stay was eight days, accounting for 4 per cent. of the hospital bed capacity. The projected annual cost of such admissions to the NHS was £466 million.

Prescription Charges

Mr. Chope: To ask the Secretary of State for Health if she will estimate the cost to her Department of including all patients who are terminally ill within the exempt category for the purposes of prescription charges. [42755]

Jane Kennedy *[holding answer 16 January 2006]:* The estimated cost to the Department would be in the region of £2 million per annum in lost prescription charge revenue.

Private Members' Bills

Mr. Amess: To ask the Secretary of State for Health pursuant to the answer of 28 October, *Official Report*, column 588, on Private Members' Bills, when the information ceased to be collected; and if she will make a statement. [32753]

Jane Kennedy: The information requested has never been collected.

Smoking and Blindness

Mr. Rob Wilson: To ask the Secretary of State for Health what plans she has to cite the links between smoking and blindness in public health campaigns on smoking cessation. [34196]

Caroline Flint: We currently do not have any plans to cite the links between smoking and blindness in our public health campaigns on smoking cessation. We are in the process of developing our future strategy on public health campaigns on smoking. However, it is widely recognised that smoking is linked to many serious and chronic conditions.

PRIME MINISTER

Telephone Tapping

Mr. Evans: To ask the Prime Minister (1) what decision has been made on requests for the tapping of hon. Members' telephone lines; [43854]

(2) what representations he has received *(a)* in favour of and *(b)* against tapping right hon. and hon. Members' telephone lines; [43855]

(3) what recent discussions he has had on the tapping of hon. Members' telephone lines; [43856]

(4) if he will make a statement on the Wilson doctrine on tapping hon. Members' telephones. [44186]

The Prime Minister: I refer the hon. Members to the written ministerial statement I made on 15 December 2005, *Official Report*, column 173WS.

DEFENCE

C-130 Hercules

Mr. Gray: To ask the Secretary of State for Defence what discussions he is having with manufacturers of the Hercules C130J and K about retrospectively fitting foam flame retardants to the fuel tank. [43371]

Mr. Ingram: The Hercules Integrated project team is discussing with Marshalls Aerospace the possible fitting of explosive suppressant foam to our C-130 aircraft.

Correspondence

Mr. Austin Mitchell: To ask the Secretary of State for Defence (1) whether the letter of 10 April 2001 from Alan Burnham, acting chief executive of the War Pensions Agency, to Nick Gibbons of the Cabinet Office was seen by the responsible Minister when it was received; [41146]

(2) whether the advice from the War Pensions Agency on the defensibility of the proposed restriction on compensation to civilian detainees of the Japanese to British citizens with a blood link with the UK was made known to Ministers when the decision was made to restrict payments. [41142]

Mr. Touhig: There is no evidence to suggest that the letter of 10 April 2001 or other advice from the Agency on the defensibility of the birthlink criterion were seen by Ministers at the time; however, Ministers were made aware of the concern, that had been expressed by the chief executive, that substantial numbers of claims would be rejected as a result of adopting the "birthlink" criterion before this was made public by the Veterans Minister on 11 July 2001.

The Ministry of Defence's current review of the consistency of eligibility criteria will consider the genesis of the birthlink criterion, in which the agency had been closely involved. It will also consider the nature and handling of the concerns that the agency's chief executive raised in the light of early experience of operating of the birthlink criterion.

Departmental Estate (Castle Point)

Bob Spink: To ask the Secretary of State for Defence what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42898]

Mr. Touhig: The Ministry of Defence does not own or lease any land or property in the Castle Point constituency. However the following freehold properties are used by the Reserve Forces and Cadets Association which is funded by this Department:

A property used by the Air Training Corps in Waverley Drive, Thundersley; and

A Cadet Centre in Runnymede Road, Canvey Island.

Departmental Land

Mr. Amess: To ask the Secretary of State for Defence what *(a)* land and *(b)* property his Department owns in the Southend, West constituency. [41757]

Mr. Touhig: The Ministry of Defence does not own or lease any land or property in the Southend, West constituency. However the following properties are used by reserve forces and Cadets Association, which is funded by the Department:

a property used by the Air Training Corps (leasehold), in Wells Avenue, Southend; and

an Army Cadet Centre (freehold) property in Eastwood road, Leigh on Sea.

Eurofighter Typhoon

Mr. Bone: To ask the Secretary of State for Defence pursuant to the answer of 11 January 2006, *Official Report*, column 667W, in what ways the estimated cost of the Eurofighter Typhoon is commercially sensitive. [42967]

Mr. Ingram: The Eurofighter Typhoon financial figures concerned will remain commercially confidential until their release will no longer be prejudicial to the UK's interests.

Iraq

Mr. Todd: To ask the Secretary of State for Defence what resources he has made available to the Oxfordshire coroner to ensure that he is able to proceed with inquests into the deaths of UK personnel in Iraq; and if he will make a statement. [32360]

Ms Harman: I have been asked to reply.

Additional funding has been made available to assist the coroner on an exceptional basis. This has allowed Thames Valley police and Oxfordshire county council to provide additional staff dedicated to the preparation of inquest cases relating to those British personnel and others who have met their deaths in Iraq since March 2003. Further funds will be made available in the next financial year. In all £80,000 will be paid.

ISAF (Afghanistan)

Mr. Ancram: To ask the Secretary of State for Defence how many helicopters are available to NATO in the International Security Assistance Force in Afghanistan; and to which members of NATO they belong. [42628]

Mr. Ingram: As of 14 January, there are 15 helicopters dedicated to NATO in Afghanistan. These have been provided to ISAF by Germany, Spain and Italy. Other NATO members, such as the United States, have helicopters in Afghanistan which can be made available to ISAF depending on operational task and priority.

Mercian Regiment

Peter Luff: To ask the Secretary of State for Defence whether Catterick is being considered as a possible location of the headquarters of the new Mercian Regiment. [42462]

Mr. Ingram: As the hon. Member will be aware, there is an ongoing study into the future of Infantry Regimental Headquarters (RHQ). It is too early to speculate on what the outcomes of this review will be, but it is anticipated that a final decision will be announced by the spring.

Military Complaints Procedures (Independent Assessor)

Mr. McGrady: To ask the Secretary of State for Defence pursuant to the answer of 10 October 2005, *Official Report*, column 12–13W, on the Independent Assessor of Military Complaints procedures, on what basis he made his decision that aspects other than those involving the policing of the 11 and 12 July 2004 North Belfast parades had been examined in sufficient detail. [42406]

Mr. Ingram: As indicated in my answer of 10 October 2005, *Official Report*, column 12–13W the policing of the North Belfast parades was examined in considerable detail by Keir Starmer QC and Jane Gordon in their special report for the Policing Board published in November 2004. Although this report did concentrate on the policing aspects of the parades, it also included consideration of the Army's support to the PSNI.

In light of this report, the relevant arrangements were fully reviewed internally following the 2004 marching season by the PSNI and Army, and a comprehensive and progressive training programme was initiated to exercise and develop these arrangements prior to marching season 2005. We are satisfied with the arrangements in place for joint operations with the PSNI and believe that they properly and fully address the concerns raised in the report.

Procurement Contracts

Angus Robertson: To ask the Secretary of State for Defence how many procurement contracts for military equipment with a value greater than £1 million have been agreed with non-UK companies in each year since 2001; what their total value was in each year; how many such contracts were won by *(a)* US companies, *(b)* non-EU companies and *(c)* EU companies in each year since 2001, broken down by country; what the value was of each such contract; and if he will make a statement. [42070]

Mr. Ingram: The information is not held centrally and could be provided only at disproportionate cost.

Project Hyperion

Robert Key: To ask the Secretary of State for Defence when he will announce the conclusions of Project Hyperion; and if he will make a statement. [42981]

Mr. Ingram: Work to consider the benefits of rationalisation and collocation of the two main Army HQs-HQ land (currently based in Wilton) and HQ Adjutant General (currently based in Upavon)—is ongoing. The Army is still determining the possible size and structure of the new HQ organisation and, in parallel, assessing a number of site options. We intend to inform the House about the final size and structure of the new HQ towards the end of this year. It is planned

that an announcement about possible future locations will be made by the spring. Full collocation—assuming it is finally approved—is unlikely to be completed before 2009.

Research and Development Facility (Colchester)

Bob Russell: To ask the Secretary of State for Defence if he will make a statement on the future of the research and development facility at Caversfield. [41480]

Mr. Ingram: The current proposal, subject to Trades Union consultation, is to close the Clothing Research and Development facility. Under the proposal, acquisition essential services would be moved into the Defence Clothing Integrated Project Team, also based at Caversfield, and the Research Programme would be competed for by industry and academia.

Bob Russell: To ask the Secretary of State for Defence if he will arrange for an independent review of the operation of the research and development facility following its transfer from Colchester to Caversfield in 2001. [41481]

Mr. Ingram: The future of the Clothing Research and Development facility has been under constant review both prior to, and since its transfer from Colchester. Independent advisors have already been involved in the review process.

Bob Russell: To ask the Secretary of State for Defence how many people were made redundant when the research and development facility was transferred from Colchester to Caversfield; how many staff from Colchester transferred to Caversfield; and how many of the transferred staff still work for R and D at Caversfield. [41477]

Mr. Ingram: The number of people made redundant when the research and development facility was transferred from Colchester to Caversfield was 24.

The number of Colchester staff that transferred to the DLO Caversfield site was 46.

Of those that moved from Colchester to Caversfield in March 2001, six remain employed within the Defence Clothing Research and Project Support.

Royal Navy

Mr. Ancram: To ask the Secretary of State for Defence how many *(a)* surface ships, *(b)* submarines and *(c)* auxiliary vessels are (i) available to and (ii) deployable by the Royal Navy; and what the equivalent numbers were in 2000. [42624]

Mr. Ingram: The vessels available to be deployed by the Royal Navy, which is interpreted as those platforms in Fleet Time having achieved their mandatory collective training, together with the comparative figures for the year 2000, are:

	January	
	2000	*2006*
Surface ships	83	62
Submarines	6	5
Auxiliary vessels	22	17

Territorial Army

Mr. Lancaster: To ask the Secretary of State for Defence (1) how many members of the Territorial Army qualified for their annual bounty in each of the last five years; [41663]

(2) how many members of the Territorial Army have been mobilised more than once in the last five years; [41655]

(3) how many vacancies there are in the Territorial Army; [41657]

(4) what percentage of soldiers on operational service are members of the *(a)* Territorial Army and *(b)* Regular Army Reserve; [41659]

(5) what the strength of the Territorial Army is, broken down by *(a)* officers and *(b)* other ranks; [41660]

(6) whether members of the Officer Training Corps (OTC) are included in the current strength of the Territorial Army; and how many members of the OTC there are. [41661]

Mr. Touhig: The number of Territorial Army personnel qualifying for annual bounty in any training year (April-March) is not held centrally and could be provided only at disproportionate cost. However, information on paid bounties (usually for the qualifications gained in the previous year) is shown in the following table.

Period	
April 2004 to March 2005	23,560
April 2003 to March 2004	25,450
April 2002 to March 2003	26,020
April 2001 to March 2002	26,050
April 2000 to March 2001	28,370

Note:

Totals have been rounded to the nearest 10. Those totals divisible by five have been rounded to the nearest multiple of 20 to prevent systematic bias.

1,113 members of the Territorial Army (TA) have been called out more than once over the past five years. This figure includes individuals who may have reported for mobilization but subsequently did not mobilize for medical or other reasons. Information on individuals in this category is not held centrally and could be provided only at disproportionate cost.

The strength (broken down by officers, soldiers and officer training corps (OTC)) and liability of the TA (including OTC) as at 1 December 2005 can be found in the following table:

Strengths of the Territorial Army (TA) as at 1 December 2005

	Territorial Army	*of which are Officer Training Corps (OTC)*	*of which are mobilised*
Liability	41,610	3,500	—
Total	37,430	5,750	1,180
Officers	5,450	—	200
Soldiers	31,980	5,750	980
Surplus/Deficit[1]	-4,180	2,250	—

[1] The surplus/deficit figure is the difference between the liability and the total number of TA personnel.

Notes:

1. The data excludes full-time reserve service (FTPS).
2. Figures exclude 1,070 non-regular permanent staff (NRPS), of which 200 are officers and 880 are soldiers.
3. The data have been rounded to the nearest 10, numbers ending in '5' have been rounded to the nearest multiple of 20 to prevent systematic bias.
4. Totals have been rounded separately and therefore may not be equal to the sum of their parts.

Currently, the TA and Regular Army Reserve form approximately 8 per cent. and 1.4 per cent. respectively of the Regular Army's overall capability deployed on operations (this includes members of the TA and Regular Army Reserve who have been mobilized in support of operations but not necessarily deployed).

Mr. Lancaster: To ask the Secretary of State for Defence how many members of the Territorial Army who were mobilised and attended RTMC Chilwell subsequently were not deployed *(a)* on medical grounds, *(b)* because of failure of individual training directives tests at RTMC and *(c)* for other reasons in each of the last five years. [41664]

Mr. Touhig: Numbers of TA personnel who attended RTMC Chilwell and did not pass to a receiving unit are set out in the following table; figures for those TA members who reached a receiving unit but were not subsequently deployed are not available.

Reason for 'failure'	*2001*	*2002*	*2003*	*2004*	*2005*
Medical and dental failures	20	20	1,040	50	40
Individual revocations upheld	n/k	n/k	980	210	50
Employer revocations upheld	n/k	n/k	770	140	40
Post no longer available	30	20	180	0	0
Administrative grounds	0	0	30	0	0
Compassionate grounds	0	0	20	0	0
Non-acceptance by receiving unit	0	0	10	0	0
Volunteer changed mind	0	0	0	0	0

Note:
The data has been rounded.

Figures are not held on the number of individuals who attended RTMC but were not mobilised due to failure of individual training directive tests. These individuals would be accepted by the deploying unit and either given the required level of training or returned to a (non-deployed) unit.

WALES

Police Force Restructuring

Mr. Bone: To ask the Secretary of State for Wales if he will make a statement on police force restructuring in Wales. [41874]
